COMMUNITY CAPITAL BANCSHARES, INC.
AND SUBSIDIARY
NOTES TO FINANCIAL STATEMENTS

NOTE 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS

Community Capital Bancshares, Inc. (the "Company") is a bank holding company whose business is conducted by its wholly-owned subsidiary, Albany Bank & Trust, N.A. (the "Bank"). The Bank is a commercial bank located in Albany, Georgia. The Bank provides a full range of banking services in its primary market area of Dougherty County and the surrounding counties. The Bank commenced its banking operations on April 28, 1999.

BASIS OF PRESENTATION

The consolidated financial statements include the accounts of the Company and its subsidiary. Significant intercompany transactions and accounts are eliminated in consolidation.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities as of the balance sheet date and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Material estimates that are particularly susceptible to significant change in the near term relate to the determination of the allowance for loan losses, the valuation of foreclosed real estate and deferred taxes.

The interim financial statements included herein are unaudited but reflect all adjustments which, in the opinion of management, are necessary for a fair presentation of the financial position and results of operations for the interim period presented. All such adjustments are of a normal recurring nature. The results of operations for the period ended June 30, 2003 are not necessarily indicative of the results of a full year's operations, and should be read in conjunction with the Company's annual report as filed on Form 10-KSB.

The accounting principles followed by the Company and the methods of applying these principles conform with accounting principles generally accepted in the United States of America (GAAP) and with general practices within the banking industry.

INCOME TAXES

Deferred income tax assets and liabilities are determined using the balance sheet method. Under this method, the net deferred tax asset or liability is determined based on the tax effects of the temporary differences between the book and tax basis of the various balance sheet assets and liabilities and gives current recognition to changes in the tax rates and laws.

The Company and the Bank file a consolidated income tax return. Each entity provides for income taxes based on its contribution to the income taxes (benefits) of the consolidated group.

7

STOCK COMPENSATION PLANS

At June 30, 2003, the Company had two stock-based employee compensation plans, which are described in more detail in the 2002 annual report. The Company accounts for those plans under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, Accounting for Stock Issued to Employees, and related Interpretations. No stock-based employee compensation cost is reflected in net income, as all options granted under those plans had an exercise price equal to the market value of the underlying stock on the date of grant. In addition, the FASB issued SFAS No. 148, Accounting for Stock-Based Compensation - Transition and Disclosure in December 2002. SFAS No. 148 amends SFAS No. 123, Accounting for Stock-Based Compensation, to provide alternative methods of transition for an entity that voluntarily changes to the fair value based method of accounting for stock-based employee compensation. It also amends the disclosure provisions of SFAS No. 123 to require prominent disclosure about the effects on reported net income of an entity's accounting policy decisions with respect to stock-based employee compensation. The Company has not elected to adopt the recognition provisions of this Statement for stock-based employee compensation and has elected to continue with accounting methodology in Opinion No. 25 as permitted by SFAS No. 123.

ACCOUNTING STANDARDS

In November 2002, the Financial Accounting Standards Board issued FASB Interpretation No. 45 ("FIN 45"), "Guarantor's Accounting and Disclosure Requirements for Guarantees, Including Indirect Guarantees of Indebtedness of Others, an interpretation of FASB Statements No. 5, 57, and 107 and rescission of FASB Interpretation No. 34". FIN 45 elaborates on the disclosures to be made by a guarantor in its interim and annual financial statements about its obligations under certain guarantees that it has issued. The disclosures required by FIN 45 improve the transparency of the financial statement information about the guarantor's obligations and liquidity risks related to guarantees issued. This interpretation also incorporates, without change, the guidance in Financial Accounting Standards Board Interpretation No. 34 ("FIN 34"), "Disclosure of Indirect Guarantees of Indebtedness of Others", which is being superceded. FIN 45 also clarifies that a guarantor is required to recognize, at the inception of a guarantee, a liability for the obligations it has undertaken in issuing the guarantee, including its ongoing obligation to stand ready to perform over the term of the guarantee in the event that the specified triggering events or conditions occur. The initial recognition and initial measurement provisions of

8

FIN 45 are applicable on a prospective basis to guarantees issued or modified after December 31, 2002, irrespective of the guarantor's fiscal year-end. The disclosure requirements are effective for financial statements of interim or annual periods ending after December 15, 2002. The adoption of FIN 45 did not have a material impact on the Company's consolidated financial statements.

In May 2003, the Financial Accounting Standards Board issued Statement No. 150 ("Statement 150"), "Accounting for Certain Financial Instruments with Characteristics of Both Liabilities and Equity". Statement 150 requires certain financial instruments that have characteristics of both liabilities and equity to be classified as a liability on the balance sheet. Prior to the issuance of Statement 150, the Company classified trust preferred securities as a liability on the consolidated balance sheet and its related interest cost as interest expense on the consolidated statement of income, which is consistent with the requirements of Statement 150. Statement 150 is effective for financial instruments entered into or modified after May 31, 2003, and otherwise is effective at the beginning of the first interim period beginning after June 15, 2003. Statement 150 will be effected by reporting the cumulative effect of a change in accounting principle for contracts created before the issuance date and still existing at the beginning of that interim period. The adoption of Statement 150 did not have an impact on the Company's consolidated financial statements.

NOTE 2. SUBSEQUENT EVENT

On July 3, 2003, the Company entered into an agreement to acquire all the outstanding common stock of First Bank of Dothan in exchange for cash and shares of the Company's common stock. This merger is subject to approval by various Regulatory agencies and it is expected to be consummated in the fourth quarter of 2003. Based on unaudited financial statements as of June 30, 2003, First Bank of Dothan had total assets of $26,438,000 and total equity of $3,135,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This discussion is intended to assist in an understanding of the Company's financial condition and results of operations. This analysis should be read in conjunction with the financial statements and related notes appearing in Item 1 of the June 30, 2003 Form 10-QSB and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing in the Company's Form 10-KSB for the year ended December 31, 2002.

FINANCIAL CONDITION

As of June 30, 2003 the Company's total assets were $127,962,000 representing an increase of $18,776,000 or 17.20% from December 31, 2002. Earning assets consist of Federal funds sold, investment securities and loans. These assets provide the majority of the Company's earnings. The mix of earning assets is a reflection of management's philosophy regarding earnings versus risk.

Federal funds sold represent an overnight investment of funds and can be converted immediately to cash. At June 30, 2003, federal funds sold were $6,449,000. At December 31, 2002, the Company had no federal funds sold.

Investment securities consist of U.S. Government and Agency securities and municipal bonds. These investments are used to provide fixed maturities and as collateral for advances and large public fund deposits. During the second quarter, investment securities increased $2,243,000. All securities are classified as available for sale, and are carried at current market values.

The loan portfolio is the largest earning asset and is the primary source of earnings for the Company. At June 30, 2003 net loans were $91,965,000. The loan portfolio increased $11,257,000 or 13.78% over the year-end amount. At June 30, 2003, the allowance for loan losses was $1,005,000 or 1.08% of total loans. Management believes this is an adequate but not excessive amount based upon the composition of the current loan portfolio and current economic conditions. The relationship of the allowance to total loans will vary over time based upon Management's evaluation of the loan portfolio. Management evaluates the adequacy of the allowance on a monthly basis and adjusts it accordingly by a monthly charge to earnings using the provision for loan losses. During the first two quarters of 2003, the provision for potential loan losses was $215,000 as compared to the 2002 amount of $320,000.

Non-earning assets consist of premises and equipment, and other assets. Premises and equipment decreased during the quarter as a result of depreciation expense on these assets. Other assets consist primarily of accrued interest receivable and increased $182,000 during the second quarter as a result of the larger loan portfolio upon which to accrue interest.

The Company funds its assets primarily through deposits from customers. Additionally, it borrows funds from other sources to provide longer term fixed rate funding for its assets. The Company must pay interest on the majority of these funds and attempts to price these funds competitively in the market place but at a level that it can safely re-invest the funds profitably. At June 30, 2003, total deposits were $102,537,000 as compared to the year-end amount of $86,004,000. This is an increase of $16,533,000 or 19.22%.

Interest bearing deposits are comprised of the following categories:

	June 30, 2003	December 31, 2002
Interest bearing demand and savings	$ 27,780,000	$ 23,735,000
Certificates of deposit in denominations of $100,000 or greater	22,122,000	16,413,000
Other Certificates of deposit	45,934,000	39,125,000
Total	$ 95,836,000	$ 79,273,000

Other borrowings consist of Federal Home Loan Bank advances and are secured by investment securities and loans of the Company. No new advances were obtained during the current quarter.

CAPITAL ADEQUACY

The following table presents the Company's regulatory capital position as of June 30, 2003.

Tier 1 Capital Ratio, actual	13.95%
Tier 1 Capital minimum requirement	4.00%
Tier 2 Capital Ratio, actual	15.91%
Tier 2 Capital minimum requirement	8.00%
Leverage Ratio	10.49%
Leverage Ratio minimum requirement	4.00%

The Company's ratios are well above the required regulatory minimums and provide a sufficient basis to support future growth of the Company.

RESULTS OF OPERATIONS

Net income for the six months ended June 30, 2003 is $200,000 as compared to $233,000 for the same period in 2002. Although net interest income increased by $322,000 or 18% in 2003 as compared to the first six months of 2002, net non-interest expense increased $484,000 or 44% in 2003 as compared to the first six months of 2002.

Total interest income increased $301,000 for the six months ended June 30 2003 or 9.69% from the same period in the previous year. This was the result of increased interest income on loans, which increased $419,000. The increase in interest income was the direct result of the larger loan portfolio in the current year. This increase was in spite of the declining interest rate levels during the year.

Interest expense for the six months ended June 30, 2003 is $1,317,000. This is the major expense item for the Company and decreased $20,000 from the previous year. This decrease is the direct result of the overall lower interest rate environment for the period. The Company has been able to reprice its increased level of deposits in the current year at a lower interest than the previous year.

Net interest income after the provision for loan losses is $1,876,000 for the six months ended June 30, 2003 as compared to the 2002 amount of $1,450,000. This is an increase of $426,000 or 29.38%. This increase is the combined

11

result of the increased level of earning assets, and the lower cost of funds during the current year. The overall growth rate has declined from previous years. Management is currently emphasizing a better interest margin as opposed to the higher growth rate emphasis in previous years.

Other income increased $96,000 to $479,000 for the six months ended June 30, 2003. Service charges on deposit accounts increased $73,000 or 43% due to the larger number of deposit accounts. Mortgage origination fees increased $61,000 as compared the same period in the previous year. These fees are generated by facilitating mortgage loans for customers, which are sold in the secondary market. The low interest rate levels led to increases in this area of activity in the Bank.

Non-interest expense increased $579,000 to $2,053,000 for the six months ended June 30, 2003. This is an increase of 39.27%. The largest area of increase was in the salary and employee benefits category. This expense item is $975,000 for the six months ended June 30, 2003 as compared to $705,000 for the same period in the previous year. This is an increase of $270,000 or 38.29%. The growth in this expense item is due to the increased staffing required to properly serve the Company's customers and slightly higher levels of pay during the current year.

Data processing expenses increased $44,000 or 34.38% for the six months ended June 30, 2003 as compared to the same period in the previous year. This is the result of the larger size of the Company. Administrative expenses increased $111,000 or 52.95% over the previous year of which Audit fees accounted for 45,000 of the increase. Other expenses increased $59,000 to $198,000 in the current year. The majority of this increase is the result of staff development and other operating losses both increasing $20,000 over the previous year.

Diluted earnings per share for the current year are $0.12 and decreased $0.04 or 25% from the previous year.

FORWARD-LOOKING STATEMENTS

This document contains statements that constitute "forward-looking statements" within the meaning of Sections 27A of the Securities Act of 1933, as amended, and Sections 21E of the Securities Exchange Act of 1934, as amended. The words "believe", "estimate", "expect", "intend", "anticipate" and similar expressions and variations thereof identify certain of such forward-looking statements, which speak only as of the dates that they were made. The Company undertakes no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events, or otherwise. Users are cautioned that any such forward-looking statements are not guarantees of future performance and involve risks and uncertainties that the actual results may differ materially from those indicated in the forward-looking statements as a result of various factors. Users are therefore cautioned not to place undue reliance on these forward-looking statements.

ITEM 3. CONTROLS AND PROCEDURES

As of June 30, 2003, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls

12

and procedures pursuant to Exchange Act Rule 13a-14. Based upon that evaluation, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures are effective in timely alerting them to material information relating to the Company (including its consolidated subsidiaries) that is required to be included in the Company's periodic filings with the Securities and Exchange Commission. There have been no significant changes in the Company's internal controls or, to the Company's knowledge, in other factors that could significantly affect those internal controls subsequent to the date the Company carried out its evaluation, and there have been no corrective actions with respect to significant deficiencies or material weaknesses

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

On April 21, 2003, the Company held its annual meeting of shareholders at which the following director nominees were elected to a three-year term by the votes indicated:

Directors	Votes For	Votes Withheld
Robert M. Beauchamp	1,382,354	7,859
Glenn A. Dowling	1,382,354	7,859
Mary Helen Dykes	1,382,354	7,859
Mark M. Shoemaker	1,382,354	7,859

Lawrence B. Willson	1,382,354	7,859

The following directors whose three year terms expire in 2004 continued on the Board: C. Richard Langley, Bennett D. Cotten, Jr., Jane Anne D. Sullivan, John P. Ventulett, Jr., James D. Wood. The following directors whose three year terms expire in 2005, continued on the Board: Robert M. Beauchamp, Glenn A. Dowling, Mary Helen Dykes, Mark M. Shoemaker, Lawrence B. Wilson.

Also a proposal to amend the Company's 1998 stock incentive plan, which provided for an increase in the number of shares reserved for issuance under the plan to 303,574 shares and the removal of the definitions of "Change in Control", was passed with 734,205 votes for, 22,170 votes against, and 14,877 votes withheld.
