principal headquarters located in Valley Village, California. CT is a social networking experience and marketing platform, which is designed to promote actual social interactivity among college students. Due to the mobile nature of the site, the service's design is also structured for the mobile user, focusing on nightlife events and social opportunities both directly on a student's campus and within their broader communities. CT's platform allows advertisers to tap into the world of active, outgoing and socially motivated college students—the trendsetters and tastemakers—in our society. The launch of a fully functional website is scheduled for September.

The proposed merger is subject to numerous conditions precedent, and will involve a change in stockholder control of the Registrant, a change of management, a change of corporate name, a change of corporate headquarters, among other matters. The proposed merger is expected to involve a one for four reverse stock split of the current outstanding shares of the Registrant. The Registrant estimates that the merger will close in 60 days or less.
