ANNUAL MEETING OF SHAREHOLDERS

TO BE HELD DECEMBER 3, 2010

PROXY STATEMENT

SOLICITATION OF PROXIES

The Board of Directors of Pro-Dex, Inc. (the Company or Pro-Dex) has made these materials available to you on the Internet, or, upon your request, has delivered printed versions of these materials to you by mail, in connection with the Board's solicitation of proxies for use at the Company's Annual Meeting of Shareholders to be held at the Pro-Dex company headquarters, 2361 McGaw Avenue, Irvine, California, on Friday, December 3, 2010, at 8:00 A.M. Pacific Time, and at any and all adjournments or postponements thereof. Shareholders are requested to promptly vote by proxy over the Internet by following the instructions provided in the Notice of Internet Availability of Proxy Materials, which was previously mailed to you on or about October 25, 2010. If you request printed copies of the proxy materials by mail, you can also vote by mail or by telephone. All shares represented by each properly submitted and unrevoked proxy received on the Internet or by telephone prior to 11:59 P.M. Eastern Time on Thursday, December 2, 2010, or by proxy card prior to or at the Annual Meeting will be voted in the manner specified therein, and if no direction is indicated, for each director nominee (except in the case of broker non-votes) and for each of the other proposals described on the proxy card.

Any shareholder has the power to revoke his or her proxy at any time before it is voted. A proxy may be revoked by delivering a written notice of revocation to the Secretary of the Company prior to or at the Annual Meeting, by voting

again on the Internet or by telephone (only your latest Internet or telephone proxy submitted prior to 11:59 P.M. Eastern Time on Thursday, December 2, 2010, will be counted), by submitting prior to or at the Annual Meeting a later dated proxy card executed by the person executing the prior proxy, or by attendance at the Annual Meeting and voting in person by the person submitting the prior proxy.

Any shareholder who owns shares in street name and would like to vote in person at the Annual Meeting should inform his or her broker bank of such plans and request a legal proxy from the broker. Such shareholders will need to bring the legal proxy with them to the Annual Meeting and valid picture identification such as a driver's license or passport in addition to documentation indicating share ownership. Such shareholders who do not receive the legal proxy in time should bring with them to the Annual Meeting their most recent brokerage account statement showing that they owned Pro-Dex stock as of the record date. Upon submission of proper identification and ownership documentation, the Company will be able to admit the shareholder to the Annual Meeting; however, such shareholder will not be able to vote his or her shares at the Annual Meeting without a legal proxy. Shareholders are advised that if they own shares in street name and request a legal proxy, any previously executed proxy will be revoked, and such shareholder's vote will not be counted unless he or she appears at the Annual Meeting and votes in person.

The Company's Board of Directors does not presently intend to bring any business before the Annual Meeting other than the proposals referred to in this proxy statement and specified in the accompanying Notice of Meeting. So far as is known to the Company's Board of Directors, no other matters are to be brought before the Annual Meeting. As to any business that may properly come before the Annual Meeting, however, it is intended that shares represented by proxies held by management will be voted in accordance with the judgment of the persons voting the shares.

This proxy statement, the accompanying proxy card, the Company's Annual Report on Form 10-K and a letter to shareholders are being made available on the Internet at www.proxyvote.com through the notice and access process to the Company's shareholders on or about October 25, 2010. The cost of soliciting proxies will be borne by the Company. The solicitation will be made through the Internet and expenses will include reimbursement paid to brokerage firms and others for their expenses in forwarding solicitation material regarding the Annual Meeting to beneficial owners of the Company's Common Stock. Further solicitation of proxies may be made by mail upon request, and telephone or oral communications with some shareholders. The Company's regular employees, who will not receive additional compensation for the solicitation, or a compensated proxy solicitation firm, will make such further solicitations.

OUTSTANDING SHARES AND VOTING RIGHTS

Only holders of record of the 3,251,333 shares of the Company's Common Stock outstanding at the close of business on October 8, 2010, are entitled to notice of and to vote at the Annual Meeting or any adjournment or postponement thereof. Under Colorado law, the Company's Articles of Incorporation, and the Company's Bylaws, the holders of a majority of the total shares entitled to vote at the Annual Meeting, as of the record date, represented in person or by proxy, will constitute a quorum for the transaction of business at the Annual Meeting. If a quorum is not present, the Annual Meeting may be postponed or adjourned to allow additional time for obtaining additional proxies or votes. At any subsequent reconvening of the Annual Meeting, all proxies will be voted in the same manner as the proxies would have been voted at the original convening of the Annual Meeting, except for any proxies that have been effectively revoked or withdrawn prior to the reconvening of the Annual Meeting. Shares of the Company's Common Stock represented in person or by proxy (regardless of whether the proxy has authority to vote on all matters), as well as abstentions and broker non-votes, will be counted for purposes of determining whether a quorum is present at the Annual Meeting.

An abstention is the voluntary act of not voting by a shareholder who is present at a meeting and entitled to vote.

Broker non-votes are shares of voting stock held in record name by brokers and nominees concerning which: (i) the broker or nominee does not have discretionary voting power under applicable rules or the instruments under which it serves in such capacity and instructions have not been received from the beneficial owners or persons entitled to vote; or (ii) the record holder has indicated on the proxy or has executed a proxy and otherwise notified the Company that it does not have authority to vote such shares on that matter.

Assuming a quorum is present, for Proposal 1 (the election of directors) the five nominees for director receiving the highest number of affirmative votes will be elected; votes withheld, broker non-votes and votes against a nominee have no practical effect. In matters other than election of directors and, assuming that a quorum is present for each matter, the matter will be approved if the votes cast in favor of the matter exceed the votes cast opposing the matter. In such matters, abstentions and broker non-votes will not be included in the vote totals and, therefore, will have no effect on the vote. Each shareholder will be entitled to one vote, in person or by proxy, for each share of Common Stock held of record on the record date. Votes cast at the Annual Meeting will be tabulated by the person or persons appointed by the Company to act as inspectors of election for the Annual Meeting.

Recommendation of the Company's Board of Directors

The Company's Board of Directors recommends that the Company's shareholders vote for each of the proposals described in this proxy statement and the accompanying Notice of Meeting.

In such capacity, the Nominating Committee identifies and reviews the qualifications of candidate nominees to the Board of Directors.

Recommendations should be sent to the Secretary of the Company and should include the candidate's name and qualifications and a statement from the candidate that he or she consents to being named in the proxy statement and will serve as a director if elected. The Nominating Committee believes that it is desirable that directors possess an understanding of the Company's business environment and have the requisite knowledge, skills, expertise and diversity of experience such that the Board's ability to manage and direct the affairs and business of the Company is enhanced. Additional considerations may include an individual's capacity to enhance the ability of committees of the Board to fulfill their duties and/or satisfy any independence requirements imposed by law, regulation or listing requirements. The Nominating Committee may also, from time to time, engage firms that specialize in identifying director candidates. Once a person has been identified by the Nominating Committee as a potential candidate, the Committee may collect and review publicly available information regarding the person to assess whether the person should be considered further. If the Nominating Committee determines that the candidate warrants further consideration, a member of the Nominating Committee may contact the person. Generally, if the person expresses a willingness to be considered and to serve on the Board, the Nominating Committee may request information from the candidate, review the person's accomplishments and qualifications and may conduct one or more interviews with the candidate. The Nominating Committee may consider all such information in light of information regarding any other candidates that it might be evaluating for nomination to the Board of Directors. The Nominating Committee or other Board members may also contact one or more references provided by the candidate or may contact other members of the business community or other persons that may have greater first-hand knowledge of the candidate's accomplishments. With the candidate's consent, the Nominating Committee may also engage an outside firm to conduct background checks on the candidate as part of the evaluation process. The Nominating Committee's evaluation process does not vary based on the source of the recommendation. The Nominating Committee held 2 meetings during the fiscal year ended June 30, 2010.

The full Board annually assesses Mr. Murphy's performance as Chairman of the Board and as Chief Executive Officer. The Corporate

Governance Committee recommends a Lead Director to the full Board for approval on an annual basis.

The Board has modified this structure to provide for a non-executive Chairman of the Board effective after the Annual Meeting. The Board believes that this new structure will enhance corporate governance and promote greater oversight of management.

BOARD'S ROLE IN RISK OVERSIGHT

The Board has an active role, as a whole and also at the committee level, in overseeing management of the Company's risks. The Board regularly reviews information regarding the Company's credit, liquidity and operations, as well as the risks associated with each. The Company's Compensation Committee is responsible for overseeing the management of risks relating to the Company's executive compensation plans and arrangements. The Audit Committee oversees management of financial risks. The Nominating and Corporate Governance Committee manages risks associated with the independence of the Board of Directors and potential conflicts of interest. While each committee is responsible for evaluating certain risks and overseeing the management of such risks, the entire Board of Directors is regularly informed through committee reports about such risks.

COMPENSATION COMMITTEE REPORT

The Compensation Committee is comprised of three independent directors: Messrs. Holder (Chairman), Berthelot, and Isaac.

Prior to 2009, the Company's entire Board performed the role of the Compensation Committee. Since 2009, the Compensation Committee has undertaken the duties traditionally assigned to such body including, among other things, to review with management the disclosure of compensatory information contained within the Company's proxy statement.

Compensation Committee Processes and Procedures

Typically, the Compensation Committee meets at least once each quarter and with greater frequency if necessary. The Compensation Committee met twelve times during the fiscal year ended June 30, 2010. The agenda for each meeting is usually developed by the Chairman of the Compensation Committee and the Company's outside counsel with input from the Committee members as well. The Compensation Committee meets regularly in executive session. From time to time, various members of management and other employees, as well as outside advisors or consultants, may be invited by the Compensation Committee to make presentations, provide financial or other background information or advice, or otherwise participate in Compensation Committee meetings. Our President and CEO may not participate in, or be present during, any deliberations or determinations of the Compensation Committee regarding his compensation. The charter of the Compensation Committee grants the Compensation Committee full access to all books, records, facilities and personnel of the Company, as well as authority to obtain, at the expense of the Company, advice and assistance from internal and external legal, accounting or other advisors and consultants and other external resources that the Compensation Committee considers necessary or appropriate in the performance of its duties. In particular, the Compensation Committee has the sole authority to retain compensation consultants to assist in its evaluation of executive and director compensation, including the authority to approve the consultant's reasonable fees and other retention terms.

The Compensation Committee has engaged Remedy Consulting Inc. (Remedy) as its independent compensation consultant since 2010. Over the course of its engagement, Remedy has assisted the Compensation Committee in:

- evaluating the efficacy of the Company's existing compensation strategy and practices in supporting and reinforcing the Company's long-term strategic goals;
- refining the Company's compensation strategy and developing and implementing an executive compensation program to execute that strategy; and
- reviewing and suggesting modifications to the Company's director compensation program.

As part of its engagement, the Compensation Committee has directed Remedy to develop and update, as appropriate, a comparative group of companies and to perform analyses of competitive performance and compensation levels for that group. Remedy has also conducted individual interviews with members of senior management and the Compensation Committee to learn more about the Company's business operations, strategy, key performance metrics

and strategic goals, as well as the labor markets in which the Company competes. Remedy ultimately develops recommendations and metrics that are presented to the Compensation Committee for its consideration. The Company does not have any relationship or arrangement with Remedy other than the Compensation Committee's contractual engagement of Remedy as its compensation consultant and Remedy provides no services to the Company other than those provided to the Compensation Committee.

Page 12

The Compensation Committee has made its most significant adjustments to annual compensation, determined bonus awards for executive officers, and established new financial and other corporate performance objectives for executive compensation purposes, at one or more meetings held during the first quarter of the fiscal year for which the targets and compensation levels are applicable. The Compensation Committee has adopted a policy that it will generally make determinations regarding the grant of annual equity incentive awards to Company employees at the first meeting held following the filing of the Form 10-K Annual Report for the fiscal year just ended generally the first quarter of the fiscal year. At various meetings throughout the year, the Compensation Committee also considers matters related to individual compensation, such as compensation for new executive hires, as well as high-level strategic issues, such as the efficacy of, and any risks relating to, the Company's compensation strategies, policies and practices, potential modifications to those strategies, policies and practices, and new trends, plans or approaches to compensation.

Generally, the Compensation Committee's process consists of two related elements: (i) the determination of compensation levels and (ii) the establishment of financial and other corporate performance objectives for the current fiscal year. For executive officers other than our CEO, the Compensation Committee solicits and considers evaluations and recommendations submitted to the Compensation Committee by our CEO. In the case of our CEO, the evaluation of his performance is conducted by the Compensation Committee, which determines any adjustments to his compensation as well as equity awards to be granted. For all executive officers and directors, as part of its deliberations, the Compensation Committee may review and consider, as appropriate, materials such as financial reports and projections, operational data, tax and accounting information, tally sheets that set forth the total compensation that may become payable to executive officers in various hypothetical scenarios, Company stock performance data, analyses of historical executive compensation levels and current Company-wide compensation levels, and the recommendations of its independent compensation consultants, including analyses of executive and director compensation paid at other companies identified by its independent compensation consultants. Periodically, the Compensation Committee reviews all of the incentive compensation plans within the Company in order to evaluate the level of risk that such plans may encourage and to ensure that each plan is properly monitored and evaluated. The specific determinations of the Compensation Committee with respect to executive compensation for the fiscal year ended June 30, 2010 are described herein.

Compensation Committee Philosophy

The Company's compensation philosophy is predicated upon the following concepts:

- The Company pays competitively. The Company is committed to providing a pay program that helps attract and retain highly qualified people in the industry. To ensure that pay is competitive, the Company compares its pay practices with those of other leading companies of similar size and location(s) and sets its pay parameters based on this review.
- The Company pays for sustained performance. Executive officers are rewarded based upon corporate performance and individual performance. Corporate performance is evaluated by the Board of Directors by reviewing the extent to which strategic and business plan goals are met, including such factors as revenues, operating profit and cash flow.
- The Company strives for fairness in the administration of pay and to achieve a balance of the compensation paid to a particular individual as compared to the compensation paid to other executives both inside the Company and at comparable companies.

- The Company believes that employees should understand the performance evaluation and pay administration process.

The Compensation Committee believes that it is important that the Company's executives be compensated in a manner that closely links compensation with performance and yet does not incent excessive risk-taking. To that end, the Compensation Committee has developed a comprehensive and balanced compensation plan that includes a base salary; an annual cash incentive based upon pre-established operating performance targets; a long-term incentive plan based upon a combination of total shareholder return and long-term strategic objectives; equity awards; and, a package of benefits similar in scope and nature to those offered to all other employees of the Company. In comparing its compensation plans to a pre-selected peer group, the Compensation Committee has established a target compensation range at the 25th percentile of that peer group. While the Compensation Committee believes that the 25th percentile is likely a lower target than most other companies in the peer group use, the Compensation Committee, upon the advice of its independent compensation consultant, determined that the Company's small size relative to the peer group warranted the lower target.

Discussion of CEO bonus for the fiscal year ended June 30, 2010:

The Compensation Committee addressed the issue of the CEO's bonus for the fiscal year ended June 30, 2010. Under the terms of the CEO's 2006 employment agreement, the CEO's bonus is based on the percentage increase in year over year improvement in earnings, without considering non-recurring charges. Reported fiscal 2010 pre-tax income from operations before non-cash impairment and real estate valuation adjustments, rose to \$1.2 million from a loss of \$0.5 million in fiscal 2009. Mathematically, however, because the denominator of the formula was a negative number, the applicable bonus percentage would also be negative. It was the opinion of the Compensation Committee that this result was not what was intended and that equity required the Compensation Committee to reconsider the calculation.

The Compensation Committee considered the overall performance improvement of the Company over the prior year and noted that actual operating income is almost double the plan amount; that cash flow is double the plan amount; and that operating income growth over an assumed base of \$250,000 was over 400%. The Compensation Committee also recognized that the CEO had not received a salary increase in 2008-2010 as a result of his voluntary waiver of increases due him under his contract. The Compensation Committee then considered that, if the incentive plan it had adopted effective for fiscal year 2011 had been in effect for 2010 (which it had not) and had these three criteria had been the drivers for the incentive plan, the aggregate award would have been the maximum of 200% of target, which would have generated an award of approximately \$300,000 using the target of 50% of salary and the maximum payout of 200%. As a result, following discussion amongst the members of the Compensation Committee and considering input the Compensation Committee had received from the lone independent director who is not a member of the Compensation Committee - as well as from the Compensation Committee's independent compensation consultants, the Compensation Committee determined that a bonus for the fiscal year ended June 30, 2010, in the amount of \$300,000, would be considered earned by the CEO.

The CEO, however, recommended to the Compensation Committee that a portion of the bonus which the Compensation Committee awarded him should instead be allocated to other members of the senior management team who did not have the opportunity to participate in a senior management incentive program. It was the CEO's opinion that the Company would not have achieved the results that it had absent the contributions of other members of the senior management team and that these other individuals should be appropriately rewarded. Accordingly, upon the

request and recommendation of the CEO, the Compensation Committee reduced the bonus awarded to the CEO to \$225,000 and approved bonuses to three other individuals aggregating \$75,000. In addition, these senior management personnel will participate in the same annual incentive plan for senior management in which the CEO participates, commencing in fiscal 2011.

Page 14

The Compensation Committee noted while there had been goodwill impairment and real estate valuation adjustment charges recognized in the fourth quarter and that such charges were specifically excluded in determining the CEO's achievement of bonus criteria under the terms of his 2006 employment agreement, it was also the sense of the Compensation Committee that any such impairment charges should not be included in determining the CEO's bonus for fiscal year 2010 as the CEO was not the CEO at the time the acquisitions which were the subject of the impairment charges were made, and that the CEO's incentive payments should not be penalized for actions he is recommending that are in the best interest of the Company.

Compensation Committee Interlocks and Insider Participation

No interlocking relationship exists between any member of the Compensation Committee and any member of any other company's board of directors or compensation committee. No member of the Compensation Committee is, or was during the fiscal year ended June 30, 2010, an officer or employee of the Company or any of its subsidiaries or was, within the five previous fiscal years, formerly an officer of the Company or any of its subsidiaries.

For options and warrants other than those discussed above, the Board of Directors, as the administrator of the Company's 1994 and 2004 Employee Stock Option Plans and the 1994 and 2004 Director Stock Option Plans, has the discretion to accelerate any outstanding options held by the employees and directors in the event of an acquisition of the Company by a merger or asset sale in which the outstanding options under each such plan are not to be assumed by the successor corporation or substituted with options to purchase shares of such corporation.

AUDIT COMMITTEE REPORT

The Audit Committee reports to and acts on behalf of the Board of Directors in providing oversight to the financial management, independent auditors, and financial reporting procedures of the Company. The Company's management is responsible for preparing the Company's financial statements and the independent auditors are responsible for auditing those statements. In this context, the Audit Committee has reviewed and discussed the audited financial statements contained in the Company's 2010 Annual Report on Form 10-K with management and the independent auditors.

The Audit Committee has discussed with the independent auditors the matters required to be discussed by the Statement on Auditing Standards No. 61 (Communication with Audit Committees), as amended. The Audit Committee has received the written disclosures and the letter from the independent auditors required by applicable requirements of the Public Company Accounting Oversight Board regarding the independent accountant's communications with the audit committee concerning independence and has discussed with the independent auditors their independence. In concluding that the auditors are independent, the Audit Committee considered, among other factors, whether the non-audit services provided by Moss Adams, LLP were compatible with maintaining their independence.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2010, and be filed with the SEC.

The Audit Committee has retained Moss Adams, LLP to serve as the Company's independent auditors for the fiscal year ending June 30, 2011.
