ITEM 5. OTHER EVENTS

On September 23, 2002, American Resources Offshore, Inc., a wholly owned subsidiary of the registrant ("ARO"), entered into a non-binding letter of intent with Fidelity Exploration & Production Company ("Fidelity") for the sale of substantially all of ARO's proved oil and natural gas reserves and other related assets for approximately \$2.7 million. The property interests being sold are located offshore Louisiana and Texas in the Gulf of Mexico, and include 7 offshore lease blocks with non-operated interests ranging from 1% to 10%. These properties accounted for approximately 64% of the registrant's total net proved reserves on a million cubic feet of gas equivalent basis, and 63% of the discounted present value of estimated future net revenues from proved oil and

gas reserves. Combined with the South Timbalier Block 148 property that was sold in July 2002, these properties represented over 99% of the registrant's proved reserves at December 31, 2001. The registrant's remaining oil and gas properties include working interests in 5 leased offshore prospects and reversionary working interests in 13 offshore lease blocks.

The registrant expects to use the proceeds to meet its working capital requirements and to acquire other oil and natural gas reserves. The consummation of this transaction is subject to a number of conditions, including Fidelity's completion of due diligence, the execution of a definitive agreement by October 14, 2002 and approvals by the board of directors of the respective companies. There can be no assurance that this transaction will be consummated.
