Item 8.01. Other Events.

Edgar Filing: GLEACHER & COMPANY, INC. - Form 8-K

On August 22, 2011, the Company announced that it is implementing a new strategic plan. The Company will continue to service clients through its fixed income business and will realign and invest in its core investment banking practice. These changes resulted from the Company's previously announced strategic review of its business operations.

The strategic plan is designed to maximize revenue and rationalize expenses by:

- Leveraging the expertise and execution capabilities of the Company's fixed income business, including capitalizing on opportunities in the mortgage-backed securities and credit markets;
- Realigning the Company's investment banking practice to enhance the firm's position as a leading advisor and to deliver the capital raising capabilities of its fixed income business to corporate clients;
- Reorganizing around key industry verticals, including real estate, financial services, aerospace and defense, general industrial, and financial sponsor coverage;
- Opportunistically adding new businesses that are synergistic with the Company's core competencies and the needs of its clients; and
- Continuing the build out of the Company's national mortgage origination platform through additional investment in ClearPoint Funding.

The Company will exit the Equities business, effective immediately. The Company determined that the Equities Division was an underperforming, non-core asset, and that its closure will allow the Company to improve its focus and invest in its core competencies. Exiting the Equities business will impact 62 employees. The plan also includes the termination of 32 investment banking employees as well as certain administrative positions.

Following these actions, the Company will carry a headcount of approximately 400 employees. The Company estimates that annual run rate operating expenses will be reduced by approximately \$40 million, which includes savings related to compensation and benefits, anticipated settlement of leases and other contractual obligations.

The Company also stated its intent to target an operating margin of 10% and return on equity of 15%. It is further targeting a compensation-to-revenue ratio of 60%, with the Company's senior managers committed to this plan. The Company said that it intends that equity grants will represent a substantial portion of annual bonus compensation for the leaders of its business segments.

The Company's Board of Directors approved the plan to exit the Equities business on August 22, 2011. As stated above, the principal reasons for this decision were that the Equities division was an underperforming, non-core asset, and that its closure will allow the Company to improve focus and invest in its core competencies. In connection with this plan, the Company expects to incur a pre-tax charge in the third quarter of 2011 of approximately \$10 million. Of the total charge, the Company estimates that approximately \$8 million will result in future cash expenditures. The major types of costs associated with the plan, and an estimate of each, are as follows:

- approximately \$3 million to \$5 million related to severance and other compensation costs;
- approximately \$2 million to \$4 million in lease costs; and
- approximately \$2 million to \$4 million in costs associated with third-party vendor contracts and other costs.

As a result of the planned termination of 32 investment banking employees and an associated realignment of the business, the Company concluded on August 22, 2011 that a material charge for impairment of intangible assets, including goodwill, related to its investment banking business is required under generally accepted accounting principles. The Company is engaged in an analysis to determine the extent of the impairment and the size of the related charge. The Company currently believes that all or a large majority of the \$88 million in intangible assets related to the investment banking division has been impaired, and will be written off for financial reporting purposes.

The Company's Board of Directors has also approved changes in the Company's general policy regarding the vesting and forfeiture of equity awards under the 2007 Incentive Compensation Plan. Under the prior policy, equity awards granted in connection with year-end bonus compensation were expensed ratably during the year with respect to which the service was provided. The Company currently expects that future equity awards in general will provide for forfeiture of awards by employees who leave the Company, which would result in the related compensation expense being recorded ratably over the vesting period of the award. In connection with this change, the Company expects a reduction in compensation expense in the third quarter of 2011 of approximately \$1.8 million. This change does not affect the terms of, or accounting for, currently outstanding awards.
