Argyle Security Acquisition Corporation
(a development stage company)

Notes to Unaudited Financial Statements
March 31, 2006

Note 1 - Basis of Presentation

The financial statements of Argyle Security Acquisition Corporation (the "Company") at March 31, 2006, for the three months ended March 31, 2006, and for the period from June 22, 2005 (inception) to March 31, 2006 (cumulative), are unaudited. In the opinion of management, all adjustments (consisting of normal accruals) have been made that are necessary to present fairly the financial position of the Company as of March 31, 2006 and the results of its operations and its cash flows for the three months ended March 31, 2006, and for the period from June 22, 2005 (inception) to March 31, 2006 (cumulative). Operating results for the interim periods presented are not necessarily indicative of the results to be expected for a full fiscal year.

The statements and related notes have been prepared pursuant to the rules and regulations of the U.S. Securities and Exchange Commission. Accordingly, certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been omitted pursuant to such rules and regulations. These financial statements should be read in conjunction with the financial statements that were included in the Company's Annual Report on Form 10-K for the year ended December 31, 2005, as filed with the U.S. Securities and Exchange Commission.

Note 2 - Organization, business operations and summary of significant accounting policies

The Company was incorporated in Delaware on June 22, 2005 as a blank check company formed to acquire, through merger, capital stock exchange, asset acquisition or other similar business combination, a business in the security industry.

At March 31, 2006, the Company had not completed an acquisition and was still in the development stage. All activity through March 31, 2006 relates to the Company's formation, (as defined below) and initiation of its search for a target business.

The Company completed a private placement (the "Private Placement") on January 24, 2006 and received net proceeds of approximately \$900,000. Also on January 24, 2006, the registration statement for the Company's initial public offering (the "Public Offering") was declared effective. The Company consummated the Public Offering on January 30, 2006 and received net proceeds of approximately \$27.3 million. The Company's management has broad discretion with respect to the specific application of the net proceeds of the Private Placement and the Public Offering (collectively the "Offerings"), although substantially all of the net proceeds of the Offerings are intended to be generally applied toward consummating a business combination with a target company. As used herein, a "target business" shall include an operating business in the security industry and a "business combination" shall mean the acquisition by the Company of a target business.

Argyle Security Acquisition Corporation
(a development stage company)

Notes to Unaudited Financial Statements
March 31, 2006

Of the proceeds from the Offerings, approximately \$28.7 million was deposited into a trust account (“Trust Account”) and invested until the earlier of (i) the consummation of the first business combination or (ii) the distribution of the Trust Account as described below. The amount in the Trust Account includes approximately \$1.3 million of contingent underwriting compensation and \$45,000 of contingent private placement fees (collectively the “Discount”) which will be paid to the underwriters if a business combination is consummated, but which will be forfeited if public stockholders elect to have their shares redeemed for cash if a business combination is not consummated. The remaining proceeds may be used to pay for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses.

The Company, after signing a definitive agreement for the acquisition of a target business, will submit such transaction for stockholder approval. The Company will proceed with a business combination only if a majority of the shares of common stock voted by the public stockholders are voted in favor of the business combination and public stockholders owning less than 20% of the aggregate shares sold in this offering and the private placement exercise their redemption rights. The officers and directors of the Company (“Initial Stockholders”), have agreed to vote their 937,500 founding shares of common stock in accordance with the vote of the majority in interest of all other stockholders of the Company with respect to any business combination and to vote the 125,000 shares of common stock included in the units they purchased in the Private Placement and any shares they acquire in the aftermarket in favor of the business combination. After consummation of the Company’s first business combination, all of these voting safeguards will no longer be applicable.

With respect to the first business combination which is approved and consummated, any holder of shares sold in the Public Offering, other than the Initial Stockholders and their nominees (the “Public Stockholders”) who voted against the business combination may demand that the Company redeem his or her shares. The per share redemption price will equal \$7.14 per share plus interest earned thereon in the Trust Account, net of taxes payable. Public Stockholders holding 19.99% of the aggregate number of shares sold in this offering and the private placement may seek redemption of their shares in the event of a business combination. Accordingly, an amount classified as common stock subject to possible redemption and the associated deferred interest has been reflected in the accompanying balance sheet.

The Company’s Certificate of Incorporation provides for mandatory liquidation of the Company, without stockholder approval, in the event that the Company does not consummate a business combination within 18 months from the date of consummation of the Public Offering, or 24 months from the consummation of the Public Offering if certain extension criteria have been satisfied. The Initial Stockholders purchased an aggregate of 125,000 units in the Private Placement, but have waived their right to liquidation distributions with respect to the shares of common stock included in such units. Accordingly, in the event of such a liquidation, the amount in the Trust Account will be distributed to the holders of the shares sold in the Public Offering.

Cash and cash equivalents

The Company considers all highly liquid investments with original maturities of three months or less to be cash equivalents.

Argyle Security Acquisition Corporation
(a development stage company)

Notes to Unaudited Financial Statements
March 31, 2006

Income taxes

Deferred income taxes are recorded based on enacted statutory rates to reflect the tax consequences in future years of the differences between the tax bases of assets and liabilities and their financial reporting amounts. Deferred tax assets, such as net operating loss carryforwards, which will generate future tax benefits are recognized to the extent that realization of such benefits through future taxable earnings or alternative tax strategies in the foreseeable short term future is more likely than not.

Recently issued accounting pronouncements

In December 2004, the Financial Accounting Standards Board ("FASB") issued SFAS No. 123 (revised 2004), "Share based payment" ("SFAS 123(R)"). SFAS 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values. The Company adopted SFAS 123(R) January 1, 2006.

Loss per common share

Net loss per share is computed by dividing net loss by the weighted-average number of shares of common stock outstanding during the period. Net loss per share exclusive of shares and related interest subject to possible redemption is computed by dividing net loss allocable to holders of non-redeemable common stock by the weighted-average number of shares of common stock outstanding during the period, exclusive of the shares subject to possible redemption. Shares of common stock issuable upon exercise of options and warrants are excluded from the computation since their effect, for the periods presented, are anti-dilutive.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

Note 3 - Offerings

Public Offering

On January 30, 2006, the Company sold 3,700,046 units (which includes 75,046 units sold by the underwriters pursuant to a partial exercise of their over-allotment option) to the public at a price of \$8.00 per unit. Each unit consists of one share of the Company's common stock, \$0.0001 par value, and one redeemable common stock purchase warrant ("warrant"). Each warrant entitles the holder to purchase from the Company one share of common stock at an exercise price of \$5.50 commencing the later of the completion of a business combination with a target business or January 24, 2007 and expiring January 24, 2011. The warrants are redeemable by the Company at a price of \$.01 per warrant upon 30 days notice after the warrants become exercisable, only in the event that the last sale price of the common stock is at least \$11.50 per share for any 20 trading days within a 30 trading day period ending three business days before a notice of redemption is delivered.

Private Placement

On January 24, 2006, the Company sold to certain of its officers and directors an aggregate of 125,000 units identical to the units sold in the Public Offering at a price of \$8.00 per unit.

9

Argyle Security Acquisition Corporation
(a development stage company)

Notes to Unaudited Financial Statements
March 31, 2006

Note 4 - Notes Payable to Stockholders

The Company issued unsecured promissory notes to the officers of the Company totaling \$155,000, from June 23, 2005 to November 22, 2005. The Notes had an interest rate of 4% per annum and were paid in full with proceeds from the Public Offering, including aggregate interest of \$3,177.

Note 5 - Stockholders' Equity

On July 13, 2005 the Company granted to its officers, directors and their respective affiliates certain options, which were exercisable only in the event the underwriters exercised the over allotment option, to purchase that number of shares enabling them to maintain their 20% ownership interest without regard to the units they purchased in the private placement. The measurement date was deemed to be January 30, 2006, the date the over allotment was exercised because the number of options to be issued was not known until that date.

On January 27, 2006 the underwriters exercised the over allotment option in the amount of 75,046 units. On February 1, 2006 the officers and directors exercised their options and purchased 18,761 units for an aggregate cost of \$507. The compensation cost resulting from these share-based payments was \$130,632 at January 30, 2006 using the Black-Scholes pricing model. This model was developed for use in estimating the fair value of traded options that have no vesting restrictions and are fully transferable. The fair value of the options was estimated at the measurement date using the following assumptions:

- § Weighted average volatility factor of 0.10;
- § No expected dividend payments;
- § Weighted average risk-free interest rate of 5%;
- § A weighted average expected life of 0.13 years.

The fair value of each option was \$6.99 per share. The options had no intrinsic value. The exercise price of each option was \$0.027 per share. All options vested immediately at the measurement date and no further options may be exercised pursuant to this over-allotment provision. Compensation expense was recognized immediately and recorded as an operating expense.

As of March 31, 2006, no officer or director of the Company holds options to purchase the Company's securities.

The Company's officers and their respective affiliates purchased an aggregate of 125,000 units in the Private Placement, but have waived their right to liquidation distributions with respect to the shares of common stock included in such units. Accordingly, in the event of such a liquidation, the amount in the Trust Account will be distributed to the holders of the shares sold in the Public Offering.

The Company sold to the underwriters for \$100, options to purchase up to an aggregate of 187,500 units. The units issuable upon exercise of these options are identical to those sold on January 24, 2006. These options will be exercisable at \$8.80 per unit commencing on the later of the consummation of a business combination or one year from January 24, 2006, and expiring January 24, 2011. The options to purchase the 187,500 units and the Securities underlying such units have been deemed compensation by the National Association of Securities Dealers ("NASD") and

are therefore subject to a 180-day lock-up pursuant to Rule 2710(g) (1) of the NASD Conduct Rules. Additionally, these options may not be sold, transferred, assigned, pledged or hypothecated for a one-year period (including the foregoing 180-day period) following January 24, 2006. However, these options may be transferred to any underwriter and selected dealer participating in the offering and their bona fide officers or partners.

Argyle Security Acquisition Corporation
(a development stage company)

Notes to Unaudited Financial Statements
March 31, 2006

The Company accounted for these purchase options as a cost of raising capital and included the instrument as equity in its financial statements. Accordingly, there is no net impact on the Company's financial position or results of operations, except for the recording of the \$100 proceeds from the sale. The Company has estimated, based upon a Black Scholes model, that the fair value of the purchase options on the date of sale is approximately \$3.40 per unit, (a total value of approximately \$637,500) using an expected life of five years, volatility of 44%, and a risk-free rate of 5%. However, because the Company's units do not have a trading history, the volatility assumption is based on information currently available to management. The volatility estimate is derived using historical data of public companies in the proposed industry. The Company believes the volatility estimate calculated from these companies is a reasonable benchmark to use in estimating the expected volatility of our units; however, the use of an index to estimate volatility may not necessarily be representative of the volatility of the underlying securities. Although an expected life of five years was used in the calculation, if the Company does not consummate a business combination within the prescribed time period and it liquidates, the options will become worthless.

The Company has engaged Rodman & Renshaw, LLC (the "Representative"), on a non-exclusive basis, as its agent for the solicitation of the exercise of the warrants. To the extent not inconsistent with the guidelines of the NASD and the rules and regulations of the Securities and Exchange Commission, the Company has agreed to pay the Representative for bona fide services rendered a commission equal to 5% of the exercise price for each warrant exercised more than one year after January 24, 2006, if the exercise was solicited by the Representative. In addition to soliciting, either orally or in writing, the exercise of the warrants, the Representative's services may also include disseminating information, either orally or in writing, to warrant holders about the Company or the market for the Company's securities, and assisting in the processing of the exercise of the warrants. No compensation will be paid to the Representative upon the exercise of the warrants if:

- § the market price of the underlying shares of common stock is lower than the exercise price;
- § the holder of the warrants has not confirmed in writing that the representative solicited the exercise;
- § the warrants are held in a discretionary account;
- § the warrants are exercised in an unsolicited transaction; or
- § the arrangements to pay the commission is not disclosed to warrant holders at the time of exercise.

Note 6 - Common stock reserved for issuance

At March 31, 2006, 3,825,046 shares of common stock were reserved for issuance upon exercise of redeemable warrants and 375,000 shares of common stock were reserved for issuance pursuant to the underwriter's unit purchase option described above.

Note 7 - Preferred Stock

The Company is authorized to issue 1,000,000 shares of preferred stock with such designations, voting and other rights and preferences, as may be determined from time to time by the Board of Directors.

Argyle Security Acquisition Corporation
(a development stage company)

Notes to Unaudited Financial Statements
March 31, 2006

Note 8 - Income Taxes

The provision for income taxes for the period from January 1, 2006 through March 31, 2006 is as follows:

	January 1, 2006 Through March 31, 2006
Current benefit	\$ 15,834
Deferred benefit	34,223
Less: Valuation allowance	(50,057)
	\$ 0

The Company recorded a valuation allowance against its current period losses and net deferred tax assets in the amount of \$50,057. The valuation allowance is the result of an evaluation of the uncertainty associated with the realization of the benefit of these tax assets.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Quarterly Report on Form 10-Q includes forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. We have based these forward-looking statements on our current expectations and projections about future events. These forward-looking statements are subject to known and unknown risks, uncertainties and assumptions about us that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by such forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as “may,” “should,” “could,” “would,” “expect,” “plan,” “anticipate,” “believe,” “estimate,” “continue,” or the negative of such terms or other similar expressions. Factors that might cause or contribute to such a discrepancy include, but are not limited to, those described in our other Securities and Exchange Commission filings. The following discussion should be read in conjunction with our unaudited Financial Statements and related Notes thereto included elsewhere in this report.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period. Actual results could differ from those estimates.

Management does not believe that any recently issued, but not yet effective, accounting standards if currently adopted would have a material effect on the accompanying financial statements.

Overview

Argyle Security Acquisition Corporation is a recently organized Delaware corporation incorporated on June 22, 2005 in order to serve as a vehicle for the acquisition of an operating business through a merger, capital stock exchange, asset acquisition or other similar business combination. We intend to leverage the industry experience of our executive officers by focusing our efforts on identifying a prospective target business in the security industry. We believe that businesses involved in this industry represent attractive acquisition targets for a number of reasons, including the increase in global demand for integrated security-related products and services since September 11, 2001, the development of new technology which has the potential to expand applications and the trend towards integrated networked solutions. We do not have any specific business combination under consideration, though we have had discussions with several target businesses regarding a possible business combination.

Results of Operations for the three month period ended March 31, 2006

We had a net loss of \$104,682 for the three month period ended March 31, 2006 primarily as a result of consulting and professional fees, stock compensation charges and other expenses discussed below, which were not fully offset by interest income.

For the three months ended March 31, 2006, we incurred \$112,824 of consulting and professional fees, \$130,632 of stock compensation, \$27,949 of franchise taxes, \$14,667 of insurance expenses, \$10,808 of rental expense pursuant to our lease for office space, and other operating costs of \$24,826.

Our trust account earned interest of \$216,094 for the three months ended March 31, 2006 and our funds outside of the trust account earned interest of \$586. Until we enter into a business combination, we will not generate operating revenues.

Liquidity and Capital Resources

On January 24, 2006, the Company completed a private placement of 125,000 units to its executive officers and their affiliates on such date and received net proceeds of approximately \$900,000. On January 30, 2006, we consummated our initial public offering of 3,700,046 units (which includes 75,046 units sold as part of the underwriter's over-allotment option). Each unit in both the private placement and the public offering consisted of one share of common stock and one redeemable common stock purchase warrant. Each warrant entitles the holder to purchase from us one share of our common stock at an exercise price of \$5.50 per share commencing on the later of the completion of a business combination or January 24, 2007 and expires January 24, 2011. Our common stock and warrants started trading separately as of March 2, 2006.

The net proceeds from the sale of our units, after deducting certain offering expenses of approximately \$2.4 million, including underwriting discounts of approximately \$1.8 million, were approximately \$28.2 million. Approximately \$27.3 million of the proceeds from the initial public offering and the private placement was placed in a trust account for our benefit. Except for reimbursement of taxes payable as a result of interest income earnings from the trust account and \$600,000 in interest from the trust account that may be released to us to be used as working capital, we will not be able to access the amounts held in the trust until we consummate a business combination. The trust account also contains approximately \$1.4 million of underwriter's compensation from our initial public offering that will be paid to them only in the event of a business combination. The amounts held outside of the trust account are available to be used by us to provide for business, legal and accounting due diligence on prospective acquisitions and continuing general and administrative expenses. As of March 31, 2006 there was approximately \$28.9 million held in the trust account, which includes the deferred underwriting fees of approximately \$1.4 million. Additionally, as of March 31, 2006, we had approximately \$650,000 outside the trust account to fund our working capital requirements.

We expect to use substantially all of the net proceeds of the initial public offering to acquire a target business, including identifying and evaluating prospective acquisition candidates, selecting the target business, and structuring, negotiating and consummating the business combination. To the extent that our capital stock is used in whole or in part as consideration to effect a business combination, the proceeds held in the trust account as well as any other net proceeds not expended will be used to finance the operations of the target business or, if any stockholders choose to redeem their shares, to pay such stockholders the redemption amount due to them.

Assuming the release of the full amount of the interest we are entitled to receive from the trust account, we believe we will have sufficient available funds outside of the trust account to operate through January 31, 2008, assuming that a business combination is not consummated during that time. We do not believe we will need to raise additional funds in order to meet the expenditures required for operating our business. However, we may need to raise additional funds through a private offering of debt or equity securities if such funds are required to consummate a business combination that is presented to us. We would only consummate such a financing simultaneously with the consummation of a business combination.

As of February 1, 2006 we entered into a lease for our office space and began to pay a base rental of approximately \$5,500 per month. The lease terminates on January 31, 2007. In connection with our operations, in March 2006, we paid an outstanding obligation to a consultant for approximately \$53,000 and are paying approximately \$21,000 per month in consulting fees for the services of three individuals who are assisting us in locating a target business and with securities compliance. The consulting agreements entered into thus far may be terminated by either party for any reason upon 15 days notice.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk is the sensitivity of income to changes in interest rates, foreign exchanges, commodity prices, equity prices, and other market-driven rates or prices. We are not presently engaged in and, if a suitable business target is not identified by us prior to the prescribed liquidation date of the trust fund, we may not engage in, any substantive commercial business. Accordingly, we are not and, until such time as we consummate a business combination, we will not be, exposed to risks associated with foreign exchange rates, commodity prices, equity prices or other market-driven rates or prices. The net proceeds of our initial public offering held in the trust account are to be invested only in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act of 1940 or United States treasury bills. Given our limited risk in our exposure to money market funds and treasury bills, we do not view the interest rate risk to be significant.

ITEM 4. CONTROLS AND PROCEDURES

An evaluation of the effectiveness of our disclosure controls and procedures as of March 31, 2006 was made under the supervision and with the participation of our management, including our Co-Chief Executive Officers (one of whom serves as our principal financial officer). Based on that evaluation, our Co-Chief Executive Officers concluded that our disclosure controls and procedures are effective as of the end of the period covered by this report to ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms. During the most recently completed fiscal quarter, there has been no significant change in our internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2005, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

None.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS

None.

ITEM 5. OTHER INFORMATION

None.

ITEM 6. EXHIBITS

Exhibit
