ADA-ES INC
Form 424B3
August 31, 2006

ADA-ES, INC.

789,089 SHARES OF COMMON STOCK

This Prospectus relates to 789,089 shares of our Common Stock being offered for resale by certain selling shareholders.

The selling shareholders may offer their Common Stock through or to securities brokers or dealers designated by them on the NASDAQ Capital Market or in other transactions negotiated by the selling shareholders. The selling shareholders may sell the shares at whatever prices are current when particular sales take place or at other prices to which the selling shareholders agree. The selling shareholders will pay any brokerage fees or commissions relating to the sale of shares. The registration of the selling shareholders' shares does not necessarily mean that any shares will be sold.

We will receive no amounts from the sales of any of the shares subject to this registration statement. We are paying the costs of preparing and filing the registration statement of which this Prospectus is a part.

The acquisition and ownership of our Common Stock involve a high degree of risk. Only investors who are able to afford the risk of loss of their entire investment should purchase our Common Stock. See "Risk Factors" beginning on page 2 of this Prospectus.

Our Common Stock is traded on the NASDAQ Capital Market under the symbol "ADES". On August 18, 2006, the last quoted sales price of the Common Stock on that market was \$15.18 per share.

NEITHER THE SECURITIES AND EXCHANGE COMMISSION NOR ANY STATE SECURITIES COMMISSION HAS APPROVED OR DISAPPROVED OF THESE SECURITIES OR PASSED ON THE ADEQUACY OR ACCURACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

The mailing address and telephone number of our principal executive office are 8100 SouthPark Way, Unit B, Littleton, Colorado 80120 and (303) 734-1727.

This Prospectus is dated August 29, 2006.

In this Prospectus, "the Company," "we," "us," or "our" refers to ADA-ES, Inc., a Colorado corporation, and its consolidated subsidiary. You should rely only on the information incorporated by reference or provided in this Prospectus or any prospectus supplement. Neither the selling shareholders nor we have authorized anyone else to provide you with different information. The selling shareholders are not making an offer of these securities in any state where the offer is not permitted. You should not assume that the information in this Prospectus or any prospectus supplement is accurate as of any date other than the date on the front of those documents.

RISK FACTORS

An investment in our Common Stock involves a high degree of risk. You should carefully consider the risks described below and the other information in this Prospectus and any other filings we may make with the Securities and Exchange Commission in the future before investing in our Common Stock. If any of the following risks occur, our business, operating results and financial condition could be seriously harmed. The trading price of our Common Stock could decline due to any of these risks, and you may lose all or part of your investment. An investment in our Common Stock may involve additional risks and uncertainties not described below.

RISKS RELATING TO OUR BUSINESS

IF EXISTING AND PLANNED ENVIRONMENTAL LAWS ARE RESCINDED OR SUBSTANTIALLY CHANGED, OUR BUSINESS WOULD BE ADVERSELY AFFECTED A significant market driver for our existing products and services, and those planned in the future, are the environmental laws that limit emissions from power plants. In the event that such laws were rescinded or substantially changed, our business would be adversely affected by declining demand for such products and services. Demand for the Company's FGC and ADA 249 products is primarily two-fold. Customers purchase these products to mitigate operating problems and/or to help comply with environmental regulations such as the Clean Air Act Amendments of 1990.

Although our existing customers and those expected in the near-term are believed to desire our products for mitigation of operating problems, we would anticipate that any softening of existing air pollution control requirements would slow expected growth for these products.

Edgar Filing: ADA-ES INC - Form 424B3

Demand for our mercury emission control ("MEC") technology is being driven almost exclusively by legislation requiring such control. Mercury has been identified as a toxic substance and pursuant to a court order the EPA issued the Clean Air Mercury Regulations ("CAMR") for its control in March 2005. CAMR is being contested by as many as fourteen different states and four environmental groups for its failure to meet court-mandated standards. In response to the uncertainty surrounding CAMR, several states have passed, or are expected to pass, legislation requiring such control including Connecticut, New Hampshire, New Jersey, Massachusetts, North Carolina, Wisconsin and Pennsylvania.

Following widespread disappointment and legal challenges of the CAMR, in November 2005 the State and Territorial Air Pollution Program Administrators and the Association of Local Air Pollution Control Officials (STAPPA/ALAPCO) - the two national associations of air pollution control agencies throughout the United States, have developed a model rule entitled, "Mercury from Power Plants: A Model Rule for States and Localities" in response to concern that EPA's CAMR was inconsistent with the requirements of the Clean Air Act and would not result in adequate reductions in emissions of mercury from coal-fired power plants to protect public health. The STAPPA/ALAPCO model rule provides state and local governments with the tools needed to obtain reductions in mercury emissions necessary to meet the requirements of the Clean Air Act. Specifically, the model describes two options for state and local governments that wish to develop utility mercury rules that are more protective of public health and the environment than EPA's regulation and contains model rule language for both. The phased timing proposed in the model rule allows power generators to consider mercury specific control technologies, or alternatively, control technologies that reduce mercury as an added benefit when reducing other air pollution emissions. The model rule provides compliance options using two phases, the use of annual rolling averages, and averaging of emissions across sources at a facility; and may well provide the flexibility to prevent any threat to a source's ability to continue to generate power. As compared with either maximum achievable control technology (MACT) regulation, or CAMR, we believe the STAPPA/ALAPCO model rule better reflects the capabilities of mercury control technologies that are currently commercially available today and gives power generators options in selecting the most cost effective approach for each plant.

The impact of various state and federal regulations on the future of our business, and the long-term growth of the MEC market for the electric utility industry will most likely depend on the final outcome of the CAMR court action and how industry chooses to respond to a final CAMR and other state regulations, which are in various stages of enactment. As many as 1,100 existing coal-fired boilers may be affected by such regulations, when they are fully implemented. Permitting of new coal-fired plants generally requires them to meet more stringent requirements that likely include MEC. For the near-term, our revenues from this market will depend on (i) DOE- and industry-funded contracts, (ii) mercury testing services and (iii) equipment sales and commissions on sorbents sold to new plants and existing plants affected by the implementation of enacted regulations. We do not expect significant revenue growth unless and until federal regulations and/or state regulations impact a significant portion of existing boilers. Delays in, or derailment of, the passage of state mercury control legislation or undue delay in resolution of the CAMR court action will likely impede the expected growth of the Company.

IF THE DEPARTMENT OF ENERGY (DOE) DISCONTINUES FUNDING OF EXISTING AND PLANNED CLEAN COAL TECHNOLOGY PROGRAMS, OUR BUSINESS WOULD BE HARMED.

In 2005, 2004 and 2003, 39%, 49% and 45%, respectively of our revenues were derived from or related to DOE programs. Our revenues from government contracts would be adversely impacted by any material decrease in funding for the projects in which we are involved. In addition, we look to the DOE funding as a significant means to further develop our technology and intellectual property in the areas of mercury emissions control and flue gas conditioning additives

Edgar Filing: ADA-ES INC - Form 424B3

covered by that funding. Any material decrease in funding for the projects in which we are involved would hamper the development of our technology and intellectual property as it does not appear that we could currently fund the same level of development work apart from the DOE.

3

THE LOSS OF KEY RELATIONSHIPS WOULD ADVERSELY AFFECT OUR SALES AND FINANCIAL CONDITION

We have developed key industry relationships with companies much larger than ourselves (e.g., NORIT Americas, Inc., Alstom Power, Inc, and Arch Coal, Inc.). Subject to the terms of those agreements, the relationships may be terminated by the passage of time, through notification from the other party or failure of the Company to obtain a certain market share of activated carbon sales. We believe these relationships bolster our position in the market to limit mercury emissions from coal-fueled power plants. The loss of these relationships would impede our ability to secure business from that market.

TECHNICAL OR OPERATIONAL PROBLEMS WITH THE ACTIVATED CARBON INJECTION SYSTEMS COULD RESULT IN DELAYS THAT ADVERSELY AFFECT OUR FINANCIAL CONDITION

Our activated carbon injection (ACI) systems have been demonstrated for several months at certain power plants and are starting to be installed on a permanent basis for the first time. There can be no assurance that there will be no technical or operational problems with our ACI systems. Any such problems could result in delays in, or postponement or cancellation of, expected installations at power plants.

EFFECT OF ISSUING PERFORMANCE GUARANTEES FOR COMMERCIAL ACTIVATED CARBON INJECTION SYSTEMS IS UNKNOWN AND COULD ADVERSELY AFFECT OUR FINANCIAL CONDITION

The market for commercial ACI systems to control mercury emissions is emerging as state and federal regulations are being formalized. Performance guarantees have been and will likely continue to be an integral part of successful sales. Such guarantees typically require levels of mercury removal efficiency based on stated injection rates of a specified or approved activated carbon given other operating parameters, including the nature of the coal burned. Provisions of such guarantees generally require us to spend amounts up to the value of the sales contract to "make right" the performance of the ACI, if the guaranteed level of performance is not achieved. Any substantial payments under such guarantees would have an adverse effect on our financial condition and our ability to generate future sales.

ANY DECREASE IN THE USE OF COAL BY ELECTRIC UTILITY COMPANIES COULD ADVERSELY AFFECT OUR FINANCIAL CONDITION AND BUSINESS

Our business depends substantially on providing air pollution and operating cost solutions to coal-fueled power plants. If the demand for coal declines as a result of increases in the use of alternative fuels, technological developments or general economic conditions, our financial condition and business could be materially adversely affected.

OUR FINANCIAL RESULTS MAY FLUCTUATE AS A RESULT OF SEASONALITY AND OTHER FACTORS, INCLUDING THE DEMAND FOR ENVIRONMENTAL TECHNOLOGY AND SPECIALTY CHEMICALS, WHICH MAKES IT DIFFICULT TO PREDICT OUR FUTURE PERFORMANCE

The environmental technology and specialty chemicals industry is generally subject to seasonal trends. These trends reflect the general pattern of electricity use and generation, which typically peak during the spring and summer months and decline from October through March. Our quarterly results can be expected to fluctuate in the future, reflecting this seasonality. These and other factors may make it difficult to predict our results of operations. If our results of operations do not meet the expectations of our shareholders and

Edgar Filing: ADA-ES INC - Form 424B3

financial analysts, then our Common Stock price may be adversely impacted.

INADEQUATE SUPPLIES OF ACTIVATED CARBON COULD ADVERSELY AFFECT OUR PROFITABILITY.

We expect the demand for activated carbon to increase as power plants begin to use ACI systems to control mercury emissions. If the production of activated carbon, which is outside our control, does not increase to meet the increased demand, the inadequate supplies of activated carbon could harm our results of operations and business.

INADEQUATE SUPPLIES OF COAL COULD ADVERSELY AFFECT OUR PROFITABILITY.

Our profitability depends on working with coal-fueled power plants. If economically recoverable coal reserves are not available or if coal cannot be readily supplied to power plants because of transportation, labor or other issues, such unavailability could adversely affect our profitability and impede the growth of our business.

4

LACK OF CLARIFICATION OF "MARKET VALUE" BY CONGRESS OR THE IRS COULD ADVERSELY AFFECT OUR EXPECTED JV WITH NEXGEN

In June 2006, we signed a Letter of Intent (LOI) to form a 50/50 joint venture with NexGen Resources Corporation ("NexGen") to pursue opportunities based upon our refined coal technology. The joint venture is expected to be structured to develop and market a refined coal product that will qualify to generate tax credits under Section 45 under the American Jobs Creation Act of 2004 (the "Jobs Act"). In addition to the technical requirements for refined coal, further clarification of the meaning of "market value" as set forth in Section 45 is required for the planned refined coal product to be economically viable. Such clarification can occur in one of two ways: either (1) through Congressional amendment of the Jobs Act, or (2) through regulations issued by the IRS. We cannot assure you that we will receive the clarification needed, and our inability to do so will have a material adverse effect on the planned operations of the expected joint venture with NexGen.

WE ARE AN EMERGING COMPANY IN A NEW INDUSTRY, WHICH ENTAILS RISKS THAT COULD IMPAIR OUR BUSINESS

We intend to pursue a growth strategy for the foreseeable future by expanding our environmental technology/specialty chemicals business into the emerging MEC market. We anticipate that future operations will place a strain on management, information systems and other resources. We must attract and integrate new personnel, improve existing procedures and controls and implement new ones to support future growth. Any inability to meet our future hiring needs and to adapt our procedures and controls accordingly could have a material adverse effect on our results of operations, financial condition and business prospects. In addition, if we make strategic acquisitions, we must successfully integrate the acquired operations in a timely manner. We cannot assure you that we will achieve our growth expectations, and our inability to do so could materially adversely affect our results of operations and business.

WE DEPEND ON KEY PERSONNEL

We depend on the performance of our senior management team -- including Jonathan Barr, C. Jean Bustard, Dr. Michael Durham, Mark McKinnies, Rich Miller and Richard Schlager, and their direct reports and other key employees, particularly highly skilled engineers. Our success depends on our ability to attract, retain and motivate these individuals. We do not have any binding agreements with any of our employees that prevent them from leaving our company at any time. We compete heavily for these personnel. In addition, we do not maintain key person life insurance on any of our employees. The loss of the services of any of our

Edgar Filing: ADA-ES INC - Form 424B3

key employees or our failure to attract, retain and motivate key employees could harm our business.

MATERIAL ADJUSTMENTS PURSUANT TO DOE AUDITS OF OUR PAST PERFORMANCE COULD HAVE A DETRIMENTAL IMPACT ON OUR BUSINESS

We have participated in five contracts awarded by the U.S. Department of Energy (DOE) and industry that are subject to adjustment as a result of government audits. These contracts contributed a total of \$4.3 million and \$4.2 million to revenues in 2005 and 2004, respectively, of which \$2.3 million and \$2.4 million, respectively, were directly from DOE. Including two recently awarded contracts, the total approved budgets for these contracts combined are \$39.8 million, \$10.0 million of which is the cost-share portion for us and our industry partners. The remaining unearned amount of the contracts was \$19.4 million as of December 31, 2005, and we expect to recognize \$6.2 million in 2006 (including cash contributions by other industry partners). Our historical experience with these audits has not resulted in significant adverse adjustments to amounts previously received, however the audits for the years 2002 through 2005 have not been finalized. If audits for open years were to require us to repay material amounts, our results of operations and business would likely suffer material adverse impacts.

CHANGES IN TAXATION RULES OR FINANCIAL ACCOUNTING STANDARDS COULD ADVERSELY AFFECT OUR RESULTS OF OPERATIONS

Changes in taxation rules and accounting pronouncements (and changes in interpretations of accounting pronouncements) have occurred and may occur in the future. A change in existing taxation rules or accounting standards could have an adverse effect on our reported results of operations.

RISKS RELATING TO OUR COMMON STOCK

A SIGNIFICANT PORTION OF OUR OUTSTANDING SHARES OF COMMON STOCK MAY BE SOLD IN THE PUBLIC MARKET IN THE NEAR FUTURE, WHICH COULD LOWER THE MARKET PRICE OF OUR STOCK

As of July 28, 2006, we had 5,626,893 shares of Common Stock issued and outstanding of which 789,089, or approximately 14%, are being registered pursuant to the registration statement of which this Prospectus forms a part.

5

Sales of substantial amounts of our Common Stock, or the perception that such sales will occur, may have a material adverse effect on our stock price.

THE ISSUANCE OF ADDITIONAL SECURITIES IN THE FUTURE COULD HARM THE BOOK VALUE OF THE OUTSTANDING SHARES OF COMMON STOCK

To the extent our future funding requirements dictate the issuance of convertible securities or preferred stock or debt instruments having liquidation, dividend and other preferences and priorities to the shares of Common Stock, the shares of Common Stock may suffer a decline in book value. Our Board of Directors has the authority to authorize the offer and sale of additional securities without the vote of or notice to existing shareholders, and it is likely that additional securities may be issued to provide future financing or in connection with acquisitions. The issuance of additional securities could dilute the percentage interests and per share book value of existing shareholders.

LACK OF EXPECTED DIVIDENDS MAY MAKE OUR STOCK LESS ATTRACTIVE AS AN INVESTMENT

We intend to retain all future earnings for use in the development of our business. We do not anticipate paying any cash dividends on our Common Stock in the foreseeable future. Generally stocks which pay regular dividends command

Edgar Filing: ADA-ES INC - Form 424B3

higher market trading prices, and so our stock price may be lower as a result of our dividend policy.

WHERE YOU CAN FIND MORE INFORMATION

We are subject to the informational requirements of the Securities Exchange Act of 1934, as amended ("Exchange Act"), and, therefore, file reports, proxy statements and other information with the United States Securities and Exchange Commission (the "Commission" or "SEC"). The reports, proxy statements and other information we file with the Commission may be inspected and copied at the SEC's Public Reference Room at 450 Fifth Street, N.W. Washington, D.C. 20549. Information on the operation of the Public Reference Room can be obtained by calling the SEC at 1-800-SEC-0330. The SEC maintains an internet site that contains reports, proxy and information statements, and other information regarding issuers that file electronically with the SEC on the Commission's Web Site at (<http://www.sec.gov>).

This Prospectus, which constitutes a part of a registration statement on Form S-3 filed by us with the SEC under the Securities Act of 1933, as amended (the "Securities Act"), omits certain of the information set forth in the registration statement. Accordingly, you should reference the registration statement and its exhibits for further information with respect to our Common Stock and us. Copies of the registration statement and its exhibits are on file at the offices of the SEC. Furthermore, statements contained in this Prospectus concerning any document filed as an exhibit are not necessarily complete and, in each instance, we refer you to the copy of such document filed as an exhibit to the registration statement. You should rely only on the information or representations provided in this Prospectus and the registration statement. We have not authorized anyone to provide you with different information.

Our Common Stock is currently traded in the over-the-counter market and is quoted on the NASDAQ Capital Market. Reports, proxy statements and other information filed by the Company therewith can be inspected at the National Association of Securities Dealers, Inc. 1735 K Street NW, Washington, D.C. 20006.

FORWARD LOOKING STATEMENTS

This Prospectus contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and 21E of the Securities Exchange Act of 1934 that relate to matters which involve risks and uncertainties. In particular such forward-looking statements are found in the section of this Prospectus entitled "Risk Factors." Words or phrases such as "anticipates," "believes," "hopes," "expects," "intends," "plans," "look to" or similar expressions are used in this Prospectus to identify forward-looking statements, and such forward-looking statements include, but are not limited to, statements or expectations that (a) we will become a key supplier of equipment and services to the coal-fired power generation industry as it seeks to implement reduction of mercury in flue-gases, (b) contracts we have with the DOE, which generate a significant part of our revenue, will continue to be funded at expected levels and that we will be chosen to participate in additional contracts of a similar nature, (c) current environmental laws and regulations requiring reduction of mercury from coal-fired boiler flue gases will be upheld and/or strengthened in pending court proceedings and/or by pending state legislation, and such laws and regulations will not be materially weakened or repealed by courts or legislation in the future, (d) we will be able to meet any performance guarantees we make

Edgar Filing: ADA-ES INC - Form 424B3

with respect to levels of mercury reduction from systems that we install, (e) we will be able to appropriately meet our staffing requirements in the face of anticipated growth, (f) we will be able to retain our key business relationships with companies with which we have established such relationships, (g) orders we anticipate receiving will in fact be received, (h) the power industry will continue to participate in mercury abatement test projects, (i) we will continue to be able to meet our obligations under contracts as required by those contracts, (j) governmental audits of our performance under DOE contracts will not result in material adjustments to amounts we have previously received under those contracts, (k) we will be able to formulate new chemicals and blends that will be useful to, and accepted by, the coal-fired boiler power generation business, (l) we will be able to effectively compete against others who may choose to participate in our areas of business, (m) adequate supplies of coal will be available to power generators, (n) we will be able to meet any technical requirements of projects we undertake, (o) we will be able to obtain adequate supplies of the materials and supplies needed in our business, including activated carbon, (p) our efforts to market activated carbon sorbents with industry partners will be successful, (q) our FGC segment will remain attractive to the power generation industry, (r) we will be able to obtain adequate resources and personnel to meet anticipated growth, (s) our stock price will not be negatively affected by our retaining earnings for future expansion rather than paying dividends to shareholders and (t) we will have access to adequate capital to meet our needs. The forward-looking statements involve risks and uncertainties that could cause actual results to differ materially from anticipated results. The principal risks and uncertainties that may affect our actual performance and results of operations include the following: changes in existing and planned environmental laws, changes in government funding, loss of key relationships, technical problems with activated carbon injection systems sold, non-compliance with guarantees on activated carbon injection systems, decrease in demand for coal, seasonality of our business, inadequate supply of activated carbon, inadequate supply of coal, lack of or mismanagement of resources to support future growth, loss of key personnel, changes in taxation rules or financial accounting standards, dilution resulting from future sales of Common Stock, and lack of dividend payments to shareholders.

INCORPORATION OF CERTAIN DOCUMENTS BY REFERENCE

The SEC allows us to incorporate by reference the information we file with them, which means that we can disclose important information to you by referring you to those documents. The information incorporated by reference is considered to be part of this Prospectus, and information that we file later with the SEC will automatically update and supersede the information in this Prospectus. Accordingly, we incorporate by reference the documents listed below and any future filings we make with the SEC under Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act:

1. Our Annual Report on Form 10-KSB, as amended, for the year ended December 31, 2005, which was originally filed with the SEC on March 30, 2006 and amended on July 26, 2006.
2. Our Definitive Proxy Statement for our 2005 Annual Meeting of Shareholders to be held May 10, 2006, which was filed with the SEC on April 10, 2006.
3. Our Additional Definitive Proxy Soliciting Materials and Rule 14(a)(12) Material which was filed with the SEC on April 19, 2006.
4. Our current report on Form 8-K filed with the SEC on April 28, 2006 and July 25, 2006.
5. Our Quarterly Report on Form 10-Q, for the quarter ended March 31, 2006, which was filed with the SEC on May 11, 2006.
6. Our Quarterly Report on Form 10-Q, for the quarter ended June 30, 2006, which was filed with the SEC on August 9, 2006.
7. The description of our Common Stock contained in our Registration Statement on Form 10-SB filed March 24, 2003, as amended and declared

Edgar Filing: ADA-ES INC - Form 424B3

effective by the Securities and Exchange Commission.

All reports and other documents we subsequently file pursuant to Sections 13(a), 13(c), 14 or 15(d) of the Exchange Act after the date of this Prospectus and before the filing of a post-effective amendment which indicates that all securities offered under this Prospectus have been sold or which deregisters all securities remaining unsold, should also be considered to be part of this Prospectus from the date of the filing of those reports and documents.

We will provide without charge to each person, including any beneficial owner, to whom a prospectus is delivered, upon written or oral request a copy of our annual, quarterly and current reports as filed with the Commission, and a copy

7

of any or all of the other documents incorporated by reference in this document. The annual report on Form 10-KSB includes our audited financial statements. Requests should be directed to ADA-ES, Inc., 8100 SouthPark Way, Unit B, Littleton, Colorado 80120, Attention: Investor Relations (telephone 303-734-1727).

USE OF PROCEEDS

We will not receive any proceeds from the sale of Common Stock by the selling shareholders. In connection with this offering, we estimate that we will incur costs of approximately \$17,600 for legal, accounting, printing, and other costs. Any separate costs of selling shareholders will be borne by them.

SELLING SHAREHOLDERS

In October 2005 we entered into several Subscription and Registration Rights Agreements (the "Sub Docs") and privately sold 789,089 shares of our Common Stock to the selling shareholders, who are all institutional accredited investors, at a price of \$17.00 per share, for a total offering price of approximately \$13.4 million. The net proceeds to us from the sales totaled approximately \$12.6 million, which will be used for our general working capital needs. Pritchard Capital Partners LLP and Adams Harkness Inc. acted as the placement agents for the sales and received a total cash fee of approximately 6% of the gross proceeds of the offering as well as reimbursement for certain offering expenses.

As a requirement of the Sub Docs, we agreed to file a registration statement covering the shares sold pursuant to the Sub Docs with the U.S. Securities and Exchange Commission within 90 days. The registration for resale of all such shares of Common Stock issued and outstanding discussed in this paragraph is included in this Prospectus.

The following table provides certain information, as of the date of this Prospectus, respecting the selling shareholders, the shares of Common Stock held by them, to be sold, and to be held following the offering, assuming the sale by such selling shareholders of all shares of Common Stock offered. This information is based on information provided to us by the applicable selling shareholders. We may add additional selling shareholders or update or change the information in this Section as may be appropriate from time to time through amendments to the registration statement or the filing of prospectus supplements. The term "selling shareholders" includes the selling shareholders listed in the table and their transferees, pledgees, donors or successors of any of such persons. We will file a prospectus supplement to name any successor to any named selling shareholder who is able to use the Prospectus to resell

Edgar Filing: ADA-ES INC - Form 424B3

shares.

To the best of our knowledge, none of the selling shareholders are broker dealers or affiliated with any broker dealers. None of the selling shareholders has, or within the past three years has had, any position, office or other material relationship with us. The number of shares in the column "Shares to be Offered" represents all of the shares that a selling shareholder may offer under this Prospectus. The selling shareholders may sell some, all or none of their shares. We are unable to determine the exact amount of shares that actually will be sold. We currently have no agreements, arrangements or understandings with the selling shareholders regarding the sale of any of the shares.

Beneficial ownership is calculated in accordance with the rules of the Securities and Exchange Commission. In computing the number of shares of our Common Stock beneficially owned by a person, shares of Common Stock subject to options or warrants held by that person that are currently exercisable or become exercisable within 60 days following, July 31, 2006, are deemed outstanding. Unless otherwise indicated, the persons and entities named in the table have sole voting and investment power with respect to all shares beneficially owned, subject to community property laws where applicable.

Blackrock and Mr. Rice disclaim any such beneficial ownership.
- (20) Wellington Management Company LLP ("Wellington"), in its capacity as an investment adviser, may be deemed to have beneficial ownership of the shares of Common Stock that are owned by its investment advisory clients named in the table, none of which is known to have such interest with respect to more than five percent of the class of shares. Wellington has shared voting and investment control over the securities, but disclaims beneficial ownership thereof. Wellington is a registered investment adviser under the Investment Advisers Act of 1940, as amended.

Edgar Filing: ADA-ES INC - Form 424B3

PLAN OF DISTRIBUTION

This Prospectus relates to the public offer and sale by the selling shareholders of 789,089 shares of Common Stock. We may update or change the information in this Section as may be appropriate from time to time through amendments to the registration statement or the filing of prospectus supplements. The selling shareholders and any of their pledgees, donees, transferees, assignees and successors-in-interest may, from time to time, sell any or all of their shares of Common Stock on any stock exchange, market or trading facility on which the shares are traded or in private transactions. These sales may be made directly or through one or more underwriters, broker-dealers or agents and may be at prevailing market prices, fixed prices or negotiated prices. The selling shareholders may use any one or more of the following methods when selling shares:

10

- o ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- o block trades in which the broker-dealer will attempt to sell the shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- o purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- o an exchange distribution in accordance with the rules of the applicable exchange;
- o privately negotiated transactions;
- o settlement of short sales;
- o sales through broker-dealers of a specified number of shares at a stipulated price per share;
- o through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- o a combination of any such methods of sale; and
- o any other method permitted pursuant to applicable law.

The selling shareholders may or may not sell any of their shares of Common Stock pursuant to this Prospectus. The selling shareholders may also sell shares under Rule 144 under the Securities Act, if available, or another exemption from registration under the Securities Act rather than under this Prospectus. The shares of our Common Stock may be sold in some states only through registered or licensed brokers or dealers. In addition, in some states, the shares of our Common Stock may not be sold unless they have been registered or qualified for sale or the sale is entitled to an exemption from registration.

As of the date hereof, no selling shareholder has advised us that it has entered into any agreement or understanding with any underwriter, dealer or broker for the offer or sale of the Common Stock. Broker-dealers engaged by a selling shareholder may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the selling shareholders (or, if any broker-dealer acts as agent for the purchaser of shares, from the purchaser) in amounts to be negotiated. The selling shareholders do not expect these commissions and discounts to exceed what is customary in the types of transactions involved. The selling shareholders may agree to indemnify any underwriter, dealer or broker that participates in transactions involving shares against certain liabilities, including liabilities arising under the Securities Act.

In connection with the sale of our Common Stock or interests therein, the

Edgar Filing: ADA-ES INC - Form 424B3

selling shareholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the Common Stock in the course of hedging the positions they assume. The selling shareholders may also sell shares of our Common Stock short and deliver these shares to close out their short positions, or loan or pledge the Common Stock to broker-dealers that in turn may sell these shares. The selling shareholders may also enter into option or other transactions with broker-dealers or other financial institutions or the creation of one or more derivative securities which require the delivery to such broker-dealer or other financial institution of shares offered by this Prospectus, which shares such broker-dealer or other financial institution may resell pursuant to this Prospectus (as supplemented or amended to reflect such transaction).

If we are notified in writing by a selling shareholder that any material arrangement has been entered into with a broker-dealer for the sale of Common Stock through a block trade, special offering, exchange distribution or secondary distribution or a purchase by a broker or dealer, we will file a supplement to this Prospectus pursuant to Rule 424(b) under the Securities Act, disclosing (i) the name of each such selling shareholder and of the participating broker-dealer(s), (ii) the number of shares involved, (iii) the price at which such the shares of Common Stock were sold, (iv) the commissions paid or discounts or concessions allowed to such broker-dealer(s), where applicable, (v) that such broker-dealer(s) did not conduct any investigation to verify the information set out or incorporated by reference in this Prospectus, and (vi) other facts material to the transaction. Upon our being notified in writing by a selling shareholder that a donee or pledgee intends to sell shares of Common Stock, we will file a supplement to this Prospectus if then required in accordance with applicable securities laws.

The selling shareholders and any broker-dealers or agents that are involved in selling the shares may be deemed to be "underwriters" within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the shares purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. Discounts, concessions, commissions and similar selling expenses, if any, that can be attributed to the sale of the shares will be paid by the selling shareholder and/or the purchasers. Each selling shareholder has represented and warranted to us that it acquired the

11

shares subject to this registration statement for its own account, not as a nominee or agent, for investment purposes and not with a view towards distribution or resale within the meaning of the Securities Act.

Selling shareholders may not use shares registered on this Registration Statement to cover short sales of Common Stock made prior to the date on which this Registration Statement becomes effective. If a selling shareholder uses this Prospectus for any sale of the Common Stock, it will be subject to the prospectus delivery requirements of the Securities Act. The selling shareholders will be responsible for complying with the applicable provisions of the Securities Act and Exchange Act, and the rules and regulations thereunder promulgated, including, without limitation, Regulation M, as applicable to such selling shareholders in connection with resales of their respective shares under this Registration Statement.

Once sold under the registration statement of which this Prospectus forms a part, the shares of Common Stock will be freely tradable in the hands of persons

Edgar Filing: ADA-ES INC - Form 424B3

other than our affiliates.

We have agreed to indemnify and hold harmless the selling shareholders and each of their respective officers, directors, certain representatives and persons controlling the selling shareholders from and against any claim or liability under the Securities Act or otherwise if such liability or claim arises out of a material untrue statement or a material omission in the registration statement of which this Prospectus is a part or this Prospectus. We also have agreed to reimburse such persons for all legal and other expenses incurred by them in connection with investigating or defending any such claim. This obligation to indemnify does not apply, however, if the liability arises from (a) a material untrue statement or a material omission (i) in reliance upon or in conformity with written information furnished to us by the selling shareholder or (ii) that was corrected in a final prospectus furnished to the selling shareholder but which the selling shareholder failed to deliver to the purchaser or (b) use of a registration statement or prospectus after we have notified the selling shareholder that a stop order has been issued in respect of such registration statement or prospectus or any proceedings for that purpose have been initiated or use of a prospectus when such use has been suspended (collectively, "Excluded Liabilities").

The selling shareholders have agreed to indemnify and hold us, our officers, directors, certain representatives and each person who controls us, harmless from and against any Excluded Liability and have agreed to reimburse us and such persons for all legal and other expenses incurred by us and them in connection with investigating or defending any such claim.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions or otherwise, we have been informed that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

TRANSFER AGENT AND REGISTRAR

Computershare Investor Services is the transfer agent and registrar for our Common Stock. It is located at Suite 800, 350 Indiana Street, Golden, CO 80401, telephone (303) 262-0600.

LEGAL MATTERS

Certain legal matters with respect to the legality of the securities offered and the organization and existence of our company have been passed upon for us by Schuchat, Herzog & Brenman, LLC, 1900 Wazee Street, Suite 300, Denver, Colorado 80202.

EXPERTS

The consolidated financial statements which are incorporated by reference in this Prospectus by reference from our Annual Report on Form 10-KSB as of and for the year ended December 31, 2005, have been audited by Hein & Associates LLP, an independent registered public accounting firm, as stated in their report, which are incorporated herein by reference, and have been so incorporated in reliance upon such report given the authority of that firm as experts in accounting and auditing.
