-

Item 1.01 Entry into a Material Definitive Agreement.

On December 7, 2004, Key Energy Services, Inc., a Maryland corporation (the "Company") entered into an Asset Purchase Agreement (the "Purchase Agreement") by and among, Key Energy Drilling, Inc., a Delaware corporation, Key Energy Drilling Beneficial, L.P., a Texas limited partnership, Key Rocky Mountain, Inc., a Delaware corporation, Key Four Corners, Inc., a Delaware corporation (collectively the "Sellers"), and the Company and Patterson-UTI Drilling Company LP, LLLP ("Patterson") and Patterson-UTI Energy, Inc. to divest portions of the Company's U.S. land drilling operations. Pursuant to the terms of the Purchase Agreement, the Sellers will sell to Patterson all assets used in the Company's land drilling operations, including stacked rigs, heavy haul transport vehicles, and other related drilling equipment. The purchase price of \$62 million will be paid in cash at closing. In addition, the Company will retain working capital.

The closing of the Purchase Agreement transaction is subject to the expiration or early termination of the waiting period under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, as amended, and the satisfaction of other customary closing conditions.

On December 8, 2004, the Company issued a press release announcing the signing of the Purchase Agreement, a copy of which is attached to this Current Report on Form 8-K as Exhibit 99.1 and is incorporated by reference.

Item 2.05 Costs associated with Exit or Disposal Activities.

The information contained in Item 1.01 above is hereby incorporated by reference.

(a) A final determination to dispose of the Company's contract drilling business on the terms and conditions set forth in the Purchase Agreement was made by the Board of Directors of the Company (the "Board") on December 6, 2004. On November 29, 2004, the Board tentatively approved disposition of the contract drilling business based on the final bids that had been received from the auction process, subject to final board approval of the terms. The Board had previously discussed with management on September 16, 2004 the need to ascertain whether the market was feasible for the disposition of the contract drilling business. The primary reasons for the disposition of the contract drilling business were that (i) the Company was a relatively small player in a consolidating market, (ii) the contract drilling business was not the Company's core business, (iii) the age and type of drilling rigs required substantial additional capital expenditures to operate, and (iv) historical financial and safety performance had been below that of core business. The Company anticipates the closing of the transaction to occur before December 31, 2004, subject to expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvement Act of 1976, as amended.

(b) The Company expects to incur the following costs in connection with the disposition, all of which will be expected in cash and will be taken as charges under generally accepted accounting principles.

Contract Termination Costs and Retention Bonuses	\$	485,000
Commissions on Disposition		1,187,000
Payment of Operating Leases		1,734,000
Legal and other costs		300,000
Total:	\$	3,779,000

(c) The Company expects that the total amount to be incurred in connection with the disposition will be \$3,706,000.

(d) The Company expects that the amount of the charge that will result in future cash expenditures will be \$3,631,000.

Item 2.06 Material Impairments

The information contained in Item 1.01 and Item 2.05 above are hereby incorporated by reference.

(a) The Board of Directors concluded that a material charge would be required on December 6, 2004, the date in which the board made a final determination to dispose of the Company's contract drilling business on the terms and conditions set forth in the Purchase Agreement.

The Board of Directors concluded that the charge for impairment would be required upon the determination that: (i) the sale was probable and (ii) the expected loss on the sale of the assets would be in excess of any impairment to be determined in the conclusion of the Company's restatement process. The information herein represents an estimate of the aggregate loss that will be incurred in the disposition of the contract drilling business, which includes \$1,734,000 of operating lease vehicles to be purchased by the Company. Until the restatement of the Company's prior year financial statements is completed, the portions of the estimated total loss attributable to the restatement write-down versus the estimated loss on sale will not be known.

(b) The Company estimates that it will record a charge of approximately \$30,000,000

(c) Future cash expenditures are identified in Item 2.05(d).

Item 9.01 Financial Statements and Exhibits.

(a) Financial Statements of business acquired.

None.

(b) Pro Forma Financial Information.

None.

(c) Exhibits.

99.1 Press Release of the Company dated December 8, 2004.

99.2 Press Release of the Company dated December 13, 2004.

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
