Solicitation of Proxies

THIS MANAGEMENT INFORMATION CIRCULAR AND PROXY STATEMENT (THE "INFORMATION CIRCULAR") IS FURNISHED IN CONNECTION WITH THE SOLICITATION BY THE MANAGEMENT OF ALTAIR NANOTECHNOLOGIES INC. (THE "CORPORATION") OF PROXIES TO BE USED AT THE ANNUAL MEETING OF SHAREHOLDERS OF THE CORPORATION TO BE HELD AT THE TIME AND PLACE AND FOR THE PURPOSES SET FORTH IN THE ENCLOSED NOTICE OF MEETING (THE "MEETING"). This Information Circular, the notice of Meeting attached hereto, and the accompanying form of proxy and the Annual Report of the Corporation for the year ended December 31, 2007 are first being mailed to the shareholders of the Corporation on or about April 29, 2008. It is expected that the solicitation will be primarily by mail, but proxies may also be solicited personally, by email, by facsimile or by telephone by officers and employees of the Corporation without additional compensation therefor. If one or more shareholders files a proxy statement or solicits proxies in opposition to the recommendations of the board of directors of the Corporation (the "Board of Directors" or the "Board"), the Corporation may engage outside solicitors to assist with its solicitation of proxies. Details regarding any such engagement would be set forth in a supplement to this Information Circular.

The cost of solicitation by management will be borne directly by the Corporation. Arrangements will be made with brokerage firms and other custodians, nominees and fiduciaries for the forwarding of solicitation materials to the beneficial owners of the Common Shares of the Corporation ("Common Shares") held by such persons, and the Corporation will reimburse such brokerage firms, custodians, nominees and fiduciaries for the reasonable out-of-pocket expenses incurred by them in connection therewith.

Appointment and Revocation of Proxies

The persons named in the enclosed form of proxy are officers and/or directors of the Corporation. A SHAREHOLDER DESIRING TO APPOINT SOME OTHER PERSON TO REPRESENT HIM AT THE MEETING MAY DO SO either by inserting such person's name in the blank space provided in that form of proxy or by completing another proper form of proxy and, in either case, depositing the completed proxy at the office of the transfer agent indicated on the enclosed envelope not later than 48 hours (excluding Saturdays and holidays) before the time of holding the Meeting, or by delivering the completed proxy to the chairman on the day of the Meeting or adjournment thereof.

A proxy given pursuant to this solicitation may be revoked by instrument in writing, including another proxy bearing a later date, executed by the shareholder or by his attorney authorized in writing, and deposited either at the Corporation's principal office located at 204 Edison Way, Reno, Nevada at any time up to and including the last business day preceding the day of the Meeting, or any adjournment thereof, at which the proxy is to be used, or with the chairman of such Meeting on the day of the Meeting, or adjournment thereof, or in any other manner permitted by law.

Voting of Proxies

THE COMMON SHARES REPRESENTED BY A DULY COMPLETED PROXY WILL BE VOTED OR WITHHELD FROM VOTING IN ACCORDANCE WITH THE INSTRUCTIONS OF THE SHAREHOLDER ON ANY BALLOT THAT MAY BE CALLED FOR AND, IF THE SHAREHOLDER SPECIFIES A CHOICE WITH RESPECT TO ANY MATTER TO BE ACTED UPON, SUCH COMMON SHARES WILL BE VOTED ACCORDINGLY. UNLESS OTHERWISE INDICATED ON THE FORM OF PROXY, SHARES REPRESENTED BY PROPERLY EXECUTED PROXIES IN FAVOUR OF PERSONS DESIGNATED IN THE PRINTED PORTION OF THE ENCLOSED FORM OF PROXY WILL BE VOTED (I) TO ELECT MANAGEMENT'S SIX NOMINEES FOR DIRECTOR, AND (II) TO APPOINT PERRY SMITH LLP AS THE CORPORATION'S INDEPENDENT AUDITORS FOR THE FISCAL YEAR ENDING DECEMBER 31, 2008. The enclosed form of proxy confers discretionary authority upon the persons named therein with respect to amendments or variations to matters identified in the notice of Meeting, or other matters which may properly come before the Meeting. At the time of printing this Information Circular, management of the Corporation knows of no such amendments, variations or other matters to come before the Meeting.

Voting Securities and Principal Holders of Voting Securities

The authorized capital of the Corporation consists of an unlimited number of Common Shares. As of March 31, 2008, the Corporation had 84,502,576 Common Shares issued and outstanding.

The Corporation shall make a list of all persons who are registered holders of Common Shares on March 31, 2008 (the "Record Date") and the number of Common Shares registered in the name of each person on that date. Each shareholder is entitled to one vote for each Common Share registered in his name as it appears on the list.

One-third of the outstanding Common Shares entitled to vote, represented in person or by properly executed proxy, is required for a quorum at the Meeting. Abstentions will be counted as "represented" for purposes of determining the presence or absence of a quorum. Complete broker non-votes, which are indications by a broker that it does not have discretionary authority to vote on any of the matters to be considered at the Meeting, will not be counted as "represented" for the purpose of determining the presence or absence of a quorum.

To the knowledge of the directors and executive officers of the Corporation, as of March 31, 2008, only one holder, Al Yousuf LLC, directly or indirectly, exercises control or direction of over more than 10% of the Common Shares outstanding. According to a Schedule 13D filed by Al Yousuf, LLC and affiliates on December 17, 2007, the affiliate group beneficially owns 11,895,038 Common Shares representing 14.1% of the outstanding Common Shares at March 31, 2008.

Under the Canada Business Corporations Act (the "CBCA"), once a quorum is established, in connection with the election of directors, the six nominees receiving the highest number of votes will be elected. In order to approve the proposal in respect of the appointment of independent auditors the votes cast in favour of such proposal must exceed the votes cast against. Abstentions and broker non-votes will not have the effect of being considered as votes cast against any of the matters considered at the Meeting.

Certain Relationships and Related Transactions

Subsequent to Mr. Hemphill's appointment as a director in April 2007, the Corporation entered into a multi-year Joint Development and Equipment Purchase Agreement with AES Energy Storage, LLC ("AES") in July 2007. Under the terms of this agreement the Corporation will work jointly with AES to develop a suite of energy storage products for purchase by AES and potentially to third parties. This agreement is effective through July 2011. As part of the joint development process, AES placed an order for a prototype energy storage product during 2007 at a cost of \$1,000,000. As Executive Vice President of The AES Corporation, Mr. Hemphill was not independent in regard to this transaction and confirmed that he executed the Board of Director's consent regarding this contract for the purpose of making the consent effective as a written consent resolution but would be abstaining were this matter considered at a meeting of the directors. Mr. Hemphill disclaims any direct financial interest in such transactions.

Compensation Discussion and Analysis

Pursuant to Item 402(b) of Regulations S-K, promulgated under the United States Securities Act of 1933, as amended (the "Securities Act"), the following discussion is meant to provide an overview of the material elements of the Corporation's compensation policy (the "Compensation Policy"). The following discussion is meant to be a principle-based discussion of the Corporation's compensation policies and provide context to the tables that follow. Specific reference to disclosures in the Compensation Tables will be discussed in narrative descriptions following the respective Compensation Tables.

Compensation Philosophy

The objectives of our executive officer compensation policy are to attract and retain talented and dedicated executives, to tie compensation to the achievement of specified short-term and long-term performance objectives, and to align executives' incentives with the creation of shareholder value. The Compensation, Nominating and Governance Committee approves and annually evaluates the Corporation's compensation policies applicable to, and the performance of, the Corporation's executive officers, including the Chief Executive Officer, Chief Financial Officer and the other executive officers identified in the Summary Compensation Table on page 19 (referred to as the "named executive officers").

The following objectives guide compensation decisions:

- Provide a competitive total compensation package that enables the Corporation to attract and retain key executive talent;
- Align key elements of compensation with the Corporation's annual and long-term business strategies & objectives; and
- Provide a mix of base compensation and performance-based compensation that directly links executive rewards to the performance of the Corporation and shareholder return.

Elements of Executive Compensation

The principal components of compensation for the Corporation's named executive officers are as follows:

- Base salary;
- Annual incentive bonus;
- Long-term equity-based incentives, primarily stock options; and
- Discretionary bonus.

Named executive officers are entitled to benefits generally available to all full-time salaried employees of the Corporation. These benefits include up to 5 weeks per-year of paid time off for medical and vacation leave, subsidized group health plan coverage offered to all salaried employees of the Corporation, and eligibility to participate in the Corporation's 401(k) Profit Sharing Plan (the "401(k) Plan"), matching contributions under the 401(k) Plan in an amount up to the greater of 50% of the first \$2,500 contributed or 3% of the employee's base salary. As explained in "Termination and Change of Control Agreements" below, certain named executive officers may be entitled to severance payments in connection with a change of control or termination of their employment. Other than as described above, the named executive officers are not provided with special benefits or perquisites such as company cars, enhanced medical plans or dental plans.

Determination of Compensation

In order to evaluate the Corporation's competitiveness and appropriateness of the Corporation's total compensation, and mix of compensation, for executive officers, the Compensation, Nominating and Governance Committee reviews data on the base, annual incentive bonus and equity-based incentive compensation for various executive positions, as well as the mix of compensation components, of executive officers of a benchmark group of companies (45) that comprise the chemicals and biotech/biopharma business sectors of reporting public companies with annual revenues of less than \$100-million and with a market capitalization between \$200-million and \$750-million. Equilar, an independent company, produces all compensation reports.

In addition to the benchmark company information, in determining the amount of and mix of compensation, the Compensation, Nominating and Governance Committee considers evaluations of the Chief Executive Officer by each of the directors the Corporation, the recommendations of the Chief Executive Officer and Vice President of Human Resources with respect to officers other than the Chief Executive Officer, the performance of each executive officer against pre-determined business goals and objectives and the potential role of the executive in the strategic plan of the Corporation. Subject to adjustment upward or downward based upon the various evaluations, the Compensation, Nominating and Governance Committee generally targets base compensation and equity-based incentive awards near the median of the benchmark group and targets maximum annual incentive bonus near the 75th percentile of the benchmark group as detailed below:

Acadia Pharmaceuticals	Acordia Therapeutics	Affymax
Alexza Pharmaceuticals	Altus Pharmaceuticals	Ariad Pharmaceuticals
Array Biopharma	Coley Pharmaceutical Group	CV Therapeutics
Cypress Bioscience	Cytokinetics	Cytrx
Dendreon	Discovery Laboratories	Dyax Corporation
Genomic Health	GTX	Idera Pharmaceuticals
Immunogen	Incyte Corporation	Indevus Pharmaceuticals

Intermune	Keryx Biopharmceuticals	Kosan Biosciences
Lexicon Pharmaceuticals	Maxygen	Metabolix
Neogen Corporation	Neurocine Biosciences	Novavux
Omrix Biopharmaceuticals	Orasure Technologies	Osiris Therapeutics
Progenics Pharmaceuticals	Rentech	Sangamo Biosciences
Savient Pharmaceuticals	Seattle Genetics	Senomyx
Tercica	Third Wave Technologies	Tiens Biotech Group
Vanda Pharmaceuticals	Verenium	Xoma

Mix of Compensation

The Compensation, Nominating and Governance Committee believes that a significant percentage of the annual compensation of the named executive officers should be at-risk. During 2007, between approximately 39% and 52% of the named executive officers' potential annual compensation was dependent upon the achievement of individual and corporate goals. In addition, stock options granted to the Corporation's named executive officers for retention and incentive purposes generally vest over a period of four years.

The percentage of compensation at risk increases as the level of position increases, with the top figures in each of the ranges set forth above being that of the Corporation's Chief Executive Officer. This provides additional upside potential and downside risk for senior positions, recognizing that these roles have greater influence on the Corporation's performance.

Base Salary

Base salaries for the named executive officers are established based on the scope of their responsibilities, their skills and their historical and potential contributions to the Corporation, as well as the compensation paid by benchmarked companies for similar positions. Generally, base salaries are targeted near the median of the range of salaries for executives in similar positions with similar responsibilities at benchmark companies, in line with our compensation philosophy. Base salaries are reviewed annually, and adjusted from time to time to realign salaries with market levels after taking into account individual responsibilities, performance and experience.

Annual Incentive Bonus

The annual incentive bonus is intended to compensate executives for achieving corporate goals. 100% of each named executive officer's annual incentive bonus is contingent upon the Corporation achieving pre-determined financial and operational goals.

Decisions with respect to annual incentive bonus are made shortly after the end of each fiscal year. At the beginning of each year, the Compensation, Nominating and Governance Committee sets annual performance goals, a target and maximum incentive bonus amount and a formula for determining the amount, if any, of the bonus each executive officer is entitled to receive. Annual incentive bonuses are paid 60% cash and 40% in Common Shares. For purposes of determining the number of Common Shares an employee is issued as part of a stock bonus, the Corporation uses the weighted average market value of the Corporation's common shares for the applicable fiscal year, which was \$3.78 during 2007. For accounting purposes, and unless otherwise stated in the summary below, the Corporation uses the closing price on the date prior to the issue date of the Common Shares to value Common Shares issued as part of a stock bonus, which was \$4.60 at closing on January 2, 2008. The Compensation, Nominating and Governance Committee reserves the right to award annual incentive bonuses above, and below, target amounts as it deems appropriate.

Targets and Results for 2007. During 2007, each named executive officer was eligible for target annual incentive bonuses ranging from 60% to 80% of his base salary, depending on his position. Of these amounts, 100% was tied to the achievement of corporate goals, specifically a total revenue goal (25% weighting) and a cash balance at December 31, 2007 target (75% weighting) in line with the Corporation's board-approved budget. The Compensation, Nominating and Governance Committee reserves the discretion to award, or to deny, annual incentive bonuses whether or not performance targets are achieved, as it deems appropriate. Decisions with respect to incentive bonuses for 2007 were made at a meeting of the Compensation, Nominating and Governance Committee based upon estimated year-end information.

For 2007, the Corporation slightly exceeded its cash balance goal, which was determined excluding the approximately \$40 million raised from a private placement in late 2007, but did not meet its revenue goal. Pursuant to the formula included in the 2007 incentive plan, absent adjustments by the Compensation, Nominating and Governance Committee, each named executive officer was entitled to 98.4% of his target bonus.

At the 98.4% level, Alan Gotcher, the Corporation's Chief Executive Officer, was entitled to receive, and received, an annual incentive bonus of \$174,939 in cash and 30,854 of Common Shares with a value of \$141,926. The Common Shares were granted on January 3, 2008 without any vesting restrictions.

At the 98.4% level, the remaining four named executive officers were entitled to receive a combined annual incentive bonus of \$264,209 in cash and an aggregate of 46,598 Common Shares with a total value of \$214,349. The Compensation, Nominating and Governance Committee used its discretion to adjust the annual incentive bonus of one named executive officer downward by \$28,044 and to adjust one upward by \$11,268 (as explained below), resulting in a total annual incentive bonus of \$254,143 in cash and an aggregate of 44,822 Common Shares with a total value of \$169,429. The Common Shares were granted on January 3, 2008 without any vesting restrictions.

Long term Equity-Based Incentives

The Corporation's 2005 Stock Incentive Plan (Amended and Restated) (the "2005 Stock Plan") was adopted at the Corporation's Annual Meeting of Shareholders in May 2005 and amended and restated in 2007 to increase the number of eligible shares. Under the 2005 Stock Plan, the Corporation is authorized to issue equity-based awards, including stock options, stock bonuses, restricted stock, stock appreciation rights, and performance-based awards, with respect to up to 9,000,000 Common Shares. Each of the Compensation, Nominating and Governance Committee and the Board of Directors have joint authority to grant awards under the 2005 Stock Plan.

The Corporation had previously authorized its 1996 Stock Option Plan and 1998 Stock Option Plan, under which an aggregate of 1,138,300 awards continue to be outstanding as of March 31, 2008; however, awards can no longer be granted under such plans.

The Corporation's long-term equity-based incentive program is focused on rewarding performance that enhances shareholder value. The program involves the periodic grant of options to purchase Common Shares in order to provide executive officers with the opportunity to purchase an equity interest in the Corporation and to share in the appreciation of the value of the Corporation's Common Shares.

The program currently consists of two components. Forty percent (40%) of the annual incentive bonus for each executive officer is paid in the form of a stock option or Common Shares as determined by the Compensation, Nominating and Governance Committee. The value of each option is determined using the Black-Scholes formula, and the options have an exercise price equal to the market price on the date of grant, a 10-year term and vest immediately upon grant. Common Shares are issued without any vesting restrictions. Discretionary bonuses may also be paid through the grant of stock options or Common Shares.

The Compensation, Nominating and Governance Committee periodically considers whether or not to grant additional stock options in order to maintain the overall competitiveness of the Corporation's compensation package for each executive officer and to ensure that executives, particularly executives whose other stock options have vested and/or been exercised, have an incentive to remain with the Corporation long term and to increase shareholder value. Factors weighed in determining whether to make, and the amount of, these grants include the above-described review of benchmark compensation data and assessment of past performance, retention considerations, information regarding each named executive officer's existing equity and stock option ownership, potential shareholder dilution and the expense to the Corporation pursuant to Standard of Financial Accounting Standards No. 123(R), Share-Based Payment ("FAS No. 123(R)"). Such options generally have an exercise price equal to the market price on the date of grant, a 10-year term and vest over a four-year term.

In addition, from time to time stock option grants are made to newly hired employees based on their level of responsibility and competitive practices.

Retention Grants. In addition to the Common Shares awarded to him as part of his annual incentive bonus, Alan Gotcher was awarded a grant of options to purchase 283,000 Common Shares at an exercise price of \$3.72 per share on January 15, 2008. The options have a 10-year term and vest 25% on January 15, 2009, 25% on January 15, 2010, 25% on January 15, 2011 and 25% on January 15, 2012. This retention grant was determined to be in line with median grants to CEO's in benchmarked companies.

In addition to the Common Shares awarded to them as part of their annual incentive bonuses, the remaining named executive officers were granted retention options to purchase an aggregate of 246,000 Common Shares at an exercise price of \$3.72 per share on January 15, 2008. The options have a 10-year term and vest 25% on January 15, 2009, 25% on January 15, 2010, 25% on January 15, 2011 and 25% on January 15, 2012.

Discretionary Bonus

The Compensation, Nominating and Corporate Governance Committee may also make discretionary bonuses from time to time if it determines, after considering the total base salary, annual incentive bonus and equity-based compensation to the executive, that the total compensation otherwise earned by the executive underrepresented the value or contribution of the executive during the year. A discretionary bonus may also be considered if necessary for retention or other purposes.

Results for 2007. During 2008, the Compensation, Nominating and Corporate Governance Committee determined to grant Alan Gotcher a discretionary bonus in the form of cash in the amount of \$253,661 and 44,737 Common Shares with a value of \$205,792. The Common Shares were granted on January 3, 2008 without any vesting restrictions. During 2008, the Compensation, Nominating and Corporate Governance Committee determined to grant Bruce Sabacky a discretionary bonus in the form of cash in the amount of \$6,760 and 1,192 Common Shares with a value of \$4,507 using the weighted average market price and \$5,485 using the closing price on the date prior to the issue date. The Common Shares were granted on January 3, 2008 without any vesting restrictions. The determination to grant the discretionary bonus for Alan Gotcher and Bruce Sabacky was made based on the belief on the date of the grant that their contributions toward the achievement of the Corporation's bonus targets for 2007, particularly the corporate cash balance target, were not adequately reflected by their baseline bonus.

The Compensation, Nominating and Governance Committee is currently conducting an inquiry into the circumstances under which the discretionary portion of the bonus was granted to Mr. Gotcher and reserves the right to take any appropriate action indicated at the close of the inquiry.

No other named executive officers received a discretionary bonus.

Compensation Adjustments

The Corporation may increase or, subject to contractual or other restrictions decrease, an executive's overall compensation at any time during any fiscal year after considering several factors, including level and scope of responsibilities, contribution to overall corporate performance and achievement of personal goals and objectives.

The Corporation does not currently have a defined policy regarding the subsequent adjustment or recovery of compensation or incentive awards if there is a subsequent accounting restatement or other correction of data that adversely affects relevant benchmarks or targets. However, a policy regarding these matters is being considered as part of the Corporation's 2008 incentive plan,

Termination and Change-of-Control Agreements

The employment agreements of the following named executive officers provide for termination and change of control benefits as follows:

Dr. Gotcher was removed as Chief Executive Officer and President on February 27, 2008 and his employment terminated on March 13, 2008. Under the terms of Dr. Gotcher's employment agreement, in connection with a termination of his employment by the Company without cause, if he signs a release in form and substance reasonably satisfactory to the Company, he is entitled to receive a severance benefit equal to his base salary for one year, health benefits for one year and his incentive bonus for the current year (paid at the end of the year assuming the applicable performance targets are met).

Each of Dr. Jeffrey McKinney, our Vice President and Chief Patent Counsel, Stephen Balogh, our Vice President of Human Resources and Dr. Bruce Sabacky, Vice President and Chief Technology Officer signed employment agreements containing the provisions described in the following three paragraphs related to the termination of their employment. If the officer's employment is terminated by the officer for good reason, which includes, among other things, (a) the Corporation requiring the officer to relocate his place of employment without the officer's consent, or (b) a material adverse change in the officer's title, position, and/or duties 90 days before or within one year after a change of control, the officer is entitled to a severance benefit equal to his base salary and health benefits for one year. This one-year base salary severance benefit will be extended to 16 months if either the officer was required to relocate more than 50 miles in order to commence employment and the termination occurs within two years of commencement of employment, or the officer later consents to a relocation of his employment and the termination occurs within two-years of such voluntary relocation.

If the officer's employment is terminated by the Corporation without cause, the officer is entitled to a severance benefit equal to his base salary for one year, health benefits for 18 months, and a lump sum bonus payment equal to 60% of his base salary paid for the year in which his termination occurred. The one-year base salary severance benefit will be extended to 16 months if either the officer was required to relocate more than 50 miles in order to commence employment and the termination occurs within two years of commencement of employment, or the officer later consents to a relocation of his employment and the termination occurs within two-years of such voluntary relocation.

The officer is not entitled to any severance if his employment is terminated at any time by the Corporation with cause or by the officer without good reason. Dr. McKinney's current base salary is \$215,000 per year; Mr. Balogh's current base salary is currently \$197,794 per year; and Dr. Sabacky's current base salary is currently \$215,000 per year.

The Compensation, Nominating and Governance Committee believes that providing a reasonable severance arrangement tied to termination without cause is essential to attracting and retaining talented executive officers. In addition, the Compensation, Nominating and Governance Committee believes that the severance arrangements provided to certain of its named executive officers serve the best interests of the Corporation and its shareholders by ensuring that, if a hostile or friendly change of control is under consideration, its executives will feel secure enough about their post-transaction financial future that they will advise the Board of Directors about the potential transaction without consideration, or with lessened consideration, of any adverse effect of the transaction on their future employment and compensation. The Corporation has no other severance agreements in place with other employees.

Role of Executive Officers in Determining Executive Pay

The Compensation, Nominating and Governance Committee makes all decisions with respect to base compensation, annual incentive compensation and the award of stock options to the executive officers of the Corporation, including all named executive officers. Such authority may not be delegated to another person other than, as appropriate, the entire Board of Directors.

At the end of each fiscal year, the Corporation's Vice President of Human Resources and Chief Executive Officer are responsible for evaluating the performance of each named executive officer (and other officers) against corporate and individual performance objectives and for submitting a report to the Compensation, Nominating and Governance Committee detailing the results of their evaluations. In connection with this report, each of the Vice President of Human Resources and Chief Executive Officer make recommendations to the Compensation, Nominating and Governance Committee with respect to compensation matters related to the prior year, including employee-specific recommendations but not with respect to himself. In addition, each of the two officers makes recommendations to the Compensation, Nominating and Governance Committee with respect to compensation matters related to the upcoming year, including employee-specific recommendations (but not with respect to himself) and strategic and design recommendations. The Compensation, Nominating and Governance Committee considers these recommendations, and the report of these officers, among other factors by the Compensation, Nominating and Governance Committee as it makes prior-year and coming-year compensation decisions.

Tax and Accounting Considerations

Accounting Treatment

The Corporation adopted Standard of Financial Accounting Standards No. 123(R), Share-Based Payment, which requires companies to expense the costs of stock-based compensation in their financial statements. As such, the Corporation began recording stock-based compensation expense in the income statement in 2006. The fair value of each award is estimated on the date of grant, using the Black-Scholes option-pricing model. Once the fair value of each award is determined, it is expensed in the income statement over the vesting period.

Deductibility of Executive Compensation

Section 162(m) of the United States Internal Revenue Code of 1986, as amended (the “Code”), imposes a \$1 million annual limit on the amount that a public company may deduct for compensation paid during a tax year to the company’s Chief Executive Officer or to any of the company’s four other most highly compensated executive officers who are still employed at the end of the tax year. The limit does not apply to compensation that meets the requirements of Code Section 162(m) for “qualified performance-based” compensation (i.e., compensation paid only if the executive meets pre-established, objective goals based upon performance criteria approved by the company’s shareholders).

The Compensation, Nominating and Governance Committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Code. In certain situations, the Compensation, Nominating and Governance Committee may approve compensation that will not meet the requirements of Code Section 162(m) in order to ensure competitive levels of total compensation for its executive officers. Stock option grants in 2007 were intended to constitute “qualified performance-based compensation” under Section 162(m). The Corporation’s 2007 annual performance bonuses, however, were not “qualified performance-based compensation.” In 2007, one of the named executive officers, Alan Gotcher, received base pay, annual bonus and other compensation in an amount in excess of the \$1 million deduction limit.

As such, it is not the duty of the Audit Committee to plan or conduct audits or to determine that the Corporation's financial statements fairly present the Corporation's financial position and results of operation and are in accordance with generally accepted accounting principles and applicable laws and regulations. Statement of Corporate Governance Practices

National Policy 58-201 of the Canadian Securities Administrators has set out a series of guidelines for effective corporate governance (the “Guidelines”). The Guidelines address matters such as the constitution and independence of corporate boards, the functions to be performed by boards and their committees and the effectiveness and education of board members. National Instrument 58-101 (“NI 58-101”) of the Canadian Securities Administrators requires the disclosure by each listed corporation of its approach to corporate governance with reference to the Guidelines as it is recognized that the unique characteristics of individual corporations will result in varying degrees of compliance.

Set out below is a description of the Corporation’s approach to corporate governance in relation to the Guidelines.

1. The Board of Directors

NI 58-101 defines an “independent director” as a director who has no direct or indirect material relationship with the corporation. A “material relationship” is in turn defined as a relationship that could, in the view of the corporation’s board of directors, be reasonably expected to interfere with such member’s independent judgement. The Board of Directors of the Corporation is currently comprised of seven members, a majority of whom the Board has determined are “independent directors” within the meaning of NI 58-101.

Dr. Gotcher is considered a non-independent director, as he is a former officer of the Corporation. Mr. Hemphill is an Executive Vice President of The AES Corporation, an investor in the Corporation and potential business partner. The Board of Directors believes that Mr. Hemphill is not independent based on a previous financing and business transactions, as well as potential future transactions, with an affiliate of The AES Corporation.

Messrs. Bazinet, Bengtson, Hartman, van Schoonenberg, and Lortie are considered independent directors since they are all independent of management and free from any material relationship with the Corporation. The basis for this determination is that, since the beginning of the fiscal year ended December 31, 2007, none of the independent directors have worked for the Corporation, received more than Cdn\$75,000 in annual remuneration from the Corporation, excluding fees received for serving on the board of directors or any board committee, or had material

contracts with or material interests in the Corporation which could interfere with their ability to act with a view to the best interests of the Corporation.

30

The Board believes that it functions independently of management. To enhance its ability to act independent of management, the Board may meet in the absence of members of management and the non-independent directors or may excuse such persons from all or a portion of any meeting where a potential conflict of interest arises or where otherwise appropriate. The Board held four meetings of the independent directors in the absence of members of management and the non-independent directors during the fiscal year ended December 31, 2007. Mr. Bengtson, Chairman of the Board, generally acts as the chairman during meetings of the independent directors.

Additional information concerning meetings of the Board held in fiscal 2007 is set forth above under the heading "Meetings of the Directors and Attendance at Shareholders Meeting."

Mr. Lortie currently serves as director of Group Canam (TSX-V:CAM). Mr. van Schoonenberg serves as a director of Guidance Software, Inc. (NASDAQ:GUID).

The responsibilities of the Chairman of the Board are to consult with other Board members in determining the times and duration of the Board meetings, chair all regular sessions of the Board and set the agenda for Board meetings.

2. Board Mandate

The Board has a mandate to set the strategic direction of the Corporation and to oversee its implementation by management of the Corporation. A copy of the Board mandate is set forth in Appendix A to this Information Circular and a copy may also be found on the Corporation's website, <http://www.altairnano.com>, under the heading "Investors."

3. Position Descriptions

Given the current size of the Corporation's infrastructure and the existence of a limited number of executive officers and seven directors, the Board does not feel that it is necessary at this time to formalize position descriptions or corporate objectives for any of the Chairman of the Board, Chairmen of committees of the Board, or the President and Chief Executive Officer in order to delineate their respective responsibilities. Accordingly, the roles of the executive officers of the Corporation are delineated on the basis of the customary practice.

4. Orientation and Continuing Education

Although the Corporation currently has no formal orientation and education program for new Board members, sufficient information (such as recent annual reports, prospectus, proxy solicitation materials and various other operating and budget reports) is provided to any new Board member to ensure that new directors are familiarized with the Corporation's business and the procedures of the Board. In addition, on at least an annual basis, the Board is given a presentation by an attorney or other professional regarding their role, responsibilities and obligations. In addition, new directors are encouraged to visit and meet with management on a regular basis. The Corporation also encourages continuing education of its directors and officers where appropriate in order to ensure that they have the necessary skills and knowledge to meet their respective obligations to the Corporation.

5. Ethical Business Conduct

The Board has adopted a formal code of conduct and code of ethics. See “Code of Conduct and Code of Ethics” above. In order to ensure compliance with the Code of Conduct and Code of Ethics, and to ensure that directors exercise independent judgement, the Audit Committee has assumed responsibility for approving transactions involving the Corporation and any “related party” (as that term is defined in Ontario Securities Commission Rule 61-501), except for decisions related to compensation, which are approved by the Compensation, Nominating and Governance Committee. The full Board is responsible for monitoring the Corporation’s compliance with strategic planning matters, implementing a process for assessing the effectiveness of committees of directors and individual directors, and reviewing changes in or additions to compliance policies, standards, codes and programs, as well as applicable legislation.

6. Nomination of Directors

The Board has established a Compensation, Nominating and Governance Committee, which has assumed the responsibility for identifying new candidates for Board nomination. See “Nominating Committee” above.

7. Compensation

The Board has established a Compensation, Nominating and Governance Committee, which has assumed the responsibility for making recommendations to the Board on compensation related matters. See “Composition of the Compensation Committee” and “Compensation Committee Report on Executive Compensation” above. During 2005 and 2006, a compensation consultant was retained to review and make recommendations with respect to compensation for directors, officers and employees of the Corporation.

8. Committees

In addition to the Audit Committee and the Compensation, Nominating and Governance Committee, the Board recently formed a standing Strategy Review Committee, the members of which are Pierre Lortie, Michel Bazinet, George Hartman and Robert van Schoonenberg.

9. Assessments

The Board assesses, on an annual basis, the contributions of the Board as a whole, the Audit Committee and Compensation, Nominating and Governance Committee, and each of the individual directors, in order to determine whether each is functioning effectively. The Compensation, Nominating and Governance Committee has responsibility for conducting and overseeing the annual self-evaluations for the Board and reporting such results to the Board following the end of each fiscal year. The evaluations, documented in the form of questionnaires, include peer review evaluations and are based on such objective and subjective criteria, as such committee deems appropriate.

Interest of Informed Persons in Material Transactions

Except as otherwise disclosed in the Information Circular (see “Certain Relationships and Related Transactions”), no informed person of the Corporation (within the meaning of applicable Canadian securities laws), any nominee for election as a director or any associate or affiliate thereof, has or has had any material interest in any transaction since the commencement of the Corporation’s last completed financial year, or in any proposed transaction, which has materially affected or would materially affect the Corporation.

Indebtedness of Directors and Executive Officers

There is currently no outstanding indebtedness of (i) any present or former director, executive officer or employee; or (ii) any associate of any current or former director, executive officer or employee, either owing to the Corporation or any of its subsidiaries, or owing to another entity which is the subject of a guarantee, support agreement, letter of credit or similar arrangement or understanding provided by the Corporation or any of its subsidiaries.

Policies for Approval of Related Party Transactions

The Corporation's Audit Committee has the authority and responsibility to review and approve any proposed transactions between the Corporation (including its subsidiaries) and any person that is an officer, key employee, director or affiliate of the Corporation (or any subsidiary), other than transactions related to the employment and compensation of such persons, which are reviewed and approved by the Compensation, Nominating and Governance Committee.
