ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934
For the fiscal year ended December 31, 2014
TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF
1934
For the transition period from to

Commission File Number: 000-28820

JONES SODA CO.

(Exact name of registrant as specified in its charter)

Washington	52-2336602
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

66 South Hanford Street, Suite 150

Seattle, WA 98134

(Address of principal executive offices)

(206) 624-3357

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

None

Securities registered pursuant to Section 12(g) of the Act:

Common Stock, no par value

Indicate by checkmark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by checkmark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Act. Yes No

Indicate by checkmark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate Website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

The aggregate market value of the registrant's common stock held by non-affiliates as of June 30, 2014, the last business day of the registrant's most recently completed second fiscal quarter, was approximately \$15,876,976 using the closing price on that day of \$ 0.42.

As of March 20, 2015, there were 40,972,394 shares of the registrant's common stock issued and outstanding.

EXPLANATORY NOTE

Unless otherwise indicated or the context otherwise requires, all references in this Annual Report on Form 10-K to “we,” “us,” “our,” “Jones,” “Jones Soda,” and the “Company” are to Jones Soda Co., a Washington corporation, and our wholly-owned subsidiaries Jones Soda Co. (USA) Inc. and Jones Soda (Canada) Inc.

In addition, unless otherwise indicated or the context otherwise requires, all references in this Annual Report to “Jones Soda” refer to our premium beverages, including Jones® Soda, Jones Zilch®, and Jones Stripped™ sold under the trademarked brand name “Jones Soda Co.®”

CAUTIONARY NOTICE REGARDING FORWARD LOOKING STATEMENTS

We desire to take advantage of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995. This Annual Report on Form 10-K (Report) contains a number of forward-looking statements that reflect management’s current views and expectations with respect to our business, strategies, products, future results and events, and financial performance. All statements made in this Report other than statements of historical fact, including statements that address operating performance, the economy, events or developments that management expects or anticipates will or may occur in the future, including statements related to case sales, revenues, profitability, distributor channels, new products, adequacy of funds from operations, cash flows and financing, our ability to continue as a going concern, potential strategic transactions, statements regarding future operating results and non-historical information, are forward-looking statements. In particular, the words such as “believe,” “expect,” “intend,” “anticipate,” “estimate,” “may,” “will,” “can,” “plan,” “predict,” “could,” “future,” “continue,” variations of such words and expressions identify forward-looking statements, but are not the exclusive means of identifying such statements and their absence does not mean that the statement is not forward-looking.

Readers should not place undue reliance on these forward-looking statements, which are based on management’s current expectations and projections about future events, are not guarantees of future performance, are subject to risks, uncertainties and assumptions and apply only as of the date of this Report. Our actual results, performance or achievements could differ materially from historical results as well as from the results expressed in, anticipated or implied by these forward-looking statements. Except as required by law, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

In particular, our business, including our financial condition and results of operations and our ability to continue as a going concern may be impacted by a number of factors, including, but not limited to, the following:

- Our ability to successfully execute on our growth strategy and operating plan;
- Our ability to establish, maintain and expand distribution arrangements with independent distributors, retailers, brokers and national retail accounts, most of whom sell and distribute competing products, and whom we rely upon to employ sufficient efforts in managing and selling our products, including re-stocking the retail shelves with our products, on which our business plan and future growth are dependent in part;
- Our ability to successfully develop and launch new products that match consumer beverage trends;
- Our ability to increase revenues and achieve case sales goals;
- Our ability to manage our operating expenses and generate cash flow from operations, or our ability to secure additional financing if our case sales goals take longer to achieve under our operating plan;
- Our ability to respond to changes in the consumer beverage marketplace, including potential reduced consumer demand due to health concerns (including obesity) and legislative initiatives against sweetened beverages;
- Our ability to manage our inventory levels and to predict the timing and amount of our sales;
- Our reliance on third-party contract manufacturers of our products and the geographic locations of their facilities, which could make management of our distribution efforts inefficient or unprofitable;

Edgar Filing: JONES SODA CO - Form 10-K

- Our ability to secure a continuous supply and availability of raw materials, as well as other factors affecting our supply chain including increases in raw material costs and shortages of glass in the supply chain;
 - High or rising fuel and freight costs may have an adverse impact on our results of operations;
 - Fluctuations in currency exchange rates, particularly between the U.S. and Canadian dollars, can adversely impact our results of operations;
 - Our ability to source our flavors on acceptable terms from our key flavor suppliers;
 - Our ability to attract and retain key personnel, including retaining the services of our CEO, each of which would directly affect our efficiency and operations and could materially impair our ability to execute our growth strategy;
-

Table of Contents

- Our inability to protect our trademarks and trade secrets, which may prevent us from successfully marketing our products and competing effectively;
- Our ability to create and maintain brand name recognition and acceptance of our products, which is critical to our success in our competitive, brand-conscious industry;
- Our ability to maintain brand image and product quality and avoid risks from other product issues such as product recalls;
- Our ability to compete successfully against much larger, well-funded, established companies currently operating in the beverage industry;
- Litigation or legal proceedings, which could expose us to significant liabilities and damage our reputation;
- Our ability to maintain effective disclosure controls and procedures and internal control over financial reporting;
- Our ability to maintain an effective information technology infrastructure;
- Dilutive and other adverse effects on our existing shareholders and our stock price arising from future securities issuances;
- Our ability to access the capital markets for any future equity financing, and any actual or perceived limitations to our common stock by being traded on the OTCQB Marketplace, including the level of trading activity, volatility or market liquidity;
- Regional, national or global economic conditions that may adversely impact our business and results of operations; and
- Our ability to comply with the many regulations to which our business is subject.

For a discussion of some of the factors that may affect our business, results and prospects, see “Item 1A. Risk Factors.” Readers are also urged to carefully review and consider the various disclosures made by us in this Report and in our other reports we file with the Securities and Exchange Commission, including our periodic reports on Forms 10-Q and current reports on Form 8-K, and those described from time to time in our press releases and other communications, which attempt to advise interested parties of the risks and factors that may affect our business, prospects and results of operations.

Table of Contents

PART I

ITEM 1. BUSINESS.

Overview

We develop, produce, market and distribute premium beverages which we sell and distribute primarily in the United States and Canada through our network of independent distributors and directly to our national and regional retail accounts. We also sell products in select international markets. Our products are sold primarily in grocery stores, convenience and gas stores, “up and down the street” in independent accounts such as delicatessens and sandwich shops, as well as through our national accounts with several large retailers. We refer to our network of independent distributors as our direct store delivery (DSD) channel, and we refer to our national and regional accounts who receive shipments directly from us as our direct to retail (DTR) channel. We do not directly manufacture our products, but instead outsource the manufacturing process to third-party contract manufacturers. We also sell various products online, including soda with customized labels, wearables, candy and other items, and we license our trademarks for use on products sold by other manufacturers.

Our company is a Washington corporation formed in 2000 as a successor to Urban Juice and Soda Company Ltd., a Canadian company formed in 1986. We moved our offices on March 1, 2015, and our principal place of business is now located at 66 South Hanford Street, Suite 150, Seattle, Washington 98134. Our telephone number is (206) 624-3357.

Jones Products

Our strategy is to focus on our core brand, Jones Soda, within the sparkling beverage category. Our product line-up currently consists of the following:

Jones Soda

Jones Soda is our premium carbonated soft drink. We sell Jones Soda in glass bottles and cans, with every label featuring a photo sent to us by our consumers. We also sell Jones Soda on fountain, utilizing customer photos on the fountain equipment and cups. Over 1 million photos have been submitted to us. We believe this unique interaction with our consumers distinguishes our brand and offers a strong competitive advantage for Jones Soda. Equally differentiating is the bright, colorful look of our drinks, which have distinctive names such as FuFu Berry and Berry Lemonade. We also sell Jones Soda in more traditional flavors such as Cream Soda, Root Beer, Orange & Cream. Jones Soda is made with high quality ingredients, including pure cane sugar. We currently sell Jones Soda in ten flavors in the United States with additional flavors offered seasonally or in certain markets.

Jones Zilch

Jones Zilch is a sugar-free version of our Jones Soda line providing an alternative for consumers. Jones Zilch, sweetened with Splenda® and has zero calories, is an important product extension, especially in light of the increasing consumer preferences for zero and lower-calorie options. Jones Zilch is also sold in glass bottles, cans and on fountain. We currently have four flavors of Jones Zilch: Black Cherry, Pomegranate, Vanilla Bean and Cola.

Jones Stripped

Jones Stripped is our natural ingredient and low-calorie premium carbonated soft drink. Jones Stripped is lightly sweetened with a unique blend of natural sweeteners and contains 30 calories and is packaged in the classic Jones Soda presentation in a clear, long-neck, glass bottle, with every bottle label featuring a photo sent to us by our consumers. With no artificial colors, the soda is clear, but the packaging features a burst of color on the label. We currently have six flavors of Jones Stripped: Cherry, Lemon Lime, Orange Mango, Green Apple, Huckleberry and Chipotle Pineapple.

Sparkling Beverage Industry

Our beverages are classified in the sparkling beverage category, which encompasses the carbonated soft drinks (CSD) segment (our Jones Soda and Jones Zilch lines) and the natural carbonated drinks (natural sparkling) segment (for our Jones Stripped line). The CSD segment is the largest segment in the sparkling beverage category, and in the U.S., is a \$77 billion industry (according to the March 25, 2013 issue of Beverage Digest). During 2013, the CSD segment had a volume decline of 2% (according to the March 14, 2014 issue of Beverage Digest). Within the CSD segment are craft and premium sodas, which provide consumers with an alternative to the large corporate brands and is where our Jones Soda line competes. In the U.S., the craft and premium sodas are typically distributed through the grocery, drug, mass, club, convenience, independent account and online sales channels.

Table of Contents

Our Focus for Fiscal 2015: Sales Growth

Our focus for fiscal 2015 is on revenue, case sales growth and driving to profitability. Over the past two and a half years, we implemented substantial internal changes to our organization, and have achieved significant reductions in our operating expenses and efficiencies in our operations.

The following are key components of this focus for 2015:

- Utilize the strategic distribution improvements implemented across the United States and Canada to grow national and independent account sales of our core Jones Soda lines;
- Expand the distribution of Jones Stripped in the United States and Canada, which previously was launched in select regions in the United States;
- Increase the focus on international expansion;
- Expand our newly launched fountain program of our core product lines in the United States and Canadian marketplaces;
- Build upon partnerships with major retail chains in innovative ways, while continuing to build our base of independent accounts;

Product Distribution and Sales Strategy

Our products are distributed and sold throughout the U.S. and Canada and in select international markets. Our primary distribution channels are our direct store delivery (DSD) channel (sales and distribution through our network of independent distributors) and our direct to retail (DTR) channel (sales directly to national and regional retail accounts). We also have our online channel for internet sales of various products. We strategically build our national and regional retailer network by focusing on distribution systems that we believe will provide top-line drivers for our products and increased availability and visibility of our products in our core markets. In building and expanding our DSD channel, we also consider international markets and look for regions that data suggests have a high affinity for the Jones brand and can be pursued within our financial resources. For 2015, we are focusing our efforts internationally on Ireland, the United Kingdom and Costa Rica.

Part of our strategy in building our distribution system is to blend our DSD and DTR distribution channels, delivering different offerings through alternate channels. In determining the most advantageous distribution channel, we also consider what works best for the customer, allowing for better retail activation and in-store presence, including seeking placement on shelves that are normally restricted to national mainstream brands and placement in the cold-aisle, thus providing us access to the important "take home market." We are selective in placing our cans to complement rather than compete with our traditional glass bottles and currently maintain national distribution for this product through the Kroger Co. We believe our can offering provides our customers with an alternative method of consuming our premium soda and we may consider other national retail accounts for this package format. We have also introduced a fountain format for our sodas.

For the year ended December 31, 2014, our top three accounts by revenue represent approximately 37% of revenue. We intend to continue to expand our distributor network and DTR accounts, which may result in a decreased dependence on any one or more of our independent distributors or national retail accounts.

We contract with independent trucking companies to have our product shipped from our contract manufacturers to independent warehouses and then on to our distributors and national retail accounts. Distributors then sell and deliver our products either to sub-distributors or directly to retail accounts. We recognize revenue upon receipt by our distributors and national account customers of our products, net of discounts and promotional allowances, and all sales are final; however, in limited instances, due to credit issues, quality or damage issues, or distributor changes, we may accept returned product, which to date, have not been material.

DSD (direct store delivery)

We maintain a network of independent distributors across the U.S. and Canada. We have also secured distribution with independent distributors in Ireland, the United Kingdom and Costa Rica and are evaluating other international opportunities for our products. We choose our distributors based on our perception of their ability to build our brand franchise in convenience stores, grocery stores, and “up and down the street” in independent accounts such as delicatessens and sandwich shops. Typically, we grant our independent distributors exclusive distribution rights in defined territories, which may include invasion fees in the event we provide product directly to one of our national retailers located in the distributor’s region. We are also obligated to pay termination fees for cancellations of most of these written distributor agreements, unless the termination is ‘for cause.’ We intend to continue our efforts to reinforce and expand our distribution network by partnering with new distributors and replacing underperforming distributors. In addition to the efforts of our independent distributors in obtaining distribution of our products, we actively seek to obtain listings for our products with key retail grocery, convenience and mass merchandiser accounts, which are serviced through our independent distributor network.

2

Table of Contents

Product availability at a specific store location for any of our named retailers is subject to the retailer, consumer demand, and localized store variances. Our accounts listing changes from time to time, as new retail accounts are added and others are canceled. To find a retailer that carries our products, our product locator is available on our website under “Buy Jones-Product Locator.”

DTR (direct to retail)

Our direct to retail channel of distribution is an important part of our strategy to target large national or regional restaurant chains and retail accounts, including mass merchandisers and premier food-service businesses. Through these programs, we negotiate directly with the retailer to carry our products, and the account is serviced through the retailer’s appointed distribution system (rather than through our DSD network). These arrangements are terminable at any time by these retailers or us, and contain no minimum purchase commitments or termination fees.

Fountain

As a new distribution strategy, we are offering Jones Soda and Jones Zilch in fountain format, which we are calling Jones Cane Sugar Fountain. We announced this program in February 2015 and we have developed it with foodservice and grocery partners to provide for a unique fountain offering in the Jones brand. We are working with a group of fountain distributors in our DSD network in select regions in the U.S. and Canada to provide proprietary fountain equipment or other methods to offer fountain products. The fountain equipment is branded similarly as our traditional bottles and cans, prominently displaying our consumer submitted photos. We sell concentrate to the distributors for use in the fountain equipment. Our fountain offerings include traditional flavors such as Cola, Diet Cola, Ginger Ale and Lemon Lime, while also offering fun flavors such as Berry Lemonade.

Sales

Our products are sold throughout the U.S. and Canada, primarily in convenience stores, grocery stores, and “up and down the street” in independent accounts such as delicatessens and sandwich shops, as well as through our national accounts with several large retailers. In 2014, sales in the U.S. represented approximately 66% of total sales, while sales in Canada represented approximately 31%, and we had approximately 3% in other international sales.

Our Brand

Building our Brand

We have built our brand to a large extent on our independent counter-culture image as well as by providing unique and exciting flavors that appeal to consumers who prefer alternatives to the corporate CSD brands. This market is driven by trendy, young consumers looking for a distinctive tonality in their beverage choices. While we are known for our unique and innovative flavors, we also feature flavors that we believe have a large base of consumer appeal. Additionally, through the labels on our bottles and our invitation to consumers to send in photographs to be featured on the Jones Soda labels, we focus on a coherent message and call to action, thus escaping the uniformity that we believe plagues so many other brands. We select photos throughout the year to be placed on our bottles and cans for distribution, and also invite consumers to celebrate special occasions and memories by creating their own label through myJones.com. In that space, consumers have the ability to customize their own label and product with a photo and short caption using a proprietary patented process. In addition to creative labeling on our products, we provide our distributors with point-of-sale promotional materials and branded apparel items. We believe that our labeling, marketing and promotional materials are important elements to creating and increasing consumer appeal, as well as distributor and retailer awareness, and that our branding efforts have helped us achieve strong consumer connections and affinity levels for our products.

Brand Marketing

Our marketing team has developed brand positioning and brand identity that is an integral asset and we believe allows our brand to be widely known in a positive way among a large demographic. We have a successful history of positioning ourselves in alternative accounts with the intent to be where national mainstream brands are not sold. We also have a program of sponsoring alternative sport athletes to promote our products in youth alternative sports, including surfing, skateboarding and snowboarding. We also have a program of sponsoring up and coming music bands. We believe this effort to position our products in alternative accounts and venues draws on a younger generation of customers that value their independence away from the larger soft drink brands.

Social Media

Our core marketing pillar is the open access our consumers have to define the brand through our website Jonessoda.com. We actively participate in blogs and several different social media campaigns as a way of direct engagement with our consumers in order to listen to their voices and better understand their issues and changes in consumer trends. Social media

3

Table of Contents

represents one of the largest shifts in modern business away from static advertising, and we have had success in creating social media hubs through forums such as Facebook, Twitter and Instagram, with over 1 million fans. Our consumers have responded by bringing us onto their social media pages and into their lives, creating a personal connection that we believe helps ensure they are actively engaged with our brand and our products.

Consumer Submitted Photos

We are well-known for the photos on our labels. We invite our consumers to send us photos of their lives, and we select from those photos for use on our labels. Photos can be submitted through our website at our “Jones Soda Gallery.” Every Jones Soda glass bottle and can has a picture provided to us by a consumer.

Customized Photo Labels

We also provide our Jones Soda customers, ranging from corporate accounts to end consumers, customized and personalized 6-packs and 12-packs of Jones Soda (in bottles) that they can create with their own photos on the labels. The strategy of this program is to provide a customized and personalized product offering to our consumers as well as an innovative marketing opportunity for our Jones Soda brand. Consumers can upload their photos through our website and create their own “myJones” labels. The personalized labels are downloaded at our headquarters, applied to 12-packs of Jones Soda and delivered to the consumer.

We believe our photo strategy has increased awareness for, as well as provided for increased consumer interactivity with, the Jones Soda brand.

Point of Sale and Consumer Awareness

We use point-of-sale materials such as posters, stickers, hats and T-shirts to create and increase consumer awareness of our proprietary products and brands. In response to consumer demand, we also sell our products and our wearables on our website. In selected cities, we participate at a “grassroots” level at certain community and sporting events in an attempt to create and increase brand awareness and loyalty. We use recreational vehicles, vans and independent distributor vehicles painted with the Jones colors and logos to create consumer awareness and enthusiasm at these events and to assist distributors as they open new retail accounts and markets.

From time to time, we partner with companies that will manufacture Jones-related products that we feel extend and enhance our Jones brand. We currently have a licensing arrangement with a third party to manufacture and distribute Jones Soda Flavor Booster hard candy. In addition to these marketing techniques, we also pursue cross-promotional campaigns with other companies.

Partnership with Young Audiences

Beginning in 2014, we partnered with Young Audiences to launch the Jones Soda Photography Curriculum, which was created to teach children about the art of photography. Young Audience’s mission is to ensure arts remain an integral part of youth education, with the help of organizations such as Jones Soda. We feel that it is a worthy cause directly aimed at supporting the children that make up our fan base. Customer-submitted photos are one of our key assets, and to utilize them in a way that we can give back to the community, is directly aligned with the brand’s core values.

Brand and Product Development

We understand the importance of creating new beverage products and enhancing our existing products to meet the ever changing consumer taste profile. We intend to build upon our sparkling beverage portfolio, and in 2014, we

expanded distribution of Jones Stripped our natural line, to the Pacific Northwest and Texas and will continue to present Jones Stripped to new distributor partners and retailers in new markets in 2015. In addition, we created a program that allows for our Jones Soda product line to be offered “on tap” or on fountain. We partner with restaurants and grocery stores that prefer to offer new innovative and pure cane sugar fountain opportunities for their guests and we utilize a select group of fountain distributors to service these retail customers.

Our strategy is to focus on innovative products that will be accepted by consumers, retailers and distributors. We believe this is accomplished by keeping open dialog directly with our consumers through our website, blogs and social media as well as with our retail and distributor partners to ensure we are current with consumer trends in the beverage industry.

We develop the majority of our brands and products in-house. We used a similar process initially to create the Jones Soda brand, and we intend to continue utilizing this process to create our future brands and products. This process primarily consists of the following steps:

4

Table of Contents

Market Evaluation. We evaluate the strengths and weaknesses of certain categories and segments of the beverage industry with a view to pinpointing potential opportunities.

Distributor Evaluation. We analyze existing and potential distribution channels, whether DSD, DTR or a blend of these channels. This analysis addresses, among other things, which companies will distribute particular beverage brands and products, where such companies may distribute such brands and products, and what will motivate these distributors to distribute such brands and products.

Production Evaluation. We review all aspects of production of our beverages, including contract packing capacity, strategic production locations, and quality control, and prepare a cost analysis of the various considerations that will be critical to producing our brands and products.

Image and Design. Based on our evaluation of the market, distributors and production issues, we create and develop the concept for a beverage brand, product or product extension. Our technical services department then works with various flavor concentrate houses to test, choose and develop product flavors for the brand.

We believe that the ongoing process of creating new brands, products and product extensions will be an important factor in our long-term success.

Competition

The beverage industry is highly competitive. Principal methods of competition in the beverage industry include:

- distribution;
- shelf-management;
- licensing;
- brand name and image;
- price;
- labeling and packaging;
- advertising;
- product quality and taste;
- trade and consumer promotions; and
- development of new brands, products and product extensions.

We compete with other beverage companies not only for consumer acceptance but also for shelf space in retail accounts and for marketing focus by our distributors, all of whom also distribute other beverage brands. Our products compete with all non-alcoholic beverages, most of which are marketed by companies with substantially greater financial resources than ours. We also compete with regional beverage producers and “private label” soft drink suppliers. Our direct competitors in the sparkling beverage industry include Dr. Pepper Snapple (Stewart's and IBC), Boylan, Henry Weinhard's, Thomas Kemper, and other regional premium soft drink companies. We also compete against Coca-Cola, Pepsi, Hansen's, and other traditional soft drink manufacturers and distributors. Our fountain offering competes directly with Coca-Cola and Pepsi.

In order to compete effectively in the beverage industry, from time to time we develop and introduce new products and product extensions, and when warranted, new brands. An example of this is Jones Stripped, which we launched in 2013 to enhance our sparkling portfolio and have expanded distribution to other select markets in 2014 and 2015.

Although we believe that we will be able to continue to create competitive and relevant brands and products to satisfy consumers' changing preferences, there can be no assurance that we will be able to do so or that other companies will not be more successful in this regard over the long term.

Pricing of the products is also important. We believe that our products are priced in the same price range or higher than competitive brands and products and compete on quality as they are premium product offerings.

Production

Contract Packing Arrangements

We do not directly manufacture our products, but instead outsource the manufacturing process to third party bottlers and independent contract manufacturers (co-packers). We currently use primary co-packers located in Canada and the U.S. as well as a co-packer in the United Kingdom. Once the product is manufactured, the finished products are stored either at the co-

5

Table of Contents

packer's location or in nearby third-party warehouses. Other than minimum case volume requirements per production run for most co-packers, we do not have annual minimum production commitments with our co-packers. Our co-packers may terminate their arrangements with us at any time, in which case we could experience disruptions in our ability to deliver products to our customers. We continually review our contract packing needs in light of regulatory compliance and logistical requirements and may add or change co-packers based on those needs.

Raw Materials

The raw materials used in the manufacturing of our products consist primarily of concentrate, flavors, supplements, sugar, bottles, cans, labels, trays, caps and packaging. Substantially all of the raw materials used in the preparation, bottling and packaging of our bottle and can products are purchased by us or by our contract manufacturers in accordance with our specifications. These raw materials are purchased from suppliers selected by us or by our contract manufacturers. We believe that we have adequate sources of raw materials, which are available from multiple suppliers.

We purchase flavor concentrate from our suppliers. Generally, flavor concentrate suppliers own the proprietary rights to the flavors. Although we do not have the list of ingredients or formulas for our flavors, we have exclusive rights to the use of the flavor concentrates developed with our suppliers. In connection with the development of new products and flavors, independent suppliers bear a large portion of the expense for product development, thereby enabling us to develop new products and flavors at relatively low cost. If we have to replace a flavor supplier, we could experience disruptions in our ability to deliver products to our customers, which could have a material adverse effect on our results of operations.

The costs of raw materials fluctuate and in certain instances we enter into supply agreements to address these risks. We have a three-year fixed price supply agreement with our primary glass supplier which expires at the end of 2016. The price of glass continues to increase each year due to the shortage of available glass in the industry; however, our supply agreement with our glass supplier provides us with some price protection.

Quality Control

Our products are made from high quality ingredients and natural and artificial flavors. We seek to ensure that all of our products satisfy our high quality standards. Contract manufacturers are selected and monitored by our quality control representatives in an effort to ensure adherence to our production procedures and quality standards.

For every run of product, our contract manufacturer undertakes extensive testing of product quality and packaging. This includes testing levels of sweetness, carbonation, taste, product integrity, packaging and various regulatory cross checks. Samples from each production run are analyzed and categorized in a reference library. For each product, the contract manufacturer must transmit all quality control test results to us for reference following each production run.

Testing also includes microbiological checks and other tests to ensure the production facilities meet the standards and specifications of our quality assurance program. Water quality is monitored during production and at scheduled testing times to ensure compliance with beverage industry standards. The water used to produce our products is filtered and is also treated to reduce alkalinity. Flavors are pre-tested by the flavor concentrate supplier before shipment to contract manufacturers. We are committed to ongoing product improvement with a view towards ensuring the high quality of our product through a stringent co-packer selection, training and communication program.

Regulation

The production and marketing of our proprietary beverages are subject to the rules and regulations of various federal, provincial, state and local health agencies, including in particular Health Canada, Agriculture and Agri-Food Canada (AAFC) and the U.S. Food and Drug Administration (FDA). The FDA and AAFC also regulate labeling of our products. From time to time, we may receive notifications of various technical labeling or ingredient reviews with respect to our products. We believe that we have a compliance program in place to ensure compliance with production, marketing and labeling regulations.

Legal requirements have been enacted in jurisdictions in the U.S. and Canada requiring that deposits or certain eco-taxes or fees be charged for the sale, marketing and use of certain non-refillable beverage containers. The precise requirements imposed by these measures vary. Other beverage container-related deposit, recycling, eco-tax and/or product stewardship proposals have been introduced in various jurisdictions in the U.S. and Canada. We anticipate that similar legislation or regulations may be proposed in the future at local, state and federal levels, both in the U.S. and Canada.

Trademarks, Flavor Concentrate Trade Secrets and Patent Rights

In the U.S., we own a number of trademark registrations (designated by the ® symbol) and pending trademark applications (designated by the ™ symbol) for use in connection with our products, including “JONES®,” “JONES SODA CO.®,” “JONES ZILCH®,” “JONES STRIPPED™.”

Table of Contents

In general, trademark registrations expire 10 years from the filing date or registration date, with the exception in Canada, where trademark registrations expire 15 years from the registration date. All trademark registrations may be renewed for a nominal fee.

We have the exclusive rights to our flavor concentrates developed with our current flavor concentrate suppliers, which we protect as trade secrets. We will continue to take appropriate measures to maintain the secrecy and proprietary nature of our flavor concentrates.

We consider our trademarks and trade secrets to be of considerable value and importance to our business.

Seasonality

Our sales are seasonal and we experience fluctuations in quarterly results due to many factors. We historically have generated a greater percentage of our revenues during the warm weather months of April through September. Timing of customer purchases will vary each year and sales can be expected to shift from one quarter to another. As a result, management believes that period-to-period comparisons of results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance or results expected for the fiscal year.

Employees

As of the date of this Report, we have 22 employees, all of which are full-time. Of our 22 employees, 11 are employed in sales and marketing capacities, 6 are employed in administrative capacities and 5 are employed in customer service, manufacturing and quality control capacities. None of our employees are represented by labor unions.

Securities Exchange Act Reports and other Available Information

As a public company, we are required to file our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, proxy statements on Schedule 14A and other information (including any amendments) with the Securities and Exchange Commission (the "SEC"). You can find our SEC filings at the SEC's website at www.sec.gov. You may also read and copy such material at the SEC's Public Reference Room located at 100 F Street, N.E., Washington, D.C. 20549.

Our Internet address is www.jonessoda.com. Information contained on our website is not part of this annual report on Form 10-K.

We make available on or through our website at www.jonessoda.com our SEC filings free of charge as soon as reasonably practicable after we electronically file the information with, or furnish it to, the SEC. In addition, the following corporate governance materials are also available on our website under "Company — Jones Press — Investor Information — Corporate Governance:"

- Audit Committee Charter
- Compensation and Governance Committee Charter
- Nominating Committee Charter
- Code of Conduct applicable to all directors, officers and employees of Jones Soda Co.
- Code of Ethics for our CEO and senior financial officers.

A copy of any of the materials filed with or furnished to the SEC or copies of the corporate governance materials described above are available free of charge and can be mailed to you upon request to Jones Soda Co., 66 South Hanford Street, Suite 150, Seattle, Washington 98134.

Table of Contents

ITEM 1A.RISK FACTORS.

You should carefully consider the following risk factors that may affect our business, including our financial condition and results of operations. The risks and uncertainties described below are not the only risks we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial also may impair our business. If any of the following risks actually occur, our business could be harmed, the trading price of our common stock could decline and you could lose all or part of your investment in us.

Risk Factors Relating to Our Company and Our Business

If we are not able to successfully execute on our 2015 operating plan, our financial condition and results of operation may be materially adversely affected, and we may not be able to continue as a going concern.

It is critical that we meet our case sales goals and increase case sales going forward as our 2015 operating plan already reflects prior significant cost containment measures and may make it difficult to achieve top-line growth if further significant reductions become necessary. If we do not meet our case sales goals, our available cash and working capital will decrease and our financial condition will be negatively impacted. Additionally, if we do not meet our case sales goals, we may be required to use our secured credit facility (which is currently available for our working capital needs), implement further expense reductions, seek additional financing, or pursue a sale or other strategic alternatives. The uncertainties relating to our ability to successfully execute our 2015 operating plan, combined with the difficult financing environment, continue to raise substantial doubt about our ability to continue as a going concern.

We may need additional financing in the future, which may not be available when needed or may be costly and dilutive.

We may require additional financing to support our working capital needs in the future. The amount of additional capital we may require, the timing of our capital needs and the availability of financing to fund those needs will depend on a number of factors, including our strategic initiatives and operating plans, the performance of our business and the market conditions for debt or equity financing. Additionally, the amount of capital required will depend on our ability to meet our case sales goals and otherwise successfully execute our operating plan. We believe it is imperative to meet these sales objectives in order to lessen our reliance on external financing in the future. Although we believe various debt and equity financing alternatives will be available to us to support our working capital needs, financing arrangements on acceptable terms may not be available to us when needed. Additionally, these alternatives may require significant cash payments for interest and other costs or could be highly dilutive to our existing shareholders. Any such financing alternatives may not provide us with sufficient funds to meet our long-term capital requirements. If necessary, we may explore strategic transactions that we consider to be in the best interest of the Company and our shareholders, which may include, without limitation, public or private offerings of debt or equity securities, a rights offering, and other strategic alternatives; however, these options may not ultimately be available or feasible.

Our reliance on distributors, retailers and brokers could affect our ability to efficiently and profitably distribute and market our products, maintain our existing markets and expand our business into other geographic markets.

Our ability to maintain and expand our existing markets for our products, and to establish markets in new geographic distribution areas, is dependent on our ability to establish and maintain successful relationships with reliable distributors, retailers and brokers strategically positioned to serve those areas. Most of our distributors, retailers and brokers sell and distribute competing products, including non-alcoholic and alcoholic beverages, and our products may represent a small portion of their businesses. Our ability to incentivize and motivate distributors to manage and sell our products is affected by competition from other beverage companies who have greater resources than we do.

To the extent that our distributors, retailers and brokers are distracted from selling our products or do not employ sufficient efforts in managing and selling our products, including re-stocking the retail shelves with our products, our sales and results of operations could be adversely affected.

Our ability to maintain and expand our distribution network and attract additional distributors, retailers and brokers will depend on a number of factors, some of which are outside our control. Some of these factors include:

- the level of demand for our brands and products in a particular distribution area;
- our ability to price our products at levels competitive with those of competing products; and
- our ability to deliver products in the quantity and at the time ordered by distributors, retailers and brokers.

We may not be able to successfully manage all or any of these factors in any of our current or prospective geographic areas of distribution. Our inability to achieve success with regards to any of these factors in a geographic distribution area will have a material adverse effect on our relationships in that particular geographic area, thus limiting our ability to maintain or expand our market, which will likely adversely affect our revenues and financial results.

Table of Contents

We incur significant time and expense in attracting and maintaining key distributors.

Our marketing and sales strategy depends in large part on the availability and performance of our independent distributors. We currently do not have, nor do we anticipate in the future that we will be able to establish, long-term contractual commitments from some of our distributors. We may not be able to maintain our current distribution relationships or establish and maintain successful relationships with distributors in new geographic distribution areas. Moreover, there is the additional possibility that we may have to incur additional expenditures to attract and maintain key distributors in one or more of our geographic distribution areas in order to profitably exploit our geographic markets.

If we lose any of our key distributors or national retail accounts, our financial condition and results of operations could be adversely affected.

For the year ended December 31, 2014, our top three accounts by revenue represent approximately 37% of revenue. We continually seek to expand and upgrade our distributor network and DTR accounts. However, we may not be able to maintain our key distributor base. The loss of any of our key distributors or national accounts could have adverse effects on our revenues and financial results, could negatively impact our ability to retain our relationships with our other distributors and our ability to expand our market, and would place increased dependence on our other independent distributors and national accounts.

It is difficult to predict the timing and amount of our sales because our distributors are not required to place minimum orders with us.

Our independent distributors are not required to place minimum monthly or annual orders for our products. In order to reduce their inventory costs, independent distributors typically order products from us on a “just in time” basis in quantities and at such times based on the demand for the products in a particular distribution area. Accordingly, we cannot predict the timing or quantity of purchases by any of our independent distributors or whether any of our distributors will continue to purchase products from us in the same frequencies and volumes as they may have done in the past.

If we do not adequately manage our inventory levels, our operating results could be adversely affected.

We need to maintain adequate inventory levels to be able to deliver products to distributors on a timely basis. Our inventory supply depends on our ability to correctly estimate demand for our products. Our ability to estimate demand for our products is imprecise, particularly for new products, seasonal promotions and new markets. If we materially underestimate demand for our products or are unable to maintain sufficient inventory of raw materials, we might not be able to satisfy demand on a short-term basis. If we overestimate distributor or retailer demand for our products, we may end up with too much inventory, resulting in higher storage costs, increased trade spend and the risk of inventory spoilage. If we fail to manage our inventory to meet demand, we could damage our relationships with our distributors and retailers and could delay or lose sales opportunities, which would unfavorably impact our future sales and adversely affect our operating results. In addition, if the inventory of our products held by our distributors and retailers is too high, they will not place orders for additional products, which would also unfavorably impact our sales and adversely affect our operating results.

If we fail to maintain relationships with our independent contract manufacturers, our business could be harmed.

We do not manufacture our products but instead outsource the manufacturing process to third party bottlers and independent contract manufacturers (co-packers). We do not own the plants or the majority of the equipment required to manufacture and package our beverage products, and we do not anticipate bringing the manufacturing process

in-house in the future. Our ability to maintain effective relationships with contract manufacturers and other third parties for the production and delivery of our beverage products in a particular geographic distribution area is important to the success of our operations within each distribution area. Competition for contract manufacturers' business is intense, especially in the western U.S., and this could make it more difficult for us to obtain new or replacement manufacturers, or to locate back-up manufacturers, in our various distribution areas, and could also affect the economic terms of our agreements with our existing manufacturers. We may not be able to maintain our relationships with current contract manufacturers or establish satisfactory relationships with new or replacement contract manufacturers, whether in existing or new geographic distribution areas. The failure to establish and maintain effective relationships with contract manufacturers for a distribution area could increase our manufacturing costs and thereby materially reduce gross profits from the sale of our products in that area. Poor relations with any of our contract manufacturers could adversely affect the amount and timing of product delivered to our distributors for resale, which would in turn adversely affect our revenues and financial condition. In addition, our agreements with our contract manufacturers are terminable at any time, and any such termination could disrupt our ability to deliver products to our customers.

Our dependence on independent contract manufacturers could make management of our manufacturing and distribution efforts inefficient or unprofitable.

We are expected to arrange for our contract manufacturing needs sufficiently in advance of anticipated requirements, which is customary in the contract manufacturing industry for comparably sized companies. Based on the cost structure and

Table of Contents

forecasted demand for the particular geographic area where our contract manufacturers are located, we continually evaluate which of our contract manufacturers to use. To the extent demand for our products exceeds available inventory or the production capacity of our contract manufacturing arrangements, or orders are not submitted on a timely basis, we will be unable to fulfill distributor orders on demand. Conversely, we may produce more product inventory than warranted by the actual demand for it, resulting in higher storage costs and the potential risk of inventory spoilage. Our failure to accurately predict and manage our contract manufacturing requirements and our inventory levels may impair relationships with our independent distributors and key accounts, which, in turn, would likely have a material adverse effect on our ability to maintain effective relationships with those distributors and key accounts.

Increases in costs or shortages of raw materials could harm our business and financial results.

The principal raw materials we use include glass bottles, aluminum cans, labels and cardboard cartons, aluminum closures, flavorings, sucrose/inverted pure cane sugar and sucralose, and fortification ingredients which include vitamins and minerals. In addition, certain of our contract manufacturing arrangements allow such contract manufacturers to increase their charges to us based on their own cost increases. These manufacturing and ingredient costs are subject to fluctuation. If our supply of these raw materials is impaired or if prices increase significantly, our business would be adversely affected.

We have experienced increased prices for glass bottles over the last several years and the availability of glass supply diminished for companies not under contract. Although our fixed-price purchase commitment for glass helps mitigate the risk of unexpected price increases, the prices of any of the above or any other raw materials or ingredients may continue to rise in the future. Due to the price sensitivity of our products, we may not be able to pass such increases on to our customers.

If we are unable to secure sufficient ingredients or raw materials including glass, sugar, and other key supplies, we might not be able to satisfy demand on a short-term basis. Moreover, in the past there have been industry-wide shortages of certain concentrates, supplements and sweeteners and these shortages could occur again from time to time in the future, which could interfere with and delay production of our products and could have a material adverse effect on our business and financial results.

Increases in costs of energy and freight may have an adverse impact on our gross margin.

Over the past few years, volatility in the global oil markets has resulted in high fuel prices, which many shipping companies have passed on to their customers by way of higher base pricing and increased fuel surcharges. With recent declines in fuel prices, some companies have been slow to pass on decreases in their fuel surcharges. If fuel prices increase again, we expect to experience higher shipping rates and fuel surcharges, as well as energy surcharges on our raw materials. It is hard to predict what will happen in the fuel markets in 2015. Due to the price sensitivity of our products, we may not be able to pass such increases on to our customers.

Disruption within our supply chain, contract manufacturing or distribution channels could have an adverse effect on our business, financial condition and results of operations.

Our ability, through our suppliers, business partners, contract manufacturers, independent distributors and retailers, to make, move and sell products is critical to our success. Damage or disruption to our suppliers or to manufacturing or distribution capabilities due to weather, natural disaster, fire or explosion, terrorism, pandemics such as influenza, labor strikes or other reasons, could impair the manufacture, distribution and sale of our products. Many of these events are outside of our control. Failure to take adequate steps to protect against or mitigate the likelihood or potential impact of such events, or to effectively manage such events if they occur, could adversely affect our

business, financial condition and results of operations.

Our results of operations may fluctuate from quarter to quarter for many reasons, including seasonality.

Our sales are seasonal and we experience fluctuations in quarterly results as a result of many factors. We historically have generated a greater percentage of our revenues during the warm weather months of April through September. Timing of customer purchases will vary each year and sales can be expected to shift from one quarter to another. As a result, management believes that period-to-period comparisons of results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance or results expected for the fiscal year.

In addition, our operating results may fluctuate due to a number of other factors including, but not limited to:

- Our ability to maintain, develop and expand distribution channels for current and new products, develop favorable arrangements with third party distributors of our products and minimize or reduce issues associated with engaging new distributors and retailers, including, but not limited to, transition costs and expenses and down time resulting from the initial deployment of our products in each new distributor's network;
- Unilateral decisions by distributors, grocery store chains, specialty chain stores, club stores, mass merchandisers and other customers to discontinue carrying all or any of our products that they are carrying at any time;

Table of Contents

- Our ability to maintain, develop and expand our direct-to-retail sales channels and national retail accounts, as well as our “myJones” business;
- Our ability to manage our resources to sufficiently support general operating activities, promotion allowances and slotting fees, promotion and selling activities, and capital expansion, and our ability to sustain profitability;
- Our ability to meet the competitive response by much larger, well-funded and established companies currently operating in the beverage industry, as we introduce new competitive products, such as our natural line of Jones Soda, Jones Stripped; and
- Competitive products and pricing pressures and our ability to gain or maintain share of sales in the marketplace as a result of actions by competitors.

Due to these and other factors, our results of operations have fluctuated from period to period and may continue to do so in the future, which could cause our operating results in a particular quarter to fail to meet market expectations.

We rely upon our ongoing relationships with our key flavor suppliers. If we are unable to source our flavors on acceptable terms from our key suppliers, we could suffer disruptions in our business.

We currently purchase our flavor concentrate from various flavor concentrate suppliers, and continually develop other sources of flavor concentrate for each of our products. Generally, flavor suppliers hold the proprietary rights to their flavors. Although we have the exclusive rights to flavor concentrates developed with our current flavor concentrate suppliers, we do not have the list of ingredients or formulas for our flavors and concentrates. Consequently, we may be unable to obtain these same flavors or concentrates from alternative suppliers on short notice. If we have to replace a flavor supplier, we could experience disruptions in our ability to deliver products to our customers, which could have a material adverse effect on our results of operations.

Our brand and image are keys to our business and any inability to maintain a positive brand image could have a material adverse effect on our results of operations.

Our success depends on our ability to maintain brand image for our existing products and effectively build up brand image for new products and brand extensions. We cannot predict whether our advertising, marketing and promotional programs will have the desired impact on our products’ branding and on consumer preferences. In addition, negative public relations and product quality issues, whether real or imagined, could tarnish our reputation and image of the affected brands and could cause consumers to choose other products. Our brand image can also be adversely affected by unfavorable reports, studies and articles, litigation, or regulatory or other governmental action, whether involving our products or those of our competitors.

If we are unable to attract and retain key personnel, our efficiency and operations would be adversely affected.

Our success depends on our ability to attract and retain highly qualified employees in such areas as sales, marketing, product development and finance. We compete to hire new employees, and, in some cases, must train them and develop their skills and competencies. Our operating results could be adversely affected by increased costs due to increased competition for employees, higher employee turnover or increased employee benefit costs. Any unplanned turnover, particularly involving our key personnel, could negatively impact our operations, financial condition and employee morale.

If we lose the services of our CEO, our operations could be disrupted and our business could be harmed.

Our business plan relies significantly on the continued services of Jennifer Cue, who we hired as our CEO in June 2012. If we were to lose the services of Ms. Cue, our ability to execute our business plan could be materially impaired. We are not aware of any facts or circumstances that suggest she might leave us. We are currently in the process of obtaining key person life insurance on Ms. Cue.

If we fail to protect our trademarks and trade secrets, we may be unable to successfully market our products and compete effectively.

We rely on a combination of trademark and trade secrecy laws, confidentiality procedures and contractual provisions to protect our intellectual property rights. Failure to protect our intellectual property could harm our brand and our reputation, and adversely affect our ability to compete effectively. Further, enforcing or defending our intellectual property rights, including our trademarks, copyrights, licenses and trade secrets, could result in the expenditure of significant financial and managerial resources. We regard our intellectual property, particularly our trademarks and trade secrets to be of considerable value and importance to our business and our success, and we actively pursue the registration of our trademarks in the U.S., Canada and internationally. However, the steps taken by us to protect these proprietary rights may not be adequate and may not prevent third parties from infringing or misappropriating our trademarks, trade secrets or similar proprietary rights. In addition, other parties may seek to assert infringement claims against us, and we may have to pursue litigation against other parties to assert

11

Table of Contents

our rights. Any such claim or litigation could be costly. In addition, any event that would jeopardize our proprietary rights or any claims of infringement by third parties could have a material adverse effect on our ability to market or sell our brands, profitably exploit our products or recoup our associated research and development costs.

As part of the licensing strategy of our brands, we enter into licensing agreements under which we grant our licensing partners certain rights to use our trademarks and other designs. Although our agreements require that the use of our trademarks and designs is subject to our control and approval, any breach of these provisions, or any other action by any of our licensing partners that is harmful to our brands, goodwill and overall image, could have a material adverse impact on our business.

Litigation or legal proceedings could expose us to significant liabilities and damage our reputation.

We may become party to litigation claims and legal proceedings. Litigation involves significant risks, uncertainties and costs, including distraction of management attention away from our business operations. We evaluate litigation claims and legal proceedings to assess the likelihood of unfavorable outcomes and to estimate, if possible, the amount of potential losses. Based on these assessments and estimates, we establish reserves and disclose the relevant litigation claims or legal proceedings, as appropriate. These assessments and estimates are based on the information available to management at the time and involve a significant amount of management judgment. Actual outcomes or losses may differ materially from those envisioned by our current assessments and estimates. Our policies and procedures require strict compliance by our employees and agents with all United States and local laws and regulations applicable to our business operations, including those prohibiting improper payments to government officials. Nonetheless, our policies and procedures may not ensure full compliance by our employees and agents with all applicable legal requirements. Improper conduct by our employees or agents could damage our reputation or lead to litigation or legal proceedings that could result in civil or criminal penalties, including substantial monetary fines, as well as disgorgement of profits.

Changes in accounting standards and subjective assumptions, estimates and judgments by management related to complex accounting matters could significantly affect our financial results.

U.S. generally accepted accounting principles and related pronouncements, implementation guidelines and interpretations with regard to a wide variety of matters that are relevant to our business, such as, but not limited to, stock-based compensation, trade spend and promotions, and income taxes are highly complex and involve many subjective assumptions, estimates and judgments by our management. Changes to these rules or their interpretation or changes in underlying assumptions, estimates or judgments by our management could significantly change our reported results.

If we are unable to maintain effective disclosure controls and procedures and internal control over financial reporting, our stock price and investor confidence could be materially and adversely affected.

We are required to maintain both disclosure controls and procedures and internal control over financial reporting that are effective. Because of their inherent limitations, internal control over financial reporting, however well designed and operated, can only provide reasonable, and not absolute, assurance that the controls will prevent or detect misstatements. Because of these and other inherent limitations of control systems, there is only the reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions. The failure of controls by design deficiencies or absence of adequate controls could result in a material adverse effect on our business and financial results, which could also negatively impact our stock price and investor confidence.

If we are unable to build and sustain proper information technology infrastructure, our business could suffer.

We depend on information technology as an enabler to improve the effectiveness of our operations and to interface with our customers, as well as to maintain financial accuracy and efficiency. If we do not allocate and effectively manage the resources necessary to build and sustain the proper technology infrastructure, we could be subject to transaction errors, processing inefficiencies, the loss of customers, business disruptions, or the loss of or damage to intellectual property through security breaches.

We could be subject to cybersecurity attacks.

Cybersecurity attacks are evolving and include malicious software, attempts to gain unauthorized access to data, and other electronic security breaches that could lead to disruptions in business processes, unauthorized release of confidential or otherwise protected information and corruption of data. Such unauthorized access could subject us to operational interruption, damage to our brand image and private data exposure, and harm our business.

12

Table of Contents

Our business and periodic financial results can be affected by currency rate fluctuations, because a significant percentage of our business is in Canada.

A significant percentage of our sales are conducted through our Canadian subsidiary, for which we receive revenues in the Canadian dollar. In addition, a significant percentage of our costs of goods are denominated in the Canadian dollar, due to our co-packing facility in Canada. Because of this we are affected by changes in U.S. exchange rates with the Canadian dollar.

In preparing our consolidated financial statements, certain financial information is required to be translated from the Canadian dollar to the U.S. dollar. The translation of our Canadian revenues, cash and other assets is adversely affected when the U.S. strengthens against the Canadian dollar and is positively affected when the U.S. dollar weakens. Similarly, translation of our Canadian expenses and liabilities is positively affected when the U.S. dollar strengthens against the Canadian dollar and adversely affected when the U.S. dollar weakens. This exposure to foreign currency risk could significantly affect our revenues and profitability from our Canadian operations and could result in significant fluctuations to our periodic income statements and consolidated balance sheets.

During 2014 and continuing into 2015, the exchange rate between the Canadian dollar and the U.S. dollar has fluctuated drastically with the United States dollar significantly strengthening, and is currently near a five-year low in favor of the U.S. dollar. As of March 16, 2015, the U.S. dollar exchange rate for one Canadian dollar was 0.78 (compared to 0.86 as of December 31, 2014 and 0.93 as of December 31, 2013). We cannot predict future changes in these exchange rates. We do not engage in foreign currency hedging transactions.

Risk Factors Relating to Our Industry

We may experience a reduced demand for some of our products due to health concerns (including obesity) and legislative initiatives against sweetened beverages.

Consumers are concerned about health and wellness; public health officials and government officials are increasingly vocal about obesity and its consequences. There has been a trend among some public health advocates and dietary guidelines to recommend a reduction in sweetened beverages, as well as increased public scrutiny, potential new taxes on sugar-sweetened beverages, and additional governmental regulations concerning the marketing and labeling/packing of the beverage industry. Additional or revised regulatory requirements, whether labeling, tax or otherwise, could have a material adverse effect on our financial condition and results of operations. Further, increasing public concern with respect to sweetened beverages could reduce demand for our beverages. In partial response to this public focus, we developed a natural line of Jones Soda, Jones Stripped, as a natural ingredient and lower-calorie premium carbonated soft drink. We cannot predict the market acceptance for Jones Stripped and whether it will mitigate the impact and risks to us of these health concerns focused on the beverage industry.

We compete in an industry that is brand-conscious, so brand name recognition and acceptance of our products are critical to our success.

Our business is substantially dependent upon awareness and market acceptance of our products and brands by our target market, trendy, young consumers looking for a distinctive tonality in their beverage choices. In addition, our business depends on acceptance by our independent distributors and retailers of our brands as beverage brands that have the potential to provide incremental sales growth. If we are not successful in the revitalization and growth of our brand and product offerings, we may not achieve and maintain satisfactory levels of acceptance by independent distributors and retail consumers. Accordingly, any failure of our Jones Soda brand to maintain or increase acceptance or market penetration would likely have a material adverse effect on our revenues and financial results.

Competition from traditional non-alcoholic beverage manufacturers may adversely affect our distribution relationships and may hinder development of our existing markets, as well as prevent us from expanding our markets.

The beverage industry is highly competitive. We compete with other beverage companies not only for consumer acceptance but also for shelf space in retail outlets and for marketing focus by our distributors, all of whom also distribute other beverage brands. Our products compete with a wide range of drinks produced by a relatively large number of manufacturers, most of which have substantially greater financial, marketing and distribution resources than ours. Some of these competitors are placing severe pressure on independent distributors not to carry competitive sparkling brands such as ours. We also compete with regional beverage producers and “private label” soft drink suppliers.

Our direct competitors in the Sparkling beverage category include Dr. Pepper Snapple (Stewart's and IBC), Boylan, Henry Weinhard's, Thomas Kemper, and other regional premium soft drink companies. We also compete against Coca-Cola, Pepsi, Hansen's and other traditional soft drink manufacturers and distributors. These national and international competitors have advantages such as lower production costs, larger marketing budgets, greater financial and other resources and more

Table of Contents

developed and extensive distribution networks than ours. We may not be able to grow our volumes or maintain our selling prices, whether in existing markets or as we enter new markets.

Increased competitor consolidations, market-place competition, particularly among branded beverage products, and competitive product and pricing pressures could impact our earnings, market share and volume growth. If, due to such pressure or other competitive threats, we are unable to sufficiently maintain or develop our distribution channels, we may be unable to achieve our current revenue and financial targets. As a means of maintaining and expanding our distribution network, we intend to introduce product extensions and additional brands. We may not be successful in doing this and other companies may be more successful in this regard over the long term. Competition, particularly from companies with greater financial and marketing resources than ours, could have a material adverse effect on our existing markets, as well as on our ability to expand the market for our products.

We compete in an industry characterized by rapid changes in consumer preferences and public perception, so our ability to continue developing new products to satisfy our consumers' changing preferences will determine our long-term success.

Failure to introduce new brands, products or product extensions into the marketplace as current ones mature and to meet our consumers' changing preferences could prevent us from gaining market share and achieving long-term profitability. Product lifecycles can vary and consumers' preferences and loyalties change over time. Although we try to anticipate these shifts and innovate new products to introduce to our consumers, we may not succeed. Customer preferences also are affected by factors other than taste, such as health and nutrition considerations and obesity concerns, shifting consumer needs, changes in consumer lifestyles, increased consumer information and competitive product and pricing pressures. Sales of our products may be adversely affected by the negative publicity associated with these issues. If we do not adequately anticipate or adjust to respond to these and other changes in customer preferences, we may not be able to maintain and grow our brand image and our sales may be adversely affected.

Global economic conditions may continue to adversely impact our business and results of operations.

The beverage industry, and particularly those companies selling premium beverages like us, can be affected by macro economic factors, including changes in national, regional, and local economic conditions, unemployment levels and consumer spending patterns, which together may impact the willingness of consumers to purchase our products as they adjust their discretionary spending. The recent disruptions in the overall economy and financial markets as a result of the global economic downturn have adversely impacted the U.S. and Canada, our two primary markets. This reduced consumer confidence in the economy has reduced consumers' discretionary spending and we believe this has negatively affected consumers' willingness to purchase beverage products such as ours. Moreover, adverse economic conditions may adversely affect the ability of our distributors to obtain the credit necessary to fund their working capital needs, which could negatively impact their ability or desire to continue to purchase products from us in the same frequencies and volumes as they have done in the past. If we experience similar adverse economic conditions in the future, sales of our products could be adversely affected, collectability of accounts receivable may be compromised and we may face obsolescence issues with our inventory, any of which could have a material adverse impact on our operating results and financial condition.

If we encounter product recalls or other product quality issues, our business may suffer.

Product quality issues, real or imagined, or allegations of product contamination, even when false or unfounded, could tarnish our image and could cause consumers to choose other products. In addition, because of changing government regulations or implementation thereof, or allegations of product contamination, we may be required from time to time to recall products entirely or from specific markets. Product recalls could affect our profitability and could negatively affect brand image.

We could be exposed to product liability claims.

Although we have product liability and basic recall insurance, insurance coverage may not be sufficient to cover all product liability claims that may arise. To the extent our product liability coverage is insufficient, a product liability claim would likely have a material adverse effect upon our financial condition. In addition, any product liability claim brought against us may materially damage the reputation and brand image of our products and business.

14

Table of Contents

Our business is subject to many regulations and noncompliance is costly.

The production, marketing and sale of our beverages, including contents, labels, caps and containers, are subject to the rules and regulations of various federal, provincial, state and local health agencies. If a regulatory authority finds that a current or future product or production run is not in compliance with any of these regulations, we may be fined, or production may be stopped, which would adversely affect our financial condition and results of operations. Similarly, any adverse publicity associated with any noncompliance may damage our reputation and our ability to successfully market our products. Furthermore, the rules and regulations are subject to change from time to time and while we closely monitor developments in this area, we cannot anticipate whether changes in these rules and regulations will impact our business adversely. Additional or revised regulatory requirements, whether labeling, environmental, tax or otherwise, could have a material adverse effect on our financial condition and results of operations.

Significant additional labeling or warning requirements may inhibit sales of affected products.

Various jurisdictions may seek to adopt significant additional product labeling or warning requirements relating to the chemical content or perceived adverse health consequences of certain of our products. These types of requirements, if they become applicable to one or more of our products under current or future environmental or health laws or regulations, may inhibit sales of such products. In California, a law requires that a specific warning appear on any product that contains a component listed by the state as having been found to cause cancer or birth defects. This law recognizes no generally applicable quantitative thresholds below which a warning is not required. If a component found in one of our products is added to the list, or if the increasing sensitivity of detection methodology that may become available under this law and related regulations as they currently exist, or as they may be amended, results in the detection of an infinitesimal quantity of a listed substance in one of our beverages produced for sale in California, the resulting warning requirements or adverse publicity could affect our sales.

Climate change may negatively affect our business.

There is growing concern that a gradual increase in global average temperatures may cause an adverse change in weather patterns around the globe resulting in an increase in the frequency and severity of natural disasters. While warmer weather has historically been associated with increased sales of our products, changing weather patterns could have a negative impact on agricultural productivity, which may limit availability or increase the cost of certain key ingredients such as sugar cane, natural flavors and supplements used in our products. Also, increased frequency or duration of extreme weather conditions may disrupt the productivity of our facilities, the operation of our supply chain or impact demand for our products. In addition, the increasing concern over climate change may result in more regional, federal and global legal and regulatory requirements and could result in increased production, transportation and raw material costs. As a result, the effects of climate change could have a long-term adverse impact on our business and results of operations.

Risk Factors Related to Our Common Stock

The price of our common stock may be volatile, and a shareholder's investment in our common stock could suffer a decline in value.

There has been significant volatility in the volume and market price of our common stock, and this volatility may continue in the future. In addition, factors such as quarterly variations in our operating results, litigation involving us, general trends relating to the beverage industry, actions by governmental agencies, national economic and stock market considerations as well as other events and circumstances beyond our control could have a significant impact on the future market price of our common stock and the relative volatility of such market price.

If we are not able to achieve our objectives for our business, the value of an investment in our company could be negatively affected.

In order to be successful, we believe that we must, among other things:

- increase the sales volume and gross margins for our products;
- achieve and maintain efficiencies in operations;
- manage our operating expenses to sufficiently support operating activities;
- maintain fixed costs at or near current levels; and
 - avoid significant increases in variable costs relating to production, marketing and distribution.

We may not be able to meet these objectives, which could have a material adverse affect on our results of operations. We have incurred significant operating expenses in the past and may do so again in the future and, as a result, will need to increase revenues in order to improve our results of operations. Our ability to increase sales will depend primarily on success in

Table of Contents

expanding our current markets, improving our distribution base, entering into DTR arrangements with national accounts, and introducing new brands, products or product extensions to the market. Our ability to successfully enter new distribution areas and obtain national accounts will, in turn, depend on various factors, many of which are beyond our control, including, but not limited to, the continued demand for our brands and products in target markets, the ability to price our products at competitive levels, the ability to establish and maintain relationships with distributors in each geographic area of distribution and the ability in the future to create, develop and successfully introduce one or more new brands, products, and product extensions.

Any future equity or debt issuances by us, including the exercise of outstanding warrants, may have dilutive or adverse effects on our existing shareholders.

From time to time, we may issue additional shares of common stock or convertible securities. The issuance of these securities could dilute our shareholders' ownership in our company and may include terms that give new investors rights that are superior to those of our current shareholders. Moreover, any issuances by us of equity securities may be at or below the prevailing market price of our common stock and in any event may have a dilutive impact on our shareholders' ownership interest, which could cause the market price of our common stock to decline.

Our common stock is traded on the OTCQB Marketplace, which may have an unfavorable impact on our stock price and liquidity.

Our stock is traded on the OTCQB Marketplace. The OTCQB is a significantly more limited market than the national securities exchanges such as the New York Stock Exchange, the American Stock Exchange or Nasdaq system, and there are no financial or qualitative standards that a company must meet to be listed on the OTCQB. The OTCQB market is an inter-dealer market much less regulated than the major exchanges and trading in our common stock may be subject to abuses, volatility and shorting. In addition, there may be less information available concerning trading prices, and it may be more difficult for investors to buy or sell shares of our common stock. We currently do not meet applicable listing standards of a market senior to the OTCQB and we may never apply or qualify for future listing on Nasdaq or a senior market.

ITEM 1B.UNRESOLVED STAFF COMMENTS.

None.

ITEM 2.PROPERTIES.

During 2014, we sublet approximately 9,500 square feet of retail/office space in Seattle, Washington for our principal executive and administrative offices. In December 2014, we entered into an agreement with the landlord for early termination of the sublease, which terminated effective February 28, 2015.

Beginning March 1, 2015, we lease approximately 6,500 square feet of retail/office space in Seattle, Washington for our principal executive and administrative offices. The term of the sublease is five years expiring February 2020 with an option to extend for additional one year terms. See Note 7 in the Notes to Consolidated Financial Statements included in this Report for further discussion.

We do not own real property.

ITEM 3.LEGAL PROCEEDINGS.

We are not currently involved in any material legal proceedings. We may be involved from time to time in various claims and legal actions arising in the ordinary course of business, including proceedings involving employee claims, contract disputes, product liability and other general liability claims, as well as trademark, copyright, and related claims and legal actions. In the opinion of our management, the ultimate disposition of these matters will not have a material adverse effect on our consolidated financial position, results of operations or liquidity.

ITEM 4.MINE SAFETY DISCLOSURES.

Not applicable.

Table of Contents

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our common stock currently trades on the OTCQB Marketplace under the symbol "JSDA." The following table shows, for each quarter of fiscal 2014 and 2013, the high and low closing sales prices as reported by the OTCQB Marketplace.

	High	Low
2014		
Fourth quarter (ended December 31, 2014)	\$ 0.52	\$ 0.34
Third quarter (ended September 30, 2014)	0.52	0.32
Second quarter (ended June 30, 2014)	0.49	0.39
First quarter (ended March 31, 2014)	0.63	0.46
2013		
Fourth quarter (ended December 31, 2013)	\$ 0.79	\$ 0.42
Third quarter (ended September 30, 2013)	0.88	0.56
Second quarter (ended June 30, 2013)	0.65	0.35
First quarter (ended March 31, 2013)	0.34	0.25

Holders

As of March 20, 2015, there were 40,972,394 shares of common stock issued and outstanding, held by approximately 238 holders of record, although there are a much larger number of beneficial owners. The last reported sale price per share on March 20, 2015 was \$ 0.38.

Dividends

We have never declared or paid any cash dividends with respect to our common stock. We do not anticipate paying cash dividends on our common stock in the foreseeable future. Any future determination with regard to the payment of dividends will be at the discretion of the Board of Directors and will be dependent upon our future earnings, financial condition, applicable dividend restrictions and capital requirements and other factors deemed relevant by the Board of Directors.

ITEM 7.MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion of our financial condition and results of operations contains forward-looking statements that involve risks and uncertainties, such as statements of our plans, objectives, expectations and intentions. As described at the beginning of this Annual Report on Form 10-K, our actual results could differ materially from those anticipated in these forward-looking statements. Factors that could contribute to such differences include those discussed at the beginning of this Report, below in this section and in the section above entitled “Risk Factors.” You should not place undue reliance on these forward-looking statements, which apply only as of the date of this Report. Except as required by law, we undertake no obligation to update any forward-looking statements to reflect new information, events or circumstances after the date of this Report, or to reflect the occurrence of unanticipated events. You should read the following discussion and analysis in conjunction with our consolidated financial statements and the accompanying notes thereto included elsewhere in this Report.

Overview

We develop, produce, market and distribute premium beverages which we sell and distribute primarily in North America through our network of independent distributors and directly to our national and regional retail accounts. We also sell products in select international markets. Our products are sold primarily in grocery stores, convenience and gas stores, “up and down the street” in independent accounts such as delicatessens and sandwich shops, as well as through our national accounts with several large retailers. We refer to our network of independent distributors as our direct store delivery (DSD) channel, and we refer to our national and regional accounts who receive shipments directly from us as our direct to retail (DTR) channel. We do not directly manufacture our products, but instead outsource the manufacturing process to third-party contract manufacturers. We also sell various products online, including soda with customized labels, wearables, candy and other items, and we license our trademarks for use on products sold by other manufacturers.

Our Focus for Fiscal 2015: Sales Growth

Our focus for 2015 is on revenue, case sales growth and driving to profitability. Over the past two and a half years, we implemented substantial internal changes to our organization, and have achieved significant reductions in our operating expenses and efficiencies in our operations.

The following are key components of this focus for 2015:

- Utilize the strategic distribution improvements implemented across the United States and Canada to grow national and independent account sales of our core Jones Soda lines;
- Expand the distribution of Jones Stripped in the United States and Canada, which previously was launched in select regions in the United States;
- Increase the focus on international expansion;
- Expand our newly launched fountain program of our core product lines in the United States and Canadian marketplaces;
- Build upon partnerships with major retail chains in innovative ways, while continuing to build our base of independent accounts;

Results of Operations

Years Ended December 31, 2014 and 2013

Revenue

For the year ended December 31, 2014, revenue was approximately \$13.6 million, a decrease of \$141,000, or 1.0% from \$13.7 million in revenue for the year ended December 31, 2013. The decrease in revenue was primarily due to the decline in case sales of 2.3%. Our 2014 revenues were also negatively impacted by the weakening Canadian dollar in the second half of the year, which resulted in translation loss on our sales in Canada.

For the year ended December 31, 2014, promotion allowances and slotting fees, which offset revenue, totaled \$1.6 million, a decrease of \$514,000, or 24.1%, from \$2.1 million, in 2013. This decrease was primarily due to tighter management of promotional programming.

Table of Contents

Gross Profit

	Year Ended December 31,		
	2014	2013	% Change
	(Dollars In thousands)		
Gross Profit	\$ 3,012	\$ 3,263	-7.7%
% of Revenue	22.2%	23.8%	

For the year ended December 31, 2014, gross profit decreased by approximately \$251,000 or 7.7%, to \$3.0 million compared to \$3.3 million for the year ended December 31, 2013 due primarily to the case sales decrease combined with higher costs of production, which was mostly impacted in the second quarter of 2014. For the year ended December 31, 2014, gross margin decreased to 22.2% from 23.8% for the year ended December 31, 2013.

Selling and Marketing Expenses

Selling and marketing expenses for the year ended December 31, 2014 were approximately \$2.2 million, a decrease of \$87,000, or 3.7%, from \$2.3 million for the year ended December 31, 2013. Selling and marketing expenses as a percentage of revenue decreased to 16.5% for the year ended December 31, 2014, from 17.0% in 2013 due primarily to a decrease in compensation expense. We will continue to balance selling and marketing expenses with our working capital resources.

General and Administrative Expenses

General and administrative expenses for the year ended December 31, 2014 were \$2.5 million, a decrease of \$244,000 or 8.8%, compared to \$2.8 million for the year ended December 31, 2013. General and administrative expenses as a percentage of revenue decreased to 18.7% for the year ended December 31, 2014 from 20.2% in 2013. The decrease in general and administrative expenses was primarily due to decreases in compensation expense and professional fees. We will continue to balance general and administrative expenses with our working capital resources.

Income Tax Expense

We had income tax expense of \$61,000 in 2014, compared to \$65,000 in 2013, primarily related to the tax provision on income from our Canadian operations. We have not recorded any tax benefit for the loss in our U.S. operations as we have recorded a full valuation allowance on our U.S. net deferred tax assets. We expect to continue to record a full valuation allowance on our U.S. net deferred tax assets until we sustain an appropriate level of taxable income through improved U.S. operations. Our effective tax rate is based on recurring factors, including the forecasted mix of income before taxes in various jurisdictions, estimated permanent differences and the recording of a full valuation allowance on our U.S. net deferred tax assets.

Net Loss

Net loss for the year ended December 31, 2014 improved by 18.6% to \$1.5 million from a net loss of \$1.9 million for the year ended December 31, 2013. This improvement in net loss reflects a decrease in operating expenses due to the continued effort to maintain a sustainable cost structure, offset by the decline in our gross profit for the reasons discussed above. In addition, net loss for 2014 includes other income of \$334,000 as a deferred rent adjustment, due to the termination of our prior office sublease. See Note 7 in the Notes to Consolidated Financial Statements included in

this Report.

Liquidity and Capital Resources

As of December 31, 2014 and 2013, we had cash and cash-equivalents of approximately \$857,000 and \$1.5 million, respectively, and working capital of \$2.6 million and \$3.4 million, respectively. Cash used in operations during fiscal years 2014 and 2013 totaled \$1.2 million and \$317,000, respectively. Cash used in operations increased primarily due to the increase in accounts receivable from higher sales in the latter half of the quarter, increase in inventory due to the timing of production and the favorable write-off of long-term deferred rent discussed above. Also, our cash flows vary throughout the year based on seasonality.

For the year ended December 31, 2014, net cash provided by financing activities totaled \$656,000 primarily from stock option exercises. This compares to net cash provided by financing activities for the year ended December 31, 2013, which totaled approximately \$61,000, primarily from warrant exercises, offset by our capital lease payments. We incurred a net loss of \$1.5 million for the year ended December 31, 2014. Our accumulated deficit increased to \$59.6 million as of December 31, 2014 compared to the prior year's deficit of \$58.0 million.

As of the date of this Report, we believe that our current cash and cash equivalents will be sufficient to meet our anticipated cash needs through December 31, 2015. Additionally, our Loan Facility (described below), is available for our working capital needs. Beginning in 2012, we made significant reductions in operating expenses and personnel, primarily in the

20

Table of Contents

second half of 2012, to better align our operations with available capital and slow our cash used in operations. We have continued at these reduced operating expense levels. We believe that these cost controls and realigned expenses are strategically important to further the Company's long-term viability.

We have a revolving secured credit facility (the "Loan Facility") with CapitalSource Business Finance Group (previously known as BFI Business Finance) ("BFI"). The Loan Facility allows us to borrow a maximum aggregate amount of up to \$2.0 million based on eligible accounts receivable and inventory. As of December 31, 2014, our eligible borrowing base was approximately \$1.0 million, for which we had no outstanding balance. (The Loan Facility is described in Note 5 to Consolidated Financial Statements in this Report.) We may use the Loan Facility for our working capital needs.

During 2014, we received \$669,000 from the cash exercise of stock options primarily by our CEO, but also by several of our directors, officers and employees. See Note 1 in the Notes to Consolidated Financial Statements included in this Report. From time to time, we may receive additional cash through the exercise of stock options or warrants in the future. However, we cannot predict the timing or amount of cash proceeds we may receive from the exercise, if at all, of any of the outstanding stock options or warrants.

We may require additional financing to support our working capital needs in the future. The amount of additional capital we may require, the timing of our capital needs and the availability of financing to fund those needs will depend on a number of factors, including our strategic initiatives and operating plans, the performance of our business and the market conditions for debt or equity financing. Additionally, the amount of capital required will depend on our ability to meet our case sales goals and otherwise successfully execute our operating plan. We believe it is imperative to meet these sales objectives in order to lessen our reliance on external financing in the future. We intend to continually monitor and adjust our business plan as necessary to respond to developments in our business, our markets and the broader economy. Although we believe various debt and equity financing alternatives will be available to us to support our working capital needs, financing arrangements on acceptable terms may not be available to us when needed. Additionally, these alternatives may require significant cash payments for interest and other costs or could be highly dilutive to our existing shareholders. Any such financing alternatives may not provide us with sufficient funds to meet our long-term capital requirements. If necessary, we may explore strategic transactions that we consider to be in the best interest of the Company and our shareholders, which may include, without limitation, public or private offerings of debt or equity securities, a rights offering, and other strategic alternatives; however, these options may not ultimately be available or feasible.

The uncertainties relating to our ability to successfully execute on our business plan and finance our operations continue to raise substantial doubt about our ability to continue as a going concern. Our financial statements for the periods presented were prepared assuming we would continue as a going concern, which contemplates that we will continue in operation for the foreseeable future and will be able to realize assets and settle liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that could result should we be unable to continue as a going concern.

Seasonality

Our sales are seasonal and we experience fluctuations in quarterly results as a result of many factors. We historically have generated a greater percentage of our revenues during the warm weather months of April through September. Timing of customer purchases will vary each year and sales can be expected to shift from one quarter to another. As a result, management believes that period-to-period comparisons of results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance or results expected for the fiscal year.

Off-balance Sheet Arrangements

We have no off-balance sheet arrangements.

21

Table of Contents

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations is based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the U.S. The preparation of these financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate our estimates based on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form our basis for making judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates under different assumptions or conditions, or if management made different judgments or utilized different estimates. Many of our estimates or judgments are based on anticipated future events or performance, and as such are forward-looking in nature, and are subject to many risks and uncertainties, including those discussed below and elsewhere in this Report. We do not undertake any obligation to update or revise this discussion to reflect any future events or circumstances.

There are certain critical accounting estimates that we believe require significant judgment in the preparation of our consolidated financial statements. We have identified below our accounting policies that we use in arriving at key estimates that we consider critical to our business operations and the understanding of our results of operations. This is not a complete list of all of our accounting policies, and there may be other accounting policies that are significant to us. For a detailed discussion on the application of these and our other accounting policies, see Note 1 to Consolidated Financial Statements of this Report.

Revenue Recognition

We recognize revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable and collectability is reasonably assured. Revenue is recorded net of provisions for discounts, slotting fees and promotion allowances.

Our products are sold on various terms for cash or credit. Our credit terms, which are established in accordance with local and industry practices, typically require payment within 30 days of delivery. We recognize revenue upon receipt of our products by our distributors and national retail accounts in accordance with written sales terms, net of provisions for discounts and promotion allowances. Estimates are made based on expected delivery dates based on average freight delivery times for the zip code location. For our interactive channel, due to the customization of the labels, we recognize revenue upon shipment. All sales are final sales; however, in limited instances, due to product quality issues or distributor terminations, we may accept returned product. To date, such returns have not been material, nor do we anticipate them to be material in the future.

Inventory

We hold raw materials and finished goods inventories, which are manufactured and procured based on our sales forecasts. We value inventory at the lower of cost or market, which is based on estimated net realizable value, and include adjustments for estimated obsolete or excess inventory, on a first in-first out basis. These valuations are subject to customer acceptance, planned and actual product changes, demand for the particular products, and our estimates of future realizable values based on these forecasted demands. We regularly review inventory detail to determine whether a write-down is necessary. We consider various factors in making this determination, including recent sales history and predicted trends, industry market conditions and general economic conditions. The amount and timing of write-downs for any period could change if we make different judgments or use different estimates. We also determine whether a provision for obsolete or excess inventory is required on products that are over 12 months from production date or any changes related to market conditions, slow-moving inventory or obsolete products.

Trade Spend and Promotion Expenses

Throughout the year, we run trade spend and promotional programs with distributors and retailers to help promote on-shelf discounts to our consumers. Additionally, in more limited instances, we enter into customer marketing agreements or various other slotting arrangements. The provisions for discounts, slotting fees and promotion allowances is recorded as an offset to revenue and shown net on the consolidated statement of operations. Estimates are made to accrue for amounts that have not yet been invoiced in the month that the program occurs, or in the case of slotting, when the commitment is made.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Item is inapplicable.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders

Jones Soda Co.

Seattle, Washington

We have audited the accompanying consolidated balance sheets of Jones Soda Co. and subsidiaries (“the Company”) as of December 31, 2014 and 2013, and the related consolidated statements of operations, comprehensive loss, shareholders’ equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement. The Company has determined that it is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company’s internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the consolidated financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Jones Soda Co. and subsidiaries as of December 31, 2014 and 2013, and the results of their operations and their cash flows for the years then ended, in conformity with accounting principles generally accepted in the United States.

The accompanying consolidated financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 1 to the consolidated financial statements, the Company has experienced recurring losses from operations and negative cash flows from operating activities. These conditions raise substantial doubt about the Company’s ability to continue as a going concern. Management’s plans regarding these matters are also described in Note 1. The consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

JONES SODA CO.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Years Ended December 31, 2014 and 2013

1. Nature of Operations and Summary of Significant Accounting Policies

Jones Soda Co. develops, produces, markets and distributes premium beverages which it sells and distributes primarily in the United States and Canada through its network of independent distributors and directly to its national and regional retail accounts.

We are a Washington corporation and have two operating subsidiaries, Jones Soda Co. (USA) Inc. and Jones Soda (Canada) Inc. (Subsidiaries).

Basis of presentation and consolidation

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) and the Securities and Exchange Commission (SEC) rules and regulations applicable to financial reporting. The consolidated financial statements include our accounts and accounts of our wholly owned subsidiaries. All intercompany transactions between us and our subsidiaries have been eliminated in consolidation.

Liquidity

As of December 31, 2014 and 2013, we had cash and cash-equivalents of approximately \$857,000 and \$1.5 million, respectively, and working capital of \$2.6 million and \$3.4 million, respectively. Cash used in operations during fiscal years 2014 and 2013 totaled \$1.2 million and \$317,000, respectively. Our cash flows vary throughout the year based on seasonality.

For the year ended December 31, 2014, net cash provided by financing activities totaled \$656,000 primarily from stock option exercises. This compares to net cash provided by financing activities for the year ended December 31, 2013, which totaled approximately \$61,000, primarily from warrant exercises, offset by our capital lease payments. We incurred a net loss of \$1.5 million for the year ended December 31, 2014. Our accumulated deficit increased to \$59.6 million as of December 31, 2014 compared to the prior year's deficit of \$58.0 million.

As of the date of this Report, we believe that our current cash and cash equivalents will be sufficient to meet our anticipated cash needs through December 31, 2015. Additionally, our Loan Facility (described below), is available for our working capital needs. Beginning in 2012, we made significant reductions in operating expenses and personnel, primarily in the second half of 2012, to better align our operations with available capital and slow our cash used in operations. We have continued at these reduced operating expense levels. We believe that these cost controls and realigned expenses are strategically important to further the Company's long-term viability.

We have a revolving secured credit facility (the "Loan Facility") with CapitalSource Business Finance Group (previously known as BFI Business Finance) ("BFI"). The Loan Facility allows us to borrow a maximum aggregate amount of up to \$2.0 million based on eligible accounts receivable and inventory. As of December 31, 2014, our eligible borrowing base was approximately \$1.0 million, for which we had no outstanding balance. (The Loan Facility is described in Note 5 to Consolidated Financial Statements in this Report.) We may use the Loan Facility for our

working capital needs.

During 2014, we received \$669,000 from the cash exercise of stock options primarily by our CEO, but also including several of our directors, officers and employees. From time to time, we may receive additional cash through the exercise of stock options or warrants in the future. However, we cannot predict the timing or amount of cash proceeds we may receive from the exercise, if at all, of any of the outstanding stock options or warrants.

We may require additional financing to support our working capital needs in the future. The amount of additional capital we may require, the timing of our capital needs and the availability of financing to fund those needs will depend on a number of factors, including our strategic initiatives and operating plans, the performance of our business and the market conditions for debt or equity financing. Additionally, the amount of capital required will depend on our ability to meet our case sales goals and otherwise successfully execute our operating plan. We believe it is imperative to meet these sales objectives in order to lessen our reliance on external financing in the future. We intend to continually monitor and adjust our business plan as necessary to respond to developments in our business, our markets and the broader economy. Although we believe various debt and equity financing alternatives will be available to us to support our working capital needs, financing arrangements on acceptable terms may not be available to us when needed. Additionally, these alternatives may require significant cash payments for interest and other costs or could be highly dilutive to our existing shareholders. Any such financing alternatives may not provide us with sufficient funds to meet our long-term capital requirements. If necessary, we may explore strategic transactions that we consider to be in the best interest of the Company and our shareholders, which may include, without

Table of Contents

limitation, public or private offerings of debt or equity securities, a rights offering, and other strategic alternatives; however, these options may not ultimately be available or feasible.

The uncertainties relating to our ability to successfully execute on our business plan and finance our operations continue to raise substantial doubt about our ability to continue as a going concern. Our financial statements for the periods presented were prepared assuming we would continue as a going concern, which contemplates that we will continue in operation for the foreseeable future and will be able to realize assets and settle liabilities and commitments in the normal course of business. These financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or the amounts and classifications of liabilities that could result should we be unable to continue as a going concern.

Use of estimates

The preparation of the consolidated financial statements requires management to make a number of estimates and assumptions relating to the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Significant items subject to such estimates and assumptions include, but are not limited to, inventory valuation, depreciable lives and valuation of capital assets, valuation allowances for receivables, trade promotion liabilities, stock-based compensation expense, valuation allowance for deferred income tax assets, contingencies, and forecasts supporting the going concern assumption and related disclosures. Actual results could differ from those estimates.

Cash and cash equivalents

We consider all highly liquid short-term investments with an original or remaining maturity of three months or less at the date of purchase to be cash equivalents.

Fair value of financial instruments

The carrying amounts for cash and cash equivalents, receivables and payables approximate fair value due to the short-term maturity of these instruments. The carrying value of other long-term liabilities approximated fair values because the underlying interest rates approximate market rates at the balance sheet dates.

Accounts receivable

Our accounts receivable balance includes balances from trade sales to distributors and retail customers. The allowance for doubtful accounts is our best estimate of the amount of probable credit losses in our existing accounts receivable. We determine the allowance for doubtful accounts based primarily on historical write-off experience. Account balances that are deemed uncollectible, are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. Allowances for doubtful accounts of \$49,000 and \$42,000 as of December 31, 2014 and 2013, respectively, are netted against accounts receivable. Activity in the allowance for doubtful accounts consists of the following for the years ended December 31 (in thousands):

	2014	2013
Balance, beginning of year	\$ 42	\$ 93
Net charges to bad debt expense	36	(19)
Write-offs	(29)	(32)
Balance, end of year	\$ 49	\$ 42

Inventories

Inventories consist of raw materials and finished goods and are stated at the lower of cost or market and include adjustments for estimated obsolete or excess inventory. Cost is based on actual cost on a first-in first-out basis. Raw materials that will be used in production in the next twelve months are recorded in inventory. The provisions for obsolete or excess inventory are based on estimated forecasted usage of inventories. A significant change in demand for certain products as compared to forecasted amounts may result in recording additional provisions for obsolete inventory. Provisions for obsolete or excess inventory are recorded as cost of goods sold.

31

Table of Contents

Fixed assets

Fixed assets are recorded at cost less accumulated depreciation and depreciated on the declining balance basis over the estimated useful lives of the assets as follows:

Asset	Rate
Equipment	20% to 30%
Vehicles and office and computer equipment	30
Leasehold improvements	Shorter of useful life or lease term
Equipment under capital lease	Lease term which approximates its useful life
Impairment of long-lived assets	

Long-lived assets, which include capital and intangible assets, are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of assets to be held and used is measured by a comparison of the carrying amount of the assets to future undiscounted net cash flows expected to be generated by the assets. If such assets are considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the assets exceeds the fair value of the assets. The fair value of the assets is estimated using the higher of discounted future cash flows of the assets or estimated net realizable value. Long-lived assets are grouped at the lowest level for which there are identifiable cash flows when evaluating for impairment. Assets to be disposed of are reported at the lower of the carrying amount or fair value less costs to sell. There are no unamortized intangible assets as of December 31, 2014 and 2013.

Foreign currency translation

The functional currency of our Canadian subsidiary is the Canadian dollar. We translate assets and liabilities related to these operations to U.S. dollars at the exchange rate in effect at the date of the consolidated balance sheet; we convert revenues and expenses into U.S. dollars using the average monthly exchange rates. Translation gains and losses are reported as a separate component of accumulated other comprehensive income.

Revenue recognition

We recognize revenue when persuasive evidence of an arrangement exists, delivery has occurred, the sales price is fixed or determinable and collectability is reasonably assured. Revenue is recorded net of provisions for discounts, slotting fees and promotion allowances. For the years ended December 31, 2014 and 2013, our revenue was reduced by \$1.6 million and \$2.1 million, respectively, for slotting fees and promotion allowances. All sales to distributors and customers are final; however, in limited instances, due to product quality issues or distributor terminations, we may accept returned product. To date, such returns have not been material.

Shipping and handling costs

Shipping and handling amounts paid to us by customers are primarily for online orders, included in revenue and total \$33,000 and \$305,000 for the years ended December 31, 2014 and 2013. During 2014, we incorporated shipping and handling fees into the product price, which caused the decrease in shipping and handling revenue from prior year. The actual costs of shipping and handling paid by us are included in cost of sales.

Advertising costs

Advertising costs, which also include promotions and sponsorships, are expensed as incurred. During the years ended December 31, 2014 and 2013, we incurred advertising costs of \$566,000 and \$415,000, respectively.

Income taxes

We account for income taxes by recognizing the amount of taxes payable for the current year and deferred tax assets and liabilities for future tax consequences of events at enacted tax rates that have been recognized in our financial statements or tax returns. We perform periodic evaluations of recorded tax assets and liabilities and maintain a valuation allowance, if considered necessary. The determination of taxes payable for the current year includes estimates. We believe that we have appropriate support for the income tax positions taken, and to be taken, on our tax returns and that our accruals for tax liabilities are adequate for all open years based on an assessment of many factors including past experience and interpretations of tax law applied to the facts of each matter. No reserves for an uncertain income tax position have been recorded for the years ended December 31, 2014 or 2013.

Table of Contents

Net loss per share

Basic net loss per share is computed using the weighted average number of common shares outstanding during the periods. Diluted earnings per share is computed by adjusting the weighted average number of common shares by the effective net exercise or conversion of all dilutive securities. In 2014 and 2013, due to the net loss, all outstanding stock options and warrants are anti-dilutive.

Comprehensive loss

Comprehensive loss is comprised of net loss and other adjustments, including items such as non-U.S. currency translation adjustments. We do not provide income taxes on currency translation adjustments, as the historical earnings from our Canadian subsidiary is considered to be indefinitely reinvested.

Seasonality

Our sales are seasonal and we experience fluctuations in quarterly results as a result of many factors. We historically have generated a greater percentage of our revenues during the warm weather months of April through September. Timing of customer purchases will vary each year and sales can be expected to shift from one quarter to another. As a result, management believes that period-to-period comparisons of results of operations are not necessarily meaningful and should not be relied upon as any indication of future performance or results expected for the fiscal year.

Recent accounting guidance

In May 2014, the Financial Accounting Standard Board, or FASB, issued Accounting Standards Update No. 2014-09, Revenue from Contracts with Customers: Topic 606 (ASU 2014-09). To supersede nearly all existing revenue recognition guidance under generally accepted accounting principles in the United States, or GAAP. The core principle of ASU 2014-09 is to recognize revenues when promised goods or services are transferred to customers in an amount that reflects the consideration that is expected to be received for those goods or services. ASU 2014-09 defines a five steps process to achieve this core principle and, in doing so, it is possible more judgment and estimates may be required within the revenue recognition process than required under existing GAAP including identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. ASU 2014-09 is effective for the fiscal and interim reporting periods beginning after December 15, 2016 using either of two methods: (i) retrospective to each prior reporting period presented within the option to elect certain practical expedients as defined within ASU 2014-09; or (ii) retrospective with the cumulative effect of initially applying ASU 2014-09 recognized at the date of initial application and providing certain additional disclosures as defined per ASU 2014-09. We are currently evaluating the impact of our pending adoption of ASU 2014-09 on our consolidated financial statements.

In August 2014, the FASB issued Accounting Standards Update No. 2014-15, Presentation of Financial Statements – Going Concern: Topic 915 (ASU 2014-15) Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern, which states that in connection with preparing financial statements for each annual and interim reporting period, an entity's management should evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the entity's ability to continue as a going concern within one year after the date that the financial statements are issued (or within one year after the date that the financial statements are available to be issued when applicable). The adoption of this update did not have a material effect on the Company's financial statements.

2. Inventory

Inventory consisted of the following as of December 31 (in thousands):

	2014	2013
Finished goods	\$ 2,096	\$ 1,455
Raw materials	507	860
	\$ 2,603	\$ 2,315

Finished goods primarily include product ready for shipment, as well as promotional merchandise held for sale. Raw materials primarily include ingredients, concentrate and packaging.

Table of Contents

3. Fixed Assets

Fixed assets consisted of the following as of December 31 (in thousands):

	2014	2013
Vehicles	\$ 378	\$ 378
Leasehold improvements and equipment	698	699
Office and computer equipment	348	349
	1,424	1,426
Accumulated depreciation	(1,399)	(1,194)
	\$ 25	\$ 232

4. Accrued Expenses

Accrued expenses consisted of the following as of December 31 (in thousands):

	2014	2013
Employee benefits	\$ 60	\$ 74
Selling and marketing	394	605
Other accruals	360	213
	\$ 814	\$ 892

5. Line of Credit

We have a revolving secured Loan Facility with CapitalSource Business Finance Group (previously known as BFI Business Finance), pursuant to which we, through our Subsidiaries, may borrow a maximum aggregate amount of up to \$2.0 million, subject to satisfaction of certain conditions. We originally entered into this Loan Facility on December 27, 2013, and amended and renewed it for an additional year as of December 27, 2014.

Under this Loan Facility, we may periodically request advances equal to the lesser of: (a) \$2.0 million, or (b) the Borrowing Base which is, in the following priority, the sum of: (i) 85% of eligible U.S. accounts receivable, plus (ii) 35% of finished goods inventory not to exceed \$300,000, plus (iii) 50% of eligible Canadian accounts receivable not to exceed \$300,000, subject to any reserve amount established by BFI. As of December 31, 2014, our eligible borrowing base was approximately \$1.0 million. Advances under the Loan Facility bear interest at the prime rate plus 2%, where prime may not be less than 4%, and a loan fee of 0.15% on the daily loan balance is payable to BFI on a monthly basis. The Loan Facility, as amended in December 2014, provides for a minimum cumulative amount of interest of \$30,000 per year to be paid to BFI, regardless of whether or not we draw on the Loan Facility. The Loan Facility has a term of one year, which automatically extends for successive one year terms unless either party gives at least 30 days' prior written notice of its intent to terminate the Loan Facility at the end of the then current term, with an annual fee of \$15,000. BFI has the right to terminate the Loan Facility at any time upon 120 days' prior written notice. All present and future obligations of the Subsidiaries arising under the Loan Facility are guaranteed by us and are secured by a first priority security interest in all of our assets. The Loan Facility contains customary representations and warranties as well as affirmative and negative covenants. As of December 31, 2014, we were in compliance with all covenants under the Loan Facility.

Starting on July 1, 2014 and through the fourth quarter of 2014, we drew on our Loan Facility, which we fully paid down as of December 31, 2014. The draws on the Loan Facility were used to fulfill short-term working capital needs due to increased demand for production. We will continue to utilize the Loan Facility, as needed, for working capital needs in the future.

6. Capital Lease

In January 2011, we entered into capital lease agreements totaling \$122,000 for the lease of two branded vehicles used for marketing. The leases are payable over a period of 60 months at 6.99% interest. One vehicle was sold in May 2013. Our remaining scheduled lease payments, which include \$700 in interest, are \$14,600 for 2015, and \$2,500 for 2016.

7. Lease Obligations

In June 2011, we entered into an office building sublease for use as our principal headquarters. The sublease provided for a five-year term, with an option to extend for up to three additional five-year terms. Under the terms of the sublease, we received a rent abatement period and a build out allowance, amortized over 10 years, the initial 5-year term plus one additional 5-year renewal period, as the reasonably assured rental period given the economic consequences of an earlier move.

Table of Contents

In December 2014, we entered into an agreement for the early termination of the office building sublease without any penalties, and we entered into a new lease agreement. The effective date for termination of the sublease and the start of the new lease were conterminous, effective March 1, 2015. The term of the new lease is five years with an option to extend for additional one year terms. As a result of the terminated lease, we recorded a favorable deferred rent adjustment of \$334,000 to other income as of December 31, 2014. After the adjustment, the remaining deferred rent balance as of December 31, 2014, was \$24,000 in current liabilities with no long-term portion, reflecting the two remaining months of the sublease through February 2015.

As of December 31, 2014, our scheduled payments for the remaining two months of the sublease through February 2015 and for the new lease beginning March 1, 2015, were as follows (in thousands):

	Operating Lease
2015	\$ 138
2016	137
2017	140
2018	144
2019	149
2020	25
	\$ 733

During the years ended December 31, 2014 and 2013, we incurred rental expenses of \$178,000 and \$213,000 respectively.

8. Warrants

In February 2012 as part of our registered offering, we sold and issued warrants for the purchase of up to 3,207,500 shares of common stock. Each warrant has an exercise price of \$0.70 per share, for total potential proceeds to us of up to \$2,245,250 if all of the warrants are exercised in full for cash. The warrants are exercisable for cash or, solely in the absence of an effective registration statement, by cashless exercise. The exercise price of the warrants is subject to adjustment in the case of stock splits, stock dividends, combinations of shares and similar recapitalization transactions, and also upon any distributions to Company shareholders, business combinations, sale of substantially all assets and other fundamental transactions. The exercise of the warrants is subject to certain beneficial ownership limitations and other restrictions set forth in the warrant documents. The term of the warrants expires on August 6, 2017. Any remaining Warrants that are outstanding on August 6, 2017, the expiration date, will automatically be exercised at that time by cashless exercise.

As of December 31, 2014, 3,057,500 of the warrants remain outstanding and warrants for 150,000 shares were previously exercised for cash in the quarter ended September 2013. No warrants were exercised during the year ended December 31, 2014.

9.Shareholders' Equity

Under the terms of our 2011 Incentive Plan (Plan), the number of shares authorized under the Plan may be increased each January 1st by an amount equal to the least of (a) 1,300,000 shares, (b) 4.0% of our outstanding common stock as of the end of our immediately preceding fiscal year, and (c) a lesser amount determined by the Board of Directors (the Board), provided that the number of shares that may be granted pursuant to awards in a single year may not exceed 10% of our outstanding shares of common stock on a fully diluted basis as of the end of the immediately preceding fiscal year. Effective January 1, 2014, the total number of shares of common stock authorized under the Plan increased to 6,884,032 shares.

Under the terms of the Plan, the Board may grant awards to employees, officers, directors, consultants, agents, advisors and independent contractors. Awards may consist of stock options, stock appreciation rights, stock awards, restricted stock, stock units, performance awards or other stock or cash-based awards. Stock options are granted at the closing price of our stock on the date of grant, and generally have a ten-year term and vest over a period of 48 months with the first 25.0% cliff vesting one year from the grant date and monthly thereafter. As of December 31, 2014, there were 2,461,871 shares of unissued common stock authorized and available for future awards under the Plan.

(a) Stock options:

A summary of our stock option activity is as follows:

Table of Contents

	Outstanding Options	
	Number of Shares	Weighted Average Exercise Price
Balance at January 1, 2013	3,627,467	\$ 0.48
Options granted	1,145,000	0.43
Options exercised	(30,000)	0.31
Options cancelled/expired	(514,647)	0.68
Balance at January 1, 2014	4,227,820	\$ 0.44
Options granted	775,000	0.44
Options exercised	(2,261,978)	0.30
Options cancelled/expired	(163,855)	0.34
Balance at December 31, 2014	2,576,987	\$ 0.58
Exercisable, December 31, 2014	1,613,422	\$ 0.67
Vested and expected to vest	2,362,503	\$ 0.59

The following table summarizes information about stock options outstanding and exercisable under our stock incentive plans at December 31, 2014:

	Number Outstanding	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number Exercisable	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price
\$0.25 to \$0.50	1,787,237	7.81	\$ 0.37	852,465	6.50	\$ 0.32
\$0.51 to \$1.09	631,000	6.69	0.81	602,207	6.57	0.82
\$1.10 to \$2.99	95,000	6.37	1.20	95,000	6.37	1.20
\$3.00 to \$3.29	63,750	3.35	3.28	63,750	3.35	3.28
	2,576,987	7.37	0.58	1,613,422	6.40	0.67

(b) Stock-based compensation expense:

Stock-based compensation expense is recognized using the straight-line attribution method over the employees' requisite service period. We recognize compensation expense for only the portion of stock options or restricted stock expected to vest. Therefore, we apply estimated forfeiture rates that are derived from historical employee termination behavior. If the actual number of forfeitures differs from those estimated by management, additional adjustments to stock-based compensation expense may be required in future periods.

At December 31, 2014, we had unrecognized compensation expense related to stock options of \$183,000 to be recognized over a weighted-average period of 2.8 years. At December 31, 2014, all prior awards of restricted stock had vested, and we had no unrecognized compensation expense related to non-vested restricted stock.

The following table summarizes the stock-based compensation expense (in thousands):

2014 2013

Type of awards:		
Stock options	\$ 293	\$ 348
Restricted stock	—	3
	\$ 293	\$ 351
Income statement account:		
Selling and marketing	\$ 45	\$ 71
General and administrative	248	280
	\$ 293	\$ 351

We employ the following key weighted-average assumptions in determining the fair value of stock options, using the Black-Scholes option pricing model and the simplified method to estimate the expected term of “plain vanilla” options:

36

Table of Contents

	Twelve months ended	
	December 31,	
	2014	2013
Expected dividend yield	—	—
Expected stock price volatility	101.0 %	107.7 %
Risk-free interest rate	1.8 %	1.2 %
Expected term (in years)	5.6 years	5.8 years
Weighted-average grant date fair-value	\$ 0.34	\$ 0.35

During the year ended December 31, 2014, no material modifications were made to outstanding stock options.

The aggregate intrinsic value of stock options outstanding at December 31, 2014 and 2013 was \$48,000 and \$226,000 and for options exercisable was \$38,000 and \$387,000, respectively. The intrinsic value of outstanding and exercisable stock options is calculated as the quoted market price of the stock at the balance sheet date less the exercise price of the option. The total intrinsic value of options exercised during the year ended December 31, 2014 and 2013 was \$107,000 and \$7,000. There was no intrinsic value of restricted stock vested during the year ended December 31, 2014 and 2013.

(c) Employee Stock Purchase Plan:

In May 2007, our shareholders approved our 2007 Employee Stock Purchase Plan (ESPP) which allows eligible employees to acquire shares of our common stock at a discount. The ESPP includes 300,000 shares available for issuance, and no amounts have been issued under the ESPP through December 31, 2014.

10. Employee 401(k) Plan

We have a 401(k) plan whereby eligible employees who have completed one hour of service per month in three consecutive months of employment may enroll. Employees can elect to contribute up to 100% of their eligible compensation to the 401(k) plan subject to Internal Revenue Service's limitations. Beginning January 1, 2009, we instituted an employee match under our safe harbor 401(k) plan and match employee contributions up to 4% of the employee's compensation at the rate of 100% for the first 3% contributed and at the rate of 50% for the next 2%.

Effective January 1, 2014, we modified the 401(k) plan to eliminate the safe harbor matching contribution, to move to a discretionary contribution. During the years ended December 31, 2014 and 2013, the total matching contributions were \$0 and \$44,000, respectively.

11. Commitments and Contingencies**Commitments**

As of December 31, 2014, we continue to have commitments to various suppliers of raw materials (primarily sugar and glass). Purchase obligations under these commitments are expected to total \$812,000 in 2015, with no current commitments thereafter.

Legal proceedings

We are or may be involved from time to time in various claims and legal actions arising in the ordinary course of business, including proceedings involving employee claims, contract disputes, product liability and other general liability claims, as well as trademark, copyright, and related claims and legal actions. In the opinion of our management, the ultimate disposition of these matters will not have a material adverse effect on our consolidated financial position, results of operations or liquidity.

12. Income Taxes

The provision for income taxes consisted of the following for the years ended December 31 (in thousands):

37

Table of Contents

	2014	2013
Current		
Federal	\$ —	\$ —
State	1	5
Foreign	33	17
Total	34	22
Deferred		
Federal	—	—
State	—	—
Foreign	27	43
Total	27	43
Provision for income taxes	\$ 61	\$ 65

Loss before provision for income taxes was as follows for the years ended December 31 (in thousands):

	2014	2013
United States	\$ (1,629)	\$ (1,991)
Foreign	150	163
Total	\$ (1,479)	\$ (1,828)

The items accounting for the difference between income taxes computed at the federal statutory rate and the provision for income taxes are as follows:

	2014	2013
Federal statutory rate	34.00 %	34.00 %
Effect of:		
Permanent differences	(7.68)	(0.62)
State income taxes, net of federal benefit	1.63	(3.85)
Change in valuation allowance	(29.40)	(30.22)
Non-recurring credit	—	(1.84)
Other, net	(0.84)	0.73
Provision for income taxes	(2.29) %	(1.80) %

Deferred income taxes reflect the tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Significant components of our deferred income taxes were as follows (in thousands):

	2014	2013
Deferred tax assets		
Net operating loss carry forwards	\$ 18,910	\$ 18,379
Capital assets	146	97
Intangible assets	6	49
Inventory adjustment and reserve	57	73
Tenant improvement allowance	99	113
Stock-based compensation	1,613	1,547
Other	(35)	96

Total deferred tax asset	20,796	20,354
Valuation allowance	(20,796)	(20,354)
Net deferred tax asset	\$ —	\$ —

We continue to experience significant losses in our U.S. operations that are material to our decision to maintain a full valuation allowance against our net U.S. deferred tax assets. This is due to the fact that the relevant accounting guidance puts more weight on the negative objective evidence of cumulative losses in recent years than the positive subjective evidence of future projections of pretax income. For the year ended December 31, 2013, the valuation allowance increased by \$566,000. The amount of the excess tax deductions from stock based compensation arrangements that is allocated to contributed capital if the future tax benefits are subsequently recognized is \$4.5 million. For the year ended December 31, 2014, the valuation allowance increased by \$442,000.

Table of Contents

We continually analyze the realizability of our deferred tax assets, but we reasonably expect to continue to record a full valuation allowance on future U.S. tax benefits until we sustain an appropriate level of taxable income through improved U.S. operations and tax planning strategies.

No valuation allowance was recorded for deferred tax assets recorded in the Canadian subsidiary, as this subsidiary remains profitable.

At December 31, 2014, we had net operating loss carry-forwards for income tax purposes in the United States of \$55.8 million which expire at various times commencing in 2019. Net operating loss carry-forwards may be subject to certain limitations under Section 382 of the Internal Revenue Code.

There are no uncertain tax positions to recognize as of December 31, 2014 and 2013.

The tax years that remain open to examination by the taxing authorities are 2010 – 2014, generally. The net operating losses from prior years are subject to adjustment under examination to the extent they remain unutilized in an open year.

A provision had not been made at December 31, 2014 and 2013, for the U.S. or additional foreign withholding taxes on undistributed earnings from the Canadian subsidiary. It is the present intention of management to reinvest the undistributed earnings indefinitely in foreign operations. Generally, such earnings become subject to U.S. tax upon the remittance of dividends and under certain other circumstances. If we were to declare a dividend for the cumulative earnings of the Canadian subsidiary as of December 31, 2014, the resulting withholding tax provision would not be material to our financial condition or results of operations.

13. Segment Information

We have one operating segment with operations primarily in the United States and Canada. Sales are assigned to geographic locations based on the location of customers. Geographic information for the years ended December 31 is as follows (in thousands):

	2014	2013
Revenue:		
United States	\$ 8,961	\$ 9,374
Canada	4,235	4,060
Other countries	359	262
Total revenue	\$ 13,555	\$ 13,696
Fixed assets:		
United States	\$ 25	\$ 232
Canada	—	—
Total fixed assets	\$ 25	\$ 232

During the years ended December 31, 2014 and 2013, three of our customers represented approximately 37% and 36%, respectively of revenues.

Table of Contents

14. Selected Quarterly Financial Information (unaudited)

Summarized quarterly financial information for fiscal years 2014 and 2013 is as follows (dollars in thousands, except per share data):

	Q1	Q2	Q3	Q4
2014 quarter:				
Revenue	\$ 2,890	\$ 3,879	\$ 4,375	\$ 2,411
Gross profit	693	872	1,050	397
Loss from operations	(510)	(402)	(177)	(669)
Net loss	(539)	(429)	(233)	(339)
Basic and diluted loss per share	(0.01)	(0.01)	(0.01)	(0.01)

	Q1	Q2	Q3	Q4
2013 quarter:				
Revenue	\$ 3,096	\$ 4,287	\$ 4,217	\$ 2,096
Gross profit	760	1,234	1,014	255
Loss from operations	(388)	(81)	(324)	(1,045)
Net loss	(399)	(95)	(330)	(1,069)
Basic and diluted loss per share	(0.01)	(0.00)	(0.01)	(0.03)

Table of Contents

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE.

None.

ITEM 9A. CONTROLS AND PROCEDURES.

Disclosure Control and Procedures

We maintain disclosure controls and procedures (as defined under Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended).

Management, under the supervision and with the participation of our Chief Executive Officer and our Principal Financial Officer evaluated the effectiveness and design of our disclosure controls and procedures pursuant to Exchange Act Rule 13a-15(b) as of December 31, 2014. Based on that evaluation, the Chief Executive Officer and the Principal Financial Officer concluded that these disclosure controls and procedures were effective as of December 31, 2014.

Management's Report on Internal Control Over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Exchange Act Rule 13a-15(f) under the Exchange Act). Internal control over financial reporting is a process to provide reasonable assurance regarding the reliability of our financial reporting and the preparation of financial statements for external purposes in accordance with accounting principles generally accepted in the United States of America. Internal control over financial reporting includes those policies and procedures that: (i) in reasonable detail accurately and fairly reflect our transactions; (ii) provide reasonable assurance that transactions are recorded as necessary for preparation of our financial statements; (iii) provide reasonable assurance that our receipts and expenditures are made in accordance with management authorization; and (iv) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting, however well designed and operated can provide only reasonable, and not absolute, assurance that the controls will prevent or detect misstatements. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Because of these and other inherent limitations of control systems, there is only the reasonable assurance that our controls will succeed in achieving their goals under all potential future conditions.

Management, under the supervision and with the participation of our Chief Executive Officer and our Principal Financial Officer conducted an evaluation of our internal control over financial reporting as of December 31, 2014, based on the framework in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). Based on our evaluation under the COSO framework, management concluded that our internal control over financial reporting was effective as of December 31, 2014.

There have been no changes in our internal control over financial reporting during the quarter ended December 31, 2014 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

This Report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Additionally management's report was not subject to attestation by our registered public

accounting firm pursuant to the permanent exemption from Section 404(b) of the Sarbanes-Oxley Act of 2002 for non-accelerated filers.

ITEM 9B. OTHER INFORMATION.

None.

41

Table of Contents

PART III

ITEM 10.DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE.

Information regarding our Code of Ethics is included in Item 1 of Part I, and that information is incorporated by reference herein.

The other information called for by Part III, Item 10, will be included in our proxy statement relating to our 2015 Annual Meeting of Shareholders, and is incorporated herein by reference to the sections captioned “Nominees,” “Section 16(a) Beneficial Ownership Reporting Compliance,” “Board Meetings and Committees,” and “Audit Committee.” The proxy statement will be filed within 120 days of December 31, 2014, our fiscal year end.

ITEM 11.EXECUTIVE COMPENSATION.

Information called for by Part III, Item 11, will be included in our proxy statement relating to our 2015 Annual Meeting of Shareholders, and is incorporated herein by reference to the sections captioned “Executive Compensation,” “Compensation Committee Report,” and “Compensation of Directors.” The proxy statement will be filed within 120 days of December 31, 2014, our fiscal year end.

ITEM 12.SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED SHAREHOLDER MATTERS.

Certain information called for by Part III, Item 12, will be included in our proxy statement relating to our 2015 Annual Meeting of Shareholders, and is incorporated herein by reference to the section captioned “Security Ownership Of Certain Beneficial Owners And Management.” The proxy statement will be filed within 120 days of December 31, 2014, our fiscal year end.

Equity Compensation Plan Information

The following table gives information as of December 31, 2014, the end of the most recently completed fiscal year, about shares of common stock that may be issued under our Jones Soda Co. 2011 Incentive Plan, our 2002 Equity Plan (which was terminated but has awards which remain outstanding in accordance with their existing terms), and 2007 Employee Stock Purchase Plan, all of which have been approved by shareholders. To date, no amounts have been issued under the 2007 Employee Stock Purchase Plan.

Plan Category	(a) No. of Shares to be Issued Upon Exercise of Outstanding Stock Options, Warrants and Rights	(b) Weighted Average Exercise Price of Outstanding Stock	(c) Number of Securities Remaining Available for Future Issuance Under Equity Compensation Plans (Excluding Securities (a))
---------------	--	--	---

		Options, Warrants and Rights		
Equity Compensation Plans Approved by Shareholders	2,576,987	\$ 0.58	2,761,871	(1)(2)
Equity Compensation Plans Not Approved by Shareholders	N/A	N/A	N/A	
TOTAL	2,576,987	\$ 0.58	2,761,871	(1)(2)

- (1) Consisted of (a) 2,461,871 shares available for future awards under the Jones Soda Co. 2011 Incentive Plan, under which we may grant restricted stock awards in addition to stock options, and (b) 300,000 shares available for issuance under the 2007 Employee Stock Purchase Plan. Each non-employee director receives an annual stock option grant of up to 50,000 shares of common stock, or an equivalent grant of shares of restricted stock, pursuant to a program administered under our Jones Soda Co. 2011 Incentive Plan.
- (2) The Jones Soda Co. 2011 Incentive Plan includes a formula for an annual increase in the number of shares authorized under the Plan, as of January 1 of each year, by an amount equal to the least of (a) 1,300,000 shares, (b) 4.0% of our outstanding common stock as of the end of our immediately preceding fiscal year, and (c) a lesser amount determined by the Board of Directors, provided that the number of shares that may be granted pursuant to awards in a single year may not exceed 10% of our outstanding shares of common stock on a fully diluted basis as of the end of the immediately preceding fiscal year. As of January 1, 2014, the total number of shares of common stock authorized for issuance under the Plan increased by 1,300,000 shares to an aggregate of 6,884,032. As of January 1, 2015, the total number of shares of common stock authorized for issuance under the Plan was further increased by 1,300,000 shares to an aggregate of 8,184,032 shares.

Table of Contents

ITEM 13.CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS, AND DIRECTOR INDEPENDENCE.

Information called for by Part III, Item 13, will be included in our proxy statement relating to our 2015 Annual Meeting of Shareholders, and is incorporated herein by reference to the sections captioned “Transactions With Related Persons,” “Board Meetings and Committees” and “Independence of the Board of Directors.” The proxy statement will be filed within 120 days of December 31, 2014, our fiscal year end.

ITEM 14.PRINCIPAL ACCOUNTANT FEES AND SERVICES.

Information called for by Part III, Item 14, will be included in our proxy statement relating to our 2015 Annual Meeting of Shareholders and is incorporated herein by reference to the sections captioned “Policy for Approval of Audit and Permitted Non-Audit Services” and “Audit and Related Fees.” The proxy statement will be filed within 120 days of December 31, 2014, our fiscal year end.

PART IV

ITEM 15.EXHIBITS AND FINANCIAL STATEMENT SCHEDULES.

(a) Documents filed as part of this Report are as follows:

- 1) Financial Statements: The consolidated financial statements, related notes and report of independent registered public accounting firm are included in Item 8 of Part II of this Report.
- 2) Financial Statement Schedules: All schedules have been omitted because they are not applicable or not required, or the required information is included in the financial statements or notes thereto.
- 3) Exhibits: The required exhibits are included at the end of this Report and are described in the exhibit index.
