TENET INFORMATION SERVICES, INC.

(A Development Stage Company)

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(1)

Presentation of Interim Financial Statements

The accompanying condensed consolidated financial statements have been prepared by the Company without audit, pursuant to the rules and regulations of the Securities and Exchange Commission. Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted pursuant to such regulations, although the Company believes that the

disclosures are adequate to make the information presented not misleading. These financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company's most recent Annual Report on Form 10-Ksb.

In the opinion of management, these financial statements include all adjustments (consisting only of normal recurring adjustments) necessary to present fairly the Company's consolidated financial position at December 31, 2003 and the results of its operations and its cash flows for the three months and six months ended December 31, 2003 and 2002 respectively. Because of the sale of the consulting division and the EDNet product line, the results of operations for the three-month and six month period ended December 31 2003 are not indicative of the results that may be expected for the remainder of the fiscal year ending June 30, 2004.

(1)

Stock-Based Compensation

The Company accounts for its stock options issued to directors, officers and employees under Accounting Principles Board Opinion No. 25 and related interpretations ("APB 25"). Under APB 25, compensation expense is recognized if an option's exercise price on the measurement date is below the fair value of the Company's common stock. The Company accounts for options and warrants issued to non-employees in accordance with SFAS No. 123, "Accounting for Stock-Based Compensation" (SFAS 123) which requires these options and warrants to be accounted for at their fair value.

No stock-based employee compensation cost is reflected in net income, as all options had an exercise price equal to the market value of the underlying common stock on the date of grant. The following table illustrates the effect on net income and basic and diluted loss per common share if the Company had applied the fair value recognition provisions of FASB Statement No. 123, Accounting for Stock Based Compensation, to stock-based employee compensation:

For the Three Months Ended December 31,		For the Six Months Ended December 31,	
2003	2002	2003	2002

Net income (loss), as reported	\$ 300,079	\$ (48,018)	\$ 289,563	\$ (79,397)
Adjust: Total stock-based employee compensation expense determined under fair value based method for all awards, including adjustment for forfeited options	(157)	(1,373)	(522)	(3,080)
Pro forma net income (loss)	\$ 299,922	\$ (49,391)	\$ 289,041	\$ (82,477)
Basic and diluted earnings (loss) per common share as reported	\$ 0.31	\$ (0.05)	\$ 0.30	\$ (0.08)
Basic and diluted earnings (loss) per common share pro forma	\$ 0.31	\$ (0.05)	\$ 0.30	\$ (0.09)

(3)

Change in Estimate

At the end of its previous fiscal year, the Company accrued its legal costs for the fourth quarter. In the first quarter of the year, the Company established actual legal costs for the previous quarter and adjusted its obligation for payment of legal expense to the actual amount due, resulting in a one-time decrease in the current period's legal expenses and associated operating costs of \$19,471. The Company has accounted for this as a change in accounting estimate.

(4)

Basic and Diluted Loss Per Share

Basic earnings per common share are computed by dividing net loss available to common stockholders by the weighted-average number of common shares outstanding during the period. Diluted earnings per share reflects the potential dilution which could occur if all contracts to issue common stock were exercised or converted into common stock or resulted in the issuance of common stock. A total of 21,250 and 30,250 post-split stock options were

excluded from the calculation of diluted loss per common share at December 31, 2003 and 2002 respectively, because the effects would be antidilutive.

(5)

Sale of Consulting Division Assets and EDNet Assets

On May 23, 2003, the Company sold all the assets of the Company's consulting division to a shareholder and former employee of the Company.

On July 29, 2003, the Company entered into an asset purchase agreement to sell all of the assets of the EDNet product line to ClinicalVentures, L.C. The sale of assets closed on October 22, 2003 following a special shareholder meeting at which the transaction was approved by the shareholders of the Company. As a result of the sale of the EDNet product line to ClinicalVentures, the Company currently has no operations. ClinicalVentures purchased all office and computer equipment associated with the EDNet product line, which had a net book value of \$3,092 and the right to pursue work with the Company's EDNet product line clients in exchange for \$339,000 in cash as well as accepting certain obligations and liabilities of the Company. The purchaser assumed the obligation to support all ongoing maintenance contracts currently in force with EDNet clients.

6

In conjunction with the above agreement, the Company and ClinicalVentures executed a software license agreement pursuant to which ClinicalVentures obtained a non-exclusive right and license to use the Company's EDNet and ARCNet tracking software products. This license agreement allows ClinicalVentures to distribute the software for a period of five years. As part of this license agreement, ClinicalVentures agreed to pay to the Company 5% of the initial software license fees received by ClinicalVentures during the five-year period with respect to new sales or licenses of the EDNet and ARCNet tracking products up to an aggregate of \$90,000.

The financial statements present the results from the consulting division and the EDNET product line as discontinued operations.

During the six months ended December 31, 2003 and 2002 respectively, the company's discontinued operations had revenues of \$74,139 and \$312,917 and income or (losses) from operations of \$29,108 and \$(17,962).

Based on the sale of all operating assets the Company has become a development stage company and reporting subsequent to October 22, 2003 is on a Development Stage basis.

(6)

Stock Split

At the special shareholder meeting on October 22, 2003, the shareholders approved a 1 for 20 reverse stock split of the Company's common stock and common stock options. As a result of the reverse split, the Company has 966,860 outstanding shares of stock, after adjustments for fractional shares. The reverse stock split has been retroactively reflected in the accompanying consolidated financial statements for all periods presented.

7

ITEM 2

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

General

This discussion contains forward-looking statements that include, but are not limited to, the Company's expectations regarding its future financial condition and operating results, product development, business and growth strategy, market conditions and competitive environment. The Company's actual results could differ materially from those anticipated in these forward-looking statements as a result of certain factors disclosed in this document.

This discussion should be read in conjunction with management's discussion and analysis of financial condition and results of operations included in the Company's Annual Report on Form 10-K for the fiscal year ended June 30, 2003

As a result of the sale of all remaining operations on October 22, 2003, Tenet has become a development stage company. The Company is actively seeking business opportunities.

Results of Operations

For the three months ended December 31, 2003 compared with the three months ended December 31, 2002.

During the three-month period ended December 31, 2003, the Company had operating expenses of \$35,394 compared to \$28,826 for the corresponding period of the prior fiscal year. The major reasons for the increase in the administrative costs are transaction costs associated with the divestiture and expenses required to wind down the Company's operations as it transitions to a development state and investigates new opportunities.

The Company reported net income of \$300,079 or \$0.31 per share for the three-month period ended December 31, 2003 compared with an operating net loss of \$(48,018) or (\$0.05) per share for the corresponding period of the previous year. This increase resulted from the sale of the Company's remaining operations.

For the six months ended December 31, 2003 compared with the six months ended December 31, 2002.

During the six month period ended December 31, 2003, the Company had operating expenses of \$46,115 compared to \$53,275 in expenses for the prior year. This decrease resulted from reduced overhead associated with the divestiture of its operating entities.

The Company recorded net income of \$289,563 or \$0.30 per share for the six months period ended December 31, 2003 compared with a net loss of \$79,397 or \$0.08 per share for the corresponding period of the prior year. This gain resulted from the sale of all operating entities of the company.

Liquidity and Capital Resources

The Company's primary needs for capital are to fund ongoing administrative expenses while the Company seeks and evaluates new business opportunities. The Company anticipates sufficient capital for its current operations but if a merger or similar business combination arose, additional capital may need to be raised.

At December 31, 2003 the Company had positive net working capital of \$129,295 as compared to a net working capital deficit of (\$316,452) at December 31, 2002.

Inflation has not had a significant impact on the Company's operations.

Item 3 Controls and Procedures

(a) Evaluation of disclosure controls and procedures- Based on their evaluation of the Company's disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")), the Company's principal executive officer and principal financial officer have concluded that as of the end of the period covered by this Quarterly Report of Form 10-Qsb such disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

(b) Changes in internal control over financial reporting- During the quarter under report, there was no change in the Company's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 4.

Submission of Matters to Vote of Security Holders

9

Special Shareholder Meeting

The Company held a special shareholder meeting on October 22, 2003 in Salt Lake City. The purpose of the meeting was to consider and vote on the following six proposals presented to shareholders and contained in the definitive proxy statement mailed to each shareholder and filed with the Securities and Exchange Commission:

1.

Approval of that certain Asset Purchase Agreement by and between Tenet and ClinicalVentures, L.L.C. ("ClinicalVentures") and dated August 1, 2003 (the "Asset Purchase Agreement") and the sale of substantially all of the Company's operating assets and the assignment of certain liabilities (the "Transaction") pursuant to the Asset Purchase Agreement.;

2.

Approval of a resolution authorizing shareholders to take action by the written consent of fewer than all of the shareholder entitled to vote with respect to the action, to the fullest extent permitted by Utah corporate law (the "Written Consent Resolution") and approval of an amendment to the Articles of Incorporation allowing such action;

3.

Approval of a resolution authorizing a one-for-twenty reverse stock split of the outstanding shares of common stock, (the "Reverse Stock Split Resolution") to take effect upon the filing of the Amended and Restated Articles with the Utah Department of Commerce, Division of Corporations and Commercial Code and approval of an amendment to the Articles of incorporation allowing such action;

4.

Approval of amendments to the Company's Articles of Incorporation, which amendments will include the following:

a.

Elimination of Article VI of the Company's Articles of Incorporation, which provides that Tenet may acquire its own shares. All rights and restrictions in Article VI are provided to Tenet in the Utah Revised Business Corporations Act (the "Act") making this Article unnecessary, and

b.

Elimination of Article VII of the Company's Articles of Incorporation, which provides that Tenet may make distributions to shareholders. All rights and restrictions in Article VII are provided to Tenet in the Act, making this Article unnecessary;

5.

Approval of amendments to the Company's Articles of Incorporation, which amendments will include the following:

a.

Elimination of Article II, which provides that Tenet shall exist indefinitely. Under the "Act", every corporation has perpetual duration, making this article unnecessary;

b.

Modification to Article III which defines Tenet's purpose. The modification eliminates references to computer systems related to the medical and health fields and allows Tenet to engage in any acts, activities and pursuits for which a corporation may be organized under the Act;

10

c.

Deletion of references to the Utah Business Corporation Act, substituting references to the Utah Revised Business Corporation Act (this modification allows the Articles of Incorporation to be consistent with the State of Utah's adoption of a revised act, the renumbering of articles to be consistent with the deletion of articles), and the restatement of the Articles of Incorporation (the "Amended and Restated Articles") by incorporating in a single document the amendments approved and adopted by our shareholders at the Special Meeting, as well as all prior provisions still in effect.

6.

Election of three (3) directors to the Tenet Board of Directors, each to serve for a one year term expiring at our annual meeting in 2004, and with three nominees for those positions presented by the Board (the "Director Nominees").

All six proposals were approved by shareholders at the special meeting. The directors of the Company have directed company personnel to take all actions necessary to implement the changes required by the approval of the proposals.
