Safe Harbor Statement

Forward Looking Statements

n This presentation includes forward-looking statements about expected future events and financial and operating results that involve risks and uncertainties, which may cause actual future results to be materially different from those discussed in forward-looking statements.

n Such statements are subject to change, and the Company does not undertake to update such statements, except to the extent required under applicable law and regulation.

n See SMSC's "Other Factors That May Affect Future Operating Results" and "Risk Factors" included within the Company's filings with the Securities & Exchange Commission and the "Forward Looking Statements" description accompanying the Company's earnings releases.

Non-GAAP Financial Measures

n Non-GAAP financial measures referenced in this presentation are offered to provide additional insight into underlying operating performance.

n These non-GAAP measures exclude charges and credits for stock appreciation rights (SARs) and stock options associated with the accounting pursuant to SFAS 123R, the amortization of acquired intangible assets, restructuring charges and related accelerated depreciation on certain test equipment, litigation settlement expenses, goodwill impairment charges, inventory write-ups associated with acquisitions, acquisition transaction costs, employee stock purchase plan costs, revaluation of contingent acquisition expense and an out-of-period adjustment for the release of an inventory liability.

n The Company's management believes that this information assists in evaluating operational trends, financial performance and cash generating capacity. Non-GAAP measures are not meant as a substitute for GAAP, but are included solely for informational and comparative purposes.

n Guidance is presented on a non-GAAP basis only, given that the GAAP basis charges for equity-based compensation related to SARs cannot be projected reasonably.
