PIK Payment In Kind.

(1) Senior floating-rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years.

(2) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.

(3) A portion of this security is on loan at July 31, 2004.

(4) Security exempt from registration under Rule 144A of the Securities Act of 1933. These securities may be sold in transactions exempt from registration, normally to qualified institutional buyers. At July 31, 2004 the aggregate value of the securities is \$251,711,201 or 12.0% of the net assets.
