At the meeting, you will be asked to consider and vote on the matters described in this proxy statement and in the accompanying notice. The annual meeting will be held at the Millennium Biltmore Hotel, 506 South Grand Avenue, Los Angeles, California 90071. Only stockholders of record at the close of business on December 31, 2007, which is the record date for the annual meeting, are permitted to vote at the annual meeting and any adjournments or postponements thereof. This proxy statement and the accompanying proxy card are being mailed on or about January 25, 2008 to all stockholders entitled to vote at the annual meeting.

The Board of Directors is soliciting your vote to (i) to elect three Class III Directors to the Company's Board of Directors to serve until the Company's annual meeting of stockholders to be held in 2011 and until the election and qualification of their respective successors and (ii) to ratify the selection of Ernst & Young, LLP as our independent registered public accounting firm for our fiscal year ending September 30, 2008.

INFORMATION REGARDING VOTING AT THE ANNUAL MEETING

Proxies

You should complete and return the accompanying proxy regardless of whether you attend the annual meeting in person. You may revoke your proxy at any time before it is exercised by giving our Corporate Secretary written notice of revocation, giving our Corporate Secretary a properly executed proxy of a later date or attending the annual meeting and voting in person. If your shares are held of record by a broker, bank or other nominee, you must obtain from the record holder a proxy issued in your name. Written notices of revocation and other communications with respect to the revocation of proxies should be addressed to AECOM Technology Corporation, 555 South Flower Street, 37th Floor, Los Angeles, CA 90071, Attention: Corporate Secretary.

All shares represented by valid proxies received and not revoked before they are exercised will be voted in the manner specified in the proxies. Other than with respect to certain trustees who hold our shares in trust, if nothing is specified, the proxies will be voted in favor of each of the proposals. Our Board of Directors is unaware of any other matters that may be presented for action at our annual meeting. If other matters do properly come before our annual meeting, however, it is intended that shares represented by proxies will be voted in the discretion of the proxy holders.

Solicitation of Proxies

We will pay the entire cost of soliciting proxies. In addition to soliciting the proxies by mail, we will request banks, brokers and other record holders to send proxies and proxy materials to the beneficial owners of our common stock and to secure their voting instructions, if necessary. We will reimburse record holders for their reasonable expenses in performing these tasks. If necessary, we may use our regular employees, who will not be specially compensated, to solicit proxies from stockholders, either personally or by telephone, letter or other means.

Record Date and Voting Rights

Our Board of Directors has fixed December 31, 2007 as the record date for determining the stockholders who are entitled to notice of, and to vote at, our annual meeting. Only stockholders of record at the close of business on the record date will receive notice of, and be able to vote at, our annual meeting. As of the record date, there were 99,758,333 shares of our common stock outstanding held by 1,461 record holders, in addition to approximately 38,638 holders who do not hold shares in their own names. A majority of the stock issued and outstanding and entitled to vote must be present at our annual meeting, either in person or by proxy, in order for there to be a quorum at the meeting. Each share of our outstanding common stock entitles its holder to one vote. Shares of our common stock with respect to which the holders are present in person at our annual meeting but not voting, and shares for which we have received proxies but with respect to which holders of the shares have abstained, will be counted as present at our annual meeting for the purpose of determining whether or not a quorum exists. Broker non-votes will also be counted as present for the purpose of determining whether a quorum exists.

For Proposal 1 relating to director elections, the nominees for election as directors will be elected by a plurality of the votes of the shares of our capital stock present in person or represented by proxy at the meeting. For Proposal 2 relating to ratification of auditors, the affirmative vote of the holders of a majority of the shares of capital stock present in person or represented by proxy and entitled to vote at the annual meeting is required in order for this proposal to be approved by our stockholders. For Proposal 2, abstentions will be counted as present and will have the effect of a vote against the proposal, and broker non-votes will have the effect of a vote against approval of the proposal. Votes will be tabulated by the inspector of election appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Our Board of Directors urges you to complete, date and sign the accompanying proxy and to return it promptly.

Year End Reporting Convention

We report our results of operations based on 52 or 53-week periods ending on the Friday nearest September 30. For clarity of presentation, all periods are presented as if the year ended on September 30. Fiscal years 2007, 2006 and 2005 each contained 52 weeks and ended on September 28, September 29 and September 30, respectively.

**PROPOSAL 1
ELECTION OF DIRECTORS**

The Company's Restated Certificate of Incorporation provides for a classified Board of Directors, consisting of three classes, each class serving a three-year term on a staggered basis. The Board of Directors is currently comprised of eleven members, of whom four are Class I Directors, four are a Class II Directors and three are Class III Directors. At the Annual Meeting, three Class III Directors are to be elected to serve until the annual meeting of stockholders to be held in 2011, and until their successors are duly elected and qualified. If a quorum is present at our annual meeting, the three nominees receiving the greatest number of votes will be elected and will serve until their respective successors are elected at the next annual meeting of stockholders and qualified.

Shares represented by executed proxies will be voted, if authority to do so is not withheld, for the election of the three nominees named below. Each of the nominees has consented to serve as a director if elected, and management has no reason to believe that any nominee will be unable or unwilling to serve if elected as director. In the event that any nominee is unavailable for re-election as a result of an unexpected occurrence, shares will be voted for the election of such substitute nominee as our Board of Directors may propose. This means that the three individuals nominated for election to the Board of Directors who receive the most "FOR" votes (among votes properly cast in person or by proxy) will be elected. Abstentions are not counted for purposes of election of directors.

The Board of Directors recommends that you vote for each nominee named in Proposal 1.

PROPOSAL 2
RATIFICATION OF SELECTION OF INDEPENDENT
REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board of Directors has retained Ernst & Young, LLP to serve as our independent registered public accounting firm for the fiscal year ending September 30, 2008. A representative of Ernst & Young, LLP is expected to be present at the annual meeting, will have an opportunity to make a statement if the representative so desires, and will be available to respond to appropriate questions.

Reasons for the Proposal

Selection of our independent registered public accounting firm is not required to be submitted for stockholder approval, but the Audit Committee of our Board of Directors is seeking ratification of its selection of Ernst & Young, LLP from our stockholders as a matter of good corporate practice. If stockholders do not ratify this selection, the Audit Committee of our Board of Directors will reconsider its selection of Ernst & Young, LLP and will either continue to retain this firm or appoint a new independent registered public accounting firm. Even if the selection is ratified, the Audit Committee may, in its discretion, appoint a different independent registered public accounting firm at any time during the fiscal year if it determines that such a change would be in our best interests and the best interests of our stockholders.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the annual meeting will be required to ratify the selection of Ernst & Young, LLP as our independent registered public accounting firm for the current fiscal year.

The Board of Directors recommends that you vote in favor of Proposal 2.

CORPORATE GOVERNANCE

Board Meetings

During our fiscal year ended September 30, 2007, our Board of Directors met eleven times, the Audit Committee met eleven times, the Compensation and Organization Committee met four times, the Nominating and Governance Committee met four times and the Planning, Finance and Investment Committee met five times. Each incumbent director attended at least 75% of the aggregate of (1) the total number of meetings of our Board of Directors (held during the period for which he has been a director) and (2) the total number of meetings held by all committees of the board on which he or she served (during the periods that he or she served). Due to pre-existing commitments, Norman Mineta, a new director who joined our Board of Directors in June 2007, attended one of two applicable Board and applicable committee meetings from June 2007 through September 30, 2007.

Director Independence

A majority of the Board of Directors consists of independent directors as defined in accordance with the listing standards of the New York Stock Exchange. To be considered "independent," a Director must be determined by the Board, after recommendation by the Nominating and Governance Committee, to have no material relationship with the Company, other than as a director. In making its determination concerning the absence of a material relationship, the Board adheres to all of the specific tests for independence included in the New York Stock Exchange listing standards.

Our Board of Directors has determined that the following members are independent as determined in reference to the standards of the New York Stock Exchange: Mr. Christie, Mr. Fordyce, Mr. Gillis, Ms. Griego, Mr. Lowe, Mr. Mineta, Mr. Ouchi and Mr. Rutledge. During its review, the Board of Directors considered transactions and relationships between each director or any member of his or her immediate family and AECOM Technology Corporation and its subsidiaries and affiliates.

Committees of the Board of Directors

The company has four standing committees: an Audit Committee, a Compensation and Organization Committee, a Nominating and Governance Committee and a Planning, Finance and Investments Committee. Each member of the Audit Committee, the Compensation and Organization Committee and the Nominating and Governance Committee of the Board of Directors has been determined by our Board of Directors to be "independent." The Audit Committee, which is composed solely of independent directors, makes recommendations to our Board of Directors regarding the selection of independent auditors, reviews the results and scope of the audit of our financial statements and other services provided by our independent auditors, reviews and approves audit fees and all non-audit services and reviews and evaluates our audit and control functions. Our Audit Committee held eleven meetings during fiscal year 2007. Our Board of Directors has determined Mr. Rutledge, Chairperson of the Audit Committee, qualifies as an "audit committee financial expert" as defined by the rules under the Securities Exchange Act of 1934. The background and experience of each of our Audit Committee members are set forth above. The "Report of the Audit Committee" is included in this proxy statement beginning at page 30. The Audit Committee Charter is being filed with the Securities and Exchange Commission as Appendix A to this proxy statement.

Compensation and Organization Committee. The Compensation and Organization Committee of our Board of Directors consists of H. Frederick Christie (Chairperson), James H. Fordyce, Linda Griego, Robert J. Lowe and William G. Ouchi. The Compensation and Organization Committee, comprised solely

of independent directors, oversees our compensation plans and organizational matters. Such oversight includes decisions regarding executive management salaries, incentive compensation and long-term compensation plans as well as company wide incentive and equity plans for our employees and consultants and appointments of, and promotions for, senior management. This committee also oversees benefit plan design and implementation. Our Compensation and Organization Committee held four meetings during fiscal year 2007. The "Report of the Compensation Committee on Executive Compensation" is included in this proxy statement beginning at page 20. The Compensation and Organization Committee charter is available for viewing on the "Corporate Governance" section of our website: www.aecom.com.

Nominating and Governance Committee. The Nominating and Governance Committee of our Board of Directors consists of S. Malcolm Gillis (Chairperson), Linda Griego, Norman Y. Mineta and William G. Ouchi. The Nominating and Governance Committee is comprised solely of independent directors and is responsible for recruiting and retention of qualified persons to serve on our Board of Directors, including recommending such individuals to the Board of Directors for nomination for election as directors; for evaluating director independence and the performance, size and composition of the Board of Directors and committees; and for oversight of our ethics and compliance activities. The Nominating and Governance Committee also considers written suggestions from stockholders, including potential nominees for election, and oversees the corporation's governance programs. It also conducts annual performance evaluations for the class of directors being elected at the next annual meeting of shareholders. Our Nominating and Governance Committee held four meetings during fiscal year 2007. The Nominating and Governance Committee charter is available for viewing on the "Corporate Governance" section of our website: www.aecom.com.

Planning, Finance and Investment Committee. The Planning, Finance and Investment Committee of our Board of Directors consists of Robert J. Lowe (Chairperson), Francis S.Y. Bong, James H. Fordyce, S. Malcolm Gillis, Norman Y. Mineta, and William P. Rutledge. The Planning, Finance and Investment Committee reviews our corporate finance programs, proposed investments, including mergers and acquisitions, our strategic plans and other strategic initiatives. Our Planning, Finance and Investment Committee held five meetings in fiscal year 2007.

Corporate Governance Guidelines

Our Board of Directors has adopted corporate governance guidelines that set forth several important principles regarding the activities of our Board of Directors and its committees, including Board membership criteria as well as other matters. Our corporate governance guidelines are available for viewing on the "Corporate Governance" section of our website: www.aecom.com.

Executive Sessions

Executive sessions of non-management directors are included on the agenda for every regularly scheduled Board and Board committee meeting and during fiscal year 2007, executive sessions were held at each regularly scheduled Board meeting. The Board sessions are chaired by the lead independent director, who is selected annually by the independent directors serving on the Company's Board of Directors. H. Frederick Christie serves as the lead independent director.

Code of Conduct

We have adopted a code of conduct that describes the professional, legal, ethical, financial and social responsibilities of all of our employees. We require our full time employees to read and acknowledge the code of conduct and participate in compliance training. Our employees are also encouraged to report suspected violations of the code of conduct through various means, including a toll-free hotline, and they may do so anonymously. Our code of conduct is available for viewing on our website at www.aecom.com. If we make substantive amendments to the code of conduct or grant any waiver, including any implicit

waiver, to our principal executive, financial or accounting officer, or persons performing similar functions, we will disclose the nature of such amendment or waiver on our website and/or in a report on Form 8-K in accordance with applicable rules and regulations.

Communications With the Board of Directors

Our stockholders may communicate with our Board of Directors, a committee of our Board of Directors or a director by sending a letter addressed to the Board of Directors, a committee or a director c/o Corporate Secretary, AECOM Technology Corporation, 555 South Flower Street, 37th Floor, Los Angeles, California 90071. All communications will be compiled by our Corporate Secretary and forwarded to the Board, the committee or the directors, as appropriate.

Director Nominations

The Nominating and Governance Committee of our Board of Directors is charged with identifying, investigating and recommending to the Board of Directors qualified individuals to become directors and assessing at least annually the size and composition of the Board of Directors and recommending any changes to the Board of Directors.

It is our belief that members of the Board of Directors should have the highest professional and personal ethics and values. The Board's Nominating and Governance Committee annually reviews the appropriate skills and characteristics required of Board members in the context of the current composition of the Board, the operating requirements of the Company and the long-term interests of stockholders. We believe that, as a whole, the Board of Directors should include individuals that are committed to enhancing stockholder value with sufficient time to effectively carry out their duties. While all directors should possess business acumen, the Board of Directors endeavors to include an array of targeted skills and experience in its overall composition. Criteria that the Nominating and Governance Committee looks for in director candidates include business experience and skills, judgment, independence, integrity, an understanding of such areas as finance, marketing, regulation, and public policy and the absence of potential conflicts with the Company's interests.

Our Nominating and Governance Committee will consider stockholder nominations for directors if it receives timely written notice, in proper form, of the intent to make a nomination at a meeting of stockholders. To be timely, the notice must be received not less than 60 nor more than 90 days prior to the date of the stockholders' meeting at which the stockholder wishes a nomination to be considered. However, in the event that less than 70 days' notice of the date of the stockholder meeting at which directors are to be elected is given to stockholders, then director nominations by a stockholder will be deemed timely if received by the Corporate Secretary by the close of business on the tenth business day following the day on which the notice of stockholder meeting was mailed or public disclosure of such meeting was made. To be in proper form, the notice must, as to each person whom the stockholder proposes to nominate for election or re-election as a director, state the name, age, business address and residence address of such person; the principal occupation or employment of such person; the class and number of shares of capital stock of the Company that are beneficially owned by such person; and such other information concerning such person as would be required in a proxy statement soliciting proxies for the election of directors (including such person's signed written consent to being named in the proxy statement as a nominee and to serve as a director of the Company, if elected). In addition, as to the stockholder giving the notice, the notice must also state the name and address, as they appear on the Company's books, of such stockholder and the class and number of shares of the Company which are beneficially owned by such stockholder. Additional requirements respecting stockholder proposals are described below under the heading "Stockholder Proposals" on page 35.

Director Attendance at Annual Meetings

AECOM's policy is for directors to attend our annual meetings, unless there are extenuating circumstances. At last year's annual meeting of our stockholders, all members of our Board of Directors attended.

Each non-employee director, at the time he or she is first elected to our Board of Directors, receives options to purchase 10,000 shares (on an annualized basis, pro rated for the amount of the year the new director is actually with the Company) of our common stock under our Stock Incentive Plan for Non-Employee Directors and thereafter will receive annually options for a number of shares approved by the Board of Directors. The exercise price for such options is the market value of our common stock on the date of grant and the options are exercisable six months after the grant date.

Related Party Transaction Policy

We have adopted a written related party transaction policy, which covers transactions between us and our directors, executive officers, 5% or greater stockholders and parties related to the foregoing, such as immediate family members and entities they control. The policy requires that any such transaction be considered and approved by our Audit Committee prior to entry into such transaction. In reviewing such transactions, the policy requires the Audit Committee to consider all of the relevant facts and circumstances available to the Audit Committee, including (if applicable) but not limited to the benefits to the Company, the availability of other sources for comparable products or services, the terms of the transaction and the terms available to unrelated third parties or to employees generally.

Under the policy, if we should discover related party transactions that have not been approved, the Audit Committee will be notified and will determine the appropriate action, including ratification, rescission or amendment of the transaction.

This transaction with Lowe Enterprises have been ratified by our Audit Committee.

We previously established a Senior Executive Equity Investment Plan, under which we encouraged our senior officers to hold AECOM stock by providing loans to fund the purchases of the stock. At September 30, 2006, there were SEEIP loans outstanding with in aggregate principal amount of approximately \$29.7 million. COMPENSATION OF EXECUTIVE OFFICERS AND OTHER INFORMATION

Compensation Discussion and Analysis ("CD&A")

The following provides information regarding the compensation and benefit programs in place for the executive officers named in the Summary Compensation Table that follows this Compensation Discussion & Analysis (such officers being John M. Dionisio, President and Chief Executive Officer (CEO); Richard G. Newman, Chairman; James R. Royer, Executive Vice President and Chief Operating Officer; Michael S. Burke, Executive Vice President, Chief Corporate Officer and Chief Financial Officer; Francis S.Y. Bong, Chairman Asia; and Glenn R. Robson, Senior Vice President and Chief Strategy Officer) (collectively, the "Named Executive Officers") for our 2007 fiscal year. It also includes information regarding the overall objectives of our compensation program and each element of compensation that we provide. The Compensation and Organization Committee of the Board of Directors approves the compensation for the CEO and the Chairman and reviews and approves management's recommendations for the CEO's direct reports. In addition, the Compensation and Organization Committee reviews and approves compensation programs, oversees our executive compensation philosophy and strategy, and ensures that proper due diligence, deliberations, and reviews of executive compensation are conducted.

Overview

Our compensation programs are designed to provide an overall total direct compensation package that is competitive with our peer companies (described in more detail below), allow us to attract and retain

key talent, and provide incentives that promote short- and long-term financial growth and stability to continuously enhance stockholder value based on a pay-for-performance model.

Benchmarking

The Compensation and Organization Committee uses market data as an important tool in developing executive compensation packages for our Named Executive Officers. To help establish and review the compensation paid to the Named Executive Officers, our Compensation and Organization Committee reviews an executive compensation report prepared by Towers Perrin, the committee's independent third party consulting firm. This report compares our performance and each element of Named Executive Officer compensation to comparable positions within the general professional industry and a list of peer group companies. During fiscal 2007, we also used Tower Perrin to conduct market salary research and to analyze Board compensation against our peer companies. We do not believe the independence of Towers Perrin was impaired by such engagements.

For compensation consideration at the beginning of fiscal 2007, the general industry companies used by our compensation consultant in our peer group included Baker (Michael) Corporation, CH2M Hill Companies Limited, Fluor Corporation, Foster Wheeler Ltd., Jacobs Engineering Group, Inc., Shaw Group, Tetra Tech, Inc, URS Corporation and Washington Group International, Inc. For year-end incentive performance evaluation purposes both short and long-term, the Committee reviewed the peer group and recommended Baker (Michael) Corporation be removed and replaced with Chicago Bridge & Iron, which is more comparable to AECOM in terms of market capitalization. AECOM is near the median regarding the revenue and net income of the group. In addition, the Compensation and Organization Committee believes this group of companies provides an appropriate peer group because they are business competitors or other entities with which we compete for employees at the executive level, have similar or best market compensation practices and/or are similar in size to us. The compensation survey data for general industry companies are from Towers Perrin's 2007 Executive Compensation Data Bank. Regression analysis was used to determine "predicted" pay levels for the Top 5 executives at companies whose revenues are similar to AECOM's.

The compensation consultant's report provides the Compensation and Organization Committee with market survey information for base salary and short and long-term incentive compensation within both the general industry companies and the peer group companies specified above. The compensation consultant also provides comparisons of key performance metrics for the Company compared to the peer group companies. This comparison establishes the basis for the evaluation of our overall performance, which performance is then considered when the Compensation and Organization Committee reviewed the performance of and determined compensation for each of the Named Executive Officers.

To implement the general principles outlined above, the Compensation and Organization Committee reviews compensation for the Named Executive Officers considering base salary and short- and long-term compensation in a total rewards package rather than making specific comparisons for each category (other than with respect to base salary). We target base salary compensation for our Named Executive Officers at the 50th percentile of our peer group companies taking into account the experience level of the individuals in their current positions. Short term compensation or annual incentive bonuses for the Named Executive Officers are based on a comparison between our performance and the peer group's prior twelve month performance in the areas of growth in earnings before interest, taxes and amortization (EBITA), return on investment (ROI) and growth in earnings per share. Similarly, long-term compensation for our Named Executive Officers is based on these same benchmarks comparing our performance over the prior five years against that of the peer group.

Our Compensation and Organization Committee then considers these quantitative performance comparisons and the compensation of executives of the peer group companies in similar positions, as well as qualitative performance factors they deem important to insure the alignment of our executives'

compensation with the goals of our stockholders. The qualitative factors are developed with the CEO for the Named Executive Officers reporting to the CEO, and by the Compensation and Organization Committee for the CEO. These qualitative factors include items such as experience, leadership, integrity, strategic planning, team building, diversity, stability and succession planning.

Elements of compensation

Our compensation package for our Named Executive Officers generally consists of:

Base Salary this component is intended to provide our Named Executive Officers with a competitive salary for executive's position and experience relative to executive's peers in the peer group companies.

Short-Term Compensation this component is intended to encourage our Named Executive Officers to focus on the Company's annual financial plan as well as the specific qualitative goals included in our strategic plan.

Long-Term Incentive Compensation this component is designed to reward the executives for achieving quantitative and qualitative objectives that are related to our long-term objectives as included in our five year strategic plan.

We believe tying our executives' total direct compensation with the short- and long-term objectives of our strategic plan aligns our executives' interests with our stockholders and provides strong retention and motivational incentives for our executives. A significant portion of our Named Executive Officers' total direct compensation is based upon our results as compared to our peer group companies. We believe this pay-for-performance model encourages and motivates the executives' performance in alignment with the best interests of our stockholders and employees.

As our financial performance improves relative to our performance targets and goals and the performance of our peer group companies, the Named Executive Officers' potential for additional compensation under the short-term and long-term incentive programs will increase. Should actual performance fall short of performance targets and goals, total compensation will be reduced. Short-term compensation may be reduced to zero should performance fall short of established goals. Long-term compensation, as described below, is generally subject to company-wide performance targets for the Named Executive Officers. If the Company falls short of its performance targets for the three year performance period, the payout of the restricted stock units will be reduced and may be reduced to zero for significant shortfalls based on a pre-established formula. Our Compensation and Organization Committee evaluates on an annual basis past performance, performance of the peer group companies and general market conditions to establish future performance targets and goals.

Base salary

We strive to provide our Named Executive Officers with a competitive base salary that is in-line with their roles and responsibilities when compared to peer companies of comparable size. We view base salary as an important component to each Named Executive Officer's overall compensation package. Base salaries are reviewed annually and at the time of promotion or other changes in responsibilities. The base salary level is established and reviewed based on the level of responsibilities, the experience and tenure of the individual, and the amount of performance based incentives received or granted each year. The Compensation and Organization Committee sets the base salary of our Named Executive Officers near the median of the peer group taking into account the relative size of the company compared to the median of the peer group, and the experience of each of our executives compared to the average peer executive in the same position.

Short-Term Incentive Compensation

Our short-term incentive compensation program allows us to create annual performance criteria that are flexible and that change with the needs of our business. Each year, the Compensation and Organization Committee reviews our performance as compared to financial and qualitative goals established at the beginning of the year. Our CEO and his management team are responsible for the overall performance of the Company in accordance with our strategic operating plan, as approved annually by our Board of Directors, and are thus evaluated on these objectives.

The measurement criteria for our Named Executive Officers' incentive compensation bonuses for fiscal year 2007 were based on our growth in EBITA (earnings before interest expenses, taxes, amortization, company stock matches and one-time merger related expenses), EBITA return compared to the total invested capital, and growth in EBITA per share, supplemented by qualitative achievements such as the successful completion of our initial public offering; initiating and completing significant mergers, including effective integration; aggressive quality and safety development plans; development and implementation of our employee engagement programs; cross-selling and production sharing between our operating brands; and other personal accomplishments. The Compensation and Organization Committee determines, in its sole discretion, the actual annual incentive compensation paid to the Named Executive Officers taking into account the factors described above.

The actual amounts awarded to the Named Executive Officers in 2007 are shown in the column labeled "Bonus" in the Summary Compensation Table on page 21.

Long-term Incentive Compensation Performance Earnings Program (PEP)

Long-term incentive compensation is provided to our Named Executive Officers through the award of restricted stock units pursuant to our Performance Earnings Program (PEP). Our long-term incentive compensation program is designed to focus and reward our Named Executive Officers on our long-term goals. By creating a three-year performance period under our PEP (described below), our goal is to encourage and to provide an incentive for our Named Executive Officers to advance AECOM's long-term goals and enhance stockholder value.

Our CEO provides the Compensation and Organization Committee with a recommended total dollar pool for PEP awards to all Named Executive Officers as well as other key executives, excluding the CEO and the Chairman. The Compensation and Organization Committee then reviews the compensation consultant's report described above, including the comparable total direct compensation amounts of peer companies and determines the final total dollar amount of PEP restricted stock units that are to be awarded to the Named Executive Officers, including the CEO and Chairman. The actual awards granted for fiscal 2007 by the Compensation and Organization Committee to each of the Named Executive Officers were based upon the compensation consultant's report on stock awards for comparable positions within the peer group companies described above, as well as the executive's experience, qualitative results, individual contributions, scope of responsibility and retention risk.

Under the Performance Earnings Program for 2007 (PEP07), we awarded performance-based restricted stock units that are earned based on financial performance and continued employment over a three fiscal year performance period. The Compensation and Organization Committee establishes objective performance criteria for each PEP award period. The PEP07 awards are based on the three-year performance of two corporate objectives: (1) growth in EBITA and (2) return on investment. Growth in EBITA and return on investment are each given a 50% weighting in determining overall payout.

The Compensation and Organization Committee adopted these performance goals because it believes they are key indicators of our financial and operational success and are key drivers of long-term stockholder value. The specific performance goal levels reflect confidential, internal financial targets at the time the awards are established. These goals require a high level of financial performance to be achieved

over the three-year period. As was the case with the awards granted for prior performance periods, the goals for the PEP07 performance period are challenging but, we believe, achievable.

PEP awards generally vest on December 31st following the close of the three-year performance period and are settled by the delivery of shares of common stock in the following January. The Named Executive Officer must be an active employee at the time the PEP is settled or the Named Executive Officer forfeits the PEP award, although exceptions may be made by the Compensation and Organization Committee, including exceptions for retirement, death or disablement. At the end of the three year performance period, the final amount of performance-based restricted stock units that are earned by each Named Executive Officer will be determined based on achievement of the performance criteria. Beginning in 2007, the PEP awards have a deferred compensation election feature that allows our Named Executive Officers, to the extent permitted under regulatory statutes, to defer settlement of PEP awards beyond the scheduled settlement date.

Since the initiation of the PEP program, the stock options have not been issued to Named Executive Officers as part of their long-term incentive compensation, except in the case of initial new hire awards. In 2007, stock options were not issued to any of the Named Executive Officers. In general, we consider that the PEPs link pay-for-performance directly and immediately to the Named Executive Officer while stock option awards might be used as part of a key executive hire package that provides an early equity interest in the Company for the new executive. When granted, all stock options have an exercise price equal to the price of our common stock on the date the option is granted. (Prior to our initial public offering, the price was based on the most recent quarterly valuation. Following our initial public offering, the price is based upon the closing price of our common stock on the applicable date.)

The Company does not currently have a policy requiring a fixed course of action with respect to compensation adjustments following later restatements of performance targets. Under those circumstances, the Compensation and Organization Committee would evaluate whether compensation adjustments were appropriate based upon the facts and circumstances surrounding the restatement.

Benefit and Retirement Programs

General. Our Named Executive Officers are eligible to participate in benefits plans that are available to substantially all of our employees, including participation in our Retirement & Savings Plan (401(k)-type plan), medical insurance, dental insurance, life insurance, disability insurance programs. In addition to the benefit plans available to substantially all of our employees, we offer additional benefits to its executive officers. We believe these additional benefits are consistent with our overall compensation philosophy and designed to ensure that we can effectively retain our executive officers (including the Named Executive Officers) and compete for new executive talent. These additional benefits consist of:

Executive Life Insurance. Our Named Executive Officers are eligible to participate in an Executive Life Insurance plan on an annual basis. This plan is in addition to the basic life insurance program which is open to a large majority of AECOM employees. The Executive Life Insurance plan provides up to an additional \$800,000 in coverage.

Executive Medical Insurance. Our Named Executive Officers are eligible to participate in an Executive Medical Insurance plan on an annual basis. This plan is in addition to the basic medical insurance programs that are open to most AECOM employees. The Executive Medical Insurance plan provides up to 100% reimbursement for certain medical expenses up to \$75,000 per calendar year.

AECOM Pension Plan. The AECOM Pension Plan is a defined benefit plan that was adopted in September 1990. Participation in the AECOM Pension Plan was frozen to new entrants effective April 1, 1998. Of our Named Executive Officers, only our CEO, Chairman and our Chief Operating Officer were

employees as of April 1, 1998 and are eligible to receive a retirement pension benefit under the Pension Plan.

Depending on the participant's years of service to AECOM, the pension benefits will range from 26% to 30.5% of the employee's final capped average monthly compensation plus an additional 11% to 12.5% of the employee's final capped average monthly compensation in excess of specified Social Security base amounts. The final average monthly compensation was capped as of April 1, 2004 at the employee's highest compensation (including incentive compensation) for one full calendar year from 1994 through 2003. If the employee's final average monthly compensation as of April 1, 2004 was lower than the cap, the employee's final average compensation will continue to increase until the participant's average compensation reaches the compensation cap. Pension benefits will generally be reduced for participants with less than 25 years of service as required by plan rules. Employee contributions to the Pension Plan of up to 1.5% of compensation were required prior to April 1, 1998.

We have generally replaced the AECOM Pension Plan with a 401(k) pension component of our Retirement & Savings Plan (RSP). Beginning April 1, 1998, employees were allowed to make pre-tax or after-tax contributions of up to 1.5%, in 0.5% increments, of their compensation to this 401(k) pension component, and AECOM makes a matching contribution equal to 100% of the employees' contributions (maximum 1.5% of compensation). Beginning January 1, 2007, the maximum employee contribution was increased from 1.5% to 6%. At the same time, AECOM's matching contribution percentage was reduced from 100% to 50%. The combined effect of these changes increases the maximum AECOM matching contribution from 1.5% to 3.0% of compensation. In addition, employees have the ability to make supplemental pre-tax or after-tax contributions of an additional 1% to 25% of their compensation to an unmatched component of the RSP.

AECOM Management Supplemental Executive Retirement Plan (MSERP). The Company amended the AECOM Pension Plan, effective July 1, 1998, to provide for certain participants including Named Executive Officers (our CEO, Chairman and COO), earning benefits under the AECOM Pension Plan to instead earn identical benefits under a non-qualified plan known as the Management Supplemental Executive Retirement Plan, or MSERP. The MSERP replaces and provides a benefit identical in nature to the AECOM Pension Plan but on an unfunded basis.

The benefits of each employee who participated in the AECOM Pension Plan or MSERP are reduced by the actuarial estimate of the equivalent of a hypothetical account balance, calculated to be what the employee would have in his or her 401(k) pension component from April 1, 1998 until the employee's retirement if 3% (less for certain long service employees) had been contributed every year and the 401(k) contributions had remained invested in a benchmark fund, which mirrors the AECOM Pension Plan investments. At termination, participants have a one-time opportunity to restore this reduction by transferring from their 401(k) account to the AECOM Pension Plan an amount equal to the hypothetical account balance.

AECOM Supplemental Executive Retirement Plans (92 SERP & 96 SERP). In October 1992 we established the unfunded Supplemental Executive Retirement Plan, or 92 SERP, and in July 1996 we established the unfunded Supplemental Executive Retirement Plan, or 96 SERP, in order to provide some of our U.S. resident executive officers with pre-retirement death benefits and retirement benefits consistent with the level provided by the previous AECOM Pension Plan formula. These Supplemental Executive Retirement Plans require a participant to have reached the minimum age of 50 and to have worked at AECOM for at least five years. The plans also include early retirement provisions at age 62 with full retirement benefits.

Of our Named Executive Officers, only our CEO is eligible to receive any benefits from the 92 SERP and only our Chief Operating Officer is eligible to receive any benefits from the 96 SERP.

Edgar Filing: AECOM TECHNOLOGY CORP - Form DEF 14A

In July of 1996 we established the AECOM Excess Benefit Plan for participants in the Supplemental Executive Retirement Plans in order to provide only those benefits which the AECOM Pension Plan cannot provide due to federal tax limits. Benefits from the Excess Benefit Plan are unfunded and will reduce, dollar-for-dollar, the pension benefit paid by the Supplemental Executive Retirement Plans.

Employment Agreements, Severance Benefits and Change in Control Provisions

Except with respect to our Chief Operating Officer, we do not have any employment agreements in effect with any of our Named Executive Officers. We entered into this agreement with our Chief Operating Officer in connection with his joining us upon the acquisition of TCB, Inc. The employment agreement provides for a severance payment equal to 12 months salary for termination of employment by the Company without cause or by "Constructive Discharge," such as a material reduction in job duties or a required relocation without consent.

Stock Ownership

There are no equity ownership requirements or guidelines that any of our employees must meet or maintain. We have a broad base of stock ownership by employees (including our Named Executive Officers) and believe that this enhances our success by aligning the interests of our employees and stockholders. We encourage Named Executive Officers to invest in our common stock through payroll deductions invested in our stock and matched by our typical company match formula, the grants of PEPs and in certain cases, stock options. In February 2007, we sold 36,209 shares (including 3,753 company stock match shares) of our common stock to our Chief Corporate Officer, who paid \$500,000 for such shares.

Tax Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code limits a company's federal tax deduction on compensation paid in excess of \$1 million a year to the Chief Executive Officer and the other Named Executive Officers (other than the Chief Financial Officer). The IRS' limitation does not apply to compensation that qualifies as "performance-based" under federal tax law. In addition, transition rules exempt certain compensation paid under plans in existence before our initial public offering. Our policy is to structure, to the extent practicable, compensation arrangements with our executive officers to be fully deductible under federal tax law unless the benefit of such deductibility is outweighed by the need for flexibility or the attainment of other corporate objectives.

We will continue to monitor issues concerning the deductibility of executive compensation and will take appropriate action if and when it is warranted. Since corporate objectives may not always be consistent with the requirements for full deductibility, we are prepared, when appropriate, to enter into compensation arrangements under which payments may not be deductible under Section 162(m). Thus, deductibility will not be the sole factor used in ascertaining appropriate levels or modes of compensation.

REPORT OF THE COMPENSATION COMMITTEE OF THE BOARD OF DIRECTORS

The Compensation and Organization Committee has reviewed and discussed with management the Compensation Discussion and Analysis and, based on such review and discussions, recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's Annual Report on Form 10-K and this Proxy Statement.

Consists of FY 2007 employee contributions to the Stock Purchase Plan (SPP). As of September 30, 2007, participants were allowed to defer the same type of compensation into the SPP as could be deferred into the qualified AECOM Technology Corporation Retirement & Savings Plan (RSP). Participants could defer up to 50% of their base pay and 100% of any bonus they received into the SPP, which contributions were credited to the participant's account under the SPP as a number of common stock units based on the fair market value of the Company's common stock, as determined by the most recent valuation by an independent valuation firm for the then most recently completed fiscal quarter. As of September 30, 2007, participants in the SPP were provided an 18% company match, credited in the form of additional common stock units, on all contributions to the plan, which match is 100% vested after three years of service with the Company.

Prior to April 2007, all SPP contributions were invested only in AECOM common stock units. In conjunction with the IPO, most employees were given a one-time opportunity to transfer assets in AECOM common stock units to other mutual fund options that mirror the investment fund choices in the AECOM Retirement & Savings Plan (RSP). Beginning in April 2007, employees could elect to invest their SPP contributions into these other mutual fund options.

By December 12, 2007, all SPP participants were provided with a one-time opportunity to change to their distribution election for their SPP balance as of December 31, 2007. The distribution options are a single lump sum distribution paid six months following the end of the quarter in which termination of employment occurs or 2 to 15 year annual installments with the first installment occurring six months following the end of the quarter in which termination of employment occurs with all future installments paid annually in January. For any deferrals into the SPP after December 31, 2007, participants can make in-service withdrawals and termination distributions elections. In-service withdrawals options are single lump sum payment or 2 to 5 year annual installments. Distribution options at termination are single lump sum payment or 2 to 15 year installments.
