In addition, the statements are of a summary nature only due to the brief descriptions necessary in this form. More complete disclosures will be presented in the Company's quarterly report on Form 10-Q.*

The Company expects to report a net loss for the quarter ended September 30, 2008. The Company expects the net loss to be no less than approximately \$3.5 million. The Company reported net income of approximately \$908,000 or \$0.25 basic and diluted income per share for the quarter ended September 30, 2007. The net loss during the current period will be driven by a non-cash adjustment to the Company's valuation allowance for deferred tax assets of not less than \$2.4 million, coupled with a charge to earnings from the other than temporary impairment of not less than \$400,000 as a result of current market conditions related to trust preferred securities and corporate bond obligations issued by other financial institutions that the Company holds as investments. During the three months ended September 30, 2008, the Company also expects to record provisions for loan losses of not less than \$2.0 million, compared to approximately \$91,000 during the three months ended September 30, 2007. As a result of the Company's net loss for the quarter ended September 30, 2008, the regulatory capital ratios of the Company and its subsidiary banks have decreased; however, the Company expects that the regulatory capital ratios will be adequately capitalized for regulatory purposes as of the date of this filing.

As previously reported, the Company's subsidiary banks have entered into Consent Orders with the Office of the Comptroller of the Currency. While the Company is seeking to comply with the orders, it has to date, not achieved compliance with them. As a result, the Company has determined that it is in default on its \$4 million line of credit. The Company is seeking a waiver of this default.

The Company is also working with its regulators and with the Federal Home Loan Bank of Topeka (FHLB) in maintaining adequate liquidity for its subsidiary banks. As part of this process, the Company has determined that some of its collateral for its FHLB borrowings is not in compliance with FHLB standards and over the next few weeks, the Company's subsidiaries will be replacing the ineligible collateral with other collateral that the Company believes will be sufficient to remedy any deficiency.
