*The Company's majority voting / director resignation policy requires nominees who receive more votes cast against their election than for to tender their resignation to the board following the annual meeting.

ANNUAL MEETING BUSINESS

ITEM 1. ELECTION OF DIRECTORS

Umpqua's articles of incorporation and bylaws provide that each director is elected to serve a one-year term of office, expiring at the next annual meeting of shareholders, provided, however, that each director continues to serve until the director's successor is elected and qualifies or until there is a decrease in the number of directors. Our articles of incorporation establish the number of directors at between six and 19, with the exact number to be fixed from time to time by resolution of the board of directors. The number of directors is currently set at 10.

Directors are currently elected by a plurality of votes, which means that the nominees who receive the highest number of votes cast "FOR" will be elected, regardless of the number of votes each nominee receives. However, in an uncontested election, our majority voting / director resignation policy requires that any nominee for director who receives a greater number of votes "AGAINST" his or her election than votes "FOR" such election shall promptly tender his or her resignation following certification of the shareholder vote. In determining the votes cast for the election of a director, abstentions and broker non-votes are excluded. The Governance Committee of the board considers the offer of resignation and recommends to the board whether to accept it. Our policy requires the board to act on the Governance Committee's recommendation within 90 days following the shareholder meeting, and board action on the matter requires the approval of a majority of the independent directors. Shareholders are not entitled to cumulate votes in the election of directors.

The Board has nominated the following ten directors, including our CEO, for re-election to serve until the 2019 annual meeting:

NOMINEE	AGE	PRINCIPAL OCCUPATION	DIRECTOR SINCE
Peggy Fowler	66	Retired President and CEO of Portland General Electric	2009
Stephen Gambia	54	President and CEO of Rogue Waste, Inc.	2005
James Greene	64	Founder and Managing Partner of Sky D Ventures	2012
Luis Machuca	60	President and CEO of Enli Health Intelligence	2010
Cort O'Haver	55	President and CEO of Umpqua and Umpqua Bank	2017
Maria Pope	53	President and CEO of Portland General Electric	2014
John Schultz	53	Executive Vice President, Chief Legal and Administrative Officer, and Corporate Secretary of Hewlett Packard Enterprise	2015
Susan Stevens	67	Retired head of Corporate Banking for the Americas at J.P. Morgan Securities	2012
Hilliard Terry	48	Executive Vice President and Chief Financial Officer of Textainer Group Holdings Limited	2010
Bryan Timm	54	Former President of Columbia Sportswear Company	2004

Each of the nominees was elected to serve on the board at the 2017 annual meeting. The individuals appointed as proxies intend to vote "FOR" the election of the nominees listed above. If any nominee is not available for election, the individuals named in the proxy intend to vote for such substitute nominee as the board of directors may designate, upon the recommendation of the Governance Committee. Each nominee has agreed to serve on the board and we have no reason to believe any nominee will be unavailable to serve.

The independent Governance Committee has oversight responsibility for recommending to the board a slate of nominees to be presented to the shareholders for election at each annual meeting. Our Statement of Governance Principles, available at <https://www.umpquabank.com/investor-relations>, provides that directors should possess the highest personal and professional ethics, integrity and values and be committed to representing the long-term interests of our shareholders. Collectively, the board should have policymaking experience in the major business activities of the Company and its subsidiaries or in similar businesses and, to the extent practical, should be representative of the major markets in which the Company operates. In addition, we seek directors who are civic minded and whose activities provide valuable perspective on important social and economic issues relevant to our business and the communities where our customers and employees work and live.

Director Independence

The board of directors has determined that all directors except Messrs. Greene and O’Haver qualify as “independent,” as defined in the NASDAQ listing rules. In 2016 and 2017, the board of directors asked Mr. Greene to serve as Board Chair of our subsidiary, Pivotus Ventures, Inc. and that Mr. Greene provide management consulting to the Pivotus leadership team and work closely with Pivotus on strategic planning and collaboration initiatives. In December 2017, the Compensation Committee and the independent directors, excluding Mr. Greene, reviewed Mr. Greene’s work with Pivotus. The Compensation Committee reviewed the amount of time Mr. Greene spent on Pivotus initiatives and approved a payment to Mr. Greene of \$150,000 for Pivotus related work. In determining the independence of directors, the board considered the responses to annual Director & Officer Questionnaires that indicated no transactions with directors other than banking transactions with Umpqua Bank, and arrangements under which Umpqua Bank purchases waste disposal services in southern Oregon from a company affiliated with Mr. Gambee at standard, regulated rates, which in 2017 totaled \$6,931. The board also considered the lack of any other reported transactions or arrangements; directors are required to report conflicts of interest and transactions with the Company pursuant to our Corporate Governance Principles and Code of Ethics, which can be found on our website <https://www.umpquabank.com/investor-relations>. See Related Party Transactions for additional information.

Board Recommendation

The board of directors recommends a vote “FOR” each of the nominees named in this Proxy Statement.

ITEM 2. RATIFICATION OF REGISTERED PUBLIC ACCOUNTING FIRM APPOINTMENT

The Audit and Compliance Committee has selected the independent registered public accounting firm of Moss Adams LLP to act in such capacity for the fiscal year ending December 31, 2018. There are no affiliations between the Company and Moss Adams, its partners, associates or employees, other than those which pertain to the engagement of Moss Adams in the previous year as the Company’s independent registered public accounting firm and for certain permitted consulting services. Moss Adams has served as the Company’s independent registered public accounting firm since 2005.

Shareholder ratification of the selection of Moss Adams is not required by law, our articles of incorporation, our bylaws or otherwise. The Sarbanes-Oxley Act of 2002 requires the Audit and Compliance Committee to be directly responsible for the appointment and compensation of the independent registered public accounting firm and for oversight of the audit work. The Committee will consider the results of the shareholder vote on this proposal and, in the event of a negative vote, will reconsider its selection of Moss Adams, but is not bound by the shareholder vote. Even if Moss Adams’s appointment is ratified by the shareholders, the Audit and Compliance Committee may, in its discretion, appoint a new independent registered public accounting firm at any time if it determines that such a change would be in the interests of the Company and its shareholders. A representative of Moss Adams is expected to attend the annual meeting and that representative will have the opportunity to make a statement, if he or she desires to do so, and to answer appropriate questions.

Board Recommendation

The board of directors recommends a vote “FOR” ratification of the selection of Moss Adams as the Company’s independent registered public accounting firm.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit and Compliance Committee discussed these services with the independent auditor and Company management and determined that they are permitted under the rules and regulations concerning auditor independence promulgated by the SEC to implement the Sarbanes-Oxley Act of 2002, as well as the American Institute of Certified Public Accountants.

Pre-Approval Policy

The Audit and Compliance Committee pre-approved the services performed by Moss Adams for the 2017 audit engagement at its February 22, 2017, meeting, in accordance with the Committee's pre-approval policy and procedures. This policy describes the permitted audit, audit-related, tax, and other services (collectively, the "Permitted Services") that the independent auditor may perform. The policy requires that a description of the services expected to be performed by the independent auditor in each of the disclosure categories in the above table be provided to the Committee for pre-approval.

Services provided by the independent auditor during the following year that are included in the Permitted Services list were pre-approved following the policies and procedures of the Audit and Compliance Committee.

Any requests for audit, audit-related, tax, and other services not contemplated on the Permitted Services list must be submitted to the Audit and Compliance Committee for specific pre-approval and cannot commence until such approval has been granted. Normally, pre-approval is provided at regularly scheduled meetings. However, the authority to grant specific pre-approval between meetings, as necessary, has been delegated to the Chair of the Audit and Compliance Committee. The Chair must update the Committee at the next regularly scheduled meeting of any services that received his pre-approval.

In addition, although not required by the rules and regulations of the SEC, the Audit and Compliance Committee generally requests a range of fees associated with each proposed service. Providing a range of fees for a service incorporates appropriate oversight and control of the independent auditor relationship, while permitting the Company to receive immediate assistance from the independent auditor when time is of the essence.

The policy contains a de minimis provision to provide retroactive approval for permissible non-audit services if:

(i) The service is not an audit, review or other attest service; and

The aggregate amount of all such services provided under this provision does not exceed \$5,000 per project if (ii) approved by the Principal Financial Officer or Principal Accounting Officer or \$50,000 per project if approved by the Chair of the Audit and Compliance Committee.

Audit and Compliance Committee Report

The Audit and Compliance Committee of the board of directors oversees the accounting, financial reporting and regulatory compliance processes of the Company, the audits of the Company's financial statements, the qualifications of the public accounting firm engaged as the Company's independent auditor and the performance of the Company's internal and independent auditors. The Committee's function is more fully described in its board approved charter, available on our website: <https://www.umpquabank.com/investor-relations>. The Committee reviews that charter on an annual basis. The board annually reviews the NASDAQ listing standards' definition of "independence" for audit committee members and applicable SEC rules related to audit committee member independence and has determined that each member of the Audit and Compliance Committee meets those standards.

Management is responsible for the preparation, presentation and integrity of the Company's financial statements. Management must adopt accounting and financial reporting principles, internal controls and procedures that are designed to ensure compliance with accounting standards, applicable laws and regulations. The Audit and Compliance Committee met with management regularly during the year to consider the adequacy of the Company's internal controls and the objectivity of its financial reporting. The Committee discussed these matters with the Company's independent auditors and with appropriate Company financial personnel and internal auditors. The Committee also discussed with the Company's senior management and independent auditors the process used for certifications by the Company's Chief Executive Officer, Chief Financial Officer and Principal Accounting Officer, which are required for certain of the Company's filings with the SEC.

The Audit and Compliance Committee is responsible for hiring and overseeing the performance of the Company's independent registered public accounting firm. The Company's independent registered public accounting firm is responsible for performing an independent audit of the consolidated financial statements and expressing an opinion on the conformity of those financial statements with accounting principles generally accepted in the United States of America, and expressing an opinion on the effectiveness of the Company's internal control over financial reporting. The Committee engaged Moss Adams as the Company's independent registered public accounting firm to perform the audit of the Company's financial statements for the period ending December 31, 2017. Moss Adams has been engaged in this capacity since August 2005, based on the Committee's review of Moss Adams's performance and independence from management. In accordance with NASDAQ Listing Rules, Moss Adams is registered as a public accounting firm with the Public Company Accounting Oversight Board ("PCAOB").

The Audit and Compliance Committee reviewed and discussed the audited financial statements for the fiscal year ending December 31, 2017, with management. The Committee also met separately with both management and Moss Adams to discuss and review those financial statements and reports prior to issuance. Management has represented, and Moss Adams has confirmed to the Committee, that the financial statements were prepared in accordance with generally accepted accounting principles.

The Audit and Compliance Committee received from and discussed with Moss Adams the matters required to be discussed by AS 1301 (Communications with Audit Committees, formerly Auditing Standard No. 16), as amended

and as adopted by the PCAOB in Rule 3200. The Committee has received the written disclosure and the letter from Moss Adams required by applicable requirements of the PCAOB regarding independence and has discussed with Moss Adams the auditor's independence.

Based upon the review and discussions referred to above, the Audit and Compliance Committee recommended to the board of directors that the Company's audited financial statements be included in the Company's annual report on Form 10-K for the fiscal year ended December 31, 2017.

ITEM 3. AMENDMENT TO ARTICLES OF INCORPORATION TO PROVIDE FOR MAJORITY VOTING IN UNCONTESTED ELECTIONS OF DIRECTORS

At the 2017 annual meeting of shareholders, a shareholder proposal requesting the Board of Directors to initiate an appropriate process to amend the Company's Articles of Incorporation to provide for majority voting for directors in uncontested elections was approved by the vote of approximately 60% of the shares voted on the proposal. In response to that expression of shareholder support, the Board of Directors has adopted, and recommends that shareholders approve, an amendment to the Company's Articles of Incorporation to implement majority voting for directors in uncontested elections of directors. The proposed amendment would add a new Article V, Section E to the Articles that would read as follows:

“ARTICLE V

BOARD OF DIRECTORS

E. In any election of directors of the Corporation at a meeting of shareholders at which a quorum is present, each director shall be elected if the number of votes cast “for” the director exceeds the number of votes cast “against” the director; provided, however, that if the number of nominees exceeds the number of directors to be elected, the directors shall be elected by a plurality of the votes cast by the shares entitled to vote in the election of directors.”

Under Oregon law, directors are normally elected by a plurality of the votes cast by the shares entitled to vote in the election at a meeting at which a quorum is present. A voting standard other than a plurality may only be used if it is specified in a corporation's articles of incorporation. Under the proposed amendment to the Company's Articles of Incorporation, a nominee for director in an uncontested election will be elected if the number of votes cast “for” the nominee at the shareholder meeting exceeds the number of votes cast “against” the nominee. An “abstain” vote will have no effect on the outcome of the election, but will be counted for purposes of determining whether a quorum is present at the shareholder meeting. For contested elections in which there are more director candidates than director positions to be elected, the voting standard will continue to be a plurality of votes cast.

Under Oregon law, an incumbent director nominee who is not re-elected at a shareholder meeting continues to serve on the Board of Directors until his or her successor is elected and qualified or until there is a decrease in the number of directors. The Board of Directors believes that it needs an orderly process to address the ongoing composition of the Board if one or more directors receive a majority of votes cast “against” their reelection. Accordingly, if the proposed amendment is adopted, the Board of Directors intends to maintain the Company's existing majority voting / director resignation policy in the Statement of Governance Principles. The current policy requires any incumbent director nominee who receives more “against” or withheld votes than “for” votes in an uncontested director election to tender his or her resignation subject to acceptance or rejection by the Board of Directors. The Governance Committee would then make a recommendation, and the Board would decide whether to accept or reject the tendered resignation within 90 days after the shareholder meeting.

If the proposed amendment is approved, the Company will file Articles of Amendment with the Oregon Secretary of State, and the proposed amendment will become effective at that time. The majority vote standard would then be applicable to the election of directors at the 2019 annual meeting of shareholders. In the event the shareholders do not approve this proposal, the Articles of Incorporation will remain unchanged and director nominees in uncontested elections will continue to be elected by a plurality of the votes cast, but will be subject to the majority voting / director resignation policy in the Statement of Governance Principles.

Board Recommendation

The board of directors recommends a vote “FOR” approval of the proposed amendment.

ITEM 4. ADVISORY VOTE ON RESOLUTION TO APPROVE EXECUTIVE COMPENSATION

The board and management are committed to excellence in governance and recognize the interest our shareholders have expressed in the Company's executive compensation program. As a part of that commitment, and in accordance with SEC rules, we ask our shareholders to approve an advisory resolution on the compensation of the named executive officers, as reported in this proxy statement. This proposal, commonly known as "say on pay," gives shareholders the opportunity to approve or not approve our fiscal year 2017 compensation for named executive officers. Our shareholders previously voted in favor of an annual say on pay vote, and our board determined to hold an annual vote.

This vote is not intended to address any specific item of compensation, but rather to address the compensation paid to our named executive officers as disclosed in this proxy statement, which we believe reflects our overall compensation policies and procedures relating to the named executive officers. While your vote is advisory and will not be binding on the board, we strive to align our governance policies and practices with the interests of our shareholders. The board takes into account the outcome of the say on pay vote when considering future compensation plans.

We are requesting your non-binding vote on the following resolution:

"RESOLVED, that the shareholders approve the compensation of the named executive officers as described in the Compensation Discussion and Analysis and the tabular and accompanying narrative disclosure of named executive officer compensation in the Proxy Statement for the 2018 Annual Meeting of Shareholders."

Board Recommendation

The board of directors recommends a vote "FOR" approval of the resolution approving compensation of named executive officers.

OTHER BUSINESS

The board of directors knows of no other matters to be brought before the shareholders at the meeting. If other matters are properly presented for a vote at the meeting, the proxy holders will vote shares represented by proxies at their discretion in accordance with their judgment on such matters. At the meeting, management will report on our business and shareholders will have the opportunity to ask questions.

CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION

This proxy statement contains forward-looking statements about Umpqua that are intended to be covered by the safe harbor for "forward-looking statements" provided by the Private Securities Litigation Reform Act of 1995. These statements may include statements regarding compensation practices, governance matters, business strategies, management plans and objectives for future operations. All statements other than statements of historical fact are forward-looking statements. You can find many of these statements by looking for words such as "anticipates," "expects," "believes," "estimates" and "intends" and words or phrases of similar meaning. Forward-looking statements involve substantial risks and uncertainties, many of which are difficult to predict and are generally beyond the control of Umpqua. Risks and uncertainties include, but are not limited to:

- competitive market pricing factors for compensation and benefits;
- changes in legal or regulatory requirements; and
- the ability to recruit and retain certain key management and staff.

There are many factors that could cause actual results to differ materially from those contemplated by forward-looking statements. For a more detailed discussion of some of the risk factors, see the section titled Risk Factors in Umpqua's 10-K and other filings with the SEC. Umpqua does not intend to update these forward-looking statements. You should consider any written or oral forward-looking statements in light of this explanation, and we caution you about relying on forward-looking statements.

INFORMATION ABOUT EXECUTIVE OFFICERS

The age (as of March 1, 2018), business experience, and position of our executive officers other than Cort L. O’Haver, about whom information is provided above, are as follows:

Rilla S. Delorier, age 50, serves as Executive Vice President/Chief Strategy Officer of Umpqua and Umpqua Bank, positions she has held since April 2017 when she joined Umpqua. Before joining Umpqua, Ms. Delorier spent 10 years in a variety of roles for SunTrust Bank including executive vice president of consumer channels (2014-2016), chief marketing officer (2008-2014), and marketing director of wealth and investment management (2006-2008). An early adopter of digital as a transformational channel, she oversaw SunTrust’s evolution from a brick and mortar to cross-channel organization – and helped build a purpose-driven company and culture.

Ronald L. Farnsworth, age 47, serves as Executive Vice President/Chief Financial Officer of Umpqua and Umpqua Bank, positions he has held since January 2008 and Principal Financial Officer of Umpqua, a position he has held since May 2007. From March 2005 to May 2007, Mr. Farnsworth served as Umpqua’s Principal Accounting Officer. From January 2002 to September 2004, Mr. Farnsworth served as Vice President – Finance of Umpqua. Mr. Farnsworth served as Chief Financial Officer of Independent Financial Network, Inc. (“IFN”) and its subsidiary Security Bank from July 1998 to the time of IFN’s acquisition by Umpqua in December 2001.

Neal T. McLaughlin, age 49, serves as Executive Vice President/Treasurer of Umpqua and Umpqua Bank, positions he has held since February 2005 and Principal Accounting Officer, a position he has held since May 2007. From 2002 until joining Umpqua, Mr. McLaughlin served as Senior Vice President and Chief Financial Officer of Albina Community Bancorp and before that he was Executive Vice President and Chief Financial Officer at Centennial Bancorp and Columbia Bancorp.

Torran (Tory) B. Nixon, age 56, serves as Executive Vice President and Head of Commercial & Wealth for Umpqua Bank, a position he has held since October 2016. In his role, Nixon oversees all areas of commercial banking, corporate banking, leasing, commercial real estate, capital markets, treasury management, private banking and investments. Before joining Umpqua Bank in November 2015 as Executive Vice President/Commercial Banking, Nixon served as Division President for the San Diego and Northern California Divisions of California Bank & Trust from April 2007 through November of 2015.

Andrew H. Ognall, age 46, serves as Executive Vice President/General Counsel and corporate Secretary of Umpqua and Umpqua Bank, positions he has held since April 2014. From January 2011 to April 2014, Mr. Ognall was a partner with the law firm Lane Powell PC. Before joining Lane Powell PC, he was a partner with Foster Pepper LLP and Roberts Kaplan LLP. His private practice focused on mergers and acquisitions, securities and corporate finance, community banking, corporate governance, executive compensation and general business matters.

David F. Shotwell, age 59, serves as Executive Vice President/Chief Risk Officer of Umpqua and Umpqua Bank, positions he has held since October 2017. Mr. Shotwell continues to serve as the Chief Credit Officer, a position he has held since July 2015. Mr. Shotwell served as Umpqua Bank’s Chief Lending Officer from 2010 to 2015. Prior to joining Umpqua Bank in 2002, he worked for more than 20 years in commercial banking and providing consulting services to financial institutions. He studied economics and finance at the University of Washington and is a graduate of executive programs at the University of California, Davis, and Pacific Coast Banking School.

Retired Executive Officers

Raymond P. Davis, age 68, served as Executive Chairman of the board from January 2017 to December 2017. He served as a director of Umpqua from its formation in 1999 to December 2017, and as a director of Umpqua Bank from June 1994 to December 2017. Mr. Davis served as President and Chief Executive Officer of Umpqua from its

formation to December 2016.

CORPORATE GOVERNANCE OVERVIEW

Our board of directors believes that its primary role as steward of the Company is to ensure that we maximize shareholder value in a manner consistent with legal requirements and the highest standards of integrity. The board has adopted and adheres to a Statement of Governance Principles, which the board and senior management believe represent sound governance practices and provide a framework to sustain our success and build long term value for our shareholders and stakeholders. We regularly review these governance principles and practices in light of Oregon

corporate law, applicable federal law, SEC and banking agency regulations, NASDAQ listing standards and best practices suggested by recognized governance authorities.

Statement of Governance Principles and Charters

Our Statement of Governance Principles and the charter of each of our board committees can be viewed on our website at <https://www.umpquabank.com/investor-relations>. This Statement is also available in print to any shareholder who requests it. Each board committee operates under a board approved written charter.

Employee Code of Conduct/Code of Ethics for Financial Officers

The Company has adopted a code of conduct, referred to as the Business Ethics and Conflict of Interest Code. We require all employees to adhere to this ethics code in addressing legal and ethical issues that they encounter in the course of doing their work. This ethics code requires our employees to avoid conflicts of interest, comply with all laws and regulations, conduct business in an honest and ethical manner and otherwise act with integrity and in the Company's best interest. All new employees are required to review and understand this ethics code, and certify so. In addition, each year all other employees are reminded of, and asked to affirmatively acknowledge, their obligation to follow this ethics code.

In addition, the Company has adopted a Code of Ethics for Financial Officers, which applies to our chief executive officer, our chief financial officer (principal financial officer), our treasurer (principal accounting officer) and all other officers serving in a finance, accounting, tax or investor relations role. This code for financial officers supplements our Business Ethics and Conflict of Interest Code and is intended to promote honest and ethical conduct, full and accurate financial reporting and to maintain confidentiality of the Company's proprietary and customer information.

Our Business Ethics and Conflict of Interest Code and Code of Ethics for Financial Officers are available in the Investor Relations section of our website, <https://www.umpquabank.com/investor-relations>, under Corporate overview / governance documents.

Compliance and Ethics – Reporting and Training

Our employees may report confidential and anonymous complaints to an "ethics hotline" maintained by an independent vendor. These complaints may be made online or by calling a toll-free phone number. Complaints relating to financial matters are routed to our Chief Auditor and General Counsel, who report those complaints, if any, directly to the Chair of the Audit and Compliance Committee of the board. Employees may also report such matters directly to the Chair of the Audit and Compliance Committee. Other complaints, such as those dealing with employee issues, are routed to an appropriate executive for review. Employees are encouraged to report any conduct that they believe in good faith to be a violation of law or a violation of our Business Ethics and Conflict of Interest Code. The Chair of the Audit and Compliance Committee provides periodic updates and an annual report to the committee on the complaints received via the hotline.

Our regulatory compliance program is an integral part of our operations and includes the following features:

• Our Chief Compliance Officer oversees compliance with all customer-facing regulations at Umpqua Bank and Umpqua Investments, Inc. and reports to the Audit and Compliance Committee at each regular meeting.

• All of our associates complete annual required training on ethics and the regulations that apply to their jobs.

• Our Bank Secrecy Act Officer oversees our compliance with anti-money laundering and anti-terrorist financing regulations.

Director Criteria and Nomination Procedures

Our Statement of Governance Principles describes the qualifications that the Company looks for in its nominees to the board of directors. Directors should possess the highest personal and professional ethics, integrity and values and should be committed to representing the long-term interests of our shareholders. The board will consider the policy-making experience of the candidate in the major business activities of the Company and its subsidiaries. The board will also consider whether the nominee is representative of the major markets in which the Company operates. Most importantly, the board's Governance Committee is looking for candidates who have a deep, genuine interest in Umpqua and its culture.

The Governance Committee considers skills that will add value to the current board and those that will be lost upon the departure of a director. Directors must be willing to devote sufficient time to effectively carry out their duties and responsibilities. Nominees should not serve on more than three boards of public companies in addition to the Company's board. The board's policy provides that no person shall be eligible for election or reelection as a director if that person will reach the age of 70 at the time of that person's election or reelection, provided that a director who reaches age 70 during his or her term, shall complete the term for which that director was elected.

Shareholder Recommendations

A shareholder may recommend a candidate for nomination to the board and that recommendation will be reviewed and evaluated by the Governance Committee of our board. The Committee will use the same procedures and criteria for evaluating nominees recommended by shareholders as it does for nominees recommended by the Committee.

Shareholder recommendations for board candidates should be submitted to the Company's corporate Secretary, Andrew H. Ognall, One SW Columbia Street, Suite 1200, Portland, OR 97258. Shareholders may nominate board candidates only by following the procedures set forth in our bylaws.

In 2017, we did not receive any recommendations of potential nominees, or any nominations of board candidates from shareholders.

Changes in Nomination Procedures

There have been no material changes to the procedures by which shareholders may recommend nominees to our board of directors since our procedures were disclosed in the proxy statement for the 2017 annual meeting.

Shareholder Communications

Our directors are active in their respective communities and they receive comments, suggestions, recommendations and questions from shareholders, customers and other interested parties on an ongoing basis. Our directors are encouraged to share those questions, comments and concerns with other directors and with our CEO.

Director Attendance at Annual Meetings

The Company conducts the annual meeting in Portland, Oregon on the day before, or day of, a regular meeting of the board. The board expects all nominated directors to attend the annual meeting. All of the directors nominated for election at the 2018 annual meeting attended the 2017 annual meeting.

Communicating with Directors

Comments and questions may be directed to our board by submitting them in writing to the Company's corporate Secretary, Andrew H. Ognall, One SW Columbia Street, Suite 1200, Portland, OR 97258. These comments or summaries of the comments will be communicated to the board at its next regular meeting. No communications of this type were received from shareholders in 2017. The investor relations section of our website, <https://www.umpquabank.com/investor-relations>, includes governance documents, including our Statement of Governance Principles and board committee charters and provides shareholders the option of:

- requesting information or submitting questions and comments; and
- signing up for e-mail notification of corporate events, the Company's SEC filings and press releases.

Annual Board Evaluations

Each year, our board evaluates the performance of its committees and its members. This evaluation process occurs in two stages. First, each board member answers a questionnaire designed to rate the performance of each board committee on which that director serves, with respect to a number of components relevant to that committee's functions. The answers and comments are compiled anonymously and reviewed by the respective committee, as a whole, and reported to the full board. The Governance Committee then reviews those results and recommends changes in committee structure, membership and function to the full board. The Governance Committee's practice is to rotate directors through the various board committees to broaden their exposure to the Company's operations and to take advantage of each director's skills.

Second, each board member fills out a confidential evaluation of his or her own performance, which is delivered to the board Chair. The board Chair then solicits input from the Governance Committee (which is comprised of the committee Chairs) with respect to the board member's performance and reviews that information with the board member. The Governance Committee considers this information when recommending a slate of candidates to be nominated by the full board and in making committee membership decisions.

Succession Planning

Succession planning for the CEO and other named executive officer positions is one of the board's most important duties. Each year, the CEO presents his succession plan to the full board. This plan describes the process by which the executive management of the Company will continue if and when the current CEO is unwilling or unable to serve; the process for selecting the CEO's successor, if necessary; and the process for selecting and naming a successor during the period leading up to the announcement of the CEO's retirement. At least annually, the CEO reviews with the Governance Committee up to three internal candidates who should be considered to replace him and his recommendation as to which, if any, internal candidate should be considered to replace him in the event he cannot serve. Under the current plan, any internal candidate selected on an interim basis will have the opportunity to compete for the position with other candidates that come forward in an internal and external search. Each of the other named executive officers has a written succession plan that is reviewed with the CEO annually.

Meetings and Committees of the Board of Directors

The board of directors met 10 times during 2017, including a three-day strategic planning retreat. At the retreat, the board and executive management focused on how to best sustain and enhance shareholder value, the Company's growth strategy and financial performance while maintaining Umpqua's unique culture and commitment to community banking. All board committees have regularly scheduled meetings and meet at least quarterly. Board committee Chairs call for additional regular and special meetings of their committees, as they deem appropriate. In 2017, each

director attended at least 75% of the meetings of the board and the committees on which the director served. In addition, Mr. O'Haver invited directors to participate in regular conference calls to provide updates and answer questions.

The board and each of our board committees regularly meet in executive session in which only independent directors are present.

As of December 31, 2017, the board of directors had six active board committees: Audit and Compliance Committee, Compensation Committee, Executive Committee, Enterprise Risk and Credit Committee, Finance and Capital Committee, and Governance Committee.

Effective January 1, 2017, Peggy Fowler became Lead Director. Our Statement of Governance Principles provides that if the board Chair is not an independent director, the independent directors shall appoint a Lead Director. Effective January 1, 2018, Peggy Fowler resumed her position as Chair.

The board believes that it has an overall governance profile that provides the flexibility to determine the leadership structure of the Company. The board conducts an annual assessment of its leadership structure to determine that the leadership structure is the most appropriate for the Company. We continue to maintain a separation of the CEO and board Chair roles because we believe the structure has worked well for us. We added the Lead Director position in 2017 to continue to maintain a strong independent director in a board leadership role at times when we have a board Chair that is not independent.

The table below shows the current membership of each board committee and the number of meetings held in 2017:

Mr. Davis served as Chair of the Executive Committee until his retirement effective December 31, 2017.

Audit and Compliance Committee

The board of directors has a standing Audit and Compliance Committee that meets with our independent registered public accounting firm to plan for and review the annual audit reports. The Committee meets at least four times per year and is responsible for overseeing our internal controls and the financial reporting process. Each member of the Committee is independent, as independence is defined under applicable SEC and NASDAQ listing rules.

The board of directors has adopted an Audit and Compliance Committee Charter, a copy of which is available on our website in the Corporate Governance section at <https://www.umpquabank.com/investor-relations>. The charter provides that only independent directors may serve on the Audit and Compliance Committee. The charter further provides that at least one member shall have past employment experience in finance or accounting, requisite professional certification in accounting, or any other comparable experience or background which results in the individual's financial sophistication, including being or having been a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities. The board of directors has determined that the Committee Chair Bryan L. Timm and Committee Vice Chair Maria M. Pope meet the SEC criteria for an "audit committee financial expert."

The board of directors believes that each of the current members of the Audit and Compliance Committee has education or employment experience that provides them with appropriate financial sophistication to serve on the Committee.

Compensation Committee

See Roles and Responsibilities of the Compensation Committee in Section 3 of the Compensation Discussion and Analysis.

Enterprise Risk and Credit Committee

In 2017, the Enterprise Risk and Credit Committee reviewed and approved certain loans, reviewed and approved charge-offs to the loan loss reserve, set loan, investment and liquidity policies and monitored compliance with those policies and oversaw Umpqua's loan and investment portfolios. The Committee also oversees the Company's enterprise risk management program. In addition to its regular meetings, the Committee from time to time reviews and approves extensions of credit to Regulation O officers, directors or their related parties, and certain other significant lending relationships.

Executive Committee

The Executive Committee may, subject to limitations in our Bylaws and under Oregon law, exercise all authority of the full board when the full board is not in session. The Committee is responsible for the review and oversight of the Company's strategic planning process and consideration of the Company's merger and acquisition opportunities. The Committee is comprised of the Chair of the board, Lead Director, the Chair of each board committee, Chair of our Pivotal Ventures, Inc. subsidiary (if such individual is also an independent director of the Company) and Umpqua's CEO. The Committee meets at least quarterly.

Finance and Capital Committee

In 2017, the Finance and Capital Committee reviewed and oversaw our budgeting process, including the annual operating and capital expenditure budgets. The Committee also oversaw capital planning and stress-testing, dividend planning and our stock repurchase program, our trust division, insurance and investments, and all aspects of financial risk management and financial performance.

Governance Committee

The Governance Committee proposes nominees for appointment or election to the board of directors and conducts searches to fill the positions of President and CEO. The Committee also oversees the Company's corporate governance processes and board structure. The Committee is comprised of the Lead Director or independent board Chair, the Chair of each board committee and Chair of our Pivotal Ventures, Inc. subsidiary (if such individual is also an

independent director of the Company). All of the directors serving on the Committee are independent, as defined in the NASDAQ listing standards. The Governance Committee meets at least quarterly.

The Board's Role in Enterprise Risk Oversight

The Company's EVP/Chief Risk Officer provides a quarterly comprehensive risk report to the members of the Enterprise Risk and Credit Committee, including risks related to:

- capital adequacy
- earnings performance
- liquidity
- culture and reputation
- credit
- quality
- concentration
- operations and technology
- fraud
- information security
- business continuity planning and disaster recovery
- third party oversight

While the Enterprise Risk and Credit Committee has primary responsibility for overseeing risk management, our other board committees and the entire board of directors are actively involved in overseeing risk management for the Company.

The board and its committees regularly discuss risk management with the Chief Auditor, CEO, CFO, Chief Risk Officer, Chief Technology Officer, General Counsel, Chief Credit Officer, Model Risk Manager, Information Security Officer, Chief Compliance Officer, BSA Officer, Chief Data Officer and other Company officers as the board may deem appropriate. In addition, each board committee has been assigned oversight responsibility for specific areas of risk and risk management is an agenda topic at all regular committee meetings. The committees consider risks within their areas of responsibility, for example the Compensation Committee considers risks that may result from changes in compensation programs and related regulations, and the Finance and Capital Committee focuses on risk related to capital, among others. The Chief Auditor reports directly to the Audit and Compliance Committee and indirectly reports to the CEO for administrative purposes.

Corporate Responsibility

Umpqua's commitment to corporate responsibility is a central part of our operating philosophy and our culture. We believe we have an obligation to support the communities we serve by balancing the needs of our shareholders, associates, customers and communities – and this informs all aspects of our Company. These values are demonstrated daily at all levels in our business practices as well as through active community outreach and engagement. Community initiatives include associate engagement, meaningful philanthropy, financial health and sustainable business practices.

Associate engagement

Umpqua Bank's Connect Volunteer Network™ has become one of the nation's leading volunteer programs, providing associates with paid time-off each year to serve at youth-focused organizations, schools and community development programs. In 2017, 2,752 Company associates volunteered more than 48,567 hours to over 2,221 nonprofit organizations and schools across the Company's five-state footprint.

Meaningful philanthropy

Our decision process for charitable giving is driven by our associates to ensure community need is assessed locally and met with the most appropriate solutions. We invest in the areas of youth development and education, community development and the arts.

Umpqua Bank Charitable Foundation made 289 grants, totaling \$1.4 million to organizations in our footprint. Company-wide charitable giving totaled \$3.0 million.

2017 associate matching gift program contributed \$303,202 to 494 nonprofit organizations.

Sustainable business practices

We have made sustainability a focus of our daily operations. We know sustainability is a constant work in progress and we are proud to be on that journey. Examples include adoption of new technology and campaigns to reduce paper consumption, facilities design initiatives and associate mass transit benefits.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Based solely upon our review of (i) Forms 3, 4 and 5 that we filed on behalf of directors and executive officers, or received from them with respect to the fiscal year ended December 31, 2017, and (ii) their written representations (if applicable) that no Form 5 is required, we believe that all reporting persons made all Section 16 filings required under the Securities Exchange Act of 1934 with respect to the 2017 fiscal year on a timely basis.

SHAREHOLDER PROPOSALS FOR THE 2019 ANNUAL MEETING OF SHAREHOLDERS

If any shareholder intends to present a proposal to be considered for inclusion in the Company's proxy material in connection with the 2019 annual meeting of shareholders, the proposal must be in proper form under SEC Regulation 14A, Rule 14a-8, Shareholder Proposals, and received by the Secretary of the Company on or before November 2, 2018. Shareholder proposals to be presented at the 2019 annual meeting of shareholders, which are not to be included in the Company's proxy materials, must be received by the Company no later than December 2, 2018, in accordance with the Company's bylaws. A copy of our bylaws may be obtained from the corporate Secretary or from our SEC filings at www.sec.gov.

RELATED PARTY TRANSACTIONS

Transactions with Related Persons/Approval Process

We have a formal process with respect to the review and approval of loans extended by Umpqua Bank to related persons, as described below. In accordance with our written procedures for the review of transactions with related persons and NASDAQ Listing Rules, all other transactions with related persons must be approved by disinterested members of the board's Audit and Compliance Committee after a review of (i) the related person's relationship to the Company; (ii) the proposed aggregate value of such transaction; (iii) the approximate dollar value of the transaction to the related person; (iv) the benefits to the Company of the proposed transaction and the availability and price of comparable products or services; (v) an assessment of whether the proposed transaction is on terms that are comparable to the terms available to an unrelated third party or to employees generally; and (vi) management's recommendation.

Loans to Directors and Officers

Umpqua Holdings Corporation does not extend loans or credit to any officers or directors. However, many of our directors and officers, their immediate family members and businesses with which they are associated, borrow from and have deposits with Umpqua Bank. All such loans are made in the ordinary course of Umpqua Bank's business, and on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable loans with persons not related to the lender, Umpqua Bank. These loans did not and do not involve more than the normal risk of collection or present other unfavorable features to Umpqua Bank.

Loans by the bank to directors and designated executive officers are governed by Regulation O, 12 CFR Part 215. Under the bank's procedures, the Chief Credit Officer can approve individual credits subject to Regulation O up to a total credit exposure of \$500,000 and report those loans to the Enterprise Risk and Credit Committee. All Regulation O credits must be made on non-preferential terms, and all Regulation O credits with a total credit exposure in excess of \$500,000 must be approved by the Committee, with the number of affirmative votes representing at least a majority of the board of directors. The bank also requires Regulation O applicants to submit a detailed financial statement at the time of application. Regulation O limits loans to an executive officer, including all loans personally guaranteed by the officer, to \$100,000, unless the loan is (a) made to finance the purchase, construction, or improvement of the officer's primary or secondary residence and is secured by a first lien on such residence, (b) made to finance the education of the officer's children, or (c) fully secured by a deposit account, U.S. Treasury bonds, or certain U.S. government guarantees. All of our named executive officers are designated as executive officers of Umpqua Bank

under Regulation O. In no case may the total loans to any designated executive officer exceed 5% of the bank's capital absent the approval of a majority of the Company's disinterested directors. Each extension of credit to a designated executive officer must contain a written demand clause stating that the extension of credit will, at the option of the bank, become due and payable at any time the officer is indebted to any

other bank or banks in an aggregate amount greater than the amount specified for a category of credit in paragraph 215.5(c) of Regulation O.

As of December 31, 2017, the sum of committed but undisbursed funds plus the outstanding balances of all loans to Regulation O executive officers, directors, principal shareholders and their businesses was \$23,708,457, which represented approximately 0.6% of our consolidated shareholders' equity and 0.8% of our risk-based capital at that date. All such loans are currently in good standing and are being paid in accordance with their terms.

DIRECTOR COMPENSATION

The Compensation Committee annually reviews its director compensation policy and in January 2017, the Committee affirmed the following statement of philosophy with regard to director compensation:

Umpqua's director compensation is designed to align the board of directors with its shareholders, and to attract, motivate, and retain high performing members critical to our Company's success. Our director compensation philosophy is simple: we pay our directors a competitive rate when compared to similar sized and performing financial services organizations.

Objectives – Umpqua Bank is committed to providing competitive compensation to our directors. Within that context, our prime objectives are to:

- Attract and retain highly qualified people that portray our Company culture and values.
- Ensure the preservation and creation of value for our shareholders.
- Align the interests of our directors, executives, and employees with our shareholders.

Conform to the highest levels of fairness, ethics, transparency, regulatory compliance and sound governance practice.

Director Compensation – The Compensation Committee will annually review director compensation, consistent with annual board evaluations and director elections for one-year terms. On a regular basis, at least every three years, the board will engage a third-party professional to perform an evaluation to ensure director

- compensation is fair and competitive. Any change to director compensation is first reviewed by the Compensation Committee of the board prior to full board review and approval. Currently, it is the Company's policy for director compensation to be paid in Company stock, which may be taken as deferred compensation; provided, however, that a director may elect to receive up to 30% of his or her retainer compensation in cash.

The Compensation Committee is charged with reviewing director compensation and recommending changes to the full board. The board of directors has adopted a Director Compensation Plan that sets forth the terms and manner in which non employee directors will be compensated for their service on the board of directors and committees of Umpqua and its subsidiaries.

In 2016, the Committee reviewed director compensation and recommended no changes for 2017 (other than providing that the Lead Director is compensated at the same level as an independent board Chair). The Board of Directors approved the Committee's recommendation.

2017 Schedule of Directors' Fees

Total Compensation

Position	Total	
	Retainer Payments (1)	Director RSAs
Board Chair/Lead Director	\$125,000	\$40,000
Audit and Compliance Chair	\$85,000	\$40,000
Other Committee Chairs	\$80,000	\$40,000
Participating Director	\$70,000	\$40,000

Each director serves on the board of Umpqua Holdings Corporation and Umpqua Bank but receives only one (1) quarterly retainer. Each director can make an annual election to have up to 30% of his or her retainer compensation paid in cash.

Umpqua also provides a nonqualified deferred compensation plan to its non-employee directors. Under this plan, each director may annually elect to place all or part of his or her director compensation for the coming year into the deferred plan. Under the plan, a director may choose to have distributions from the plan paid in a lump sum or in annual installments over three, five or ten-year periods following the date that the director leaves the board. Umpqua pays director compensation that is deferred under the plan in shares of its common stock, and prior to payment, the shares are held by a trustee but remain subject to the claims of general creditors of the Company. The dividends paid on those shares are credited to the director's account, but no interest or other compensation or earnings are paid by the Company with respect to the deferred account.

Director Compensation

The following table summarizes the compensation paid by the Company to non-employee directors for the year ending December 31, 2017, including the Director restricted stock awards to each director who was serving on the board following the election of directors at the April 2017 annual meeting of shareholders.

Name	Fees Earned or Paid in Cash (\$)	Stock		Total (\$)
		Awards (\$)	All Other Compensation (\$)	
(a) (1)	(b)(2)	(c)(3)	(g)(4)	(h)
Luanne Calvert (5)	\$10,500	\$24,530	-	\$35,030
Peggy Fowler	\$37,500	\$127,551	-	\$165,051
Stephen Gambee	-	\$110,059	-	\$110,059
James Greene	-	\$120,065	\$150,000	\$270,065
Luis Machuca	-	\$120,065	-	\$120,065
Maria Pope	-	\$110,059	-	\$110,059
John Schultz	-	\$110,059	-	\$110,059
Susan Stevens	-	\$120,065	-	\$120,065
Hilliard Terry III	\$24,000	\$96,069	-	\$120,069
Bryan Timm	-	\$125,050	-	\$125,050

Director O'Haver and retired director Davis are omitted from this table because as named executive officers they (1) received no separate compensation for service as directors, and their compensation is fully reflected in the Summary Compensation Table.

(2) Directors Calvert, Fowler and Terry elected to receive 30% of their retainer compensation in cash.

Amounts in column (c) are the value of (i) quarterly retainer compensation paid in February, May, August and November by issuing stock awards under the 2013 Plan with the value of such awards based on the closing price of Umpqua's common stock on the dates of issuance, and (ii) a restricted stock grant issued under the 2013 Plan that (3) vests on the day before the 2018 annual meeting of shareholders if the director is then serving on the board, subject to prorated vesting in the event of death, change in control or resignation in connection with an acquisition, based on the closing price of Umpqua's common stock (\$17.50) on the grant date (April 20, 2017).

In December 2017, the Compensation Committee and the independent directors, excluding Mr. Greene, approved a (4) payment to Mr. Greene of \$150,000 for Pivotus-related work. See "Director Independence."

(5) Former director Calvert served until the end of her term with the 2017 annual meeting.

Expenses incurred by directors in connection with attending meetings and our annual multi-day strategic planning session, such as travel costs and meals, are reimbursed by the Company. However, we consider such expenses to be integrally and directly related to the performance of the directors' duties, and accordingly such expenses are not considered to be personal benefits or perquisites and are not separately disclosed.

In addition, we invite the spouses of our directors and executive officers to attend our annual multi-day strategic planning session. We believe this event provides a valuable opportunity for our directors to strengthen relationships with senior executives, enhance leadership development and advance our business objectives. We believe the participation of spouses in the meals and social functions at the planning session contributes to the process. The Company reimburses spouses' travel expenses, and pays for meals and activities that may be considered to provide a personal benefit in connection with this event. In 2017, the total amount of reimbursed spouse travel and other expenses paid for spouses did not exceed \$10,000.

COMPENSATION DISCUSSION AND ANALYSIS ("CD&A")

Our CD&A is organized into four sections:

Section 1- Executive Summary

Section 2- Performance and Pay

Section 3- Compensation Process and Decisions for 2017

Section 4- Other Compensation Information

Please read this section of the proxy statement as you consider our say on pay resolution, which is Item 4 - Advisory Vote on Resolution to Approve Executive Compensation. The CD&A contains important information that may inform your voting decision and we believe supports voting in favor of our say on pay resolution.

Section 1 – Executive Summary

Compensation Program Highlights

Our say on pay resolution at last year's annual meeting received a favorable vote from more than 97% of the shares voted. Our Compensation Committee considered the results of the vote in making compensation decisions. Our 2017 compensation program retained the core governance components and compensation practices from 2016 as described in the table below.

CORPORATE GOVERNANCE

- Compensation Committee comprised of independent directors that reviews and approves executive compensation
- Annual review of company-wide benefit and incentive plans, including risk assessment of all incentive plans, by the Compensation Committee
- Compensation Committee engages its own independent advisors and consultants
- Governance and compensation focused outreach program to shareholders owning more than 75% of outstanding common stock

ANNUAL CASH INCENTIVES

- Meaningful 2017 operating earnings per share ("OEPS") targets including a "circuit breaker" with no annual incentive paid if operating earnings per share fell below \$1.02, up from \$0.92 from the prior year
 - o OEPS targets tied to key strategic initiatives including continued loan and deposit growth, excellent credit quality and management of non-interest expense
- Clawbacks in all plans

EQUITY
COMPENSATION

- At least 50% of equity awards to executive officers, and 100% of CEO awards based on objective performance metrics
- Performance-based equity award metrics of total shareholder return and return on average tangible common equity relative to a group of peers over a three-year performance period
- Time-based awards vest ratably over three years
- Double-triggers for acceleration of vesting in connection with a change-in-control
- Dividends on unvested restricted stock and performance share awards are paid only upon vesting
- Performance-based vesting awards include “circuit breaker”
- All equity awards are subject to clawback provisions
- 75% of net equity awards must be retained by executive officers until retirement or separation
- Equity incentive plan features:
 - o shareholder approval required to re-price stock options or replace or cash-out underwater options
 - o minimum one-year vesting period for stock awards

SOUND COMPENSATION
PRACTICES

- Stock ownership policy that requires minimum ownership as a multiple of annual base salary (4.0x for CEO and Executive Chairman, 2.0x for Presidents and 1.5x for other executive officers)
- No hedging of Company stock
- Employment agreements with double trigger change-in-control benefits
- No guaranteed bonuses other than in connection with recruitment of new hires, which include a payback component
- No income tax gross-ups except for executive relocation expenses
- Company policy continues to prohibit purely personal use of the Company’s leased aircraft
- Avoid incentive plans that promote excessive risk-taking

Financial Highlights

Our decisions for 2017 compensation reflect our 2016 and 2017 financial results. The Company accomplished the following:

• Full year 2017 earnings per diluted share of \$1.11 compared to \$1.05 for 2016 with operating earnings per diluted share of \$1.26 for 2017 compared to \$1.19 for 2016

• **Balanced growth:**

o total assets increased to \$25.7 billion at December 31, 2017 compared to \$24.8 billion at December 31, 2016

o gross loans and leases grew \$1.6 billion to \$19.1 billion as of December 31, 2017, across the Company's commercial, equipment finance, multifamily and residential real estate portfolios

o deposits were \$19.9 billion as of December 31, 2017, up 5% from December 31, 2016

• **Increased return on average assets from 0.97% to 0.98% year over year**

• **Return on average tangible common equity for 2017 was 11.45% for 2017 compared to 11.25%**

• **Continued strong credit quality:**

o net charge-offs to average loans and leases remained at 0.22% for 2017 compared to 2016

o non-performing assets were 0.37% of total assets as of December 31, 2017 compared to 0.25% as of December 31, 2016

• **Prudent capital management:**

o Total risk based capital of 14.1% and a Tier 1 common risk weighted ratio of 11.1% as of December 31, 2017

o Declared dividends of \$0.68 per share in 2017 compared to \$0.64 per share in 2016

Operating earnings, metrics based on operating earnings, and tangible book value per share, are "Non-GAAP" financial measures. More information regarding these measurements and a reconciliation to the comparable GAAP measurement is provided in Part II, Item 7 of our Form 10-K, which is delivered or made available with this proxy statement.

The Company's focus has been on growth and positioning for the long term. In 2017, we emphasized prudent capital management, deposit and loan growth, and a continued focus on maintaining strong credit quality, and our new CEO developed a long-term strategy focused on enhancing shareholder value.

Key Compensation Decisions

The components of compensation and our compensation philosophy have not materially changed over the past five years; we remain focused on meaningful performance-based compensation and competitive base salaries, with 100% of our CEO's long-term and short-term (annual) incentives based on performance.

Each year our independent Compensation Committee engages in extensive discussions in meetings held over several months. The Committee meets with its independent consultant to review best practices and receive a competitive assessment of executive officer compensation compared to peers. The Committee reviews total compensation and approves each of the elements of executive officer compensation, and reviews whether compensation programs and practices carry undue risk.

Key decisions for 2017 compensation included:

- With Mr. O'Haver's promotion to President and Chief Executive Officer, we increased his base salary to reflect the additional executive responsibilities

The Company achieved operating earnings per diluted share of \$1.26, resulting in a 100% payout in the OEPS component of the 2017 annual incentive plans, which represents between 60-80% of total achievable target incentive for the named executive officers

- o The annual incentive plan payouts to named executive officers serving at year end ranged from 75% to 100% of target

- o At year-end 2017, the Company realized a net benefit to the provision for income taxes of \$26.9 million with the passage of the Tax Cuts and Jobs Act, which increased OEPS for the year—the Committee considered and agreed with our CEO's recommendation to set OEPS performance level at 100% rather than 125% due to a number of factors including in part the impact of tax reform and the decision to fund certain investments at year-end

Performance-based equity awards issued in 2017 are based 50% on total shareholder return relative to the KRX index and 50% on return on average tangible common equity compared to the same peer group used to perform the Compensation Committee's annual competitive assessment

- A majority of the equity awards issued to named executive officers in 2017 include vesting conditions based on the two performance-based conditions relative to peers:

- o Awards to Mr. O'Haver were 100% performance-based;
- o Awards to Mr. Farnsworth were 70% performance-based; and
- o Awards to Ms. Delorier and Mr. Nixon were 60% performance-based.

Mr. Davis assumed the role of Executive Chair on January 1, 2017, which included Umpqua board chair duties, continued responsibility as CEO of our Pivotus Ventures, Inc. subsidiary, and ensuring a seamless CEO transition.

- The Committee kept Mr. Davis's salary at the same level as 2016 and established an annual cash incentive plan with objective performance conditions based on Pivotus initiatives (50%), as well as Umpqua OEPS (40%) and regulatory (10%) components. The Committee decided not to award long-term incentives to Mr. Davis as the Executive Chair role was a one-year transition role. We completed the successful CEO transition in 2017.

Section 2 – Performance and Pay

We maintain a strong pay for performance philosophy that links executive compensation to achieving the operating and financial goals set by the board. In order to promote the development of our business on a range of measures, our annual incentive plan goals differ from our long-term incentive goals.

Our annual incentive plans are based primarily upon OEPS targets; our long-term performance-based equity grants are tied to relative total shareholder return (“TSR”) and to relative return on average tangible common equity (“ROATCE”) compared to peers. Our OEPS targets are set by the Compensation Committee based on the Company’s budget, which includes growth and expense targets that align with our strategic initiatives. The Compensation Committee Chair serves Vice Chair of the board’s Finance and Capital Committee, which reviews and recommends the Company’s budget. Our executives play a major role in achieving OEPS performance against those targets, but they have less direct influence over our stock price. We believe that increasing OEPS and deploying excess capital will, over time, result in an increase in the Company’s stock price.

Prior to 2016, the majority of equity incentive grants to executives were tied exclusively to the Company’s TSR compared to the KBW Regional Bank Index (the “KRX”), an index of regional bank stocks compiled by Keefe, Bruyette and Woods, Inc., an investment bank focused on the financial services sector. The index is comprised of approximately 50 regional bank / bank holding company stocks, including Umpqua and all of the 19 institutions included in the peer group utilized by our Compensation Committee, ranging in size from approximately \$5.0 to \$45.0 billion in assets as of December 31, 2017. We believe the use of TSR directly links executive compensation to the returns realized by our shareholders, and that a measure based on return on equity links executive compensation to the creation of long-term value for shareholders, with the combination of metrics ensuring that our awards are not advantaged or penalized by general market conditions. The following are the vesting levels of the three-year performance-based equity awards granted in the years indicated with relative TSR vesting conditions:

2012 performance share awards vested in 2015 at:	100%
2013 performance share awards vested in 2016 at:	88.4%
2014 performance share awards vested in 2017 at:	47.6%
2015 performance share awards vested in 2018 at:	82.6%

In 2017, 100% of the equity grants to our CEO and 100% of his annual incentive plan were performance-based.

The following chart illustrates the connection between our CEO’s Realized Compensation, Realizable Compensation, and the Actual Value (defined below) of CEO compensation for the years 2013 through 2017 and Umpqua’s TSR over the period from December 31, 2012 through December 31, 2017. Compensation amounts for 2013 through 2016 represent Mr. Davis’s compensation and compensation amounts for 2017 represent Mr. O’Haver’s compensation. The compensation values shown below do not necessarily correspond to, and are not a substitute for, the amounts disclosed in the Summary Compensation Table and supplemental tables.

Realized Compensation includes salary, bonus, non-equity incentive compensation, and “all other compensation”, as reported in the Summary Compensation table. It also includes the value of options and awards recognized as disclosed in the Option Exercises and Stock Vested table. The Company believes Realized Compensation better measures compensation for the current annual period as compared to the Summary Compensation table which includes the accounting value of awards and options issued in the period, but which may or may not be realized in the future.

Realizable Compensation includes Realized Compensation and the unrealized value of outstanding in-the-money options and unvested stock awards held as of the measurement date based on the closing price of the Company stock at year-end. As the unrealized value may or may not be realized in the future, and may be realized in various future annual periods, the Company believes Value of Compensation is a better measure of compensation for an annual period.

Value of Compensation includes Realized Compensation and the change in the unrealized value of outstanding in-the-money options and stock awards used in the Realizable Compensation value during the year. The Company believes Value of Compensation provides the economic value of compensation to the executive for each period.

The following graph shows Umpqua's total shareholder return compared with the KRX total return index over the past five years.

The following graph compares Umpqua's total shareholder return to the KRX total return over one, three, five and ten-year periods.

Section 3 – Compensation Process and Decisions for 2017

Roles and Responsibilities of the Compensation Committee

The Compensation Committee carries out the board’s overall responsibilities with respect to executive compensation, director compensation and review of the CEO’s performance with respect to his long-term and annual incentive plans. The board reviews the CEO’s performance with respect to the Company’s financial performance and strategic plan. The CEO is not present during discussions regarding his compensation. The Committee also oversees administration of the Company’s employee benefit plans, including the Umpqua Bank 401(k) and Profit Sharing Plan and Supplemental Retirement / Deferred Compensation Plan. All Committee members are required to meet the NASDAQ and SEC independence and experience requirements.

The Compensation Committee operates under a written charter, which is posted on our website at <https://www.umpquabank.com/investor-relations>. The Committee annually reviews its charter and recommends changes to the board. The Committee Chair sets the Committee’s meeting agenda and calendar. As authorized by its charter, the Committee routinely hires independent advisors and consultants for advice on compensation matters.

Identification of Named Executive Officers

For 2017, our “named executive officers,” as defined in Item 402 of Regulation S-K, were:

Name	Title	Designation
Cort L. O’Haver	President and Chief Executive Officer	Principal Executive Officer
Raymond P. Davis	Executive Chair	
Ronald L. Farnsworth	Executive Vice President/Chief Financial Officer	Principal Financial Officer
Rilla S. Delorier	Executive Vice President/Chief Strategy Officer	
Torran (Tory) B. Nixon	Executive Vice President/Commercial and Wealth	

Role of the Chief Executive Officer

Our CEO is actively engaged in recommending the compensation of our other named executive officers. At the end of each fiscal year, he reviews with the Compensation Committee the performance of each executive officer and recommends the level of base salary and incentive compensation as well as equity grants for the ensuing year. As part of the CEO succession transition, in late 2016 and early 2017, Mr. Davis and Mr. O’Haver reviewed performance of the other executive officers and Mr. Davis recommended 2017 salaries, target incentives and equity awards. The Committee reviews those recommendations and compares them with market information to ensure that executive compensation is competitive and that the CEO is exercising appropriate discretion. The Committee reviews, and ratifies or approves, all components of the compensation for executive officers covered by NASDAQ requirements, including salary, annual incentives, long-term incentive compensation and internal pay equity.

Our Executive Vice President/Associate Relations works with our CEO, our business unit executives, General Counsel and, as appropriate, outside counsel and consultants to recommend and design the overall structure of the Company’s incentive and benefit plans.

Role of the Compensation Consultant/Evaluation of Independence

The Compensation Committee reviews information provided by recognized, independent compensation consultants including survey or “benchmarking” data, peer group recommendations and plan design suggestions. The Committee uses this information to understand prevailing market practices and aggregate, as well as component, compensation packages provided by financial services companies similar to Umpqua in size and scope. The Committee considers this advice along with Company performance, individual performance and internal pay equity when making compensation decisions.

As noted below, the Compensation Committee engaged Willis Towers Watson, an independent consulting firm, to review and provide recommendations about components of our executive compensation program. The Committee received a letter from Willis Towers Watson assessing that firm's independence and the Committee made its own assessment of the independence of Willis Towers Watson pursuant to SEC rules and concluded that no conflict of interest exists that would prevent Willis Towers Watson from independently advising the Committee.

Executive Compensation Philosophy

The Company has adopted the following written statement of its executive compensation philosophy, which is reviewed annually by the Compensation Committee:

Decisions regarding executives' total compensation program design, as well as individual pay decisions, will be made in the context of this Executive Compensation Philosophy and our ability to pay, as defined by our financial success. We designed Umpqua's executive compensation to recognize superior operating performance thereby maximizing shareholder value, and to attract, motivate and retain the high performing executive team critical to our Company's success. Our executive compensation philosophy is simple: we pay competitive base salaries and we strongly reward performance.

Objectives – Umpqua Bank is committed to providing competitive compensation opportunities based on performance to our executives who collectively have the responsibility for making our Company successful. Within that context, our prime objectives are to:

• Attract and retain highly qualified executives that portray our Company culture and values.

• Motivate executives to provide excellent leadership and achieve Company goals.

• Provide substantial performance-related incentive compensation that is aligned to our business strategy and directly tied to meeting specific business objectives, avoiding unnecessary and excessive risks that threaten the value of the Company.

• Strongly link the interests of executives to the value derived by our shareholders from owning Company stock.

• Connect the interests of our executives, our employees, and our shareholders.

• Be fair, ethical, transparent and accountable in setting and disclosing executive compensation.

Components of Compensation

Base Salary – Base pay opportunities should be fully competitive with other relevant organizations within the markets in which we compete. Individual salary determinations involve consideration of incumbent qualifications, behaviors, cultural adherence, and performance.

Short-Term Incentives – Consistent with competitive practices, executives should have a significant portion of their targeted annual total cash compensation at risk, contingent upon the Company meeting its profitability goals, regulatory goals and personal objectives.

Long-Term Incentives – Executives who are critical to our long-term success should participate in long-term incentive opportunities. At least 50% of equity awards should be “performance-based,” to link a significant portion of total compensation to shareholder value.

Executive Benefits – We offer benefit programs, such as health insurance, 401(k) plan, vacation, and life insurance, similar to the programs that are offered to our employees.

Plan Design and Objectives

The following table shows the characteristics of each type of compensation that we paid in 2017:

Compensation Element	Fixed or At Risk	Annual or Long Term	Cash or Equity	Primary Purpose
Base Salary	Fixed	Annual	Cash	Provide fixed cash compensation based on experience, skills, responsibilities and competitive pay levels.
Annual Incentive / Performance Compensation Award	At Risk	Annual	Cash	Encourages Executive To Maximize operating earnings per share and achieve satisfactory regulatory examination ratings.
Restricted Stock Awards with time-based vesting	At Risk	Long Term	Equity	Act in the best interests of shareholders by aligning interests over the long term and as a retention device to continue to work for the Company.
Performance Share Awards	At Risk	Long Term	Equity	Generate a total shareholder return that exceeds a regional bank stock index and a return on tangible common equity that exceeds the Compensation Committee selected peer group.

The following table shows the ratio that each type of compensation bears to total compensation earned by the named executive officers in 2017. Total annual compensation consists of base salary received (fixed), annual incentives paid for 2017 (at risk) and value of equity awards granted in 2017 (at risk). For Ms. Delorier, her 2017 cash compensation also includes a signing bonus paid at the commencement of employment in April 2017. Total compensation consists of total annual compensation and “all other compensation” from the Summary Compensation Table; equity compensation consists of the value of restricted stock and performance share awards, as calculated in the Summary Compensation Table.

Executive Officer	% of Total Annual Compensation That Was		% of Total Compensation Paid in:	
	Fixed	At Risk	Cash	Equity
Cort O’Haver	24%	76%	51%	49%
Ray Davis	57%	43%	100%	0%
Ron Farnsworth	29%	71%	55%	45%
Rilla Delorier	30%	70%	70%	30%
Tory Nixon	37%	63%	65%	35%

Base Salary

The purpose of base salary is to create a secure base of cash compensation for executives that is competitive with the market. Executive salary increases do not follow a preset schedule or formula; however, the following are considered when determining appropriate salary levels and increases:

the individual’s current and sustained performance results and the methods utilized to achieve those results;
non-financial performance indicators, to include strategic developments for which an executive has responsibility (such as product development, expansion of markets, increase in organic loan or deposit growth and acquisitions) and

managerial performance (such as service quality, sales objectives and regulatory compliance);
the Company's financial performance; and

37

peer data and benchmarking or competitive assessment reports.

Individual and Company Performance

A significant component of compensation is related to performance. We believe that an executive's compensation should be tied to how well the individual executive, the executive's team and the Company perform against both financial and non-financial goals and objectives. The board annually establishes the financial goals for the incentive compensation program. Non-financial goals include satisfactory performance on all internal and external regulatory exams and audits (for all executives) and achievement of the business unit financial goals developed through the budgeting process (for each individual named executive officer except the CEO).

Short-Term and Long-Term Incentives

Incentive compensation balances short and long-term performance. We try to focus all senior managers on achieving strong short-term or annual results in a manner that will ensure the Company's long-term viability and success. Therefore, to reinforce the importance of balancing these perspectives, senior management is regularly provided with both annual and long-term incentives. Participation in long-term incentive programs increases with higher levels of responsibility, as employees in these leadership roles have the greatest influence on the Company's strategic direction and results over time.

Annual Incentives

The purpose of annual incentive plans is to provide cash compensation on an annual basis that is at risk and contingent on the achievement of annual business and operating objectives, as well as personal goals and objectives.

The Compensation Committee and the board have selected OEPS as the key annual financial performance measurement for the following reasons:

- earnings per share ("EPS") is the single most important indicator of profitability, which measures earnings allocable to each outstanding share of common stock;

- EPS aligns the interests of executive officers with shareholders; and

- OEPS eliminates certain income and expense items as described below.

We use OEPS, which is a non-GAAP financial measure because we believe it is useful in assessing Company performance. When calculating OEPS, we exclude the following income and expense items due to their one-time nature or relationship to market externalities:

- gains or losses on our junior subordinated debentures carried at fair value resulting from changes in interest rates and the estimated market credit risk adjusted spread that do not directly correlate with the Company's operating performance;

- expenses that are related to the completion and integration of mergers and acquisitions or related to exit or disposal costs of certain business activities;

- gains or losses from the change in fair value of the Company's mortgage servicing rights;

- gains or losses from the change in fair value of swap derivatives; and

- net gains or losses on investment securities.

Historically, when relevant, we have also excluded:

- one-time bargain purchase gains on certain FDIC-assisted acquisitions that are not reflective of Umpqua's on-going earnings power; and

- exit or disposal costs and other charges related to business combinations such as goodwill impairment charges or bargain purchase gains.

All of these items are excluded net of their tax impact. We calculate operating earnings (loss) per diluted share by dividing operating earnings by the same diluted share total used in determining diluted earnings per common share.

The board believes that regulatory compliance is critical to the success of the Company and, accordingly, allocated 10-20% of executive officers' target annual incentives to maintaining satisfactory or better regulatory compliance, which is an objective standard. Federal bank regulations prohibit disclosure of all or any portion of an examination report and from making any representations about such a report, so we do not disclose our regulatory targets or our performance against those targets.

At the beginning of each year, we adopt an annual incentive plan that provides for cash incentive compensation to be awarded to our CEO and our other named executive officers upon achievement of the Company's operating earnings and regulatory goals set by the board for our CEO and other named executive officers, and the individual budgeted business unit profitability or expense control objectives, and other corporate initiatives, established for the other named executive officers.

Each executive is assigned a target incentive, which is a percentage of base salary. The overall target incentive is set annually by the Compensation Committee based on market comparables for similar positions, total compensation and internal groupings of executives. The Committee also assigns a maximum incentive above the target incentive. Achievement of the target incentive is based on the success of the Company and the individual executive in certain performance areas, as more particularly discussed in the section titled 2017 Executive Compensation Decisions.

The annual incentive plan for each named executive officer also includes a "negative discretion" component that allows the Compensation Committee to consider significant one-time events that might affect, for example, earnings per share, and reduce the award that would otherwise be suggested by rigid computation of the formula in the plan.

The annual incentive plans of all named executive officers require the executive to repay to the Company any incentives awarded based on earnings per share for a particular period if it is later determined that the earnings per share were materially inaccurate. This plan provision, often called a "clawback," was first implemented in 2007 and has never been triggered. Since 2009, "clawback" provisions have been incorporated in the annual incentive compensation plans of all Company managers.

Long-Term Incentive Compensation

Under the shareholder-approved 2013 Incentive Plan, the Company may award the following forms of long-term incentives to executives: stock options, stock appreciation rights ("SARs"), restricted share awards ("RSAs"), restricted stock units ("RSUs"), performance share awards, and performance compensation awards. From 2011 through awards made in 2015, the Compensation Committee set total shareholder return compared to the KRX total return index as the performance metric. As a retention device and an important competitive component of compensation, the Committee grants a portion of annual equity awards as time vested RSAs to executive officers other than the CEO. At least 60% of equity awards to named executive officer have had performance-based conditions.

Based on market information and advice from its compensation consultant, the Committee decided to provide only performance-based equity grants to the CEO in an amount equal to the value of one year's annual salary and target cash incentive, which totaled 86,000 shares for 2017.

In 2017, the Committee maintained the same mix of time and performance based awards and continued to use two performance metrics—ROATCE relative to the same peer group used by the Committee to conduct its annual competitive assessment of executive compensation and TSR compared to the KRX.

Performance share awards and RSAs are awarded subject to vesting requirements and, for a majority of the executive officer awards, subject to the Company achieving predetermined financial goals, measured based on performance relative to a peer group over three years. Time-vested RSAs serve to help retain key executive talent, as well as attract and retain non-executive employees who make a significant contribution to the Company. Performance share awards also provide an incentive to focus on long-term strategies that we believe will create value for shareholders, increase

the Company's stock price and return capital to shareholders. In February 2017, we issued RSAs and performance share awards under the 2013 Plan to executive officers.

The 2017 performance share awards to executive officers were subject to the following vesting conditions:

FOR 50% OF THE PERFORMANCE-BASED AWARDS

Umpqua's 3-Year TSR Performance compared to the KRX total return index (KRXTR)	Vesting Percentage
Lower than 60%	0 %
60% between 60% and 100%	25 %
100% (Umpqua's TSR Performance equals or exceeds the KRXTR Performance)	**
Above 100%	100 %

FOR 50% OF THE PERFORMANCE-BASED AWARDS

Umpqua's 3-Year ROATCE Performance compared to the Compensation Committee peer group	Vesting Percentage
Lower than 60%	0 %
60% between 60% and 100%	25 %
100% (Umpqua's ROATCE performance equals or exceeds the peer group performance)	**
Above 100%	100 %

When TSR or ROATCE Performance is between 60% and 100% relative to peers, such results will be interpolated ** on a straight-line basis to determine the applicable Vesting Percentage. For example, 80% TSR or ROATCE Performance represents the midpoint of TSR or ROATCE Performance and would result in the midpoint of the Vesting Percentage (62.5%).

When TSR or ROATCE Performance is between 100% and 150% relative to peers, the Vesting Percentage is *** equal to the applicable TSR or ROATCE Performance. If TSR or ROATCE Performance exceeds 150%, the applicable Vesting Percentage is the maximum of 150%.

Our multi-year vesting schedules are designed to retain executives, and more closely align the interests of our executive officers and our shareholders.

The mix of equity awards made in 2017 is shown in the following table:

Name	Time Performance		Vested Share	
	RSAs	Awards		
Davis	N/A	N/A		
O'Haver	0	% 100	%	%
Farnsworth	30	% 70	%	%
Delorier	40	% 60	%	%
Nixon	40	% 60	%	%

Other Annual Compensation - Benefits and Perquisites

We provide benefit programs to executive officers and to other employees. The following table identifies the benefit plans and identifies those employees who may be eligible to participate:

Benefit Plan	Named Executive Officers	Certain Managers	Full Time Employees
401(k) Plan	•	•	•
Group Medical/Dental/Vision	•	•	•
Group Life and Disability	•	•	•
Annual Manager Incentive Plan	•	•	
Severance	•	•	•
Change in Control	•	•	
Supplemental Retirement	•	•	
Supplemental Executive Retirement (1)	•		
Deferred Compensation Plan (2)	•	•	

(1) Mr. Davis is the only employee with a Supplemental Executive Retirement Plan, which was implemented in 2003.

In connection with acquisitions, the Company has assumed deferred compensation plans that benefit past and present employees. In 2008, the Company adopted a non-qualified deferred compensation and supplemental retirement plan that allows eligible officers to make payroll deferrals to a deferred compensation account and to elect a deferred distribution date, and allows the Company to make discretionary contributions.

The Company provides modest perquisites to named executive officers, which are common in the financial services industry and help the Company attract and retain key executives. Some perquisites are intended to serve an Umpqua business purpose, but it is understood that some may be used for personal reasons as well. Our perquisites are disclosed in the Summary Compensation Table and itemized in a supplemental table in the footnotes.

Umpqua has adopted a policy that governs use of the aircraft leased by the Company. That policy generally provides that the CEO or CFO must approve any use of this aircraft and it prohibits any purely personal use, regardless of whether the officer reimburses the Company for that use. If the officer is accompanied on a business trip by a spouse or other guest, the officer must reimburse the Company for the spouse or guest's use of the aircraft in accordance with the Standard Industry Fare Level formula. If the officer's spouse accompanies the officer on the aircraft for the purpose of participating in business functions, that use is not deemed to be personal use.

Stock Ownership and Retention Policies

We believe that key executives should have a significant stake in the performance of the Company's stock, to align their decisions with creating shareholder value and to minimize negative market perceptions caused by excessive insider sales of Company shares. Our Statement of Governance Principles (posted on our website) requires directors and executive officers to accumulate a meaningful position in Company shares. Our stock ownership requirement for outside directors and executive officers is tied to a multiple of director compensation for directors and a multiple of base salary for the executive officers, as noted below:

	Minimum Ownership
Position	(multiple of annual base salary)
CEO	4.0
President	2.0
Other EVPs	1.5
	Minimum Ownership
Directors	(multiple of annual director compensation)
Outside Director	4.0

Under this policy, share ownership is determined from the totals on Table 1 of SEC Form 4, which includes unvested RSAs and shares in which beneficial ownership is disclaimed, but excludes outstanding stock options and RSUs. Compliance with share ownership guidelines is reviewed annually by the Governance Committee. This minimum ownership must be achieved within five years after the officer or director takes office. As of December 31, 2017, all directors and executive officers satisfied these requirements or had not yet served for five years.

In addition, named executive officers must retain a substantial portion of the equity awards granted by the Company. A named executive officer must retain 75% of the following awards until the officer retires:

- Gains from option exercises (shares remaining after payment of the exercise price and taxes);
- Vested RSAs (net of tax withholdings); and
- Shares issued in payment of RSUs (net of tax withholdings).

Exceptions to this holding requirement may be granted only by the Compensation Committee based upon bona fide personal financial need or family hardship, including divorce or death of a spouse.

Directors and executive officers may sell no more than 15,000 shares per calendar year, unless he or she obtains authorization in a hardship situation from the Compensation Committee. A director or officer may, however, sell shares to cover the exercise price and estimated taxes associated with an option exercise or RSA vesting. Our policy also prohibits directors and executives from engaging in transactions in which they may profit from short term speculative swings in the market value of Umpqua stock. These prohibited transactions include “short sales” (selling borrowed securities which the seller hopes can be purchased at a lower price in the future); “short sales against the box” (selling owned, but not delivered securities); “put” and “call” options (publicly available rights to sell or buy Umpqua shares at a specific price within a specified period of time); and derivative transactions, such as non-recourse loans secured by Company stock.

In 2017, the named executive officers, as a group, acquired 70,811 shares of Company stock through vesting of restricted share or unit grants and exchanged 26,327 shares to pay taxes in connection with vesting. The group, as a whole, exercised stock options for 15,000 shares, and surrendered 12,199 shares to the Company to cover the cost of the exercise price and the taxes in connection with the exercise.

Equity Compensation Plan Practices

In general, we issue long-term equity incentives to our named executive officers at the following times: (i) upon initial employment with the Company; (ii) in the first quarter of each year, in connection with establishing their long-term incentive compensation component of their compensation; and (iii) in connection with a significant advancement or promotion or a significant change in compensation arrangements.

We only issue stock options when the trading window is open for Section 16 reporters. This way, the stock price at the time of the grant can be reasonably expected to fairly represent the market’s view of our results and prospects. We have never re-priced or back-dated options granted under any of Umpqua’s equity compensation plans. See tables titled Grants of Plan-Based Awards and Outstanding Equity Awards at Fiscal Year-End.

As noted above, we have adopted stock ownership guidelines and a “hold to retirement” policy that severely restrict the ability of our named executive officers to turn equity grants into cash. However, these restrictions are not reflected in the FASB ASC 718 values attached to those grants.

Severance and Change in Control

The occurrence or potential occurrence of a change in control transaction can create uncertainty regarding the continued employment of our executive officers. These transactions often result in significant organizational changes, particularly at the senior executive level. We believe that change in control benefits eliminate or at least reduce any reluctance of executive officers to actively pursue potential change in control transactions that may be in the best interest of shareholders, and also are competitive in the industry. Accordingly, we provide such protection for all of

our named executive officers under their respective employment agreements. Our CEO recommends to the Compensation Committee the level of benefit to be provided to an executive, and the Committee considers that recommendation and makes a final decision. We consider these severance protections to be an important part of an executive's compensation and consistent with similar benefits offered by our competition.

All of our change in control provisions are “double trigger,” such that the benefit is paid only if there is both a change in control transaction and a qualifying termination of employment. In order to encourage certain executive officers to remain employed following a change in control, if the executive continues to work for the acquiring company for more than 12 months after the change in control transaction, the executive receives a reduced retention benefit in lieu of a change in control benefit. As a condition to receiving these severance benefits, the executive must agree not to compete with the Company, or its successor, and not to solicit customers or employees for a period following separation. See table titled Potential Payments Upon Termination or Change in Control.

2017 Executive Compensation Decisions

2017 Base Salary and Annual Incentive Targets Named Executive Officers

In 2016, the Compensation Committee independently engaged Willis Towers Watson to provide analysis of our peer group and an executive compensation competitive analysis, including peer group comparisons, of our executive officers. Except for executive compensation program review, recommendations and peer data analysis services, neither Willis Towers Watson nor any of its affiliates provided services to Umpqua or its affiliates during the past three years. After reviewing the existing peer group with Willis Towers Watson, and noting the continued significant overlap of the peer group with those used by ISS and Glass Lewis and that all of the institutions included in the KRX Index (the index used to compare company total shareholder return performance for equity awards), the Committee maintained the same peer group from the prior year, which includes banks and bank holding companies with assets ranging from \$13.8 to \$44.3 billion:

Company Name	Ticker	Company Name	Ticker
Associated Banc-Corp	ASBC	Prosperity Bancshares, Inc.	PRSP
Bank of Hawaii Corporation	BOH	Signature Bank	SBNY
BOK Financial Corporation	BOKF	Synovus Financial Corp.	SNV
Commerce Bancshares, Inc.	CBSH	TCF Financial Corporation	TCB
Cullen/Frost Bankers, Inc.	CFR	Trustmark Corporation	TRMK
East West Bancorp, Inc.	EWBC	UMB Financial Corporation	UMBF
First Horizon National Corporation	FHN	Valley National Bancorp	VLV
Fulton Financial Corporation	FULT	Webster Financial Corporation	WBS
Hancock Holding Company	HBHC	Wintrust Financial Corporation	WTFC
Popular, Inc.	BPOP		

In setting 2017 base salaries and incentive targets, the Compensation Committee and management referred to and considered the data and recommendations contained in an executive compensation analysis provided by Willis Towers Watson using the above peer group. Management prepared a pro forma summary compensation table, which was used by the Committee as comparative tally sheets for review of named executive officer compensation.

In December 2016 and January 2017, Mr. Davis met with the Compensation Committee to review recommendations for the other named executive officers, based on performance evaluations and the Willis Towers Watson compensation data. The Committee approved the base salaries and incentive targets in the table below for the named executive officers.

	2017 Base Salary	% increase over salary prior year-end	Target Incentive	% increase over prior year	Target Incentive as a % of Base Salary	Target Cash Compensation (Base plus Incentive)
Davis	\$950,000	0 %	\$950,000	0 %	100 %	\$1,900,000
O'Haver	\$750,000	32.7 %	\$750,000	56.2 %	100 %	\$1,500,000
Farnsworth	\$450,000	5.9 %	\$360,000	5.9 %	80 %	\$810,000
Delorier*	\$485,000	N/A	\$388,000	N/A	80 %	\$873,000
Nixon	\$460,000	0 %	\$368,000	6.7 %	80 %	\$828,000

*Ms. Delorier joined Umpqua in April 2017.

With his promotion to CEO, the Committee increased Mr. O’Haver’s target incentive to 100% of salary. As Mr. Nixon expanded the scope of his responsibilities, Mr. O’Haver recommended, and the Committee approved, an increase in Mr. Nixon’s target incentive from 75% to 80%, commensurate with other named executive officers.

2017 Incentive Compensation Earned by the Named Executive Officers

The Compensation Committee considered a variety of possible performance areas and determined that the following performance categories would focus the named executive officers on objectives that would benefit the Company and its shareholders:

- corporate financial targets-measured by operating earnings per share;

- regulatory compliance;

- business unit budgeted profitability or expense;

- corporate initiative related to expense control; and

- Pivotus business unit goals for Mr. Davis (50% of target incentive) and Mr. O’Haver (10% of target incentive)

For Mr. Davis, the Committee considered his primary focus for the year to be on Pivotus Ventures, Inc. and created objective, measurable goals for leadership of that business unit. The Committee utilized the corporate OEPS and regulatory components for the other half of Mr. Davis’s target incentive.

The Compensation Committee avoids subjective elements for annual incentive plans for named executive officers to eliminate any perception that it could exercise positive discretion with respect to any named executive officer’s annual incentive plan. The CEO reports individual executive performance, which includes subjective assessments, to the Compensation Committee. The Compensation Committee also retains the discretion to apply “negative discretion” to reduce awards.

OEPS targets are set by the board based upon the Finance and Capital Committee’s budget recommendation. The Compensation Committee Chair served as Vice Chair of the Finance and Capital Committee and all members of the Compensation Committee participate in the board budget approval. The Company does not offer guidance on our OEPS, earnings per share or growth rate targets, and we regard these internal targets as confidential. However, we provide the Company-wide OEPS target on a historical basis. The OEPS target for 100% payout of the financial component is intended to be challenging but achievable, tied to completion of strategic initiatives and requiring year-over-year growth or increases in value. The potential payout ranges for 2017 ranged from 0% to 150% of base salary.

Historically, our OEPS targets have not been easy to achieve. The following table compares actual results against target OEPS and shows the percentage payment of the corporate financial target incentive for the years 2012-2016:

Year	OEPS for 75% Payout*	OEPS for 100% Payout	OEPS (fully diluted)	% Payout of OEPS Component
2012	\$0.66-\$0.76	\$0.77-\$0.86	\$0.93	125%
2013	\$0.85-\$0.95	\$0.96-\$1.06	\$0.94	80%
2014	\$0.92-\$1.019	\$1.02-\$1.119	\$1.08	100%
2015	\$1.10-\$1.199	\$1.20-\$1.299	\$1.15	75%
2016	\$1.02-\$1.119	\$1.12-\$1.219	\$1.19	100%
2017	\$1.10-\$1.179	\$1.18-\$1.259	\$1.26	100%**

*80% prior to 2015

**OEPS resulted in potential payout of 125%, but management recommended a 100% cap.

The achievement of compliance and regulatory goals, as measured by ratings achieved in regulatory examinations and internal audit and compliance reviews are objective standards, as are the budgeted income and expense goals for the business units that are within the jurisdiction of the other named executive officers. These objective standards are consistent with the 2013 Plan and comprise 100% of the target incentive for named executive officers.

In January 2018, the Compensation Committee reviewed 2017 OEPS, regulatory, budget-to-actual and corporate expense initiative results against the incentive plans for each of the named executive officers. The Committee determined that the Company's OEPS for 2017 exceeded the target range, but agreed with management's recommendation to cap at target, or 100%, payout for the OEPS component. The Committee also determined that the named executive officers earned a 100% payout of the regulatory/compliance component and an 98-102% payout of the business unit financial goal, and that Ms. Delorier and Mr. Nixon did not achieve the corporate initiative. The Committee determined not to exercise its negative discretion with respect to any named executive officer. The Committee also reviewed Mr. Davis's and Mr. O'Haver's performance to Pivotus metrics.

The 2017 incentive compensation awarded to each named executive officer, itemized by category (with the percentage indicating percent of target for the specific metric), is as follows:

Name	OEPS %	Regulatory %	Financial* %	Pivotus %	Corp Initiative %	Total Paid %	Target	Total as a % of Target						
O'Haver	\$525,000	70	\$150,000	20	N/A	- \$75,000	10	N/A	- \$750,000	\$750,000	100	%		
Davis	\$380,000	40	\$95,000	10	N/A	- \$237,500	50	N/A	- \$712,500	\$950,000	75	%		
Farnsworth	\$252,000	70	\$54,000	15	\$55,080	15	N/A	-	N/A	- \$361,080	\$360,000	100.3	%

Nixon	\$220,800	60	\$36,800	10	\$72,128	20	N/A	-	-	10	\$329,728	\$368,000	89.6	%

*Business unit profitability goal measured against budget for the year.

The Compensation Committee also reviewed the objective components of the annual performance reviews of the other named executive officers. In determining whether to exercise negative discretion with respect to any of those officers, Mr. O'Haver presented his evaluation of the performance of each of the other named executive officers and recommended the 2017 annual cash incentives to be paid to each executive officer. The Committee places significant weight on the CEO's incentive award recommendations, but the Committee independently reviewed and approved those recommendations.

2017 Long Term Incentive Compensation

In January 2017, the Compensation Committee approved an award of 86,000 performance-based RSAs to Mr. O'Haver. After reviewing competitive data for the CEO position and Mr. O'Haver's expanded responsibilities as CEO, the Committee determined that the aggregate equity awards to the CEO should be valued at not less than his base salary and target.

To provide a mix of performance awards for shareholder alignment and time vested awards for retention purposes, Mr. Farnsworth received awards allocated 70% to performance-based vesting and 30% to time vesting, and Ms. Delorier and Mr. Nixon received awards allocated 60% to performance-based vesting and 40% to time vesting. These grants are described in the Grants of Plan-Based Awards table. The Committee approved the CEO's recommendations with respect to the equity awards.

All of the performance-vested shares condition vesting on the Company's TSR performance compared to the KRX total return index (50%) and the Company's ROATCE performance compared to the Compensation Committee selected peer group (50%). The performance vesting conditions are the same for all named executive officers. See Long Term Incentive Compensation, above. The Committee also confirmed the satisfaction of vesting conditions of TSR-based awards originally granted in 2014.

Internal Pay Equity

In January 2017, the Compensation Committee considered internal pay equity when it reviewed the total compensation paid to the CEO, as compared to the other named executive officers and the CEO's other direct reports. Based on its review, the Committee was satisfied that the comparative relationship between the compensation of the CEO and Umpqua's other named executives is appropriate.

Section 4 – Other Compensation Information

Role of Tax and Regulatory Requirements

Section 162(m) of the Internal Revenue Code generally places a \$1 million limit on the amount of compensation a company can deduct in any one year for certain executive officers. Prior to the passage of the Tax Cuts and Jobs Act in December 2017, compensation that qualified as performance-based, as defined in the Code, was not subject to the deductibility limits. The 2017 annual cash incentive opportunities and performance-based equity awards to our executive officers were designed in a manner intended to be exempt from the deduction limitation of Section 162(m) because they are paid based on the achievement of pre-determined performance goals established by the Compensation Committee pursuant to our shareholder-approved incentive plan. With the repeal of the Section 162(m)'s performance-based compensation rule with the Tax Cuts and Jobs Act, effective for taxable years beginning after December 31, 2017, compensation paid to our covered executive officers in excess of \$1 million will not be deductible unless it qualifies for transition relief applicable to certain arrangements in place as of November 2, 2017.

While the Compensation Committee considers the deductibility of awards as one factor in determining executive compensation, the Compensation Committee also looks at other factors in making its decisions, as noted above, and retains the flexibility to award compensation that it determines to be consistent with the goals of our executive compensation program even if the awards are not deductible for tax purposes.

The employment agreements with our named executive officers provide that if the severance and change in control benefits payable to the executive would constitute an "excess parachute payment" as defined in Section 280G of the Code, such benefit payments shall be reduced to the largest amount that will result in no portion of benefit payments being subject to the excise tax imposed by Section 4999 of the Code.

Those agreements also provide that if any benefit thereunder is subject to Section 409A of the Code and the executive is deemed to be a "specified employee" within the meaning of Section 409A(a)(2)(B)(i) of the Code, commencement of payment of the benefit shall be delayed for six months following the executive's termination of employment.

The agreements with our named executive officers also provide that Umpqua shall not pay any benefit to the extent that such payment would be prohibited by the provisions of Part 359 of the regulations of the Federal Deposit Insurance Corporation (the "FDIC"), as the same may be amended from time to time.

Review of Risk Associated with Compensation Plans

The Company develops and implements compensation plans that provide strategic direction to the participant and engages them in the Company's success, which contributes to shareholder value. We believe our approach to goal setting, establishing targets with payouts at multiple levels of performance, evaluation of performance results and negative discretion in the payout of incentives help to mitigate excessive risk-taking that could harm company value or reward poor judgment by our executives.

Compensation policies and practices are determined by reviewing compensation analyses including industry/market benchmarking reports to determine competitive pay packages. The Company's variable pay programs are designed to reward outstanding individual and team performance while mitigating risk taking behavior that might affect financial results.

Performance incentive rewards for all plans continue to be focused on results that possibly impact earnings, profitability, credit quality, reasonable loan growth, deposit growth, sound investment advice, superior customer service, sound operations and compliance, sustainable culture, and leadership excellence.

Incentive plans, which are reviewed and revised on an annual basis, have defined terms and conditions which enable the Company to adjust the final scoring and payment of the plan, including adjustments that may only become

apparent upon an after the fact review. In addition, some incentive plans may have specific and defined holdbacks and modifiers enabling adjustments at the time of payout.

Generally, there is more oversight of plans that have a higher degree of risk, larger payouts, and those plans that could have the greatest negative impact on the Company's safety and soundness, such as plans for Commercial, Retail, Mortgage and Umpqua Investments. The more risk associated with the incentive plan the more review and approval hurdles must be crossed before payment is made.

In January 2017, the Compensation Committee met with executive officers of the Company to review the incentive compensation plans and concluded that, based on the controls described above and elsewhere in this proxy statement, those plans do not present risks that are reasonably likely to have a material adverse effect on the Company.

When evaluating risk, the Compensation Committee noted that OEPS, which are based directly on audited numbers, are the primary financial component of annual incentive compensation. In this environment, credit costs and the net interest margin are the primary drivers of OEPS. The Committee and the board, as a whole, receive regular reports about OEPS and the steps taken by management to address credit costs, deposit prices and loan yields. The degree of oversight devoted to OEPS is a strong risk control.

In addition, the Company has adopted compensation practices, as discussed in this proxy statement, that discourage excessive or unnecessary risk-taking, such as:

- prohibiting the re-pricing of stock options;
- requiring executives to acquire and hold substantial ownership positions in company stock;
- implementing “clawback” provisions in incentive plans; and
- adopting a “hold to retirement” policy with respect to 75% of the net gains from equity awards.

COMPENSATION COMMITTEE REPORT

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K.

Based on the foregoing review and discussions, the Compensation Committee recommended to the board of directors that the Compensation Discussion and Analysis be included in this Proxy Statement and incorporated by reference into the Company's annual report on Form 10-K for the year ended December 31, 2017.

(1) Signing bonus paid to Ms. Delorier (2017) and Mr. Nixon (2016) in connection with initial hire.

(2) Fair value of stock awards issued during the year(s) shown; no option awards were issued during those years. The assumptions made in calculating these values are disclosed in Note 20 to our Consolidated Financial Statements in our 2017 annual report on Form 10-K. The maximum value of the stock awards, if satisfaction of performance conditions exceed target is: O'Haver \$2,342,640; Farnsworth \$982,440; Delorier \$611,793; and Nixon \$591,700.

(3) Earned and awarded under the Company's annual incentive plans in the year(s) noted, but paid in February of the following year.

(4) At year-end 2017, the Company completed its annual review of the retirement benefit payable to Mr. Davis under his Supplemental Executive Retirement Plan. Based on the determined separation date and an update of benefit assumptions used to determine the present value of the liability, the liability was increased \$679,624 to \$9,414,463 at December 31, 2017.

(5) The table below itemizes the amounts shown in column (i), All Other Compensation, for 2017.

All Other Compensation

Name	Annual Salary	Annual Dues and Club Memberships(1)	Relocation Assistance	Supplemental Retirement Plan (2)	Match Contribution to 401(k)	Vacation accrual balance
			Tax Gross Up of Relocation Assistance			

							(3)
O'Haver, C.	\$3,060	\$4,104	-	-	\$30,285	\$8,100	\$86,538
Davis, R.	\$3,060	\$3,762	-	-	\$47,554	\$8,100	\$104,938

Nixon, T.	\$3,060	-	-	-	\$16,383	\$8,100	\$20,125

- As part of the arrangements negotiated to induce Ms. Delorier to accept an employment offer and reflecting the specific circumstances of her hiring, including moving her family from Atlanta, Georgia, to Portland, Oregon, she
- (1) received executive relocation assistance, including travel \$2,819, shipping \$53,963, temporary housing expense \$45,000 and reimbursements of closing costs related to the sale of her residence \$29,153.
- (2) Amount contributed by Company in 2018 to the executive's account under the Supplemental Retirement Plan based on 2017 eligible compensation.
- (3) Effective January 1, 2018, the Company revised its vacation policy for all employees. At December 31, 2017, employees received a lump sum payment of the value of their accrued vacation time at year-end 2017.

Compensation Agreements

Employment Agreement with Mr. O'Haver

On February 3, 2017, the Company and Mr. O'Haver entered into an amendment to his employment agreement to reflect his promotion to President and Chief Executive Officer effective January 1, 2017. Mr. O'Haver's employment agreement expires December 31, 2021. His agreement provides for a severance benefit equal to two times base salary at the time of termination and two times the annual cash incentive compensation paid for the year prior to termination and a change in control severance benefit to 2.5 times base salary at the time of termination and 250% of the annual cash incentive compensation paid for the year prior to termination, each payable in the event of termination "without cause" by the Company or for "good reason" by Mr. O'Haver.

Employment Agreements with other Named Executive Officers

The table below sets forth the material provisions of our active named executive officer employment agreements:

Name	Expiration Date (1)	Severance Benefit (2)	Change in Control (3)	CIC Retention Benefit (4)
Farnsworth, Ron	12/31/2018	42 weeks' salary	24 mo. salary + 200% of prior year incentive	12 mo. salary + 100% of prior year incentive
Delorier, Rilla	12/31/2018	12 mo. salary	24 mo. salary + 200% of prior year incentive	N/A
Nixon, Tory	12/31/2020	9 mo. salary	24 mo. salary + 200% of prior year incentive	N/A

(1) The agreements provide for at-will employment and are terminable by the Company or the executive at any time, with or without cause.

Calculated as the greater of: (i) the number of months of current base salary at the time of termination; or (ii) two weeks for every year of employment. The severance benefit is payable if the executive is terminated "without cause" or if the executive leaves for "good reason," as defined in the agreement.

(3) Calculated as the number of months of current base salary at the time of termination plus a multiple of the executive's incentive paid for the prior year, payable monthly over a period equal to the number of months of base salary paid. This change in control benefit is payable only if the executive's employment is terminated within 12 months after the change in control transaction and it is paid in lieu of a severance benefit.

(4) Calculated as the number of months of current base salary at the time of termination plus a multiple of the executive's incentive paid for the prior year, payable monthly over a period equal to the number of months of base salary paid. This benefit is payable 12 months following a change in control if the executive remains employed for at least 12 months after the change in control transaction and it is paid in lieu of a severance or change in control benefit.

Our agreement with Mr. Davis, amended effective February 3, 2017, provided for his employment as Executive Chair for 2017. If Mr. Davis had been terminated in 2017 without cause, or he terminated for good reason, his agreement provided for a severance benefit equal to one years' base salary and, if in connection with a change in control, a severance benefit equal to two years' base salary and two times his target annual incentive plus the value of his annual health benefits.

Miscellaneous Provisions in Executive Employment Agreements

Each of our current Employment Agreements with named executive officers includes the following provisions:

• An adjustment that prohibits any benefit payment to the executive to the extent it would constitute an "excess parachute payment" under Section 280G of the Internal Revenue Code.

• A prohibition on competing with the Company during the time that the executive is receiving payment of a severance, change in control or retention incentive benefit.

Receipt of the change in control benefit is subject to a “double trigger” such that there must be a qualifying termination of employment in addition to a change in control event.

A prohibition on solicitation of the Company's customers or employees for two years following the executive's departure.

A requirement that the executive sign a release of claims against the Company as a condition to receiving a severance or change in control benefit.

Deferred Compensation and Retirement Plans

The Company has a non-qualified Supplemental Retirement and Deferred Compensation Plan. The deferred compensation component of the plan is made available to officers selected by the Compensation Committee based on their position and compensation level. All executive officers are eligible to participate. Participants may defer a portion of their salary (up to 50%) into a plan account and invest it in various mutual funds that are similar to those available under the 401(k) plan. The Company has no plans to make discretionary contributions to the deferred compensation accounts.

The supplemental retirement component of the plan is provided for senior officers, primarily the CEO and executives who report to the CEO, who are selected by the Compensation Committee. Under the plan the Company may make discretionary contributions to the plan. The plan is designed to be administered under Sections 201(2) and 301(a)(3) of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). In 2017, each of the named executive officers were eligible to participate in this plan, and contributions made by the Company to their accounts are reported in the All Other Compensation table above and equaled 3% of eligible compensation (determined in the same manner as the 401(k) plan). Participants may invest contributions in various mutual funds that are similar to those available under the 401(k) plan.

The Company has been party to a Supplemental Executive Retirement Plan with Mr. Davis since July 2003. In 2007 Mr. Davis and the Company agreed to an amendment to the plan to provide for a fixed schedule of retirement benefits to be paid upon retirement. As restated, the plan benefit is fixed at \$850,000 per year, with deductions calculated at retirement for projected social security benefits and the value of Company contributions to the 401(k) plan and Supplement Retirement and Deferred Compensation Plan.

401(k) and Profit Sharing Plan

Umpqua sponsors and administers a 401(k) salary deferral and profit sharing plan covering substantially all employees of the Company and its subsidiaries. The qualified plan is subject to ERISA. Participants may elect to contribute 100% of eligible compensation to the plan each year, subject to applicable IRC limits on annual employee deferrals. In 2017, the Company made a matching contribution of 50% of each participant's salary deferral, up to 6% of eligible compensation. Our named executive officers are eligible to participate in the plan under the same terms and conditions as other employees.

2013 Incentive Plan

The 2013 Plan, which was approved by shareholders at the 2013 annual meeting, supports the Company's long term business objectives in a manner consistent with our executive compensation philosophy. In 2016, shareholders approved an amendment to the 2013 Plan to add eight million shares (equivalent to four million restricted stock or performance share awards). The Company's board of directors believes that allowing the Company to offer stock-based compensation under the 2013 Plan:

aligns the interests of employees and other award recipients with the interests of the Company's shareholders; and attracts, motivates and retains experienced and highly qualified individuals who will contribute to the success of the Company.

The 2013 Plan provides the Compensation Committee with flexibility regarding the types of awards granted to executives and was designed to qualify equity awards and annual cash incentive awards as qualified performance-based compensation under Section 162(m) of the Code, which was deductible to the Company for

income tax purposes. The Company may, however, elect to provide non-deductible compensation to its executive officers under the 2013 Plan.

The independent Compensation Committee selects all executive-level participants and determines participation levels and the terms and conditions of all awards made under the 2013 Plan subject to plan requirements including minimum vesting periods and shareholder approved performance metrics. The 2013 Plan authorizes the issuance of twelve million shares of the Company's common stock (equivalent to six million restricted stock or performance share awards). A maximum of 400,000 shares may be granted under the 2013 Plan to an individual pursuant to stock options and stock appreciation rights during any one-year period. For any other award, a maximum of 200,000 shares may be granted under the 2013 Plan to an individual during any one-year period.

Grants of Plan-Based Awards

This table shows the plan-based awards granted to each named executive officer in the fiscal year ended December 31, 2017. The actual payouts under the annual incentive plans are shown in column (g) of the Summary Compensation Table.

The shares underlying performance share awards (PSA) reported in columns (f) - (h) were issued under the 2013 Plan and vest three years following the award date to the extent that the Company's total shareholder return (1) achieves specified targets as compared to the KRX total return index (for 50% of the shares) and that the Company's return on average tangible common equity achieves specified targets compared to a Compensation Committee selected group of peers (for 50% of the shares). See Long Term Incentive Compensation.

(2) The shares underlying restricted stock awards (RSA) reported in column (i) were issued under the 2013 Plan and vest 33.33% per year over three years, beginning one year following the award date.

Column (l) shows the aggregate grant date fair value associated with PSAs and RSAs, as determined in accordance (3) with FASB ASC 718, Stock Compensation. The assumptions used to calculate fair value are described in the Notes to our Consolidated Financial Statements included in our Annual Report on Form 10-K.

There were no stock options outstanding as of December 31, 2017, for the named executive officers.

Option Exercises and Stock Vested

This table shows each stock option that was exercised by a named executive officer and the number of restricted shares that vested during the fiscal year ended December 31, 2017. In each case the option exercise price payable by the optionee and related taxes to be withheld were all received by the Company.

Pension Benefits

This table shows the current outstanding obligations of the Company under the Davis SERP, which is a non-qualified defined benefit plan and is the only retirement plan sponsored by the Company that is required to be reported in this table.

Name	Plan Name	Number of Years Credited Service (#)	Present	Payments During Last
			Value of Accumulated Benefit (\$)	Fiscal Year (\$)
(a)	(b)	(c)(1)	(d)(2)	(e)
Davis, Raymond P.	Supplemental Executive Retirement Plan	N/A	\$9,414,463	-

(1) Mr. Davis previously reached normal retirement age and years of credited service are not relevant to computing his benefits under the plan.

(2) The present value of the accumulated benefit under the plan, computed as of December 31, 2017, which is the measurement date used for financial statement reporting purposes with respect to Umpqua’s audited financial statements for the fiscal year ended December 31, 2017. The benefits payable under the plan are reduced by the amounts provided by Social Security and other retirement benefits paid by Umpqua, and these estimated amounts are reflected in the present value shown in column (d). The present value is calculated using a discount rate of 3.24% and Internal Revenue Service mortality tables for life expectancy.

Mr. Davis, or his beneficiary upon his death, would be entitled to receive an annual benefit of \$850,000 (less the deductions for Social Security and other retirement benefits paid by the Company) if his employment terminated for any of the following reasons: Retirement, Disability, Change in Control or Death. “Disability” and “Change in Control”

are defined in the SERP and are consistent with the definitions of the same terms found in his Employment Agreement. Mr. Davis reached "Retirement Age" under the SERP on June 3, 2011. In 2014, Mr. Davis turned 65 and the SERP provides that his annual benefit is fixed at \$850,000 per year. Payment of the annual benefit continues until (i) 36 months prior to his predicted life expectancy, measured at termination of employment, if he dies prior to that date or (ii) 36 months after his predicted life expectancy, if he survives to that date.

Nonqualified Deferred Compensation

Name	Plan	Executive Contributions in 2017 (b)(1)	Registrant Contributions in 2017 (c)(2)	Aggregate earnings in 2017 (d)(3)	Aggregate balance at 12/31/17 (e)
O'Haver, Cort	Supplemental Retirement and - Deferred Compensation Plan		\$21,789	\$16,465	\$124,294
Davis, Raymond	Supplemental Retirement and - Deferred Compensation Plan		\$46,733	\$103,103	\$805,766
Farnsworth, Ronald	Supplemental Retirement and - Deferred Compensation Plan		\$15,235	\$2,406	\$76,822
Delorier, Rilla	Supplemental Retirement and - Deferred Compensation Plan		-	-	-
Nixon, Tory	Supplemental Retirement and - Deferred Compensation Plan		-	-	-

(1) Amounts represented discretionary deferrals from salary or annual incentive compensation. All amounts deferred are included in the Salary or Non-Equity Incentive Plan Compensation disclosures in the Summary Compensation Table.

(2) All amounts are included in the All Other Compensation disclosures in the Summary Compensation Table for 2016.

(3) Amounts reflect change in market value including dividends paid and interest earned, but excluding fees paid by participants.

The Company adopted the non-qualified Supplemental Retirement and Deferred Compensation Plan in 2008. The deferred compensation component of the plan is available to eligible officers selected by the Compensation Committee each year, and all named executive officers are eligible to participate. Participants may elect to defer a portion of their salary (up to 50%) or annual cash incentive payment into a plan account and invest it in various mutual funds that are similar to those available under the 401(k) plan. The Company has not made, and has no plans to make, discretionary contributions to deferred compensation accounts. The supplement retirement component of the plan is for executive officers who are selected by the Compensation Committee to participate. Each year the Compensation Committee determines whether to recommend to the Board that the Company make a discretionary contribution to the supplemental retirement plan. The plan is designed to be administered under Sections 201(2) and 301(a)(3) of ERISA. In 2017, each of the named executive officers were eligible to participate in this plan, and contributions made by the Company in 2018 for service in 2017 to their accounts are reported in All Other Compensation in the Summary Compensation Table and equaled 3% of eligible compensation. Participants may invest contributions in various mutual funds that are similar to those available under the 401(k) plan. The Company does not guarantee earnings or pay interest on elective deferrals or Company discretionary contributions.

Potential Payments Upon Termination or Change in Control

The following table shows the cash and equity benefits payable to the named executive officers upon termination of employment for various reasons, including a change in control of the Company. See the summary of the executive's employment agreement following the Summary Compensation Table for a description of how the severance and change in control benefits are calculated. For purposes of this table, it is assumed that the termination of employment occurred on December 31, 2017.

Annual payments to Mr. Davis under the Supplemental Executive Retirement Plan are equal to \$850,000 less (1) offsetting benefits as of December 31, 2017, payable for up to 36 months after (and to Mr. Davis's beneficiary to a date 36 months prior to) his predicted life expectancy at the time of the triggering event.

Dollar value of shares that would vest under the executive's restricted stock and performance shares awards, (2) calculated at \$20.80 per share, the closing price of Umpqua's stock on December 29, 2017, the last trading day of the year.

(3) Bank owned life insurance (BOLI) death benefit, providing for a payment if death occurs while employed.
Excludes amounts payable under company-wide group life and disability plans.

Triggering events are termination without “cause” by the Company and termination for “good reason” (material reduction in base salary not shared by other executives or required relocation) by the executive officer. Cash (4) payments at December 31, 2017 would have been two years’ base salary (Mr. O’Haver), one years’ base salary (Mr. Davis and Ms. Delorier) and the greater of nine months’ base salary or two weeks’ base salary for every year of service (Messrs. O’Haver and Nixon).

Triggering events are termination without “cause” or executive termination for “good reason” within one year following a change in control. Cash payments at December 31, 2017, would have been 30 months’ base salary and 250% of prior year incentive (Mr. O’Haver), two years’ base salary and 200% of targeted bonus and the cost of two (5) years’ health and welfare plan benefits (Mr. Davis), two years’ base salary and 200% of prior year incentive (Ms. Delorier and Messrs. Farnsworth and Nixon). Change in control termination benefits are in lieu of severance benefits. The amounts shown for Mr. O’Haver are the present value of cash payments, reduced by the estimated amount of Code Section 280G cutbacks in the table below these footnotes.

Receipt of benefits are conditioned upon the executive not competing with the Company or soliciting the (6) Company’s employees or customers; and for Messrs. O’Haver, Farnsworth and Nixon, and Ms. Delorier releasing claims against the Company.

Retention benefits are payable in lieu of severance and change in control benefits if the executive remains (7) employed for a period of twelve months following a change in control and no other change in control benefits are payable under their employment agreements.

Change in control benefits for all executive officers of the Company are subject to reduction to the extent that they exceed the safe harbor amount calculated under Code Section 280G. The following table shows how the change in control cash benefit is calculated for those named executive officers whose benefit would be reduced under Section 280G.

Name	Change in control benefit under Employment Agreement		Net change in control cash benefit
	(i)	(ii)	
O’Haver, Cort	\$2,858,872	\$1,819,274	\$1,039,598

(i) Represents present value of stream of cash payments.

(ii) This calculation does not reflect the value of the non-compete provisions of the employment agreements, which we believe would reduce the amount of the cutback and increase the net change in control cash benefit.

Pay Ratio Disclosure

The annual total compensation for 2017 was \$58,242 for our median employee and \$3,193,847 for our CEO. The resulting ratio of our CEO’s pay to the pay of our median employee for 2017 is 54.8 to 1.

We identified the median employee by examining the 2017 total compensation for all individuals, excluding our CEO, who were employed by us on December 29, 2017, the last day of our payroll year. We included all employees, whether employed on a full-time, part-time or seasonal basis. We annualized the compensation for full-time employees that were not employed by us for all of 2017.

We calculated the median employee’s annual total compensation using the same methodology we use for our named executive officers as set forth in the 2017 Summary Compensation Table in this proxy statement. In our 2017 Summary Compensation Table we report annual cash incentive paid to our CEO in 2018 for performance in 2017. Our median employee participated in a cash incentive plan that paid periodically during 2017 and we used the amounts

received in 2017 for median employee annual total compensation.

INCORPORATION BY REFERENCE

The sections in this proxy-statement entitled “Compensation Committee Report” and “Audit and Compliance Committee Report” do not constitute soliciting material and should not be deemed filed or incorporated by reference into any other Company filing under the Securities Act of 1933 or the Securities Exchange Act of 1934, except to the extent the Company specifically incorporates any such reports by reference therein.

QUESTIONS AND ANSWERS ABOUT VOTING AND THE SHAREHOLDER MEETING

Q: Why did I receive the proxy materials?

A: We have made the proxy materials available to you over the internet or, in some cases, mailed to you paper copies of these materials because the board is soliciting your proxy to vote your shares of our common stock at the annual meeting to be held on Wednesday, April 18, 2018 and at any adjournments or postponements of this meeting.

Q: What is a proxy?

A: The board is asking you to give us your proxy. Giving us your proxy means that you authorize another person or persons to vote your shares of our common stock at the annual meeting in the manner you direct. The written document you complete to designate someone as your proxy is usually called a “proxy card” or a “voting instruction form” depending on how the ownership of your shares is reflected in our records. If you are the record holder of your shares, a “proxy card” is the document used to designate your proxy to vote your shares. If you hold your shares in street name, a “voting instruction form” is the document used to instruct your broker (or other nominee) how your nominee should vote. In this proxy statement, the term “proxy card” means both the voting instruction form and proxy card unless otherwise indicated.

Q: Why did I receive a Notice of Internet Availability of Proxy Materials instead of paper copies of the proxy materials?

A: The Securities and Exchange Commission’s (“SEC”) notice and access rule allows us to furnish our proxy materials over the internet to our shareholders instead of mailing paper copies of those materials to each shareholder. As a result, on or before March 2, 2018 we sent a notice to most of our shareholders by mail or e-mail containing instructions on how to access our proxy materials over the internet and vote online. This notice is not a proxy card and cannot be used to vote your shares. If you received only a notice this year, you will not receive paper copies of the proxy materials unless you request the materials by following the instructions on the notice or on the website referred to in the notice.

We provided some of our shareholders, including shareholders who have previously asked to receive paper copies of the proxy materials, shareholders who are participants in our benefit plans and shareholders holding more than 1,000 shares of common stock, with paper copies of the proxy materials instead of a notice that the materials are electronically available over the internet. If you received paper copies of the notice or proxy materials, we encourage you to help us save money and reduce the environmental impact of delivering paper proxy materials to shareholders by signing up to receive all of your future proxy materials electronically, as described under “How can I receive my proxy materials electronically in the future?” below.

Q: What does the Notice of Internet Availability of Proxy Materials look like?

A: It will come in one of two forms. If you hold your shares in “street name” through a bank or broker, you will receive a document titled “Important Notice Regarding the Availability of Proxy Materials for the Shareholder Meeting” from Broadridge Financial Solutions. If you are a registered shareholder, you should have received a document titled “Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting” from our transfer agent, Computershare.

Q: What are shareholders being asked to vote on at the annual shareholder meeting?

A: You will vote on:

Item 1: Election of 10 directors to serve until the next annual meeting of shareholders and his or her successor is elected and qualifies or there is a decrease in the number of directors;

Item 2: Ratification (non-binding) of the selection of Moss Adams LLP (“Moss Adams”) as the Company’s independent registered public accounting firm for 2018;

Item 3: Amendment to the Company’s Articles of Incorporation to add a majority voting standard; and

Item 4: Advisory (non-binding) resolution on the Company’s executive compensation program (“say on pay” vote).

The board of directors recommends that you vote “FOR” each director nominee and for each of the other proposals.

Q: What do I need to do now?

A: Please carefully read this document. Then, vote your shares by following the instructions from your broker, if your shares are held in “street name” or by one of the following methods:

if you received these printed materials by mail, mark, sign, date and return your proxy card in the enclosed return envelope as soon as possible;

call the toll-free number on the proxy card and follow the directions provided;

go to the website listed on the proxy card and follow the instructions provided; or

- attend the shareholder meeting and submit a properly executed proxy or ballot. If a broker holds your shares in “street name,” you will need to get a legal proxy from your broker to vote in person at the meeting.

Voting by phone or on the internet has the same effect as submitting a properly executed proxy card.

Q: What are my choices when voting?

A: When you cast your vote on:

ELECTION OF DIRECTORS: You may vote in favor of electing the nominees as directors or vote against one or more nominees or you may abstain from voting;

OTHER MATTERS: You may cast your vote in favor of or against the proposal, or you may abstain from voting.

Q: What if I abstain from voting?

If your shares are represented at the annual meeting, in person or by proxy, but you abstain from voting on a matter, A: or include instructions in your proxy to abstain from voting on a matter, your shares will be counted for the purpose of determining if a quorum is present.

Q: Who is eligible to vote?

Holder of record of Umpqua common stock at the close of business on February 9, 2018 are eligible to vote at Umpqua’s annual meeting of shareholders. As of that date, there were 220,439,234 shares of Umpqua common stock outstanding held by 4,871 holders of record, a number that does not include beneficial owners who hold shares in “street name.”

Q: How many shares are owned by Umpqua’s directors and executive officers?

On February 9, 2018, Umpqua’s directors and executive officers beneficially owned 1,213,825 shares entitled to A: vote at the annual meeting, constituting less than 1.0% of the total shares outstanding and entitled to vote at the meeting.

Q: What if I hold shares of Umpqua common stock in the Umpqua benefit plans?

A: You will be given the opportunity to instruct the trustee of the Umpqua Bank 401(k) and Profit Sharing Plan (the “401(k) Plan”) and the Supplemental Retirement/Deferred Compensation Plan (the “NQ Plan”) how to vote the shares that you hold in your account. To the extent that you do not timely give such instructions, the trustee will vote all unvoted shares held in the 401(k) Plan in proportion to the voted shares, and the trustee will vote the unvoted shares in the NQ Plan as recommended by the board of directors.

Q: Can I change my vote after I have mailed my signed proxy card or voted by telephone or electronically?

A: Yes. If you have not voted through your broker, you can do this by:
calling the toll-free number on the Notice and Access Card or proxy card not later than 11:59 p.m. Pacific Standard Time on the day before the meeting and following the directions provided;
going to the website listed on the Notice and Access Card or proxy card, following the instructions provided and submitting your change no later than 11:59 p.m. Pacific Standard Time on the day before the meeting;
submitting a properly executed proxy prior to the meeting bearing a later date than your previous proxy;
notifying Umpqua’s corporate Secretary, in writing, of the revocation of your proxy before the meeting; or
voting in person at the meeting, but simply attending the meeting will not, in and of itself, revoke a proxy.
If you voted through your broker, please contact your broker to change or revoke your vote.

Q: If my shares are held in “street name” by my broker, will my broker vote my shares for me?

A: Yes, but only if you give your broker instructions. If your shares are held by your broker (or other nominee), you should receive this document and an instruction card from your broker. Your broker will vote your shares if you provide instructions on how to vote. If you do not tell your broker how to vote, your broker may vote your shares in favor of ratification of the auditor appointment but may not vote your shares on the election of directors or any other item of business. However, your broker is not required to vote your shares if you do not provide instructions.

Q: Can I attend the shareholder meeting even if I vote by proxy?

A: Yes. All shareholders are welcome to attend and we encourage you to do so. Please carefully review the rules regarding admission to the annual meeting described below.

Q: Why did I receive more than one Notice and Access Card or multiple proxy cards?

A: You may receive multiple cards if you hold your shares in different ways (e.g. joint tenancy, in trust or in custodial accounts). You should vote each proxy card that you receive.

Q: How do you determine a quorum?

A: Umpqua must have a quorum to conduct any business at the annual meeting. Shareholders holding at least a majority of the outstanding shares of Umpqua common stock as of the record date must attend the meeting in person or by proxy to have a quorum. Umpqua shareholders who attend the meeting or submit a proxy but abstain from voting on a given matter will have their shares counted as “present” for determining a quorum. Broker non-votes will also be counted as “present” for establishing a quorum.

Q: What is a broker non-vote?

Under New York Stock Exchange (“NYSE”) Rule 452, brokers are entitled to vote shares held by them for their customers on matters deemed “routine” under applicable rules, even though the brokers have not received voting instructions from their customers. Although Umpqua is listed on the NASDAQ Global Select market, Rule 452 affects us since most of the common shares held in “street name” are held with NYSE member-brokers. The ratification of our independent registered public accounting firm currently qualifies as a “routine” matter. Your broker, therefore, may vote your shares in its discretion on that routine matter if you do not instruct your broker how to vote on them. Your broker is prohibited from voting your shares on non-routine matters unless you have given voting instructions on that matter to your broker. The election of directors, and other matters expected to be presented at the annual meeting are deemed to be non-routine matters under Rule 452, so your broker may not vote on these matters in its discretion. If you do not give voting instructions with respect to these matters your broker will need to return a proxy card without voting on these non-routine matters, which is referred to as a “broker non-vote” or sometimes referred to as “uninstructed shares.”

Q: How do you count votes?

Each common share is entitled to one vote. The named proxies will vote shares as instructed on the proxies. In the election of directors, each share is entitled to one vote for each director position to be filled, and shareholders may not cumulate votes. You may vote “For” or “Against” or “Abstain” from voting with respect to each director nominee and each of the other proposals. A representative of Computershare, our transfer agent, will count the votes and serve as our inspector of elections.

If you sign, date and mail your proxy card without indicating how you want to vote, your proxy will be counted as a vote in favor of each director nominee, and in favor of each of the other proposals.

Q: Is my vote confidential?

We maintain the confidentiality of the votes of individual shareholders. We believe that ballots, proxy forms, and voting instructions returned to brokerage firms, banks, and other holders of record are kept confidential by those third parties. Only the proxy solicitor, the proxy tabulator, and the inspector of election have access to the ballots, proxy forms, and voting instructions. Our shareholder relations officer has online access to votes cast by registered shareholders, but does not access that information. The proxy solicitor and the proxy tabulator will disclose information taken from the ballots, proxy forms, and voting instructions only if there is a proxy contest, if the shareholder authorizes disclosure, to assert or defend legal claims, to determine compliance with law or as otherwise required by law. If you write comments on your proxy card or ballot, or attach materials to your proxy card or ballot, management may learn how you voted in reviewing your comments and such information may not be kept confidential.

Q: Who pays the cost of proxy solicitation?

Umpqua pays the cost of soliciting proxies. We have hired D. F. King & Co. to solicit proxies for this meeting and we will pay their fees of \$17,500 plus out of pocket costs. Proxies will be solicited by mail, telephone, facsimile, e-mail and personal contact. We may reimburse brokers and other nominee holders for their expenses in sending proxy material and obtaining proxies. In addition to solicitation of proxies by mail, our officers and employees may solicit proxies in person or by telephone, fax, e-mail or letter, without extra compensation.

Q: How can I receive my proxy materials electronically in the future?

Although you may request paper copies of the proxy materials, we would prefer to send proxy materials to shareholders electronically. Shareholders who sign up to receive proxy materials electronically will receive an e-mail prior to next year’s annual meeting with links to the proxy materials, which may give them faster delivery of the materials and will help us save printing and mailing costs and conserve natural resources. Your election to receive proxy materials by e-mail will remain in effect until you terminate your election. To receive proxy materials electronically by e-mail in the future, follow the instructions described below or on the notice.

If we sent you proxy materials by mail and you would like to sign up to receive these materials electronically in the future, please have your proxy card available and register using one of the following choices:

Record Holders If you are the record holder of your shares, you may either go to www.envisionreports.com/umpq2018 and follow the instructions for requesting meeting materials or call 800-652-8683.

Street Name Holders If you hold your shares in street name, you may either go to www.edocumentview.com/UMPQ2018 and follow the instructions to enroll for electronic delivery or contact your brokerage firm, bank, or other similar entity that holds your shares.

If you have previously agreed to electronic delivery of our proxy materials, but wish to receive paper copies of these materials for the annual meeting or for future meetings, please follow the instructions on the website referred to on the electronic notice you received.

Q: Are there any rules regarding admission to the annual meeting?

A: Yes. You are entitled to attend the annual meeting only if you were, or you hold a valid legal proxy naming you to act for, one of our shareholders on the record date. Before we will admit you to the meeting, we must be able to confirm:

- Your identity by reviewing a valid form of photo identification, such as a driver's license; and
- You were, or are validly acting for, a shareholder of record on the record date by:
 - o verifying your name and stock ownership against our list of registered shareholders, if you are the record holder of your shares;
 - o reviewing other evidence of your stock ownership, such as your most recent brokerage or bank statement if you hold your shares in street name, or your most recent plan statement if you are a participant in one of the Company benefit plans; or
 - o reviewing a written proxy that shows your name and is signed by the shareholder you are representing, in which case either the shareholder must be a registered shareholder or you must have a brokerage or bank statement for that shareholder as described above.

If you do not have a valid form of picture identification and proof that you owned, or are legally authorized to act for someone who owned, shares of our common stock on the record date, you will not be admitted to the meeting.

At the entrance to the meeting, we will verify that your name appears in our stock records or will inspect your brokerage or bank statement, or your plan statement if you are a participant in one of the Company benefit plans, as your proof of ownership and any written proxy you present as the representative of a shareholder. We will decide whether the documentation you present for admission to the meeting meets the requirements described above. The annual meeting will begin at 2:00 p.m., local time. Please allow ample time for the admission procedures described above.

Q: Where do I get more information?

If you have questions about the meeting or submitting your proxy, or if you need additional copies of this document A: or the proxy card, you should contact one of the following as indicated below or by mail to the attention of Andrew Ognall at Umpqua Holdings Corporation, One SW Columbia Street, Suite 1200, Portland, OR 97258:
