- 11) determination of the procedure for holding the General Meeting of Shareholders;
- 12) election of members of the Counting Committee and early termination of their authorities;
- 13) splitting and consolidation of shares;
- 14) adoption of resolutions approving transactions in the cases provided for by article 83 of the JSC Law;
- 15) adoption of resolutions approving major transactions in the cases provided for by article 79 of the JSC Law;
- 16) acquisition by the Company of placed shares in the cases provided for by the JSC Law;
- 17) adoption of resolutions concerning participation in holding companies, financial-industrial groups, associations, and other unions of commercial organizations;
- 18) approval of internal documents regulating the activity of the Company bodies;
- 19) decision of other questions provided for by the JSC Law.

Competence of the Issuer pursuant to its charter (constitutive documents):

16.3. The following are assigned to the competence of the Board of Directors (Supervisory Board) :

- 1) determination of the priority directions of the Company's activities;
- 2) calling of annual and extraordinary General Meetings of Shareholders, except in the cases provided for by article 55.8 of the JSC Law;
- 3) approval of the agenda of the General Meeting of Shareholders;
- 4) determination of the date of preparation of the list of persons entitled to participate in the General Meeting of Shareholders, and other issues, assigned to the competence of the Board of Directors in accordance with the provisions of chapter VII of the JSC Law and associated with preparation for and holding of the General Meeting of Shareholders;
- 5) placement of bonds and other issued securities by the Company in the cases provided for by the JSC Law;
- 6) determination of the price (monetary value) of property and the price of placement and redemption of issued securities in the cases provided for by the JSC Law;
- 7) acquisition of shares, bonds, and other securities placed by the Company in the cases provided for by the JSC Law;

- 8) formation of the executive bodies of the Company and early termination of their authorities election of the Chairman of the Management Board and appointment of the members of the Management Board,
- 9) determination of the amounts of compensation and reimbursement to be paid to the executive bodies of the Company the Chairman of the Management Board and the members of the Management Board;
- 10) recommendations on the amounts of compensation and reimbursement to be paid to members of the Audit Committee and determination of the amount to be paid for the services of the auditor;
- 11) recommendations on the amount of the dividend on shares and the procedure for its payment;
- 12) utilization of the reserve fund and other funds of the Company;
- 13) approval of internal documents of the Company, with the exception of internal documents whose approval is assigned by the JSC Law to the competence of the

General Meeting of Shareholders or assigned by this Charter to the competence of the Company's executive bodies;

- 14) creation of branches and opening of representative offices of the Company;
- 15) approval of major transactions in the cases provided for by chapter X of the JSC Law;
- 16) approval of the transactions provided for by chapter XI of the JSC Law;
- 17) approval of the Company's registration body and the terms of the contract with the registration body, and termination of the contract with the registration body;
- 18) adoption of resolutions on the Company's participation in other organizations, except in the cases provided for by article 48.1.18 of the JSC Law;
- 19) other issues provided for by the JSC Law.

Competence of the Issuer's individual and collective executive bodies in accordance with its charter (constitutive documents):

17.1. Management of the Company's current activities shall be carried out by the individual executive body of the Company – the Director (Chairman of the Management Board) – and by the collective executive body of the Company – the Management Board. The executive bodies of the Company (the Chairman of the Management Board and the Management Board) shall be accountable to the Board of Directors and the General Meeting of Shareholders.

17.2. The Chairman of the Management Board shall perform the functions of Director of the Company and chairman of the collective executive body of the Company (the Management Board). The Chairman of the Management Board shall be the manager of the Company.

17.3. Assigned to the competence of the individual executive body of the Company are all issues of management of the Company's current activities, with the exception of issues assigned to the competence of the General Meeting of Shareholders and the Board of Directors. The individual executive body of the Company shall organize the fulfillment of resolutions of the General Meeting of Shareholders and the Board of Directors.

17.4. The Chairman of the Management Board without a power of proxy shall act on behalf of the Company, including:

- 1) carry out operative management of the Company's activities;
- 2) have the right of first signature on financial documents;
- 3) direct and dispose of the Company's property for the purpose of assuring its current activity, within the limits established by this charter and current Russian legislation;
- 4) represent the Company's interests both in the Russian Federation and elsewhere, including in foreign states;
- 5) approve staff lists, conclude employment contracts with the Company's employees, and offer incentives to and impose penalties on the Company's employees;
- 6) direct the work of the Management Board and preside at its meetings;

- 7) recommend candidates for the Management Board to the Board of Directors for approval;
- 8) complete transactions in the Company's name, except in the cases provided for by the JSC Law and the Company's charter;
- 9) issue powers of attorney on in the Company's name;
- 10) open bank accounts of the Company;
- 11) organize the Company's accounting and reporting;
- 12) issue orders and instructions binding upon all employees of the Company;
- 13) perform other functions necessary for achievement of the goals of the Company's activities and assurance of its normal operation in accordance with current legislation and the Company's charter, with the exception of the functions assigned by the JSC Law and the Company's charter to other management bodies of the Company.

17.5. The Chairman of the Management Board shall be elected by the Board of Directors at its first meeting (after the election of a new Board of Directors at the annual General Meeting of Shareholders) for a term of 3 (three) years.

The term of office of the Chairman of the Management Board shall be counted from the time of his election by the Board of Directors to the time of election (reelection) of the Chairman of the Management Board three years later at the first meeting of the new Board of Directors (after the election of a new Board of Directors at the annual General Meeting of Shareholders).

17.6. In the event of early termination of the powers of the Chairman of the Management Board, the powers of the newly elected Chairman of the Management Board shall be effective until the election (reelection) of the Chairman of the Management Board at the first meeting of its new Board of Directors (after the election of a new Board of Directors at the annual General Meeting of Shareholders) 3 (three) years after the meeting of the Board of Directors at which the Chairman of the Board of Directors whose powers were terminated was elected.

17.7. The Management Board shall be the collective executive body of the Company and under the direction of the Chairman of the Management Board shall make decisions on the following issues pertaining to current management of the Company's activities in the period between General Meetings of Shareholders and meetings of the Board of Directors:

17.7.1. organization of the Company's accounting and reporting, preparation and submission of annual reports and balance sheets of the Company to the Board of Directors for approval;

17.7.2. decisions on issues pertaining to interaction with suppliers of goods and services for the Company and with consumers of its products;

17.7.3. establishment of prices, rates, and commissions under contracts with suppliers and consumers;

17.7.4. ensuring supplies of materials and equipment to the Company and supporting the sale of its products and services;

17.7.5. keeping personnel records in accordance with current Russian legislation;

17.7.6. monitoring the condition of buildings, premises, and equipment of the Company, as well as the movement of tangible and monetary valuables;

17.7.7. the book-keeping of the Company's archives, ensuring clerical work and the work of the Company's office, and organization of document storage at the Company in accordance with current legislation;

17.7.8. providing organizational and technical support for the activities of the General Meeting of Shareholders, the Board of Directors, and the Audit Committee;

17.7.9. organizing the fulfillment of resolutions of the General Meeting of Shareholders and the Board of Directors;

17.7.10. performance of orders and/or instructions of the Chairman of the Management Board in other matters associated with the current activities of the Company.

33. Description of Issuer's primary areas of operations.

Food industry has gained maximum advantages as a result of devaluation of the ruble in 1998 and steady growth of the population's real earnings in the last three years. Besides, the increasing flow of direct investment in the industry has led to a better quality of Russian-made products and their higher competitiveness. Regardless of the rising rate of the ruble in real terms, the share of imported goods in the consumption structure is about 3%. Thus competition in food industry is mainly centered around Russian brands. As a result, the rate of growth in food industry was the highest in the Russian economy, amounting to 11.5% in 2000 and 11.2% in 2001. Mindful of the expected GDP growth by 4-4.5% and 8% rise of the population's real earnings in 2002, growth in food industry may exceed 9.5%.

There are sufficient grounds to hope that the industry's consolidation, higher quality of products, and expected annual 5-6% rise in real earnings will help food industry remain among the leaders of Russia's economic growth. The flow of foreign investment in the industry that has amounted to two-thirds of the total direct foreign investments in Russia in the last two years also confirms this assumption.

Recent industrial developments show that the consolidation of food industry is likely to bring about the emergence of large domestic producers capable of competing effectively on the market.

On the other hand, one may expect increasing competition on the part of foreign companies such as Danone, Parmalat, Campina and Erhmann that have set up the production of dairy products in Russia. Their market advantages include a large advertisement budget, advanced know-how for new products promotion, and access to cheap financial resources.

Foreign companies have also been expanding the variety of products. In the past their products were basically oriented toward the narrow premium segment (in the upper price bracket) whereas today foreign companies' products are also designated for the mass consumer with an average income.

The primary area of the Company's operations is control over and management of a group of its subsidiaries and other affiliated companies specified in this Prospectus, which manufacture and sell milk (dairy) products and juices (drinks, nectars) (hereinafter, in combination with the Company, referred to as the WBD Group). The Issuer also offers licensing agreements on the use of trademarks in its ownership. At that, the Issuer's current and future operations plans are inseparably linked up with those of the WBD Group.

The Wimm-Bill-Dann Group is a major manufacturer of dairy products and juices. Around 70% of its revenue comes from the sales of dairy products and the rest 30%, from the sales of juices.

Since its establishment in 1992, the WBD Group has been a leader on the Russian market of dairy and juice-containing products. According to the study conducted by AC Nielsen in nine large Russian cities, including Moscow and St. Petersburg, in December 2001-January 2002, the WBD Group was in the lead on all packaged dairy products markets (with the exception of pasteurized milk): its share on the domestic market of traditional dairy products constituted 33%, in enriched milk products sales, 41%, and in yogurt and milk desserts sales, 46%. AC Nielsen's study carried out in eleven large Russian cities showed that in 2001 the WBD Group's share in the total domestic sales of juices reached 37.5% and 49.1% in Moscow, the main Russian juice consumer. The nineteen manufacturing facilities of the WBD Group are located in fifteen Russian and CIS cities; its distribution network covers 26 cities in the CIS, Germany, Israel, and Netherlands.

The main objective of the WBD Group is to provide consumers with top-quality food by way of a careful selection of raw materials, use of modern production technologies, and strict quality controls. All its products are manufactured on the basis of the Company's own recipes mindful of domestic consumers' preferences and tastes.

1. Forecast of Future Developments on the Dairy Market.

The further consolidation of dairy and juice industry and stronger competition with foreign companies operating in Russia are likely to be major market tendencies. Given below is a segment-based market development forecast.

Milk is one of the most widespread food products in Russia popular among all age groups regardless of location and income. The milk market as a whole will develop steadily with a 5-percent annual consumption growth resulting from a rise in the gross yield and processing of milk in all categories of producers.

In spite of all its advantages, pasteurized milk prevalent on the market has an essential drawback – a short shelf life, which makes it less attractive for retail trade. Consequently,

the share of this type of milk is expected to go down in favor of sterilized milk. In addition, sterilized milk will be replaced by a new generation of the product without the specific sterilization after-taste, its shelf life over two weeks without cooling or cold storage.

Kefir (fermented milk, a traditional Russian dairy product). It is the most popular dairy product in Russia. Growth in the segment will result from changes in the consumption structure in favor of biokefirs, their production currently organized by local manufacturers. The consumption of traditional kefir is expected to decline

Curds (cottage cheese). The market is stable. An average 2-percent rise will be determined by the development of dairy production in general. Consumers are likely to switch over to curds desserts, which may reduce the consumption of traditional curds.

Rural and small town dwellers are primary consumers of ryazhenka (fermented baked milk) and bonnyclabber. Unlike bonnyclabber, ryazhenka is also popular among the population of large cities. The bonnyclabber segment is expected to shrink due to the reduction of rural population and decrease in the regional consumption of the product.

Cream. The main feature of the market is the reduction of the share of pasteurized cream in the total output because of a short shelf life and the growing share of sterilized cream. Consumption rise will mainly depend on the rate of income growth.

Butter. As a whole, the market development rate is expected to be 2-4% a year. A rise in butter consumption is unlikely to exceed 1-2%, the main growth factor being an increase in the production of margarine and combined varieties of butter, spreads, by 4-5% a year.

Viscous yogurt. It is one of the most dynamic segments of the dairy market. The development and growth of the viscous yogurt market in 2002-2003 will result from developing local production, Western producers coming out on the market (Pascual and Onken), and a rise in regional consumption. Unique products with new flavors, additives, useful properties, and biocultures will be the most dynamic part of the segment.

Potable yogurt. The segment is expected to develop dynamically since the market is still far from saturation, youth and teenagers consumption culture is still taking shape, and consumers are switching over to the product from traditional flavored kefir.

Viscous milk desserts. The market is still underdeveloped. It has more imported products than other markets. Yet, gradually, Russian manufacturers are turning to the production of viscous milk desserts. Underdeveloped consumption culture restrains consumption growth.

Liquid desserts. The market is sufficiently developed. Major consumers include both young people and children as well as adults. The segment will develop as a result of a rise in consumption among teenagers.

Juice and dairy products. It is the most dynamic category of milk products. It has a considerable growth potential due to the population striving for a healthy life style and consumption of low-fat vitamin-fortified products.

Curds desserts. The segment is developing rapidly given the traditional character of curds. A rise in the segment will mainly depend on the rate of growth of real earnings and consumers switching over from traditional cottage cheese to curds desserts.

Chocolate-coated cheese curds. Consumption culture in large cities is well-developed. Producers regional expansion and a wider variety of the products are expected to provide for the segment's growth.

Condensed milk. It is a traditional food product used in pastry cooking. The market is developed. There are large and well-known producers. Growth can be achieved through a wider variety of products, new flavors, and new types of packaging.

2. Forecast of Future Developments on the Juice and Juice-Containing Products Market.

The market's growth will continue although the rate of growth may slow down. Yet it will remain high enough. Market capacity in 2001 was 1,100,000,000 liters – a 44-percent rise in comparison with the previous year. In 2002 juice consumption was supposed to increase by 26-30% and reach around 1,400,000,000 liters. The expected rise for 2003 is 20%.

The juice market's growth results from the improvement of the economic situation in Russia, rising per capita income, and emergence of consumption culture with juice regarded as tasty and healthy food. Per capita consumption rose from 8 liters in 2001 to 10 liters in 2002. In large cities (Moscow, St. Petersburg) juice consumption is nearing European standards while Russia's average per capita consumption of juices is twice lower than in Europe.

Stronger competition provoked by major manufacturers' considerably expanded capacities will be the main market tendency in 2003. Consequently, the juice market is expected to consolidate further in the hands of four principal players that are likely to increase their market share at the expense of small regional producers whose share may go down to 5%.

History of the Issuer's Foundation and Activities.

Open Joint-Stock Company Wimm-Bill-Dann Foods (hereinafter referred to as the Issuer or the Company) was registered on May 31, 2001. The purpose of its creation was to consolidate several production and trading companies, whose shares had been privately owned by a group of persons and were transferred to the Company by including them in authorized capital during its creation in 2001. Control over and management of the WBD Group are the Issuer's principal areas of activity. In keeping with Article 4 of the Issuer's Charter, The main purpose of the Company is to fully satisfy the demand of legal entities and private persons in products (works, services), produced (performed, provided) in accordance with its charter activity, and to receive profits. On February 14, 2002, OJSC Wimm-Bill-Dann Foods completed the public issue of and registered common shares represented by American depositary receipts (ADR) at the New York Stock Exchange under the WBD symbol. Each ADR represents one basic common share of the Company.

The story of WBD Group began in 1992, when the first company owned by a group of persons rented a production line at the Lianozovo Dairy and purchased the first lot of juice concentrates and packaging materials. November 25, 1992 WBD Group produced its first pack of juice under the Wimm-Bill-Dann brand. This name had been chosen in order to attract consumers, who at that point preferred imported products due to their novelty to the market, and also because of the prevailing belief in the higher quality of imported goods. From the very first appearance on the market the name Wimm-Bill-Dann turned into a brand, known to and popular among the majority of Russian consumers.

Plans of the Issuer's Future Activities.

Due to the specifics of the Issuer's primary area of operations, the Issuer's future activities plans should include a higher efficiency of WBD Group management. The Issuer's future activities plans are closely connected with the plans of WBD Group. The use of trademarks

by WBD Group businesses, offered on the basis of licensing agreements, will constitute the Issuer's main source of future income.

The WBD Group is constantly striving to dynamically develop its business and achieve further competitive advantages.

The growing dairy market demands an increase in production volumes without a decline in quality. An increase in juice production capacity is also planned.

One of the main competitive advantages of the WBD Group is its powerful and well-established network of independent distributors. In order to support the steady growth of sales, the construction of Cash&Carry stores will continue. The growth of additional income is planned through both promoting the primary brands of the WBD Group on the regional markets, and expanding the product range in order to fill major consumer segments, both in terms of flavors and prices.

In general, the plans of future activities of the Issuer and the WBD Group include an intention to fully satisfy the demand of legal entities and private persons in products (works, services), produced (performed, provided) in accordance with its Charter, and to receive profits.

To achieve these goals, the WBD Group will concentrate on the following areas of activity:

1) production of dairy products and juices. The Issuer is positive that the WBD Group has enough potential to retain and strengthen its leading position in this area;

2) higher efficiency of production. The WBD Group intends to improve the quality of its products, reduce costs, increase cash flows, and achieve a higher efficiency of work of its employees;

3) business growth resulting from the production of cheese. Domestic brands of cheese in the Russian Federation are mainly manufactured by small facilities producing traditional cheeses for mass consumption, characterized by low prices and inferior quality. Superior quality brands of hard and soft cheese are imported from Baltic states and other European countries. The WBD Group is planning to start the production of top-quality branded hard and soft cheeses in 2003.

4) business growth resulting from the production of mineral water. The WBD Group intends to concentrate on the primary areas of its activity. Yet it is also going to start the production of mineral water early in 2003. The WBD Group believes that despite relatively strong competition, this market segment has an essential potential given a correct marketing approach. The growth of mineral water consumption in summer is expected to make up for the declining seasonal demand for dairy products.

Major Types of Products (Works, Services).

The types of products (works, services) providing for no less than 10 percent of the Issuer's volume of sales (proceeds) in the three full fiscal years preceding the date of approval of the decision to issue the bonds, or for each full fiscal year following the foundation provided the Issuer has been operating for less than three years, and for the last quarter preceding the date of approval of the decision to issue the bonds. All types of export products (works, services) shall be included herein.

The above shall also include the dynamics of changes in release prices for the Issuer's products (works, services), also in comparison with the consumer price index or the industrial producers price index, published by the RF State Committee for Statistics.

Offering licensing agreements on the use of trademarks.

The Company's primary area of operation is control over and management of a group of its subsidiaries and affiliated companies. The main type of products (services) providing for over 10% of the Company's volume of sales (proceeds) in 2001 and in the 9 months of 2002, is the offer of licensing agreements to WBD Group businesses to use trademarks.

In 2001-2002, the prices in licensing agreements on the use of trademarks were set in US dollars (payments were made in rubles at the rate of the RF Central Bank as of an appropriate date). In 2001 and the first nine months of 2002, the dollar prices in the above agreements did not change. Since the prices in licensing agreements were set in US dollars, the table below features relative changes in licensing agreement prices due to changes in the ruble-to-dollar ratio during the said period in order to make a comparison with changes in the consumer price index in Russia during a relevant period. The table shows that in 2001 the licensing agreement price in rubles went up by 3.7% while the consumer price index rose by 18.6%. In the 9 months of 2002, the licensing agreement price in rubles increased by 7%, and the index rose by 10.3%.

Thus the price rise for the Issuer's services in 2001-9 months of 2002 was less than Russia's total price rise.

Dynamic of Changes in Release Prices for Products (Works, Services):

Item	Year 1999	Year 2000	Year 2001	Quarter 3
Offering licensing agreements on the use of trademarks (1)				
Changes in licensing agreement price, %			3.7	7
Sales proceeds, rubles			2 198 000	3 718 000
Total sales proceeds, rubles			2 198 000	3 718 000(2)
Consumer price index, %			118.6	110.3

Notes to the table:

(1). The price of licensing agreements on the use of trademarks by WBD Group businesses (per unit price) cannot be set unconditionally, for it comprises several independent factors (design cost, category of a commodity segment to be trademarked, sales volumes for each commodity and its consumer properties, and terms and scope of rights for each trademark)

(2). Other sales amounting to 25,281,000 rubles (specified in p. 014, form N_{Q2} of accounts for the 9 months of 2002) will be included in non-sales revenue in the fourth quarter of 2002 (p. 120, form N_{Q2}).

During the period in question, the Issuer effected no export supplies.

Sales System for Each Specified Type of Products (Works, Services) of the Issuer (percentage of sales volume):

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

Item	Year 1999	Year 2000	Year 2001	Quarter 3
Offering licensing agreements on the use of trademarks				
Direct sales, %			100	100
Issuer's own trade network, %				
Controlled trade network, %				

Character of Sales:

Seasonal activity:

The Issuer makes no cyclic or seasonal sales of services. The WBD Group's sales of dairy products are of a seasonal character. Dairy products are in maximum demand in winter when domestic milk production hits rock bottom. Contrariwise, in summer demand for dairy products declines while the production of raw milk is at a maximum.

Juice sales are definitely seasonal. They go up in spring and especially during the period preceding the New Year holidays. Seasonal peaks fall on April and December. In spring the expansion of sales is conditioned by consumers' care for their health; juice is regarded as a natural addition to fruits, as the only source of vitamins and a valuable product for daily consumption. The traditional sales spurt in December positively correlates with the general tendency toward intensive retail turnover before the New Year holidays and the population's higher purchasing power.

Production and Sales Costs Structure

Structure of the Issuer's Costs for the Production and Sales of Products (Works, Services) for Specified Items (percentage of total cost):

Items	Year 1999	Year 2000	Year 2001	Quarter 3
Raw materials and materials, %				
Purchased components and semifinished products, %

Edgar Filing: WIMM BILL DANN FOODS OJSC - Form 6-K

Total production and sales costs, %	100	100	100	100
Sales proceeds, %			15.78	175.24

The issuer's suppliers whose share is no less than 10 percent of total tangible assets supplies:

None.

The Issuer does not have any suppliers of tangible assets. The Issuer is not engaged in import supplies. Raw materials for the WBD Group are supplied by Russian and CIS producers (Kyrgyzstan, Ukraine). The main raw material for dairy industry is raw milk produced in the territory of Russia. The raw materials for juices and juice-containing drinks are fruit and berry concentrates, the origin of which depends on the area of their growth (e.g. apples in Southern Russia, tomatoes in Eastern and Central Europe). The Tetra Pak company is one of the leading suppliers of packaging for the WBD Group. These sources will remain available in the future.

Markets for the Issuer's Products (Works, Services).

Consumers whose share in trade is no less than 10 percent of the Issuer's total sales proceeds:

Full name of a Company	Share, %
Close Joint-Stock Company Grande-V	14
Close Joint-Stock Company Lianozovsky	14
Close Joint-Stock Company Wimm-Bill-Dann Trading Company	12
Limited Liability Company Ramenskoye Moloko	14
Limited Liability Company Fruktola	14

Markets.

Due to the specifics of the Issuer's primary activity, the market for its services is determined by the number and location of the WBD Group facilities. A decline in the financial position of WBD Group businesses may be the only negative factor influencing the Issuer's market of services. Today the WBD Group's main market is the territory of the Russian Federation. The Issuer intends to expand the market geographically. The only major factor of possible decrease in demand for the Group's products would be a sharp decrease in the population's purchasing capacity, since the Group's products belong to the convenience category. The possibility of stronger competition on the part of both domestic and foreign manufacturers of dairy and juice products is another negative factor.

Stock Management Practices.

The Issuer has no stocks and hence no stock management.

The Issuer's policy in relation to working capital is aimed to increase its turnover and keep its amount at a minimum level necessary for current operations.

Major Competitors.

By virtue of its primary mission – control, management, and services in the interests of the WBD Group – the Issuer does not have competitors. Consequently, it would be impossible to analyze the Issuer's market share and its competitiveness factors in terms of their importance and with an allowance for factor ratings.

The principal competitors of the WBD Group on traditional and enriched dairy products markets include Russian producers such as Petmol (St. Petersburg), Ostankinsky, Ochakovsky, and Cherkizovsky Dairies (Moscow) as well as small manufacturers in Russian regions. On the market of vitamin-fortified dairy products, the WBD Group competes mainly with Danone. As for yogurts, milk desserts, and, to some extent, dairy products for children, the main competitors of the WBD Group are foreign companies such as Danone, Campina, Onken u Ehrmann.

In the Issuer's opinion, the WBD Group is expected to compete with the following companies on the dairy market in the near future:

1) Danone of France: the most active foreign company in Russia, pursuing an aggressive advertisement policy. It owns a dairy in the Volga region that produces natural yogurt, fruit-flavored yogurt, and kefir and a dairy in the Moscow region. The company's products, both imported and made in Russia, are sold under the Danone trademark all over the Russian Federation through its own distribution network. According to the study conducted by AC Nielsen in nine Russian cities, in 2001 Danone's sales in the yogurt and milk dessert segment amounted to 12% and in vitamin-fortified dairy products, 5%;

2) Petmol of St. Petersburg: produces a wide variety of dairy products, concentrating however on yogurts and desserts. Petmol's shares are publicly quoted at the Russian stock exchange. According to the study conducted by AC Nielsen in nine Russian cities, in 2001 the company's share was 9% in the traditional dairy segment and 8% in the yogurt and milk dessert segment while the share of Parmalat in the traditional dairy segment reached 2%;

3) Ochakovsky Dairy of Moscow: a major dairy producer in Russia and principal competitor of the WBD Group in Moscow. Its products are very popular among consumers. According to the study conducted by AC Nielsen in nine Russian cities, in 2001 the company's share was 5% in the traditional dairy segment and 4% in the enriched products segment.

The shares of the WBD Group and its principal competitors for enlarged product categories on the dairy market, % (as of September 2002, according to AC Nielsen research):

Item	WBD Group	Danone	Petmol	Ochakovsky Dairy
Yogurts and milk desserts	44	12	7	
Traditional dairy products	33		8	4
Enriched products	44	10	10	4
The market's total	36	3	8	3

The principal competitors of the WBD Group on the domestic juice market include Parmalat of Italy and medium- and small-size Russian producers such as:

1) Multon of St. Petersburg: its share on the national and Moscow markets was 29 and 18.7% accordingly in 2001 as shown by the study conducted by AC Nielsen in eleven Russian cities. Dobry and Niko juice brands and other products of the company appeared on the Moscow market in 1998 and have won considerable market shares since then, primarily, due to an aggressive pricing policy;

2) Lebedyansky of the Lipetsk region: the company's share on the national and Moscow markets was 10.9 and 14.5% accordingly in 2001 as shown by the study conducted by AC Nielsen in eleven Russian cities. Its Tonus and Ya brands have become very popular among consumers and effectively compete with juices produced by local manufacturers;

3) Nidan-Ekofrukt of Novosibirsk: a Russian-US joint venture whose share was 6.4% both on the national and Moscow markets in 2001 according to AC Nielsen's study carried out in eleven large Russian cities.

The shares of the WBD Group and its principal competitors on the juice market, % (as of September 2002, according to AC Nielsen's study conducted in eleven large Russian cities):

Juice market	WBD Group	Multon	Lebedyansky	Nidan	Others
Market share	35	28.7	19.4	5.8	11.1

The WBD Group gets mineral water from an underground spring in Valdai. The region is famous for top-quality mineral water. There is a facility in Nizhny Novgorod that bottles small amounts of mineral water. The WBD Group is planning to start a serial production of mineral water early in 2003 and full-scale production in mid 2003. Historically, the consumption of noncarbonated mineral water has not been widespread in Russia. The situation, however, is radically changing under the effect of environmental factors. The consumption of bottled drinking water is growing rapidly in large Russian cities. The mineral water market is expanding not only in terms of volume but also in terms of a wider variety of products and new trademarks. Furthermore, the number of superior quality brands is growing, and the share of imported brands is going down. In the Issuer's opinion, the WBD Group's principal competitors include Aqua Minerale (Pepsi trademark), BonAqua (Coca-Cola trademark) as well as Borzhomi, Narzan, and Svyatoi Istochnik produced at CIS facilities. The WBD Group is planning to position its new trademark in modern style by emphasizing the mineral origin of the water and produce it with different degrees of carbonation (still, medium-carbonated, and highly carbonated) in bottles of different sizes for consumers' better choice.

Analysis of the WBD Group's Competitive Factors.

The WBD Group has a number of advantages over other Russian producers: high productive capacity, superior quality of products, high-level innovation, and opportunities for new products development and marketing. Other competitive advantages which, in the

Issuer's opinion, enable the WBD Group to retain its leading position on the Russian market, include: strong and diversified trademarks, unobstructed access to raw material sources, extensive sales network, emphasis on the development of new products, modern manufacturing facilities and technologies, external financing opportunities, and efficient leadership. The WBD Group intends to take advantage of those opportunities by pursuing a sales promotion strategy focused on superior quality products and development of new products that would not be inferior to their Western analogs in taste and consistence.

Some Russian producers, however, have certain advantages over the WBD Group, related to a lower cost of production and lower advertisement and shipment expenses. Recent industrial tendencies also show that the consolidation of the industry may lead to the emergence of large domestic producers capable of competing with the WBD Group on the market.

Foreign dairy producers have a large advertisement budget and advanced manufacturing know-how permits them to offer top-quality products made on the basis of up-to-date technologies through well-established sales systems. In the past foreign companies focused on concrete market niches, more often than not, on the premium segment (upper price range) whereas today they are increasingly turning to products for the average consumer with an average income. Besides, such companies as Danone, Parmalat, Campina, and Erhmann have begun investing in Russian manufacturing businesses, which may reduce the competitiveness of WBD Group products, for the competitors now have an opportunity to produce their commodities in Russia. For example, Danone, owning two Russian dairies, has put several yogurt brands on the Russian market, some of them developed specifically for Russian consumers. Campina of Netherlands, also owning a dairy in Russia, makes fresh yogurts and yogurts with a long shelf life. Erhmann of Germany makes yogurt at a Russian dairy, and Onken and Pascual, also foreign companies, are planning to open manufacturing facilities in Russia. As a result of the growing output of yogurts and milk desserts in Russia, the above foreign companies have become the WBD Group's principal competitors in this market segment.

Values of market shares that, in the Issuer's opinion, it and its competitors have had (percentage) in the three full fiscal years preceding the date of approval of the decision to issue the bonds, or for each full fiscal year following the date of foundation provided the Issuer has been operating for less than three years:

Analysis of the Issuer's Competitive Factors:

By virtue of its primary mission – control, management, and services in the interests of the WBD Group – the Issuer does not have competitors. Consequently, it would be impossible to analyze the Issuer's market share and its competitiveness factors in terms of their importance and with an allowance for factor ratings.

20.9: Risk Factors:

In several recent years an economic growth is observed in Russia. In 2000, the growth of Gross Domestic Product was 9%, in 2001 - 5,0%, in 2002 the expected growth is about 4%. The development of the food industry is especially rapid. The increase of population's effective demand maintains the appeal of investments in Russia food industry, making it one of most dynamically developing economic sectors. The economic crisis of 1998, which closed the Russian market for import of foodstuff, however allowed to Russian companies to grow high and this made impossible the resumption of the same volumes of the delivery of foreign foodstuff, even if one takes into consideration a constant increase of the real

rate of the Russian rouble. Presently, an average part of food imported into RF forms about 3% of the common consumption. By experts view, today the food sector is one most rapidly developing branches of the Russian economy. Networks of supermarkets prefer to lay in a stock Russian goods since they have lower prices and do not loose against their western analogues by the quality (and are even more attractive in some cases) . The creation of large holding companies with widely developed commercial networks and large production capacities and facilities in various regions is vitally important for food companies whose products cannot be transported for large distances and transport expenses often compose an essential part of the costs.

However, nobody can ensure that the last trends observed in the Russian economy, e.g., the increment of the Gross Domestic Product, relative stability of the rouble, and an insignificant inflation, will continue and that no sharp changes will take place in future. The oil and gas price fluctuations, strengthening of the real rouble rate with respect to US dollar, and consequences of a certain relaxation in the monetary politics may reflect adversely on the state of the Russian economy, the development of the food industry, and the future Issuer s activities.

For a growth of the food industry the developed infrastructure is of large importance. The infrastructure objects of Russia, basically, were created in Soviet time and did not receive significant investments during the last decade. The infrastructure objects of railroads and transport roads, objects of power supply, communications, and housing stock infrastructure objects are in the most complicated state and situation. Federal Government carries out active work on reorganisation of the system of railroad, electric power, and telephone communications of the country. Any reorganisation of that kind may result in growth of tariff level on railroad transportation, electric power, and telephone services in combination with an impossibility to receive the expected income as concerns the investments necessary for carrying out repairs, technical maintenance, and modernisation of such systems. The ill-being of the Russian infrastructure objects deteriorates the country economy, results in stoppage in delivery of goods and services, an increase of expenses related to business activities in Russia. A deterioration of the situation in the industry and situation of the Issuer in the industry can be a result of:

- 1) lowering effective demand of the population with respect to the products of WBD Group in view of deterioration of the financial and economic situation of population in the regions, consumers of food industry products produced by the WBD Group;*
- 2) possible deterioration of the fulfilment of the Budget of Russian Federation due to large volume of payments implied by the external debt of Russia in 2003 and decrease of incomes of workers of budget sphere;*
- 3) growth of the business competition in the industry.*

By Issuer s estimates, industrial risks are minimal for WBD Group companies. In the production of milk products and juices Wimm-Bill-Dann- Group is the leader of industry, controlling significant parts of market. To minimise the industry risks, Wimm-Bill-Dann Group acts as follows:

- 1) orientation to diversification of production;*
- 2) long-term programs of production;*
- 3) development of programs for lowering expenses related to production, active investment politics as concerns the technical and technological rearrangement of manufacturing capabilities and production basis in order to augment the competitive abilities and capacities of group companies.*

As a tax-payer, Issuer has been registered in Moscow. Taking into account that the group

of companies controlled and served by Issuer acts on significant part of the territory of Russia, some CIS countries and abroad, the influence of one separate region upon the activities of Issuer and the whole WBD Group is minimal. Deterioration of production activities of WBD Group can take place only in view of a general deterioration of the economic situation in entire Russia, which can be considered as a rare event. In this case, the reduction of incomes due to Russian enterprises can be counter-balanced by incomes from abroad enterprises. This will not essential change the fulfilment of obligations related to Notes.

Issuer is characterised by high level of credit quality and low level of credit risk. During 2001 and 9 months of 2002, the part of debt capital with respect to proper capital and reserves reduced from 3.44% to 0.07%. The creditworthiness of Issuer is ensured by high values of supplementary capital and also by the amount of the net wealth. Within 9 months of 2002 an almost 9 times increase of net wealth of Issuer took place with respect to 2001, the authorised capital stock risen from 700 million roubles up to 880 million roubles. Thus, Issuer improved significantly its financial situation.

Demand for dairy and juice products, as well as bottled water, depends primarily on demographic factors and consumer preferences as well as factors relating to discretionary consumer spending, including the general condition of the economy and general levels of consumer confidence. The willingness of consumers to purchase branded food and beverage products depends in part on local economic conditions. In periods of economic uncertainty, consumers tend to purchase more economy brands and, to the extent that our business strategy depends on the expansion of the sales of premium brands, our results of operations could suffer. Reduced consumption of our products in any of our key markets could reduce our turnover and profitability.

Our expansion strategy depends on funding growth in additional markets with cash flow generated in our existing markets, on our ability to identify attractive opportunities in markets that will grow and on our ability to manage the operations of acquired or newly established businesses. Should growth decline in our existing markets, not increase as anticipated in markets in which we have recently acquired or established businesses, or not increase in markets into which we subsequently expand, our geographic expansion strategy may not be successful and our business and profitability may suffer.

Our strategy depends on us being a large manufacturer in the dairy and juice sectors so that we can benefit from economies of scale, better satisfy customer needs and compete effectively against other producers. Our growth will suffer if we are unable to implement our acquisition strategy, whether because we fail to identify suitable targets, outbid competing bidders or finance acquisitions on acceptable terms or for any other reason. Furthermore, any acquisitions or similar arrangements may harm our business if we are unsuccessful in integration process or fail to achieve the synergies and savings we expect.

Our business expansion strategy contemplates our entry into new product categories, development of new products and marketing new brands in existing product lines. This strategy is designed to increase our market share and revenues by increasing consumer demand in our existing markets and entering into new market segments. The success of this strategy depends, in part, on our ability to anticipate the tastes and dietary habits of consumers and to offer products that appeal to their preferences. Our failure to anticipate,

identify or react to changes in consumer preferences could negatively affect our expansion strategy.

Our success depends in part on our continued ability to be an efficient producer in a highly competitive industry. If we cannot continue to control costs through productivity gains or by eliminating redundant costs resulting from acquisitions, our results of operations will suffer. In particular, price increases and shortages of packaging and raw materials could adversely affect our results of operations. For example, our results of operations may be affected by the availability and pricing of packaging materials, principally cardboard and plastic containers, and raw materials, principally raw milk and juice concentrate. We are substantially dependent upon a single supplier of packaging materials, which may make us more vulnerable to changes in global supply and demand and their effect on price and availability of these materials. Additionally, weather conditions and other factors beyond our control significantly influence the price and availability of our raw materials. Moreover, a number of our raw materials, such as juice concentrate and sugar are international commodities and are subject to international price fluctuations. While the prices of these materials have historically not been subject to significant volatility, a substantial increase in the prices of these materials, which we may not be able to pass on to customers through price increases, or a protracted interruption in supply, could have a material adverse effect on our financial situation.

The food industry's growth potential is constrained by population growth, which has been falling in Russia. Our success depends in part on our ability to expand our business faster than populations are growing in the markets that we serve, or notwithstanding declines in the populations in those markets. One way to achieve that growth is to enhance our portfolio by adding products and greater production capacity in faster growing and more profitable categories. If we do not succeed in making these enhancements, our results of operations will suffer.

In 2002, the Moscow city government purchased approximately 62% of the baby food products we produced in Moscow at a discount of 1% from the market price of these products, and the proceeds of the baby food products sold to the Moscow city government made up 50% of the total proceeds of the Moscow Baby Food Plant. We supply these products to the Moscow city government pursuant to a tender held on a yearly basis. In the event that we were to lose a tender, or the Moscow city government were to reduce significantly the prices or the amount of products it purchases from our baby food business, and we were unable to find alternative purchasers, then our revenues from this business could be substantially reduced

We sell our products either directly to retailers, including supermarkets, grocery shops and restaurants, or to wholesalers for resale to retail outlets. We expect sales to independent retailers and wholesalers to continue to represent a significant portion of our revenues. Our operations and distribution costs could be affected by the increasing consolidation of these entities, particularly as these customers become more sophisticated and attempt to force lower pricing and increased promotional programs. For example, in the spring of 2001, several Russian supermarket chains formed a loose alliance which publicly announced its intention not to purchase our products. Although these supermarket chains now purchase our products, there can be no assurance that they will continue to do so or that other supermarket chains will not attempt a similar consolidation of market power. This

alliance also intends to seek price discounts from manufacturers. Additionally, a number of large Western retailers, such as the Turkish retailer Ramenka, the German retailer Metro and the French retailer Auchan, have already opened stores in the Moscow region, and we expect that these retailers will increase price competition.

We also compete with other brands for shelf space in retail stores and marketing focus by our independent wholesalers and retailers, and our independent wholesalers and retailers offer other products, sometimes including their own brands, that compete directly with our products. If independent wholesalers and retailers give higher priority to other brands, purchase less of, or even refuse to buy, our products, seek substantial discounts, or devote inadequate promotional support to our brands, it could materially and adversely affect our turnover, reduce our competitiveness, and our profitability.

In exporting our products to a country, we attempt to meet the standards and requirements of applicable legislation governing the import of food products into such country. Independent distributors have, in some cases, attempted to export our products to other countries that did not meet the requirements of applicable legislation.

For instance, one of our independent dairy distributors exported our Darling Mila milk to the United States in January 2003. This milk was subsequently recalled from stores in February 2003 when food inspectors discovered that the milk contained sulfonamide. Whereas Russian legislation permits limited amounts of sulfonamide in milk, the United States does not. The recall, which was publicized in the Russian press, and any similar events that may occur in the future could negatively impact our reputation in the Russian Federation and CIS and abroad, and adversely affect our results of operations.

We do not carry full insurance for our facilities for risks commonly insured against in other countries. In the event that a major event were to affect one of our facilities, we could experience substantial property loss and significant disruptions in our production capacity. For example, if substantial production capacity were lost at Lianozovo Dairy Plant, which is our primary production facility, we would not be able to replace a substantial portion of this capacity with capacity from our other plants, potentially resulting in the interruption of the production of a number of our products. Additionally, depending on the severity of the property damage, we may not be able to rebuild in a timely manner or at all. We do not maintain separate funds or otherwise set aside reserves for these types of events

Given the importance of brand recognition to our business, we have invested considerable effort in protecting our portfolio of intellectual property rights, including trademark registration. However, we cannot be certain that the steps we have taken will be sufficient or that third parties will not infringe or misappropriate our proprietary rights. Moreover, Russia and the other countries of the CIS in which we operate generally offer less intellectual property protection than Europe or North America. If we are unable to protect our proprietary rights against infringement or misappropriation, it could materially harm our future financial results and our ability to develop our business.

Our operations and properties are subject to regulation by various government entities and agencies. As a producer of food products, our operations are subject to production, packaging, quality, labeling and distribution standards. The operations of our production and distribution facilities are also subject to various environmental laws and workplace regulations. We believe that our current legal and environmental compliance programs adequately address these concerns and that we are in substantial compliance with

applicable laws and regulations. However, compliance with, or any violation of, current and future laws or regulations could require material expenditures by us or otherwise adversely effect our business or financial results.

Additionally, under relevant Russian legislation, Russian regulatory agencies can impose various sanctions for violations of environmental standards. These sanctions include may civil and administrative penalties applicable to a company and criminal penalties applicable to its officers. Also, in the course, or as a result, of an environmental investigation, regulatory authorities can issue an order halting part or all of the production at a plant which has violated environmental standards. We have been, at various times, subject to administrative sanctions for the failure to comply with environmental regulations relating to effluent discharge and to minor administrative sanctions for other violations. In the event that production at one of our facilities was partially or wholly prevented due to this type of sanction, our production capability would suffer significantly and our operating results would suffer.

34. Investments Declaration. Description of the Issuer's Activities.

Rendered by investment funds only.

35. Plans of the Issuer's Future Activities.

To satisfy fully the demand of legal entities and private persons in products (works, services), produced (performed, provided) in accordance with its charter activity, and to receive profits.

36. Data on the Issuer's charter capital.

Amount of the Issuer's charter capital (rub.): 880,000,000

Charter capital Breakdown by Share Category:

Common Shares:

total amount (rub.): 880,000,000

share of the charter capital: 100%

Preferred Shares:

total amount (rub.): 0

share of the charter capital: 0%

The procedure of determining of income (interest rate) on each bond

The interest rate on the first coupon will be determined according to the results of an auction held at MICEX.

The interest rate on the first coupon will be calculated as the sum of the following two components:

the level of inflation for the respective one-year period, defined as the Consumer Price Index of Russia for the calendar month ending no later than 45 days before the placement start date, as a percentage relative to the same of the preceding year, minus 100%. The CPI is calculated by the RF State Statistics Committee in accordance with a resolution of the RF State Statistics Committee dated March 25, 2002, monthly as a percentage relative to the same month of the preceding year;

an inflation premium.

The CPI will be published on the Troika Dialog Investment Company website (www.troika.ru) no later than 10 days before the placement start date.

On the day of the auction to determine the interest rate on the first coupon, members of the Stock Market Section of MICEX will submit orders for the auction using the MICEX trading system both at their own expense and at the expense and on the instructions of their clients. The time of submission of orders for the auction will be established by MICEX. Orders to buy bonds will be submitted by members of the stock market section of MICEX to the Underwriter with the following significant terms specified:

a.1) *Purchase price: 100% of the face value;*

a.2) *Number of bonds that the potential buyer would like to acquire if the Issuer were to set an interest rate on the first coupon greater than or equal to the acceptable first-coupon interest rate specified in the order;*

a.3) *Acceptable interest rate on the first coupon. Acceptable interest rate on the first coupon means the interest rate at which, if such interest rate on the first coupon were announced by the Issuer, the potential investor would be prepared to buy the number of bonds specified in the order at the price of 100% of the face value. The acceptable interest rate on the first coupon shall be expressed in percent per annum to a precision of 1/100 (one-hundredth) of one percent;*

Funds must be reserved in an amount sufficient to make full payment for the bonds specified in the orders, including MICEX's commission.

Orders in which one or more of the aforesaid significant terms do not conform to the requirements set forth in sections a.1 a.3 and orders not backed by funds as provided in the preceding paragraph will not be accepted for the auction to determine the interest rate on the first coupon.

Upon the end of the submission period for orders for the auction to determine the interest rate on the first coupon, MICEX will prepare a register of the orders received and deliver the register to the Issuer and the Underwriter.

On the basis of an analysis of the orders submitted for the auction, the Issuer will adopt a resolution setting the interest rate on the first coupon and deliver a written copy of the adopted resolution to the Underwriter and MICEX.

1.1.5. The rate of interest on the second, third, fourth, fifth, and sixth (C_2 , C_3 , C_4 , C_5 , and C_6) shall be calculated from the level of inflation for the corresponding one-year period (as defined below). The level of inflation shall be determined on the basis of the Consumer Price Index for Russia calculated monthly by the RF State Statistics Committee in accordance with RF State Statistics Committee Resolution No. 23 of March 25, 2002, as a percentage relative to the same month of the preceding year. The interest rate on each of the aforesaid coupons shall be calculated using the following formula:

$$C_j = (C_1 - \text{Inflation } 12M_1) + \text{Inflation } 12M_j$$

where

C_j = the interest rate for the j th coupon in percent per annum, $j = 2, 3, 4, 5, 6$;

C_1 = interest rate of the first coupon, in percent per annum;

Inflation $12M_1$ = the CPI calculated by the RF State Statistics Committee for the calendar month ending no later than 45 days before the date of placement of the Bonds, as a percentage relative to the same month of the preceding year, minus 100%;

Inflation $12M_j$ = the CPI calculated by the RF State Statistics Committee for the calendar month ending no later than 45 days before the start date of the j th coupon period, as a percentage relative to the same month of the preceding year, minus 100%;

$(C_1 - \text{Inflation } 12M_1)$ = the inflation premium calculated after determination of the interest rate on the first coupon to a precision of 1/100 (one-hundredth) of one percent;

The CPI is provided by the RF State Statistics Committee upon request. The CPI will be published on the website of Troika Dialog Investment Company (www.troika.ru) 10 days before the start of the respective coupon period.

If a negative value for C_j is obtained from the formula specified above, C_j shall be taken as equal to zero; if the obtained value of C_j is greater than 25%, C_j shall be taken as equal to 25%.

If, during the period of circulation of the Bonds, the official procedure for calculating the CPI and the normative act establishing the procedure for calculating the CPI are altered or the CPI is replaced by an index similar in purpose to the CPI, the interest rate for a coupon will be determined using the CPI (or its similar replacement) calculated in accordance with normative acts in force at the time of its calculation.

If information on the CPI is not published by the RF State Statistics Committee and not published on the Internet website of Troika Dialog Investment Company by the date necessary to calculate the interest rate for a coupon (as set forth above), the value of Inflation $12M_j$ for that coupon shall be taken as equal to the value of Inflation $12M_j$ for the preceding coupon.

Grounds for early redemption of Bonds

For purposes of defining the grounds for early redemption of Bonds, the following definitions are used:

Issuer Group - all companies, including the Issuer, consolidated for purposes of the Issuer's Consolidated and Combined Financial Statements, which are prepared in accordance with United States Generally Accepted Accounting Principles (US GAAP). The companies in the Issuer Group as at the end of 2002 are listed in the Issuer's Consolidated and Combined Financial Statements for 2002.

Issuer Group Company - a company in the Issuer Group;

Issuer's Consolidated and Combined Financial Statements - the consolidated and combined financial statements of the Issuer, prepared in accordance with US GAAP.

Net Assets - Assets minus liabilities and minority interests, according to the Issuer's Consolidated and Combined Financial Statement.

EBITDA - earnings before interest, taxes, depreciation, and amortization, adjusted taking into account minority interests, according to the Issuer's Consolidated and Combined Financial Statements. If the Issuer has made investments in consolidated subsidiary companies during the period for which EBITDA is calculated, EBITDA is calculated as if the investments were made on the first day of that reporting period.

Debt - debt in the form of bank credits, loans, and commodity and commercial credits obtained by Issuer Group Companies, and/or promissory notes and/or bonds issued by Issuer Group Companies, except loans between Issuer Group Companies.

Bondowners are entitled to present Bonds for early redemption upon the occurrence of any of the following events (Grounds for Redemption):

1. Delinquency of more than 15 (fifteen) days in performance by Issuer Group Companies of their obligations with respect to payment of principal debt and/or interest on bank credits/loans received by them and/or represented by promissory notes and/or bonds issued by Issuer Group Companies, in cases when:

a) the principal debt represented by an overdue obligation (i.e., the amount of the credit/loan (not including accrued interest), the total face value of promissory notes, or the total face value of a bond issue) is greater than 10,000,000 (ten million) U.S. dollars or the equivalent thereof at the exchange rate of the Central Bank of the Russian Federation (RF Central Bank) on the due date of the respective obligation; and

b) the total amount of overdue debt of Issuer Group Companies represented by the overdue obligation specified in subsection a) above is greater than 2,500,000 (two million five

hundred thousand) U.S. dollars or the equivalent thereof at the exchange rate of the RF Central Bank on the due date of the respective obligation.

2. A change, within any 12 (twelve) successive months, beginning from the placement date of the Bonds, of more than half of the personnel on the Issuer's Board of Directors relative to its composition at the start of the 12-month period.

3. A decrease in the value of the Issuer Group's Net Assets (in the ruble equivalent at the exchange rate of the RF Central Bank on the date of the respective Consolidated and Combined Financial Statements) by more than 25% (twenty-five percent) relative to the value of its Net Assets according to the Issuer's Consolidated and Combined Financial Statements for 2002.

4. As at any reporting date, according to the Issuer's Consolidated and Combined Financial Statements, an increase in the Issuer Group's Debt relative to its Debt as at the preceding reporting date, if the ratio of total debt according to the Issuer's Consolidated and Combined Financial Statements to its EBITDA for the four quarters ending on the reporting date exceeds 4:1, with the exception of:

a) additional Debt totaling no more than 100,000,000 (one hundred million) U.S. dollars;

b) short-term Debt, in the form of credits obtained for a period of no more than 5 (five) business days in each case;

c) Debt not exceeding 15,000,000 (fifteen million) U.S. dollars (or the equivalent at the exchange rate of the RF Central Bank on the reporting date), arising under derivative financial instruments concluded for the purpose of insuring risks associated with the Issuer Group's business operations. For purposes of this subsection, derivative financial instrument means an agreement, to which an Issuer Group Company is a party, which defines the rights and obligations of the parties thereto in relation to an underlying asset defined in accordance with applicable law. Derivative financial instruments include options and forward contracts, as well as agreements that do not provide for the delivery of the underlying asset, but which define the procedure for settlements between the parties in the future in dependence on a change in some indicator of the underlying asset relative to the value of that indicator determined (or the procedure for determining which is established) by the parties at the time of entry into the transaction;

d) Debt acquired for the purpose of refinancing current Debt of the Issuer Group. For purposes of this subsection, refinancing means the acquisition of Debt by an Issuer Group Company exclusively for the purpose of repaying Debt of the Issuer Group existing on the preceding reporting date, provided that (i) the amount of Debt acquired does not exceed the amount of Debt being repaid; (ii) the term of the acquired Debt is not less than the remaining term of the existing portion of Debt being repaid and (iii) all other material conditions of the acquired Debt are not materially less favorable to the debtor than the terms of the Debt being repaid.

Procedure for disclosure by the Issuer of information concerning the occurrence of a Ground for Redemption of Bonds, and of other material information

Immediately upon becoming aware of it, Issuer is obligated to provide the Underwriter with information concerning the occurrence of any Ground for Redemption, as well as information on changes in the list of the companies forming the Issuer Group; changes in the composition of the Issuer's Board of Directors; and information on actions taken by

the Issuer/an Issuer Group Company that result in the elimination of a Ground for Redemption of Bonds.

For the purpose of enabling owners of Bonds to verify the presence/absence of Grounds for Redemption of Bonds, the Underwriter will on a quarterly basis, in the manner specified below, disclose the following information, subject to its receipt from the Issuer:

- 1) the Issuer's Consolidated and Combined Financial Statements;*
- 2) the composition of the Issuer Group;*
- 3) the composition of the Issuer's Board of Directors;*

All information received by the Underwriter from the Issuer of the Bonds must be published within 5 (five) business days of its receipt, by placement on the Underwriter's website (www.troika.ru). When the information concerns the occurrence of a Ground for Redemption and the start date of acceptance of early redemption applications by the Issuer, such information shall also be published in the newspaper Vedomosti.

Early redemption procedure and conditions

The Issuer will perform early bond redemption on the basis of an application from the owner of the Bonds containing a request for early redemption, or on the basis of the presentment of such a request. Therewith, owners of Bonds are entitled to present Bonds for early redemption only after the registration of the Report on Results of the Bond Issue.

If information subject to disclosure in the manner specified above contains information concerning actions taken by an Issuer Group Company that result in the elimination of a Ground for Early Redemption, an owner of Bonds is not entitled to present a demand for early redemption, provided that the owner knew or could have learned about the occurrence of the Ground for Early Redemption from such information.

During the 5 (five) business days following the later of the dates of publication by the Underwriter in the Vedomosti newspaper and on the Underwriter's site of information concerning the occurrence of any Ground for Early Redemption of Bonds and concerning the start date of acceptance of early redemption applications (Period for Presentment of Bonds for Early Redemption), owners of Bonds or nominee holders authorized to present Bond for early redemption are entitled to present Bonds for early redemption by sending a corresponding application in writing to the Underwriter.

An application for early redemption must contain the full name of the owner of the Bonds or, if the application is submitted by a nominee holder, the full name of the nominee holder, and other information prescribed in the information published by the Underwriter. Attached to the application for early redemption must be original copies of documents (extract from a depository account) issued by the Depository and attesting that the Bonds presented for early redemption have been blocked (restriction on the withdrawal of Bonds from an owner's depository account, including an account opened by a nominee holder), as well as other documents specified in the information published by the Underwriter. If the applicant is a nominee holder, documents confirming the authority of the nominee holder to present Bonds for early redemption must be attached to the application.

An owner of Bonds is also entitled to send an early redemption application to the Underwriter if information concerning the occurrence of a Ground for Redemption has been received by the owner from third parties, provided, however, that at the time the

application is presented the Underwriter has not published information concerning the Ground for Redemption specified in the application. In such case, the application must contain, in addition to the documents and information specified above, the grounds for presentment of such application and references to the source of the information. Within 5 (five) business days of receiving such an application, the Underwriter must publish information concerning the start of acceptance of early redemption applications in the manner specified above or send a reasoned refusal of early redemption to the applicant, including by reason of elimination of the Ground for Redemption.

From the time the Underwriter receives a written early redemption application from an owner or nominee holder, no operations of the owner with the Bonds contemplated by the application will be performed, except operations involved in the redemption of the Bonds and/or payment of income thereon.

No later than 5 (five) business days after the end date of the acceptance of early redemption applications, the Underwriter will provide the Issuer, the Payment Agent, and the Depositary with a list of the owners and/or nominee holders who submitted applications for early redemption of Bonds within the Period for Presentment of Bonds for Early Redemption. The list must include the following information on each person who presented Bonds for early redemption:

the full name of the owner of the Bonds or, if the application is submitted by a nominee holder and the nominee holder has been authorized to receive early redemption payments, the full name of the nominee holder;

the number of Bonds to be redeemed early;

the location and postal address of the owner of the Bonds or, if the application is submitted by a nominee holder and the nominee holder is authorized to receive early redemption payments, the location and postal address of the nominee holder;

the tax status of the person or entity authorized to receive early redemption payments: (resident; nonresident carrying out activity in the Russian Federation through a permanent representative office; nonresident receiving income unassociated with a permanent representative office; individual tax residents of the Russian Federation; individual present in the territory of the Russian Federation for at least 183 days in a calendar year; foreign national; stateless person);

identifying details of the bank account of the person or entity authorized to receive early redemption payments.

Payment of funds associated with early redemption of the Bonds will be made by the Payment Agent, acting on the Issuer's instructions, within 2 (two) business days following the date of receipt by the Payment Agent of the list of owners and/or nominee holders who sent early redemption applications, subject to the receipt of corresponding funds from the Issuer. The funds required by the Payment Agent to perform early redemption must be transferred by the Issuer to the Payment Agent's account no later than 2 (two) business days after the date of receipt by the Issuer of the list of owners and/or nominee holders who submitted early redemption applications.

Bonds presented for early redemption will be redeemed at their face value, equal to 1,000 (one thousand) rubles; at the same time, their owners will be paid coupon income on the Bonds for the coupon period during which the Bonds were presented for early redemption, calculated from the start of such period to the date of early redemption.

The entity providing security for purposes of the bond issue : Vitafrukt Limited Liability Company.

Kind of security: guarantee

Amount of provided security: 1 500 000 000

Placement of bonds is carried out in the 2 quarter 2003

D. OTHER DATA ON THE ISSUER S SECURITIES.

58, 59, 60. Rights of the Issuer s Shareholders. Dividends on the Issuer s Shares.

58.1

Category of Shares: Common

Form of Shares: Registered, uncertificated

Full Name of Category/Form of Authorized Shares: Registered common shares, uncertificated

Holder Rights for Shares of this Category (Type):

According to the Company s Charter:

8.1. Each common share of the Company grants the shareholder who owns it an identical amount of rights.

8.2. Shareholders owning common shares of the Company may in accordance with the Federal Law on Joint Stock Companies and the Company s charter participate in the General Meeting of Shareholders with the right to vote on all issues within its competence, and are entitled to receive dividends and, in the event of the Company s liquidation, a part of its property.

8.3. A shareholder also has the right:

8.3.1. To elect and be elected to the management and supervisory bodies of the Company;

8.3.2. To obtain information from the Company s management bodies in the manner established by current Russian legislation and by this Charter.

8.3.3. To appoint his own representative(s) to exercise his voting right and other rights granted by shares of the Company.

8.4. Shareholders owning common shares also have other rights granted to them by this Charter and by current legislation.

8.5. Conversion of common shares into preferred shares, bonds, or other issued securities is not permitted.

In accordance with the Russian law, shareholders have other rights, including, but not limited to:

56. Data on the Issuer s Shares.

- 1. Shareholder of open joint stock companies may dispose of their shares without the agreement of other shareholders of the company.*
- 2. Shareholder or nominee holder may request that they be entered in the registry of the company's shareholders no later than three days from the date of submission of documents required by the Russian legislation. A refusal to entry in the registry of the company's shareholders may be appealed in court.*
- 3. Shareholder or nominee holder may request that the keeper of the registry of the company's shareholders confirm their right to shares by issuing an abstract from the registry of the company's shareholders, which is not a security.*
- 4. Shareholder may appeal in court a decision made by the general meeting of shareholders in violation of the provisions of the Act on Joint Stock Companies, other legislation of the Russian Federation, or the company's Charter, if he/she did not*

participate in the general meeting of shareholders or voted against such decision, and the decision violates his/her rights and legal interests. The court may, upon considering all circumstances of the case, leave such decision effective if the vote of such shareholder could not affect the outcome of the voting, the violations were immaterial, and the decision did not cause damage to such shareholder.

5. Shareholder(s) owning a total of 2 or more percent of the company's voting shares may, no later than 30 days from the end of the company's fiscal year, if the company's Charter does not stipulate a larger period, suggest no more than two issues for the agenda of the annual general meeting of shareholders and nominate candidates to the company's Board of Directors and Inspection Commission, the number of them not to exceed the size of these bodies. A decree of the company's Board of Directors refusing entry of an issue in the agenda of the annual general meeting of shareholders or of a candidacy in the list of candidates to the company's Board of Directors and Inspection Commission may be appealed in court.

6. Shareholder(s) owning a total of 10 or more percent of the company's voting shares as of the date of request, may request an extraordinary general meeting of the company's shareholders. A decree of the company's Board of Directors refusing an extraordinary general meeting of shareholders may be appealed in court. If the company's Board of Directors does not make a decision on holding an extraordinary general meeting or on refusing an extraordinary general meeting, persons requesting such meeting may hold an extraordinary general meeting of shareholders.

7. Shareholder(s) owning a total of 1 or more percent of the company's offered equity shares may file a lawsuit against a member of the company's Board of Directors, company's individual executive body (President of the Board), or a member of company's collective executive body (the Board) to cover the damage to the company, as stipulated in Section 71(2) of the Act on Joint Stock Companies.

8. Shareholders owning voting shares may request that the company buy all or part of their shares in the following cases: re-organization of the company or completion of a large-scale deal, decided upon by the general meeting of shareholders in accordance with Section 89(2) of the Act on Joint Stock Companies, if they voted against such deal or did not participate in the voting on these issues; change or amendments to the company's Charter, or approval of the new edition of the Charter, limiting their rights, if they voted against such decision or did not participate in the voting.

9. Shareholder(s) owning a total of 10 or more percent of the company's voting shares, may at any time request an inspection (revision) of the company's financial and economic activity.

10. Shareholder may request that the company provides him/her with paid copies of documents, listed in Section 89(1) of the Act on Joint Stock Companies, and other company documents, as stipulated in the Russian legislation.

11. Other rights, as stipulated by the current Russian law.

Accounting Policy for the Purpose of 2003 Accounting

1. General Provisions

1.1. Accounting at Wimm-Bill-Dann Foods OJSC shall be performed in accordance with the following applicable regulations governing the methodological fundamentals of accounting as well as the accounting organization and implementation procedures:

The Federal Law dt. 21.11.96 No. 129-FZ On Accounting ,

Regulations of Accounting and Reporting in the Russian Federation dt. 29.07.1998 No. 34n,

The Standard Corporate Chart of Accounts approved by Order of the Ministry of Finance dt. 31.10.2000 No. 94n, applicable Accounting Regulations,

other regulations and methodological recommendations and accounting-related materials, as subsequently amended.

1.2 Accounting of property, liabilities and business operations shall be on the basis of physical measures in monetary terms by way of their total, continuous, documentary and interrelated recognition.

1.3. The following shall be the objectives of the corporate accounting system:

to create complete and reliable information on the company's business processes and results of operations;

to establish control over property status and movements, over the utilization of the corporate assets, labor and financial resources;

to identify and mobilize any internal reserves.

1.4. The corporate accounting policy has been developed on the basis of the following requirements to corporate accounts:

completeness,

reliability,

timeliness,

prudence,

priority of content over form,

consistency,

rationality.

And further, on the basis of the following assumptions:

the economic entity assumption,

the accrual principle assumption,

the accounting continuity assumption.

1.5. The chief executive officer of the company is responsible for the organization of corporate accounting.

1.6. The chief accountant of the company shall assure that all business operations are recognized in the books of account and shall exercise control over their compliance with the RF legislation.

1.7. The chief accountant of the company shall sign jointly with the chief executive officer of the company all documents that serve as the basis for the acceptance of inventories, cash, settlement, credit and financial liabilities.

1.8. The chief accountant of the company shall not receive for implementation and execution any documents evidencing transactions that are inconsistent with the law or constitute breaches of contractual/financial discipline.

1.9. Internal statements shall be prepared, executed and delivered in accordance with the internal regulations and corporate orders.

1.10. The following shall be the company's ordinary types of business:

to make trademarks available to others on the basis of license arrangements;

to provide comprehensive management services;

to provide consulting services;

to operate under assignments in the IT area;

other businesses implying the earning of income pursuant to Accounting Regulations No. 9/99.

2. Organizational and Technical Matters

2.1. Corporate accounts shall be maintained by the Accounting Department, a separate department within the company, headed by the chief accountant. All operations of the accounting personnel shall be subject to the Accounting Department Regulations and the job descriptions of specific accounting personnel members.

2.2. There shall not be any separate structural subdivisions within the company.

2.3. The company shall prepare internal and external accounting statements. The external accounting statements shall include:

balance sheet;

profit and loss accounts;

notes to the balance sheet;

auditor's report confirming reliability of the accounting statements;

explanatory note.

The contents, formats, frequency and deadlines of submission of the internal statements, as well as the list of persons responsible for the preparation of such internal statements and the list of potential users shall be approved internally.

3. Accounting Methods Selected

3.1. Corporate accounts shall be maintained on a general-ledger double-entry accounting basis in accordance with the Corporate Chart of Accounts (Attachment No. 1).

3.2. Corporate accounts shall be maintained on the basis of source accounting documents. The company shall apply the standard formats of source accounting documents approved by the State Statistics Committee. In addition, the company shall apply home-designed and properly approved source accounting document formats containing all statutorily required details

Source documents shall service as the basis for the entries in the books of account; such source documents shall be prepared at the time of, or immediately after, the consummation of a business operation and shall contain the following statutorily required details:

name of document (form);

form code;

date of preparation;

name of the entity on whose behalf the document is prepared;

content of the business operation;

business operation measures (in physical and monetary terms);

names of officers responsible for the consummation and proper execution of the business operation;

personal signatures and names of signatories.

3.3. The information in the properly accepted source documents that is to be recognized in the corporate accounts shall accumulate and be systemized in the books of account designed and recommended by the Ministry of Finance of the Russian Federation and other authorities wherein the power to regulate accounting practices is vested by appropriate Federal Laws.

The information on business operations consummated over a given period of time shall be transferred, on a summary basis, from the books of account into the accounting statements.

3.4. No corrections shall be allowed in the source documents and in the corporate books of account. Any correction of an error shall require verification by a signature of the original signatory to the document, with the date of such correction stated. In no event shall any corrections be possible in the cash/banking documents.

3.5 The source documents, the books of accounts and the accounting statements shall be stored in accordance with the statutorily prescribed procedures and time periods for such storage. The chief accountant shall be responsible for their security during the period of their remaining current and for their timely archiving.

4. Evaluation of assets, liabilities and business operations

4.1. For the purposes of recognition in the accounts and the accounting statements, the corporate assets, liabilities and business operations shall be subject to evaluation. Such evaluation shall be performed in monetary terms by summing any actual expenses.

Other evaluation methods shall apply when so prescribed by the laws of the Russian Federation, the applicable accounting regulations and other regulations of the Russian Federation.

4.2. The organization shall evaluate its assets, liabilities and business operations in the official currency of the Russian Federation, that is, in Russian Rubles.

4.3. Accounting entries on the corporate foreign currency accounts and in respect of foreign currency-denominated transactions shall be posted in the official currency of the Russian Federation, with amounts of such entries to be determined by translating the foreign currency at the exchange rate of the Central Bank of the Russian Federation quoted as of the transaction date. At the same time, such entries shall be posted in the actual currency of payment.

5. Inventory

5.1. To assure reliability of the corporate accounting and reporting data, inventories of assets and liabilities shall be taken to verify and document their availability, condition and value. Inventories shall be taken in accordance with Order of the RF Ministry of Finance dt. 13.06.95 No. 49 On approval of methodological recommendations on inventories of assets and financial liabilities .

5.2. The number of inventories in a given year, the dates of their taking, the list of assets and liabilities subject to each such inventory shall be determined internally, except where such inventory is statutorily required:

before preparation of the annual accounting statements, except for the assets that was subject to inventory on or after 01 October of the current year.

upon reassignment of responsible custodians (as of the takeover date);

whenever any instances of theft/misuse of, or damage to, valuable items are identified;

after fires or other acts of God;

in other cases provided for by the laws of the Russian Federation.

The results of any such inventory taking shall be executed in the form of an appropriate statement to be signed by the members of the commission and approved by the chief executive officer of the company.

5.3. Any deviations of the actual asset positions from the accounting data identified during inventories or other checks shall be settled as follows:

any excess assets, valuable items, cash and other property shall be recognized and posted to the financial results of the entity's business operations during the month when the appropriate inventory taking was completed.

5.4. Missing materials values, moneys and other properties shall be accounted for the guilty persons. In the cases, when the guilty persons are not identified, or when the court turns down the charge of levy, the losses incurred in missing and damage of properties shall be signed-off to financial results.

5.5. The set-off of surpluses and shortages as a result of re-sorting may be effected under the order to be issued by the Chief Executive Officer of the company.

6. Investments in capital assets

6.1. Capital investment shall include expenses of construction/installation operations, purchases of fixed assets and intangible assets, other capital work and expenses. Capital investment shall be recognized in the corporate accounts as incurred.

7. Financial investments

7.1. Financial investments shall include

the entity's investments in government and municipal securities;

securities of other corporate entities;

contributions to share capital of other corporate entities;

loans extended to other corporate entities;

deposits with lending institutions;

accounts receivable acquired by way of an assignment of claims.

7.2. Financial investments shall be accounted for in accordance with the Accounting Regulation 19/02 approved by Order of the Ministry of Finance dt. 10.12.2002 No. 126n. Financial investments shall be accounted for on separate subaccounts of Account 58.

7.3. Financial investments shall be recorded at their historical value. Such historical value shall be the total of the following expenses effectively incurred by way of such financial investments:

amounts paid to seller in accordance with the contract;

amounts paid in respect of information and consulting services related to the financial investments;

fee payable to the intermediary via whom the financial investment was made;

other expenses directly related to such financial investments.

7.4. General expenses shall not be included in the effective cost of financial investments unless they bear a direct relation to such financial investments.

7.5. Effective expenses shall be determined with due regard to the differences in values occurring prior to the recognition of the assets.

7.6. Unless otherwise prescribed by the RF laws, the assessed monetary value of the financial investments made as the contribution to the share capital, as agreed upon between the incorporators, shall be the historical value of such financial investments.

7.7. Upon disposal of financial investments (except for shares in share/unit capital of other entities, loans receivable, bank deposits, accounts receivable acquired by way of an assignment of claims) the current market value whereof is not determined, the value of such investments shall be determined by way of a evaluation based on the FIFO principle.

7.8. Contributions to share/unit capital of other entities (except for shares in joint-stock companies) shall be valued upon disposal at the historical value of each financial investment accounting unit being disposed of. The accounting unit of contributions to share/unit capital of other entities shall be equal to 0.01% of the appropriate contribution.

7.9. Loans receivable from other entities are recorded on Account 58. Interest accrued is recorded on Account 76 as part of the accounts receivable.

7.10. Guided by the principles of rational and reliable recognition of business operations debt outstanding from lending institutions on deposit accounts is reflected together with interest accrued on such deposit accounts.

8. Fixed assets

8.1. The fixed assets are the portion of the corporate assets that are used as the facilities enabling the manufacturing of products (provision of work or services) over long periods of time, i.e. the useful life periods of over 12 months, or the ordinary operational cycle if longer than 12 months.

8.2. The fixed assets shall include buildings, installations, measurement and control instruments and devices, computing equipment, transportation vehicles, industrial and general business inventories and accessories, and other items of appropriate description.

Land plots, natural objects (water, minerals and other natural resources) in the company's possession, as well as capital investments in leased fixed assets shall be accounted as part of the corporate fixed assets, too.

8.3. The corporate practices of fixed assets accounting shall be in accordance with Accounting Regulation PBU 6/01 Fixed assets accounting approved by Order of the RF Ministry of Finance No. 26n dt. 30.03.2001 (as further amended), Methodological Recommendations on Fixed Assets Accounting approved by Order of the RF Ministry of Finance No. 33n dt. 20.07.1998. (as further amended), and other regulations.

Fixed assets shall be accounted for at their historical value, i.e. at the total of the actual costs of their acquisition, construction and manufacturing less the value-added tax and other recoverable taxes (except where the laws of the Russian Federation provide

otherwise). The following shall be included in the actual costs of fixed assets acquisition, construction and manufacturing:

amounts paid to the supplier (seller) pursuant to appropriate contracts;

amounts paid to third parties under appropriate construction and other contracts;

amounts paid to third parties for information and consulting services related to the fixed assets acquisition;

registration fees, stamp duties and other similar payments effected in connection with the acquisition of title to a given fixed asset;

customs duties;

non-recoverable taxes paid in connection with the acquisition of a given fixed asset;

fees paid to the intermediary via whom the given fixed asset was acquired;

other costs directly related to the acquisition, construction and manufacturing of a given fixed asset, in particular, any interest on a loan received for the purposes of acquisition, construction or manufacturing of a fixed asset accrued up to the date when the fixed asset is recognized in the corporate accounts.

8.4. The actual costs of fixed assets acquisition and construction shall be determined with due regard to the differences in respective amounts that occur before the fixed assets are recognized on Account 01 (on setting in operation) where payments are made in Rubles and in an amount equivalent to the stated amount in foreign currency (reference monetary units). Any such differences occurring after the fixed assets have been recognized on Account 01 (on setting in operation) shall be recognized as part of non-operating expenses (gains) on Account 91 Other income and expenses .

8.5. The monetary value of fixed assets delivered by way of a contribution to the corporate share capital as agreed upon between the entity's incorporators (members) shall serve as the historical value of such fixed assets, unless otherwise provided for by the laws of the Russian Federation.

8.6. The historical value of fixed assets acquired under contracts that provide for the discharge (payment) of obligations in a non-monetary form shall be determined as prescribed by Item 11 of Accounting Regulation 6/01.

8.7. The value of fixed assets as initially recognized in the accounts may only be modified when so prescribed by the laws of the Russian Federation.

Modification of the initial value of fixed assets shall be possible in the cases of their extension, retrofitting, reconstruction or partial demolition.

8.8. The fixed assets may be subject to revaluation in accordance with the applicable laws of the Russian Federation, with the maximum frequency of once in a year.

A fixed asset shall be revalued by way of recalculating its historical value or the current (replacement) value, if the asset has been earlier revalued, and the depreciation amount accrued over the total period of the asset utilization.

The results of a fixed assets revaluation performed as of the first day of the reporting year shall be recorded separately in the corporate accounts. The results of such revaluation shall not be included in the accounting statements of the previous year and shall be taken into account in obtaining the data for the balance sheet as of the beginning of the reporting year.

8.9. Depreciation is accrued using the standard rates calculated on the basis of the useful lives of specific fixed assets. Such useful lives shall be determined internally upon the recognition of the asset in the accounts based on the Depreciable Fixed Assets Classifier approved by Resolution of the RF Government dt. 01 January 2002 No. 1.

The company shall apply the straight-line method of depreciation.

8.10. In the corporate accounts, the amount of depreciation accrued on operational facilities shall be debited to operational and distribution costs (Accts. 20,23,25,26,44) in correspondence with credit of the depreciation account (Acct. 02).

With regard to the fixed assets made available on a lease basis, the depreciation charges shall be credited to the depreciation account (Acct. 02) in correspondence with debit of the commercial lease-related expenses account (Accts. 90, 91).

8.11. Fixed assets as well as books and brochures with value not exceeding Rubles 10,000 per unit shall be charged to operational (distribution) costs by accruing depreciation at 100% as they are released in operation.

8.12. With regard to used fixed assets, the useful life is calculated as the difference between the useful life according to the Fixed Assets Classifier approved by Resolution of the RF Government dt. 01 January 2002 No. 1 for new assets, and the effective period of operation.

The useful life of a fixed asset shall be determined internally when the asset is recognized in the accounts. The useful life of a fixed asset is determined based on:

the expected life of the asset depending on the expected performance or output;

the expected physical wear and tear;

the statutory and other limitations on the use of this asset (such as the lease term).

8.13. Depreciation shall be charged continuously over the useful life of the fixed asset unless it is laid-up by decision of the chief executive officer for a period of more than three months and except for restoration periods of more than 12 months.

If the initially assessed performance parameters of an asset improve (increase) as the result of its restoration or modernization, the useful life of such asset shall be subject to reassessment.

8.14. To account for the disposal of fixed assets (sale, write-off, partial demolition, etc.), Subaccount 03 Disposals of Fixed Assets shall be opened within Account 01 Fixed Assets. The residual value of a fixed asset disposed of shall be transferred from Cr 01.03 to Dr 91 Other Income and Expenses.

Upon disposal of a fixed asset any additional value resulting from revaluation shall be transferred from the corporate capital surplus (Acct. 83) to retained earnings (Acct. 84).

8.15. Fixed assets repair-related expenses shall be included in the cost of sales as parts of appropriate cost elements without establishment of a repair provision.

9. Intangible assets

9.1. Intangible assets shall be accounted for in accordance with the Accounting Regulation 14/2000 approved by the RF Ministry of Finance dt. 16.10.2000 No. 91n.

Intangible assets shall include those meeting the following criteria:

absence of a physical structure,

possibility for the entity to identify (distinguish, separate) from other property,

fitness for use in the manufacturing of products, provision of work or services, or in connection with the entity's internal management needs,

fitness for use over long periods of time (i.e. with useful lives of over 12 months),

ability to earn economic benefits (income) for the entity in the future,

availability of properly executed documents confirming the existence of the asset itself and the entity's exclusive right to the results of intellectual activities (patents, certificates, other protections, etc.).

Intangible assets shall include the following items of intellectual property (exclusive rights to results of intellectual activities):

the exclusive right of the owner to the trademark,

the exclusive copyright to computer software and databases;

the exclusive right of the patent holder to the invention, industrial design, or model

the entity's goodwill,

organizational expenses (expenses related to the incorporation of the corporate entity that are recognized as a contribution towards the share/unit capital pursuant to the constitutive documents).

other assets pursuant to Accounting Regulation 14/2000.

9.2. Intangible assets shall be recognized in the accounts and the accounting statements at the total amounts of acquisition costs and expenses incurred to make them fit for their expected purpose.

The historical value of intangible assets shall be determined based on the following amounts:

paid pursuant to the terms and conditions of appropriate contracts;

paid to third parties for information and consulting services related to the acquisition of such intangible assets;

registration fees, customs and patent duties and other similar payments related to the acquisition of intangible assets;

non-recoverable taxes;

other expenses directly related to the acquisition of intangible assets.

The initial value of intangible assets received as contribution to the share capital shall be determined based on the assessment of their monetary value as agreed upon among the entity's incorporators (members), unless otherwise provided for by the RF laws.

The value at which the intangible assets were initially recognized in the accounts shall only be modified when so prescribed by the applicable RF laws.

9.3. The company shall apply the straight-line method to amortize the intangible assets based on their initial value and the amortization rates calculated depending on the estimated useful life of a particular asset.

9.4. The useful lives of intangible assets shall be determined internally when a particular asset is recognized in the accounts. The useful life of a trademark is determined based on the effective period of the appropriate certificate. Where it is impossible to determine the useful life of an intangible asset, the amortization rates are established based on a period of twenty years.

9.5. Intangible assets shall be amortized in the corporate accounts by crediting the amortization charges on Acct. 05 in correspondence with operational and distribution cost accounts.

9.6. To account for disposals of intangible assets (sale, write-off, partial liquidation and the like), Subaccount 02 Disposals of Intangible Assets shall be opened within Account 04 Intangible Assets. The value of the intangible asset disposed of shall be posted to the debit of this

account, with the amortization amount accumulated on Acct. 05 Amortization of Intangible Assets being transferred to the credit of the same subaccount. The residual value of the intangible asset disposed of shall be charged from Cr 04.02 to Dr 91 Other Income and Expenses.

10. Acquisition, preparation, and recording of inventories and their writedown.

10.1. Production inventories are accounted on the basis of Accounting Regulation PBU 5/01, Accounting of Inventories, approved by RF Ministry of Finance Order No. 44n of June 9, 2001.

Inventories include:

raw materials and consumables used in production, intended for sale, and used for management needs;

finished products (for accounting of release of finished products see section 13); goods.

10.2. Production inventories and goods are reflected in accounting records and reports at actual cost price.

10.3. Actual cost price is determined on the basis of costs for their acquisition:

amounts payable to the seller in accordance with a contract, excluding the value-added tax and other recoverable taxes;

amounts payable to organizations for informational and consulting services associated with the acquisition of inventories;

customs duties;

expenses related to procurement and transportation of inventories to the place of use thereof, including insurance costs;

fees payable to an intermediary organization through which the inventories were purchased;

unrecoverable taxes paid in connection with acquisition of production inventories;

other costs directly associated with acquisition.

10.4. Actual costs for acquisition of inventories are determined taking into account exchange-rate differences arising before inventories are accepted for accounting, in cases of payment in rubles of amounts denominated in a foreign currency (conventional monetary units). Exchange-rate differences that arise after inventories are accepted for accounting are reflected as non-operating expenses (income) on account 91, Other Income and Expenses.

10.5. The actual cost price of inventories received under contracts provided for performance of obligations (payment) in non-pecuniary means is deemed to be the value of the assets transferred or to be transferred by the organization. The value of assets transferred or to be transferred by the organization is determined on the basis of the price, at which the organization determines the value of similar assets. If this value cannot be established, the value of received inventories is determined based on the price of acquiring similar inventories.

10.6. The actual cost price, at which inventories are accepted for accounting, is not subject to change, except in the cases established by legislation of the Russian Federation.

10.7. When material resources are charged off to production or otherwise disposed of, their actual cost price is determined according to the average cost price per unit of each type.

10.8. The cost of materials, the title to which under the contract is transferred at the instant of shipment, as well as those which are still en route or at suppliers' warehouses at the end of the month, shall be debited to account 10, Materials, subaccount, Materials en route, title to which has been transferred, and credited to account 60, Settlements with suppliers and contractors, (without receiving these inventories at the warehouse)

using the prices specified in the contract and specifying their value later in compliance with the actual cost price.

10.9. When materials are disposed of (sale, write-off, gratuitous assignment, etc.), their value is debited to account 91, Other Income and Expenses, and credited to account 10, Materials.

10.10. Special clothes shall be accounted in compliance with the Regulations on Accounting of Special Clothes and Special Outfit.

11. Accounting of production costs, distribution of expenses and calculation of products cost price

11.1. For the purpose of accounting for the organization's production costs relating to ordinary activities, the chart of accounts provides the following accounts:

20, Primary production

25, Factory costs

26, General administrative expenses .

11.2. Direct costs of the organization related to ordinary activities are accumulated during the month in individual account 20, Primary Production, according to expense and calculation items.

11.3. The analytical accounting of account 20 accumulates expenses according to the organization's types of activities. Items of accounting expenses on providing trademarks for use are deemed the trademarks, while contracts are items of accounting under management, consulting or work performance, as well as other activities, contracts.

11.4. Wages and salaries debited to account 20 for ordinary activities are determined on the basis of the number of actual working hours. Amounts of wages and salaries are distributed by expense items within each activity pro rata to the revenues (less VAT and sales tax) for each item of expenses.

11.5. Amounts of traveling allowances for a business trip directly connected with performance of ordinary activities are direct expenses and are debited to account 20 for a particular activity and for a particular contract, expenses of which include such business trip.

11.6. Expenses, which at the moment of their arising cannot be attributed to concrete items of expenses, are reflected as a debit to account 25 Factory costs .

11.7. Factory costs are charged off to the primary production and distributed by activities and expense items pro rata to wages and salaries.

11.8. General (administrative) expenses are distributed among activities pro rata to revenues (less VAT and sales tax) from sale of products (works, services) received from various types of activities.

Revenues from sale (less VAT and sales tax) for each expense item are the basis for distributing such expenses among individual expense items.

11.9. General (administrative) expenses are charged to expenses, dealing with providing of services (debited to account 90) at the end of the reporting period.

11.10. The organization uses additional registers for the off-system accounting of aggregate expenses on operations VAT-taxable and non-taxable in compliance with the procedure of separate accounting of expenses approved by the organization.

12. Production in progress and release of rendered services.

12.1. The date of works performed and services rendered is the date of acceptance certificate of performed works (rendered services). Works and services, for which

acceptance certificates of performed works (rendered services) are not signed, are accounted as production in progress in account 20.

12.2. The date of recognizing income from providing trademarks for use under license agreements is deemed the last day of a month.

12.3. Production in progress is reflected on the balance sheet in the amount of direct costs.

12.4. Works commissioned and services rendered by the customer within a reporting period are credited from account 20 and debited to account 90.01, Sales , on the basis of acceptance certificate of performed works (rendered services).

13. Deferred expenses

13.1. Expenses incurred in a reporting period but relating to subsequent reporting periods are reflected in records and reports as deferred expenses and shall be assigned to costs (or to corresponding sources of the organization's funds) evenly throughout the period, to which they relate.

The deferred expenses include:

licenses to engage in certain types of activity that are discharged during the period of validity of the license;

expenses connected with acquiring financial investments and intangible assets before these assets are accepted for accounting;

expenses connected with designing new trademarks;

amounts of amortization of trademarks not used in the process of implementing activities;

other expenses related to future reporting periods.

13.2. Amounts of amortization accumulated in account 97 are charged off as current expenses of the reporting period evenly throughout 6 months beginning from the month following the month, during which the use of intangible assets began.

14. Sale expenses

14.1. Expenses connected with sale of works and services are reflected in account 44, Sale expenses . Such expenses include, in particular, expenses on registration of license agreements.

14.2. These expenses are recognized in full within the reporting period and are debited to account 90, Sales .

15. Other operating income and expenses

15.1. Other income and expenses of the organization are recognized in accounting records in accordance with accounting regulations PBU 9/99 and PBU 10/99 and reflected in account 91, Other Income and Expenses.

15.2. Penalties and fines for violation of contract terms and conditions are recognized in accounting in the same reporting period, during which the court awarded a judgment on their recovery or the organization was adjudged a debtor.

15.3. Direct expenses connected with giving loans to other organizations are reflected as a debit to account 91 as operating income (paragraph 35 of PBU 19/02).

15.4. Interest received from giving organization's funds as loans are reflected as a credit to account 91 as other operating income (paragraph 7 of PBU 9/99).

16. Capital and reserves

16.1. The charter capital is recognized in accounting records as the amount recorded in the organization's foundation documents as the totality of contributions (interests, shares at par value, share contributions) of the founders (participants) of the organization.

16.2. Duly conducted revaluation increases of the organization's non-current assets are recorded as revaluation surplus.

16.3. The difference between the sale value and par value of shares generated in the process of establishing or increasing the charter capital is recognized in accounting as the issue income within the additional capital.

16.4. Assets received gratuitously, including under a contract of donation, are recorded as deferred income and reflected as a credit to account 98, Deferred Income, in correspondence with account 08, Investments in non-current assets. Depreciation of gratuitously received fixed assets is credited to account 02, Amortization of Fixed Assets, in correspondence with accounts for production expenses and distribution costs. Simultaneously with depreciation, amounts recorded on account 98 in respect of gratuitously received assets are credited to account 91, Other income and expenses.

16.5. To provide for uniform allocation of expenses to the cost of sales, the company establishes a provision against anticipated annual leaves-related expenses and payments. The provision is recognized by posting Cr Acct. 96 Provisions Against Anticipated Expenses in correspondence with operational and distribution cost accounts.

17. Accounting of Property Insurance Costs

17.1. The organization may make expenses on voluntary property insurance and medical insurance of its employees.

17.2. The above payments are included in full in the products cost price.

17.3. The amounts of insurance premiums are reflected as a credit to account 76/1, Payments for property and personal insurance , in correspondence with production costs accounts 20, 25, 26, etc.

17.4. The above amounts of paid insurance premiums are written off from credit of monetary assets accounts (51, 52 and 50) and debited to account 76/1.

17.5. Losses of insured inventories are written off from credit of accounts 10, 12, 40, etc. and debited to account 76/1.

17.6. Amounts of insurance money received by the organization from insurance companies are reflected as a debit to monetary assets accounts (51, 52, 50, and 55) and as a credit to account 76/1.

17.7. Losses from insured accidents, which are not compensated by insurance money, are entered as a debit to account 99, Profits and losses , from credit of account 76/1.

17.8. Analytical accounting of account 76/1 is broken down by individual insurance companies and individual insurance contracts.

18. Accounting of profit (loss), funds, and use of profits

18.1. Profit (loss) represents the final financial result (profit or loss) identified for the reporting period on the basis of accounting of all business operations of the organization and is reflected in account 99, Profits and losses.

The final financial result is formed from the financial outcome of ordinary activities, as well as other income and expenses, including extraordinary income and expenses. Organization s losses (losses and expenses) are reflected as a debit, and profits (income) as a credit, to account 99.

18.2. At the end of the reporting year, in the preparation of the annual financial statements, account 99, Profits and Losses, is closed with a final December entry credited (or debited) to account 84, Retained Profit (Uncovered Losses) of the Reporting Year.

18.3. Profits or losses identified in the reporting year but relating to operations of past years are included in the financial results of the reporting year.

18.4. Income received in the reporting year but relating to subsequent reporting periods is reflected in accounting records and reports as a separate line in account 98, Deferred Income. Such income is subsequently assigned to financial results upon the occurrence of accounting period, to which it relates.

18.5. Profits remaining at the disposal of the enterprise are distributed in accordance with a resolution of the general shareholders meeting.

19. Accounting for exchange differences and differences in total amounts.

19.1. Positive and negative exchange differences arising due to changes of official exchange rates of foreign currencies to Russian Ruble over the reporting year shall be

accounted for as part of extra-sale income and expenses at Account 91 titled Other Income and Expenses .

19.2. Differences in total amounts arising in the course of reflecting organization's income (revenue) gained within the period for which the revenue is reflected, shall be accounted for as part of the revenue.

19.3. In the event the differences in total amounts have arisen in the year following the one for which the income (revenue) have been reflected, such differences shall be classified as extra-sale income (expenses) of the current period.

19.4. Differences in total amounts having arisen for operations pertaining to purchase of fixed assets and inventory items and to financial investments after acceptance of these assets for accounting, shall be classified as extra-sale income (expenses).

20. Assessment of indebtedness relating to loans received.

20.1. Accounting of indebtedness pertaining to received loans shall be performed in accordance with the Accounting Regulation titled Accounting of Loans and Credits and Costs of Their Servicing (PBU 15/01), approved by the Order No. 60n as of August 02, 2001, issued by the RF Ministry of Finance.

20.2. Borrowed funds, the period for repaying which under a loan or credit agreement exceeds 12 months, shall be accounted for until the expiry of the aforesaid period, as part of long-term indebtedness, or, in other words, long-term indebtedness shall not be converted into short-term one.

20.3. Additional costs relating to receipt of loans and credits, allocation of borrowed funds, shall be accounted for as part of operating expenses of the reporting period during which they have been incurred.

20.4. Organization's liabilities to banks and other organizations shall be assessed taking into account interest having accrued thereon. Interest shall be reflected in the accounting in accordance with PBU 15/01. Accrued interest amounts, credits and loans not having been repaid in proper time, shall be accounted for separately.

21. Introducing amendments and addenda to the accounting policy.

21.1. Changes to the accounting policy may be introduced in the following cases:

Reorganization of enterprise;

Change of enterprise owners;

Changes in regulatory basis or in legislation on accounting;

Elaboration of new methods of record-keeping (either by Ministry of Finance, or by the enterprise itself);

New material changes in enterprise operating conditions;

As well as in other cases stipulated by the Law on Accounting.

21.2. In order to ensure comparability, any changes in accounting policy shall be introduced at the beginning of a new fiscal year. Exceptions are possible if regulations on book-keeping and accounting introduce new norms and standards ex post facto.

Chief Accountant

Ye.Ye. Laryushkina
