Report of Independent Registered Public Accounting Firm

To the Audit Committee of Overstock.com, Inc.

Overstock.com 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of Overstock.com 401(k) Plan as of December 31, 2007 and 2006, and the related statement of changes in net assets available for benefits for the year ended December 31, 2007. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The plan is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Overstock.com 401(k) Plan as of December 31, 2007 and 2006, and the changes in net assets available for benefits for the year ended December 31, 2007, in conformity with U.S. generally accepted accounting principles.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2007, is presented for purposes of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management, has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

401(k) PLAN

Notes to Financial Statements

Note 1 Plan Description

The following is a general description of the Overstock.com 401(k) Plan (the Plan). Participants should refer to the Plan agreement for a more complete description of the Plan s provisions.

General

The Plan is a defined contribution plan which was originally adopted by Overstock.com, Inc. (the Company or Plan Sponsor) in 1998 and has been amended from time to time since that date. Participation in the Plan is open to all eligible employees of the Company (individually, Participant and collectively, Participants). The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA) of 1974, as amended.

Trustee

The Plan has engaged Fidelity Management Trust Company (the Trustee) as Trustee to the Plan and all Plan assets are held in trust with the Trustee. The Plan has also engaged Fidelity Investments Institutional Operations Corporation, Inc. (the Recordkeeper) which provides recordkeeping and administrative services to the Plan.

Eligibility

Employees are eligible to participate in the Plan upon meeting the following criteria: (1) six months of service; and (2) 21 years of age. Employees of acquired companies, who meet the eligibility requirements of the Plan, may participate immediately upon acquisition. There were 893 and 825 participants in the Plan as of December 31, 2007 and 2006, respectively.

Contributions

Participants may contribute up to 50 percent of their annual compensation on a before-tax basis, provided the amounts do not exceed the annual limit imposed by the Internal Revenue Service (IRS). Such contributions are withheld by the Company from each Participant s compensation and

deposited with the Trustee to be applied to the appropriate fund in accordance with the Participant's directives. The Company may contribute a discretionary matching percentage of these contributions subject to certain limitations. For the years ended December 31, 2007 and 2006, the Company matched 50 percent of participant contributions up to 6 percent of their annual compensation. The matching contributions were in Company stock.

The Company also makes, at its sole discretion, an annual profit sharing contribution. The Company authorized profit sharing contributions of \$455,616 and \$409,421, for the years ended December 31, 2007 and 2006, respectively. The Company deposits discretionary profit sharing contributions with the Trustee in the year following the year such contributions are authorized. The discretionary contributions were in Company stock.

Participant contributions and company matching contributions made on behalf of highly compensated employees may be limited pursuant to non-discrimination rules set forth in the Plan document and the Internal Revenue Code of 1986, as amended (the Code).

Participant Accounts

Separate accounts are maintained for each Participant and each Participant's account is credited with the Participant's contribution, and an allocation of the Company's matching contribution and discretionary profit sharing contribution. Plan earnings are allocated to each Participant's account in proportion to the average daily balance in each fund option. The Company's discretionary matching contribution has been invested in common stock of the Plan Sponsor. The investment in common stock of the Plan Sponsor is considered non-participant-directed.

As of December 31, 2007, each Participant may elect to have his or her contributions invested in any one or any combination of twenty-seven investment funds and in the common stock of the Plan Sponsor. These funds include:

Vesting

Participants in the Plan are 100% vested at all times with respect to their own contributions to the Plan and the earnings thereon.

With respect to Company discretionary matching and profit sharing contributions and earnings on those contributions, vesting is based on each Participant's length of employment with the Company, with 20% vesting per year of service increasing to 100% vested at the end of the fifth year of service. For the years ended December 31, 2007 and 2006, forfeited non-vested accounts totaled \$247,586 and \$100,708, respectively. The Plan Sponsor will allocate forfeited accounts to offset future employer contributions and administrative expenses. No forfeited non-vested accounts were allocated for the years ended December 31, 2007 and 2006.

Administration

The Plan is sponsored by the Company. Operating and administrative expenses incurred in the administration of the Plan are the responsibility of the Plan, unless assumed by the Company. During 2007, the Company assumed a majority of the Plan administrative and operating expenses; however, the Company has no obligation to assume any Plan expenses in the future.

Distributions

Distributions from the Plan are available upon any of the following: (1) termination of employment with the Company; (2) retirement and in-service distributions upon or following age 59 1/2; and (3) disability or death. The Participant (or the designated beneficiary) will receive a lump-sum distribution equal to the vested value of the account or receive the vested value of the account in periodic installments, or transfer the vested value of the account to an Individual Retirement Account or other qualified retirement plan. Distributions from the Plan will normally be taxed as ordinary income for income tax purposes, unless the Participant (or the designated beneficiary) elects to rollover his or her distributions into an Individual Retirement Account or another qualified retirement plan.

Loans to Participants

The Plan does not currently allow participant loans.

Amendment and Termination of the Plan

The Company anticipates that the Plan will continue without interruption; however, the Company reserves the right to amend or terminate the Plan. No amendment or termination may deprive any person of rights accrued prior to the enactment of such amendment or termination. No amendment shall permit any part of the assets of the Plan to revert to the Company or be used or diverted for purposes other than for the exclusive benefit of the Participants. If the Plan should be terminated or partially terminated, the amount in each Participant's account as of the date of such termination (after proper adjustment for all expenses, earnings and allocations) becomes fully vested and non-forfeitable. Such amounts are distributable by the Trustee to the Participants.

Note 2 Significant Accounting Policies

Method of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (GAAP). The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at December 31, 2007 and 2006, and the reported amounts of additions to and deductions from net assets for the year ended December 31, 2007. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant accounts balances and the amounts reported in the statements of net assets available for benefits and changes in net assets available for benefits.

Investment Valuation

The Plan's investments are stated at fair market value and measured daily based on quoted market prices. Investments in the various investment funds are reported at fair value as measured by Fidelity Management Trust Company at December 31, 2007 and 2006, based on the net asset value of shares held by the Plan at year-end. Investments in shares of common stock of Overstock.com, which are traded on the NASDAQ, are valued using the last reported sales prior to close of the Plan year.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of realized gains and losses and unrealized appreciation (depreciation) on investments.

Contributions

Participant contributions are recorded in the period during which the Company makes payroll deductions from participants' compensation. Company matching contributions are recorded in the same period. Company profit sharing contributions are accrued in the period for which they are authorized and are deposited with the Trustee in the following period.

Benefit Payments

Benefits are recorded when paid.
