**Immediate Release**

**BEAR STEARNS LAUNCHES BEARLINX<sup>SM</sup> EXCHANGE TRADED NOTE  
LINKED TO THE ALERIAN MLP SELECT INDEX**

NEW YORK - New York - July 20, 2007 - Bear, Stearns & Co. Inc. (NYSE: BSC) today announced that it has launched the first Exchange Traded Note (ETN) designed to provide investors with efficient access to energy-related Master Limited Partnerships (MLPs). The ETN, called BearLinx<sup>SM</sup> Alerian MLP Select Index ETN, captures the performance of the Alerian MLP Select Index (AMZS Index) - a comprehensive benchmark of energy-oriented MLPs. The BearLinx<sup>SM</sup> ETN is listed on the New York Stock Exchange and began trading today under the symbol "BSR".

"The BearLinx ETN offers investors exposure to a diversified MLP index through one purchase where no Exchange Traded Fund exists or has yet been created," said Bill Bamber, senior managing director in Bear Stearns Structured Equity Products. "This ETN is an innovative way for institutions and individual investors to access the MLP market in both a cost and operationally efficient manner," added Joshua Dunivant, salesperson in Structured Equity Products.

The 20-year BearLinx<sup>SM</sup> ETN will track the change in the level of the AMZS Index and investors will receive monthly coupons equal to the amount of dividends that would be paid by the MLPs underlying the AMZS Index each month, minus a tracking fee. The MLPs underlying the AMZS Index are generally limited partnerships engaged in the exploration, marketing, mining, processing, production, storage or transportation of any mineral or natural resources. Alerian Capital Management launched the Alerian MLP Select Index on May 16, 2007.

For more information, Bear Stearns clients should contact their Bear Stearns sales representative.
