For Immediate Release

FORDING MONITORS VANCOUVER TUGBOAT STRIKE

CALGARY, April 21, 2004 - Fording Canadian Coal Trust (TSX: FDG.UN, NYSE: FDG) today announced that the Elk Valley Coal Partnership is taking all appropriate measures to reduce any impact that may arise as a result of the strike by union members of the Canadian Merchant Service Guild, who perform tugboat services for Westshore Terminals at Roberts Bank, B.C.

Strike action is affecting the movement of vessels in and out of Westshore Terminals and preventing vessels from being loaded. Neptune Terminals, located in Vancouver's inner harbour, is unaffected by the strike and continues to operate normally.

The strike affects a broad range of economic interests in B.C. and across Canada. The Council of Marine Carriers reports that the strike is affecting 75 percent of shipping operations in B.C. To help resolve this situation, on April 19th the Federal Government appointed a mediator from the department of Human Resources Development Canada to bring the affected parties together for discussions aimed at ending the labour disruption.

Fording Canadian Coal Trust is an open-ended mutual fund trust. Through investments in metallurgical coal and industrial minerals mining and processing operations, the Trust makes quarterly cash distributions to unitholders. The Trust, through its wholly-owned subsidiary, Fording Inc., holds a 65% ownership interest in the Elk Valley Coal Partnership and is the world's largest producer of the industrial mineral wollastonite. Elk Valley Coal Partnership, comprised of Canada's senior metallurgical coal mining properties, is the world's second largest exporter of metallurgical coal, capable of supplying approximately 25 million tonnes of high-quality coal products annually to the international steel industry.
