**Real Property Investments**

*The discussion under this section, which starts on page 110 of our prospectus, is modified and supplemented by the following information regarding properties we have acquired or intend to acquire.*

### Potential Property Acquisitions

We are currently considering acquiring the property listed below. Our decision to acquire this property will generally depend upon:

no material adverse change occurring relating to the underlying property, the tenants or in the local economic conditions;

our receipts of sufficient net proceeds from our offering and financing proceeds to make this acquisition; and

our receipt of satisfactory due diligence information including appraisal, environmental reports and lease information.

Other properties may be identified in the future that we may acquire before or instead of this underlying property. We cannot guarantee that we will complete this acquisition.

In evaluating this property as a potential acquisition and determining the appropriate amount of consideration to be paid for this property, we have considered a variety of factors including, overall valuation of net rental income, location, demographics, quality of tenants, length of leases, price per square foot, occupancy and the fact that overall rental rate at the shopping center is comparable to market rates. We believe that this property is well located, have acceptable roadway access, is well maintained and have been professionally managed. This property will be subject to competition from similar shopping centers within their market area, and their economic performance could be affected by changes in local economic conditions. We did not consider any other factors materially relevant to our decision to acquire this property.
