On December 6, 2011 (the "Effective Date"), Bally Technologies, Inc. (the "Company") entered into a Letter Agreement (the "Agreement") with Mr. Derik Mooberry, the Company's Senior Vice President, Products and Operations. Pursuant to the Agreement, Mr. Mooberry's duties generally include oversight and management of the Company's product development and product marketing as well as any other activities that the Company may deem appropriate or as the Chief Operating Officer may assign. Pursuant to the Agreement, Mr. Mooberry will receive a salary of \$231,750 and will be entitled to participate in the Company's Senior Management Incentive Program. Mr. Mooberry will also continue to participate in the established Revenue and Operating Income base incentive programs currently in place.

Mr. Mooberry also received equity grants on the Effective Date of 4,000 stock options and 4,000 shares of restricted stock under the Agreement, each vesting in four equal installments on the first, second, third and fourth anniversaries of the Effective Date, subject to Mr. Mooberry's continued employment with the Company. The awards are subject to the terms of the Company's 2010 Long Term Incentive Plan. If Mr. Mooberry is terminated without Cause, as defined in the Agreement, Mr. Mooberry would continue to receive his then current salary for a period of one-year following termination. Any such payments would however be offset by any income earned by Mr. Mooberry from other employment during the one-year period. The Company's obligation to pay any salary continuation is conditioned upon Mr. Mooberry's execution of a release of claims and continued compliance with the restrictive covenants set forth in the Agreement.

The Agreement includes customary non-compete, non-solicitation, confidentiality and non-disparagement covenants as well as an intellectual property assignment by Mr. Mooberry. The foregoing summary is qualified in its entirety by reference to the complete text of the Agreement, a copy of which is filed herewith as Exhibit 10.1 and incorporated herein by reference.
