ACE MARKETING & PROMOTIONS, INC.
 NOTES TO CONDENSED FINANCIAL STATEMENTS
 SIX MONTHS ENDED JUNE 30, 2006 AND 2005
 (UNAUDITED)

The Condensed Balance Sheet as of June 30, 2006, the Condensed Statements of Operations for the three and six months ended June 30, 2006 and 2005 and the Condensed Statements of Cash Flows for the six months ended June 30, 2006 and 2005 have been prepared by us without audit. In our opinion, the accompanying unaudited condensed financial statements contain all adjustments necessary to present fairly in all material respects our financial position as of June 30, 2006, results of operations for the three and six months ended June 30, 2006 and 2005 and cash flows for the six months ended June 30, 2006 and 2005.

This report should be read in conjunction with our Form 10-KSB for our fiscal year ended December 31, 2005.

The results of operations and cash flows for the six months ended June 30, 2006 are not necessarily indicative of the results to be expected for the full year.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

REVENUE RECOGNITION - Revenue is recognized when title and risk of loss transfers to the customer and the earnings process is complete. In general, title passes to our customers upon the customer's receipt of the merchandise. Revenue is accounted for in accordance with Emerging Issue.

Task Force (EITF) Issue No. 99-19, "Reporting Revenue Gross as a Principal versus Net as an Agent." Revenue is recognized on a gross basis since the Company has the risks and rewards of ownership, latitude in selection of vendors and pricing, and bears all credit risk.

Edgar Filing: ACE MARKETING & PROMOTIONS INC - Form 10QSB/A

The Company records all shipping and handling fees billed to customers as revenues, and related costs as cost of goods sold, when incurred, in accordance with EITF 00-10, "Accounting for Shipping and Handling Fees and Costs."

ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

2. EARNINGS PER SHARE

Basic earnings per common share are computed by dividing net income by the weighted average number of shares of common stock outstanding during the period. Dilutive earnings per share gives effect to stock options and warrants, which are considered to be dilutive common stock equivalents. Basic loss per common share was computed by dividing net loss by the weighted average number of shares of common stock outstanding. Diluted loss per common share does not give effect to the impact of options because their effect would have been anti-dilutive.

3. STOCK COMPENSATION

During Fiscal 2005, the Company established, and the stockholders approved, an Employee Benefit and Consulting Services Compensation Plan (the "Plan") for the granting of up to 2,000,000 non-statutory and incentive stock options and stock awards to directors, officers, consultants and key employees of the Company. On June 9, 2005, the Board of Directors amended the Plan to increase the number of stock options and awards to be granted under the Plan to 4,000,000.

All stock options under the Plan are granted at or above the fair market value of the common stock at the grant date. Employee and non-employee stock options vest over varying periods and generally expire either 5 or 10 years from the grant date.

Effective January 1, 2006, the Company's Plan is accounted for in accordance with the recognition and measurement provisions of Statement of Financial Accounting Standards ("FAS") No. 123 (revised 2004), Share-Based Payment ("FAS 123(R)"), which replaces FAS No. 123, Accounting for Stock-Based Compensation, and supersedes Accounting Principles Board Opinion ("APB") No. 25, Accounting for Stock Issued to Employees, and related interpretations. FAS 123 (R) requires compensation costs related to share-based payment transactions, including employee stock options, to be recognized in the financial statements. In addition, the Company adheres to the guidance set forth within Securities and Exchange Commission ("SEC") Staff Accounting Bulletin ("SAB") No. 107, which provides the Staff's views regarding the interaction between SFAS No. 123(R) and certain SEC rules and regulations and provides interpretations with respect to the valuation of share-based payments for public companies.

Prior to January 1, 2006, the Company accounted for similar transactions in accordance with APB No. 25 which employed the intrinsic value method of measuring compensation cost. Accordingly, compensation expense was not

Edgar Filing: ACE MARKETING & PROMOTIONS INC - Form 10QSB/A

recognized for fixed stock options if the exercise price of the option equaled or exceeded the fair value of the underlying stock at the grant date.

While FAS No. 123 encouraged recognition of the fair value of all stock-based awards on the date of grant as expense over the vesting period, companies were permitted to continue to apply the intrinsic value-based method of accounting prescribed by APB No. 25 and disclose certain pro-forma amounts as if the fair value approach of SFAS No. 123 had been applied. In December 2002, FAS No. 148, Accounting for Stock-Based Compensation-Transition and Disclosure, an amendment of SFAS No. 123, was issued, which, in addition to providing alternative methods of transition for a voluntary change to the fair value method of accounting for stock-based employee compensation, required more prominent pro-forma disclosures in both the annual and interim financial statements. The Company complied with these disclosure requirements for all applicable periods prior to January 1, 2006.

In adopting FAS 123(R), the Company applied the modified prospective approach to transition. Under the modified prospective approach, the provisions of FAS 123 (R) are to be applied to new awards and to awards modified, repurchased, or cancelled after the required effective date. Additionally, compensation cost for the portion of awards for which the requisite service has not been rendered that are outstanding as of the required effective date shall be recognized as the requisite service is rendered on or after the required effective date. The compensation cost for that portion of awards shall be based on the grant-date fair value of those awards as calculated for either recognition or pro-forma disclosures under FAS 123.

As a result of the adoption of FAS 123 (R), the Company's results for the three and six month period ended June 30, 2006 include employee share-based compensation expense totaling approximately \$13,000 and \$24,500, respectively. Such amounts have been included in the Condensed Consolidated Statements of Operations within selling, general and administrative expenses. No income tax benefit has been recognized in the statement of operations for share-based

compensation arrangements due to a history of operating losses. Stock compensation expense recorded under APB No. 25 in the Consolidated Statements of Operations for the three and six months ended June 30, 2005 totaled \$0 and \$0, respectively.

The fair value of options at the date of grant was estimated using the Black-Scholes option pricing model. For option grants in Fiscal 2006, the Company will take into consideration guidance under SFAS 123R and SEC Staff Accounting Bulletin No. 107 (SAB 107) when reviewing and updating assumptions. The expected volatility is based upon historical volatility of our stock and other contributing factors. The expected term is based upon observation of actual time elapsed between date of grant and exercise of options for all employees. Previously such assumptions were determined based on historical data.

The weighted average assumptions made in calculating the fair values of options granted during the three and six months ended June 30, 2006 and 2005 are as follows:

OVERVIEW

We are a full service advertising specialties and promotional products company. Specific categories of the use of promotional products include advertising specialties, business gifts, incentives and awards, and premiums. Through the services of our two in-house sales persons, who also serve as executive officers of our company, and the use of independent sales representatives, we distribute items to our customers typically with their logos on them. Several of our customer categories include large corporations, local schools, universities, financial institutions, hospitals and not-for-profit organizations.

The most popular products that we have distributed over the last two years and account for over 50% of our business are as follows:

- o Wearables, such as t-shirts, golf shirts and hats.
- o Glassware, such as mugs and drinking glasses.
- o Writing instruments, such as pens, markers and highlighters.
- o Bags, such as tote bags, gift bags and brief cases.

There are a number of trends in the advertising/marketing industry, the most significant of which is the trend toward integrated marketing strategies. Integrated marketing campaigns involve not only advertising, but also sales promotions, internal communications, public relations, and other disciplines. The objectives of integrated marketing are to promote products and services, raise employee awareness, motivate personnel, and increase productivity through a wide array of methods including extensive use of promotional products.

Edgar Filing: ACE MARKETING & PROMOTIONS INC - Form 10QSB/A

Price is no longer the sole motivator of purchasing behavior for our customers. With the availability of similar products from multiple sources, customers are increasingly looking for distributors who provide a tangible added-value to their products. As a result, we provide a broad range of products and related services. Specifically, we provide research and consultancy services, artwork and design services, and fulfillment services to our customers. These services are provided in-house by our current employees. Management believes that by offering these services, we can attempt to attract new customers.

10

Our revenues are expected by us to grow as economic conditions in the United States continue to improve, by adding additional independent sales representatives to our sales network and through one or more acquisitions of other distributors. We can provide no assurances that our expectations described above will be realized.

RESULTS OF OPERATIONS

The following table sets forth certain selected unaudited condensed statement of operations data for the periods indicated in dollars and as a percentage of total net revenues. The following discussion relates to our results of operations for the periods noted and is not necessarily indicative of the results expected for any other interim period or any future fiscal year. In addition, we note that the period-to-period comparison may not be indicative of future performance.

	Three Months Ended June 30, 2006 ----	2005 ----	Six Months 2006 ----

Three Months Ended June 30, 2006 versus Three Months Ended June 30, 2005

We generated revenues of \$1,088,588 in the second quarter of 2006 compared to \$990,786 in the same three month period ending June 30, 2005. The increase in revenues of \$97,802 in 2006 compared to 2005 is primarily due to our utilizing additional sales representations to obtain additional customers and our new and existing customers buying products with higher average prices.

Cost of revenues was \$754,291 or 69% of revenues in the second quarter of 2006 compared to \$682,810 or 69% of revenues in the same three months of 2005. Cost of revenues includes purchases and freight costs associated with the shipping of merchandise to our customers. Increase in cost of revenues of \$71,481 in 2006 is related to an increase in revenues.

Edgar Filing: ACE MARKETING & PROMOTIONS INC - Form 10QSB/A

Gross profit was \$334,298 in the second quarter of 2006 or 31% of net revenues compared to \$307,976 in the same three months of 2005 or 31% of revenues. Gross profits will vary period-to-period depending upon a number of factors including the mix of items sold, pricing of the items and the volume of product sold. Also, it is our practice to pass freight costs on to our customers. Reimbursement of freight costs which are included in revenues have lower profit margins than sales of our promotional products and has the effect of reducing our overall gross profit margin on sales of products, particularly on smaller orders.

Selling, general, and administrative expenses were \$454,311 in the second quarter of 2006 compared to \$749,527 in the same three months of 2005. Such costs include payroll and related expenses, insurance and rents. The overall decrease of \$295,216 is primarily due to the decrease in stock based compensation.

Net loss was \$(119,889) in the second quarter of 2006 compared to a net loss of \$(451,551) for the same three months in 2005. No benefit for income taxes is provided for in 2006 and 2005 due to the full valuation allowance on the net deferred tax assets.

Six months ended June 30, 2006 versus June 30, 2005

We generated revenues of \$2,163,596 in the first half of 2006 compared to \$1,549,193 in the same six month period ending June 30, 2005. The increase in revenues of \$614,403 in 2006 compared to 2005 is primarily due to our utilizing additional sales representations to obtain additional customers and our new and existing customers buying products with higher average prices.

Cost of revenues was \$1,529,464 or 71% of revenues in the first half of 2006 compared to \$1,040,719 or 67% of revenues in the same six months of 2005. Cost of revenues includes purchases and freight costs associated with the shipping of merchandise to our customers. Increase in cost of revenues of \$488,745 in 2006 is related to an increase in revenues.

11

Gross profit was \$634,132 in the first half of 2006 or 29% of net revenues compared to \$508,474 in the same six months of 2005 or 33% of revenues. Gross profits will vary period-to-period depending upon a number of factors including the mix of items sold, pricing of the items and the volume of product sold. Also, it is our practice to pass freight costs on to our customers. Reimbursement of freight costs which are included in revenues have lower profit margins than sales of our promotional products and has the effect of reducing our overall gross profit margin on sales of products, particularly on smaller orders. The decrease in gross profit percentage during the first half of 2006 relates to the mix of product sold and size of orders.

Selling, general, and administrative expenses were \$870,4849 in the first half of 2006 compared to \$997,081 in the same six months of 2005. Such costs include payroll and related expenses, insurance and rents. The overall decrease of \$126,597 is primarily due to the decrease in stock based compensation.

Net loss was \$(235,481) in the first half of 2006 compared to a net loss of \$(493,018) for the same six months in 2005. No benefit for income taxes is provided for in 2006 and 2005 due to the full valuation allowance on the net deferred tax assets.

LIQUIDITY AND CAPITAL RESOURCES

The Company had cash and cash equivalents of \$279,201 at June 30, 2006. Cash used by operating activities for the six months ended June 30, 2006 was \$(119,034). This resulted primarily from a net loss of \$(235,649), an increase in accounts receivable of \$(58,405) and a increase in accounts payable and accrued expenses of \$8,370 partially offset by prepaid expenses of \$3,025 and stock based compensation of \$64,314.

The Company had cash and cash equivalents of \$494,273 at June 30, 2005. Cash used by operating activities for the six months ended June 30, 2005 was \$(173,088). This resulted primarily from a net loss of \$(493,018), an increase in accounts receivable of \$(144,105) and a decrease in accounts payable and accrued expenses of \$(72,593) partially offset by prepaid expenses of \$57,327 and stock based compensation of \$476,692. Cash provided from financing activities was \$126,076 resulting from private a placement of common stock and warrants which netted \$95,000 and the conversion of a note payable with accrued interest into common stock of the company at a reduced conversion rate of \$1.00 per share, which resulted in the issuance of 31,076 shares of common stock.

Our company commenced operations in 1998 and was initially funded by our three founders, each of whom has made demand loans to our Company that have been repaid. Since 1999, we have relied on equity financing and borrowings from outside investors to supplement our cash flow from operations. As of June 30, 2006, all borrowings from outside investors have been repaid or converted into our company's common stock. We raised net proceeds of \$95,000 from the sale of our common stock and warrants to purchase additional common stock in the first quarter of 2005.

We anticipate that our future liquidity requirements will arise from the need to finance our accounts receivable and inventories, hire additional sales persons, capital expenditures and possible acquisitions. The primary sources of funding for such requirements will be cash generated from operations, raising additional capital from the sale of equity or other securities and borrowings under debt facilities which currently do not exist. We believe that we can generate sufficient cash flow from these sources to fund our operations for at least the next twelve months. We are currently seeking to raise private financing of up to \$4,830,000 from the sale of our common stock and warrants as described below. We can provide no assurance that our attempt to raise additional financing will be successful on terms satisfactory to us, if at all.

The Registrant has a plan of financing to sell shares of its unregistered Common Stock at \$1.75 per share and to issue Warrants also exercisable at \$1.75 per share. This financing is ongoing through a licensed broker/dealer who is a member of the National Association of Securities Dealers, Inc. As of August 16, 2006, the Company has raised gross proceeds of \$761,250 and is obligated to issue 435,000 shares of Common Stock and Warrants to purchase 217,500 shares of its Common Stock, exclusive of shares of Common Stock and Warrants to be issued to the Placement Agent. Exemption from registration is claimed under Rule 506 of Regulation D promulgated under Section 4(2) of the Securities Act of 1933, as amended. The aforementioned securities have not been registered under the Securities Act and may not be offered or sold in the United States absent registration or an applicable exemption from registration requirements. The securities being sold pursuant to the plan of financing contain certain registration rights.

ITEM 3. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in the Company's Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure based closely on the definition of "disclosure controls and procedures" in Rule 13a-15(e). Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level at the end of our most recent quarter.
