TF FINANCIAL CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - PRINCIPLES OF CONSOLIDATION

The consolidated financial statements as of March 31, 2005 (unaudited) and December 31, 2004 and for the three-month periods ended March 31, 2005 and 2004 (unaudited) include the accounts of TF Financial Corporation (the Company) and its wholly owned subsidiaries Third Federal Bank (the Bank), TF Investments Corporation and Penns Trail Development Corporation. The Company s business is conducted principally through the Bank. All significant intercompany accounts and transactions have been eliminated in consolidation.

NOTE 2 - BASIS OF PRESENTATION

The accompanying unaudited consolidated financial statements were prepared in accordance with instructions for Form 10-Q and, therefore, do not include all of the disclosures or footnotes required by accounting principles generally accepted in the United States of America. In the opinion of management, all adjustments, consisting of normal recurring accruals, necessary for fair presentation of the consolidated financial statements have been included. The results of operations for the period ended March 31, 2005 are not necessarily indicative of the results which may be expected for the entire fiscal year or any other period. For further information, refer to consolidated financial statements and footnotes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended December 31, 2004.

NOTE 3 CONTINGENCIES

The Company, from time to time, is a party to routine litigation that arises in the normal course of business. In the opinion of management, the resolution of this litigation, if any, would not have a material adverse effect on the Company s consolidated financial position or results of operations.

NOTE 4 - OTHER COMPREHENSIVE INCOME (LOSS)

The Company s other comprehensive income (loss) consists of net unrealized gains (losses) on investment securities and mortgage-backed securities available for sale. Total comprehensive income for the three-month periods ended March 31, 2005 and 2004 was \$369,000 and \$2,408,000, net of applicable income tax expense(benefit) of \$(34,000) and \$1,023,000, respectively.

NOTE 5 EARNINGS PER SHARE

The following tables illustrate the reconciliation of the numerators and denominators of the basic and diluted earnings per share computations (dollars in thousands, except per share data):

There were options to purchase 32,248 shares of common stock at a price of \$34.14 per share which were outstanding during the first quarter of 2004 that were not included in the computation of diluted earnings per share because the options exercise prices were greater than the average market price of the common shares.

NOTE 6- STOCK BASED COMPENSATION

The Company has two fixed stock option plans. The Company s employee stock option plans are accounted for using the intrinsic value method under APB Opinion No. 25, as permitted by SFAS No. 123. No stock-based compensation expense is reflected in net income, as all options granted under the plans had an exercise price equal to the market value of the underlying common stock on the date of the grant.

Had compensation cost for the plans been determined based on the fair value of options at the grant dates consistent with the method of SFAS No. 123, Accounting for Stock-Based Compensation, the Company s net income and earnings per share would have been reduced to the pro forma amounts indicated below (in thousands, except per share data):

	Three months ended March 31				
		2005		2004

Pro forma	\$	0.52	\$	0.57	

Stock-based compensation expense included in net income is related to stock grants in lieu of salary and the Company s employee stock ownership plan. Such expense totaled \$108,000 and \$121,000 for the three-month periods ended March 31, 2005 and 2004, respectively.

On April 27, 2005, the Company s shareholders approved the 2005 Stock-Based Incentive Plan (the 2005 Plan) which provides for grants of stock options an/or restricted stock aggregating up to 240,000 shares of the Company s common stock, with a maximum of 40,000 shares of restricted stock. No grants may be issued from the 2005 Plan prior to June 1, 2005.

NOTE 8- RECLASSIFICATIONS

Certain prior year amounts have been reclassified to conform to the current period presentation.

TF FINANCIAL CORPORATION AND SUBSIDIARIES

MANAGEMENT S DISCUSSION AND ANALYSIS OF

FINANCIAL POSITION AND RESULTS OF OPERATIONS

GENERAL

The Company may from time to time make written or oral forward-looking statements , including statements contained in the Company s filings with the Securities and Exchange Commission (including this Quarterly Report on Form 10-Q and the exhibits thereto), in its reports to stockholders and in other communications by the Company, which are made in good faith by the Company pursuant to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995.

These forward-looking statements involve risks and uncertainties, such as statements of the Company s plans, objectives, expectations, estimates and intentions that are subject to change based on various important factors (some of which are beyond the Company s control). The following factors, among others, could cause the Company s financial performance to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements: the strength of the United States economy in general and the strength of the local economies in which the Company conducts operations; the effects of, and changes in, trade, monetary and fiscal policies and laws, including interest rate policies of the Board of Governors of the Federal Reserve System, inflation, interest rate, market and monetary fluctuations; the timely development of and acceptance of new products and services of the Company and the perceived overall value of these products and services by users, including the features, pricing and quality compared to competitors products and services; the willingness of users to substitute competitors products and services for the Company s products and services, when required; the impact of changes in financial services laws and regulations (including laws concerning taxes, banking, securities and insurance); technological changes, acquisitions; changes in consumer spending and saving habits; and the success of the Company at managing the risks involved in the foregoing.

The Company cautions that the foregoing list of important factors is not exclusive. The Company does not undertake to update any forward-looking statement, whether written or oral, that may be made from time to time by or on behalf of the Company.

Financial Position

The Company s total assets at March 31, 2005 and December 31, 2004 were \$640.5 million and \$629.0 million, respectively, an increase of \$11.5 million, or 1.8%, during the three-month period. Cash and cash equivalents decreased by \$3.2 million. Investment securities available for sale increased by \$2.6 million due to purchases of \$3.0 million of tax free municipal bonds and a \$0.4 million reduction in the market value of investment securities available for sale. Investment securities held to maturity decreased by \$0.2 million due to amortization of net premiums on the securities. Mortgage-backed securities available for sale decreased by \$0.1 million as \$9.0 million of security purchases was off-set by \$7.6 million in principal pay-downs received as well as a decrease in the market value of these securities totaling \$1.3 million. Mortgage-backed securities held to maturity decreased by \$0.9 million as a result of principal repayments. Loans receivable increased by \$12.2 million for the first quarter of 2005. Consumer and single-family residential mortgage loans of \$21.6 million and commercial loans of \$14.9 million were originated during the first quarter of 2005. Proceeds from the sale of loans in the secondary market were \$3.3 million during the three-month period. In addition, principal repayments of loans receivable were \$20.9 million in the first quarter of 2005.

Total liabilities increased by \$11.8 million. Deposit balances declined by \$5.0 million during the first three months of 2005. Non-interest bearing demand deposits grew by \$1.7 million while savings, money market, and interest-bearing checking accounts decreased by a combined \$8.7 million. Certificates of deposit increased by \$2.0 million. Advances from the Federal Home Loan Bank increased by \$16.6 million due to an \$11.3 million increase in long-term fixed rate advances and \$8.9 million of short-term advances, less scheduled amortization payments of \$3.6 million. These borrowings were mainly used to fund loan portfolio growth and deposit outflows that occurred during the quarter.

Total consolidated stockholders equity of the Company was \$60.9 million or 9.50% of total assets at March 31, 2005. During the first quarter of 2005 the Company repurchased 26,237 shares of its common stock and issued 32,446 shares pursuant to the exercise of stock options. As of March 31, 2005, there were approximately 101,000 shares available for repurchase under the previously announced share repurchase plan.

Asset Quality

Asset Quality 19

During the first quarter of 2005 and 2004, the Company s provision for loan losses was \$150,000. As of March 31, 2005, the Company owned one parcel of foreclosed real estate. This parcel has been recorded as real estate owned at the lower of the recorded investment in the loan or estimated fair value in the amount of \$0.7 million and is included in other assets in the statement of financial position at March 31, 2005. Management of the Company believes that there has not been any significant deterioration in its asset quality during such period.

The following table sets forth information regarding the Company s asset quality (dollars in thousands):

	,	mber 31, M 004	Iarch 31, 2004
Non-performing loans	\$ 727 \$	960 \$	2,710
Ratio of non-performing loans to gross loans	0.16%	0.22%	0.64%
Ratio of non-performing loans to total assets	0.11%	0.15%	0.44%

Foreclosed property to total assets	0.11%	0.11%	0.14%
Ratio of total non-performing assets to total assets	0.22%	0.26%	0.58%

Management maintains an allowance for loan losses at levels that are believed to be adequate; however, there can be no assurances that further additions will not be necessary or that losses inherent in the existing loan portfolio will not exceed the allowance. The following table sets forth the activity in the allowance for loan losses during the periods indicated (in thousands):

RESULTS OF OPERATIONS FOR THE THREE MONTHS ENDED MARCH 31, 2005 AND 2004

Net Income. The Company recorded a net income of \$1,476,000, or \$0.52 per diluted share, for the three months ended March 31, 2005 as compared to net income of \$1,609,000, or \$0.57 per diluted share, for the three months ended March 31, 2004.

Average Balance Sheet

The following table sets forth information relating to the Company s average balance sheet and reflects the average yield on assets and average cost of liabilities for the periods indicated. Yield and cost are computed by dividing income or expense by the average daily balance of interest-earning assets or interest-bearing liabilities, respectively, at-or for the three month periods indicated.

⁽¹⁾ Nonaccrual loans have been included in the appropriate average loan balance category, but interest on nonaccrual loans has not been included for purposes of determining interest income.

⁽²⁾ Tax equivalent adjustments to interest on investment securities were \$66,000 and \$48,000 for the quarters ended March 31, 2005 and 2004, respectively. Tax equivalent interest income is based upon a marginal effective tax rate of 34%.

⁽³⁾ Includes interest-bearing deposits in other banks.

⁽⁴⁾ Interest rate spread represents the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities.

⁽⁵⁾ Net yield on interest-earning assets represents net interest income as a percentage of average interest-earning assets.

Rate/Volume Analysis

The following table presents, for the periods indicated, the change in interest income and interest expense (in thousands) attributed to (i) changes in volume (changes in the weighted average balance of the total interest earning asset and interest bearing liability portfolios multiplied by the prior year rate), and (ii) changes in rate (changes in rate multiplied by prior year volume). Changes attributable to the combined impact of volume and rate have been allocated proportionately based on the absolute value of changes due to volume and changes due to rate.

⁽¹⁾ Tax equivalent adjustments to interest on investment securities were \$66,000 and \$48,000 for the quarters ended March 31, 2005 and 2004, respectively. Tax equivalent interest income is based upon a marginal effective tax rate of 34%.

Total Interest Income. Total interest income, on a taxable equivalent basis, increased by \$0.4 million or 5.0% to \$8.2 million for the quarter ended March 31, 2005 compared with the first quarter of 2004 primarily because of a \$35.6 million increase in average loans outstanding. Interest income from mortgage-backed securities was lower in the first three months of 2005 in comparison to the same period of 2004. This decrease is consistent with the reduction of balances maintained in mortgage-backed securities.

Total Interest Expense. Total interest expense increased by \$0.3 million to \$2.5 million during the three-month period ended March 31, 2005 as compared with the first quarter of 2004. The decrease in the average balance of deposits was more than offset by an increase in interest rates on Bank s savings and passbook accounts in order to remain in line with short-term market interest rates and the Bank s competitors. Increases in the advances from the Federal Home Loan Bank during 2004 and the first quarter of 2005 is the primary cause for the increase in interest expense between the two quarters.

Non-interest income. Total non-interest income was \$662,000 for the three-month period ended March 31, 2005 compared with \$709,000 for the same period in 2004. The decrease was due to a reduction of \$48,000 in loan

prepayment fees and mortgage brokered fees collected in the first quarter of 2005 versus the same quarter of 2004. Retail banking fees were \$29,000 less between the two periods due to a decrease in demand deposit account fees. In contrast, during the first quarter of 2005 net gain on the sale of loans totaled \$22,000 while there was no such gains during the first three months of 2004.

Non-interest expense. Total non-interest expense increased by \$214,000 to \$4.1 million for the three months ended March 31, 2005 compared to the same period in 2004. Compensation and benefit expenses were higher by \$117,000 mainly due to additional staffing as well as salary increases. Office and occupancy costs rose \$66,000 between the two quarters due to \$20,000 of greater office maintenance costs, \$14,000 of additional space leased during the second quarter of 2004 for deposit services support, annual rent increases, and additional security guard services. Professional expenses of the Company were \$20,000 higher mainly because of IT compliance and audit work.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity

The Company s liquidity is a measure of its ability to fund loans, pay withdrawals of deposits, and other cash outflows in an efficient, cost-effective manner. The Company s short-term sources of liquidity include maturity, repayment and sales of assets, excess cash and cash equivalents, new deposits, broker deposits, other borrowings, and new advances from the Federal Home Loan Bank. There has been no material adverse change during three-month period ended March 31, 2005 in the ability of the Company and its subsidiaries to fund their operations.

At March 31, 2005, the Company had commitments outstanding under letters of credit of \$1.3 million, commitments to originate loans of \$41.6 million, and commitments to fund undisbursed balances of closed loans and unused lines of credit of \$57.2 million. There has been no material change during the three months ended March 31, 2005 in any of the Company s other contractual obligations or commitments to make future payments.

Capital Requirements

The Bank was in compliance with all of its capital requirements as of March 31, 2005.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Asset and Liability Management

The Company s market risk exposure is predominately caused by interest rate risk, which is defined as the sensitivity of the Company s current and future earnings, the values of its assets and liabilities, and the value of its capital to changes in the level of market interest rates.

Management of the Company believes that there has not been a material adverse change in market risk during the three months ended March 31, 2005.

CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Based on their evaluation of the Company s disclosure controls and procedures (as defined in Rule 13a-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)), the Company s principal executive officer and principal financial officer have concluded that as of the end of the period covered by this Quarterly Report on Form 10-Q such disclosure controls and procedures are effective to ensure that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

Changes in Internal Controls over Financial Reporting

During the quarter under report, there was no change in the Company s internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, the Company s internal control over financial reporting.

CRITICAL ACCOUNTING POLICIES

Certain critical accounting policies of the Company require the use of significant judgment and accounting estimates in the preparation of the consolidated financial statements and related data of the Company. These accounting estimates require management to make assumptions about matters that are highly uncertain at the time the accounting estimate is made. Management believes that the most critical accounting policy requiring the use of accounting estimates and judgment is the determination of the allowance for loan losses. If the financial position of a significant amount of debtors should deteriorate more than the Company has estimated, present reserves for loan losses may be insufficient and additional provisions for loan losses may be required. The allowance for loan losses was \$2,221,000 at March 31, 2005.

NEW ACCOUNTING PRONOUNCEMENTS

On December 16, 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 123(R) (SFAS 123 R), Share-Based Payment. This statement establishes standards for the accounting for transactions in which the entity exchanges its equity instruments in exchange for goods and services and addresses transactions in which an entity incurs liabilities in exchange for goods and services that are based on the fair value of the entity s equity instruments or that may be settled by the issuance of those equity instruments. SFAS123(R) focuses primarily on accounting for transactions in which an entity obtains employee services in share-based payment transactions. Under SFAS123(R), all forms of share-based payments to employees, including employee stock options, will be treated the same as other forms of compensation by recognizing the related cost in the income statement. The expense of the award will generally be measured at fair value at the grant date. The grant-date fair value of employee share options and similar instruments will be estimated using option pricing models. Current accounting guidance requires that the expense relating to so-called fixed plan employee stock options only be disclosed in the footnotes to the financial statements. In April 2005, the Securities and Exchange Commission adopted a new rule amending Regulation S-X to amend the date for compliance with SFAS123(R). Under SFAS123(R), registrants would have been required to apply the provisions of SFAS123(R) as of the first interim of annual reporting period that begins after June 15, 2005 or after December 15, 2005 for small business issuers. The Commission s new rule allows registrants to implement SFAS123(R) at the beginning of their next fiscal year that begins after June 15, 2005 or after December 15, 2005 for small business issuers.

In March 2005 the FASB issued Interpretation No. 47, Accounting for Conditional Asset Retirement Obligations (FIN 47). FIN 47 requires an entity to recognize a liability for the fair value of a legal obligation to perform asset-retirement activities that are conditional on a future event if the amount can be reasonably estimated. The Interpretation provides guidance to evaluate whether fair value is reasonably estimable. FIN 47 is effective no later than the end of fiscal years ending after December 15, 2005. FIN 47 is not expected to have a material impact on the Company s financial position or results of operations.
