Dear Mr. Sears:

As we discussed, our proposed amendment to the Stock Incentive Plan, as described in the proxy statement for Triton PCS Holdings, increases the number of shares available for issuance under the Plan. While the terms of our Plan do not directly address repricing of stock options, the Plan does permit the Compensation Committee to amend outstanding option awards to include a feature which can be used as a technique to reprice outstanding awards. However, you should note that this feature has been in the Plan since its inception and is not related to the proposed amendment. The proposed amendment is solely intended to increase the number of available shares under the Plan so that we can continue with our existing incentive compensation programs.

More importantly, while the Plan permits the issuance of options, to date we have not issued any options because the focus of our long-term incentive strategy has been the use of restricted stock. In the unlikely event that options are issued, we will not reprice those options by doing any of the following without the prior approval of our shareholders:

- o lowering the option exercise price of a previously granted award, or
- o cancellation of the outstanding options with subsequent replacement, or
- o regrant of options with lower exercise prices.

If you need further information about the proposed amendment, please contact us.

Sincerely,

/s/ David D. Clark
