GOLDSRING, INC.
NOTES TO FINANCIAL STATEMENTS
June 30, 2003 and 2002

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIESBASIS OF PRESENTATION: The Company's independent accountants are including a "going concern" paragraph in their audit report accompanying these financial statements that cautions the users of the Company's financial statements that these statements do not include any adjustments that might result from the outcome of this uncertainty. Furthermore, the "going concern" paragraph states that the Company's ability to continue is also dependent on its ability to, among other things, obtain equity financing, identify customers, secure vendors and suppliers, and establish an infrastructure for its operations.

Management continues to secure and pursue short and long-term financing and support; however, there can be no assurances that some or all of the necessary financing can be obtained. Management continues to explore alternatives that include seeking strategic investors and pursuing other transactions that, if consummated, might ultimately result in the dilution of the interest of the current stockholders.

Because of the nature and extent of the uncertainties, many of which are outside the control of the Company, there can be no assurances that the Company will be able to ultimately consummate planned principal operations or secure the necessary financing.

The accompanying unaudited condensed financial statements have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to Form 10-QSB and Article 10 of Regulation S-B. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the six month period ending June 30, 2003 are not necessarily indicative of the results that may be expected for the year ending December 31, 2003. For further information, refer to the financial statements and footnotes thereto included in the Company's 10-KSB and/or Annual Report for the fiscal year ended December 31, 2002

Item 2 MANAGEMENT'S DISCUSSION AND ANALYSIS AND PLAN OF OPERATIONS

The following discussion and analysis provides information which management believes is relevant to an assessment and understanding of our results of

Edgar Filing: STARTCALL COM INC - Form 10QSB

operations and financial condition. The discussion should be read in conjunction with our financial statements and footnotes. The following discussion and analysis contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ significantly from the results, expectations and plans discussed in these forward-looking statements.

OVERVIEW

On June 12, 2003 (the "Effective Date"), pursuant to a Plan and Agreement of Reorganization ("Agreement") by exchange by Goldspring, Inc. ("Goldspring" or the "Company") with Ecovery, Inc. the Company purchased substantially all of the assets of Ecovery, Inc. for a total of 90,000,000 restricted common shares of the Company and 46,500 newly authorized \$100 Preferred Convertible/Redeemable shares in full satisfaction of \$4,650,000 of production payments due from the operation of the claims and \$100,000. Total consideration for the GoldSpring mining claims was \$4,750,000, which has been reported as an asset on the Company's balance sheet. The Company's balance sheet, post closing, now reflects assets of approximately \$4.9 million which includes the GoldSpring Placer Gold Claims and the Big Mike Copper project, at cost, and no debt. The Agreement was entered into on March 20, 2003, to be effective March 11, 2003 and all of the requirements of conditions of the closing were satisfied as of June 12, 2003. Pursuant to such agreement, the Company cancelled the previously issued 79,500,000 restricted common shares and reissued 90,000,000 restricted common shares to the Ecovery shareholders. As of June 12, 2003 none of the previous management of the Company were still involved in the Company.

Pursuant to the terms of the Agreement, Antonio Treminio resigned from the Board of Directors of the Company and John Cook and Les Cahan were appointed to the Board of Directors. In addition, Antonio Treminio resigned as President, Chief Executive Officer and Chief Financial Officer and John Cook was named as President and Chief Executive Officer of the Company. Les Cahan was named as the Treasurer of the Company. In addition, on June 9, 2003, the Company appointed Robert Faber, CPA, to its Board of Directors and named him Chief Financial Officer of the Company.

Pursuant to the Agreement, the Company purchased substantially all of the assets of Ecovery, Inc. for 90,000,000 shares of the Company's common stock., 46,500 \$100 Preferred Convertible/Redeemable shares valued at \$4,650,000 plus \$100,000. Pursuant to this Agreement, the Company controls 100% of the Gold Canyon and Spring Valley Gold Placer Properties, which, according to Donald A. Bourne, P.Eng, consulting geologist, "contains 1,199,000 proven ounces of gold in 41,000,000 cubic yards of alluvial sand and gravel." The property consists of 21 unpatented placer mining claims covering approximately 850 acres located 30 miles south east of Reno and 7 miles east of Carson City, Nevada. The claim groups lie immediately south of the famous Comstock Lode gold - silver mining camp, which is considered the source of the placer values in the immediate area. Several lode mines are located at higher elevations in close proximity to the Spring Valley

properties and practically all of the eroded material from these veins would be deposited on the Company's claim group. Exploration work completed on these claim groups has been carried out under the supervision of experienced and knowledgeable mining consultants thoroughly familiar with the gold mineralization of the Carson City area.

The in ground value of the reported gold reserves at a gold price of \$330 (currently \$350-\$370) is roughly \$350,000,000.00 (using 900 fine), or just over

Edgar Filing: STARTCALL COM INC - Form 10QSB

\$8.50/cu.yd. Operating and other costs should not exceed \$3.50/cu.yd. which leaves 5.00/cu.yd., or \$200,000,000.00+ of net operating revenue from gold recovery.

As announced on June 2, 2003, the Company has contracted with RMS-Ross Corporation of Chilliwack, BC, Canada for the manufacture of the first turnkey gravity gold recovery plant on the claims. The Company has negotiated terms on the total cost of \$515,455. The plant includes a gold room for \$101,000 which will provide the required security for the recovery operation as well as assuring higher recovery through a state of the art finishing circuit. The Company's business plan calls for the securing of \$1,000,000 to implement Spring Valley 1, the first of four plants on the claims, commencing in Sept/Oct. 2003. The opening of the three additional production facilities, Spring Valley 2 and Gold Canyon 1 and Gold Canyon 2, will systematically begin in July 2004 and be completed by April 2005. The Company's financial model forecasts in excess of 100,000 ounces of gold recovery per year. Cash flow from gold productions will fund all three of these additional projects. (For a complete discussion of the Company's financial model please refer to the 8-K filed with the SEC on July 3, 2003.

The company also owns, pursuant to this agreement, 100% of a copper ore recovery project known as "The Big Mike Project" located about 2 hours east of Reno in Winnemucca, Nevada. There are 25,000,000 pounds of reported copper, mined and on the ground. The value of the contained copper at today's price of \$0.75/pound is \$17.75 million. Operating costs should not exceed \$0.30/ pound. The Company intends to develop this project from internal cash flow when copper prices are suitable.

PLACER GOLD MINING - PRE-PRODUCTION ACTIVITIES

The Company's initial focus for immediate development is the GoldSpring Placer Gold mining claims, located about 6 miles east of Carson City, Nevada. According to Donald A. Bourne, P.Eng, consulting geologist, in his report dated March 1994, which was completed right after the 1993 extensive sampling and testing programs, "these claims have reported reserves of 1,199,000 ounces of gold which is contained in 41,000,000 cubic yards of sand and gravel".

The GoldSpring property consists of 21 unpatented placer mining claims covering approximately 850 acres. The claim groups lie immediately south of the famous Comstock Lode gold - silver mining camp, which is considered the source of the placer gold values in the immediate area.

A recent geological report dated May 2003 prepared by consulting geologist Paul A. Pelke, of Reno, Nevada, further supports the earlier Bourne report and adds important additional information that the writer learned from time spent with John Uhalde, a mining engineer that was intimately associated with the previous owners of the claims.

Pelke's knowledge, coupled with his long term relationship with Jerrie Gasch registered Geophysicist and Geologist of Gasch and Associates, from Sacramento, California, has enabled the Company to identify the production starting location and to design the operating plant for initial production. Gasch has been involved in virtually all exploration work carried out on the claims over the past 20 years.

Subsequent to the end of the 2nd quarter the Company successfully concluded Stage 1 financing in the form of a private placement for \$250,000 for restricted shares and has received a term sheet for an institutional private placement for Stage 2 financing for \$1,000,000. Once stage 2 financing is completed the Company will implement its business plan and proceed to gold production and revenue.

Edgar Filing: STARTCALL COM INC - Form 10QSB

Development Stage Revenues

Our recent operations have been devoted primarily to preparing to place the GoldSpring Placer Gold Claims into production. Our ability to achieve our business objectives is contingent upon our success in raising additional capital which, once finalized, will lead to revenues realized from operations.

DEVELOPMENT STAGE EXPENSES

Development stage expenses during the twelve-month period primarily consisted of accounting, legal, consulting and office expenses which are necessitated by operating in a public environment. Ongoing increases to development stage expenses are anticipated during the year 2003.

LIQUIDITY AND CAPITAL RESOURCES

We have received capital contributions and related party loans to undertake gold production operations. We have primarily financed our activities from sales of our capital stock and from loans from our shareholders. A significant portion of the funds raised from the sale of capital stock was used to cover working capital needs such as office expenses and various professional fees.

Our

business of operating a producing gold mine is contingent upon our ability to secure adequate financing. Management believes that this financing will be necessary in order for us to continue as a going concern. We are actively pursuing several forms of equity financing, although there can be no assurances that we will be successful in procuring such financing or that it will be available on terms acceptable to us.

SUBSEQUENT FINANCING

On June 24, 2003 the Company commenced a private placement of \$250,000 for restricted shares that was successfully concluded in July. On August 19, 2003 the "Company" announced that as a follow up to its July 31, 2003 Press Release, the Company has received a Term Sheet for Stage 2 Financing from a London (FTSE) Stock Exchange Listed Investment Trust. The Term Sheet is conditioned upon final approvals by their Investment Committee and GoldSpring's Board of Directors as well as final due diligence regarding Patriot Act compliance by both companies and GoldSpring's directors. In furtherance of such Term Sheet, GoldSpring has been invited to open an account with Christows Limited of London to facilitate the transaction.

This financing, if and when completed in the next few weeks, will enable the Company to fully execute its Plan of Operation, which calls for the initial 200 ton per hour plant, contracted on June 2, 2003 with RMS - Ross Corporation, to commence operation in the fourth quarter of 2003 on the Company's Spring Valley placer gold claims.

Item 3. Controls and Procedures

(a) Evaluation of disclosure controls and procedures.

Our Chief Executive Officer and Chief Financial Officer (collectively the "Certifying Officers") maintain a system of disclosure controls and procedures that is designed to provide reasonable assurance that information, which is required to be disclosed, is accumulated and communicated to management timely.

Edgar Filing: STARTCALL COM INC - Form 10QSB

Under the supervision and with the participation of management, the Certifying Officers evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule [13a-14(c)/15d-14(C)]) under the Exchange Act) within 90 days prior to the filing date of this report.

Based upon that evaluation, the Certifying Officers concluded that our disclosure controls and procedures are effective in timely alerting them to material information relative to our company required to be disclosed in our periodic filings with the SEC.

(b) Changes in internal controls.

Our Certifying Officers have indicated that there were no significant changes in our internal controls or other factors that could significantly affect such controls subsequent to the date of their evaluation, and there were no such control actions with regard to significant deficiencies and material weaknesses.

PART II - OTHER INFORMATION

Item 1.	Legal Proceedings.	Not Applicable
Item 2.	Changes in Securities.	None
Item 3.	Defaults Upon Senior Securities.	Not Applicable
Item 4.	Submission of Matters to a Vote of Security Holders.	None
Item 5.	Other Information.	None
Item 6.	Exhibits and Reports of Form 8-K.	Certification Form 99 On July 3, 2003 we filed an 8K based on Changes in Control of Registrant.

SIGNATURES

Pursuant to the requirements of Section 13 or 15(d) of the Securities Exchange Act of 1934, the Registrant has duly caused this report to be signed in its behalf by the undersigned, thereunto duly authorized, on August 19, 2003.
