**NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL INFORMATION**  
**June 30, 2006**  
**(Unaudited)**

**NOTE A-SUMMARY OF ACCOUNTING POLICIES**

General

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10QSB. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements.

In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Accordingly, the results from operations for the three and six months period ended June 30, 2006 are not necessarily indicative of the results that may be expected for the year ending December 31, 2006. The unaudited condensed financial statements should be read in conjunction with the December 31, 2005 financial statements and footnotes thereto included in the Company's SEC Form 10 KSB, as amended.

Business and Basis of Presentation

Seawright Holdings, Inc. (the "Company") was formed on October 14, 1999 under the laws of the state of Delaware. The Company is a "development stage enterprise" (as defined in statement of Financial Accounting Standards No. 7). The Company is currently engaged in the spring water bottling and distribution business. From its inception through the date of these financial statements, the Company has recognized minimal revenues and has incurred significant operating expenses. Consequently, its operations are subject to all risks inherent in the establishment of a new business enterprise. For the period from inception through June 30, 2006, the Company has accumulated losses of \$2,744,409.

The consolidated financial statements include the accounts of the Company, and its wholly-owned subsidiary, Seawright Springs LLC. Significant intercompany transactions have been eliminated in consolidation.

Reclassification

Certain reclassifications have been made to conform prior periods' data to the current presentation. These reclassifications had no effect on reported losses.

Stock Based Compensation

On January 1, 2006, the Company adopted the provisions of Statement of Financial Accounting Standards ("SFAS") No. 123(R), "Share-Based Payment," which requires the measurement and recognition of compensation expense for all stock-based awards made to employees based on estimated fair values. SFAS No. 123(R) supersedes previous accounting under Accounting Principles Board ("APB") Opinion No. 25, "Accounting for Stock Issued to Employees" for periods beginning in fiscal 2006. In March 2005, the SEC issued Staff Accounting Bulletin ("SAB") No. 107, providing supplemental implementation guidance for SFAS 123(R). The Company has applied the provisions of SAB No. 107 in its adoption of SFAS No. 123(R).

SFAS No. 123(R) requires companies to estimate the fair value of stock-based awards on the date of grant using an option pricing model. The value of the portion of the award that is ultimately expected to vest is recognized as expense over the requisite service periods. The Company adopted SFAS No. 123(R) using the modified prospective application, which requires the application of the standard starting from January 1, 2006, the first day of the Company's year. The Company's condensed consolidated financial statements for the six months ended June 30, 2006 reflect the impact of SFAS No. 123(R).

**NOTE A-SUMMARY OF ACCOUNTING POLICIES (Continued)**

No stock-based compensation expense related to employee stock options was recognized under SFAS No. 123(R) for the six months ended June 30, 2006. As of June 30, 2006, there was no stock-based compensation cost related to non-vested stock options.

Prior to the adoption of SFAS No. 123(R), the Company accounted for stock-based awards to employees using the intrinsic value method in accordance with APB No. 25, as allowed under SFAS No. 123, "Accounting for Stock-Based Compensation." Under the intrinsic value method, no stock-based compensation expense for employee stock options had been recognized in the Company's consolidated statements of operations because the exercise price of the Company's stock options granted to employees equaled the fair market value of the underlying stock at the date of grant. In accordance with the modified prospective transition method the Company used in adopting SFAS No. 123(R), the Company's results of operations prior to fiscal 2006 have not been restated to reflect, and do not include, the impact of SFAS No. 123(R).

Stock-based compensation expense recognized during a period is based on the value of the portion of stock-based awards that is ultimately expected to vest during the period.

The following table illustrates the pro forma net income and earnings per share for the three and six months ended June 30, 2005 as if compensation expense for stock options issued to employees had been determined consistent with SFAS No. 123:

	For the three months ended June 30, 2005 (As restated - Note I)	For the six months ended June 30, 2005 (As restated - Note I)
Net loss - as reported	\$ (284,398)	\$ (435,443)
Add: Total stock based employee compensation expense as reported under intrinsic value method (APB. No. 25)	-	-
Deduct: Total stock based employee compensation expense as reported under fair value based method (SFAS No. 123)	-	-
Net loss - Pro Forma	(284,398)	(435,443)
Net loss attributable to common stockholders - Pro forma	\$ (284,398)	\$ (435,443)
Basic (and assuming dilution) loss per share - as reported	\$ (0.03)	\$ (0.05)
Basic (and assuming dilution) loss per share - Pro forma	\$ (0.03)	\$ (0.05)

Stock-based compensation expense is measured using a multiple point Black-Scholes option pricing model that takes into account highly subjective and complex assumptions. The expected life of options granted is derived from the vesting period of the award, as well as historical exercise behavior, and represents the period of time that options granted are expected to be outstanding. Expected volatilities are based on a blend of historical volatility and implied volatility derived from publicly traded options to purchase the Company's common stock, which the Company

believes is more reflective of the market conditions and a better indicator of expected volatility than solely using historical volatility. The risk-free interest rate is the implied yield currently available on U.S. Treasury zero-coupon issues with a remaining term equal to the expected life of the option. There were no options granted during 2006 or 2005, and all options granted prior to 2005 had fully vested by January 1, 2005.

**NOTE A-SUMMARY OF ACCOUNTING POLICIES (Continued)**Revenue Recognition

For revenue from product sales, the Company recognizes revenue in accordance with Staff Accounting Bulletin No. 104, *Revenue Recognition* (“SAB104”), which superseded Staff Accounting Bulletin No. 101, *Revenue Recognition in Financial Statements* (“SAB101”). SAB 101 requires that four basic criteria must be met before revenue can be recognized: (1) persuasive evidence of an arrangement exists; (2) delivery has occurred; (3) the selling price is fixed and determinable; and (4) collectibility is reasonably assured. Determination of criteria (3) and (4) are based on management’s judgments regarding the fixed nature of the selling prices of the products delivered and the collectibility of those amounts. Provisions for discounts and rebates to customers, estimated returns and allowances, and other adjustments are provided for in the same period the related sales are recorded. The Company defers any revenue for which the product has not been delivered or is subject to refund until such time that the Company and the customer jointly determine that the product has been delivered or no refund will be required. SAB 104 incorporates Emerging Issues Task Force 00-21 (“EITF 00-21”), *Multiple-Deliverable Revenue Arrangements*. EITF 00-21 addresses accounting for arrangements that may involve the delivery or performance of multiple products, services and/or rights to use assets.

**NOTE B - MARKETABLE SECURITIES**

During the period ended June 30, 2006, the Company classified all of its marketable securities as trading as the securities are bought and held principally for the purpose of selling them in the near term. The Company actively and frequently traded securities with the objective of generating profits on short-term differences in price. The trading securities are marked to market on a monthly basis. At June 30, 2006, the Company’s trading securities are carried at fair value of \$14,175. The Company included a realized net loss of \$531, a net gain of \$2,111, and a net gain of \$38,395 on trading securities during the six-month period ended June 30, 2006 and 2005, and for the period from October 14, 1999 (date of inception) through June 30, 2006, respectively.

**NOTE C - NOTES PAYABLE (Continued)**

During April 2006, the Company purchased a 3.46 acre parcel of land. The property was acquired by paying a \$10,000 refundable deposit in April 2005 and paying \$90,000 in cash at closing. The remaining \$140,000 is being financed through an 8% note payable. Interest is payable monthly with principal being due in April 2007.

During June 2006, the Company obtained a \$350,000 interest-only mortgage loan with regard to its Mt. Sidney property. The loan matures in six months, bears interest at a fixed rate of 15.00% per annum, requires monthly installments of interest throughout its term with a balloon payment, equal to the principal balance of the loan, due in December 2006. The Company has the option to extend the loan by a period of six months by payment of a fee equal to 3.00% of the principal balance of the loan.

During June 2006, the Company obtained a \$525,000 loan, which is secured by the Mt. Sidney property. The Company's President absolutely and unconditionally guaranteed the loan on behalf of the Company. By the terms of this second loan, the Company promised to pay to the lender the principal amount of \$525,000 together with interest at a rate of 9.375% per annum on the unpaid principal balance of the loan. The loan requires 35 regular installments of \$4,592 each and one balloon payment, equal to the remaining principal balance of the loan, accrued interest, and other applicable fees, costs and charges, due in June 2009. This loan was obtained to pay off a promissory note issued in May 2005 in the amount of \$500,000 and a portion of the accrued interest in the amount of \$25,000 in connection with the promissory note. The remaining accrued interest in connection with this promissory note and related fees and penalties were also paid off in cash during the period ended June 30, 2006.

**NOTE D - PRIVATE PLACEMENT AND CONVERTIBLE PROMISSORY NOTES PAYABLE**

The Company entered into a Private Placement Memorandum in August 2004 to offer up to 1,000 units of equity/notes payable instrument. Each unit consists of 2,500 shares of common stock of the Company, \$1,500 of convertible promissory notes ("Convertible Notes"), and 1 warrant to purchase 300 shares of the Company's common stock at \$0.85 per share. The Convertible Notes accrues interest at 11% per annum, payable and due in September 2009. The noteholder has the option to convert any unpaid note principal and accrued interest to the Company's common stock at a rate of \$0.85 per share anytime after six months from the issuance date of the note.

As of December 31, 2005, the Company received total proceeds of \$2,665,116, net of placement costs and fees of \$331,884, for 999 units subscribed. Pursuant to the terms of the Private Placement Memorandum, the Company issued to the investors Convertible Notes in an aggregate of \$1,498,500. The Company is obligated to issue 2,497,500 shares of its common stock, valued at \$1,563,376, to the investors in connection with the private placement. The Company also issued to investors an aggregate of 999 warrants to purchase 299,700 shares of common stock as of December 31, 2005.

A summary of convertible promissory notes payable at June 30, 2006 is as follows:

	June 30, 2006
Convertible notes payable ("Convertible Notes"); 11% per annum; maturity date	\$ 1,498,500

is in September 2009; noteholder has the option to convert unpaid note principal and interest the Company's common stock at \$0.85 per share.

**NOTE D - PRIVATE PLACEMENT AND CONVERTIBLE PROMISSORY NOTES PAYABLE (Continued)**

In accordance with *Emerging Issues Task Force Issue 98-5, Accounting For Convertible Securities With a Beneficial Conversion Feature or Contingently Adjustable Conversion Ratios (EITF 98-5)*, the Company allocated, on a relative fair value basis, the net proceeds amongst the common stock, convertible notes and warrants issued to the investors. As of December 31, 2005, the Company had recognized a discount to the notes in the amount of \$280,207. The note discount is being amortized over the maturity period of the notes, being five years. As of December 31, 2005, the Company had recognized a total of \$280,207 of the proceeds, which is equal to the intrinsic value of the imbedded beneficial conversion feature, to additional paid-in capital and a discount against the Convertible Note. The debt discount attributed to the beneficial conversion feature is amortized over the Convertible Notes' maturity period, being five years, as interest expense.

In connection with the placement of the Convertible Notes, the Company issued detachable warrants granting the holders the right to acquire a total of 299,700 shares of the Company's common stock at \$0.85 per share as of December 31, 2005. The warrants expire five years from their issuance. As of December 31, 2005, the Company had recognized the value attributable to the warrants, being \$190,143, to additional paid-in capital in accordance with *Emerging Issues Task Force Issue 00-27, Application of Issue No. 98-5 to Certain Convertible Instruments (EITF 00-27)*. The Company valued the warrants in accordance with EITF 00-27 using the Black-Scholes pricing model and the following assumptions: contractual terms of 5 years, an average risk free interest rate of 3.38%, a dividend yield of 0%, and volatility of 296%.

The Company amortized the Convertible Notes discount and debt discount attributed to the beneficial conversion feature and recorded non-cash interest expense of \$56,040 for the periods ended June 30, 2006 and 2005.

Financing costs attributable to the equity portion of the private placement totaled \$175,899 and were netted against the amount attributable to common stock. Deferred financing costs of \$155,985 attributable to the debt portion of the private placement are being amortized over the life of the debt instrument, being 5 years. The Company amortized \$15,598 for the periods ended June 30, 2006 and 2005 in relation to the deferred financing costs.

**NOTE E - TERMINATION AGREEMENT**

In April 2004, the Company issued 160,000 shares of its common stock to a shareholder in exchange for previously issued stock options exercised at \$.5625 per share, for a total of \$90,000. In exchange for the shares, the holder of the options paid \$63,500 in cash, and tendered 5,000 shares of the Company's previously issued Series A preferred stock valued at \$5 per share. The remaining balance of \$1,500 was accounted for as financing expense and was charged to operations during the year ended December 31, 2004.

In October 2004, the Company entered into an agreement (termination agreement) granting the shareholder an option to put the 160,000 shares of common stock to the Company one year from the date of the agreement for \$1.25 per share. The shareholder agreed to cancel 677,500 stock options exercisable at \$.5625 per share.

The Company accounted for the termination agreement in accordance with *Statement of Financial Accounting Standards No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity*

(*SFAS 150*), and classified the fair value attributable to the put option as an accrued liability, as the termination agreement embodies an obligation to repurchase the Company's equity shares which would require the Company to settle the agreement by transferring its assets. The put option was initially measured at its fair value of \$170,256 as of the date of the agreement.

**NOTE E - TERMINATION AGREEMENT (Continued)**

Assumptions used to estimate the fair value of the put option are as follows:

Risk-free interest rate	3.38%
Dividend yield	-
Volatility	296%
Time to expiration	1 year

Equity was reduced by the original value of the shares, being \$90,000, with the remaining value of \$80,256 being charged to other expense. The fair value of the put option is determined each reporting period with changes in the fair value recorded as other income or expense.

In October 2005, the termination agreement expired without being exercised. At the time of expiration, the fair value of the accrued liability attributable to the termination agreement was \$87,984. Accordingly, equity has been increased by the original value of the shares, being \$90,000, with the remaining value of \$2,016 being charged to other expense.

For the period ended June 30, 2005, the Company recorded a gain of \$26,336 in connection with the valuation adjustment on the termination agreement. As the agreement expired in October 2005, no adjustment has been recorded for the period ended June 30, 2006.

**NOTE F - CAPITAL STOCK**

The Company was incorporated under the laws of the State of Delaware on October 14, 1999 under the name of Pre-Settlement Funding Corporation. The company has authorized 100,000 shares of preferred stock, with a par value of \$.001 per share. The Company has designated 60,000 of its preferred stock as Series A Convertible Preferred Stock. As of June 30, 2006, the Company has no Preferred Stock issued and outstanding. The Company has authorized 19,900,000 shares of common stock, with a par value of \$.001 per share. As of June 30, 2006, there are 9,075,474 shares of common stock issued and outstanding.

During the six months ended June 30, 2006, the Company issued an aggregate of 199,998 shares of common stock in exchange for \$90,000 of proceeds, net of costs and fees.

The estimated value of the compensatory warrants granted to the Company's placement agent in exchange for services rendered was determined using the Black-Scholes pricing model and the following assumptions: contractual term of 5 years, a risk free interest rate of 3.38%, a dividend yield of 0% and volatility of 291%. The Company capitalized financing costs of \$545,460 during the year ended December 31, 2004. The financing costs are being amortized over the contractual terms (five years) of the convertible debenture. During the periods ended June 30, 2006 and 2005, the Company amortized financing costs and charged to operations \$54,546.

**NOTE H - RELATED PARTY TRANSACTIONS**

The Company's President had advanced funds to the Company for working capital purposes. The Company had paid in full the amount due to the Company's President during the year ended December 31, 2004. Additionally, the total payment the Company remitted exceeded the total balance due to the Company's President in the amount of \$50,500 and \$144,006 during the years ended December 31, 2005 and 2004, respectively. The Company has accounted for the excess payments to the Company's President as a nonreciprocal transfer to a shareholder for 2005 and 2004 and, accordingly, has reflected the overpayment as a direct reduction of additional paid-in capital.

During 2005, the Company's President contributed capital of \$140,000 to the Company in direct response to the excess payment. The Company has accounted for the net contribution of \$89,500 as an addition to paid-in capital.

During 2006, the Company's President contributed capital of \$54,505 to the Company in direct response to the excess payment. The Company has accounted for the contribution as an addition to paid-in capital.

**NOTE I - RESTATEMENT OF FINANCIAL STATEMENTS**

During 2005, it was determined the correct application of accounting principles had not been applied in the 2004 accounting for the Private Placement (Placement), termination agreement and overpayment to the shareholder.

The original accounting for the Placement had allocated the proceeds received from the Placement on the residual value method rather than the relative fair value method as prescribed in *EITF 98-5* and *EITF 00-27*. Accordingly, the proceeds attributed to the common stock, convertible debt and warrants have been restated to reflect the relative fair value method.

The termination agreement had initially been recorded under *SFAS 150*; however, the amount attributable to the fair value of the liability was inaccurately reflected. Accordingly, amounts attributed to the fair value of the liability have been restated to reflect the proper valuation.

The overpayment to the shareholder had originally been classified as an increase to operating expenses with repayments by the shareholder recorded as an increase to other operating income. In review of accounting standards, it was determined the transaction was more accurately reflected as a capital transaction due to the control relationship which existed between the shareholder, who is also the Company's President, and the Company. The Company, through the restatement, is accounting for the excess payments to the Company's shareholder as a nonreciprocal transfer and, accordingly, has reflected the overpayment as a direct reduction of additional paid-in capital.

In accordance with *Accounting Principles Board Opinion 20, Accounting Changes (APB 20)* the necessary corrections to apply the accounting principles on the aforementioned transactions were reflected in the reported 2004 financial information presented in the year end 2005 audited financial statements.

The result of the restatement is to decrease the liability resulting from the termination agreement at December 31, 2005 and 2004 by \$ 200,000 and \$41,248, respectively, and to increase (decrease) the loss for the year ended December 31, 2005 and 2004 by (\$68,752) and \$68,752, respectively, as a result of the changes in fair value of the termination liability during the period.

**NOTE I - RESTATEMENT OF FINANCIAL STATEMENTS (Continued)**

Interim financials issued in 2005 were also impacted by the incorrect application of accounting principles in continued accounting for the Private Placement, termination agreement and overpayment to the shareholder. Interim financials issued throughout 2005 were not amended as the quarterly differences were deemed not to have a material impact on the originally reported figures. The necessary corrections to apply the accounting principles on the aforementioned transactions are currently reflected in the reported 2005 financial information.

Also reflected in the reported 2005 financial information is a reclassification pertaining to gains and losses on trading securities. The information reported in the prior year's first quarter filing had reflected the loss on trading of securities as an investing activity rather than an operating activity. The reported financial information for gains or losses on trading securities for 2005 has been appropriately modified and is currently reflected as an operating activity.

The impact to the previously issued 2005 quarterly financial information is as follows:

	2005 second quarter financial information as originally reported	2005 second quarter financial information as reported herein	Amount increase (decrease)
Net loss	\$ (328,570)	\$ (435,443)	\$ 106,873

**NOTE J - GOING CONCERN MATTERS**

The accompanying statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. As shown in the financial statements from October 14, 1999 (date of inception of Company), the Company has generated minimal revenues and has accumulated losses of \$2,744,409. These factors, among others, may indicate that the Company will be unable to continue as a going concern for a reasonable period of time.

The Company's existence is dependent upon management's ability to develop profitable operations and resolve its liquidity problems. Management anticipates the Company will attain profitable status and improve its liquidity through the continued development of its products, establishing a profitable market for the Company's products and additional equity investment in the Company. The accompanying financial statements do not include any adjustments that might result should the Company be unable to continue as a going concern.

In order to improve the Company's liquidity, the Company is actively pursuing additional debt and equity financing through discussions with investment bankers and private investors. There can be no assurance the Company will be successful in its effort to secure additional equity financing.

If operations and cash flows continue to improve through these efforts, management believes that the Company can continue to operate. However, no assurance can be given that management's actions will result in profitable operations or in the resolution of its liquidity problems.

Such discussion represents only the best present assessment from our management.

### **Plan of Operation**

In 2003, we purchased property containing a spring located in Mt. Sidney, Virginia in the Shenandoah Valley with the intention of developing a spring water distribution business. The spring has a flow in excess of 1,000,000 gallons of water daily.

We have chosen to develop and acquire packaging for selling our water under the brand names Seawright Springs and Quibell. We have developed two proprietary Polyethylene Terephthalate, or PET, bottles in a 16.9 ounce size and a 33.8 ounce size. In addition, in June 2005 we acquired from Quibell, glass bottle designs for various sized bottles (including 237 ml, 385 ml, 750 ml and 1 liter sizes) as well as labels for various sized sparkling water bottles, spring water bottles and tea bottles (including 237 ml, 385 ml, 750 ml, 1 liter, 1.5 liter and 16.9 ounce bottles).

We are positioning our water in an effort to compete in the luxury brand category of the water market. We expect to offer a non-sparkling brand and to begin selling bottled water under the "Seawright Springs" brand name in the third quarter of 2006. We will also continue to seek opportunities to sell our daily supply of water to other bottlers.

In May of 2005 and April of 2006, respectively, we closed on the purchase of two parcels of land located approximately 10 miles south of the Mt. Sidney property. Both of these properties are currently zoned for agricultural use. Although no assurances can be given, both sites are expected to be re-zoned to commercial use according to the master zoning plan of the city of Staunton, Virginia. If these properties are rezoned for commercial use, we may lease these properties for commercial purposes.

The further development of our business will require, among other things, further capital expenditures on plant and equipment, developing marketing materials, renting additional office space, and interviewing and hiring administrative, marketing and maintenance personnel. While we have raised the capital necessary to meet our working capital and financing needs in the past, additional financing is required in order to meet our current and projected cash flow deficits from operations and development. We believe that it will be necessary to raise further capital to implement our business plan over the course of the next twelve months.

For the period from our inception through June 30, 2006, we have:

- formed our company and established our initial structure;
- sought and pursued investment opportunities;
- reviewed and analyzed the potential market for natural spring water;
- purchased the Mt. Sidney property and procured the necessary financing to cover the initial purchase costs from an offering of preferred stock;
- entered into two agreements to purchase properties near the Mt. Sidney property, which we are considering leasing for commercial purposes;
- purchased trademarks and other intellectual property relating to the creation and bottling of flavored and non-flavored bottled water;
- performed required testing of water quality at spring site;
- began developing a new web site as part of our marketing strategy; and
- made improvements to the spring site and water collection facilities.

#### Product Research and Development

We do not anticipate performing research and development for any products during the next twelve months.

#### Acquisition or Disposition of Plant and Equipment

We do not anticipate the sale of any significant property, plant or equipment during the next twelve months. We are currently making improvements to plant and equipment at the spring site, and intend to spend approximately \$150,000 to complete renovating our spring catchment, which protects the water spring from outside elements. We expect this project to be completed by September 15, 2006.

#### Number of Employees

As of June 30, 2006, we had one employee, our chief executive officer and president, Joel Sens. We anticipate that the number of employees will increase in the future. However, given our ability to contract out much of our required services, it is not anticipated, based on the current business plan, that new employees will be hired in the next twelve months. No formal contract for the compensation of Mr. Sens exists as of June 30, 2006, but we may enter into an employment contract with him within the next twelve months.

#### Comparison of Financial Results

Three and Six Months Ended June 30, 2006 and June 30, 2005

#### Revenues

During the three and six-month periods ended June 30, 2006, \$1,010 and \$1,600 of revenue, respectively, was generated from the Mt. Sidney spring from on-site sales as compared to \$974 and \$1,505 of revenue for the three and six-month periods ended June 30, 2005, respectively. We expect to increase our sales in future quarters and will remain a development stage company until revenues increase significantly.

## Costs and Expenses

During the three and six-month periods ended June 30, 2006, operating expenses were \$333,684 and \$561,694, respectively. These expenses were related to the establishment of our spring water business, which includes expenses for consulting and engineering services, testing and spring maintenance, and to the administration and overhead of our business, which includes accounting, legal and office expenses. This compared with operating expenses for the three and six-month periods ended June 30, 2005 of \$187,254 and \$336,513 (as restated), respectively. The increase in expenses is due to the increased expenditures on the spring site operations principally related to consulting and marketing.

We have incurred interest expenses of \$90,755 and \$170,130 for the three and six-month periods ended June 30, 2006, respectively; and \$117,542 and \$186,771 (as restated) for the three and six-month periods ended June 30, 2005, respectively.

In the quarter ended June 30, 2006, we continued our practice of actively and frequently trading securities with the objective of generating profits on short-term differences in price. The trading securities are marked to market on a monthly basis. During the three and six-month periods ended June 30, 2006, we recorded a net loss of \$731 and \$531, respectively, on our trading securities.

During the quarter ended 2006, the President of our company contributed capital of \$54,505 for general working capital purposes.

## Liquidity and Capital Resources

As of June 30, 2006, we had working capital deficit of \$427,217, an available cash balance of \$93,572, a marketable securities balance of \$14,175 and an accounts payable and accrued liabilities balance, including accrued interest on the convertible notes, of approximately \$121,848.

In August 2004 we issued a private placement memorandum to offer up to 1,000 units of equity/notes payable instruments. Each unit consisted of 2,500 shares of our common stock, \$1,500 of convertible promissory notes, and a warrant to purchase 300 shares of our common stock at \$0.85 per share. The convertible promissory notes accrue interest at 11% per annum, and are payable and due in September 2009. The note holders have the option to convert any unpaid note principal and accrued interest to our common stock at a rate of \$0.85 per share anytime after six months from the issuance date of the note. The private placement was closed in February of 2005. Over the course of our private placement, we received total proceeds of \$2,665,116, net of placement costs and fees, and issued to investors \$1,498,500 of convertible promissory notes, 2,497,500 shares of common stock and 999 warrants, none of which have been converted to common stock. Part of the proceeds of the private placement was used to pay off the remaining debt on the Mt. Sidney property.

The purchase of one of the two Staunton, Virginia properties mentioned above was closed on May 24, 2005. The purchase price for that parcel was \$725,000, of which \$225,000 was paid in cash. The remaining \$500,000 of the purchase price has been financed through a bank loan. We also completed the purchase of the second Staunton, Virginia property on April 10, 2006. The purchase price for the second property was \$240,000, less a previously made \$10,000 refundable deposit. We paid \$90,000 of the remaining purchase price at settlement and the remaining \$140,000 will initially be owner financed.

Our accounts payable and accrued liabilities of \$121,848 is composed predominantly of liabilities to our consultants and vendors associated with the Mt. Sidney spring, our accountants and lawyers and accrued interest on our convertible notes payable.

In order to provide funding for operations and capital expenditures, on September 12, 2005, we entered into an investment agreement with Dutchess Private Equities Fund, LP. The investment agreement establishes what is sometimes referred to as an "equity line of credit." Under the investment agreement, Dutchess has agreed to provide us with up to \$5,000,000 during the 36-month period following the date a registration statement of our common stock is declared effective by the Securities and Exchange Commission. During this 36-month period, we may request a draw down under the equity line of credit by which we would sell shares of our common stock to Dutchess, which is obligated to purchase the shares under the investment agreement, subject to certain conditions set forth therein. We may, at our election, require Dutchess to purchase an amount equal to no more than either (a) 200% of the average daily volume of our common stock for the 10 trading days prior to the put notice date, multiplied by the average of the three daily closing bid prices immediately preceding the put notice date or (b) \$100,000; provided that we may not request more than \$1,000,000 in any single put notice. On the trading day following the put notice date, a pricing period of five trading days will begin. The purchase price for the common stock identified in the put notice will be equal to 95% of the lowest closing best bid price of our common stock during the pricing period. We are under no obligation to draw down under the equity line of credit. In July 2006, the registration statement was filed with respect to our common stock to be issued under the equity line of credit or the investment agreement.

#### Future Funding Requirements and Going Concern

While we have raised the capital necessary to meet our working capital and financing needs in the past, additional financing is required in order to meet our current and projected cash flow deficits from operations and development. Within the next year, funds will be needed to meet our obligations related to the financing of the purchases of the Staunton, Virginia properties and to fund improvements to our spring site and our initial operations.

We intend to generate these funds primarily from our equity line of credit. We believe that proceeds from the equity line of credit will allow us to cover our capital and operating expenses over the next year. If during that period or thereafter, we are not successful in generating sufficient liquidity from operations or in raising sufficient capital resources on terms acceptable to us, this could have a material adverse effect on our business, results of operations, liquidity and financial condition.

Our independent certified public accountants have stated in their report included in our December 31, 2005 Form 10-KSB, that we have incurred operating losses since our inception, and that we are dependent upon management's ability to develop profitable operations. These factors among others may raise substantial doubt about our ability to continue as a going concern.

#### Off-Balance Sheet Arrangements

We have not had, and at June 30, 2006 do not have, any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

#### Trends, Risks and Uncertainties

We have sought to identify what we believe to be the most significant risks to our business as discussed below, but cannot predict whether or to what extent any of such risks may be realized nor can there be any assurances that we have identified all possible risks that might arise. Investors should carefully consider all of such risk factors before making an investment decision with respect to our stock.

*Limited operating history; anticipated losses; uncertainty of future results*

We have only a limited operating history upon which to be evaluated. Our prospects must be evaluated with a view to the risks encountered by a company in an early stage of development. We will be incurring costs to develop, introduce and enhance our spring water operations and products, to develop and market an interactive website, to establish marketing relationships, to acquire and develop products that will complement each other, and to build an administrative organization. To the extent that such expenses are not followed by commensurate revenue, our business, results of operations and financial condition will be materially adversely affected. There can be no assurance that we will be able to generate sufficient revenues from sales of our products. We expect negative cash flow from operations to continue for at least the next 12 months, and we must raise additional capital to meet our expected expenses. We intend to raise this capital primarily through the establishment of an equity line of credit as described above, but it is possible that we will not be able to establish the equity line of credit, or that proceeds from the equity line of credit will be insufficient to cover our future expenses.

*Potential fluctuations in quarterly operating results*

Our quarterly operating results may fluctuate significantly in the future as a result of a variety of factors, most of which are outside our control, including: market acceptance of our products, the demand for the spring water services and related products; seasonal trends in demand; the amount and timing of operating costs and capital expenditures relating to the expansion of our business, operations and infrastructure, and the implementation of marketing programs, key agreements and strategic alliances; our ability to obtain additional financing in a timely manner and on terms favorable to us; the introduction of new services and products by us or our competitors; price competition or pricing changes in the industry; technical difficulties; and general economic conditions specific to the beverage market and the spring water industry. Our quarterly results may also be significantly affected by the impact of the accounting treatment of acquisitions, financing transactions or other matters. Particularly at our early stage of development, such accounting treatment can have a material impact on the results for any quarter. Due to the foregoing factors, among others, it is likely that our operating results will fall below our expectations or investors' expectations in some future quarter.

*We are subject to substantial competition and may not have the ability or the capital to compete effectively*

The industry in which we expect our products to be sold is highly competitive. We may not have the ability or the capital to compete effectively in this environment. The significant competition in our industry could harm our ability to win business and increase the price pressure on our products. We face strong competition from a wide variety of firms, including large, multinational firms with far greater resources than we possess. Many of our competitors have considerably greater financial, marketing and technological resources than we do, which may make it difficult to sell our products. Many of our competitors also have longer operating histories and presence in key markets, greater name recognition, larger customer bases and significantly greater financial, sales and marketing, manufacturing, distribution, technical and other resources. As a result, these competitors may also be able to devote greater resources to the promotion and sale of their products.

*Management of growth*

Our future success will also be highly dependent upon our ability to successfully manage the anticipated expansion of our operations. Our ability to manage and support growth effectively will be substantially dependent on our ability to implement adequate financial and management controls, reporting systems and other procedures, and attract and retain sufficient numbers of qualified technical, sales, marketing, financial, accounting, administrative and management personnel.

Our future success also depends upon our ability to address potential market opportunities while managing expenses to match our ability to finance our operations. This need to manage our expenses will place a significant strain on our management and operational resources. If we are unable to manage our expenses effectively, our business, results of operations and financial condition will be materially and adversely affected.

*Risks associated with acquisitions*

Although we do not presently intend to do so, as part of our business strategy in the future, we could acquire assets and businesses relating to or complementary to our operations. Any acquisitions by us would involve risks commonly encountered in acquisitions of assets or companies. These risks would include, among other things, the following: we could be exposed to unknown liabilities of the acquired companies; we could incur acquisition costs and expenses higher than anticipated; fluctuations in our quarterly and annual operating results could occur due to the costs and expenses of acquiring and integrating new businesses or technologies; we could experience difficulties and expenses in assimilating the operations and personnel of any acquired businesses; our ongoing business could be disrupted and our management's time and attention diverted; and we could be unable to integrate with any acquired businesses successfully.

*Other Risks*

We are also subject to risks associated with economic conditions generally and the economy in those areas where we have or expect to have assets and operations; competitive and other factors affecting our operations, markets, products and services; those risks associated with our ability to successfully negotiate with certain customers, risks relating to estimated contract costs, estimated losses on uncompleted contracts and estimates regarding the percentage of completion of contracts, associated costs arising out of our activities and the matters discussed in this report; risks relating to changes in interest rates and in the availability, cost and terms of financing; risks related to the performance of financial markets; risks related to changes in domestic laws, regulations and taxes; risks related to changes in business strategy or development plans; risks associated with future profitability; and other factors discussed elsewhere in this report and in documents filed by us with the Securities and Exchange Commission. Many of these factors are beyond the our control.

**ITEM 3. CONTROLS AND PROCEDURES**

Our chief executive officer and chief financial officer have evaluated, as of the end of the period covered by this quarterly report, the effectiveness of the design, maintenance and operation of our disclosure controls and procedures. Our chief executive officer and chief financial officer have determined that our disclosure controls and procedures were effective in ensuring that the information required to be disclosed by us in the reports that we file under the Exchange Act is accurate and is recorded, processed, summarized and reported within the time periods specified in the Commission's rules and regulations.

Disclosure controls and procedures, no matter how well designed and implemented, can provide only reasonable assurance of achieving an entity's disclosure objectives. The likelihood of achieving such objectives is affected by limitations inherent in disclosure controls and procedures. These include the fact that human judgment in decision making can be fully faulty and that breakdowns in internal control can occur because of human failures such as errors or mistakes or intentional circumvention of the established process.

During the quarter ended June 30, 2006., there were no changes in internal control over financial reporting that materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
