EXPLANATORY NOTE REGARDING AMENDMENT

We are amending this Form 10-KSB for the twelve months ended December 31, 2007 in response to comments from the SEC requesting certain disclosures regarding management's evaluation of internal control over financial reporting. Item 8A(T) below replaces the section previously identified as Item 8A(T) on the Company's Form 10-KSB/A filed with the SEC on August 28, 2008.

Except as described above, no changes were made to the Form 10-KSB as previously filed.

ITEM 8A(T). Controls and procedures

(a) *Evaluation of Disclosure Controls and Procedures.* Our principal executive officer and principal financial officer have reassessed the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report. Disclosure controls and procedures are controls and other procedures that are designed to ensure that information required to be disclosed by us in the reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by us in the reports that we file under the Exchange Act is accumulated and communicated to our management, as appropriate to allow timely decisions regarding required disclosure.

Based on this evaluation and reassessment, our principal executive officer and principal financial officer have concluded that our disclosure controls and procedures were not effective as of December 31, 2007. As discussed below, this conclusion is based upon our failure to include a report regarding Management's review of financial reporting controls and procedures with our Form 10-KSB as filed on April 1, 2008.

Management's Report on Internal Control over Financial Reporting.

Management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act of 1934) and has assessed the effectiveness of its control using the components established in the *Internal Control-Integrated Framework* issued by the Committee of Sponsoring Organizations of the Treadway Commission. Our internal control over financial reporting has been designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Our internal control over financial reporting includes policies and procedures that pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect transactions and dispositions of our assets; provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorization of our management and directors; and provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on our financial statements.

Management performed this evaluation as of the period ended December 31, 2007. As a result of this evaluation, management initially concluded that we maintained effective internal control over financial reporting as of December 31, 2007. Our original filing of Form 10-KSB on April 1, 2008, for the year ended December 31, 2007, however, did not include management's report of this assessment of internal control over financial reporting. Based on the absence of this report, management has concluded that our internal controls over financial reporting were not effective as of December 31, 2007.

The Company is working closely with legal, accounting, and other professional services to address the deficiencies in its controls and procedures over financial reporting. It is Management's position that the deficiencies have been corrected and the new measures that have been put in place now ensure effective internal control over financial reporting.

(b) *Changes in internal control over financial reporting.* There have been no changes in our internal control over financial reporting that occurred during the last fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. Our management team will continue to evaluate our internal control over financial reporting throughout 2008.
