NOTE A-SUMMARY OF ACCOUNTING POLICIES

General

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Accordingly, the results from operations for the three months period ended March 31, 2005 are not necessarily indicative of the results that may be expected for the year ending December 31, 2005. The unaudited condensed financial statements should be read in conjunction with the December 31, 2004 financial statements and footnotes thereto included in the Company's SEC Form 10 KSB.

Business and Basis of Presentation

Seawright Holdings, Inc. (the "Company") was formed on October 14, 1999 under the laws of the state of Delaware. The Company was a "development stage enterprise" (as defined in statement of Financial Accounting Standards No. 7) in prior periods until December 31, 2004. The Company is currently engaged in spring water bottling and distribution business.

The consolidated financial statements include the accounts of the Company, and its wholly-owned subsidiary, Seawright Springs LLC. Significant intercompany transactions have been eliminated in consolidation.

Reclassification

Certain reclassifications have been made to conform prior periods' data to the current presentation. These reclassifications had no effect on reported losses.

Stock Based Compensation

In December 2002, the FASB issued SFAS No. 148, "Accounting for stock-based Compensation- Transition and Disclosure- an amendment of SFAS 123." This statement amends SFAS No.123, "Accounting for Stock based Compensation" to provide alternative methods of transition for a voluntary change to the fair value based method of accounting for stock based employee compensation. In addition, this statement amends the disclosure requirements of SFAS No.123 to require prominent disclosures in both annual and interim financial compensation and the effect of the method used on reported results. The company has chosen to continue to account for stock-based compensation using the intrinsic value method prescribed in APB Opinion No.25 and related interpretations. Accordingly, compensation expense for stock options is measured as the excess, if any, of the fair market value of the Company's stock at the date of the grant over the exercise price of the related option. The Company has adopted the annual disclosure provisions of SFAS No.148 in its financial reports for the year ended December 31, 2004 and has adopted the interim disclosure provisions for its financial reports for the subsequent periods.

Had compensation costs for the Company's stock options been determined based on the fair value at the grant dates for the awards, the Company's net loss and losses per share would have been as follows:

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123R (revised 2004), "Share-Based Payment" which is a revision of FASB Statement No. 123, "Accounting for Stock-Based Compensation". Statement 123R supersedes APB opinion No. 25, "Accounting for Stock Issued to Employees", and amends FASB Statement No. 95, "Statement of Cash Flows". Generally, the approach in Statement 123R is similar to the approach described in Statement 123. However, Statement 123R requires all share-based payments to employees, including grants of employee stock options, to be recognized in the income statement based on their fair values. Pro-forma disclosure is no longer an alternative. On April 14, 2005, the SEC amended the effective date of the provisions of this statement. The effect of this amendment by the SEC is that the Company will have to comply with Statement 123R and use the Fair Value based method of accounting no later than the first quarter of 2006. Management has not determined the impact that this statement will have on Company's consolidated financial statements.

Revenue Recognition

For revenue from product sales, the Company recognizes revenue in accordance with Staff Accounting Bulletin No. 104, REVENUE RECOGNITION ("SAB104"), which superceded Staff Accounting Bulletin No. 101, REVENUE RECOGNITION IN FINANCIAL STATEMENTS ("SAB101"). SAB 101 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectibility is reasonably assured. Determination of criteria (3) and (4) are based on management's judgments regarding the fixed nature of the selling prices of the products delivered and the collectibility of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required. SAB 104 incorporates Emerging Issues Task Force 00-21 ("EITF 00-21"), MULTIPLE-DELIVERABLE REVENUE ARRANGEMENTS. EITF 00-21 addresses accounting for arrangements that may involve the delivery or performance of multiple products, services and/or rights to use assets.

NOTE B - MARKETABLE SECURITIES

During the period ended March 31, 2005 and the year ended December 31, 2004, the Company classified all of its marketable securities as trading as the securities are bought and held principally for the purpose of selling them in the near term. The Company actively and frequently traded securities with the objective of generating profits on short-term differences in price. The trading securities are marked to market on a monthly basis. At March 31, 2005 and December 31, 2004, the Company's trading securities are carried at fair value of \$1,218,487 and \$1,556,405, respectively. Total realized loss amounted \$2,157 and unrealized holding losses amounted \$17,251. The Company included \$19,408 of net loss on trading securities in its other income during the period ended March 31, 2005.

NOTE C - NOTES PAYABLE

The Company has accounted for the \$60,000 principal reduction discount as other income during the period ended March 31, 2005.

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

NOTE D - PRIVATE PLACEMENT AND CONVERTIBLE PROMISSORY NOTES PAYABLE

The Company entered into a Private Placement Memorandum in August 2004 to offer up to 1,000 units of equity/notes payable instrument. Each unit consists of 2,500 shares of common stock of the Company, \$1,500 of convertible promissory notes ("Convertible Notes"), and 300 warrants to purchase 300 shares of the Company's common stock at \$0.85 per share. The Convertible Notes accrues interest at 11% per annum, payable and due in September 2009. The noteholder has the option to convert any unpaid note principal and accrued interest to the Company's common stock at a rate of \$0.85 per share anytime after six months from the issuance date of the note.

As of December 31, 2004, the Company received total proceeds of \$2,620,116, net of placement costs and fees of \$331,884, for 984 units subscribed. Pursuant to the terms of the Private Placement Memorandum, the Company issued to the investors Convertible Notes in an aggregate of \$1,476,000. The Company is obligated to issue 2,460,000 shares of its common stock, valued at \$1,144,116, to the investors in connection with the private placement. An aggregate of 2,404,978 shares were issued to the investors at December 31, 2004, and the Company has accounted for the remaining 54,998 shares not been issued at December 31, 2004 as common stock subscription payable in the amount of \$25,581 (fractional shares of 24 shares of common stock will not be issued). The 54,998 shares of common stock were issued to the investors in January 2005. The Company also issued to investors an aggregate of 295,200 warrants as of December 31, 2004.

In accordance with Emerging Issues Task Force Issue 98-5, Accounting for Convertible Securities with a Beneficial Conversion Features or Contingently Adjustable Conversion Ratios ("EITF 98-5"), the Company recognized an imbedded beneficial conversion feature present in the Convertible Notes. The Company allocated a portion of the proceeds equal to the intrinsic value of that feature to additional paid-in capital. As of December 31, 2004, the Company recognized and measured an aggregate of \$402,859 of the proceeds, which is equal to the intrinsic value of the imbedded beneficial conversion feature, to additional paid-in capital and a discount against the Convertible Note. In January 2005, the Company recognized and measured additional \$8,181 of the proceeds, which is equal to the intrinsic value of the imbedded beneficial conversion feature, to additional paid-in capital and a discount against the Convertible Note. The debt discount attributed to the beneficial conversion feature is amortized over the Convertible Note's maturity period (five years) as interest expense.

NOTE D - PRIVATE PLACEMENT AND CONVERTIBLE PROMISSORY NOTES PAYABLE (CONTINUED)

In connection with the placement of the Convertible Notes, the Company issued non-detachable warrants granting the holders the right to acquire 285,200 shares of the Company's common stock at \$0.85 per share as of December 31, 2004. The warrants expire five years from the issuance. In accordance with Emerging Issues Task Force Issue 00-27, Application of Issue No. 98-5 to Certain Convertible Instruments ("EITF - 0027"), the Company recognized the value attributable to the warrants in the amount of \$205,365 to additional paid-in capital and a discount against the Convertible Notes during the year ended December 31, 2004. In connection with the additional 15 units sold in January 2005, the Company issued additional 4,500 warrants and recognized the value attributable to the warrants in the amount of \$2,887 to additional paid-in capital and a discount against the Convertible Notes during the period ended March 31, 2005. The Company valued the warrants in accordance with EITF 00-27 using the Black-Scholes pricing model and the following assumptions: contractual terms of 5 years, an average risk free interest rate of 3.38%, a dividend yield of 0%, and volatility of 296%. The debt discount attributed to the value of the warrants issued is amortized over the Convertible Note's maturity period (five years) as interest expense.

The Company amortized the Convertible Notes debt discount attributed to the

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

beneficial conversion feature and the value of the attached warrants and recorded non-cash interest expense of \$30,964 and \$0 for the period ended March 31, 2005 and 2004, respectively.

NOTE E - PUT AGREEMENT

In April 2004, the Company issued 160,000 shares of its common stock to a shareholder in exchange for previously issued stock options exercised at \$.5625 per share (Note G), for a total of \$90,000. In exchange for the shares, the holder of the options paid \$63,500 in cash, and tendered 5,000 shares of the Company's previously issued Series A preferred stock valued at \$5 per share. The remaining balance of \$1,500 was accounted for as financing expenses and was charged to operations during the year ended December 31, 2004.

In October 2004, the Company entered into an agreement ("put agreement") granting the shareholder an option to put the 160,000 shares of common stock to the Company one year from the date of the agreement for \$1.25 per share. The shareholder agreed to cancel 677,500 stock options exercisable at \$.5625 per share (Note G).

The Company accounted for the put agreement in accordance with Statement of Financial Accounting Standards No. 150, "Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity", and classified the shares issued and the put option as accrued liabilities, as the shares issued and put agreement embody obligations to repurchase the Company's equity shares that require the Company to settle by transferring its assets. The put option was measured initially at \$90,000 and subsequently at fair value of \$122,000 and \$146,000 at March 31, 2005 and December 31, 2004, respectively. In connection with the put agreement, the Company recognized a non-cash earning of \$24,000 during the period ended March 31, 2005, which was a result of the decrease in the price of the Company's common stock between March 31, 2005 and December 31, 2004.

NOTE F - CAPITAL STOCK

The Company was incorporated under the laws of the State of Delaware on October 14, 1999 under the name of Pre-Settlement Funding Corporation. The company has authorized 100,000 shares of preferred stock, with a par value of \$.001 per share. The Company has designated 60,000 of its preferred stock as Series A Convertible Preferred Stock. As of March 31, 2005 and December 31, 2004, the Company has no Preferred Stock issued and outstanding. The Company has authorized 19,900,000 shares of common stock, with a par value of \$.001 per share. As of March 31, 2005 and December 31, 2004, there are 8,715,476 and 8,622,978 shares of common stock issued and outstanding, respectively.

The estimated value of the compensatory warrants granted to the Company's placement agent in exchange for services rendered was determined using the Black-Scholes pricing model and the following assumptions: contractual term of 5 years, a risk free interest rate of 3.38%, a dividend yield of 0% and volatility of 291%. The Company capitalized financing costs of \$545,460 during the year ended December 31, 2004, and the financing costs were amortized over the contractual terms (five years) of the convertible debenture. During the period ended March 31, 2005, the Company amortized financing costs and charged to

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

operations an aggregate of \$26,273.

NOTE H - OTHER EXPENSE

The Company's President has advanced funds to the Company for working capital purposes. The Company has paid in full the amount due to the Company's President during the year ended December 31, 2004. Additionally, total payment the Company remitted exceeded total balance due to the Company's President in the amount of \$144,006 during the year ended December 31, 2004 and \$50,500 during the period ended March 31, 2005. The Company has accounted for the excess payment of \$144,006 and \$50,500 to the Company's President as other expense for the year ended December 31, 2004 and for the period ended March 31, 2005, respectively. In April 2005, the Company's president repaid \$100,000 of the over payments. This reimbursement will be accounted for as other income in the second quarter of 2005.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

When used in this Form 10-QSB and in our future filings with the Securities and Exchange Commission, the words or phrases "will likely Result", "management expects", "we expect", "will continue", "is Anticipated", "estimated" or similar expressions are intended to identify forward-looking statements. Readers are cautioned not to place undue reliance on any such forward-looking statements, each of which speak only as of the date made. These statements are subject to risks and uncertainties, some of which are described below. We have no obligation to publicly release the result of any revisions that may be made to any forward-looking statements to reflect anticipated events or circumstances occurring after the date of such statements.

The forward-looking statements in the discussion that follows are subject to significant risks and uncertainties about us, our current and planned products, our current and proposed marketing and sales, and our projected results of operations. There are several important factors that could cause actual results to differ materially from historical results and percentages and results anticipated by the forward-looking statements. We have sought to identify the most significant risks to its business, but cannot predict whether or to what extent any of such risks may be realized nor can there be any assurance that we have identified all possible risks that might arise. Investors should carefully consider all of such risks before making an investment decision with respect to our stock. The following discussion and analysis should be read in conjunction with the financial statements of our Company and notes thereto. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future. Such discussion represents only the best present assessment from our Management.

Plan of Operation

The Company was a "development stage enterprise" (as defined in statement of Financial Accounting Standards No. 7) in prior periods until December 31, 2004. During the quarter ended March 31, 2005, the Company has generated \$531 of revenue from operations. In 2003, the Company purchased property containing a spring located in Mt. Sidney in the Shenandoah Valley area of Virginia. The spring has a flow in excess of 1,000,000 gallons of water daily. The Company is presently developing the packaging for selling its water under the brand name Seawright Springs. The Company is developing three proprietary PET bottles in a

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

10 ounce size, a 16.9 ounce size and a 33.8 ounce size. The Company currently expects to have the development of its bottles and brand packaging completed by June 30, 2005. The Company is positioning its water in an effort to compete in the luxury brand category of the water market. The Company will be offering both a sparkling and non-sparkling brand. In addition to the Company's own brand, it will continue to seek opportunities to sell its considerable daily supply of water to other bottlers.

Comparison of Financial Results

Three Months Ended March 31, 2005 versus Three Months Ended March 31, 2004

Revenues

During the quarter ended March 31, 2005, \$531 of revenue was generated from the Mt. Sidney spring from on site sales. We plan to begin making more substantial sales in the next quarter. We were a development stage company until December 31, 2004, and therefore there was no revenues generated in the quarter ended March 31, 2004.

Costs and Expenses

In the quarter ended March 31, 2005 operating expenses were \$117,554. The expenses were incurred in connection with the establishment of our spring water business including consulting and engineering services, testing and spring maintenance and costs associated with the administration and overhead of our business such as accounting, legal and office expenses. This compared with expenses in the quarter ended March 31, 2004 of \$46,390. The increases in expenses are due to the increased expenditures on the spring site operations principally related to consulting and engineering.

The Company has incurred interest expenses of \$72,174 and \$17,003 for the quarter ended March 31, 2005 and 2004, respectively. The increase was primarily attributable to the issuance of convertible notes payable in connection with the Private Placement Memorandum dated August 2004. The convertible notes accrue interest at 11% per annum, and the Company also recorded \$30,964 of non-cash interest expense in connection with amortization of debt discount.

The Company actively and frequently traded securities with the objective of generating profits on short-term differences in price. The trading securities are marked to market by the Company on a monthly basis. During the quarter ended March 31, 2005, the Company incurred a total of \$19,408 of net realized and unrealized trading loss on its trading securities.

In connection with the put agreement entered into by the Company on the Company's common stock, in the quarter ended March 31, 2005 the Company recognized non-cash earnings of \$24,000, which was a result of the decrease in the price of the Company's common stock from December 31, 2004 to March 31, 2005.

The Company has accounted for an excess payment resulting from loan overpayments to its President of \$50,500 in the quarter ending March 31, 2005 as other expense.

Liquidity and Capital Resources

As of March 31, 2005, we had a working capital surplus of \$1,114,584. In the quarter ended March 31, 2005, we generated a cash flow surplus of \$151,616 from

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

operating activities, principally as a result of a decrease in our trading of marketable securities. We met our cash requirements during the three months ended March 31, 2005 through use of \$53,000 of proceeds from our private placement of stock and stock subscription and convertible notes discussed below. We used proceeds from the private placement to repay the remaining note related to the purchase of the Mt. Sidney spring site. As a result of our early payment on that note we were able to take advantage of \$60,000 discount. This has been accounted for as a gain on extinguishment of debt.

In August 2004 the Company issued a Private Placement Memorandum to offer up to 1,000 units of equity/notes payable instruments. Each unit consisted of 2,500 shares of common stock of the Company, \$1,500 of convertible promissory notes ("Convertible Notes"), and 300 warrants to purchase 300 shares of the Company's common stock at \$0.85 per share. The Convertible Notes accrue interest at 11% per annum, payable and due in September 2009. The noteholders have the option to convert any unpaid note principal and accrued interest to the Company's common stock at a rate of \$0.85 per share anytime after six months from the issuance date of the note.

As of March 31, 2005, the Company had received total proceeds of \$2,665,116, net of placement costs and fees, and had issued to the investors \$1,498,500 of Convertible Notes.

Our accounts payable and accrued liabilities of \$90,179 is composed predominantly of liabilities to our consultants and vendors associated with the Mt. Sidney spring, our accountants and lawyers and accrued interest on our convertible notes payable.

We have raised the capital necessary to meet our expected working capital and financing needs for the next year.

Our independent certified public accountants have stated in their report included in our December 31, 2004 Form 10-KSB, that we have incurred operating losses since our inception, and that we are dependent upon management's ability to develop profitable operations. These factors among others may raise substantial doubt about our ability to continue as a going concern.

Purchase of Seawright Springs

In October 2003, we took title to the property known as Seawright Springs in Mt Sidney, Virginia for \$1 million and a \$50,000 assignment fee. Stafford Street Capital LLC, a business entirely owned by our principal shareholder Joel P. Sens, contracted to purchase the property in June, 2003 and assigned all its interests in the contract in October 2003 to Seawright Springs LLC, an entity wholly owned by Seawright Holdings Inc. \$300,000 was immediately due on settlement, with a further \$700,000 subject to a Promissory Note carrying a rate of 6% per annum. Under the terms of the note, \$100,000 plus interest was re-paid in April 2004 and \$200,000 plus interest was repaid in October 2004. Proceeds from the 2004 and 2005 issuances of convertible notes and common shares were used in part to meet remaining obligation under the Promissory note which was paid in full during the quarter ended March 31 and paid in advance of due dates resulting in a \$60,000 discount which was accounted for as a gain on extinguishment of debt. Had the Promissory Note not been paid of early, \$162,500 plus interest would have been due in October 2006 and the remaining principal of \$237,500 and interest would have been due in October 2008, the fifth anniversary of the acquisition.

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

A note was issued in respect of the \$50,000 assignor fee to Stafford Street Capital. A further Promissory Note was issued in October 2003 to Joel P. Sens, for \$65,000 with interest accruing at a rate of 10% per annum and payable in October 2004. Proceeds from the Joel Sens note and the Series A Convertible Preferred Stock described below were used to meet the immediate liability under the purchase agreement for Seawright Springs. The \$115,000 Notes to Joel P. Sens were repaid in September and October 2004.

The Company has plans for capital expenditures at the spring site. These expenditures are currently estimated to be between \$400,000 and \$500,000 and will include the renovation of the spring catchment which protects the water spring from outside elements, the erection of a loadout facility to better enable trucks to come in and out of the facility to pick up bulk loads of water for transport, new piping and filtration equipment, the addition of a 20,000 gallon storage tank and tank pad site that will allow for additional storage capacity to be added on as needed basis.

The Company has entered into agreements to acquire two parcels of land located approximately 10 miles south of the Mt. Sidney, Virginia location. The properties are located in the city of Staunton, Virginia. The two parcels consist of one site that is 33.52 acres which the Company has agreed to purchase, subject to certain conditions, for a purchase price of \$725,000. The second parcel is approximately 3.46 acres which the Company has agreed to purchase, subject to certain conditions, for a purchase price of \$240,000. Both purchases are subject to a study period which the Company is now currently undertaking. The Company has made a refundable \$50,000 deposit on the 33.52 acre site and, in April 2005, made a \$10,000 deposit on the 3.46 acre site

Although no assurances can be given, both sites are expected to be re-zoned to commercial use from general agriculture use according to the master zoning plan of the city of Staunton, Virginia. The Company may determine in the future to use a portion of these properties for developing a bottling facility.

SERIES A CONVERTIBLE PREFERRED STOCK

During the year ended December 31, 2003, we issued an aggregate of 55,000 shares of Series A Convertible Preferred Stock in exchange for \$275,000 of proceeds, net of costs and fees. The shares were convertible into common stock at the option of the holder at a ratio of 10 Common Shares for each preferred share if converted before the first anniversary of the original issue date and at a ratio of 5 Common Shares for each Preferred Share if conversion is made after the first anniversary but before the second anniversary. The preferred series could have been redeemed for cash at the option of the Company, any time after the first anniversary of the original issue date but before the second anniversary. The preferred shareholders were entitled to cumulative dividends when, as and if declared by the board at a per share rate of 10% per annum of the original issue price. At the option of the preferred shareholder, accrued and unpaid cumulative dividends may be applied to the purchase of additional shares of Common Stock upon conversion of the Preferred Stock to Common Stock. In event of a liquidation of our Company the Preferred Stock ranked higher than the Common Stock in determining the distribution of assets and surplus funds.

In April 2004, one the Company's Series A Preferred Stock shareholders tendered

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

5,000 shares of the Company's previously issued Series A Preferred Stock valued at \$5 per share, as part of the payments for stock options exercised. the preferred shares were subsequently canceled by the company.

In December 2004, our Series A Preferred Stock holders elected to convert an aggregate of 50,000 shares of Preferred Stock into 500,000 shares of the Company's common stock, at a ratio of ten (10) shares of common stock for each share of preferred stock. In connection with the conversion, we also issued an aggregate of 50,000 shares of our common stock in exchange for \$25,000 of dividends in arrears. As of December 31, 2004 and March 31, 2005, all Series A Convertible Preferred Stock had been converted to the Company's common stock, and there was no Preferred Stock issued and outstanding after December 31, 2004.

Product Research and Development

We do anticipate reviewing other lines of investment and business.

Acquisition or Disposition of Plant and Equipment

We do not anticipate the sale of any significant property, plant or equipment during the next twelve months. We anticipate the acquisition of plant and equipment and other improvements for the Mt. Sidney spring site.

Number of Employees

As of March 31, 2005, we have one employee. We do not anticipate hiring additional employees in the next 12 months. In order for us to attract and retain quality personnel, we anticipate we will have to offer competitive salaries to future employees. Any future increase in personnel will depend upon the line of business or investment entered into and the availability of funding for those operations.

Off-Balance Sheet Arrangements

We have not had, and at March 31, 2005 do not have, any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Trends, Risks and Uncertainties

We have sought to identify what we believe to be the most significant risks to its business, but cannot predict whether or to what extent any of such risks may be realized nor can there be any assurances that we have identified all possible risks that might arise. Investors should carefully consider all of such risk factors before making an investment decision with respect to our stock.

Limited operating history; anticipated losses; uncertainly of future results

We have only a limited operating history upon which an evaluation of our business and its prospects can be based. Our prospects must be evaluated with a view to the risks encountered by a company in an early stage of development, particularly in light of the uncertainties relating to our future operations and line of business and investment.

Potential fluctuations in quarterly operating results

Our quarterly operating results may fluctuate significantly in the future as a result of a variety of factors, most of which are outside our control, including: seasonal trends in demand; the amount and timing of capital expenditures and other costs relating to the expansion of our operations; the introduction of new services and products by us or our competitors; price competition or pricing changes in the industry; technical difficulties; general economic conditions, and economic conditions specific to the spring water market. Our quarterly results may also be significantly affected by the impact of the accounting treatment of acquisitions, financing transactions or other matters. Particularly at our early stage of development, such accounting treatment can have a material impact on the results for any quarter. Due to the foregoing factors, among others, it is likely that our operating results will fall below our expectations or investors' expectations in some future quarter.

Management of Growth

Our future success will be highly dependent upon our ability to successfully manage the expansion of our operations. There can be no assurance that we will be able to achieve or manage any such growth.

Our future success depends upon our ability to address potential market opportunities while managing our expenses to match our ability to finance our operations. This need to manage our expenses will place a significant strain on our management and operational resources. If we are unable to manage our expenses effectively, our business, results of operations, and financial condition will be materially adversely affected.

Risks associated with acquisitions

As part of our business strategy in the future, we could acquire assets and businesses relating to or complementary to our operations. Any acquisitions would involve risks commonly encountered in acquisitions of companies. These risks would include, among other things, the following: we could be exposed to unknown liabilities of the acquired companies; we could incur acquisition costs and expenses higher than it anticipated; fluctuations in our quarterly and annual operating results could occur due to the costs and expenses of acquiring and integrating new businesses or technologies; we could experience difficulties and expenses in assimilating the operations and personnel of the acquired businesses; our ongoing business could be disrupted and its management's time and attention diverted; we could be unable to integrate successfully.

Other Risks

The Company is also subject to risks associated with economic conditions generally and the economy in those areas where the Company has or expects to have assets and operations; competitive and other factors affecting the Company's operations, markets, products and services; those risks associated with the Company's ability to successfully negotiate with certain customers, risks relating to estimated contract costs, estimated losses on uncompleted contracts and estimates regarding the percentage of completion of contracts, associated costs arising out of the Company's activities and the matters discussed in this report; risks relating to changes in interest rates and in the availability, cost and terms of financing; risks related to the performance of

Edgar Filing: SEAWRIGHT HOLDINGS INC - Form 10QSB

financial markets; risks related to changes in domestic laws, regulations and taxes; risks related to changes in business strategy or development plans; risks associated with future profitability; and other factors discussed elsewhere in this report and in documents filed by the Company with the Securities and Exchange Commission. Many of these factors are beyond the Company's control.

ITEM 3. CONTROLS AND PROCEDURES

The Company's chief executive officer and chief financial officer have evaluated, as of the period covered by this quarterly report, the effectiveness of the design, maintenance and operation of the Company's disclosure controls and procedures. The Company's chief executive officer and chief financial officer have determined that the Company's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the Company in the reports that it files under the Exchange Act is accurate and is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and regulations.

Disclosure controls and procedures, no matter how well designed and implemented, can provide only reasonable assurance of achieving an entity's disclosure objectives. The likelihood of achieving such objectives is affected by limitations inherent in disclosure controls and procedures. These include the fact that human judgment in decision making can be fully faulty and that breakdowns in internal control can occur because of human failures such as errors or mistakes or intentional circumvention of the established process.

During the most recent fiscal quarter, there have been no significant changes in internal control over financial reporting or in other factors that could have materially affected, or are reasonably likely to materially affect, these financial reporting controls.
