# Notes to Statements of Revenue and Certain Expenses as of December 31, 2002

| Note 1 | 1 B | usiness |
|--------|-----|---------|
| 11016  | L D | usincss |

The accompanying statements of revenue and certain expenses reflects the operations of the Plainfield Distribution Facility (the Property) for the nine months ended September 30, 2003 (unaudited) and for the year ended December 31, 2002. The Property was acquired by Dividend Capital Trust Inc. and subsidiary (the Company) on December 22, 2003 for a purchase price of approximately \$15.1 million.

#### Note 2 Basis of Presentation

The accompanying statements of revenue and certain expenses has been prepared for the purpose of complying with Rule 3-14 of the Securities and Exchange Commission Regulation S-X and for inclusion in the Current Report on Form 8-K/A of Dividend Capital Trust Inc. and is not intended to be a complete presentation of the Property s revenues and expenses.

The accompanying statements of revenue and certain expenses was prepared in accordance with accounting principles generally accepted in the United States of America pursuant to the rules and regulations of the Securities and Exchange Commission. These financial statements exclude certain expenses such as mortgage interest, depreciation and amortization, professional fees and other costs not directly related to future operations of the Property.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Interim Information (unaudited)

In the opinion of management, the unaudited information as of September 30, 2003 included herein contains all the adjustments necessary, which are of a normal recurring nature, to present fairly the revenue and certain expenses for the nine months ended September 30, 2003. Results of interim periods are not necessarily indicative of results to be expected for the year. Management is not aware of any material factors that would cause the information included herein to not be indicative of future operating results.

#### **Note 3 Operating Leases**

The Property s revenue is obtained from tenant rental payments as provided for under non-cancelable operating leases. The Property is currently net leased to two tenants. Net means that the tenants are responsible for repairs, maintenance, property taxes, utilities, insurance and other operating costs while we as landlord, have responsibility for capital repairs or replacement of specific structural components of a property such as the roof of the building, the truck court and parking areas, as well as the interior floor or slab of the building. The Property records rental revenue for the full term of the lease on a straight-line basis. In this case, where the minimum rental payments increase over the life of the lease, the Property records a receivable due from tenants for the difference between the amount of revenue recorded and the amount of cash received. This accounting treatment resulted in an increase in rental revenue of \$22,539 and \$27,579 for the periods ended September 30, 2003 and December 31, 2002, respectively.

Future minimum rental payments due under the leases, excluding tenant reimbursements of operating expenses, as of December 31, 2002, were as follows:

| Year Ending December 31: |                  |
|--------------------------|------------------|
| 2003                     | \$<br>1,127,012  |

| Total                    | \$<br>10,011,828 |

Tenant reimbursements of operating expenses are included in other revenue on the accompanying statements of revenue and certain expenses.

As of December 31, 2002, the Property was 68.3% leased to two tenants, DDD Company and Puritan Bennett. The following table describes these tenants and terms of their respective lease agreements.
