Notes to Condensed Consolidated Financial Statements
1. Basis of financial statement presentation
In this report Orient-Express Hotels Ltd. is referred to as the Company , and the Company and its subsidiaries are referred to collectively as OEH .
(a) Accounting policies
The accompanying condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission for reporting on Form 10-Q. Accordingly, they do not include all of the information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. In the opinion of the management of the Company, all adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of financial position, operating results and cash flows have been included in the statements. Interim results are not necessarily indicative of results that may be expected for the year ending December 31, 2008. These financial statements should be read in conjunction with the consolidated financial statements and footnotes thereto included in the Company s periodic filings, including the Company s Annual Report on Form 10-K for the year ended December 31, 2007. See Note 1 to the consolidated financial statements in the 2007 Form 10-K for additional information regarding significant accounting policies.
The accounting policies used in preparing these financial statements are the same as those applied in the prior year except for the presentation or restricted cash and the implementation of accounting for performance share awards and SFAS No. 157 in the three months ended March 31, 2008.
Restricted cash
In the statements of condensed consolidated cash flows for the three months ended March 31, 2008, changes in restricted cash balances have been reclassified from operating activities to investing activities. There were no changes in restricted cash balances in the three months ended March 31, 2007.
Performance share awards accounting policy
Under its 2007 performance share plan, the Company granted share-based payment awards with performance and market conditions to certain employees during the three months ended March 31, 2008.

The fair value of the awards at the grant date is determined using the Monte Carlo model. For awards with market conditions, the conditions are incorporated into the calculations, and the compensation value is not adjusted if the conditions are not met. For awards with performance conditions, compensation expense is recognized when it becomes probable that the performance criteria specified in the awards

7

will be achieved and, accordingly, the compensation value is adjusted following the changes in the estimates of shares likely to vest based on the performance criteria.

Share-based compensation expense for the awards determined as described above is recognized in earnings on a straight-line basis over the requisite service periods of the awards. The total cost of a share-based payment award is reduced by estimated forfeitures expected to occur over the vesting period of the award.

SFAS 157

In September 2006, the FASB issued SFAS No. 157, Fair Value Measurements , which (i) applies to certain assets and liabilities that are being measured and reported on a fair value basis, (ii) defines fair value, establishes a framework for measuring fair value in accordance with generally accepted accounting principles, and expands disclosure about fair value measurements, and (iii) enables the reader of the financial statements to assess the inputs to develop those measurements by establishing a hierarchy for ranking the quality and reliability of the information used to determine fair values.

SFAS No. 157 requires that assets and liabilities carried at fair value be classified and disclosed in one of three categories, namely quoted market prices in active markets for identical assets or liabilities (Level 1), observable market-based inputs or unobservable inputs that are corroborated by market data (Level 2), and unobservable inputs that are not corroborated by market data (Level 3).

The Company adopted SFAS No. 157 effective January 1, 2008, except as it applies to those non-financial assets and non-financial liabilities as noted in FSP FAS 157-2 described below. The following table summarizes the valuation of OEH s assets and liabilities by the SFAS No. 157 fair value hierarchy at March 31, 2008 (dollars in thousands):

March 31, 2008					
Level 1	L	evel 2	Level 3		Total
\$	\$	764	\$	\$	764
\$	\$	764	\$	\$	764
\$	\$	2,141	\$	\$	2,141
\$	\$	2,141	\$	\$	2,141
	Level 1 \$ \$ \$	\$ \$ \$	Level 1 Level 2 \$ \$ 764 \$ 764 \$ \$ 2,141	Level 1 Level 2 Level 3 \$ \$ 764 \$ \$ 764 \$ \$ \$ 764 \$ \$	Level 1 Level 2 Level 3 \$ \$ 764 \$ \$ \$ \$ 764 \$ \$ \$ \$ 2,141 \$ \$

The fair value of OEH s derivative financial instruments is computed based on a market approach using information generated by market transactions involving comparable instruments.

In February 2008, the FASB issued proposed FSP FAS 157-2, which delayed the effective date of SFAS No. 157 for all non-financial assets and non-financial liabilities, except for those that are recognized or disclosed at fair value in the financial statements on a recurring basis (at least annually). FSP FAS 157-2 partially defers the effective date of SFAS No. 157 to fiscal years beginning after November 15, 2008, and interim periods within those fiscal years for items within the scope of the FSP.

(b) Net losses per share

The number of shares used in computing basic and diluted losses per share was as follows (in thousands):

Three months ended March 31,	2008	2007
Basic	42,466	42,256
Effect of dilution	164	279
Diluted	42,630	42,535

For the three months ended March 31, 2008 and 2007, the anti-dilutive effect of stock options on 13,343 and 942 class A common shares, respectively, was excluded from the computation of diluted losses per share.

(c) Dividends

On January 4, 2008, the Company declared a dividend of \$0.025 per common share payable February 5, 2008 to shareholders of record January 22, 2008.

(d) Earnings from unconsolidated companies

Earnings from unconsolidated companies include OEH s share of the net earnings of its equity investments as well as interest income related to loans and advances to the equity investees amounting to \$3,004,000 and \$2,794,000 for the three months ended March 31, 2008 and 2007, respectively.

2. Discontinued operations

During the fourth quarter of 2007, OEH decided to sell its investment in Bora Bora Lagoon Resort. Accordingly, the results of the hotel have been presented as a discontinued operation for all the interim periods presented.

Summarized operating results of the hotel are as follows (dollars in thousands):

Three months ended March 31,	2008		2007
Revenue	\$	1,611 \$	1,757
(Loss) from discontinued operations	\$	(1,963) \$	(1,185)
Impairment loss			
Net (loss) from discontinued operations	\$	(1,963) \$	(1,185)

Due to an increase in competition and other market factors, operating profits and cash flows of the Bora Bora Lagoon Resort were lower than expected in 2007 and previous years, which gave rise to an impairment of goodwill and long-lived assets in the amount of \$3,891,000 and \$10,101,000, respectively recorded in the quarter ended December 31, 2007. The fair value of the investment was estimated by management using a bid price offered for the business and considering other market factors. The impaired book value remained the same as at March 31, 2008.

Assets and liabilities of the hotel have been classified as held for sale and consisted of the following (dollars in thousands):

	March 31, 2008	December 31, 2007
Current assets	\$ 2,979 \$	3,686
Other assets	3,118	3,121
Property, plant and equipment, net of depreciation	49,586	45,091
Goodwill	2,979	2,519
Total assets held for sale	\$ 58,662 \$	54,417
Liabilities held for sale	\$ (5,426) \$	(5,619)

3. Acquisitions

Casa de Sierra Nevada minority interest

On March 7, 2008, OEH agreed to accelerate the purchase of the 20% minority interest in Casa de Sierra Nevada it did not own for a cash consideration of \$2,329,000. Following guidance in SFAS No. 150, Accounting for Certain Financial Instruments with Characteristics of both Liabilities and Equity , and EITF 00-4, Majority owner s accounting for a transaction in the shares of a consolidated subsidiary and a derivative indexed

to the minority interest in that subsidiary , deferred consideration of \$2,330,000, which had been recorded on the original acquisition of 80% was cleared and the difference of \$1,000 between the final settlement and original forward contract value was recorded in earnings as interest income.

La Samanna spa

On March 14, 2008, the subsidiary of OEH that owns La Samanna agreed to terminate the existing lease with the third party operator of the spa on the hotel s premises and to transfer the employees, equipment and other assets of the spa to La Samanna effective April 1, 2008 for a cash consideration of \$650,000.

The following table summarizes the preliminary fair values of the assets acquired at the date of acquisition (dollars in thousands):

	April 1, 2008
Inventory	\$ 10
Property, plant and equipment	10
Goodwill	630
Other intangible assets	
Total assets acquired	650
Total liabilities assumed	
Net assets acquired	\$ 650
Cash consideration	\$ 650

Equipment of the spa has been fair valued based on the estimated replacement cost. Goodwill of \$630,000 has been recorded of which \$nil will be deductible as operating expenses for tax purposes. This acquisition enabled OEH to take control of the spa operation and receive 100% of operating revenues that the business is expected to generate in future years, which contributed to the purchase price and resulted in goodwill.

The acquisition of the spa has been accounted for as a purchase in accordance with SFAS No. 141, Business Combinations . The results of the operation have been included in the consolidated financial statements of OEH from March 14, 2008.

The proforma results of operations data presented below assume that the spa acquisition had been made at the beginning of 2007. The proforma data are presented for informational

purposes only and are not necessarily indicative of the results of future operations, nor of the actual results that would have been achieved had the acquisition taken place at the beginning of 2007 (dollars in thousands, except per share amounts):

Internet sites	2,066		(166)
Total	\$ 15,216	\$	(776)
<u>Unamortized intangible assets</u>			
Tradename	\$ 7,365		

Favorable lease intangible assets are amortized over the term of the lease, which is up to 50 years, and internet sites are amortized over ten years.

Amortization expense for the three months ended March 31, 2008 was \$137,000 (2007 \$70,000). Estimated amortization expense for each of the years ended December 31, 2008 to December 31, 2012 is \$548,000.

8. Long-term debt and obligations under capital lease

Long-term debt consists of the following (dollars in thousands):

	March 31, 2008	December 31, 2007
Loans from banks collateralized by property, plant and equipment payable over		
periods of 1 to 11 years, with a weighted average interest rate of 5.82% and 6.34%,		
respectively, primarily based on LIBOR	\$ 832,044 \$	767,916
Loan secured by river cruiseship, payable over 3 years, with a weighted interest rate		
of 7.48% at December 31, 2007 based on LIBOR		2,500
Obligations under capital lease	16,206	15,994
	848,250	786,410
Less: current portion	171,509	127,795
	\$ 676,741 \$	658,615

The carrying value of the debt is equal to its fair value.

Certain credit agreements of OEH have restrictive covenants. At March 31, 2008, OEH was in compliance with these covenants, including a minimum consolidated net worth test and a minimum consolidated interest coverage test as defined under a bank-syndicated 190,000,000 loan facility. OEH does not currently have any covenants in its loan agreements which limit the payment of dividends.

The following is a summary of the aggregate maturities of long-term debt, including obligations under capital lease, at March 31, 2008 (dollars in thousands):

Year ending December 31,

2009	\$ 22,363
2010	51,976
2011	418,793
2012	93,187
2013 and thereafter	90,422
	\$ 676,741

9. Other liabilities

Other liabilities are \$1,379,000 of deferred consideration in respect of the acquisition of land next to Maroma Resort and Spa after discounting to present value.

10. Income taxes

The Company is incorporated in Bermuda, which does not impose an income tax. OEH s effective tax rate is entirely due to the income taxes imposed by jurisdictions in which OEH conducts business other than Bermuda.

OEH recorded a tax benefit for the three months ended March 31, 2008 of \$3,557,000, compared to a benefit of \$2,728,000 for the corresponding period in 2007. OEH s current tax cost for the three months ended March 31, 2008 is \$2,261,000, compared to a cost of \$2,479,000 in 2007.

OEH s tax benefit for the three months ended March 31, 2008 included a tax charge of \$286,000 in respect of the provision under FASB interpretation No. 48, Accounting for Uncertainty of Income Taxes (FIN 48), of which \$253,000 relates to interest and penalty costs associated with the uncertain tax positions. OEH s tax benefit of \$2,728,000 for the three months ended March 31, 2007 included a tax charge of \$232,000 in respect of the FIN 48 provision, including a charge of \$116,000 that related to the potential interest and penalty costs.

As at March 31, 2008, OEH had recognized a \$25,678,000 (December 31, 2007 \$24,025,000) provision in respect of its uncertain tax positions. OEH believes that it is reasonably possible that within the next 12 months the FIN 48 provision will decrease by about \$10,000,000 to \$18,000,000 as a result of the resolution of tax positions in certain jurisdictions in which OEH operates.

Earnings from unconsolidated subsidiaries are reported net of tax in the statements of condensed consolidated operations. The tax provision applicable to these unconsolidated subsidiaries in the three months ended March 31, 2008 is \$1,181,000, compared to a provision of \$1,186,000 in the corresponding period in 2007.

11. Pensions

Components of net periodic pension benefit cost were as follows (dollars in thousands)

Three months ended March 31,	2008	2007
Service cost	\$ \$	
Interest cost	310	284
Expected return on plan assets	(295)	(262)
Amortization of net loss	120	137
Net periodic benefit cost	\$ 135 \$	159

As reported in Note 10 to the financial statements in the Company s 2007 Form 10-K annual report, OEH expected to contribute \$1,385,000 to its defined benefit pension plan in 2008. As of March 31, 2008, \$344,000 of contributions had been made. OEH anticipates contributing an additional \$1,041,000 to fund its pension plans in 2008 for a total of \$1,385,000.

12. Supplemental cash flow information

(Dollars in thousands)

Three months ended March 31,	2008	2007
Cash paid for:		
Interest	\$ 12,626 \$	10,695
Income taxes	\$ 5,070 \$	2,479

In conjunction with acquisitions (see Note 3) liabilities were assumed as follows (dollars in thousands):

Fair value of assets acquired	\$ 650 \$	459
Cash paid	(650)	(376)
Liabilities assumed	\$ \$	83

Restricted cash

Cash received for residential condominium purchases at Cupecoy Yacht Club in St. Martin is held in escrow until the next phase of construction, when the cash is released into OEH s current bank account. At March 31, 2008, this escrow account balance amounted to \$6,419,000 (December 31, 2007 - \$3,800,000) and is presented as restricted cash.

13. Accumulated other comprehensive income

The accumulated balances for each component of other comprehensive income are as follows (dollars in thousands):

	March 31, 2008	December 31, 2007
Foreign currency translation adjustments	\$ 43,296	\$ 38,191
Derivative financial instruments	(2,013)	730

Net losses on common shares	\$ (4,338) \$	(3,681)
Foreign currency translation adjustments	5,105	59
Change in fair value of derivatives	(2,743)	493
Comprehensive loss	\$ (1,976) \$	(3,129)

14. Commitments

Outstanding contracts to purchase fixed assets were approximately \$99,452,000 at March 31, 2008 (December 31, 2007 \$102,361,000).

15. Information concerning financial reporting for segments and operations in different geographical areas

As reported in the Company s 2007 Form 10-K annual report, OEH has three reporting segments, (i) hotels and restaurants, (ii) tourist trains and cruises, and (iii) real estate and property development. Segment performance is evaluated based upon segment net earnings before interest, tax (including tax on earnings from unconsolidated companies), depreciation and amortization (segment EBITDA). Financial information regarding these business segments is as follows, with net finance costs appearing net of capitalized interest and interest and related income (dollars in thousands):

16. Share-based awards with performance/market criteria

On March 3, 2008, the Company granted to nine employees share-based awards with performance and market conditions covering a total of 29,765 class A common shares under its 2007 performance share plan. The shares will be issued after three years from the grant date upon payment of a nominal amount, provided performance and market criteria set forth in the awards are met. All of these awards were outstanding at March 31, 2008.

Half of each award is subject to performance criteria based on OEH s earnings before tax for the year ending December 31, 2010, and the other half of each award is subject to market criteria based on OEH s total shareholder return compared to the average total shareholder return of a specified group of other hotel and leisure companies over the period of three years.

When the shares are issued under the awards, the grantees are also entitled to receive a cash equivalent of the dividends, if any, that would have been paid on the class A common shares during the period between the grant date and the share issue date.

The fair value of the awards with performance and market conditions granted in the three months ended March 31, 2008 was \$568,000 (2007 - \$nil). The weighted-average grant date fair value of the performance-based part of the awards was \$51.95 per share and of the market-based part of the awards \$31.60 per share. The assumptions used in the Monte Carlo valuation model were:

Expected share price volatility	33.1%
Risk-free interest rate	1.76%
Expected annual dividends per share	\$0.10
Expected life of awards	3 years

Expected volatility is based on historical volatility of the Company s class A common share price and other factors. The term of awards represents the period of time they are expected to be outstanding, based on historical data. The risk-free rate for periods within the contractual life of the awards is based on the U.S. Treasury yield curve in effect at the time of grant.

17. Derivative financial instruments

OEH is exposed to interest rate risk on its floating rate debt, and in September 2006 it entered into interest rate swap agreements for the notional amounts of 75,000,000 (\$95,000,000) and 24,700,000 (\$31,000,000) that limit the exposure to a fixed rate level. Although the interest rate swap for 24,700,000 economically hedges the interest rate risk, it has not qualified as a cash flow hedge and, therefore, changes in the fair value of this swap of \$410,000 were recorded as an interest expense for the period.

The interest rate swap for 75,000,000 has been designated and has qualified as a cash flow hedge of the floating rate debt effective December 31, 2006. This swap is expected to be, and has been, highly effective in offsetting exposures from fluctuations in debt interest rates. The \$1,715,000 of the movement in the fair value of the swap has, therefore, been recorded as a loss in other comprehensive income, with an amount of \$125,000 deemed ineffective, and recognized as a loss in earnings for the period.

In October 2007, OEH entered into interest rate swap agreements for the notional amounts of \$10,000,000 and \$20,000,000 that limit the exposure from interest rate fluctuations of a U.S. dollar debt to a fixed rate level. The swaps have been designated and have qualified as cash flow hedges of the floating rate debt effective since October 18, 2007. These swaps are expected to be, and have been, highly effective. The \$1,119,000 of the movement in the fair value of the swaps has, therefore, been recorded as a loss in other comprehensive income.

Of the existing gains at March 31, 2008, approximately \$1,300,000 will be reclassified into earnings in the next 12 months, assuming no further changes in fair value of the contracts.

At March 31, 2008 and December 31, 2007, the fair values of the outstanding Euro interest rate swaps were accounted for as other non-current assets at \$764,000 and \$2,833,000, respectively, and the fair values of the outstanding U.S. dollar interest rate swaps were accounted for as accrued liabilities at \$2,141,000 and \$1,022,000, respectively.

18. Related party transactions

OEH guarantees a \$3,000,000 bank loan to Eastern and Oriental Express Ltd. in which OEH has a minority shareholder interest. The amount due by OEH to Eastern and Oriental Express Ltd. at March 31, 2008 was \$447,000. The amount due to OEH by Eastern and Oriental Express Ltd. at December 31, 2007 was \$1,330,000.

OEH manages under a long-term contract the Charleston Place Hotel (accounted for under the equity method) and has made loans to the hotel-owning company. For the three months ended March 31, 2008, OEH earned \$1,204,000 (2007 - \$1,351,000) in management fees which are recorded in revenue, and \$3,004,000 (2007 - \$2,794,000) in interest income on partnership and other loans, which are recorded in earnings from unconsolidated companies. These loans have an indefinite maturity period. The amount due to OEH from Charleston Place Hotel at March 31, 2008 was \$17,516,000 (December 31, 2007 - \$19,749,000).

OEH manages under long-term contracts the Hotel Monasterio, the Machu Picchu Sanctuary Lodge and Las Casitas del Colca owned by its 50/50 joint venture with local Peruvian interests, as well as the 50/50-owned PeruRail operation, and provides loans, guarantees and other credit accommodation to these joint ventures. In the three months ended March 31, 2008, OEH earned management and guarantee fees of \$1,712,000 (2007 - \$1,329,000) and loan interest of \$16,000 (2007 - \$16,000) which are recorded in revenue. At March 31, 2008, OEH had a \$750,000 subordinated loan to the PeruRail operation with an indefinite maturity date and interest also at a spread over LIBOR. The amount due to OEH from its joint venture Peruvian operations at March 31, 2008 was \$6,878,000 (December 31, 2007 - \$6,277,000).

OEH manages under a long-term contract the Hotel Ritz in Madrid, Spain, in which OEH owns a 50% interest and is accounted for under the equity method. For the three months ended March 31, 2008, OEH earned \$346,000 (2007 - \$233,000) in management fees, which are included in revenue. The amount due to OEH from the Hotel Ritz, Madrid, at March 31, 2008 was \$5,358,000 (December 31, 2007 - \$2,624,000).

James Sherwood, a director of the Company, has a right of first refusal to purchase the Hotel Cipriani in Venice, Italy in the event OEH proposes to sell it. The purchase price would be the offered sale price in the case of a cash sale or the fair market value of the hotel, as determined by an independent valuer, in the case of a non-cash sale. Mr. Sherwood has also been granted an option to purchase the hotel at fair market value if a change in control of the Company occurs.

19. Subsequent events

In April 2008, OEH entered into six new interest rate swap agreements to reduce exposure to the interest rate fluctuations on its U.S. dollar floating rate indebtedness. The interest rate swaps have been provided by various banks covering indebtedness secured by the Copacabana Palace Hotel, Keswick Hall, Windsor Court Hotel, Grand Hotel Europe, La Samanna and Mount Nelson Hotel with the total nominal amount hedged of \$151,283,000. The interest rates were fixed at the level ranging between 3.43% and 3.95% for a term of three to five years.

Also in April 2008, the Company renewed a \$47,000,000 term loan secured on the Windsor Court Hotel for a further five years.

ITEM 2. Management s Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

Three months Ended March 31, 2008 Compared to

Three months Ended March 31, 2007

OEH s operating results for the three months ended March 31, 2008 and 2007, expressed as a percentage of revenue, were as follows:

Three months ended March 31,	2008	2007
	%	%
Revenue		
Hotels and restaurants	89	90
Tourist trains and cruises	7	10

Segment net earnings before interest, tax (including tax on unconsolidated companies), depreciation and amortization (segment EBITDA) of OEH s operations for the three months ended March 31, 2008 and 2007 are analyzed as follows (dollars in millions):

Three months ended March 31,	2008	2007
Segment EBITDA:		
Owned hotels:		
Europe	\$ (3.7) \$	(3.6)
North America	7.3	6.1
Rest of the World	12.7	12.1

Restaurants	0.6	0.9
Tourist trains and cruises	1.5	1.1
Real estate	(0.4)	(0.4)
Central overheads	(6.8)	(5.6)
Total segment EBITDA	\$ 16.4 \$	15.2

The foregoing segment EBITDA reconciles to net losses as follows (dollars in millions):

Three months ended March 31,	2008		2007
Net losses	\$	(4.3) \$	(3.7)
Add:			
Depreciation and amortization		10.3	8.8
Net finance costs		10.9	10.4
Benefit from income taxes		(3.6)	(2.7)
Loss from discontinued operations, net of tax		1.9	1.2
Share of provision for income taxes of unconsolidated companies		1.2	1.2
Segment EBITDA	\$	16.4 \$	15.2

Management evaluates the operating performance of OEH s segments on the basis of segment EBITDA and believes that segment EBITDA is a useful measure of operating performance because segment EBITDA is not affected by non-operating factors such as leverage and the historic cost of assets. EBITDA is a financial measure commonly used in OEH s industry. OEH s segment EBITDA, however, may not be comparable in all instances to EBITDA as disclosed by other companies. Segment EBITDA should not be considered as an alternative to earnings from operations or net earnings (as determined in accordance with U.S. generally accepted accounting principles) as a measure of OEH s operating performance, or as an alternative to net cash provided by operating, investing and financing activities (as determined in accordance with U.S. generally accepted accounting principles) as a measure of OEH s ability to meet cash needs.

Operating information for OEH s owned hotels for the three months ended March 31, 2008 and 2007 is as follows:

Average daily rate is the average amount achieved for the rooms sold. RevPAR is revenue per available room, that is the rooms revenue divided by the number of available rooms for each night of operation. Occupancy is the number of rooms sold divided by the number of available rooms. Same store RevPAR is a comparison based on the operations of the same units in each period, such as by excluding the effect of any acquisitions or major refurbishments. The same store data excludes the following operations:

Hotel Cipriani Hotel Splendido
Villa San Michele Hotel Caruso Belvedere

Hôtel de la Cité La Residencia

El Encanto Le Manoir aux Quat Saisons

Casa de Sierra Nevada Hotel das Cataratas

Overview

The net loss for the period was \$4.3 million (\$0.10 per common share) on revenue of \$114.7 million, compared with a net loss of \$3.7 million (\$0.09 per common share) on revenue of \$94.2 million in the prior year first quarter. The first quarter is a traditional loss-making period because a number of OEH s properties are closed for the winter, the Venice Simplon-Orient-Express train does not operate for most of the quarter and tourist arrivals are low in locations with poor winter weather.

Total revenue increased by \$20.5 million, or 22%, from \$94.2 million in the three months ended March 31, 2007 to \$114.7 million in the three months ended March 31, 2008. Hotels and restaurants revenue increased by \$17.1 million, or 20%, from \$84.8 million in the three months ended March 31, 2007 to \$101.9 million in the three months ended March 31, 2008. Tourist trains and cruises revenue decreased by \$0.7 million, or 7%,

from \$9.4 million for the three months ended March 31, 2007 to \$8.7 million for the three months ended March 31, 2008. Real estate revenues for the three months ended March 31, 2008 were \$4.1 million. There were no real estate revenues for the three months ended March 31, 2007.

The increase in hotel revenue was due primarily to increased room rates across the group, and additional occupancy, particularly in March as a result of Easter falling in the month, rather than in April, as in the prior year. The increase in hotel revenue also reflects the impact of foreign currency appreciation in Europe and the Rest of the World region and an increase in non-rooms revenue.

The revenue from restaurants decreased by \$0.4 million, or 8%, from \$5.3 million in the three months ended March 31, 2007 to \$4.9 million for the three months ended March 31, 2008.

For owned hotels overall, same store RevPAR in U.S. dollars increased by 14% in the three months ended March 31, 2008 compared to the three months ended March 31, 2007. Measured in local currencies this increase was 12%.

The change in revenue at owned hotels is analyzed on a regional basis as follows:

Revenue increased by \$6.0 million, or 28%, from \$21.1 million for the three months ended March 31, 2007 to \$27.1 million for the three months ended March 31, 2008. The Grand Hotel Europe revenues grew by \$3.2 million, or 53%, to \$9.5 million, driven by average rate improvements of 13% coupled with an increase in occupancy of 32% compared with the prior year. Revenue at Reids Palace Hotel, Madeira, grew by \$1.4 million, or 27%, to \$6.5 million, due to an increase in room rates. Revenue at La Residencia, Mallorca, increased by \$0.6 million. Revenue at La Manoir aux Quat Saisons grew by \$0.4 million, or 9%, to \$4.9 million. Revenue improvement at the remaining European hotels was due to a combination of average rate and occupancy improvements.

The continued strengthening of the Euro was responsible for 40% of the revenue growth. Had exchange rates in the three months ended March 31, 2008 been the same as in the prior year period, average rate and occupancy improvements would have caused revenue to increase by \$3.6 million, to \$24.7 million in 2008. Exchange rate movements were responsible for the other \$2.4 million of the revenue growth in the three months ended March 31, 2008.

On a same store basis, RevPAR in local currency increased by 16%, and in U.S. dollars this translated into an increase of 30%.

Revenue increased by \$3.5 million, or 15%, from \$23.2 million in the three months ended March 31, 2007 to \$26.7 million in the three months ended March 31, 2008. Revenues at La Samanna, St Martin and Maroma Resort and Spa, Mexico, increased by \$1.0 million and \$1.3 million, to \$9.0 million and \$6.2 million, respectively, due to average room rate improvements and additional occupancy at both hotels. Revenue at the Inn at Perry Cabin, Maryland, increased by \$0.4 million, or 33%, following the opening of the hotel s Linden Spa in July 2007 together with additional occupancy. Revenue at Casa de Sierra Nevada, Mexico, increased by \$0.4 million, to \$0.8 million. Part of the hotel was closed for renovation during the period ended March 31, 2007.

On a same store basis, RevPAR increased by 12% which was driven mostly by rate. Average occupancy across all of the North American properties was 67% compared to 64% in the same period in 2007.

Revenue increased by \$7.9 million, or 24%, from \$32.9 million in the three months ended March 31, 2007 to \$40.8 million in the three months ended March 31, 2008. Revenues at the Copacabana Palace, Brazil increased by \$1.3 million, to \$12.2 million primarily because of the effect of exchange rate movements. Exchange rate movements across the region were responsible for \$2.9 million of the revenue improvements and average rate growth generated additional revenue of \$1.7 million. Revenues at Hotel das Cataratas, Brazil, which OEH started to operate on October 1, 2007, were \$3.3 million. OEH s six Asian hotels collectively increased revenues by \$1.2 million, or 28%, to \$5.3 million, due to higher occupancy and average rate improvements. Southern Africa revenues increased by \$1.1 million, or 10%, of which \$1.5 million was due to average rate increases and increased occupancy, was offset by a negative exchange rate impact of \$0.4 million. Revenues at OEH s two Australian properties increased by \$0.7 million, or 13%, to \$6.2 million, primarily as a result of exchange rate.

The RevPAR on a same store basis for the Rest of the World region increased by 10% in local currencies in the three months ended March 31, 2008 compared to the three months ended March 31, 2007. This translates to an 11% increase when expressed in U.S. dollars.

Hotel Management and Part-Ownership Interests. Revenue increased by \$0.1 million, or 5%, from \$2.4 million in the three months ended March 31, 2007 to \$2.5 million in the three months ended March 31, 2008, primarily due to increased revenues earned from the managed hotels in Peru, up by \$0.1 million.

Restaurants: Revenue decreased by \$0.4 million, or 8%, from \$5.3 million in the three months ended March 31, 2007 to \$4.9 million in the three months ended March 31, 2008. Revenues at 21 Club fell by \$0.4 million due to a reduced volume of corporate customers, although the average check was almost in line with the prior year.

Trains and Cruises. Revenue decreased by \$0.7 million, or 7%, from \$9.4 million in the three months ended March 31, 2007 to \$8.7 million in the three months ended March 31, 2008. Revenues for the Road to Mandalay river cruiseship, in Myanmar, fell by \$0.6 million, from \$2.3 million to \$1.7 million, following the civil unrest in that country in 2007. In the three months ended March 31, 2007, management fees of \$0.5 million were derived from the Afloat in France joint venture that was subsequently acquired by OEH later in 2007. There is no equivalent management fee income in the current year. Venice Simplon-Orient-Express revenues increased by \$0.8 million from \$1.1 million in the three months ended March 31, 2007 to \$1.9 million in the three months ended March 31, 2008, as a result of running two additional services in the current year. Fewer day train services were operated in the United Kingdom in the three months ended March 31, 2008, resulting in a revenue decrease of \$0.6 million compared with the same period in the prior year.

Real Estate: Revenue in the three months ended March 31, 2008 was \$4.1 million, including \$3.7 million in respect of the Cupecoy Yacht Club development and \$0.4 million of sales recorded at Keswick Hall. There were no revenues in the same period in the previous year.

Depreciation and amortization

Depreciation and amortization increased by \$1.5 million, or 17%, from \$8.8 million in the three months ended March 31, 2007 to \$10.3 million in the three months ended March 31, 2008, primarily due to the effect of capital expenditures incurred during 2007, and the impact of exchange rate movements, particularly in respect of the operations of hotels and trains and cruises outside North America where the functional currency is either Euros or British pounds.

Operating expenses

Operating expenses increased by \$11.6 million, or 24%, from \$48.1 million in the three months ended March 31, 2007 to \$59.7 million in the three months ended March 31, 2008. As a percentage of revenue, operating expenses increased from 51% of revenue for the three months ended March 31, 2007 to 52% of revenue for the three months ended march 31, 2008. Exchange rate movements (in particular the year on year devaluation of the U.S. dollar against the Euro of approximately 14%) and local wage inflation caused operating costs across Europe to rise compared to the prior year when translated into U.S. dollars.

Selling, general and administrative expenses

Selling, general and administrative expenses increased by \$9.4 million, or 27%, from \$34.4 million in the three months ended March 31, 2007 to \$43.8 million in the three months ended March 31, 2008. The selling, general and administrative expenses incurred in the three months ended March 31, 2008 included costs of \$2.2 million incurred at the Hotel das Cataratas, Brazil, which OEH began to operate in October 2007. Excluding these costs, as a percentage of revenue, selling, general and administrative expenses remained at 36% in the current period compared to the three months ended March 31, 2007. As noted above, the movement of the Euro in particular, but also the British pound and the Brazilian real exchange rates had a significant impact on the selling, general and administrative costs incurred during the quarter.

Although segment EBITDA for the quarter increased by 8% from \$15.2 million in 2007 to \$16.4 million in 2008, segment EBITDA margins (calculated as segment EBITDA as a percentage of revenue) decreased by 2% from 16% for the three months ended March 31, 2007, to 14% for the three months ended March 31, 2008.

The European hotels collectively reported a segment EBITDA loss of \$3.7 million in 2008 compared to a loss of \$3.6 million in the same period in 2007. As a percentage of revenue, the European segment EBITDA margin improved from negative 17% in 2007 to negative 14% in 2008. As noted above, revenues grew in the region as a result of average room rate and occupancy improvements, particularly at Grand Hotel Europe, St Petersburg, at a faster rate than expenses.

Segment EBITDA in the North American region increased by 19% from \$6.1 million in the three months ended March 31, 2007, to \$7.3 million in the three months ended March 31, 2008. Segment EBITDA margins for the region improved by 1% to 27%.
Segment EBITDA in the Rest of the World region increased by 5% from \$12.1 million in the three months ended March 31, 2007 to \$12.7 million in the three months ended March 31, 2008. The segment EBITDA margin for the three months ended March 31, 2008 was 31%, compared to a margin of 37% for the same period in 2007. The 2008 segment EBITDA margin includes the results of Hotel das Cataratas, Brazil, which OEH has operated since October 2007. Excluding the results of this hotel, the EBITDA margin for the Rest of the World region declined by 3% in 2008.
Earnings from operations before net finance costs
Earnings from operations decreased by \$2.0 million from a profit of \$2.9 million in the three months ended March 31, 2007 to a profit of \$0.9 million in the three months ended March 31, 2008, due to the factors described above.
Net finance costs
Net finance costs increased by \$0.5 million, or 5%, from \$10.4 million for the three months ended March 31, 2007 to \$10.9 million for the three months ended March 31, 2008. The three months ended March 31, 2007 included a foreign exchange gain of \$0.1 million compared to a foreign exchange gain of \$2.0 million in the three months ended March 31, 2008. The foreign exchange gain in the current period came mainly from U.S. dollar debt at the Grand Hotel Europe, due to the strengthening of the ruble, compared to the U.S. dollar in the quarter. Excluding the foreign exchange items, net finance costs increased by \$2.4 million, or 23%, from \$10.5 million for the three months ended March 31, 2007 to \$12.9 million for the three months ended March 31, 2008, due to the impact of financing new investments as well as the currency impact of non-U.S. dollar borrowings.
Benefit from income taxes
The benefit from income taxes increased by \$0.9 million, from a benefit of \$2.7 million in the three months ended March 31, 2007 to a benefit of \$3.6 million in the three months ended March 31, 2008. As a percentage of losses before income taxes and earnings from unconsolidated

31

companies, the tax rate remained constant at 36%.

The benefit from income taxes of \$3.6 million for the three months ended March 31, 2008 included a tax provision of \$0.3 million in respect of the FIN 48 liability, compared to a provision of \$0.2 million in respect of the FIN 48 liability in the three months ended March 31, 2007.
Earnings from unconsolidated companies
Earnings from unconsolidated companies net of tax increased by \$1.8 million, or 77%, from \$2.3 million in the three months ended March 31, 2007 to \$4.1 million in the three months ended March 31, 2008. This was mainly due to increased earnings from OEH s investments in Peru and Charleston. The tax cost associated with earnings from unconsolidated companies was \$1.2 million in both years.
Loss from discontinued operations
The loss from discontinued operations consisted of the loss from Bora Bora Lagoon Resort which is being held for sale. The hotel results continued to be below expectations with net loss increasing from \$1.2 million for the three months ended March 31, 2007 to \$2.0 million for the three months ended March 31, 2008.
Liquidity and Capital Resources
Working Capital
OEH had cash and cash equivalents of \$95.9 million at March 31, 2008, \$5.3 million more than the \$90.6 million at December 31, 2007. At March 31, 2008, there were undrawn amounts available to OEH under committed short-term lines of credit of \$14.2 million and undrawn amounts available to OEH under secured revolving credit facilities of \$20.7 million, bringing total cash availability at March 31, 2008 to \$130.8 million.
Current assets less current liabilities, including the current portion of long-term debt, resulted in a working capital deficit of \$0.8 million at March 31, 2008, a decrease of \$36.1 million from a balance of \$35.3 million working capital surplus at December 31, 2007. The main factor that contributed to the decrease in working capital was the increase in the current portion of long-term debt which was due to the additional drawdown of 26 million (\$39 million) under a revolving credit facility.
32

Cash Flow
Operating Activities. Net cash used in operating activities decreased by \$2.5 million from \$2.6 million for the three months ended March 31, 2007 to \$0.1 million for the three months ended March 31, 2008. This was mainly due to the \$3.8 million dividends received from unconsolidated companies in Peru.
<i>Investing Activities.</i> Cash used in investing activities decreased by \$5.3 million to \$25.9 million for the three months ended March 31, 2008, compared to \$31.2 million for the three months ended March 31, 2007.
This was mainly due to lower capital expenditure (decrease of \$5.9 million). Capital expenditure of \$20.8 million included \$4.6 million of Hotel Cipriani refurbishment, \$2.7 million of El Encanto construction costs, \$1.4 million of Le Manoir aux Quat Saisons refurbishments, \$1.4 million on construction of assets at Cupecoy Yacht Club in St. Martin, and \$1.1 million of Copacabana Palace Hotel capital costs.
Current quarter acquisitions of \$2.1 million included the acquisition of the 20% minority interest in Casa de Sierra Nevada, and the La Samanna spa acquisition. The 2007 first quarter acquisitions included the final payment for the Grand Hotel Europe and La Residence d Angkor minority interest acquisition.
The \$2.6 million increase in restricted cash represented the net movement in the escrow account used in the Cupecoy Yacht Club property development.
Financing Activities. Cash provided by financing activities for the three months ended March 31, 2008 was \$32.4 million compared to \$13.9 million for the three months ended March 31, 2007, an increase of \$18.5 million. The main factor that contributed to this increase was the drawdown under a Euro revolving credit facility in the first quarter of 2008.
Capital Commitments. There were \$99.5 million of capital commitments outstanding as of March 31, 2008 relating mainly to investments in owned hotels and the purchase of land and a building adjoining 21 Club, New York.
Indebtedness
At March 31, 2008, OEH had \$848.3 million of long-term debt secured by assets, including the current portion, which is repayable over periods of 1 to 11 years with a weighted average maturity of 3.7 years and a weighted average interest rate of 5.82%. See Note 8 to the financial statements regarding the maturity of long-term debt.

Approximately 55% of the outstanding principal was drawn in European euros and the balance primarily in U.S. dollars. At March 31, 2008, 81% of borrowings of OEH were in floating interest rates.
Liquidity
OEH expects to have available cash from operations and appropriate debt finance sufficient to fund its working capital requirements, capital expenditures, acquisitions and debt service for the foreseeable future.
Recent Accounting Pronouncements
As of March 31, 2008, the Company s adoption of recent accounting pronouncements, which are described in Note 1 to the financial statement in the Company s 2007 Form 10-K annual report, has not changed from December 31, 2007, except for adoption of SFAS No. 157 as described in Note 1 (a) to the financial statements in this report and except as follows:
34

SFAS 161

In March 2008, the FASB issued SFAS No. 161 Disclosures about Derivative Instruments and Hedging Activities An Amendment of FASB Statement No. 133 . This statement changes the disclosure requirements for derivative instruments and hedging activities. Entities are required to provide enhanced disclosures about (a) how and why an entity uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for under SFAS No. 133 and its related interpretations, and (c) how derivative instruments and related hedged items affect an entity s financial position, financial performance, and cash flows. SFAS No. 161 is effective for financial statements issued for fiscal years and interim periods beginning after November 15, 2008. The Company is in the process of evaluating the effects of the adoption of SFAS No. 161.

Critical Accounting Policies

For a discussion of these, see under the heading Critical Accounting Policies in Item 7 Management s Discussion and Analysis in the Company s 2007 Form 10-K annual report.

ITEM 3. Quantitative and Qualitative Disclosures about Market Risk

OEH is exposed to market risk from changes in interest rates and foreign currency exchange rates. These exposures are monitored and managed as part of OEH s overall risk management program, which recognizes the unpredictability of financial markets and seeks to mitigate material adverse effects on consolidated earnings and cash flows. OEH does not hold market rate sensitive financial instruments for trading purposes.

The market risk relating to interest rates arises mainly from the financing activities of OEH. Earnings are affected by changes in interest rates on borrowings, principally based on U.S. dollar LIBOR and EURIBOR, and on short-term cash investments. If interest rates increased by 10%, with all other variables held constant, annual net finance costs of OEH would have increased by approximately \$4,300,000 on an annual basis based on borrowings at March 31, 2008. The interest rates on substantially all of OEH s long-term debt are adjusted regularly to reflect current market rates. Accordingly, the carrying amounts approximate fair value.

The market risk relating to foreign currencies and its effects have not changed materially during the first three months of 2008 from those described in the Company s 2007 Form 10-K annual report.

35

ITEM 4. Controls and Procedures

The Company s management, under the supervision and with the participation of its chief executive and financial officers, has evaluated the effectiveness of the Company s disclosure controls and procedures (as defined in SEC Rule 13a-15(e)) as of March 31, 2008 and, based on that evaluation, believes those disclosure controls and procedures are effective as of that date. There have been no changes in the Company s internal control over financial reporting (as defined in SEC Rule 13a-15(f)) during the first quarter of 2008 that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.

It should be noted that any system of controls, however well designed and operated, can provide only reasonable, and not absolute, assurance that the objectives of the system are met such as prevention and detection of mis-statement. In addition, the design of any control system is based in part upon certain assumptions about the likelihood of future events. Controls may become inadequate because of changes in conditions, or the degree of compliance with policies or procedures may deteriorate, for example. Because of these and other inherent limitations of control systems, there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.
