General Overview

Enertopia Corp. was formed on November 24, 2004 under the laws of the State of Nevada and commenced operations on November 24, 2004.

From inception until April 2010, we were primarily engaged in the acquisition and exploration of natural resource properties. Beginning in April 2010, we began our entry into the renewable energy sector by purchasing an interest in a solar thermal design and installation company. In late summer 2013, we began our entry into medicinal marijuana business. During our 2014 fiscal year end our activities in the clean energy sector were discontinued. During fiscal 2015 our activities in the Medicinal Marijuana sector were also discontinued.

The Company is actively pursuing business opportunities in the resource sector, whereby we signed a definitive agreement for a Lithium Brine in May 2016. The Company continued in the health and wellness sector throughout 2015 and 2016, where the Company had launched the product V-Love™. For strategic reasons the Company had discontinued the manufacturing and retail distribution of V-Love™ at the end of fiscal 2016. The Company's main focus is in natural resource sector and patent pending technology used for Lithium extraction through brines.

The address of our principal executive office is Suite 950, 1130 West Pender Street, Vancouver, British Columbia V6E 4A4. Our telephone number is (604) 602-1675. In addition, we have a second office located in Kelowna, British Columbia. Our current locations provide adequate office space for our purposes at this stage of our development.

Summary of Recent Business

Our Company is diverse in its pursuit of business opportunities in the natural resource sector and technology used in the resource sector.

On **October 23, 2015**, the Company's Board has appointed Kevin Brown as a Director of the Company and Victor Lebouthillier as an advisor to the Board of Directors.

On **March 9, 2016**, we closed a binding Letter Of Intent to acquire 100% of an established profitable private nutritional vitamin/supplement company. The private nutritional vitamin/supplement company has been in business for over 5 years showing good positive cash flows. All products are manufactured by a GMP, NSF, FDA approved manufacturer in the United States. Enertopia has agreed subject to further due diligence, review of financials and financing to a total amount of \$350,000 for the acquisition, with \$300,000 due on the signing of the Definitive Purchase Agreement. The Definitive Purchase Agreement is expected to be completed before the end of April. The Company did not further pursue this.

On **April 21, 2016**, Enertopia has signed a binding letter of intent with a to enter into negotiations to effect the optional acquisition of certain placer mining claims (the **Claims**) in Nevada covering approximately 2,560 acres from S P W Inc. S P W Inc. holds the Claims directly (**Underlying Owner**). Upon the closing date of the transaction (the **Effective Date**) S P W Inc. will have the right to transfer, option, sell or assign the Claims to Enertopia. The Placer mining claims and any underlying agreements will be acquired by Enertopia through a mineral property option agreement, an assignment agreement or an asset acquisition (the **Transaction**).

On **May 12, 2016** Enertopia has signed the Definitive Agreement with the Vendor respecting the option to purchase a 100% interest in approximately 2,560 acres of placer mining claims in Churchill, Lander and Nye Counties Nevada, USA. These placer mining claims are subject to a 1.5% NSR from commercial production with the Company able to buy back the NSR at the rate of \$500,000 per 0.5% NSR.

On **May 20, 2016**, Enertopia closed the first tranche of a private placement of 6,413,333 units at a price of CAD\$0.015 per unit for gross proceeds of USD\$74,074 (CAD\$96,200). Subsequent to year end, on **October 7, 2016**, we issued 175,000 common shares of our Company and paid \$5,000 to comply with the Definitive Agreement signed May 12, 2016.

Chronological Overview of our Business over the Last Five Years

Upon our inception on November 24, 2004, we were engaged in the acquisition and exploration of natural resource properties. On April 6, 2005 we entered into an Exploration Agreement with Options for Joint Venture with Miranda U.S.A., Inc. We had the option of acquiring an undivided 60% interest in Miranda's lease in sixty-four mineral claims situated in Eureka County, Nevada. During the fiscal year ended August 31, 2007, we abandoned our option to acquire the 60% interest in the Eureka County mineral lease claims.

Our management determined that the mineral exploration business did not present the best opportunity for our company to realize value for our shareholders at that time, and therefore investigated opportunities for our Company to enter the natural gas and oil exploration sector. Accordingly, we abandoned our previous business plan and focused on the exploration and development of natural gas and oil properties.

On April 16, 2007, we acquired a 25% (net 15%) before payout (12.5% (net 7.5%)) after payout interest in Queensdale, Saskatchewan Project (known as the Queensdale Property) from 0743608 B.C. Ltd., a company controlled by a Director/CEO of our company, for a total cost of CAD\$250,000 and 250,000 shares (post consolidation) of our common stock.

On November 30, 2007, we completed the acquisition of all the issued and outstanding common stock of Target Energy pursuant to a share exchange agreement dated October 15, 2007 among our company, as purchaser, and all of the shareholders of Target Energy, as vendors. In exchange for all of the issued and outstanding shares of Target Energy, we issued to the shareholders of Target Energy an aggregate of 6,905,000 shares (post consolidation) of our common stock. Through our acquisition of Target Energy, we acquired an 8% gross interest before payout in the Queensdale, Queensdale West HZ 4A9-25/3A15-25-6-2 W2 well (known as the Queensdale West property). We also acquired a 3.75% net interest in two wells located in Wordsworth, Saskatchewan (known as the Wordsworth property), which had one well at the time of acquisition and eventually would see a second well drilled.

On April 21, 2008, we acquired a passive minority interest in Pro Eco Energy USA Ltd., a private corporation focused on the installation and integration of alternative energy mainly solar thermal systems in Western Canada.

On May 14, 2008, we acquired one land parcel of 160 acres in the Glen Park area of central Alberta, Canada. We subsequently entered into a 50/50 Joint Venture with Vanguard Exploration to explore and develop the joint lands on Alberta Petroleum and Natural Gas Lease No. 0408050364. The joint venture owns the Petroleum and Natural Gas rights below the base of the Mannville GRP to basement.

On June 11, 2008, we acquired two land parcels of 160 acres each in the Glen Park area of central Alberta, Canada. These 320 acres were believed to be prospective for reef development and the potential accumulation of oil deposits. We own the Petroleum and Natural Gas rights below the base of the Mannville GRP to basement as to 100%.

In November 2008, the Wordsworth property that had the second well was drilled and completed as a successful oil well in December 2008.

On December 8, 2008, Enertopia and its partner were successful in acquiring 800 acres of land in the Coteau Lake project area and our company owned a 50% gross and net interest in a total of 2,080 acres of land in this area.

On July 31, 2009, we sold all of our interests in the Queensdale, West Queensdale, and the Wordsworth properties for an aggregate amount of CAD\$453,116.

Effective September 1, 2009, we entered into an assignment agreement with Cheetah Oil & Gas Ltd. The assignment agreement dated August 28, 2009, provides for the purchase by our company of a revenue interest of 40.432% of an 8% share of Cheetah's net revenue after field operating expenses from the Belmont Lake PP F-12-4 horizontal well, located in Belmont Lake Field, Wilkinson County, Mississippi. As consideration, we agreed to pay to Cheetah 57.76% of Cheetah's costs currently budgeted at \$77,905.36, subject to revision and 57.76% of Cheetah's 8% share of PP F-12-4 well costs from time to time for infrastructure, pipes, tanks, compressors, trucking, etc. On May 31, 2010, this assigned interest was converted into common shares and warrants of Cheetah Oil & Gas Ltd, leaving our company with no direct interest in this well. As a result, we have 375,000 restricted common shares in the capital of Cheetah and 375,000 share purchase warrants which entitled our company to acquire 375,000 restricted common shares in the capital of Cheetah at a purchase price of US\$0.20 per share for a period of two years.

Effective September 1, 2009, we entered into an assignment agreement with Lexaria Corp. The assignment agreement dated August 28, 2009, provides for the purchase by our company of a revenue interest of 13.475% of a 32% share of Lexaria's net revenue after field operating expenses from the Belmont Lake PP F-12-4 horizontal well, located in Belmont Lake Field, Wilkinson County, Mississippi. As consideration, we agreed to pay to Lexaria 19.25% of Lexaria's costs currently budgeted at \$311,621.44, subject to revision and 19.25% of Lexaria's 32% share of PP F-12-4 well costs from time to time for infrastructure, pipes, tanks, compressors, trucking, etc. On May 31, 2010, this assigned interest was converted into common shares and warrants of Lexaria Corp, leaving our company with no direct interest in this well. As a result, we have 499,893 restricted common shares in the capital of Lexaria and 499,983 share purchase warrants which entitle our company to acquire 499,983 restricted common shares in the capital of Lexaria at a purchase price of US\$0.20 per share for a period of two years.

Effective September 25, 2009, we effected a one (1) for two (2) share consolidation of our authorized and issued and outstanding common stock. As a result, our authorized capital decreased from 75,000,000 shares of common stock with a par value of \$0.001 to 37,500,000 shares of common stock with a par value of \$0.001 and our issued and outstanding shares decreased from 29,305,480 shares of common stock to 14,652,740 shares of common stock. The consolidation became effective with the Over-the-Counter Bulletin Board at the opening for trading on September 25, 2009 under the new stock symbol. On October 9, 2009, we appointed Bal Bhullar as our chief financial officer. Concurrent with the appointment of Ms. Bhullar, we entered into an initial six-month management agreement, thereafter month to month, with BKB Management Ltd., a consulting company controlled by Bal Bhullar.

On October 9, 2009, we entered into a month to month management agreement with Mark Snyder, whereby Mark Snyder agreed to act as the Chief Technical Officer of the Company. Mr. Snyder's appointment was made in connection with the transition of our operations away from natural resources into the renewable energy sector.

On January 31, 2010, we entered into an Independent Sales and Marketing Representative Agreement with Global Solar Water Power Systems Inc., a private company beneficially owned by Mark Snyder, the Company's Chief Technical Officer.

On February 8, 2010, we changed our name from Golden Aria Corp. to Enertopia Corp. Our CUSIP was changed to **29277Q1047**.

On February 22, 2010, we increased our authorized share capital to 200,000,000 common shares.

On February 28, 2010, we entered into an Asset and Share Purchase Agreement with Mr. Mark Snyder to acquire up to 20% ownership interest of Global Solar Water Power Systems Inc. (GSWPS). Effective March 26, 2010, our stock quotation under the symbol GLCP was deleted from the OTC Bulletin Board. The symbol was deleted for factors beyond our company's control due to various market makers electing to shift their orders from the OTCBB to the Pink OTC Markets Inc. As a result of these market makers not providing a quote on the OTCBB for four consecutive days our company was deemed to be deficient in maintaining a listing standard at the OTCBB pursuant to Rule 15c2-11. That determination was made entirely without our company's knowledge.

On April 7, 2010, FINRA confirmed the name change from Golden Aria Corp. to Enertopia Corp., and approved our new symbol "ENRT".

On May 31, 2010, we closed a private placement financing of 557,500 units at a price of \$0.15 per unit for gross proceeds of \$83,625. Each unit consisted of one share of common stock in the capital of our company and one non-transferable share purchase warrant, each full warrant entitling the holder to purchase one additional share of common stock in the capital of our company until May 31, 2012, at a purchase price of \$0.30 per share.

On August 12, 2010, we received approval for listing on the Canadian National Stock Exchange. Trading date commenced on August 13, 2010 under the symbol "**TOP**".

During the year ended August 31, 2010, our oil and gas properties became available for sale as the result of our company shifting its focus from the non-renewable energy sector to the renewable energy sector. Pursuant to Accounting Standards Codification 360 Accounting for the Impairment or Disposal of long-Lived Assets, we reclassified the remaining oil and gas properties to be sold as assets held for sale and recorded at their recoverable amount on August 31, 2010. In the year ended August 31, 2011, we received a cash payment of \$100,000 from the sale.

On January 31, 2011, the Company entered into a letter of intent and paid US\$7,500 deposit to Wildhorse Copper Inc. and its wholly owned subsidiary Wildhorse Copper (AZ) Inc. (collectively, the Optionors). On April 11, 2011, the Company signed a Mineral Purchase Option Agreement with the Optionors respecting an option to earn a 100%

interest, subject to a 1% NSR capped to a maximum of \$2,000,000 in a property known as the Copper Hills property. The Copper Hills property was comprised of 56 located mining claims covering a total of 1,150 acres located in New Mexico, USA. The Optionors held the Copper Hills property directly and indirectly through property purchase agreements between the Optionors and third parties (collectively, the Indirect Agreements). Pursuant to the Option Agreement the Optionors assigned the Indirect Agreements to the Company. In order to earn the interest in the Copper Hills property, the Company was required to make aggregate cash payments of \$591,650 over an eight year period and issue an aggregate of 1,000,000 shares of its common stock over a three year period. As at August 31, 2012, the Company issued 500,000 shares at price of \$0.15 per share and 150,000 shares at price of \$0.10 per share to the Optionors and made aggregate cash payment of \$106,863 (August 31, 2011-\$72,045); the Company has expensed the exploration costs of \$143,680 (August 31, 2011-\$14,094).

On March 3, 2011, we closed a private placement of 8,729,000 units at a price of CAD\$0.10 per unit for gross proceeds of CAD\$872,900, US\$893,993. Each unit consisted of one common share in the capital of our company and one non-transferable share purchase warrant, each full warrant entitling the holder to purchase one additional common share in the capital of our company until March 3, 2013, subject to accelerated expiry as set out in the warrant certificate, at a purchase price of CAD\$0.20. Per the terms of the Subscription Agreement, our company granted to the Subscribers a participation right to participate in future offerings of our securities as to their pro rata shares for a period of 12 months from the closing of the private placement. We paid broker commissions of \$48,930 in cash and issued 489,300 brokers warrants. Each full warrant entitled the holder to purchase one additional common share in the capital of our company until March 3, 2013, subject to accelerated expiry as set out in the warrant certificate, at a purchase price of CAD\$0.20.

On March 16, 2011, we entered into a debt settlement agreement with an officer of our company, whereby we issued 78,125 shares of common stock in connection with the settlement of \$12,500 debt at a deemed price of \$0.16 per share pursuant to a consulting agreement. We recorded \$12,422 in additional paid in capital for the gain on the settlement of the debt.

On April 27, 2011, we entered into a debt settlement agreement with the President of our Company regarding a related party in the amount of \$46,000, whereby \$25,000 was settled by issuing common shares of 100,000, and \$21,000 was forgiven for Nil consideration. In connection with the debt settlement, we recorded \$100 in share capital and \$45,900 in additional paid in capital for the gain on the settlement of the debt.

On May 31, 2011, we settled the amount due to related parties into two promissory notes of \$80,320 (CAD\$84,655) and \$90,000. Both promissory notes were unsecured, non-interest bearing and due on May 31, 2012 at an imputed interest rate of 12% per annum upon the settlement. On April 27, 2011, we entered into a debt settlement agreement with one of the holders, a company controlled by the Chairman/CEO of our Company, whereby we issued 360,000 common shares to the holder, and the holder agreed to accept the shares as full and final payment of the promissory note of \$90,000. LITHIUM TECHNOLOGY

On August 15, 2016, a binding Letter of Intent was signed by Enertopia and Genesis Water Technologies, Inc. ("GWT") with regard to the acquisition by Enertopia (the "**Acquisition**") of the exclusive worldwide licensing rights (the "**Licensing Rights**") by Enertopia of all of the technology used in the process of recovering and extraction of battery grade lithium carbonate powder Li_2CO_3 grading 99.5% or higher purity from brine solutions (the "**Technology**") and covered under patent pending process #XXXXXX (the "**Pending Patent**").

Exclusive Licensing Structure. In accordance with the terms of a formal and Definitive Agreement (the "**Definitive Agreement**") to be entered into between Enertopia and GWT, Enertopia shall acquire 100% of the Licensing Rights for the Technology in accordance with the exclusive licensing structure set forth below (the "**Licensing Structure**"). The terms of the Exclusive Licensing Structure shall be as follows:

- a. Upon the execution of this LOI, Enertopia shall issue to GWT 250,000 common shares. (Completed)
- b. Within 30 days of closing of the Definitive Agreement, which is to occur on or before September 15, 2016 or such other date as the Parties may agree, acting reasonably (the "**Closing**"), Enertopia shall pay to GWT, the sum of \$10,000 for bench testing brine or synthetic brine samples enriched in lithium.
- c. Upon the successful bench scale testing of recovering battery grade Lithium carbonate Li_2CO_3 from brine or synthetic brine samples, as audited by a 3rd party lab, that verifies the results of the June 6/17/2016 feasibility report commissioned by Enertopia, Enertopia shall issue to GWT 250,000 common shares.
- d. Upon the Pending Patent #XXXXXX having been approved by the U.S. Patent and Trademark Office and evidence thereof having been provided to Enertopia, Enertopia shall issue 250,000 common shares to GWT.

- e. Enertopia shall pay the costs for the test pilot plant and associated facilities with a capacity of 50 gallons per minute, such costs estimated to be US\$2,150,000 and not to exceed US\$ 2,500,000 including building envelope and such testing to be completed by 6 months after final start up.
 - f. Enertopia shall also make the following anniversary payments following Closing.
 - g. For 2017, the greater of 10% of Enertopia net sales of battery grade Li₂CO₃ from brine sources or \$50,000, such first anniversary payment becoming due on or before the one year anniversary of the signing of the definitive agreement, provided however that Enertopia shall have the option to satisfy this payment through the issuance of treasury units (each, "**Unit**"), with each Unit consisting of one common share of Enertopia and one common share purchase warrant of Enertopia (each, "**Warrant**"), with each Warrant being exercisable for a period of 36 months from issuance at a price 1.5 times above the minimum unit pricing allowed by applicable stock exchange policies at such time and based on the previous 10 day volume weighted average pricing on the Canadian Stock Exchange ("**CSE**");
-

- h. For 2018, the greater of 10% of Enertopia net sales of battery grade Li₂CO₃ from brine sources or \$150,000, such second anniversary payment becoming due on or before the second anniversary of the signing of the definitive agreement; and
- i. For 2019, the greater of 10% of Enertopia net sales of battery grade Li₂CO₃ from brine sources or \$200,000 per annum, each such anniversary payment becoming due on or before the respective anniversary of the signing of the definitive agreement; and
- j. For 2020, the greater of 10% of Enertopia net sales of battery grade Li₂CO₃ from brine sources or \$200,000 per annum, each such anniversary payment becoming due on or before the respective anniversary of the signing of the definitive agreement; and
- k. For 2021, the greater of 10% of Enertopia net sales of battery grade Li₂CO₃ from brine sources or \$200,000 per annum, each such anniversary payment becoming due on or before the respective anniversary of the signing of the definitive agreement; and
- l. For 2022, the greater of 10% of Enertopia net sales of battery grade Li₂CO₃ from brine sources or \$200,000 per annum, each such anniversary payment becoming due on or before the respective anniversary of the signing of the definitive agreement; and
- m. For 2023, the greater of 10% of Enertopia net sales of battery grade Li₂CO₃ from brine sources or \$200,000 per annum, each such anniversary payment becoming due on or before the respective anniversary of the signing of the definitive agreement.
- n. Note net sales noted above in f.(i) to (vii) to be defined in the definitive agreement.
- o. Licensee life of seven (7) years from signing on the definitive agreement with first right of refusal.
- p. Upon proven commercial viability of test plant Enertopia will source location and capital for commercial production plant with a minimum capacity of 250 gallons per minute.

Definitive Agreement and Closing. Acceptance of this LOI shall be followed by the negotiation and acceptance of the Definitive Agreement which shall incorporate the terms and conditions of this LOI and such other terms, conditions, representations and warranties as are customary for transactions of this nature or as may be reasonably requested by the Parties. This LOI does not set forth all of the matters upon which agreement must be reached in order for the proposed acquisition to be consummated. Completion of the Definitive Agreement shall be followed with Closing of the Acquisition.

Summary

The continuation of our business is dependent upon obtaining further financing, a successful programs of development, and, finally, achieving a profitable level of operations. The issuance of additional equity securities by us could result in a significant dilution in the equity interests of our current stockholders. Obtaining commercial loans, assuming those loans would be available, will increase our liabilities and future cash commitments.

There are no assurances that we will be able to obtain further funds required for our continued operations. As noted herein, we are pursuing various financing alternatives to meet our immediate and long-term financial requirements. There can be no assurance that additional financing will be available to us when needed or, if available, that it can be obtained on commercially reasonable terms. If we are not able to obtain the additional financing on a timely basis, we will be unable to conduct our operations as planned, and we will not be able to meet our other obligations as they become due. In such event, we will be forced to scale down or perhaps even cease our operations. There is significant uncertainty as to whether we can obtain additional financing.

V-Love™ Gel

On February 9, 2015, we announced the launch of a new product line V-Love™ for women's sexual pleasure. V-Love™ a brand new water based, silky smooth fragrance free personal lubricant and intimate gel especially designed for women. V-Love™ is a personal lubricant and sexual desire gel to embrace the essence of what a female is sexy, confident, playful, loving, and unique. V-Love™ is carefully designed to enhance/enrich each and every intimate experience to be the most pleasurable and fulfilling it can be.

The Company used the feedback and life experience of women in its formulation of V-Love™. V-Love™ was developed and designed to offer a unique personal lubricant and sexual desire gel that could be used safely and effectively by women who desired added lubrication. V-Love™ is designed to be used with, toys and foreplay, for increasing sexual experience by lubricating so women feel confident with intimacy with their partners or for their own personal pleasure.

The V-Love™ gel finished its production run in April, 2015. In May 2015, V-Love™ first became available for retail sale at Loblaws City Market store in North Vancouver, British Columbia. Enertopia owns 100% of the product and its formulation. Enertopia engaged a GMP compliant facility reputed to produce high quality cosmetic products for many well-known brands. They are a Vancouver based manufacturer with over 150 years of experience. They manufactured and formulated the final ingredients for V-Love™ and handled all the production.

The Company held an initial launch on February 13, 2015 by showcasing samples of V-Love™ at the Vancouver Health and Wellness Show and providing educational information on the gel. In May, 2015, V-Love™ was available to the retail market for purchase in stores and at various events.

During the month of July, 2015 V-Love™ became available for retail purchase at all London Drugs Limited stores across Western Canada and online through Amazon.ca.

As at August 31, 2016, with the Company's strategic direction mostly being focused on natural resources and technology relating to the resource sector, the health and wellness portion of the business is discontinued.

Alternative Health Operations Discontinued

Since June 12, 2015, the Company has had no direct involvement or ownership interest in any active or prospective operations or permit applications under the MMPR.

On June 26, 2015, we signed a Definitive agreement to sell our wholly owned subsidiary, Thor Pharma Corp along with the MMPR application (no. 10MMPR0610) for our proposed production facility located in Burlington, Ontario. The Burlington MMPR license application will continue in the application process under new ownership. Pursuant to the agreement, we received a non-refundable \$10,000 deposit and are entitled to receive up to \$1,500,000 in milestone payments upon the Burlington facility becoming licensed under the MMPR. These monies would be split equally with our joint venture partner, Lexaria Corp. Notwithstanding the foregoing, we can neither guarantee nor provide a meaningful time estimate regarding the potential grant of a production license for the Burlington facility.

Investments

We currently hold the following investment interests:

Equity Investment in Pro Eco Energy, Inc.

On April 21, 2008, we announced that we had made a \$45,000 investment to acquire 8.25% of the equity of Pro Eco Energy USA Ltd., a clean tech energy company involved in designing, developing and installing solar energy solutions for commercial and residential customers. During fiscal year 2014, we entered into an agreement to sell our 8.25% ownership in Pro Eco Energy for \$40,000 to Western Standard Energy Corp. (now Dominovas Energy) The purchase price was to be payable as follows: a) \$10,000 on December 02, 2013; b) \$10,000 on or before December 31, 2013; c) \$10,000 on or before January 31, 2014; d) \$10,000 on or before February 28, 2014. As at August 31, 2015, we had collected \$10,000 of the \$40,000 purchase price. As at August 31, 2015, we have received back 600,000 of the 900,000 Pro Eco Energy shares from Western Standard Energy Corp. and the accounts receivable has been settled upon the return of the shares. The Company has no significant influence in Pro Eco Energy.

The value of Pro Eco Energy's shares have been written to \$1 by management during the year ended August 31, 2016 due to management has assessed the value of shares by reviewing Pro Eco Energy's operation and cash flows situation and concluded it is unlikely to sell Pro Eco Energy's share in the market.

Employees

We primarily used the services of sub-contractors and consultants for our intended business operations. Our technical consultant is Mr. McAllister, our president and a director.

We entered into a consulting agreement with Mr. Robert McAllister on December 1, 2007. During the term of this agreement, Mr. McAllister is to provide corporate administration and consulting services, such duties and responsibilities to include provision of oil and gas industry consulting services, strategic corporate and financial planning, management of the overall business operations of the Company, and supervising office staff and exploration and oil & gas consultants. Mr. McAllister is reimbursed at the rate of \$2,000 per month. On December 1, 2008, the consulting fee was increased to \$5,000 per month. We may terminate this agreement without prior notice based on a number of conditions. Mr. McAllister may terminate the agreement at any time by giving 30 days written notice of his intention to do so. Effective March 1, 2014, the Company entered into a new Management Consulting Agreement replacing the original agreement with a consulting fee of \$6,500 plus GST per month.

On October 9, 2009, the Company entered into a consulting agreement with BKB Management Ltd, a corporation organized under the laws of the Province of British Columbia. BKB Management controlled by the chief financial officer of the Company, Bal Bhullar. A fee of CAD\$4,675 including GST was paid per month. We may terminate this agreement without prior notice based on a number of conditions. BKB Management Ltd. may terminate the agreement at any time by giving 30 days written notice of his intention to do so. Effective April 1, 2011, the fee is CAD\$5,500 plus GST. Effective March 1, 2014, the Company entered into a new Management Consulting Agreement replacing the original agreement with a consulting fee of CAD\$7,500 plus GST per month. On February 6, 2015, Ms. Bhullar was appointed as a director by the Board.

We do not expect any material changes in the number of employees over the next 12 month period. We do and will continue to outsource contract employment as needed.

Research and Development

We have incurred \$13,067 in research and development expenditures over the last two fiscal years.

Item 1A. Risk Factors

Our business operations are subject to a number of risks and uncertainties, including, but not limited to those set forth below:

Risks Associated with Our Business

Our company has no operating history and an evolving business model, which raises doubt about our ability to achieve profitability or obtain financing.

Our Company has no operating history. Moreover, our business model is still evolving, subject to change, and will rely on the cooperation and participation of our joint venture partners. Our Company's ability to continue as a going concern is dependent upon our ability to obtain adequate financing and to reach profitable levels of operations has and we no proven history of performance, earnings or success. There can be no assurance that we will achieve profitability or obtain future financing.

Uncertain demand for mineral resources sector may cause our business plan to be unprofitable.

Demand for mineral resources is based on the world economy and new technologies. Current lithium demand exceeds available supply due to the rapid increase in lithium batteries in portable electronics and the growing electric vehicle markets. There can be no assurance that current supply and demand factors will remain the same or that projected supply and demand factors will actually come to pass from 3rd party projections that are currently believed to be true and accurate. There can be no assurance that new disruptive technologies will replace lithium as a significant component in battery storage over time.

Conflicts of interest between our company and our directors and officers may result in a loss of business opportunity.

Our directors and officers are not obligated to commit their full time and attention to our business and, accordingly, they may encounter a conflict of interest in allocating their time between our future operations and those of other businesses. In the course of their other business activities, they may become aware of investment and business opportunities which may be appropriate for presentation to us as well as other entities to which they owe a fiduciary duty. As a result, they may have conflicts of interest in determining to which entity a particular business opportunity should be presented. They may also in the future become affiliated with entities, engaged in business activities similar to those we intend to conduct.

In general, officers and directors of a corporation are required to present business opportunities to a corporation if:

the corporation could financially undertake the opportunity;

the opportunity is within the corporation's line of business; and

it would be unfair to the corporation and its stockholders not to bring the opportunity to the attention of the corporation.

We plan to adopt a code of ethics that obligates our directors, officers and employees to disclose potential conflicts of interest and prohibits those persons from engaging in such transactions without our consent. Despite our intentions, conflicts of interest may nevertheless arise which may deprive our company of a business opportunity, which may impede the successful development of our business and negatively impact the value of an investment in our company.

The speculative nature of our business plan may result in the loss of your investment.

Our operations are in the start-up or stage only, and are unproven. We may not be successful in implementing our business plan to become profitable. There may be less demand for our services than we anticipate. There is no assurance that our business will succeed and you may lose your entire investment.

Changing consumer preferences may cause our planned products to be unsuccessful in the marketplace.

The decision of a potential client to undergo an environmental audit or review may be based on ethical or commercial reasons. In some instances, or with certain businesses, there may be no assurance that an environmental review will result in any cost savings or increased revenues. As such, unless the ethical consideration is also a material factor, there may be no incentive for such businesses to undertake an environmental review. Changes in consumer and commercial preferences, or trends, toward or away from environmental issues may impact on businesses' decisions to undergo environmental reviews.

General economic factors may negatively impact the market for our planned products.

The willingness of businesses to spend time and money on energy efficiency may be dependent upon general economic conditions; and any material downturn may reduce the likelihood of businesses incurring costs toward what some businesses may consider a discretionary expense item.

A wide range of economic and logistical factors may negatively impact our operating results.

Our operating results will be affected by a wide variety of factors that could materially affect revenues and profitability, including the timing and cancellation of customer orders and projects, competitive pressures on pricing, availability of personnel, and market acceptance of our services. As a result, we may experience material fluctuations in future operating results on a quarterly and annual basis which could materially affect our business, financial condition and operating results.

Changes In Environmental Regulations May Have An Impact On Our Operations

We believe that we currently comply with existing environmental laws and regulations affecting our proposed operations. While there are no currently known proposed changes in these laws or regulations, significant changes have affected the industry in the past and additional changes may occur in the future. The company is subject to the Bureau of Land Management (BLM), State and potentially other government agencies with respect to its lithium brine business.

Our operations may be subject to environmental laws, regulations and rules promulgated from time to time by government. In addition, certain types of operations require the submission and approval of environmental impact assessments. Environmental legislation is evolving in a manner that means stricter standards and enforcement. Fines and penalties for non-compliance are more stringent. Environmental assessments of proposed projects carry a heightened degree of responsibility for companies, directors, officers and employees. The cost of compliance with changes in governmental regulations has potential to reduce the profitability of operations. We intend to comply with all environmental regulations in the United States and Canada.

Loss of consumer confidence in our company or in our industry may harm our business.

Demand for our services may be adversely affected if consumers lose confidence in the quality of our services or the industry's practices. Adverse publicity may discourage businesses from buying our services and could have a material adverse effect on our financial condition and results of operations. Various factors may adversely impact our reputation, including product quality inconsistencies or contamination resulting in product recalls. Reputational risks may also arise from our third parties' labour standards, health, safety and environmental standards, raw material sourcing, and ethical standards. We may also be the victim of product tampering or counterfeiting or grey imports. Any litigation, disputes on tax matters and pay structures may subject us to negative attention in the press, which can damage reputation.

The failure to secure customers may cause our operations to fail.

We currently have no long-term agreements with any customers. Many of our sales may be on a one-time basis. Accordingly, we will require new customers on a continuous basis to sustain our operations. Risk of material impact on Group growth and profit of consumer led slowdown in key developing markets, exacerbated by increasing currency volatility. A variety of factors may adversely affect our results of operations and financial condition during periods of economic uncertainty or instability, social or labour unrest or political upheaval in the markets in which we operate. Such periods may also lead to government actions, such as imposition of martial law, trade restrictions, foreign ownership restrictions, capital, price or currency controls, nationalization or expropriation of property or other resources, or changes in legal and regulatory requirements and taxation regimes.

If we fail to effectively and efficiently advertise, the growth of our business may be compromised.

The future growth and profitability of our business will be dependent in part on the effectiveness and efficiency of our advertising and promotional expenditures, including our ability to (i) create greater awareness of our products, (ii) determine the appropriate creative message and media mix for future advertising expenditures, and (iii) effectively manage advertising and promotional costs in order to maintain acceptable operating margins. There can be no assurance that we will experience benefits from advertising and promotional expenditures in the future. In addition, no assurance can be given that our planned advertising and promotional expenditures will result in increased revenues, will generate levels of service and name awareness or that we will be able to manage such advertising and promotional expenditures on a cost-effective basis.

Our success is dependent on our unproven ability to attract qualified personnel.

We depend on our ability to attract, retain and motivate our management team, consultants and advisors. There is strong competition for qualified technical and management personnel in the business sector, and it is expected that such competition will increase. Our planned growth will place increased demands on our existing resources and will likely require the addition of technical personnel and the development of additional expertise by existing personnel. There can be no assurance that our compensation packages will be sufficient to ensure the continued availability of qualified personnel who are necessary for the development of our business.

We have a limited operating history with losses and we expect the losses to continue, which raises concerns about our ability to continue as a going concern.

We have generated minimal revenues since our inception and will, in all likelihood, continue to incur operating expenses with minimal revenues until we are able to successfully develop our business. Our business plan will require us to incur further expenses. We may not be able to ever become profitable. These circumstances raise concerns about our ability to continue as a going concern. We have a limited operating history and must be considered in the start-up stage.

There is an explanatory paragraph to their audit opinion issued in connection with the financial statements for the year ended August 31, 2016 with respect to their doubt about our ability to continue as a going concern. As discussed in Note 2 to our financial statements for the year ended August 31, 2016, we have incurred a net loss of \$525,501 for the year ended August 31, 2016 (net loss \$1,149,433 for the year ended August 31, 2015) and as at August 31, 2016 has incurred cumulative losses of \$12,440,597 that raises substantial doubt about its ability to continue as a going concern. Our management has been able, thus far, to finance the operations through equity financing and cash on hand. There is no assurance that our company will be able to continue to finance our company on this basis

Without additional financing to develop our business plan, our business may fail.

Because we have generated only minimal revenue from our business and cannot anticipate when we will be able to generate meaningful revenue from our business, we will need to raise additional funds to conduct and grow our business. We do not currently have sufficient financial resources to completely fund the development of our business plan. We anticipate that we will need to raise further financing. We do not currently have any arrangements for financing and we can provide no assurance to investors that we will be able to find such financing if required. The most likely source of future funds presently available to us is through the sale of equity capital. Any sale of share capital will result in dilution to existing security-holders.

We may not be able to obtain all of the licenses necessary to operate our business, which would cause our business to fail.

Our operations require licenses and permits from various governmental authorities related to the establishment of our planned facilities, to the production, storage and distribution of our products, and to the disposal of waste. We believe that we will be able to obtain all necessary licenses and permits under applicable laws and regulations for our operations and believe we will be able to comply in all material respects with the terms of such licenses and permits. However, such licenses and permits are subject to change in various circumstances. There can be no guarantee that we will be able to obtain or maintain all necessary licenses and permits.

Changes in health and safety regulation may result in increased or insupportable financial burden on our company.

We believe that we currently comply with existing laws and regulations affecting our product and operations. While there are no currently known proposed changes in these laws or regulations, significant changes have affected the industry in the past and additional changes may occur in the future.

Our products and operations may be subject to unanticipated regulations and rules promulgated from time to time by government, namely those related to consumer health and safety which may render certain production methods, ingredients, products or practices obsolete. The cost of compliance with changes in governmental regulations has potential to reduce the viability or profitability of our products or operations.

If we are unable to recruit or retain qualified personnel, it could have a material adverse effect on our operating results and stock price.

Our success depends in large part on the continued services of our executive officers and third party relationships. We currently do not have key person insurance on these individuals. The loss of these people, especially without advance notice, could have a material adverse impact on our results of operations and our stock price. It is also very important that we be able to attract and retain highly skilled personnel, including technical personnel, to accommodate our exploration plans and to replace personnel who leave. Competition for qualified personnel can be intense, and there are a limited number of people with the requisite knowledge and experience. Under these conditions, we could be unable to recruit, train, and retain employees. If we cannot attract and retain qualified personnel, it could have a material adverse impact on our operating results and stock price.

If we fail to effectively manage our growth our future business results could be harmed and our managerial and operational resources may be strained.

As we proceed with our business plan, we expect to experience significant and rapid growth in the scope and complexity of our business. We will need to add staff to market our services, manage operations, handle sales and marketing efforts and perform finance and accounting functions. We will be required to hire a broad range of additional personnel in order to successfully advance our operations. This growth is likely to place a strain on our management and operational resources. The failure to develop and implement effective systems, or to hire and retain sufficient personnel for the performance of all of the functions necessary to effectively service and manage our potential business, or the failure to manage growth effectively, could have a materially adverse effect on our business and financial condition.

Risks Associated with the Shares of Our Company

Because we do not intend to pay any dividends on our shares, investors seeking dividend income or liquidity should not purchase our shares.

We have not declared or paid any dividends on our shares since inception, and do not anticipate paying any such dividends for the foreseeable future. We presently do not anticipate that we will pay dividends on any of our common stock in the foreseeable future. If payment of dividends does occur at some point in the future, it would be contingent upon our revenues and earnings, if any, capital requirements, and general financial condition. The payment of any common stock dividends will be within the discretion of our Board of Directors. We presently intend to retain all earnings to implement our business plan; accordingly, we do not anticipate the declaration of any dividends for common stock in the foreseeable future.

Investors seeking dividend income or liquidity should not invest in our shares.

Because we can issue additional shares, purchasers of our shares may incur immediate dilution and may experience further dilution.

We are authorized to issue up to 200,000,000 shares. The board of directors of our company has the authority to cause us to issue additional shares, and to determine the rights, preferences and privileges of such shares, without consent of any of our stockholders. Consequently, our stockholders may experience more dilution in their ownership of our company in the future.

Other Risks

Trading on the OTCQB and CSE may be volatile and sporadic, which could depress the market price of our common stock and make it difficult for our stockholders to resell their shares.

Our common stock is quoted on the OTCQB electronic quotation service operated by OTC Markets Group Inc.. Trading in stock quoted on the OTCQB is often thin and characterized by wide fluctuations in trading prices, due to many factors that may have little to do with our operations or business prospects. This volatility could depress the market price of our common stock for reasons unrelated to operating performance. Moreover, the OTCQB is not a stock exchange, and trading of securities on the OTCQB is often more sporadic than the trading of securities listed on a quotation system like Nasdaq or a stock exchange like Amex. Accordingly, shareholders may have difficulty reselling any of the shares.

Our stock is a penny stock. Trading of our stock may be restricted by the Securities and Exchange Commission's penny stock regulations which may limit a stockholder's ability to buy and sell our stock.

Our stock is a penny stock. The Securities and Exchange Commission has adopted Rule 15c-2-07 which generally defines "penny stock" to be any equity security that has a market price (as defined) less than \$5.00 per share or an exercise price of less than \$5.00 per share, subject to certain exceptions. Our securities are covered by the penny stock rules, which impose additional sales practice requirements on broker-dealers who sell to persons other than established customers and accredited investors. The term "accredited investor" refers generally to institutions with assets in excess of \$5,000,000 or individuals with a net worth in excess of \$1,000,000 or annual income exceeding \$200,000 or \$300,000 jointly with their spouse. The penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document in a form prepared by the Securities and Exchange Commission which provides information about penny stocks and the nature and level of risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker-dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. In addition, the penny stock rules require that prior to a transaction in a penny stock not otherwise exempt from these rules, the broker-dealer must make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for the stock that is subject to these penny stock rules. Consequently, these penny stock rules may affect the ability of broker-dealers to trade our securities. We believe that the penny stock rules discourage investor interest in and limit the marketability of our common stock.

The Financial Industry Regulatory Authority, or FINRA, has adopted sales practice requirements which may also limit a stockholder's ability to buy and sell our stock.

In addition to the "penny stock" rules described above, FINRA has adopted rules that require that in recommending an investment to a customer, a broker-dealer must have reasonable grounds for believing that the investment is suitable

for that customer. Prior to recommending speculative low priced securities to their non-institutional customers, broker-dealers must make reasonable efforts to obtain information about the customer's financial status, tax status, investment objectives and other information. Under interpretations of these rules, FINRA believes that there is a high probability that speculative low priced securities will not be suitable for at least some customers. FINRA requirements make it more difficult for broker-dealers to recommend that their customers buy our common stock, which may limit your ability to buy and sell our stock and have an adverse effect on the market for our shares.

We believe that our operations comply, in all material respects, with all applicable environmental regulations.

Our operating partners maintain insurance coverage customary to the industry; however, we are not fully insured against all possible environmental risks.

Any change to government regulation/administrative practices may have a negative impact on our ability to operate and our profitability.

The laws, regulations, policies or current administrative practices of any government body, organization or regulatory agency in the United States, Canada, or any other jurisdiction, may be changed, applied or interpreted in a manner which will fundamentally alter the ability of our company to carry on our business.

The actions, policies or regulations, or changes thereto, of any government body or regulatory agency, or other special interest groups, may have a detrimental effect on us. Any or all of these situations may have a negative impact on our ability to operate and/or our profitability.

Because we can issue additional shares, purchasers of our shares may incur immediate dilution and may experience further dilution.

We are authorized to issue up to 200,000,000 shares. The board of directors of our company has the authority to cause us to issue additional shares, and to determine the rights, preferences and privileges of such shares, without consent of any of our stockholders. Consequently, our stockholders may experience more dilution in their ownership of our company in the future.

Our by-laws contain provisions indemnifying our officers and directors against all costs, charges and expenses incurred by them.

Our by-laws contain provisions with respect to the indemnification of our officers and directors against all costs, charges and expenses, including an amount paid to settle an action or satisfy a judgment, actually and reasonably incurred by him, including an amount paid to settle an action or satisfy a judgment in a civil, criminal or administrative action or proceeding to which he is made a party by reason of his being or having been one of our directors or officers.

Investors' interests in our company will be diluted and investors may suffer dilution in their net book value per share if we issue additional shares or raise funds through the sale of equity securities.

Our constituting documents authorize the issuance of 200,000,000 shares of common stock with a par value of \$0.001. In the event that we are required to issue any additional shares or enter into private placements to raise financing through the sale of equity securities, investors' interests in our company will be diluted and investors may suffer dilution in their net book value per share depending on the price at which such securities are sold. If we issue any such additional shares, such issuances also will cause a reduction in the proportionate ownership and voting power of all other shareholders. Further, any such issuance may result in a change in our control.

Our by-laws do not contain anti-takeover provisions, which could result in a change of our management and directors if there is a take-over of our company.

We do not currently have a shareholder rights plan or any anti-takeover provisions in our By-laws. Without any anti-takeover provisions, there is no deterrent for a take-over of our company, which may result in a change in our management and directors.

As a result of a majority of our directors and officers are residents of other countries other than the United States, investors may find it difficult to enforce, within the United States, any judgments obtained against our company or our directors and officers.

Other than our operations offices in Vancouver and Kelowna, British Columbia, we do not currently maintain a permanent place of business within the United States. In addition, a majority of our directors and officers are nationals and/or residents of countries other than the United States, and all or a substantial portion of such persons' assets are located outside the United States. As a result, it may be difficult for investors to enforce within the United States any judgments obtained against our company or our officers or directors, including judgments predicated upon the civil liability provisions of the securities laws of the United States or any state thereof.

Trends, risks and uncertainties.

We have sought to identify what we believe to be the most significant risks to our business, but we cannot predict whether, or to what extent, any of such risks may be realized nor can we guarantee that we have identified all possible risks that might arise such as a black swan event. An absolute worst case scenario with sufficient potential impact to risk the future of the company as an independent business operating in its chosen markets. Significant reputational impact as a result of a major issue resulting in multiple fatalities, possibly compounded by apparently negligent management behavior; extreme adverse press coverage and viral social media linking the Company name to consumer brands, leads to a catastrophic share price fall, very significant loss of consumer confidence and inability to retain and recruit quality people. Investors should carefully consider all of such risk factors before making an investment decision with respect to our common shares.

Equity Compensation Plan Information

We have no long-term incentive plans other than the stock option plan described below:

2007 Equity Compensation Plan

On April 25, 2007, our shareholders approved and adopted the 2007 equity incentive plan. The purpose of the Plan is to secure for our company and our shareholders the benefits of incentive inherent in share ownership by the directors and employees of our company and our Affiliates who, in the judgment of our board, will be largely responsible for our company's future growth and success. It is generally recognized that equity incentive plans of the nature provided for herein aid in retaining and encouraging directors and employees of exceptional ability because of the opportunity offered them to acquire a proprietary interest in our company.

The maximum number of Options available under the Plan, are for the issuance of up to 1,000,000 shares of common stock of our company.

On December 14, 2007, we granted 892,500 post share consolidation stock options to directors, officers, and consultants of our company exercisable at a price of \$0.70 per share for a period of 5 years. On October 22, 2009, we modified the exercise price of these stock options to \$0.20 per share. The vesting dates of the options are as below:

Vesting Dates	Percentage of options granted
December 14, 2007	25%
December 14, 2008	25%
December 14, 2009	25%
December 14, 2010	25%

On October 22, 2009, we granted an additional 500,000 stock options to our directors and consultants. The exercise price of the stock options is \$0.10 per share, which are vested immediately and expire October 22, 2014. This plan was rolled into the 2011 Stock Option Plan as approved by our shareholders on April 14, 2011.

2010 Equity Compensation Plan

On February 5, 2010, our shareholders approved and adopted the 2010 equity incentive plan. The purpose of the 2010 Plan is to enhance the long-term stockholder value of our company by offering opportunities to our directors, officers, employees and eligible consultants to acquire and maintain stock ownership in our company in order to give these persons the opportunity to participate in our growth and success, and to encourage them to remain in our service.

Options that are eligible for grant under the 2010 Plan to Participants include: (a) incentive stock options, whereby we will grant options to purchase shares of our common stock to Participants with the intention that the options qualify as "incentive stock options" as that term is defined in Section 422 of the Internal Revenue Code; (b) non-incentive stock options, whereby we will grant options to purchase shares of our common stock to Participants that do not qualify as "incentive stock options" under the Internal Revenue Code; (c) stock appreciation rights; and (d) restricted shares. The 2010 Plan provides that a maximum of Two Million (2,000,000) shares of common stock are available for granting of awards under the 2010 Plan.

This plan was rolled into the 2011 Stock Option Plan as approved by our shareholders on April 14, 2011.

2011 Stock Option Plan

On April 14, 2011, our shareholders approved and adopted at the Annual General Meeting to roll our 2007 Equity compensation plan and our 2010 Equity Compensation Plan into a new 2011 Stock Option Plan. The purpose of this Plan is to advance the interests of our company, through the grant of Options, by providing an incentive mechanism to foster the interest of eligible persons in the success of our company and our affiliates; encouraging eligible persons to remain with our company or our affiliates; and attracting new directors, officers, employees and consultants.

This Plan shall be administered by our board. Subject to the provisions of this Plan, our board shall have the authority: to determine the Eligible Persons to whom Options are granted, to grant such Options, and to determine any terms and conditions, limitations and restrictions in respect of any particular Option grant, including but not limited to the nature and duration of the restrictions, if any, to be imposed upon the acquisition, sale or other disposition of shares of common stock acquired upon exercise of the Option, and the nature of the events and the duration of the period, if any, in which any Participant's rights in respect of an Option or shares of common stock acquired upon exercise of an Option may be forfeited; to interpret the terms of this Plan, to make all such determinations and take all such other actions in connection with the implementation, operation and administration of this Plan, and to adopt, amend and rescind such administrative guidelines and other rules and regulations relating to this Plan, as it shall from time to time deem advisable, including without limitation for the purpose of ensuring compliance with Section legislation hereof. Our board's interpretations, determinations, guidelines, rules and regulations shall be conclusive and binding upon our company, Eligible Persons, Participants and all other persons.

The aggregate number of Common Shares that may be reserved, allotted and issued pursuant to Options shall not exceed 4,720,348 shares of common stock, less the aggregate number of shares of common stock then reserved for issuance pursuant to any other share compensation arrangement. For greater certainty, if an Option is surrendered, terminated or expires without being exercised, the Common Shares reserved for issuance pursuant to such Option shall be available for new Options granted under this Plan.

2014 Stock Option Plan

On July 15, 2014, the shareholders approved and adopted at the Annual General Meeting the Company's 2014 Stock Option Plan. The purpose of these Plan is to advance the interests of the Corporation, through the grant of Options, by providing an incentive mechanism to foster the interest of eligible persons in the success of the Corporation and its affiliates; encouraging eligible persons to remain with the Corporation or its affiliates; and attracting new Directors, Officers, Employees and Consultants.

This Plan shall be administered by our board. Subject to the provisions of this Plan, our board shall have the authority: to determine the Eligible Persons to whom Options are granted, to grant such Options, and to determine any terms and conditions, limitations and restrictions in respect of any particular Option grant, including but not limited to the nature and duration of the restrictions, if any, to be imposed upon the acquisition, sale or other disposition of shares of common stock acquired upon exercise of the Option, and the nature of the events and the duration of the period, if any, in which any Participant's rights in respect of an Option or shares of common stock acquired upon exercise of an Option may be forfeited; to interpret the terms of this Plan, to make all such determinations and take all such other actions in connection with the implementation, operation and administration of this Plan, and to adopt, amend and rescind such administrative guidelines and other rules and regulations relating to this Plan, as it shall from time to time deem advisable, including without limitation for the purpose of ensuring compliance with Section legislation hereof. Our board's interpretations, determinations, guidelines, rules and regulations shall be conclusive and binding upon our company, Eligible Persons, Participants and all other persons.

The aggregate number of Common Shares that may be reserved, allotted and issued pursuant to Options shall not exceed 17,400,000 shares of common stock, less the aggregate number of shares of common stock then reserved for issuance pursuant to any other share compensation arrangement. For greater certainty, if an Option is surrendered, terminated or expires without being exercised, the Common Shares reserved for issuance pursuant to such Option shall be available for new Options granted under this Plan.

The Board may amend, subject to the approval of any regulatory authority whose approval is required, suspend or terminate this Plan or any portion thereof. No such amendment, suspension or termination shall alter or impair any outstanding unexercised Options or any rights without the consent of such Participant. If this Plan is suspended or terminated, the provisions of this Plan and any administrative guidelines, rules and regulations relating to this Plan shall continue in effect for the duration of such time as any Option remains outstanding.

As at the date of the annual report, there was nil stock options exercised except for those disclosed in the regulatory filings and in the notes to the financial statements.

We did not purchase any of our shares of common stock or other securities during our fiscal year ended August 31, 2016.

Item 6. Selected Financial Data

As a smaller reporting company, we are not required to provide the information required by this Item.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with our audited financial statements and the related notes that appear elsewhere in this annual report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward looking statements. Factors that could cause or contribute to such differences include, but are not limited to; those discussed below and elsewhere in this annual report, particularly in the section entitled Risk Factors beginning on page 10 of this annual report.

Our audited financial statements are stated in United States Dollars and are prepared in accordance with United States Generally Accepted Accounting Principles.

Plan of Operation

During the next twelve month period (beginning September 1, 2016), we intend to:

- identify and secure sources of equity and/or debt financing for property payments;
- identify and secure sources of equity and/or debt financing for resource acquisitions;
- identify and secure sources of equity and/or debt financing for pilot testing for Lithium technology

We anticipate that we will incur the following operating expenses during this period:

Estimated Funding Required During the 12 Months beginning September 1, 2016	
Expense	Amount (\$)
Mineral Costs	70,000
Bench Tests for Lithium Technology	15,000
Resource Acquisitions	50,000
Management Consulting Fees	175,000
Professional fees	100,000
Rent	24,000
Other general administrative expenses	75,000
Total	\$ 509,000

As at the date of this annual report, we do not have sufficient cash on hand to finance our entire potential and estimated \$509,000 cash obligation to the proposed spending for the 12 months beginning September 1, 2016. Based on our current cash position of \$31,034, we anticipate that we will require \$480,000 in additional cash to execute our business plan. In the event that we are unable raise sufficient cash we intend to reduce our planned expenditures to accommodate our means with a view toward prioritizing revenue generating activity and fulfilling our public reporting obligations. As at the date of this registration statement we have no financing arrangements in place.

Results of Operations for our Years Ended August 31, 2016 and 2015

Our net loss and comprehensive loss for our year ended August 31, 2016, for our year ended August 31, 2015 and the changes between those periods for the respective items are summarized as follows:

	Year Ended August 31, 2016	Year Ended August 31, 2015	Change Between Year Ended August 31, 2016 and Year Ended August 31, 2015
	\$	\$	\$
Revenue	\$ (14,315)	\$ (8,632)	\$ (5,683)
Cost of Goods Sold	8,335	3,796	4,539
Other (income)expenses	52,992	(94,947)	147,939
General and administrative	478,489	1,249,216	(770,727)
Bank charges and interest	6,780	2,108	4,672
Exploration Costs	11,437	Nil	11,437
Impairment of long- term investments	22,181	6,270	15,911
Consulting fees	234,011	752,319	(518,308)
Professional Fees	76,869	90,612	(13,743)
Net Income (loss)	(525,501)	(1,149,433)	623,932

Other Income and Revenue

The increase in revenue for year ended August 31, 2016, relates to the sales for the new product V-Love that entered the retail market in May 2015. Other income is consistent with prior year. The decrease in other (income) expenses of \$52,992 relates to the write down of the V-Love inventory, losses from sale of Lexaria shares and the decrease in market value of Pro Eco shares compared to the other income of \$94,947 for year ended August 31, 2015, relates to the cancellation of The Green Canvas Joint Venture with common shares of the Company being returned back to treasury and cancelled.

General and Administrative

Our general and administrative expenses were lower by \$770,727 for our year ended August 31, 2016 compared to August 31, 2015. The decrease in costs were largely due non-renewal of consulting contracts by \$518,308. In addition the Company decreased costs of \$167,360 for advertising, \$24,786 for investor relations, \$49,999 for rent, \$13,209 for travel and \$13,743 in professional fees for the year ended August 31, 2016. These decreased costs are due to the Company s termination of the joint ventures and the Company s efforts in reducing costs.

Professional Fees

There was a decrease in accounting and legal fees for our year ended August 31, 2016 by \$13,743 compared to the prior year due to financings, registration statements and additional legal advice.

Interest Expense

There was a slight increase in interest expense for our year ended August 31, 2016 by \$4,672 compared to the prior year. This amount includes foreign exchange differences which is the reason for the slight increase in this amount.

Exploration Costs

There were exploration costs of \$11,437 for our year ended August 31, 2016 compared to prior year. This is from the Nevada Lithium properties that the Company has acquired.

Consulting Fees

There was a decrease in consulting fees for the year ended August 31, 2016 compared to August 31, 2015 by \$518,308. This was largely due to non-renewal of consulting agreements and the termination of various joint ventures. The Company has entered into various joint venture agreements, advisor and consulting agreements which led to the increased costs in 2015.

Cash flows from financing activities	232,603	98,237
Net increase (decrease) in cash during year	\$ (53,123)	(803,965)

Operating Activities

Net cash used in operating activities was \$384,327 for our year ended August 31, 2016 compared with cash used in operating activities of \$905,202 in 2015. The decrease in net cash used in operating activities is due to our Company decrease in prepaid expenses and joint venture agreement terminations compared to August 31, 2015.

Investing Activities

Net cash provided from investing activities was \$98,601 for our year ended August 31, 2016 compared to net cash provided in investing activities of \$3,000 in the same period in 2015. The increase is from the sale of marketable securities.

Financing Activities

Net cash provided by financing activities was \$232,603 for our year ended August 31, 2016 compared to \$98,237 in the same period in 2015. This increase is primarily due to increased financings compared to the prior year end.

Contractual Obligations

As a smaller reporting company, we are not required to provide tabular disclosure obligations.

Going Concern

Our financial statements have been prepared in accordance with accounting principles generally accepted in the United States applicable to a going concern, which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. We have a net loss of \$525,501 for the year ended August 31, 2016 [2015 net loss of \$1,149,433] and at August 31, 2016 had a deficit accumulated during the exploration stage of \$12,440,597 [2015 \$11,915,096]. We generated revenue of \$14,315 for the year ended August 31, 2016 [2015 - \$8,632]. We have working capital deficit of \$232,387 as at August 31, 2016 [2015 working capital surplus \$18,890]. We require additional funds to maintain our existing operations and to acquire new business assets. These conditions raise substantial doubt about our Company's ability to continue as a going concern. Management's plans in this regard are to raise equity and debt financing as required, but there is no certainty that such financing will be available or that it will be available at acceptable terms. The outcome of these matters cannot be predicted at this time and the financing environment is exceptionally difficult.

These financial statements do not include any adjustments to reflect the future effects on the recoverability and classification of assets or the amounts and classification of liabilities that might result from the outcome of this uncertainty.

At this time, we cannot provide investors with any assurance that we will be able to raise sufficient funding from the sale of our common stock or through a loan from our directors to meet our obligations over the next twelve months. We do not have any arrangements in place for any future debt or equity financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with the accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our

financial statements.

Recent Accounting Pronouncements

In March 2016, the FASB issued guidance which simplifies several aspects of accounting for share-based payment award transactions including income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. The guidance is effective for the Company in the first quarter of fiscal 2018 and earlier adoption is permitted. The Company is evaluating the impact of adopting this new accounting guidance on its financial statements.

In June 2016, the Financial Accounting Standards Board (FASB) issued guidance that changes the accounting for recognizing impairments of financial assets. Under the new guidance, credit losses for certain types of financial instruments will be estimated based on expected losses. The new guidance also modifies the impairment models for available for-sale debt securities and for purchased financial assets with credit deterioration since their origination. The guidance is effective for the Company in the first quarter of fiscal 2021 and earlier adoption is permitted. The Company is evaluating the impact of adopting this new accounting guidance on its financial statements.

In May 2015, the FASB issued guidance to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value per share practical expedient. The guidance is effective for the Company in the first quarter of fiscal 2017 and early adoption is permitted. The guidance will have no impact on the Company's balance sheets or statements of operations or cash flows.

As a smaller reporting company, we are not required to provide the information required by this Item.

Item 8. Financial Statements and Supplementary Data

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

Enertopia Corp.

We have audited the balance sheets of Enertopia Corp. (the Company) (formerly Golden Aria Corp.) as at August 31, 2016 and 2015 and the related statements of stockholders' equity, operations and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstance, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as at August 31, 2016 and 2015 and the results of their operations and their cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements referred to above have been prepared assuming the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company incurred losses from operations since inception, has not attained profitable operations and is dependent upon obtaining adequate financing to fulfill its operating activities. These factors raise substantial doubt about the Company's ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

ENERTOPIA CORP.
(A Development Stage Company)
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
August 31, 2016
(Expressed in U.S. Dollars)

1. ORGANIZATION

The Company was formed on November 24, 2004 under the laws of the State of Nevada and commenced operations on November 24, 2004. The Company was an independent natural resource company engaged in the exploration, development and acquisition of natural resources in the United States and Canada. In the fiscal year 2010, the Company shifted its strategic plan from its non-renewal energy operations to its planned renewal energy operations and natural resource acquisition and development. In late summer of 2013, the Company had another business sector in alternative health and wellness. During spring of 2016, the Company shifted its strategic plan to natural resource acquisitions and Lithium brine extraction technology. The Company has offices in Vancouver and Kelowna, B.C., Canada.

2. GOING CONCERN UNCERTAINTY

The accompanying financial statements have been prepared on a going concern basis which contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business for the foreseeable future. The Company had a working capital deficit of \$232,387 for the year ended August 31, 2016 [surplus of \$18,890 for year ended August 31, 2015]. The Company incurred a net loss of \$525,501 for the year ended August 31, 2016 [net loss \$1,149,433 for the year ended August 31, 2015] and as at August 31, 2016 has incurred cumulative losses of \$12,440,597 that raises substantial doubt about its ability to continue as a going concern. Management has been able, thus far, to finance the operations through equity financing and cash on hand. There is no assurance that the Company will be able to continue to finance the Company on this basis.

In view of these conditions, the ability of the Company to continue as a going concern is in substantial doubt and dependent upon its ability to generate sufficient cash flow to meet its obligations on a timely basis, to obtain additional financing as may be required, to receive the continued support of the Company's shareholders, and ultimately to obtain successful operations. There are no assurances that the Company will be able to obtain further funds required for its continued operations. As noted herein, the Company is pursuing various financing alternatives to meet its immediate and long-term financial requirements. There can be no assurance that additional financing will be available to the Company when needed or, if available, that it can be obtained on commercially reasonable terms. If the Company is not able to obtain the additional financing on a timely basis, it will be unable to conduct its operations as planned, and it will not be able to meet its other obligations as they become due. In such event, the Company will be forced to scale down or perhaps even cease its operations. There is significant uncertainty as to whether the Company can obtain additional financing. These financial statements do not give effect to any adjustments which would be necessary should the Company be unable to continue as a going concern and therefore be required to realize its assets and discharge its liabilities in other than the normal course of business and at amounts different from those reflected in the accompanying financial statements.

3. SIGNIFICANT ACCOUNTING POLICIES

a) Basis of Presentation

The accompanying financial statements have been prepared in accordance with U.S. generally accepted accounting principles.

b) Revenue Recognition

The Company recognizes revenue from product sales when persuasive evidence of an arrangement exists, title to product and associated risk of loss has passed to the customer, the price is fixed or determinable, collection from the customer is reasonably assured, the Company has no further performance obligation, and returns can be reasonably estimated.

c) Cash and Cash Equivalents

Cash equivalents comprise certain highly liquid instruments with a maturity of three months or less when purchased. As of August 31, 2016 and 2015, cash and cash equivalents consist of cash only.

d) Marketable Securities

Marketable securities are classified at fair value through profit (loss). They consist of equities which are all traded in the public markets. Marketable securities are recorded at fair value, with changes to fair value recorded in profit or loss.

e) Inventories and Cost of Sales

The Company has two major classes of inventory: finished goods and raw materials. In both classes, inventory is valued at the lower of cost or market. Cost is determined on a first-in, first-out basis. Cost of sales includes all expenditures incurred in bringing the goods to the point of sale. Inventory costs and costs of sales include direct costs of the raw material, inbound freight charges, warehousing costs, handling costs (receiving and purchasing) and utilities and processing costs charged by third parties.

f) Investments in Affiliated Companies Accounted for Using the Equity Method

Investments in equity method investees are accounted for using the equity method based upon the level of ownership and/or the Company's ability to exercise significant influence over the operating and financial policies of the investee. Investments of this nature are recorded at original cost and adjusted periodically to recognize the Company's proportionate share of the investees' net income or losses after the date of investment. When net losses from and investment accounted for under the equity method exceeds its carrying amount, the investment balance is reduced to zero. The Company resumes accounting for the investment under the equity method if the entity subsequently reports net income and the Company's share of that net income exceed the share of the net losses not recognized during the period the equity method was suspended. Investments are written down only when there is clear evidence that a decline in value that is other than temporary has occurred. When an investment accounted for using the equity method issues its own shares, the subsequent reduction in the Company's proportionate interest in the investee is reflected in income as a deemed dilution gain or loss on disposition. The Company evaluates its investments in companies accounted for the equity or cost method for impairment when there is evidence or indicators that a decrease in value may be other than temporary.

g) Long term investments

Other long term investments for which the Company has not have the ability to exercise significant influence and for which there is not a readily determinable market value are accounted for under the cost method of accounting, such that they are recorded at the lower of cost or estimated net realizable value. Management periodically reviews the cost method investments for instances where fair value is less than the carrying amount and the decline in value is determined to be other than temporary. If the decline in value is judged to be other than temporary, the carrying amount of the security is written down to fair value and the resulting loss is charged to operations.

h) Mineral Properties

Acquisition costs of mineral rights are initially capitalized as incurred while exploration and pre-extraction expenditures are expensed as incurred until such time proven or probable reserves are established for that project. Acquisition costs include cash consideration and the fair market value of shares issued on the acquisition of mineral properties.

Expenditures relating to exploration activities are expensed as incurred and expenditures relating to pre-extraction activities are expensed as incurred until such time proven or probable reserves are established for that project, after which subsequent expenditures relating to development activities for that particular project are capitalized as incurred.

Where proven and probable reserves have been established, the project's capitalized expenditures are depleted over proven and probable reserves using the units-of-production method upon commencement of production. Where proven and probable reserves have not been established, the project's capitalized expenditures are depleted over the estimated extraction life using the straight-line method upon commencement of extraction. The Company has not established proven or probable reserves for any of its projects.

The carrying values of the mineral rights are assessed for impairment by management on a quarterly basis and as required whenever indicators of impairment exist. An impairment loss is recognized if it is determined that the carrying value is not recoverable and exceeds fair value.

i) Stock-Based Compensation

The Company followed Accounting Standards Codification (ASC) 718, *Compensation - Stock Compensation* , to account for its stock options and similar equity instruments issued. Accordingly, compensation costs attributable to stock options or similar equity instruments granted are measured at the fair value at the grant date, and expensed over the expected vesting period. ASC 718 requires excess tax benefits be reported as a financing cash inflow rather than as a reduction of taxes paid.

j) Accounting Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates and assumptions.

k) Loss Per Share

Loss per share is computed using the weighted average number of shares outstanding during the period. The Company has adopted ASC 220 *Earnings Per Share*. Diluted loss per share is equivalent to basic loss per share because the potential exercise of the equity-based financial instruments was anti-dilutive.

m) Foreign Currency Translations

The Company's operations are located in the United States of America and it has offices in Canada. The Company maintains its accounting records in U.S. Dollars, as follows:

At the transaction date, each asset, liability, revenue and expense that was acquired or incurred in a foreign currency is translated into U.S. dollars by the using of the exchange rate in effect at that date. At the year end, monetary assets and liabilities are translated at the exchange rate in effect at that date. The resulting foreign exchange gains and losses are included in operations.

n) Financial Instruments

ASC 820 *Fair Value Measurements and Disclosures* requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets or liabilities;

Level 2 - Inputs other than quoted prices included within Level 1 that are either directly or indirectly observable; and

Level 3 - Unobservable inputs that are supported by little or no market activity, therefore requiring an entity to develop its own assumptions about the assumptions that market participants would use in pricing.

The Company's financial instruments consist primarily of cash and cash equivalents, marketable securities, accounts receivable, accounts payable and due to related parties. With the exception of marketable securities, the carrying amounts of these financial instruments approximate their fair values due to their short maturities. The fair value of marketable securities are measured based on quoted prices in active markets. Cash and cash equivalents and marketable securities were in level 1 within the fair value hierarchy.

The Company's operations are in United States of America and Canada, which results in exposure to market risks from changes in foreign currency rates. The financial risk is the risk to the Company's operations that arise from fluctuations in foreign exchange rates and the degree of volatility of these rates. Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk.

o) Income Taxes

The Company has adopted ASC 740, *Income Taxes*, which requires the Company to recognize deferred tax liabilities and assets for the expected future tax consequences of events that have been recognized in the Company's financial statements or tax returns using the liability method. Under this method, deferred tax liabilities and assets are determined based on the temporary differences between the financial statement and tax bases of assets and liabilities using enacted tax rates in effect in the year in which the differences are expected to reverse. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in the period that includes the enactment date. In addition, a valuation allowance is established to reduce any deferred tax asset for which it is determined that it is more likely than not that some portion of the deferred tax asset will not be realized.

p) Long-Lived Assets Impairment

In accordance with ASC 360, *Accounting for Impairment or Disposal of Long Lived Assets*, the carrying value of long lived assets are tested for recoverability whenever events or changes in circumstances indicate that its carrying amount may not be recoverable. The Company recognizes impairment when the sum of the expected undiscounted future cash flows is less than the carrying amount of the asset. Impairment losses, if any, are measured as the excess of the carrying amount of the asset over its estimated fair value.

q) Asset Retirement Obligations

The Company accounts for asset retirement obligations in accordance with the provisions of *ASC 410, Asset Retirement and Environmental Obligations*. ASC 410 requires the Company to record the fair value of an asset retirement obligation as a liability in the period in which it incurs a legal obligation associated with the retirement of tangible long-lived assets that result from the acquisition, construction, development and/or normal use of the assets. The management of the Company had estimated the asset retirement obligation to be immaterial and therefore was not reflected on the financial statements as of August 31, 2016 and 2015.

r) Comprehensive Income

The Company has adopted ASC 220, *Comprehensive Income*, which establishes standards for reporting and display of comprehensive income, its components and accumulated balances. The Company is disclosing this information on its Statement of Stockholders' Equity. Comprehensive income comprises equity except those transactions resulting from investments by owners and distributions to owners.

s) Concentration of credit risk

The Company places its cash and cash equivalent with high credit quality financial institution. As of August 31, 2016, the Company had \$218 in a bank beyond insured limit (August 31, 2015: \$65,132).

t) Recently Adopted Accounting Pronouncements

In June 2014, ASU guidance was issued to resolve the diversity of practice relating to the accounting for stock-based performance awards for which the performance target could be achieved after the employee completes the required service period. Adoption of the new guidance, effective for the fiscal year beginning September 1, 2015, had no impact on the Company's balance sheets or statements of operations or cash flows.

u) New Accounting Pronouncements

In March 2016, the FASB issued guidance which simplifies several aspects of accounting for share-based payment award transactions including income tax consequences, classification of awards as either equity or liabilities and classification on the statement of cash flows. The guidance is effective for the Company in the first quarter of fiscal 2018 and earlier adoption is permitted. The Company is evaluating the impact of adopting this new accounting guidance on its financial statements.

In June 2016, the FASB issued guidance that changes the accounting for recognizing impairments of financial assets. Under the new guidance, credit losses for certain types of financial instruments will be estimated based on expected losses. The new guidance also modifies the impairment models for available-for-sale debt securities and for purchased financial assets with credit deterioration since their origination.

The guidance is effective for the Company in the first quarter of fiscal 2021 and earlier adoption is permitted. The Company is evaluating the impact of adopting this new accounting guidance on its financial statements.

In May 2015, the FASB issued guidance to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using net asset value per share practical expedient. The guidance is effective for the Company in the first quarter of fiscal 2017 and early adoption is permitted. The guidance will have no impact on the Company's balance sheets or statements of operations or cash flows.

In August 2014, the FASB issued guidance on how to account for and disclose going concern risk. The guidance is effective for the Company in the second quarter of fiscal 2017 and earlier adoption is permitted. The Company is evaluating the impact of adopting this new accounting guidance on its financial statements.

4. MARKETABLE SECURITIES

As at August 31, 2016 marketable securities consist of 156,500 common shares of Lexaria Corp. obtained through Definitive Agreements as that was signed on March 5, 2014. The Company classified the securities owned as held-for-trade and recorded at fair value.

The fair value of the common shares of Lexaria Corp. was \$0.12 per share as at August 31, 2016 (2015: \$0.18 per share).

During the year ended August 31, 2016, the Company disposed of 833,500 (2015: 10,000) common shares of Lexaria Corp. with a cost basis of \$153,815 (2015: \$1,200). The proceeds from the sales of shares were \$117,601 (2015: \$2,167). Accordingly, a realized loss of \$36,216 (2015: realized gain of \$967) was recognized in profit or loss. Another impairment charge of \$3,750 (2015: \$nil) was recorded for the year ended August 31, 2016 for the remaining of 375,000 common shares of Cheetah Oil & Gas Ltd., with a cost basis of \$3,750.

5. LONG TERM INVESTMENTS

Global Solar Water Power Systems Inc.

On February 28, 2010, the Company entered into an Asset and Share Purchase Agreement with the Company's former chief technical officer - Mr. Mark Snyder to acquire up to 20% ownership interest of GSWPS.

Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure

There were no disagreements related to accounting principles or practices, financial statement disclosure, internal controls or auditing scope or procedure during the two fiscal years and interim periods, including the interim period up through the date the relationship ended.

Item 9A. Controls and Procedures

Management's Report on Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the *Securities Exchange Act of 1934*, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our president and chief executive officer (also our principal executive officer) and our chief financial officer (also our principal financial and accounting officer) to allow for timely decisions regarding required disclosure.

As of August 31, 2016, the end of our fiscal year covered by this report, we carried out an evaluation, under the supervision and with the participation of our president and chief executive officer (also our principal executive officer) and our chief financial officer (also our principal financial and accounting officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our president and chief executive officer (also our principal executive officer) and our chief financial officer (also our principal financial and accounting officer) concluded that our disclosure controls and procedures were effective as of the end of the period covered by this annual report.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of control procedures. The objectives of internal control include providing management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition, and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in conformity with accounting principles generally accepted in the United States. Our management assessed the effectiveness of our internal control over financial reporting as of August 31, 2016. In making this assessment, our management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework*. Our management has concluded that, as of August 31, 2016, our internal control over financial reporting is effective in providing reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with US generally accepted accounting principles. Our management reviewed the results of their assessment with our Board of Directors.

This annual report does not include an attestation report of our Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit our Company to provide only management's report in this annual report.

Inherent limitations on effectiveness of controls

Internal control over financial reporting has inherent limitations which include but is not limited to the use of independent professionals for advice and guidance, interpretation of existing and/or changing rules and principles, segregation of management duties, scale of organization, and personnel factors. Internal control over financial reporting is a process which involves human diligence and compliance and is subject to lapses in judgment and

breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements on a timely basis, however these inherent limitations are known features of the financial reporting process and it is possible to design into the process safeguards to reduce, though not eliminate, this risk. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal controls over financial reporting that occurred during the year ended August 31, 2016 that have materially or are reasonably likely to materially affect, our internal controls over financial reporting.

Item 9B. Other Information

None.

PART III**Item 10. Directors, Executive Officers and Corporate Governance**

All directors of our company hold office until the next annual meeting of the security holders or until their successors have been elected and qualified. The officers of our company are appointed by our board of directors and hold office until their death, resignation or removal from office. -

Compliance with Section 16(a) of the Securities Exchange Act of 1934

Section 16(a) of the Securities Exchange Act of 1934 requires our executive officers and directors and persons who own more than 10% of our common stock to file with the Securities and Exchange Commission initial statements of beneficial ownership, reports of changes in ownership and annual reports concerning their ownership of our common stock and other equity securities, on Forms 3, 4 and 5 respectively. Executive officers, directors and greater than 10% shareholders are required by the SEC regulations to furnish us with copies of all Section 16(a) reports that they file.

Based solely on our review of the copies of such forms received by us, or written representations from certain reporting persons, we believe that during fiscal year ended August 31, 2016, all filing requirements applicable to our officers, directors and greater than 10% percent beneficial owners were complied with, with the exception of the following:

Name	Number of Late Reports	Number of Transactions Not Reported on a Timely Basis	Failure to File Requested Forms

Notes:

- (1) The director / officer was late filing a Form 4, Change of Beneficial Ownership.
- (2) The director / officer was late filing a Form 3, Initial Statement of Beneficial Ownership.

Code of Ethics

We adopted a Code of Ethics applicable to our senior financial officers and certain other finance executives, which is a "code of ethics" as defined by applicable rules of the SEC. Our Code of Ethics is attached as an exhibit to our Annual Report on Form 10-KSB filed on November 29, 2007. If we make any amendments to our Code of Ethics other than technical, administrative, or other non-substantive amendments, or grant any waivers, including implicit waivers, from a provision of our Code of Ethics to our chief executive officer, chief financial officer, or certain other finance executives, we will disclose the nature of the amendment or waiver, its effective date and to whom it applies in a Current Report on Form 8-K filed with the SEC.

Board and Committee Meetings

Our board of directors held no formal meetings during the year ended August 31, 2016. All proceedings of the board of directors were conducted by resolutions consented to in writing by all the directors and filed with the minutes of the proceedings of the directors. Such resolutions consented to in writing by the directors entitled to vote on that resolution at a meeting of the directors are, according to the Nevada General Corporate Law and our Bylaws, as valid and effective as if they had been passed at a meeting of the directors duly called and held.

Nomination Process

As of August 31, 2016, we did not affect any material changes to the procedures by which our shareholders may recommend nominees to our board of directors. Our board of directors does not have a policy with regards to the consideration of any director candidates recommended by our shareholders. Our board of directors has determined that

it is in the best position to evaluate our Company's requirements as well as the qualifications of each candidate when the board considers a nominee for a position on our board of directors. If shareholders wish to recommend candidates directly to our board, they may do so by sending communications to the president of our Company at the address on the cover of this annual report.

Audit Committee and Audit Committee Financial Expert

Currently our audit committee consists of our entire board of directors. We currently do not have nominating, compensation committees or committees performing similar functions. There has not been any defined policy or procedure requirements for shareholders to submit recommendations or nomination for directors.

Our board of directors has determined that it does not have a member of its board of directors (audit committee) that qualifies as an "audit committee financial expert" as defined in Item 407(d)(5)(ii) of Regulation S-K, and is "independent" as the term is used in Item 7(d)(3)(iv) of Schedule 14A under the Securities Exchange Act of 1934, as amended.

We believe that the members of our board of directors are collectively capable of analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. We believe that retaining an independent director who would qualify as an "audit committee financial expert" would be overly costly and burdensome and is not warranted in our circumstances given the early stages of our development and the fact that we have not generated any material revenues to date. In addition, we currently do not have nominating, compensation or audit committees or committees performing similar functions nor do we have a written nominating, compensation or audit committee charter. Our board of directors does not believe that it is necessary to have such committees because it believes the functions of such committees can be adequately performed by our board of directors.

Item 11. Executive Compensation

The particulars of the compensation paid to the following persons:

- (a) our principal executive officer;
- (b) each of our two most highly compensated executive officers who were serving as executive officers at the end of the years ended August 31, 2016 and 2015; and
- (c) up to two additional individuals for whom disclosure would have been provided under (b) but for the fact that the individual was not serving as our executive officer at the end of the years ended August 31, 2016 and 2015,

who we will collectively refer to as the named executive officers of our Company, are set out in the following summary compensation table, except that no disclosure is provided for any named executive officer, other than our principal executive officers, whose total compensation did not exceed \$100,000 for the respective fiscal year:

(1) On November 30, 2007, Mr. McAllister was appointed as our President and on April 14, 2008 he was appointed as a director. Salary for Mr. McAllister was partially accrued for 2016, 2015 and partially for 2014.

(2) On February 6, 2015, Ms. Bhullar was appointed as a director. Consulting fees for the CFO were partially accrued for 2016, 2015 and partially for 2014.

Employment/Consulting Agreements

We entered into a consulting agreement with Mr. Robert McAllister on December 1, 2007. During the term of this agreement, Mr. McAllister is to provide corporate administration and oil & gas exploration and production consulting services, such duties and responsibilities to include provision of oil and gas industry consulting services, strategic corporate and financial planning, management of the overall business operations of our company, and supervising office staff and exploration and oil & gas consultants. Mr. McAllister is reimbursed at the rate of \$2,000 per month. On December 1, 2008, the consulting fee was increased to \$5,000 per month. We may terminate this agreement without prior notice based on a number of conditions. Mr. McAllister may terminate the agreement at any time by giving 30 days written notice of his intention to do so. Effective March 1, 2014, the Company entered into a new consulting contract with the consulting services at \$6,500 per month plus GST.

On October 9, 2009, we entered into a consulting agreement with BKB Management Ltd, a corporation organized under the laws of the Province of British Columbia. BKB Management controlled by the chief financial officer of the Company. A fee of CAD\$4,675 including HST is paid per month. We may terminate this agreement without prior notice based on a number of conditions. BKB Management Ltd. may terminate the agreement at any time by giving 30 days written notice of his intention to do so. Effective April 1, 2011, the consulting services are CAD\$5,500 per month plus HST. Effective March 1, 2014, the Company entered into a new consulting agreement with the consulting

services at CAD\$7,500 per month plus GST.

Other than as set out in this annual report on Form 10-K we have not entered into any employment or consulting agreements with any of our current officers, directors or employees.

Grants of Plan-Based Awards Table

On April 14, 2011, the shareholders approved and adopted at the Annual General Meeting to consolidate the Company's 2007 Equity compensation plan and the Company's 2010 Equity Compensation Plan into a new Company 2011 Stock Option Plan. The purpose of this Plan is to advance the interests of the Corporation, through the grant of Options, by providing an incentive mechanism to foster the interest of eligible persons in the success of the Corporation and its affiliates; encouraging eligible persons to remain with the Corporation or its affiliates; and attracting new Directors, Officers, Employees and Consultants.

On November 5, 2013 the Company granted 675,000 stock options to directors, officers, and consultant of the Company with an exercise price of \$0.06 vested immediately, expiring November 5, 2018. 125,000 stock options were exercised. 50,000 stock options were cancelled.

On November 3, 2014 the Company granted 2,100,000 stock options to directors, officers, and consultant of the Company with an exercise price of \$0.10 vested immediately, expiring November 3, 2019. 1,050,000 stock options were cancelled.

On October 23, 2015, the Company granted 1,850,000 stock options to directors, officers and consultant of the Company with an exercise price of \$0.05 vested immediately, expiring October 23, 2020. 50,000 stock options were cancelled.

On February 4, 2016, the Company granted 100,000 stock options to Advisor of the Board of the Company with an exercise price of \$0.05 vested immediately, expiring February 4, 2021.

Option Exercises

During our fiscal year ended August 31, 2016, 240,000 stock options were exercised by the CEO of the Company.

Compensation of Directors

Except as otherwise disclosed, we do not have any agreements for compensating our directors for their services in their capacity as directors, although such directors are expected in the future to receive stock options to purchase shares of our common stock as awarded by our board of directors.

Pension, Retirement or Similar Benefit Plans

There are no arrangements or plans in which we provide pension, retirement or similar benefits for directors or executive officers. We have no material bonus or profit sharing plans pursuant to which cash or non-cash compensation is or may be paid to our directors or executive officers, except that stock options may be granted at the discretion of the board of directors or a committee thereof.

Indebtedness of Directors, Senior Officers, Executive Officers and Other Management

None of our directors or executive officers or any associate or affiliate of our Company during the last two fiscal years is or has been indebted to our Company by way of guarantee, support agreement, letter of credit or other similar agreement or understanding currently outstanding.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth, as of October 7, 2016, certain information with respect to the beneficial ownership of our common shares by each shareholder known by us to be the beneficial owner of more than 5% of our common shares, as well as by each of our current directors and executive officers as a group. Each person has sole voting and investment power with respect to the shares of common stock, except as otherwise indicated. Beneficial ownership consists of a direct interest in the shares of common stock, except as otherwise indicated.

Name and Address of Beneficial Owner	Amount and Nature of Beneficial Ownership	Percentage of Class(1)
Robert McAllister Kelowna, British Columbia, Canada	4,760,000 ⁽²⁾	5.03%
Bal Bhullar Vancouver, British Columbia, Canada	3,651,000 ⁽³⁾	3.80%
Kevin Brown Kelowna, British Columbia, Canada	500,000 ⁽⁴⁾	.53%
Directors and Executive Officers as a Group (5 people)	8,911,000	9.13%
Total	8,911,000	9.13%

(1) Under Rule 13d-3, a beneficial owner of a security includes any person who, directly or indirectly, through any contract, arrangement, understanding, relationship, or otherwise has or shares: (i) voting power, which includes the power to vote, or to direct the voting of shares; and (ii) investment power, which includes the power to dispose or direct the disposition of shares. Certain shares may be deemed to be beneficially owned by more than one person (if, for example, persons share the power to vote or the power to dispose of the shares). In addition, shares are deemed to be beneficially owned by a person if the person has the right to acquire the shares (for example, upon exercise of an option) within 60 days of the date as of which the information is provided. In computing the percentage ownership of any person, the amount of shares outstanding is deemed to include the amount of shares beneficially owned by such person (and only such person) by reason of these acquisition rights. As a result, the percentage of outstanding shares of any person as shown in this table does not necessarily reflect the person's actual ownership or voting power with respect to the number of shares of common stock actually outstanding on October 7, 2016. As of October 7, 2016, there were 93,562,031 shares of our company's common stock issued and outstanding.

(2) Includes:

1. 500,000 options which are exercisable at \$0.10 into common shares;
2. 360,000 options which are exercisable at \$0.05 into common shares;
3. 250,000 options which are exercisable at \$0.06 into common shares; and
4. 3,650,000 common shares.

(3) Includes:

1. 500,000 options which are exercisable at \$0.10 into common shares;
2. 600,000 options which are exercisable at \$0.05 into common shares;
3. 250,000 options which are exercisable at \$0.06 into common shares;
4. 100,000 warrants which are exercisable at \$0.15 into common shares;
5. 1,000,000 warrants which are exercisable at \$0.05 and \$0.10 after 18 months into common shares; and
6. 1,101,000 common shares.

(4) Includes:

1. 500,000 options which are exercisable at \$0.05 into common shares;

Changes in Control

We are unaware of any contract or other arrangement the operation of which may at a subsequent date result in a change in control of our company.

Item 13. Certain Relationships and Related Transactions, and Director Independence

Except as disclosed herein, no director, executive officer, shareholder holding at least 5% of shares of our common stock, or any family member thereof, had any material interest, direct or indirect, in any transaction, or proposed transaction since the year ended August 31, 2015, in which the amount involved in the transaction exceeded or exceeds the lesser of \$120,000 or one percent of the average of our total assets at the year-end for the last two completed fiscal years.

For the year ended August 31, 2016, the Company was party to the following related party transactions:

- Paid /accrued \$78,000 (August 31, 2015: \$78,000) to the President of the Company in consulting fees.
- Paid/accrued \$90,000CAD (August 31, 2013: \$90,000CAD) in consulting fees to a company controlled by the CFO of the Company.
- \$138,923 was payable to the President and a company controlled by a CFO of the Company.
- Incurred share based compensation expenses of \$33,206 in relation to stock options issued to President, CFO and directors (August 31, 2015: \$137,481).

The related party transactions are recorded at the exchange amount established and agreed to between the related parties.

Director Independence

We currently act with three (3) directors, consisting of Robert McAllister, Kevin Brown, and Bal Bhullar. We have determined that Donald Findlay is an independent director as defined in NASDAQ Marketplace Rule 4200(a)(15).

Currently our audit committee consists of three board of directors. We currently do not have nominating, compensation committees or committees performing similar functions. There has not been any defined policy or procedure requirements for shareholders to submit recommendations or nomination for directors.

Our board of directors has determined that it does not have a member of its audit committee who qualifies as an audit committee financial expert as defined in as defined in Item 407(d)(5)(ii) of Regulation S-K.

From inception to present date, we believe that the members of our audit committee and the board of directors have been and are collectively capable of analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting.

We do not have a standing compensation or nominating committee, but our entire board of directors act in such capacity. We believe that our directors are capable of analyzing and evaluating our financial statements and understanding internal controls and procedures for financial reporting. Our directors do not believe that it is necessary to have an audit committee because we believe that the functions of an audit committee can be adequately performed by the board of directors. In addition, we believe that retaining additional independent directors who would qualify as an audit committee financial expert would be overly costly and burdensome and is not warranted in our circumstances given the early stages of our development.

Item 14. Principal Accounting Fees and Services

The aggregate fees billed for the most recently completed fiscal year ended August 31, 2016 and for fiscal year ended August 31, 2015 for professional services rendered by the principal accountant for the audit of our annual financial statements and review of the financial statements included in our quarterly reports on Form 10-Q and services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements for these fiscal periods were as follows:

	Year Ended	
	August 31, 2016	August 31, 2015
Audit Fees	28,000	33,645
Audit Related Fees	12,993	16,505
Tax Fees	Nil	Nil

Edgar Filing: Enertopia Corp. - Form 10-K

All Other Fees	Nil	Nil
Total	40,993.11	50,150

Audit Fees. Audit fees consist of fees billed for professional services rendered for the audits of our financial statements, reviews of our interim financial statements included in quarterly reports, services performed in connection with filings with the Securities and Exchange Commission and related comfort letters and other services that are normally provided by MNP LLP for fiscal year ended August 31, 2016.

Audit related Fees. There were \$28,000 audit related fees paid to MNP LLP for the fiscal year ended August 31, 2016 and \$33,645 for the fiscal year ended August 31, 2015.

Tax Fees. Tax fees consist of fees billed for professional services for tax compliance, tax advice and tax planning. These services include assistance regarding federal, state and local tax compliance and consultation in connection with various transactions and acquisitions. For the fiscal years ended August 31, 2016 and August 31, 2015, we did not use MNP LLP for non-audit professional services or preparation of corporate tax returns.

We do not use MNP LLP, for financial information system design and implementation. These services, which include designing or implementing a system that aggregates source data underlying the financial statements or generates information that is significant to our financial statements, are provided internally or by other service providers. We do not engage MNP LLP to provide compliance outsourcing services.

Effective May 6, 2003, the Securities and Exchange Commission adopted rules that require that before our independent auditors are engaged by us to render any auditing or permitted non-audit related service, the engagement be:

approved by our audit committee (which consists of our entire board of directors); or entered into pursuant to pre-approval policies and procedures established by the board of directors, provided the policies and procedures are detailed as to the particular service, the board of directors is informed of each service, and such policies and procedures do not include delegation of the board of directors' responsibilities to management.

Our board of directors pre-approves all services provided by our independent auditors. All of the above services and fees were reviewed and approved by the board of directors either before or after the respective services were rendered.

Our board of directors has considered the nature and amount of fees billed by our independent auditors and believes that the provision of services for activities unrelated to the audit is compatible with maintaining our independent auditors' independence.
