### About CRA International, Inc.

We are a worldwide leading economic, financial, and management consulting services firm that applies advanced analytic techniques and in-depth industry knowledge to complex engagements for a broad range of clients. Founded in 1965, we work with businesses, law firms, accounting firms, and governments in providing original, authoritative advice and a wide range of services around the world. We combine economic and financial analysis with expertise in litigation and regulatory support, business strategy and planning, market and demand forecasting, policy analysis, and engineering and technology strategy. We are often retained in high-stakes matters, such as multibillion-dollar mergers and acquisitions, new product introductions, major strategy and capital investment decisions, and complex litigation, the outcomes of which often have significant consequences for the parties involved. These matters often require independent analysis and, as a result, companies must rely on outside experts. Companies turn to us because we can provide large teams of highly credentialed and experienced economic and finance experts to address complex, high-stakes matters.

We offer consulting services in two broad areas: legal, regulatory, and financial consulting and business consulting, which, excluding revenues generated by our NeuCo subsidiary prior to deconsolidation, represented approximately 99% of our consolidated revenues in fiscal 2006. We provide our services primarily through our highly credentialed and experienced staff of employee consultants. As of November 25, 2006, we employed 733 consultants, including approximately 150 employee consultants with doctorates and approximately 249 employee consultants with other advanced degrees. Our employee consultants have backgrounds in a wide range of disciplines, including economics, business, corporate finance, materials sciences, and engineering. We are extremely selective in our hiring of consultants, recruiting from leading universities, industry, and government. Many of our employee consultants are nationally or internationally recognized as experts in their respective fields and have published scholarly articles, lectured extensively, and been quoted in the press. To enhance

the expertise we provide to our clients, we maintain close working relationships with a select group of renowned academic and industry non-employee experts.

On October 25, 2006, we announced that we will be operating under three platforms as of December 1, 2006: (i) finance, (ii) litigation and applied economics, and (iii) strategy and business consulting. Finance includes our valuation and accounting, financial markets, insurance, and risk management practices. Litigation and applied economics includes our competition, intellectual property, trade, and transfer pricing practices. Strategy and business consulting includes our capital projects, chemicals and petroleum, energy and environment, pharmaceuticals, and transportation and aerospace/defense practices.

Our business is diversified across multiple dimensions, including service offerings, vertical industry coverage, areas of functional expertise, client base, and geography. Through 23 offices located around the world, we provide multiple services across 13 areas of functional expertise to hundreds of clients across 12 vertical industries. We believe this diversification reduces our dependence on any particular market, industry, or geographic area.

In our legal, regulatory, and financial consulting practice, we work with law firms and businesses involved in litigation and regulatory proceedings, providing expert advice on highly technical issues, such as the competitive effects of mergers and acquisitions, antitrust issues, calculations of damages, measurement of market share and market concentration, liability analysis in securities fraud cases, and the impact of increased regulation. This business is driven primarily by regulatory changes and high-stakes legal proceedings, which typically are not highly correlated with the business cycle.

In our business consulting practice, we use our expertise in economics, finance, and business analysis to offer our clients such services as strategy development, performance improvement, corporate portfolio analysis, estimation of market demand, new product pricing strategies, valuation of intellectual property and other assets, assessment of competitors' actions, and analysis of new sources of supply.

Our analytical expertise in advanced economic and financial methods is complemented by our in-depth expertise in specific industries, including aerospace and defense, chemicals and petroleum, electric power and other energy/environmental industries, financial services, healthcare, materials and manufacturing, media, oil and gas, pharmaceuticals, sports, telecommunications, and transportation.

We have completed thousands of engagements for clients around the world, including domestic and foreign companies; federal, state, and local domestic government agencies; governments of foreign countries; public and private utilities; and national and international trade associations. Our clients come from a broad range of industries, with our top ten clients in fiscal 2006 accounting for approximately 19% of our revenues, and no single client accounting for more than 5% of our revenues. We also work with many of the world's leading law firms. We experience a high level of repeat business; in fiscal 2006, approximately 90% of our revenues resulted from either ongoing engagements or new engagements for existing clients.

We deliver our services through a global network of 23 coordinated offices located domestically in Boston and Cambridge, Massachusetts; Chicago, Illinois; New York, New York; College Station, Dallas, and Houston, Texas; Oakland, Palo Alto, and Pasadena, California; Atlanta, Georgia; Philadelphia, Pennsylvania; Salt Lake City, Utah; and Washington, D.C.; and internationally in Brussels, Belgium; Manama, Bahrain; Hong Kong, China; London, United Kingdom; Melbourne, Canberra, and Sydney, Australia; Toronto, Canada; and Wellington, New Zealand. In fiscal 2006, we closed our Mexico City, Mexico office.

We are a Massachusetts corporation and our principal executive offices are located at 200 Clarendon Street, T-33, Boston, Massachusetts 02116, and our telephone number at that address is (617) 425-3000. Our principal internet address is [www.crai.com](http://www.crai.com). We do not incorporate the information on our website into this prospectus, and you should not consider it part of this prospectus.

### **RISK FACTORS**

Investing in our common stock involves a high degree of risk. Please carefully consider the risk factors described under the heading "Risk Factors" in our quarterly report on Form 10-Q for the fiscal quarter ended February 16, 2007, which is incorporated by reference in this prospectus.

Before making an investment decision, you should carefully consider these risks as well as the risk factors and information we include or incorporate by reference in this prospectus. The risks and uncertainties we have described are not the only ones we face. Additional risks and uncertainties of which we are unaware or that we currently deem immaterial may also have a material adverse effect on our business, operations, revenues, net income, and future prospects. If any of these risks materializes, the trading price of our common stock could fall, and you might lose all or part of your investment.

### **SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS**

This prospectus, the documents incorporated by reference in this prospectus and any supplements to this prospectus may contain "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements about our future financial performance, business operations, product development and other plans. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "could," "anticipate," "estimate," "expects," "projects," "predicts," "intends," "plans," "believes," and similar words or phrases. Forward-looking statements are merely our current predictions of future events. These statements involve known and unknown risks and uncertainties that could cause actual results to differ materially from our predictions. Important factors that could cause actual events to vary from our predictions include those described under the heading "Risk Factors," as well as those stated in our other SEC filings incorporated by reference in this prospectus.

Because of these risks and uncertainties, you should not place undue reliance on forward-looking statements, which speak only as of the date of the document in which they are presented. We undertake no obligation to update our forward-looking statements to reflect new information or developments.

### **USE OF PROCEEDS**

We will not receive any proceeds from the sale by the selling shareholders of the shares of common stock offered by this prospectus.

**SELLING SHAREHOLDERS**

The selling shareholders are former employees of InteCap, Inc., who acquired the shares of common stock covered by this prospectus from us in connection with our acquisition of InteCap, Inc. on April 30, 2004. Unless otherwise indicated, each of them has been employed by us since the time of the acquisition. We issued the shares of common stock to each of the selling shareholders pursuant to the terms of a stock purchase agreement between the selling shareholder and us. In each stock purchase agreement, we agreed to register for resale the shares of common stock issued to the selling shareholders. In addition, before selling any shares, the selling shareholders must first give us the opportunity to repurchase the shares based on a formula current market price set forth in the stock purchase agreements. The shares of common stock covered by this prospectus have been validly issued and are fully paid and non-assessable.

The following table provides information with respect to the beneficial ownership of our common stock by the selling shareholders as of April 6, 2007 and upon completion of the sale of all of the shares being registered. For purposes of this table, we have assumed that the selling shareholders will sell all of the shares offered by this prospectus. The shares being offered may be offered or sold by the selling shareholders or their pledgees, donees, transferees or other successors-in-interest.

For purposes of the following table, beneficial ownership is determined in accordance with the rules of the SEC. Under these rules, shares of our common stock issuable under options, warrants or other rights that are currently exercisable or exercisable within 60 days after April 6, 2007 are deemed outstanding, are included in the number of shares beneficially owned by a person or entity named in the table, and are used to compute the percentage ownership of that person or entity. These shares are not, however, deemed outstanding for computing the percentage ownership of any other person or entity. The inclusion of shares listed as beneficially owned does not constitute an admission of beneficial ownership. We have computed the percentage beneficially owned based upon 11,772,329 shares of our common stock outstanding as of April 6, 2007.

### PLAN OF DISTRIBUTION

We are registering the shares offered by this prospectus on behalf of the selling shareholders. The selling shareholders may offer and sell the shares offered by this prospectus from time to time in one or more transactions. The term "selling shareholder" includes pledgees, donees, transferees, and other successors-in-interest who may acquire shares through a pledge, gift, partnership distribution, or other non-sale related transfer from any selling shareholder. The selling shareholders will act independently from us in making decisions with respect to the timing, manner and size of each sale. They may sell shares on one or more exchanges, including the Nasdaq Global Select Market, in the over-the-counter market, or in privately negotiated transactions at prevailing market prices at the time of sale, at fixed prices, at varying prices determined at the time of the sale, or at negotiated prices. These transactions include:

ordinary brokerage transactions and transactions in which the broker solicits purchasers;

purchases by a broker-dealer as principal and resale by the broker-dealer for its own account pursuant to this prospectus;

block trades in which the broker-dealer attempts to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction (including crosses in which the same broker acts as agent for both sides of the transaction);

exchange or over-the-counter distributions in accordance with the rules of the exchange or other market;

a combination of any such methods of sale; and

any other method permitted pursuant to applicable law.

In connection with distributions of the shares or otherwise, the selling shareholders may:

sell the shares short and deliver the shares to close out short positions;

enter into option or other transactions with broker-dealers or other financial institutions which require the delivery to them of shares offered by this prospectus, which they may in turn resell; and

loan or pledge shares to broker-dealers or other financial institutions, and the broker-dealers or other financial institutions may in turn resell the shares so loaned or, upon a default, resell the pledged shares.

The selling shareholders may also sell any shares under rule 144 rather than with this prospectus if the sale meets the requirements of that rule.

In effecting sales, the selling shareholders may engage broker-dealers or agents, who may in turn arrange for other broker-dealers to participate. Broker-dealers or agents may receive commissions, discounts or concessions from the selling shareholders and/or from the purchasers of shares for whom the broker-dealers may act as agents or to whom they sell as principal, or both. The compensation to a particular broker-dealer may be in excess of customary commissions. To our knowledge, there is currently no plan, arrangement, or understanding between any selling shareholder and any broker-dealer or agent regarding the sale of any shares by the selling shareholders.

The selling shareholders, any broker-dealers or agents and any participating broker-dealers that act in connection with the sale of the shares offered by this prospectus may be "underwriters" under the Securities Act of 1933, as amended, which we refer to as the Securities Act, with respect to those shares and will be subject to the prospectus delivery requirements of that act. Any profit that the selling shareholders realize, and any compensation that any broker-dealer or agent may receive in connection with any sale, including any profit realized on resale of shares acquired as principal, may

constitute underwriting discounts and commissions. If the selling shareholders are deemed to be underwriters, the selling shareholders may be subject to certain liabilities under statutes including, but not limited to, sections 11, 12 and 17 of the Securities Act and section 10(b) and rule 10b-5 under the Securities Exchange Act of 1934, as amended, which we refer to as the Exchange Act.

The securities laws of some states may require the selling shareholders to sell the shares in those states only through registered or licensed brokers or dealers. These laws may also require that we register or qualify the shares for sale in those states unless an exemption from registration and qualification is available, and the selling shareholders and we comply with that exemption. In addition, we have advised the selling shareholders that the anti-manipulation rules of Regulation M under the Exchange Act may apply to sales of shares in the market and to the activities of the selling shareholders and their affiliates. Regulation M may restrict the ability of any person engaged in the distribution of the shares to engage in market-making activities with respect to the shares. All of the foregoing may affect the marketability of the shares and the ability of any person to engage in market-making activities with respect to the shares.

If a selling shareholder notifies us that the selling shareholder has entered into any material arrangement with a broker-dealer for the sale of shares through a block trade, special offering, exchange distribution, over-the-counter distribution, or secondary distribution, or a purchase by a broker or dealer, we will file any necessary supplement to this prospectus to disclose:

the number of shares involved in the arrangement;

the terms of the arrangement, including the names of any broker-dealers or agents who purchase shares, as required;

the proposed selling price to the public;

any discount, commission, or other underwriting compensation;

the place and time of delivery for the shares being sold;

any discount, commission, or concession allowed, reallocated or paid to any dealers; and

any other material terms of the distribution of shares.

In addition, if a selling shareholder notifies us that a donee, pledgee, transferee, or other successor-in-interest of the selling shareholder intends to sell more than 500 shares, we will file a supplement to this prospectus.

The selling shareholders will pay any underwriting discounts and commissions, any expenses incurred by the selling shareholders for brokerage, accounting, tax or legal services, and any other expenses incurred by the selling shareholders in disposing of the shares. We will pay the expenses we have incurred in connection with preparing and filing the registration statement, this prospectus and any supplements to this prospectus, complying with securities or blue sky laws, and listing the shares on the Nasdaq Global Select Market. The selling shareholders may indemnify any broker-dealer or agent that participates in transactions involving the sale of the shares against liabilities, including liabilities under the Securities Act.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and control persons pursuant to provisions of law, our articles of organization or by-laws, an agreement or otherwise, we have been informed that in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

Our common stock trades on the Nasdaq Global Select Market under the symbol "CRAI."
