Brazil's Best Electricity

EARNINGS RELEASE

1Q09

Cemig D

5

• **Net Income**

In the first quarter of 2009 (1Q09), Cemig Distribuição reported net Income of R\$ 40.334 million, a reduction of 85.10% in comparison to the net Income of R\$ 270.659 Million reported for the first quarter of 2008 (1Q08).

This lower Income is partly due to extraordinary adjustments posted in the first quarter of 2009 as a result of the definitive value decided by the regulator, Aneel for the Company's Tariff Review, which had a negative impact of R\$ 127 million on the result. In counterpart, an extraordinary positive adjustment, of R\$ 38 million, was made to the income statement of 1Q08, also related to the Tariff Review.

In addition, importantly, there is the reduction in net revenue resulting from the Tariff Review itself, in place from April 8, 2008, which reduced Cemig D's tariffs by an average of 12.24% from that date.

- **Ebitda**

(Method of calculation not reviewed by external auditors) Cemig D's Ebitda in the first quarter of 2009 was significantly lower than its Ebitda for the first quarter of 2008 by a percentage of 68.46%. However, adjusted for the non-recurring items, this percentage reduction is diminished to 23.50%.

As part of the final disclosure of the Tariff Review of Cemig D, Aneel included in the tariff to be applied as from April 8, 2009 certain financial items relating to previous business years which resulted in the recognition of regulatory assets and liabilities which will be received and/or discounted in the tariff to be applied in the period April 8, 2009 to April 7, 2010.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

The financial items referred to relate principally to reduction of the costs of the Reference Company used by Aneel in calculating reimbursement to the Company of its controllable costs, with effect backdated to April 2008. Recognition of this non-recurring item results in an impact of R\$ 192,816 on Ebitda, as shown in this table:

EBITDA - R\$ 000	31/03/2009	31/03/2008	Change, %
Net Income	40,334	270,659	(85.10)
+ Income tax and Social Contribution	18,477	141,031	(86.90)
+ Employees and managers shares in results	18,725	16,155	15.91
- Financial revenue (expenses)	7,773	(10,541)	
+ Depreciation and amortization	81,162	110,515	(26.56)
= EBITDA	166,471	527,819	(68.46)
Non-recurring items:			
- Tariff review Net revenue	213,803	(62,464)	
+ Tariff review Operational expense	(20,987)	4,330	
= ADJUSTED EBITDA	359,287	469,685	(23.50)

The main reason for the lower Ebitda in 1Q09 than in 1Q08 is in the negative impacts of the final decision on the Tariff Review. The operational performance in 2009 was reflected in Ebitda margin, which was 14.04% in 1Q09, compared to 32.03% in 1Q08.

- **Gross revenue from supply of electricity and use of the network – captive consumers**

This revenue in 1Q09, at R\$ 1.815 billion, was 22.54% lower than in 1Q08 (R\$ 2.343 billion).

Main factors affecting revenue in 1Q09:

- Reduction of Cemig Distributors tariffs, of 12.24%, in the tariff adjustment in effect from April 8, 2008 (with full effect in 2009).
- Volume of energy invoiced to final consumers 4.52% higher than in 1Q08 (this excludes Cemig Distributors own internal consumption).
- Posting of regulatory liabilities arising from the *adjustment* to the Company's Tariff Review, this adjustment being backdated to 2008, representing a reduction in gross revenue of R\$ 176,970.

Electricity sold to final consumers (MWh)

(Data not audited by external auditors)

Consumption by consumer category	31/03/2009	MWh 31/03/2008	Change, %
Residential	1,905,496	1,729,761	10.16
Industrial	1,182,634	1,224,837	(3.45)
Commercial, services and others	1,160,226	1,084,482	6.98
Rural	452,303	453,242	(0.21)
Public authorities	168,534	152,436	10.56
Public illumination	269,358	259,068	3.97
Public service	260,706	262,152	(0.55)
TOTAL	5,399,257	5,165,978	4.52

- **Revenue from use of the network Free Consumers**

This revenue is from the TUSD – Tariff for Use of the Distribution System – charged to Free Consumers on electricity sold to them. In 1Q09 this revenue was R\$ 261.85 million, compared to R\$ 315.03 million in 1Q08, that is to say 16.9% lower, due to the transport of a lower volume of electricity to free consumers, which in turn was the result of the effects of the recession in the international economy on Brazilian industry.

- **Non-controllable costs**

Differences between the non-controllable costs assumed in calculating tariff adjustments, and disbursements actually made, are recorded in an account known as the CVA (cost variation account), and their total is offset in subsequent tariff adjustments. CVA amounts are registered in Current and Non-current assets. Complying with the Aneel Chart of Accounts, some items are allocated as Deductions from operational revenue. Further information is in Explanatory Note 7 to the Quarterly Information.

As from March 2008 the company began to receive, in the tariff, the amounts posted in assets under Portion A . Hence the portion of the non-controllable costs that was actually received in the tariff is transferred to Operational expenses, as shown in Explanatory Note 6, item B .

- **Deductions from operational revenues**

Deductions from operational revenues totaled R\$ 910.5 million in 1Q09, 11.4% less than the total deductions of R\$ 1.028 billion in 1Q08. Main year-on-year variations in the deductions from revenue:

Fuel Consumption Account CCC

The deduction from revenue for the CCC was R\$ 88.49 million in 1Q09, 41.4% lower than in 1Q08 (R\$ 62.59 million). This refers to the operational costs of the thermal plants in the Brazilian grid and isolated systems, divided up between electricity concession holders by an Aneel Resolution. This is a non-controllable cost: the amount deducted from revenue is passed through to tariffs.

Energy Development Account CDE

The deduction from revenue for the CDE was R\$ 77.53 million in 1Q09, 3.3% higher than in 1Q08 (R\$ 75.07 million). The payments are specified by an Aneel Resolution. This is a non-controllable cost: the deduction from revenue recorded in the income statement is the amount actually passed through to the tariff.

RGR Global Reversion Reserve

The deduction from revenue for the RGR was R\$ 17.52 million in 1Q09, 13.6% lower than in 1Q08 (R\$ 16.42 million). This is a non-controllable cost: the deduction from revenue recorded in the income statement is the amount actually passed through to the tariff.

The other deductions from revenue are for taxes that are calculated as a percentage of billing. Hence their variations arise substantially from the changes in revenue.

• **Operational costs and expenses (excluding Financial revenue (expenses))**

Operational costs and expenses (excluding Net financial revenue (expenses)) amounted to R\$ 1.100 billion in 1Q07, 10.6% lower than in 1Q9 (R\$ 1.184 billion). This mainly reflects changes in costs of Electricity bought for resale, Post-employment obligations and Depreciation and amortization. For further information on the composition of operational costs and expenses, see Explanatory Note 25 to the Quarterly Information.

The main year-on-year variations in these expenses are:

Personnel expenses

Personnel expenses totaled R\$ 201.0 million in 1Q09, 3.2% higher than in 1Q08 (R\$ 194.7 million). The total reflects these factors:

- Salary increase of 7.26% given to employees in November 2008.
- Higher transfer of costs from personnel expenses to works in progress (R\$ 22.55 million in 1Q09, vs. R\$ 16.27 million in 1Q08), due to the higher capital expenditure program in 2008.

Further information on the composition of personnel expenses is given in explanatory note No. 25 to the Quarterly Information.

Electricity bought for resale

The expense on electricity bought for resale in 1Q09 was R\$ 505.71 million, 12.5% less than in 1Q08, when it was R\$ 577.74 million. This is a non-controllable cost: the deduction from revenue recorded in the income statement is the amount actually passed through to the tariff. Further information is given in Explanatory Note No. 25 to the Quarterly Information (ITR).

• **Depreciation and amortization**

The expense on depreciation and amortization in 1Q9 was R\$ 81.16 million, 26.6% less than the expense of R\$ 110.51 million posted for 1Q08. This mainly reflects reduction of the item Special Obligations, as from April 2008, start date of the second Tariff Review cycle.

Post-employment obligations

Expenses on post-employment obligations totaled R\$ 22.94 million in 1Q09, 38.3% lower than in 1Q08 (R\$ 37.17 million). These expenses basically represent interest on the actuarial liabilities of Cemig Distribution, net of the expected return on the pension plans assets, as estimated by an external actuary. The higher expense, year-on-year, reflects the adjustment made in December 2008 to the actuarial assumptions for interest rates, resulting in a reduction of the Company's net obligations.

Charges for use of the transmission grid

The expense on charges for use of the transmission network totaled R\$ 119.56 million in 1Q09, 0.36% less than in 1Q08 (R\$ 119.99 million). This expense refers to the charges payable by electricity distribution and generation agents for use of the facilities that are components of the basic grid, as set by an Aneel Resolution. This is a non-controllable cost: the deduction from revenue recorded in the income statement is the amount actually passed through to the tariff.

Outsourced services

The expense on outsourced services in 1Q09 was R\$ 105.05 million, 5.1% higher than in 1Q08 (R\$ 99.95 million), mainly due to higher expenditure on maintenance and conservation of electricity facilities, and meter reading / bill delivery / collection agents. Details of the expenses under this line are given in Explanatory Note 25 to the Quarterly Information.

• Financial revenues (expenses)

The company posted net financial *expenses* of R\$ 7.773 million for 1Q09, which compares with net financial *revenue* of R\$ 10.541 million in 1Q08. The main factors affecting these figures were:

- Lower revenue from cash investments, at R\$ 10.18 million in 1Q09, 43.6% less than the revenue of R\$ 18.04 million in 1Q08, due to a lower volume of cash being invested in 1Q09.

- Revenue from penalty payments on electricity invoices in arrears in 1Q09, at R\$ 22.58 million, was R\$ 20.5 million less than in 1Q08 (R\$ 43.05 million). This variation arises from the revenue posted in 2008, in the amount of R\$ 10.52 million, for accounts received from large industrial consumers for consumption in prior years the principal amounts of which were considerably less than the amounts added as penalty payments for delay in settlement.
- Lower revenue from monetary updating on the regulatory assets arising from the General Agreement for the Electricity Sector: In 1Q09 this revenue was R\$ 14.24 million, compared to R\$ 27.34 million in 1Q08. This is basically due to the lower value of regulatory assets in 2009, due to the principal regulatory assets previously constituted having been amortized.
- Revenue from monetary updating and interest on the Deferred Tariff Adjustment 93.1% lower, at R\$ 1.78 million, in 1Q09, than in 1Q08 (R\$ 25.90 million), due to the reduction of the asset by receipt of amounts receivable, in electricity invoices. For more information please see Explanatory Note 10 to the Quarterly Information (ITR).
- Lower Monetary adjustment on loans and financings, at R\$ 3.74 million in 1Q09, compared to R\$ 19.19 million in 1Q08 reflecting higher variation in inflation indices in 1Q09 than in 1Q08.

For a breakdown of financial revenues and expenses, please see Explanatory Note 25 of the Quarterly Information.

• **Income tax and Social Contribution tax**

In 1Q07 Cemig Distribuição posted expenses on income tax and Social Contribution of R\$ 18.477 million, representing 23.83% of the pre-tax Income of R\$ 77.536 million. In the first quarter of 2008, the Company posted expenses on income tax and Social Contribution of R\$ 141.031 million, 32.96% of the pre-tax Income of R\$ 427.845. These effective rates are reconciled with the nominal rates in Explanatory Note 9 to the Quarterly Information.

EARNINGS RELEASE

1Q09

Cemig GT

21

• **Net Income**

Cemig Geração e Transmissão (**Cemig GT**) reported net Income of R\$ 232.413 million in the first quarter of 2009 (1Q09), 12.97% more than its net Income of R\$ 205.728 million reported for the first quarter of 2008 (1Q08). This mainly reflected lower net financial expenses than in 1Q08.

• **Ebitda**

(Method of calculation not reviewed by external auditors)

Cemig GT's Ebitda was significantly higher in 1Q09 than 1Q08:

EBITDA - R\$ 000	31/03/2009	31/03/2008	Change, %
Net Income	232,413	205,728	12.97
+ Current and deferred income tax and Social Contribution	136,642	106,953	27.76
+ Employees and managers shares in results	5,723	4,919	16.34
+ Financial revenues (expenses)	50,190	79,686	(37.02)
+ Depreciation and amortization	56,026	56,345	(0.57)
= Ebitda	480,994	453,631	6.03

The higher Ebitda in 1Q09 than in 1Q08 mainly reflects net revenue 7.25% higher, partially offset by operational expenses (excluding effects of depreciation and amortization) 9.66% higher. Ebitda margin was 65.68% in 1Q09, slightly lower than in 1Q08 (66.44%).

- **Gross revenue from supply of electricity**

Gross revenue from supply of electricity in 1Q09 was R\$ 769.147 million, 6.65% higher than in 1Q08 (R\$ 721.201 million).

Volume of electricity sold was 4.33% lower, as a result of the effect of the international recession on demand for electricity in Brazil in 2009. The reduction was most significant for industrial consumers: sales of 4,137,469 MWh in 1Q09, 7.91% less than the 4,492,919 MWh sold to industrial consumers in 1Q08. Part of the effect of this lower volume, however, was offset by wholesale sales to other concession holders and under bilateral contracts 1.08% higher than in 1Q08.

In spite of the lower volume sold, revenue was higher due to the feature of contracts with free consumers, in which a minimum level of payments is established even if volume of electricity supplied is lower. The increase in revenue arises from the adjustment of the greater part of these contracts since 1Q08 by the IGP-M inflation index.

- **Revenue from use of the grid**

This revenue is primarily for use of the facilities that make up the basic transmission network of Cemig GT, by generating and distributing companies that are participants in the Brazilian grid, according to amounts set by an Aneel resolution, and was 0.40% higher in 1Q09 than 1Q08.

- **Deductions from operational revenues**

Deductions from operational revenues totaled R\$ 193.5 million in 1Q09, 0.9% less than the total deductions of R\$ 195.3 million in 1Q08.

Main year-on-year variations in the deductions from revenue:

- **Fuel Consumption Account CCC**

The deduction from revenue for the CCC was R\$ 5.35 million in 1Q09, 25.0% less than in 1Q08 (R\$ 7.13 million). This refers to the operational costs of the thermal plants in the Brazilian grid and isolated systems, divided up between electricity concession holders by an Aneel Resolution. Cemig GT merely passes through this cost, to Eletrobrás, after charging it to Free Consumers on their invoices for use of the grid.

- **Energy Development Account CDE**

The deduction from revenue for the CDE was R\$ 5.80 million in 1Q09, 29.1% lower than in 1Q08 (R\$ 8.18 million). The payments are specified by an Aneel Resolution. Cemig GT merely passes through this cost, to Eletrobrás, after charging it to Free Consumers on their invoices for use of the grid.

- **RGR Global Reversion Reserve**

The deduction from revenue for the RGR was R\$ 19.77 million in 1Q09, 8.1% lower than in 1Q08 (R\$ 21.50 million). This is a non-manageable charge. It is lower due to adjustments for prior periods totaling R\$ 2.43 million posted in 2008.

The other deductions from revenue are for taxes that are calculated as a percentage of billing. Hence their variations arise substantially from the changes in revenue.

- **Operational costs and expenses**

(excluding Financial revenue (expenses))

Operational costs and expenses (excluding Financial revenue (expenses)) totaled R\$ 307.3 million in 1Q07, 7.6% higher than in 1Q09 (R\$ 285.5 million). For further information on the composition of operational costs and expenses, see Explanatory Note 21 to the Quarterly Information.

Main year-on-year variations in operational costs and expenses:

- **Personnel expenses**

Personnel expenses in 1Q09 were R\$ 68.80 million, 7.1% more than in 1Q08 (R\$ 64.22 million). The difference is primarily due to the salary increase of 7.26% given to employees in November 2008.

- **Post-employment obligations**

Expenses on post-employment obligations totaled R\$ 7.33 million in 1Q09, 38.9% less than in 1Q08 (R\$ 12.00 million). This expense basically consists of interest on the actuarial liabilities of Cemig GT, net of expected return on assets held by the pension plans, estimated by an external actuary. The lower expense in 2009 is due to adjustment in the actuarial assumptions, in December 2008, with a reduction in assumed interest rates.

- **Charges for use of the transmission grid**

Expenses on charges for the use of the transmission grid were R\$ 72.30 million in 1Q09, 12.2% higher than in 1Q08 (R\$ 64.44 million). This expense refers to the charges payable by electricity distribution and generation agents for use of the facilities that are components of the basic

grid, as set by an Aneel Resolution. The increase in the expense primary results from an upward adjustment, averaging 11.5%, in the TUST, in June 2008.

- **Raw materials and inputs for generation**

This expense, of R\$ 21.79 million in 1Q09, is primarily for purchase of fuel for the *Igarapé* thermal plant, which came into operation due to low reservoir levels resulting from low rainfall.

- **Outsourced services**

Expenses on outsourced services in 1Q09 totaled R\$ 24.54 million, 44.8% more than in 1Q08 (R\$ 16.95 million). A breakdown of outsourced services is given in Explanatory Note 21 to the Quarterly Information.

- **Other operational expenses**

Operational expenses in 1Q09 totaled R\$ 13.67 million, 17.7% less than in 1Q08 (R\$ 16.62 million).

• **Financial revenues (expenses)**

The company posted net financial *expenses* of R\$ 50.190 million in 1Q07, 37.02% less than the net financial *expenses* reported for 1Q08, of R\$ 79.686 million. The items comprising the financial result with the highest variations are listed below:

- *Revenue* of R\$ 10.578 million from foreign exchange variation in the first quarter of 2009, compared to a net *expense* of R\$ 6.704 million in 1Q08, basically due to the higher variation in 1Q09 in the currencies that index the Company's loans and financings in foreign currency, especially the US dollar and the yen.
- Reversal, in 1Q09, of a provision of R\$ 8.72 million for losses on free energy, which compares with a provision of R\$ 10.16 million made in 1Q08.
- Revenue from cash investments R\$ 6.79 million higher in 1Q09, due to a higher volume of cash invested.

For a breakdown of financial revenues and expenses, please see Explanatory Note 22 to the Quarterly Information.

• **Income tax and Social Contribution tax**

In 1Q09, Cemig GT posted expenses for income tax and the Social Contribution tax totaling R\$ 136.642 million, representing 36.46% of the pre-tax Income of R\$ 374.778 million. N

As a result the representatives of the stockholder Companhia Energética de Minas Gerais - **Cemig proposed**, as to the composition of the **Board of Directors**:

The above-mentioned **proposal** of the representatives of the stockholder Companhia Energética de Minas Gerais - Cemig was put to the **vote**, and **approved**.

The Board Members elected declared in advance that they are not subject to any prohibition on exercise of commercial activity, that they do not occupy any post in a company which may be considered a competitor of the Company, and that they do not have nor represent any interest conflicting with that of Cemig GT, and assumed a solemn undertaking to become aware of, obey and comply with the principles, ethical values and rules established by the Code of Ethical Conduct of Government Workers and Senior Administration of the State of Minas Gerais.

The Chairman then explained that Companhia Energética de Minas Gerais has assigned, to each new member of the Board of Directors, as its fiduciary agent, one single share owned by itself, for the period for which such members remain as members of the Board of this Company, solely and exclusively to comply with the requirement that the members of the Board of Directors must be shareholders of the Company. He said that, once the Board Members had completed their period of office or if they were dismissed from their positions, the shares granted to them shall be automatically transferred back to Cemig, without there being any need whatsoever for signature by the Board Members in question, and that the fiduciary nature of the assignment of the shares is based on the legal principle that determines that a person who receives an asset, in this case, the share, has the commitment to restitute it in a certain event, in this case, the end of the term of office, or leaving office, or being dismissed from it.

The Chairman then stated that the **Board of Directors** of the Company is now as follows:

Roberto Pinto Ferreira Mameri Abdenur,	Clarice Silva Assis,
André Araújo Filho, and	Andréa Leandro Silva and

	respectively.

The Chairman then stated that the publications by Cemig GT specified in Law 6404 of December 15, 1976, as amended, and in CVM Instruction 232 of February 10, 1995, will be made not only in the newspaper *Minas Gerais*, the official publication of the Powers of the State, but also in *O Tempo* and *Valor Econômico*, without prejudice to possible publication in other newspapers.

Finally, he stated that, since the selection of the newspapers *O Tempo* and *Valor Econômico* arises from the result of Electronic Auction 500-H 90565, legal appeals may be presented to the Company within a period of five business days, which could alter the said result of the tender process. In this event, Cemig GT will publish a Notice to Stockholders stating the new newspapers for the publication specified in the above-mentioned Law.

The meeting being opened to the floor, and since no-one else wished to make any statement, the Chairman ordered the session adjourned for the time necessary for the writing of the minutes. The session being reopened, the Chairman, after putting the said minutes to debate and to the vote and verifying that they had been approved and signed, closed the meeting.

For the record, I, Anamaria Pugedo Frade Barros, Secretary, wrote these minutes and sign them together with all those present.

Barbacena 1.200, 19th floor, B 1 Wing, Belo Horizonte, Minas Gerais, or showing them at the time of the meeting.

Belo Horizonte, April 23, 2009.

Sérgio Alair Barroso

Chairman of the Board of Directors.

Before the items on the agenda of this meeting were put to debate and to the vote, the representative of the stockholder **Southern Electric Brasil Participações** Ltda. **stated that the changes in the Bylaws made in** the Extraordinary General Meeting of Stockholders of October 25, **1999**, and also the subsequent alterations, were approved only by virtue of the suspension of the Stockholders' Agreement, by decision of the Courts, and **were** thus **provisional** and precarious.

He stated that hence the acts and operations practiced or submitted to approval by the management bodies of Cemig, supported by the said changes in the Bylaws made under the protection of the Court decision in force today, may, at any moment, be reviewed and withdrawn from the world of legal existence.

On this question, the representative of the stockholder **The State of Minas Gerais reminded the meeting that** the decision which annulled the Stockholders' Agreement signed between the State of Minas Gerais and Southern Electric Brasil Participações Ltda. no longer has an interim or provisional character. It is, he said, a decision on the merit and it is thus a case not of suspension but of annulment.

He added that there is already in existence a decision on the merit that annuls the Stockholders' Agreement, confirmed by the Appeal Court of the State of Minas Gerais.

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

He further explained that the decisions of this Meeting can only take into account what exists at the present moment, and that it would be irresponsible not to vote on matters, in expectation of Court decisions, since, in reality, the said Stockholders Agreement, by force of Court judgment, cannot produce any effect and the decisions taken are being taken within strict compliance with the Court decision.

Finally, he noted that the Extraordinary and Special Appeals brought by Southern were not admitted by the Vice-chairman of the Minas Gerais Appeal Court, and that the Higher Appeal Court refused the interlocutory and special appeals brought by Southern, thus underlining and reinforcing the legal situation already stated by the Minas Gerais Appeal Court, that is to say, the inefficacy of the Stockholders Agreement subject of the action. Once again taking the floor, the representative of Southern Electric Brasil Participações Ltda. stated that the Interlocutory Appeal brought against the dispatch denying the Extraordinary Appeal is awaiting judgment in proceedings in the Federal Supreme Court.

Continuing with the business of the meeting, the Chairman requested the Secretary to proceed to reading of the Proposal of the Board of Directors, which deals with the matter that is on the agenda, the content of which document is as follows:

- ii- the consolidated debt ratio $[\text{Net debt} / (\text{Net debt} + \text{Stockholders equity})]$ to be less than or equal to 50% (fifty per cent);

- iii- consolidated Current Assets, including for the purposes of Clause 30 (thirty) of the Bylaws, to be less than or equal to 10% (ten percent) of the Company's Ebitda (profit before interest, taxes, depreciation and amortization);

- iii- consolidated funds used for capital expenditure and for acquisition of any assets, exclusively in the business years 2006 and 2007, to be limited to a maximum of 65% (sixty five percent) and 55% (fifty five percent) of the Company's Ebitda (profit before interest, taxes, depreciation and amortization), respectively;

- t) the Long-term Strategic Plan aims for sustainable growth of Cemig and, for this purpose, imposes conditions of security that aim to maintain the level of debt at the limits of risk acceptable for a company of its scale, and also the return on investments as established by the Stockholders;

- u) it is known to all that the Brazilian Electricity sector is undergoing a process of consolidation of companies with the occurrence of a large number of mergers and acquisitions; thus, the future outlook includes opportunities for expansion, in all the segments in which Cemig operates, either through the construction of new projects, or through acquisition of assets;

- v) the investment opportunities that are presented today, because they are concentrated in the short term, result in a volume of investments which, in turn, is higher than the Ebitda-related investment indicator referred to above;

Edgar Filing: ENERGY CO OF MINAS GERAIS - Form 6-K

w) at the same time, the targets established by the Long-term Strategic Plan, for the coming years, in relation to net profit, point to a growth that is only attainable through heavy investment in existing assets;

x) taking this scenario into consideration, the Company's economic and financial projections confirm the need to invest amounts close to 125% (one hundred and twenty five percent) of Ebitda if it is desired to achieve the targets established in the Strategic Plan for 2009; and,

y) thus, although the limit of the indicator for Investments in terms of Ebitda is 40% (forty percent) under Clause 11 (eleven), Paragraph 5 (five), Sub-item d of Cemig's Bylaws, it is necessary to exceed this limit in the year 2009, and hence the Board of Directors must require express authorization from Stockholders, through the calling of a Extraordinary General Meeting of Stockholders;

• **now hereby proposes to you the following:**

1- **approval** of the appointment of the specialized company Hirashima & Associados Consultoria em Transações Societárias Ltda., with head office at Rua Florida, 1758, 1st floor, Cidade Monções, in the city of São Paulo/SP, CEP 04565-001, registered in the CNPJ under number 05.534.178/0001-36, for the preparation of an Opinion on Valuation of the Assets of Terna Participações S.A., a listed company with shares traded in *Units* (each unit being equivalent to two preferred shares and one common share) listed at Level 2 (two) on the São Paulo Stock Exchange, which holds a stockholding interest in the following electricity transmission concessions: Novatrans Energia S.A. 4 Terna S.p.A. will remain liable for indemnity of the amount of any contingencies that are identified and of which notice is given by Cemig GT to Terna S.p.A. up to 18 (eighteen) months after the closing of the transaction, up to a limit of 160 million, save that from this limit there shall be excluded the first R\$ 18 million initially incurred by Terna this being the value of the contingency taken into account by the purchaser in deciding the purchase price.

9 The effectiveness and demandability of Cemig GT's obligations in the Share Purchase Contract shall be conditional upon ratification of the signing of the contract by the General Meeting of Stockholders;

l) the previous partner of Cemig GT in this acquisition resisted from the transaction, when there was not enough time remaining for negotiation of another partnership;

m) in the event that it is found to be convenient and of interest for Cemig GT to have a lower holding in the registered capital of Terna, for strategic and/or financial reasons, and in accordance with the public interest, provided that it takes place before the date of closing of the transaction and transfer of ownership of the shares, Cemig GT may, by a new decision of this Board of Directors, constitute a new partnership, with a duly qualified partner, so as to maintain a stockholding interest of up to 50% less 1 (one) common share and 50% less 1 (one) preferred share in Terna, thus re-establishing the stockholding structure negotiated in the previous partnership.

n) under Clause 2, Sole sub-paragraph, of the Company's Bylaws, the Board of Directors must authorize holdings in the capital of other companies;

o) acquisition by Cemig GT of the control of Terna requires prior authorization by the General Meeting of Stockholders or its ratification, since the purchase price is a material investment for the purchaser (Article 247, Sole sub-paragraph of Law 6404/1976), under Article 256 of that law;

• **now proposes to you the following:**
