REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Employee Benefits Committee

of FMC Technologies, Inc.:

We have audited the accompanying statements of net assets available for benefits of the FMC Technologies, Inc. Savings and Investment Plan (the "Plan") as of December 31, 2012 and 2011 and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2012 and 2011, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Part IV Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2012 is presented for the purpose of additional analysis and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

FMC TECHNOLOGIES, INC.
SAVINGS AND INVESTMENT PLAN

Notes to Financial Statements

(1) Description of the Plan

The following description of the FMC Technologies, Inc. (the “Company”) Savings and Investment Plan (the “Plan”) provides general information. Participants should refer to the Plan Document, as amended, for a complete description of the Plan’s provisions.

(a) General

The Plan is a qualified salary-reduction plan under Section 401(k) of the Internal Revenue Code of 1986, as amended (the “Code”) and is available to all employees of the Company who meet certain eligibility requirements under the Plan. Such employees are eligible to participate in the Plan immediately upon commencement of their employment with the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan is administered by the FMC Technologies, Inc. Employee Benefits Committee, acting on behalf of the Plan administrator, the Company.

On November 8, 2012, the Employee Benefits Committee of the Company approved an amendment to the Plan to merge the Schilling Robotics 401(k) Plan (“Schilling Plan”) and Control Systems International, Inc. Salary Investment and Profit Sharing Plan (“CSI Plan”) into the Plan effective December 31, 2012.

(b) Contributions

The Plan allows participants to contribute a percentage of their compensation to the Plan. Participants may elect to contribute up to 75% of their total eligible compensation (20% for participants whose base salary is equal to or greater than the Internal Revenue Service (“IRS”) Highly Compensated Employee earnings limit) on a pre-tax or an after-tax basis. Participants may elect to make after-tax contributions, either as an alternative to pre-tax contributions, or in addition to pre-tax contributions. Pre-tax contributions were subject to the limitation of \$17,000 for 2012 and \$16,500 for 2011, under the Code. In addition, active employees who attain age 50 or older during the year are eligible to make catch-up contributions to the prescribed limit. The limitation on the catch-up contribution was \$5,500 for 2012 and 2011.

The Company makes matching contributions (“Company Safe Harbor Matching Contributions”) for all active participants, except for certain bargaining unit employees. The Company matches 100% of each participant’s contribution, up to the first 5% of eligible compensation. Effective January 1, 2010, the Company began making nonelective contributions to all eligible nonunion employees hired or rehired on or after January 1, 2010, and current nonunion participants with less than five years of vested service as of December 31, 2009. The nonelective contribution percentage is determined annually by the Company. The Company made nonelective contributions of 4% for all eligible participants during the years ended December 31, 2012 and 2011.

At December 31, 2012, a total of 7,456 current and former employees participated in the Plan.

(c) Trust and Recordkeeping

The Company and Fidelity Management Trust Company (the “Trustee”) established a trust for investment purposes as part of the Plan. The Trustee is also the Plan’s recordkeeper.

(d) Investment Options

Participants have the option of investing their contributions and the Company’s matching and nonelective contributions among one or all of the available investment options offered by the Plan. Generally, participants may transfer some or all of the balances out of any fund into one or any combination of the other funds at any time.

(e) Vesting

Participants are immediately vested in their elective contributions and Company Safe Harbor Matching Contributions, plus actual earnings thereon. Additionally, eligible participants become vested in any balance of their Company nonelective contributions upon three years of service.

(f) Payment of Benefits and Forfeitures

Upon termination of service, death, disability or attainment of age 59½, a participant may elect to immediately receive a lump sum distribution equal to the vested interest of his or her account. Participants may, upon termination, elect to defer their lump sum distribution or receive annual installments. If a participant is not fully vested in the Company's contributions to his or her account on the date of termination of employment, the nonvested portion is forfeited. Forfeitures are used to pay certain administrative expenses of the Plan and to reduce future Company contributions to the Plan. During 2012 and 2011, forfeitures of \$87,000 and \$163,000, respectively, were used to pay certain administrative expenses of the Plan and to reduce Company contributions. The forfeited balances held in the Plan as of December 31, 2012 and 2011, were \$414,000 and \$80,000, respectively.

(g) Administrative Expenses

Certain Plan administrative expenses are paid by the Trustee out of the assets of the Plan and constitute a charge upon the respective investment funds or upon the individual participants' accounts. Certain other Plan expenses may be paid by the Plan from the forfeitures balance or by the Company.

(h) Withdrawals and Loans

The Plan allows participants to make in-service and hardship cash withdrawals (subject to income taxation and IRS penalties) of some or all of their vested account balances. Eligible participants may also receive money from the Plan in the form of loans. The minimum that may be borrowed is \$1,000. The maximum that may be borrowed is the lesser of \$50,000, minus the highest outstanding loan balance during the one-year period ending on the day before the loan is made, or 50% of the participant's vested account balance. Loans, which are secured by the participant's vested account balance, must be repaid over a time period not to exceed 60 months with interest at a reasonable rate as determined by the Plan administrator. A participant may have no more than two loans outstanding at any one time.

(i) Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of the Plan and ERISA but has not expressed any intent to do so. In the event of Plan termination, participants will become 100% vested in their account balances.

(j) Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited with the participant's contributions, the Company's contributions and allocations of Plan earnings or losses and certain administrative expenses. Allocations are based on participant earnings or account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(k) Transfers to the Plan

In conjunction with the Company's business acquisition activities, plan assets of the Schilling Plan and CSI Plan of \$19,667,000 and \$16,009,000, respectively, were merged into the Plan effective December 31, 2012, and are included in Transfers to the Plan in the accompanying Statements of Changes in Net Assets Available for Benefits. At December 31, 2012, the Plan reported receivables related to the assets held by the trustees of the Schilling Plan and CSI plan and are included in the accompanying Statements of Net Assets Available for Benefits.

(2) Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

(a) Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America ("GAAP").

(b) Use of Estimates

The preparation of financial statements in conformity with GAAP requires management of the Plan administrator to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from these estimates.

(c) Reclassifications

Certain prior-year amounts have been reclassified to conform to the current year's presentation.

(d) Recently Adopted Accounting Standards

Effective January 1, 2012, the Plan adopted Accounting Standards Update (ASU) No. 2011-04, "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs" issued by the Financial Accounting Standard Board. This update clarifies the application of existing guidance and disclosure requirements, changes certain fair value measurement principles and requires additional disclosures about fair value measurements. The adoption of the update did not have a material impact on the presentation of the Plan's financial statements.

(e) Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains and losses on investments bought and sold during the year, and the unrealized gains and losses on investments held during the year. Dividends are recorded on the record date. Interest income is recorded on the accrual basis.

(f) Fully Benefit-Responsive Investment Contracts

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. Therefore, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis, which represents the principal balances of the contracts, plus accrued interest at the stated rate, net of payments received and contract charges by the insurance company.

The Plan holds investments in a fully benefit-responsive investment contract, Fidelity Managed Income Portfolio II Class 2 Fund ("Fidelity MIP II Fund"). The contract value of the Fidelity MIP II Fund was \$56,855,000 and \$69,449,000 as of December 31, 2012 and 2011, respectively.

For the years ended December 31, 2012 and 2011, the effective annual yield for the Fidelity MIP II Fund was approximately 1.73% and 1.92%, respectively, and the crediting interest rate to participants was approximately 1.28% and 1.60%, respectively.

(g) Notes Receivable from Participants

Notes receivable from participants represents the unpaid principal balance plus any accrued but unpaid interest of participant loans. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses was recorded as of December 31, 2012 and 2011.

(h) Payment of Benefits

Benefit distributions to participants are recorded when paid.

(3) Party-in-Interest Transactions

The Trustee provides certain accounting and administrative services to the Plan for which approximately \$182,000 and \$261,000 of expenses were charged for the years ended December 31, 2012 and 2011, respectively. Certain Plan investments, amounting to \$240,914,000 and \$223,505,000 at December 31, 2012 and 2011, respectively, are units of funds managed by the Trustee.

Certain employees and officers of the Company, who may also participate in the Plan, perform administrative services to the Plan at no cost.

A significant portion of the Plan's assets are invested in common stock of the Company. At December 31, 2012 and 2011, the Plan held 5,165,123 and 4,719,190 shares of common stock of the Company, respectively, with fair value of \$221,222,000 and \$246,483,000, respectively, and a cost basis of \$133,698,000 and \$102,672,000, respectively.

(4) Investments

Investments at fair value, which represent 5% or more of the Plan's assets available for benefits as of December 31, 2012 or 2011, are separately identified below:

(In thousands)	December 31,	
	2012	2011
FMCTI Stock Fund (Note 3)	\$221,222	\$246,483
Fidelity MIP II CL 2 Fund	58,440	71,178
Fidelity Money Market Trust Retirement Government Money Market Portfolio	28,207	32,359
The Plan's investments (including investments bought, sold, and held during the year) appreciated (depreciated) in value as follows:		
(In thousands)	Year Ended December 31,	
	2012	2011
Common stock	\$(45,307) \$39,055
Registered investment companies	16,812	(10,930)
Common / collective trusts	1,807	280
	\$(26,688) \$28,405

(5) Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset in an orderly transaction between market participants at the reporting date. The fair value framework requires the categorization of assets and liabilities into three levels based upon the assumptions (inputs) used to price the assets or liabilities. Level 1 provides the most reliable measure of fair value, whereas Level 3 generally requires significant management judgment. The three levels are defined as follows:

Level 1: Unadjusted quoted prices in active markets for identical assets and liabilities.

Level 2: Observable inputs other than those included in Level 1. For example, quoted prices for similar assets or liabilities in active markets or quoted prices for identical assets or liabilities in inactive markets.

Level 3: Unobservable inputs reflecting management's own assumptions about the inputs used in pricing the asset or liability.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques applied maximized the use of observable inputs and minimized the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value:

Common stock: Valued at the closing price reported on the active market on which the securities are traded.

Interest bearing cash: Valued at the net asset value of the shares held by the Plan at year-end, which is based on the fair value of the underlying investments using information reported by the investment advisor at year-end. This category is comprised of one fund: Fidelity Institutional Money Market Fund. This fund represents a money market fund with the investment objective to obtain a high level of current income with the preservation of principal and liquidity. The fund's investment strategies include investing in U.S. dollar-denominated money market securities of domestic and foreign issuers and investing more than 25% of total assets in the financial services industries. There are currently no redemption restrictions on these investments.

The amount invested in this fund is based upon a target established by the Plan administrator but may vary on any given business day with the amount of cash awaiting investment and with participant activity such as contributions, redemptions, and withdrawals in the FMCTI Stock Fund.

Registered investment companies: Valued at quoted market prices, which represent the net asset value of the securities held in such funds at year-end.

Money market fund included in registered investment companies is comprised of one fund: Fidelity Money Market Trust Retirement Government Money Market Portfolio. This fund is valued at amortized cost, which approximates fair value. This portfolio represents a mutual fund with an investment objective to seek a high level of current income with the preservation of principal and liquidity. The fund normally invests at least 80% of assets in U.S. government securities and repurchase agreements for those securities. There are currently no redemption restrictions on these investments.

Stable value fund: Valued at the net asset value of the shares held by the Plan at year-end, which is based on the fair value of the underlying investments using information reported by the investment advisor at year-end. This category is comprised of one fund: Fidelity MIP II CL 2 Fund. This fund represents a managed income fund with an investment objective to preserve the principal investment while earning a high level of interest income. The fund seeks to maintain a stable net asset value of \$1 per share. The fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities and money market funds. There are currently no redemption restrictions on these investments.

Common / collective trust: Valued at the net asset value of the shares held by the Plan at year-end, which is based on the fair value of the underlying investments using information reported by the investment advisor at year-end. This category is comprised of one fund: Fidelity U.S. Equity Index Commingled Pool Class 1 Fund. This fund represents a pool with an investment objective that seeks to provide investment results that correspond to the total return performance of common stock publicly traded in the United States. Normally, at least 90% of the assets will be invested in common stocks in the S&P 500 Index. There are currently no redemption restrictions on these investments.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different estimate of fair value at the reporting date. There have been no changes in the methodologies used at December 31, 2012 and 2011.

Assets measured at fair value were as follows:

(In thousands)	December 31, 2012				December 31, 2011			
	Total	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3
Common stock	\$221,222	\$221,222	\$—	\$—	\$246,483	\$246,483	\$—	\$—
Interest bearing cash	7,235	—	7,235	—	7,751	—	7,751	—
Registered investment companies:								
U.S. equity—large cap funds	56,320	56,320	—	—	44,839	44,839	—	—
U.S. equity—mid cap funds	25,684	25,684	—	—	23,523	23,523	—	—
U.S. equity—small cap funds	7,126	7,126	—	—	8,066	8,066	—	—
International equity funds	30,646	30,646	—	—	27,459	27,459	—	—

Fixed income funds	38,474	38,474	—	—	33,953	33,953	—	—
Money market fund ⁽¹⁾	28,207	—	28,207	—	32,359	—	32,359	—
Stable value fund ⁽¹⁾	58,440	—	58,440	—	71,178	—	71,178	—
Common / collective trust	13,550	—	13,550	—	10,944	—	10,944	—
Total assets at fair value	\$542,074	\$434,642	\$107,432	\$—	\$542,041	\$419,809	\$122,232	\$—

⁽¹⁾ Certain prior-year amounts have been reclassified to conform to the current year's presentation. We have reclassified a plan asset from stable value fund to money market mutual fund within the Level 2 classification. This change only impacted the presentation of information in the above table within the Level 2 classification and did not impact our financial statements for 2011.

(6) Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, credit risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(7) Income Taxes

The Plan obtained its latest determination letter on November 6, 2009, in which the IRS stated that the Plan and related trust, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the determination; however, the Plan administrator and the Plan's tax counsel believe that the Plan, as amended, is designed and is currently being administered in compliance with the applicable requirements of the Code. Therefore, the Plan administrator believes the Plan is qualified, and the related trust is tax-exempt as of December 31, 2012. The Plan filed a request for a new IRS determination letter on January 31, 2013.

GAAP requires Plan management to evaluate uncertain tax positions taken by the Plan and to recognize a tax liability (or asset) when the position is not more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2012, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2009.

(8) Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31, 2012 and 2011:

(In thousands)	December 31,	
	2012	2011
Net assets available for benefits per the financial statements	\$592,330	\$554,728
Adjustment from contract value to fair value for interest in collective trust relating to fully benefit-responsive investment contracts	1,585	1,729
Net assets available for benefits per the Form 5500	\$593,915	\$556,457

The following is a reconciliation of the changes in net assets available for benefits per the financial statements to the Form 5500 for the years ended December 31, 2012 and 2011:

(In thousands)	Year Ended December 31,	
	2012	2011
Net increase in net assets available for benefits per financial statements	\$37,602	\$43,591
Change in the adjustment from contract value to fair value for interest in collective trust relating to fully benefit-responsive investment contracts	(144)	1,022
Net increase in net assets available for benefits per the Form 5500	\$37,458	\$44,613

(9) Subsequent Events

On January 2, 2013, assets of the Schilling Plan and CSI Plan were transferred into the Plan in the amounts of \$19,667,000 and \$16,009,000, respectively.
