Packaging Corporation of America Notes to Condensed Consolidated Financial Statements (unaudited) March 31, 2007

1. Basis of Presentation

The condensed consolidated financial statements as of March 31, 2007 and 2006 of Packaging Corporation of America (PCA or the Company) and for the three month periods then ended are unaudited but include all adjustments (consisting only of normal recurring adjustments) that management considers necessary for a fair presentation of such financial statements. These financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with Article 10 of SEC Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for the period ended March 31, 2007 are not necessarily indicative of the results that may be expected for the period ending December 31, 2007. These condensed consolidated financial statements should be read in conjunction with PCA s Annual Report on Form 10-K for the year ended December 31, 2006. The condensed consolidated financial statements as of March 31, 2006 have been restated for the adoption of FASB Staff Position (FSP) No. AUG AIR-1, Accounting for Planned Major Maintenance Activities. The Company adopted this FSP on January 1, 2007, which required prior year financial statements to be restated to account for the impact of this FSP as if it had been adopted on January 1, 2006. See Note 2, Summary of Accounting Policies Recent Accounting Pronouncements for additional information.

2. Summary of Accounting Policies

Basis of Consolidation

The accompanying condensed consolidated financial statements of PCA include all majority-owned subsidiaries. All intercompany transactions have been eliminated. The Company has one joint venture that is accounted for under the equity method.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts in the financial statements and the accompanying notes. Actual results could differ from those estimates.

Revenue Recognition

The Company recognizes revenue as title to the products is transferred to customers. Shipping and handling billings to a customer are included in net sales. Shipping and handling costs are included in cost of sales. In addition, the Company offers volume rebates to certain of its customers. The total cost of these programs is estimated and accrued as a reduction to net sales at the time of the respective sale.

Segment Information

PCA is engaged in one line of business: the integrated manufacture and sale of packaging materials, boxes and containers for industrial and consumer markets. No single customer accounts for more than 10% of total net sales.

Recent Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an Amendment of FASB Statement No. 115. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value. Most of the provisions of SFAS No. 159 apply only to entities that elect the fair value option. However, the amendments to SFAS No. 115, Accounting for Certain Investments In Debt and Equity Securities, apply to all entities with available-for-sale and trading securities. SFAS No. 159 is effective as of the beginning of an entity s first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided that an entity also elects to apply the provisions of SFAS No. 157, Fair Value Measurements. The Company is assessing SFAS No. 159 and has not yet determined the impact that the adoption of SFAS No. 159 will have on its results of operations.

In September 2006, the FASB issued SFAS No. 158, Employers Accounting for Defined Benefit Pension and Other Postretirement Plans an amendment of FASB Statements No. 87, 88, 106 and 132(R). SFAS No. 158 requires plan sponsors of defined benefit pension and other postretirement benefit plans (collectively, postretirement benefit plans) to recognize the funded status of their postretirement benefit plans in the statement of financial position, measure the fair value of plan assets and benefit obligations as of the date of the fiscal year end statement of financial position, and provide additional disclosures. These requirements were effective for fiscal years ending after December 15, 2006, with the exception of the requirement to measure plan assets and benefit obligations as of the plan sponsor s fiscal year-end. This requirement is effective for fiscal years ending after December 15, 2008. On December 31, 2006, the Company adopted the recognition and disclosure provisions of SFAS No. 158. The Company is assessing the remaining provision of SFAS No. 158 to determine the impact that the adoption of those provisions may have on its results of operations.

Packaging Corporation of America Notes to Condensed Consolidated Financial Statements (Continued) (unaudited) March 31, 2007

2. Summary of Accounting Policies (Continued)

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements. SFAS No. 157 clarifies the principle that fair value should be based on the assumptions market participants would use when pricing an asset or liability and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. Under the standard, fair value measurements would be separately disclosed by level within the fair value hierarchy. This statement is effective for fiscal years beginning after November 15, 2007. The Company is assessing SFAS No. 157 and has not yet determined the impact that the adoption of SFAS No. 157 will have on its results of operations.

In September 2006, the FASB issued FSP No. AUG AIR-1, Accounting for Planned Major Maintenance Activities. This FSP prohibits the use of the accrue-in-advance method of accounting for planned major maintenance activities in annual and interim financial reporting periods and is effective for fiscal years beginning after December 15, 2006. Prior to the adoption of this FSP, the Company determined its planned maintenance costs for the year and amortized these costs ratably throughout the year. On January 1, 2007, the Company began accounting for its planned major maintenance activities in accordance with FSP No. AUG AIR-1 using the deferral method. The implementation of FSP No. AUG AIR-1 will not have any impact on the Company s year end financial position or full year results of operations and cash flows as all maintenance costs incurred have been and continue to be expensed in the fiscal year in which the maintenance activity occurs. In accordance with FSP No. AUG AIR-1, the Company s financial position, results of operations and cash flows for each quarter of 2006 were adjusted to apply the FSP retrospectively. The following financial statement line items as of and for the three month period ended March 31, 2006 were adjusted as follows:

In June 2006, the FASB issued FASB Interpretation (FIN) No. 48, Accounting for Uncertainty in Income Taxes, an interpretation of SFAS No. 109, Accounting for Income Taxes, to create a single model to address accounting for uncertainty in tax positions. FIN No. 48 clarifies the accounting for income taxes by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the financial statements. FIN No. 48 also provides guidance on derecognition, measurement, classification, interest and penalties, accounting in interim periods, disclosure, and transition. FIN No. 48 is effective for fiscal years beginning after December 15, 2006. The Company adopted FIN No. 48 on January 1, 2007

As a result of the implementation of FIN No. 48, PCA recognized a \$5.1 million decrease to reserves for uncertain tax positions and an increase to the beginning balance of retained earnings on the condensed consolidated balance sheet. After adoption on January 1, 2007, the Company had \$9.1 million total gross unrecognized tax benefits. Of this total, \$7.1 million (net of the federal benefit on state issues and interest) would impact its effective tax rate if recognized. At March 31, 2007, PCA had \$7.5 million of unrecognized tax benefits.

PCA s continuing practice is to recognize interest and penalties related to uncertain tax positions in income tax expense. After adoption of FIN No. 48 on January 1, 2007, the Company had \$0.6 million accrued for interest and no reserve for penalties. During the first quarter of 2007, PCA recorded \$0.1 million for interest in its statement of operations, increasing the accrual for interest to \$0.7 million at March 31, 2007.

PCA and its subsidiaries are subject to U.S. federal income taxes, as well as income taxes of multiple state and city jurisdictions. The federal income tax return for 2004 is currently under examination, and a federal examination of the tax year 2002 has been concluded. The tax years 2001 and 2003-2006 remain open to federal examination. In major state jurisdictions, tax years 2002-2006 remain open for examination.

The following table sets forth the computation of basic and diluted income per common share for the periods presented. Basic and diluted income per common share for the three months ended March 31, 2006 increased \$0.02 and \$0.01, respectively, due to the restatement of the Company s results of operations as a result of the adoption of FSP No. AUG AIR-1. See Note 2, Summary of Accounting Policies Recent Accounting Pronouncements for additional information.

4. Stock-Based Compensation

In October 1999, the Company adopted a long-term equity incentive plan which provides for grants of stock options, stock appreciation rights, restricted stock and performance awards to directors, officers and employees of PCA, as well as others who engage in services for PCA. Option awards granted to officers, employees and directors have contractual lives of seven or ten years. Options granted to officers and employees vest ratably over a three- or four-year period, whereas options granted to directors vest immediately. The plan, which will terminate on October 19, 2009, provides for the issuance of up to 6,550,000 shares of common stock. As of March 31, 2007, options or restricted stock for 5,385,449 shares have been granted, net of forfeitures. Forfeitures are added back to the pool of shares of common stock available to be granted at a future date.

Packaging Corporation of America Notes to Condensed Consolidated Financial Statements (Continued) (unaudited) March 31, 2007

4. Stock-Based Compensation (Continued)

Effective January 1, 2006, the Company adopted the fair value recognition provisions of SFAS No. 123(R), Share-Based Payment, using the modified-prospective-transition method. Under that transition method, stock compensation cost recognized subsequent to January 1, 2006 includes: (a) compensation cost for all share-based payments granted prior to, but not vested as of January 1, 2006, based on the grant date fair value estimated in accordance with the original provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123, and (b) compensation cost for all share-based payments granted subsequent to January 1, 2006, based on the grant date fair value estimated in accordance with the provisions of SFAS No. 123(R). Compensation expense for both stock options and restricted stock recognized in the condensed consolidated statements of income for the three month periods ended March 31, 2007 and 2006 was as follows:

(In thousands)	Three Months Ended March 31, 2007 2006			
Stock options	\$ (690)	\$ (787)
Restricted stock	(830)	(570)
Impact on income before taxes	(1,520)	(1,357)
Income tax benefit	592		530	
Impact on net income	\$ (928)	\$ (827)

The Company uses the Black-Scholes-Merton option-pricing model to estimate the fair value of each option grant as of the date of grant. Expected volatilities are based on historical volatility of the Company s common stock. The expected life of the option is estimated using historical data pertaining to option exercises and employee terminations. Separate groups of employees that have similar historical exercise behavior are considered separately for estimating the expected life. The risk-free interest rate is based on U.S. Treasury yields in effect at the time of grant. There were no option grants during the first quarter of 2007.

A summary of the Company s stock option activity and related information follows:

	Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Term (years)	Aggregate Intrinsic Value (In thousands)
Outstanding at December 31, 2006	3,451,077	\$ 17.96

Packaging Corporation of America Notes to Condensed Consolidated Financial Statements (Continued) (unaudited) March 31, 2007

4. Stock-Based Compensation (Continued)

The total intrinsic value of options exercised during the three months ended March 31, 2007 and 2006 was \$3,204,000 and \$843,000, respectively. As of March 31, 2007, there was \$2,621,000 of total unrecognized compensation cost related to non-vested stock option awards granted under the Company s equity incentive plan. That cost is expected to be recognized over a weighted-average period of 1.2 years.

During 2003, the Company began granting shares of restricted stock to certain of its employees and directors. Restricted stock awards granted to employees vest at the end of a three- or four-year period, whereas restricted stock awards granted to directors vest at the end of a six-month period. The fair value of restricted stock is determined based on the closing price of the Company s common stock on the grant date. The Company is recognizing compensation expense associated with restricted stock awards ratably over their vesting periods. A summary of the Company s restricted stock activity follows:

	2007	Fair Market Value at Date of	2006	Fair Market Value at Date of
(dollars in thousands)	Shares	Grant	Shares	Grant
Restricted stock at January 1	610,380	\$ 12,964	387,030	\$ 8,256
Granted	8,000	196	12,000	280
Vested			(11,300)	(219)

Restricted stock at March 31	617,980	\$ 13,152	386,905	\$ 8,300

As of March 31, 2007, there was \$7,687,000 of total unrecognized compensation costs related to the above restricted stock awards. The Company expects to recognize the cost of these stock awards over a weighted-average period of 2.3 years.

5. Inventories

The components of inventories are as follows:

	March 31, 2007	December 31, 2006
(In thousands)	(unaudited)	
Raw materials	\$ 90,692	\$ 87,243
Work in process	5,678	5,021

Inventories, net	\$ 200,438	\$ 195,946

Packaging Corporation of America Notes to Condensed Consolidated Financial Statements (Continued) (unaudited) March 31, 2007

5. Inventories (Continued)

An actual valuation of inventory under the LIFO method is made only at the end of each year based on the inventory levels and costs at that time. Accordingly, interim LIFO calculations must necessarily be based on management s estimates of expected year-end inventory levels and costs. Because these are subject to many forces beyond management s control, interim results are subject to the final year-end LIFO inventory valuation.

6. Goodwill and Other Intangible Assets

Good will

Changes in the carrying amount of goodwill for the period ended March 31, 2007 are as follows:

Packaging Corporation of America Notes to Condensed Consolidated Financial Statements (Continued) (unaudited) March 31, 2007

7. Employee Benefit Plans and Other Postretirement Benefits (Continued)

The Company makes pension plan contributions to the extent such contributions are mandatory, actuarially determined and tax deductible. The Company expects to contribute \$23.2 million to the pension plans in 2007, of which \$4.6 million has been contributed through March 31, 2007.

For the three months ended March 31, 2007 and 2006, net postretirement costs were comprised of the following:

(In thousands)	Three Months I March 31, 2007	Ended 2006
Components of Net Postretirement Costs

Interest cost on accumulated benefit obligation	160	147
Net amortization of unrecognized amounts	(63)	(52)
Net postretirement costs	\$ 345	\$ 331

8. Restructuring Charges and Other Severance

In August 2005, the Company announced that it would close a corrugated products plant by December 31, 2005. The charges related to this plant closing were recorded in accordance with SFAS No. 146, Accounting for Costs Associated with Exit or Disposal Activities, which requires that a liability for costs associated with an exit or disposal activity be recognized when the liability is incurred. In connection with the shutdown of the corrugated products plant, the Company recorded pre-tax restructuring charges of \$1.7 million during 2005 and \$325,000 during 2006. On November 3, 2006, PCA sold the building for cash proceeds of \$378,000 and recorded a pre-tax gain of \$378,000.

In August 2006, the Company announced that it would close a corrugated products plant by the end of the third quarter of 2006. In connection with the closing of this plant, the Company sold the equipment and the building for \$1.6 million in cash proceeds and recorded a pre-tax loss of \$319,000. The Company also recorded \$454,000 in severance and wrote off \$174,000 of assets, primarily intangible assets.

The following table presents an analysis of the 2007 activity related to the 2006 closure restructurings:

Item 2. Management s Discussion and Analysis of Financial Condition and Results of Operations.

Overview

Packaging Corporation of America, or PCA, is the sixth largest producer of containerboard and corrugated products in the United States, based on production capacity. Approximately 80% of the containerboard tons produced at our mills are consumed in our corrugated products manufacturing plants. The remaining 20% is sold to domestic customers or the export market. Besides containerboard, we produce a wide variety of products ranging from basic corrugated shipping containers to specialized packaging such as wax-coated boxes for the agriculture industry. We also have multi-color printing capabilities to make high-impact graphics boxes and displays that offer our customers more attractive packaging. Our operating facilities and customers are located primarily in the United States.

In analyzing the operating performance of the company, we focus on the following factors that affect our business and are important to consider when reviewing our financial and operating results:

- corrugated products demand;
- corrugated products and containerboard pricing;
- containerboard inventories; and

• cost trends and volatility for our major costs, including wood and recycled fiber, purchased energy, labor and fringe benefits, and transportation costs.

The market for containerboard is generally subject to changes in the U.S. economy. Historically, supply and demand, as well as industry-wide inventory levels, has influenced prices of containerboard. In addition to U.S. shipments, approximately 10% of domestically produced containerboard has been exported for use in other countries.

Industry supply and demand trends remained in balance during the first quarter of 2007. Although industry shipments of corrugated products decreased 2.1% for the first three months of 2007 compared to the same period in 2006, industry containerboard inventory levels remained at historically low levels. Containerboard inventory at the end of the first quarter was the lowest March ending inventory in the past 25 years on a weeks of supply basis. As reported by industry publications, linerboard prices for the first quarter of 2007 averaged \$50 per ton higher than last year s first quarter, reflecting the April 2006 \$50 per ton price increase. Linerboard prices as published by industry publications did not change during the first quarter of 2007.
