Proposal 1

Two of our current directors, Charles Smith and Christopher Skillen have determined not to stand for reelection as directors, leaving Mr. Day, if he is elected, as our sole director. Mr. Smith

and Mr. Skillen have determined that their services as directors will no longer be required since we plan to cease our operations assuming the proposal to sell all of our assets is approved.

GOVERNANCE OF ENDO

Due to our lack of operations and size, we have not designated an Audit Committee. Our board of directors acts as our Audit Committee and performs equivalent functions, such as: recommending a firm of independent certified public accountants to audit the annual financial statements; reviewing the independent auditors independence, the financial statements and their audit report; and reviewing management's administration of the system of internal accounting controls. For these same reasons, we did not have any other committees during fiscal 2005, including the lack of a nominating committee.

During fiscal 2005, the Board held 2 meetings. None of the directors attended fewer than 75% of the total number of meetings of the Board of Directors.

SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Securities Exchange Act of 1934 requires our directors, executive officers and any persons who beneficially own more than 10% of our common stock to send reports of their ownership of shares of common stock and changes in ownership to us and the SEC. Based on the Company's review of the copies of these reports received by it, and written representations received from reporting persons, the Company believes that all filings required to be made by the reporting persons for the 2005 fiscal year were made on a timely basis.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTION

Peter Day, our Chief Executive Officer, President, director and current director nominee, is purchasing all of our assets and shares in Endo Networks, Inc., a corporation incorporated under the laws of Canada from us pursuant to that certain Asset and Share Purchase Agreement dated as of June 26, 2006.

STOCKHOLDER COMMUNICATIONS WITH DIRECTORS

Endo stockholders who want to communicate with our Board or any individual director can write to:

Endo Network, Inc.

2624 Dunwin Drive, Unit #3

Mississauga, Ontario, Canada L5L 3T5

Attn: Board Administration

Your letter should indicate that you are an Endo stockholder. Depending on the subject matter, management will:

.

Forward the communication to the Director or Directors to whom it is addressed;

.

Attempt to handle the inquiry directly, for example where it is a request for information about Endo or it is a stock-related matter; or

.

Not forward the communication if it is primarily commercial in nature or if it relates to an improper or irrelevant topic.

At each Board meeting, a member of management presents a summary of all communications received since the last meeting that were not forwarded and makes those communications available to the Directors on request.

DIRECTORS ATTENDANCE AT ANNUAL MEETINGS

We intend to schedule a Board meeting in conjunction with our annual meeting and expect that our directors will attend, absent a valid reason, such as a schedule conflict. This is our first annual meeting and therefore, there was no annual or corresponding board meeting last year.

EXECUTIVE AND DIRECTOR COMPENSATION

We pay or accrue our President's salary, which is \$103,200 annually. We have not paid or accrued any other salary for our officers or directors. We do not have a retirement or stock option or bonus plan for our officers.

Independent Public Accountants

The Board reappointed Lopez, Blevins, Bork & Associates, LLP as the independent accounting firm to audit our financial statements for fiscal 2006. Lopez, Blevins, Bork & Associates, as the Company's independent accounting firm, audited our financial statements for fiscal years ended 2004 and 2005.

Representatives of Lopez, Blevins, Bork & Associates, LLP will not be present at the meeting nor will they be available during that time to respond to any questions.

Audit Fees

The fees billed by Lopez, Blevins, Bork & Associates, LLP for the indicated services performed during fiscal 2005 were as follows:

	<u>Fiscal 2005</u>
Audit fees	\$10,000
Audit-related fees	\$0

Tax Fees	\$0
All other fees	\$5,800

The amounts shown for All other fees were for reviews of our financial statements for fiscal 2005 in which they did not audit or issue any report and consultations regarding generally accepted accounting principles.

Our Board of Directors must pre-approve all auditing services and permitted non-audit services (including the fees and terms thereof) to be performed for Endo by its independent auditors, subject to the *de minimus* exceptions for non-audit services described in Section 10A(i)(1)(B) of the Securities Exchange Act of 1934, which should nonetheless be approved by our Board prior to the completion of the audit. Each year the independent auditor's retention to audit our financial statements, including the associated fee, is approved by the Board before the filing of the previous year's annual report on Form 10-KSB. At the beginning of the fiscal year, the Board will evaluate other known potential engagements of the independent auditor, including the scope of work proposed to be performed and the proposed fees, and approve or reject each service, taking into account whether the services are permissible under applicable law and the possible impact of each non-audit service on the independent auditor's independence from management. At each subsequent Board meeting, the auditor and management may present subsequent services for approval. Typically, these would be services such as due diligence for an acquisition, that would not have been known at the beginning of the year.

Since May 6, 2003, the effective date of the Securities and Exchange Commission rules stating that an auditor is not independent of an audit client if the services it provides to the client are not appropriately approved, each new engagement of Lopez, Blevins, Bork & Associates, LLP has been approved in advance by the Board, and none of those engagements made use of the *de minimus* exception to pre-approval contained in Section 10A(i)(1)(B) of the Securities Exchange Act of 1934.

Proposal 2

Proposal to sell all of our assets

All of our operations are conducted through, and all of our assets are contained within Endo Networks, Inc., a corporation incorporated under the laws of Canada. Our Board is proposing that we sell all of our assets and shares of Endo Canada to Mr. Peter Day pursuant to the terms of that certain Asset and Share Purchase Agreement by and between us and Peter Day, a director and our current President, dated June 26, 2006. The Purchase Agreement was approved by our Board, subject to stockholder approval, on June 26, 2006. The Purchase Agreement is attached hereto as Exhibit A and is incorporated herein by reference. The material terms of the Purchase Agreement are

summarized below. This is not a complete summary of the Purchase Agreement and is subject in all respects to the provisions of, and is qualified by reference to, the Purchase Agreement. Stockholders are urged to read the Purchase Agreement in its entirety.

If we do not complete the Sale to Mr. Day there is a substantial doubt that we will be able to continue as a going concern.

The Parties to the Purchase Agreement

Endo Canada helps businesses acquire new customers and build sales and loyalty with existing customers. It uses interactive technology such as touch screen kiosks, handheld computers, and websites, combined with promotional marketing tactics to filter large numbers of consumers, to find qualified prospects, and even precondition them for a sale. *Endo Canada*'s services can be deployed within a business' own retail environment, to increase sales with their own customer base by increasing frequency of visit and/or average spend with individual customers, or they can be deployed within a partner location such as an office tower or a consumer show, to find and acquire qualified new customers.

The solutions are:

-

Permission based

-

Integratable with legacy systems

-

Scaleable

-

Measurable

-

Conducive to brand partnerships

Endo Canada's areas of expertise include: Web, Kiosk, Handheld, Wireless, Loyalty, Promotional Marketing, Direct Marketing, Integration with Point of Sale, Survey, Incentive, Sampling, and Field and Event Marketing. Its client base includes specialty retail, general retail, food service, automotive, alcohol, energy, consumer packaged goods, entertainment, amateur sports, and telecommunications companies. *Endo Canada*'s corporate head office is located at 2624 Dunwin Drive, Unit 3, Mississauga, Ontario, Canada, 20 minutes from Toronto and 60 minutes from Buffalo. We were incorporated in Texas as Discount Mortgage Services, Inc. on July 11, 2000 and in September 2001 purchased *Endo Canada*, which was incorporated in Ontario, Canada on January 30, 2001, in which conceptual and software development was ongoing prior to this date for approximately two years by company founders. Discount Mortgage Services Inc. (Texas) acquired *Endo Canada* in September, 2001. Discount Mortgage Services Inc. (Texas) underwent a name change to *Endo Networks, Inc. (US)* in November, 2001 and was re-domiciled to Nevada in December, 2002. As of June 26, 2006, we had 16 total employees, 10 full-time.

Mr. Day has been our President and one of our directors since 2001; he is also the director nominee. As stated elsewhere in this proxy statement, he has extensive business experience and is well equipped to own and manage our business operations. Mr. Day attended the University of Toronto from 1989 to 1992 studying English, History and Psychology and attended Humber College in 2000 studying Telecommunications. Mr. Day's relevant work experience follows: General Manager and Partner in Down Home Satellite Programming, Inc. from 1996 to 1998; Marketing Director and General Manager for Galaxy Satellite Programming,

Inc. from 1998 to 2000; Vice President Streamline Media, Inc., a computer software and web design company from 2000 to 2002; Vice President and General Manager for Endo Networks, Inc. from 2000 to 2002, President for Endo Networks, Inc. 2002 to present.

Background of the Sale

Reasons for the Sale. Since inception, we have incurred losses and had substantial trouble maintaining consistent cash flow necessary to operate our business. As recently as our last fiscal year and quarter, we reported losses and working with a capital deficit for those same periods. The additional investment and infrastructure we need to sustain our business and develop our operations cannot be supported by our current cash flow. We have also been unable to, and there is no assurance that we will be able to, either (1) achieve a level of revenues adequate to generate sufficient cash flow from operations; or (2) obtain additional financing through either private placement, public offerings and/or bank financing necessary to support our working capital requirements. In view of the foregoing, our lack of our growth and the limited platform for our future growth in our current state, our Board determined that it would be in our stockholders' best interests to sell all of our assets to Peter Day. In making this determination, the Board gave primary consideration to Mr. Day's familiarity with our operations and business relations. The Board believes that Mr. Day's knowledge of our operations would lead to an efficient and expeditious sale process. The Board was also able to negotiate Mr. Day's agreement to assume any liability with respect to our assets prior to the closing. As a result, we did not solicit or receive any alternate purchase offers. As a result of the sale, once it is approved and completed, we will be a "public shell" company. In advance of attaining this status, our Board of Directors has been evaluating the possibility of a transaction in which we would merge our "public shell" company with a privately-held operating business. Although we have had preliminary negotiations with potential merger candidates, we have no formal agreements with any third parties to effect a merger or acquisition following the sale of Endo Canada and cannot assure that we will be able to effect such a merger or acquisition upon terms that we consider favorable or at all.

Our Board considered the risks and challenges facing our company in the future as compared to the opportunities available to our company in the future and concluded that the asset sale was the best alternative for maximizing value to our shareholders. Some of the other factors our Board considered in making that determination include:

-
the short-term and long-term interests of our company and our shareholders;

-
the purchase price and the other terms of the Sale, including limited representations and warranties by us concerning our assets and the minimal conditions to Mr. Day's obligation to close the sale;

-
the expeditious manner in which the transaction could be completed;

-

the liquidity concerns currently faced by our company;

-

our need for additional capital to pursue strategic opportunities, to diversify;

-

Our ability to benefit from Mr. Day's current involvement in our business and operations; and

-

the opportunity for us to realize immediate value to fund strategic opportunities.

Description of the Sale

Assets Transferred and Liabilities Assumed. Pursuant to the Purchase Agreement, we will sell all the assets, properties and shares of Endo Canada that we own or have any right, title, or interest inchoate or otherwise, of every kind and description, wherever located, including all property tangible or intangible and real or personal, good will, processes, research and development projects, designs, patents, accounts receivable, bank accounts, cash, securities, claims, and contract rights. As consideration for all of the assets, which currently total \$553,015 and the shares of our subsidiary, Mr. Day will assume all of our liabilities, which currently total \$919,389, except for the following excluded liabilities (i) costs or expenses connected with or resulting from the negotiation or consummation of the Purchase Agreement or the sale or transfer of assets and shares pursuant to the Purchase Agreement and (ii) any liabilities of any person or firm other than us. We expect to close the Sale the day following the annual meeting, assuming we obtain the required vote.

Use of Proceeds from the Sale

Since Mr. Day is assuming all of our liabilities in exchange for all of our assets and shares of Endo Canada, there are no proceeds from the sale. The assumption of our liabilities is the only consideration we are receiving from the Sale.

Other Material Terms of the Asset Sale Agreement

Representations and Warranties. The Purchase Agreement contains customary representations and warranties from us to Mr. Day relating to, among other things: our financial position, our corporate standing, our title to all of our and Endo Canada's property, and our accounts receivable.

Conditions to the Closing. In addition to the customary closing conditions contained in the Purchase Agreement, we are also required to obtain the affirmative vote of a majority of our shareholders to approve the Purchase Agreement and the Sale contemplated thereby, which we are seeking through this proxy statement.

Indemnification. We will indemnify, defend and hold Mr. Day harmless against and in respect of any and all liabilities including interest, penalties and reasonable attorneys' fees, that he incurs or suffers, which arise or result from, or relate to (i) any breach by us of any of our representations or warranties contained in the Purchase Agreement, or our failure to perform any covenant or agreement contained therein, (ii) any and all claims of whatever nature, asserted (with or without the commencement of legal action) against Mr. Day with respect to the Excluded Liabilities and (iii) any and all claims, demands, damages, costs and expenses, including reasonable attorney fees for the defense of such claims. Mr. Day will indemnify, defend and hold us harmless against and in respect of any and all liabilities, including interest, penalties and reasonable attorneys' fees, that Mr. Day incurs or suffers, which arise or result from, or relate to the breaches and claims described above in (i) and (ii), respectively.

Appraisal Rights

Our stockholders will not be entitled to appraisal rights in connection with, or as a result of, the Sale.

Interests of Our Directors and Officers in the Sale

Mr. Day, our current President and director, as buyer, will own all of our assets and shares of Endo Canada after the Sale.

Shareholder Rights after the Sale

Shareholders' rights will not change pursuant to the Sale.

Material Federal Income Tax Consequences of the Sale

The following discussion is based on the Internal Revenue Code of 1986, as amended, applicable Treasury Regulations, judicial authority and administrative rulings and practice, all as of the date hereof. The Internal Revenue Service could adopt a position contrary to that presented in the following discussion. In addition, future legislative, judicial or administrative changes or interpretations could adversely affect the accuracy of the statements and conclusions set forth herein. Any such changes or interpretations could be applied retroactively and could affect the tax consequences of the proposed asset sale to us. The discussion does not deal with all federal income tax consequences that may be relevant to a particular holder of shares of common stock, or any foreign, state or local tax considerations. Accordingly, shareholders are urged to consult their own tax advisors as to the specific federal, foreign, state and local tax consequences to them as a result of the Sale.

As a result of the Sale, we will sell substantially all of our operating assets to Mr. Day in exchange for his assumption of all of our liabilities. This amount will be allocated among all of our assets that are sold to Mr. Day. We will recognize gain or loss on each of the assets sold in an amount equal to the difference between the sales price allocated to that asset and our tax basis in such asset.

We do not believe the Sale will result in substantial federal or state corporate income tax liability (including any alternative minimum tax liability) because we anticipate that most of the taxable gain recognized as a result of the Sale will be offset by our operating losses. However, tax authorities may disagree with our determination of our available operating losses or our allocation of the purchase price among the assets sold, or our operating losses could be less than anticipated, which may result in significant income tax liability as a result of the Sale. Until we obtain stockholder approval and are able to ascertain the closing date for the sale, it is difficult to complete our analysis of the tax consequences because the nature of certain liabilities is unresolved.

Regulatory Approvals

Neither we nor Mr. Day is required to comply with any federal or state regulatory requirements or obtain approval from any federal or state agency in connection with the Sale.

Provision for unaffiliated security holders

There are no provisions to grant unaffiliated security holders access to our corporate files or to obtain counsel or appraisal services at our expense.

Pursuant to Nevada Revised Statutes, NRS 78.565, this proposal can be approved by the affirmative vote of shareholders holding at least a majority of the voting power.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT YOU VOTE "FOR" THE PROPOSAL TO SELL SUBSTANTIALLY ALL OF OUR ASSETS PURSUANT TO THE ASSET SALE AGREEMENT.

Proposal 3

Proposal to effect a forward or reverse stock split.

The Board seeks the right to implement a stock split, on either a 20:1 forward or 1:20 reverse basis. If approved, this will only become effective when the Board chooses to exercise its right, which it will only do when it believes it to be in Company's and shareholders' best interest to do so. A reverse stock split will reduce the number of outstanding shares of our common stock by reclassifying and converting all outstanding shares of our common stock into a proportionately fewer number of shares of common stock. This action would also result in a relative increase in the available number of authorized but unissued shares of our common stock, because the number of shares authorized for issuance is otherwise unchanged by the split. A forward split will increase the number of outstanding shares of our common stock by reclassifying and converting all outstanding shares of our common stock into a proportionately larger number of shares of common stock. This action would also result in a relative decrease in the available number of authorized but unissued shares of our common stock, because the number of shares authorized for issuance is otherwise unchanged by the split.

Each stockholder's proportionate ownership of the issued and outstanding shares of our common stock would remain the same, however, except for minor changes that may result from additional shares issued in connection with fractional shares. And, with the exception of adjustments for those shareholders with fractional shares, the stock split will not affect any stockholder's proportional equity interest in the company in relation to other shareholders or rights, preferences, privileges or priorities. Outstanding shares of new common stock resulting from the stock split will remain fully paid and non-assessable.

Purpose and Reason For A Stock Split

There are 13,557,366 shares of our common stock issued and outstanding. Once we complete the Sale with Mr. Day, we will be an inactive company and will attempt to commence active business operations by locating an operating company and completing a merger transaction. We have not yet identified a suitable candidate and there can be no guarantee that we will identify one in the future. The Board believes that granting it the authority to implement a stock split is beneficial because it provides us with the flexibility to attract and secure a suitable acquisition candidate and to complete a transaction in a timely manner.

Management and our Board believe that it is in the best interests of our shareholders to pursue the possibility of acquiring another company to grow our business and increase our shareholders' value. To facilitate such a transaction, our Board requires the flexibility to adjust the number of issued and outstanding shares of our common stock to meet the requirements of any such transaction. The Board believes that the ability to effect a stock split, which could have the effect of making the Company more attractive for a potential business combination, will award such flexibility.

The Board believes that stockholder approval of alternative stock splits, forward or reverse, (rather than one or the other) provides the Board with additional flexibility to best achieve the desired results. The Board will only effect a stock split upon its determination that such a split would be in the best interests of the stockholders at that time. No further action on the part of stockholders will be required to either implement or abandon the stock split. The Board reserves its right to elect not to proceed, and abandon, the stock split if it determines, in its sole discretion, that it is no longer in the best interests of our stockholders. Currently, we do not have any specific plans to issue any shares of its common stock after effectuating the stock split.

A reverse stock split will reduce the number of outstanding shares of our common stock by reclassifying and converting all outstanding shares of our common stock into a proportionately fewer number of shares of common stock. This action would also result in a relative increase in the available number of authorized but unissued shares of our common stock, because the number of shares authorized for issuance is otherwise unchanged by the split.

A forward stock split would give the Board discretion should the market price of our common stock rise, to adjust the price into a range that is more attractive to the financial community and the investing public and thereby make a broader market. The Board anticipates that following a stock split our common stock share trading price would decrease which may encourage additional investors to invest. A stock split will increase the number of shares traded in the public market which we believe will establish a more liquid market in our common stock.

The Board is not asking you to approve a stock split that will take place immediately, but rather seeks the right to declare and effect a split if the Board determines that it is in our best interest and our shareholders' to do so in its effort to secure a suitable merger candidate.

STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNTIL REQUESTED TO DO SO.

No Appraisal Rights

Under the General Corporation Law of the State of Nevada, our stockholders are not entitled to appraisal rights with respect to the stock split, and we will not independently provide stockholders with any such right.

Reverse Stock Split

Purpose and Reason For A Reverse Stock Split

There are 13,557,366 shares of our common stock issued and outstanding. Management and our Board believe we could enhance our shareholder's value by locating an acquisition target and completing an acquisition. We have not yet identified a suitable candidate and there can be no guarantee that we will identify one in the future. The reverse split will decrease the number of shares of common stock outstanding and that may make the Company more attractive to a potential acquisition candidate and, may increase the per share market price for our common stock. The Board believes that a reverse split would assist the Company in developing a suitable capital structure both before and after any acquisition we may effect in the future.

If we do locate a suitable acquisition target, and we are able to complete an acquisition, it is likely that we will be required to issue a large amount of our common stock to the owners of such acquisition target so that they retain a high ownership percentage of our stock issued and outstanding immediately following the transaction. Without a reverse split however, we would have to issue an enormous amount of our common stock to provide the owners of the acquisition target with the ownership percentage that they may require. After such an issuance, we believe that the resulting amount of our outstanding shares will adversely affect any possibility of creating and maintaining an orderly market for our common stock following an acquisition.

Although the market price per share of our common stock may increase as a result of a reverse split, the effect of the reverse stock split cannot be predicted. There can be no assurance that the market price per share of our common stock after the reverse stock split will rise in proportion to the reduction in the number of shares of our common stock outstanding resulting from a reverse stock split. The market price of our common stock may also be based on its performance and other factors, some of which may be unrelated to the number of shares outstanding.

Disadvantages of a Reverse Stock Split

Even though the Board believes that the potential advantages of a reverse stock split outweigh any disadvantages that might result, the following are the possible disadvantages of a reverse stock split:

(a)

A reverse stock split may leave certain stockholders with one or more odd lots, which are stock holdings in amounts of less than 100 shares of our common stock. These odd lots may be more difficult to sell than shares of our common stock in even multiples of 100.

(b)

Because a reverse stock split would result in an increased number of authorized but unissued shares of our common stock, it may be construed as having an anti-takeover effect. For example, it may be possible for the Board to delay or impede a takeover or

transfer of control of our Company by causing such additional authorized shares to be issued to holders who might side with the Board in opposing a takeover bid that the Board determines is not in our best interests or those of our stockholders. The increase in the number of authorized but unissued shares of common stock may therefore have the effect of discouraging unsolicited takeover attempts. By potentially discouraging initiation of unsolicited takeover attempts, the increase in the number of authorized but unissued shares of common stock may limit the ability of our stockholders to dispose of their shares at the higher price generally available in takeover attempts or that otherwise may be available under a merger proposal. The increase in the number of authorized but unissued shares of common stock may have the effect of permitting our current members of management, including our current board members, to retain their position, and place them in a better position to resist changes that stockholders may wish to make if they are dissatisfied with the conduct of our business. However, our Board is not aware of any attempt to take control of the Company, and our Board did not approve this action with the intent that the increase in the number of authorized but unissued shares of common stock be utilized as a type of anti-takeover device.

(c)

The increased number of authorized but unissued shares of our common stock could be issued by the Board without further stockholder approval, which could result in dilution to the holders of our common stock.

Effect of the Reverse Stock Split

The principal effects of a 20:1 reverse split will be as follows:

Based upon the 13,557,366 shares of common stock outstanding today, the reverse split would decrease the outstanding shares of common stock to approximately 677,868 shares of common stock issued and outstanding. Further, any outstanding options, warrants and rights that are not anti-dilutive will be decreased accordingly.

Following the effectiveness of the reverse split, every twenty shares of common stock presently outstanding, without any action on the part of the stockholder, will represent one share of common stock.

Subject to the provisions for elimination of fractional shares, as described below, consummation of the reverse split will not result in a change in the relative equity position or voting power of the holders of common stock. Under the terms of the consent granted by our Board, we can also effect a reverse split at a ratio of less than 20:1, however, the same considerations discussed herein would still apply.

Federal Income Tax Consequences of the Reverse Split

The combination of shares of pre-split common stock into one share of post-split common stock should be a tax-free transaction under the Internal Revenue Code of 1986, as amended, and the holding period and tax basis of the pre-split common stock will be transferred to the post-split common stock. This discussion should not be considered as tax or investment advice, and the tax consequences of the reverse split may not be the same for all stockholders.

Stockholders should consult their own tax advisors to know their individual Federal, state, local and foreign tax consequences.

If approved, then we will obtain a new CUSIP number for the common stock when the Board exercises its right to implement the reverse split.

Forward Stock Split

Purpose and Reason For A Forward Stock Split

The primary purpose of a forward split is to increase the total number of the Company's shares issued and outstanding to ensure the existing share capital is not diluted by issuing shares from treasury in connection with an acquisition. Further, the increase will have the effect of increasing the shares available in the public float, thereby creating a more stable market for our stock.

A disadvantage to having a forward split is that it could result in a lower trading price if our stock starts to actively trade.

Effect of the Forward Stock Split

The principal effects of a 1:20 forward split will be as follows

Based upon the 13,557,366 shares of common stock outstanding today, the forward split would increase the outstanding shares of common stock to approximately 271,147,320 shares of common stock issued and outstanding. The proposed stock split would not change the stockholders' equity, nor would the split affect the relative rights of any stockholder or result in a dilution or diminution of any stockholder's proportionate interest in the Company. However, since the stock split would result in each stockholder's interest being represented by a greater number of shares, it is possible that higher aggregate brokerage commissions may be payable after a stock split upon a sale or transfer of a stockholder's same relative interest in common stock because that interest would be represented by a greater number of shares.

In connection with the stock split, the number of shares of common stock underlying outstanding stock options, stock warrants and reserved for issuance under our existing stock incentive plan would be proportionately adjusted pursuant to the terms of such agreements to reflect the stock split, and the per share exercise prices of outstanding options and warrants under such agreements would be proportionately reduced. Under the terms of the consent granted by our Board, we can also effect a forward split at a ratio of less than 1:20, however, the same considerations discussed herein would still apply.

Federal Income Tax Consequences of the Forward Split

We believe that a stock split would not result in the recognition of a taxable gain or loss to the stockholders for federal income tax purposes. In addition, we believe the tax basis for shares in the hands of a stockholder prior to the stock split will become the tax basis for the total

number of shares to be held by such stockholder immediately after the stock split, and the holding period of the newly acquired shares will be deemed to be the same as the holding period of the corresponding shares held prior to the stock split. This discussion should not be considered as tax or investment advice, and the tax consequences of the forward split may not be the same for all stockholders. Stockholders should consult their own tax advisors to know their individual Federal, state, local and foreign tax consequences.

If we find a suitable acquisition candidate, the Board will determine whether a forward or reverse split will better assist us in securing the candidate and completing an acquisition.

Procedure For Effecting A Stock Split

As soon as practicable after we implement a stock split and select an effective date thereof, we will send a letter of transmittal and instruction to each holder of record of shares outstanding on that date.

If we implement a *reverse* stock split, then on the date the Board decides to implement it, every twenty shares of common stock (or such lesser number as may be appropriate should our Board determine that a ratio of less than 20:1 is appropriate) outstanding at that time, without any action on the part of the stockholder, will automatically represent one share of common stock. The number of shares of common stock issued and outstanding will then be reduced accordingly. No additional action on our part or any stockholder will be required to affect the reverse split.

Stockholders will be requested to exchange their certificate representing shares of common stock held prior to the reverse split for new certificates representing shares of common stock. Stockholders will not have to submit certificates until requested to do so.

If we implement a *forward* stock split, then every one share of common stock outstanding at that time, without any action on the part of the stockholder, will automatically represent twenty shares of common stock (or such other number as may be appropriate should our Board determine that a ratio of less than 1:20 is appropriate). The number of shares of common stock issued and outstanding will then be increased accordingly. We will implement it by issuing an additional stock certificate to each stockholder of record as of the close of business on the effective date. The additional certificate will represent the additional shares and stockholders should retain their then current stock certificates.

No fractional shares of post-split common stock will be issued to any stockholder. In lieu of any such fractional share interest, each holder of pre-split common stock who would otherwise be entitled to receive a fractional share of post-split common stock will in lieu thereof receive one full share upon surrender of certificate formerly representing pre-split common stock held by such holder.

If the Board implements a stock split, we will promptly file a Certificate of Amendment with the Secretary of State of the State of Nevada to amend our existing Articles of Incorporation. The stock split will become effective on the date of filing the Certificate of Amendment, which is referred to as the "effective date." Beginning on the effective date, each certificate representing pre-stock split shares will be deemed for all corporate purposes to

evidence ownership of post- stock split shares. The text of the Certificate of Amendment is set forth in Exhibit B hereto. The text of the Certificate of Amendment is subject to modification to include such changes as may be required by the office of the Secretary of State of the State of Nevada and as the Board deems necessary and advisable to effect the stock split, including whether it will be a forward or reverse split.

Pursuant to Nevada Revised Statutes, NRS 78.2055 and NRS 78.207, this proposal can be approved by the affirmative vote of shareholders holding at least a majority of the voting power.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE PROPOSAL TO AUTHORIZE THE BOARD OF DIRECTORS TO IMPLEMENT A STOCK SPLIT.

The execution and the delivery of this Agreement by Seller, and the consummation of the transactions contemplated by this Agreement have been duly authorized by its board of directors. This Agreement, assuming due authorization,

execution, and delivery by the other parties hereto, constitutes a legal, valid, and binding Agreement of Seller, enforceable against Seller in accordance with its terms (subject, as to enforcement of remedies, to applicable bankruptcy, insolvency, moratorium, and similar laws affecting creditors, rights generally from time to time in effect and to equitable principles limiting the availability of the remedy of specific performance).

(b)

The financial statements of Seller relating to the 12 months ended September 30 2005, and the financial statements relating to the interim period ending March 31, 2006 (the SEC Documents), each prepared by independent public accountants for Seller and delivered to and reviewed by public accountants for Buyer during the course of the negotiations regarding this Agreement, fairly reflect the financial position of Seller and Endo Canada as of the end of those periods and the results of operations during those periods.

The assets are free and clear of all mortgages, liens, and encumbrances and are not subject to any right-of-way, easement, or restriction that interferes with the present use of the real property.

(d)

All assets and properties that were used in the business of Seller on the date of this Agreement, or that were reflected in the balance sheet dated March 31, 2006, are owned by Seller through its wholly owned subsidiary Endo Canada and are free and clear of all mortgages, liens, and encumbrances.

(e)

The Seller is not a party to any employment agreement, labor union agreement, agreement for the future purchase of materials, supplies, or equipment, sales agreement, pension, profit-sharing, or retirement plan or agreement, distributorship or sales agency agreement, or lease agreement that relates to any period beyond the closing date, whether written or oral, except as listed in the SEC Documents. Copies of all such written agreements have been supplied to Buyer, and Buyer has been advised of the terms of all such oral agreements.

(k)

No authorization or approval of any governmental body is required to be obtained by Seller in connection with the execution, delivery or performance of this Agreement, or, if so required, all such authorizations or approvals have been or will, prior to the Closing, be obtained by Seller.

(l)

The affirmative vote of the holders of a majority of the outstanding shares of Seller is the only vote of the holders of any classes or series of Seller's capital stock necessary to approve this Agreement and the sale of the Transferred Assets contemplated hereby (the "Requisite Endo Vote").

(m)

There is no action, arbitration, suit, notice, order, real estate tax contest or legal, administrative or other proceeding before any court or governmental agency, authority or body pending or, to Seller's knowledge, threatened against or affecting Seller which would prevent or interfere with the transactions contemplated by this Agreement

(a)

Buyer has the requisite power and authority to enter into and perform this Agreement and to purchase the Transferred Assets being sold to it hereunder. (b)

This Agreement has been duly authorized, executed and delivered by the Buyer and constitutes, or shall constitute when executed and delivered, a valid and binding obligation of the Buyer enforceable against him in accordance with the terms thereof.

(b) Indemnity by Buyer. Buyer shall indemnify, defend and hold harmless Seller against and in respect of any and all Liabilities, including interest, penalties and reasonable attorneys' fees, that Seller shall incur or suffer, which arise or result from, or relate to (i) any breach by Buyer of any of its representations and warranties contained in this Agreement or in any schedule, certificate, exhibit or other instrument furnished or to be furnished by it under this Agreement or the failure of the Buyer to perform any covenant or agreement contained in this Agreement.

The obligations of Buyer under this Agreement are conditioned on the following all having occurred on or before the closing date:

(a)

This Agreement and the sale of assets contemplated hereby shall have been approved by the Requisite Endo Vote.

(b)

All actions, proceedings, instruments, and documents required of Sellers under this Agreement shall be in a form approved by counsel for Buyer, provided that such approval shall not be unreasonably withheld.

(c)
