### **bebe stores, inc. Announces September 2005 Sales; Same Store Sales Increase 12.3%**

BRISBANE, CALIF. October 6, 2005 bebe stores, inc. (Nasdaq: BEBE) today reported retail sales of \$48.6 million for the five-week period ended October 1, 2005, an increase of 21.5% compared to sales of \$40.0 million for the five-week period ended October 2, 2004.

Same store sales for the five-week period ended October 1, 2005 increased 12.3% compared to an increase of 17.6% for September 2004.

Retail sales for the year-to-date period ending October 1, 2005 were \$125.1 million compared to \$102.3 million for the year-to-date period ending October 2, 2004, an increase of 22.3%. Same store sales for the year-to-date period ending October 1, 2005 increased 17.3% compared to an increase of 12.5% for the year-to-date period ending October 2, 2004.

As previously communicated, we currently anticipate diluted earnings per share for the first quarter of fiscal 2006 to be in the range of \$0.14 to \$0.17 per share. Fiscal 2006 guidance excludes the impact of the recent accounting change requiring the expensing of stock based compensation beginning in the first quarter of fiscal 2006.

As of October 1, 2005, finished goods inventory per square foot was approximately 6% higher as compared to the prior year.

The statements in this news release and on our recorded message, other than the historical financial information, contain forward-looking statements that involve risks and uncertainties that could cause actual results to differ from anticipated results. Wherever used, the words "expect," "plan," "anticipate," "believe" and similar expressions identify forward-looking statements. Any such forward-looking statements are subject to risks and uncertainties and the company's future results of operations could differ materially from historical results or current expectations. Some of these risks include, without limitation, miscalculation of the demand for our products, effective management of our growth, decline in comparable store sales performance, ongoing competitive pressures in the apparel industry, changes in the level of consumer spending or preferences in apparel, loss of key personnel, difficulties in manufacturing, disruption of supply, adverse economic conditions, and/or other factors that may be described in the company's annual report on Form 10-K and/or other filings with the Securities and Exchange Commission. Future economic and industry trends that could potentially impact revenues and profitability are difficult to predict.
