Explanatory Note:

This Annual Report on Form 10-KSB/A is being filed as Amendment Number 1 to our Annual Report on Form 10-KSB which was originally filed with the Securities and Exchange Commission (“SEC”) on January 17, 2007. We are filing this form 10-KSB/A to restate our financial statements for the fiscal year ended September 30, 2006 to reflect a change in the accounting treatment of the acquisition of Subaye.com and the calculation of minority interest in our consolidated subsidiaries.

In addition, we are including currently dated Sarbanes Oxley Act Section 302 and Section 906 certifications of the Chief Executive Officer and Chief Financial Officer that are attached to this Form 10-KSB/A as Exhibits 31.1, 31.2, 32.1 and 32.2.

For the convenience of the reader, this Form 10-KSB/A sets forth the entire Form 10-KSB, which was prepared and relates to the Company as of September 30, 2006. However, this Form 10-KSB/A only amends and restates the items described above to reflect the effects of the restatement and no attempt has been made to modify or update other disclosures presented in our September 30, 2006 Form 10-KSB. Accordingly, except for the foregoing amended information, this Form 10-KSB/A continues to speak as of January 17, 2007 (the original filing date of the September 30, 2006 Form 10-KSB), and does not reflect events occurring after the filing of our September 30, 2006 Form 10-KSB and does not modify or update those disclosures affected by subsequent events. Forward looking statements made in the September 30, 2006 Form 10-KSB have not been revised to reflect events, results or developments that have become known to us after the date of the original filing (other than the current restatements described above), and such forward looking statements should be read in their historical context. Unless otherwise stated, the information in this Form 10-KSB/A not affected by such current restatements is unchanged and reflects the disclosures made at the time of the original filing.

PART I

ITEM 1. DESCRIPTION OF BUSINESS.

Telecom Communications, Inc. (the “Company”, “Telecom” or “TCOM”) was incorporated on January 6, 1997 in the State of Indiana under the corporate name MAS Acquisition XXI Corp. Prior to December 21, 2000, we were a blank check company seeking a business combination with an unidentified business. On December 21, 2000, we acquired Telecom Communications of America, a sole proprietorship doing business in Los Angeles, California since August 15, 1995, and changed our name to Telecom Communications, Inc. In connection with this acquisition, Aaron Tsai, our former sole officer and director, was replaced by Telecom Communications of America's owners and associates. We issued 9,000,000 shares of our common stock, or 90% of our total outstanding common stock, after giving effect to the acquisition. MAS Capital Inc. returned 7,272,400 shares of common stock for cancellation without any consideration.

OVERVIEW

Company Background

We believe that we can be one of the leading internet and value-added telecommunications services providers in the People's Republic of China (the “PRC”). We specialize in supplying both the entertainment and lifestyle content along with what we currently believe is leading edge software, which we sell as one package to Telecommunication Service Providers (“SP”) who subscribe to our products. The SP then deliver our content through our software products, though various media, to the approximate several hundred million end users in the telecommunications market in the PRC. Since the launch of our Total Solutions System (“TS”), together with our SEO4Mobile Short Message Services (“SMS”) search engine software in 2005, we believe that we now have the right software products to deliver our content, in order to serve the rapidly expanding telecommunications market in the PRC.

We will target the enterprise multimedia communications market in the PRC where there is significant growth potential. In the PRC, where billions of messages are sent every month, SMS is the basic form of text messaging, but there is a major increase in Multimedia Message Services (“MMS”). TCOM's Customer Relations Management Virtual Call Center (“CRM”) provides highly customized, scalable, flexible interactive services, offers clients high value, low cost sales and service solutions using the highly scalable interactive MMS response, interactive voice response and speech recognition solutions.

During the year ended September 30, 2006, we signed sales contracts with 5 major clients, which generated revenues in the amount of \$12,678,107 to the Company, which represented 82% of our total revenue. The loss of these customers, individually or in the aggregate, could have a material impact on our results of operations. The sales contracts validate our current business model and are a strong indication that we have customer acceptance for our products in the PRC telecommunications market. It is our present expectation that the integrated internet and value-added telecommunication service market that we serve is an expanding market in the PRC and our customer base and number of sales contracts should increase in fiscal year 2007.

As mentioned above, we are a fully integrated information and entertainment service provider to the PRC market. We sell our products through channel resellers, which are British Virgin Islands (“BVI”) companies and we distribute our products to the SP market in the PRC. Channel resellers supply our content, through various telecommunication providers, to the end users in the PRC. Our products serve the voice, video, data, web and mobile communication markets in the PRC.

We have experienced revenue growth in the CRM market, which is the primary deliverable of TCOM's TS. Our CRM product combined an extensive network of Chinese contact centers for live operator support, and provides all end users with opt-in subscriptions of SMS and MMS. We added 114 stations in 2006, to bring our total business

customers and CRM's to over 200 as of September 30, 2006. Our software products are sold to companies with less than 500 employees, inner information resource management and affiliate networks, vendors and customers.

We organized our operations in 2006 into two principal operating segments: integrated communications network solutions and import and export trading. These operating segments were organized based on the nature of the products and services offered. Operating segments are defined as components of an enterprise about which separate financial information is available that is evaluated regularly by the chief operating decision-maker in deciding how to allocate resources and in assessing performance. Our chief executive officer and chief financial officer have been identified as the Company's chief decision makers. Our chief decision makers direct the allocation of resources to operating segments based on the profitability and cash flows of each respective segment.

4

The operating segments share a common workforce and office headquarters, which include an allocation of all overhead components. Overhead items that are specifically identifiable to a particular segment are applied to such segment.

Our software products, described in detail below, includes our Total Solutions System, CRM System, SEO4Mobile and AdMaxB2Search, which deliver our entertainment and lifestyle content and our IBS 5.1 & IBS 4.1 Enterprise Suite, which is for small to mid-size enterprise wireless/web applications.

THE INTEGRATED INFORMATION AND ENTERTAINMENT SERVICE PROVIDER SOFTWARE PRODUCTS

Total Solutions System - SMS/MMS Call Center & CRM System

TS, our specialized software product, offers integrated communications network solutions and internet content service in universal voice, video, data, web and mobile communication for interactive media applications, technology and content leaders in interactive multimedia communications. Designed around TCOM's internet content and database and integrated into the Information Manager System and SMS/MMS Call Center CRM System core software, the TS application facilitates the collaboration of key business processes, such as, corporate and marketing communications, membership distance interactive programs, product development, customer relationship management and content management by allowing dispersed enterprise users to collaborate in real time with multimedia message services.

Our business model is built on the integration of strong entertainment and lifestyle content into the TS, network database and the application of technology. Network database was established by signing contracts with strategic partners and obtaining the database of each partner's respective internet and mobile phone users. Our content was built through our business alliance with IC Star MMS Limited (formerly known as Sino Super Ltd.) ("IC Star"), now one of our subsidiaries and a network services provider based in Hong Kong, which provides links to entertainment and lifestyle information to local communities across the PRC. IC Star, which was originally created as the Star SMS /MMS called "My Star Friends" community, was first invented as a SMS/MMS interactive between IC Star and fans of local artists around the world. By integrating the network database and contents into software that TCOM sources from the market, we can leverage the functions of the software and target it to various industries.

SEO4Mobile

SEO4Mobile, a search engine optimization for mobile phones, is the original unique new service solution creation by Alpha. The SEO4Mobile offers wireless mobile phone service, allowing providers the ability to use SMS search implementation for their users. Mobile phone users who enter a relevant keyword or keyword phrase, along with a geographic identifier, can send searches via an SMS to a service code. The search results will be received by MMS and the search engine optimization processes the search through the internet within a matter of minutes. Many searchers don't realize that within an SMS search query, they can add in a geographic identifier. By specifically laying out a separate search SMS for the geographic portion, SEO4Mobile helps structure the search in a simple and efficient way for the searcher. SEO4Mobile has been selected by service providers such as China Mobile Communications and China Unicom.

Revenues are derived principally by providing integrated solutions and an AdMaxB2Search platform by entering into business contracts with enterprises for a fixed monthly fee. The management of TCOM is confident that the SEO4Mobile and AdMaxB2Search platforms will provide excellent revenue when these two products gain popularity with mobile phone users. SEO4Mobile is a cutting edge technology designed to integrate the internet with mobile phones, using search engine technology using a pay per click business model. We will target the approximate 300 million mobile phone users as well as the 111 million internet users in the PRC. According to the Ministry of Information of the PRC, the PRC's internet users account for about 8.5% of its population, far below the 60% of

internet users in the United States.

5

IBS v4.1 and v5.0 Enterprise Suite

IBS v4.1 and v5.0 is our main product line, which includes a built-in MoDirect, an innovative suite of technologies that enables wireless and web publishers to target SEO4Mobile users more effectively and allows advertisers to obtain targeted leads with rich demographic data. IBS v4.1 and v5.0 are part of the TS family. Corporate users can leverage all available information resource management on the intranet/extranet over the internet, including wireless applications, and advertisers can use the IBS v4.1 and v5.0 to publish SMS and MMS by searches on mobile phones. The system enables manufacturers and services providers to use the internet to establish and manage continuous connections with automated e-services, operations monitoring and e-commerce offerings. The system's customers include end-user clients in many industries throughout the PRC. The IBS v4.1 and v5.0 standard package includes 3 servers, software, as well as system integration. On September 30, 2005, Alpha Century Holdings Limited ("Alpha") delivered IBS v4.1 Enterprise Suite to the agent of 43 companies, totaling ten sets of standard packages plus 7,000 seat licenses, according to the orders from corporate users.

SkyeStar.com

SkyeStar.com is a website that is a multi-links user experience sharing network in the PRC as well as a multi-channel entertainment portal, supported by proprietary fan clubs and a community platform. SkyeStar.com combines the best of IC Star MMS's artist profiles, "my star friend", games and other entertainment offerings with a host of new content, community and fan networking features. SkyeStar.com is the first internet portal that links network users across multiple entertainment channels, linking friends and their entertainment choices.

On February 2005, we established 3G Dynasty Inc., a subsidiary of the Company ("3G Dynasty"), for the preparation of the third generation mobile system. 3G Dynasty will be responsible for sales of IC Star products, and will focus on entertainment content for 3G mobile and internet use. IC Star Wireless Application Protocol ("WAP") Club is based on the IC Star Theme Club on WAP, which provides the most comprehensive and up-to-date mobile entertainment services in the PRC. The WAP users can access IC Star Theme Club for content we provide through China Mobile Communications. In May 2005, 3G Dynasty created the website <http://skystar.com>, a multi-channel infotainment portal supported by proprietary fan clubs and a community platform. It allows new members to personalize their own homepage with 3G Dynasty's content. It registers members and allows them to build their personal homepage on WAP. As the host and content provider, 3G Dynasty will start publishing a daily Real Simple Syndication ("RSS") feed of its original content from a number of its contracted web sites, including local information, life style and entertainment content. Through the use of RSS feeds, users can receive 3G Dynasty's daily content automatically, thereby broadening 3G Dynasty's distribution and providing an additional platform for mobile phone users who are registered members of the Star Theme Club on WAP. Members with their homepage on WAP can reach their targeted audience through wireless technology.

This personal homepage and WAP membership service has been launched in June 2006. The adoption of RSS has deepened our relationship with our members and enhanced the appeal of our original content. We believe that RSS represents the next evolution in the distribution of content. It allows publishers and end users alike to be seamlessly notified of new content and to integrate that content into start pages, blogs and web sites.

As more and more people personalize their content on the internet, many are turning to RSS feeds to quickly and easily access information from news and entertainment sites.

On July 1, 2006, all contracted base businesses that operate as IC Star and IC Star Brands has been combined with the personalized homepage on WAP and SkyeStar.com, the flagship entertainment property that operates by a joint venture of 3G Dynasty and its business partners in the PRC. As the integration internet business group of TCOM, 3G Dynasty's strategic investment in the PRC will be created specifically to address those new market dynamics and help telecommunications carriers get the most from content programs, while effectively handling changes in capacity, deal

terms and players. As of September 30, 2006, IC Star WAP Club had over 300,000 registered members.

SkyeStar.com provides users multiple opportunities to play games, send MMS/SMS greetings, watch movie trailers, find show times, and purchase tickets and DVDs. They can also rate, review and refer their entertainment choices to others. Customization features allow members to create their own personal homepages, profile and display their entertainment favorites as well as access their friends' recommendations. SkyeStar.com's innovative fan club's networking features flow throughout the site so users can enjoy diverse content and connect with other people who enjoy similar interests.

SkyeStar.com features include:

- "My Star Friend", where members upload images of their artist friends, create star profiles, and enter them in a ratings system allowing members to vote on the my star friend;
 - Fans Experiences Sharing, where members rate and review their favorite movies, music, and greetings;
- Customizable User Homepages, Profiles, where members track their favorite movies, music, games, stars and greetings, as well as their friends' favorites, upload photos, check music statistics, view event reminders, and post on "friends-only" message boards;
- User Music Critics, where members review and rate their choices of music, add their ratings to a community score and compare their reviews and ratings to those of professional music critics;
- Online & Downloadable Games, where members play single player and multiplayer games online or download and purchase their favorites; and
- User-Generated Content, where developers and creators upload their own music, games and photos for the community to enjoy and review.

IC Star MMS has partnered with several industry leaders to provide content on the SkyeStar.com entertainment portal. Among its partners, Stareastnet, provides features such as "Artist Profiles and Homepages" and NC Entertainment, provides movie trailers. SkyeStar.com provides a community experience by including artists, movies, games, music and more. Through user-generated content, as well as personal homepages and content reviews, community members can express themselves and become a trusted referral of content for their friends.

IT Consultant Services - Guangzhou TCOM Computer Tech by the integration of TCOM's Total Solutions into IBS v4.1 and v5.0 Enterprise Suite

Alpha completed stages planned for the integration of TCOM's TS, SMS/MMS virtual Call Center CRM Systems, SEO4Mobile and new SME software, developing and distribution operations.

Guangzhou TCOM Computer Tech Ltd. ("GTCT") -- consisting of Alpha Century Holdings Limited's TS, SMS/MMS virtual Call Center CRM Systems, SEO4Mobile, MoDirect, AdMaxB2Search and IBS v4.1 and v5.0 Enterprise Suite, the internet business service total solution business -- combined and operated by GTCT, the new formation is a wholly-owned subsidiary of the Company in the PRC. GTCT also integrated the IBS v4.1 and v5.0 Enterprise Suites, which are web enabling updaters of exchange between corporate user content and end user content. As GTCT integrates with the TS business group of TCOM, it will strategically invest in the PRC, specifically to address new market dynamics and help SME users get the most from end user content while effectively handling changes in capacity, deal terms and players.

The integration expertise we gained through the successful launch of GTCT, and the IBS v5.0 Enterprise Suite gives us confidence in our core business organization to the SME market, the potential for our total solution business, and the achievement of synergies we identified as part of our strategic investment efforts.

IC Star MMS

IC Star MMS Limited ("IC Star"), a wholly-owned subsidiary of the Company, began to establish a film distribution network with the purchase of the copyrights to certain films in March 2006. IC Star will distribute the films, through multiple distribution channels into the Chinese film market, including through the internet, mobile phone, TV,

VCD/DVD and the theatrical screening in cinemas across in the PRC.

Subaye.com - Operations

On April 1, 2006, we acquired HRDQ Group Inc., a Delaware corporation (“HRDQ”). HRDQ conducted its operations principally through Subaye.com. In addition, we have conducted part of our operations through Guangzhou Panyu Metals & Minerals Imports & Exports Co., Ltd., a limited liability company in Guangzhou, China (“Panyu M&M”), which holds the licenses and approvals necessary to operate our international trading and provide e-commerce logistic agent services. After several combinations, including stock transactions, in September of 2006, HRDQ contracted with our newly incorporated and wholly-owned subsidiary, GTCT.

7

Because of the limitation of PRC laws to the foreign ownership of companies that provide internet content and advertising services, in order to comply with these foreign ownership restrictions, we operate our websites and provide online advertising services in the PRC through GTCT. GTCT holds the licenses and approvals necessary to operate our websites and to provide e-commerce online advertising services in the PRC. We have contractual arrangements with GTCT and its shareholders pursuant to which we provide technology consulting services and license our registered domain names, trademarks and certain software to GTCT. Through these contractual arrangements, we also have the ability to substantially influence GTCT's daily operations and financial affairs, appoint its senior executives and approve all matters requiring shareholder approval. As a result of these contractual arrangements, which enable us to control GTCT's business, we are considered the primary beneficiary of GTCT.

Subaye.com - Internet corporate video provider

We are the leading internet corporate video provider in the PRC, and we offer a unique Chinese language corporate video sharing platform for both users and customers. We focus on our potential users in the PRC that demand publishing and sharing their corporate video online over the internet. Our platform consists of our websites and Subaye alliance network, which is our network of third-party websites.

Our services are designed to enable internet users to find relevant information video online from our video database, which currently consists of over 20,000 video corporate profiles, as visible video showcase for presentation. It includes Chinese language corporate web pages, news, images and multimedia files, through links provided on our websites. We provide our users with easy access to an index of up to a million video clips, images and web pages. We also offer a business to business to consumer-based online auction marketplace, Subaye e-commerce strategic, which currently consists of over 1,000,000 items of product and service as visible video showcase for purchase and sale.

For our corporate users, Subaye.com allows companies to post their products with corporate video to the platform and auction marketplace for a monthly fee. We launched the internet video services on our Subaye.com website and began generating revenues from corporate video uploading services in November, 2006. We have grown significantly since we commenced operations in October of 2006 and our corporate video uploading services users were 16,007 members as of the end of November 2006. We will charge our members a monthly charge of \$60 after a 3 month trial period.

We believe that our leading position in the PRC is primarily attributable to the following strengths:

- largest corporate video online audience as measured by user traffic;
- first video uploading service provider in the PRC with an extensive customer base across industries;
- one of the most widely recognized internet enterprise video brands--we sponsor a movie in the PRC, enhancing our ability to attract both users and customers;
- local market experience and expertise in introducing and expanding our services across the PRC and operating in the PRC's rapidly evolving internet industry;
- leading technology with a proven platform, providing users with relevant video showcase and customers with a cost-effective way to reach potential consumers; and
- extensive and effective nationwide network of over 100 regional distributors, providing high-quality and consistent customer services.

Our goal is to become a platform that provides internet users with the best way to find information and allows businesses to reach a broad base of potential customers. We intend to achieve our goal by implementing the following strategies:

- growing our online video marketing business by attracting potential customers and increasing per-customer spending on our services; enhancing user experience;
- increasing traffic through the development and introduction of new video-related features and functions;

- expanding Subaye Alliance by leveraging our brand and offering competitive economic arrangements to Subaye Alliance members; and
- pursuing selective strategic acquisitions and alliances that will allow us to increase user traffic, enlarge our customer base, expand our product offerings and reduce customer acquisition costs.

The successful execution of our strategies is subject to certain risks and uncertainties, including our ability to:

- maintain our leading position in the internet video industry in the PRC;
- offer new and innovative products and services to attract and retain a larger user base;
- attract additional customers and increase per-customer spending;
- increase awareness of our brand and continue to develop user and customer loyalty;
- respond to competitive market conditions;
- respond to changes in our regulatory environment;
- manage risks associated with intellectual property rights;
- maintain effective control of our costs and expenses;
- raise sufficient capital to sustain and expand our business;
- attract, retain and motivate qualified personnel; and
- upgrade our technology to support increased traffic and expanded services.

Subaye.com's limited operating history may make it more difficult to evaluate our future prospects and results of operations. If we are unsuccessful in addressing any of these risks and uncertainties, our business may be materially and adversely affected.

We have, however achieved profitability as of the quarter ended December 31, 2006. We have experienced growth in recent periods, in part, due to the growth in the PRC's online marketing industry, which may not be representative of future growth or be sustainable. We cannot assure you that our historical financial information is indicative of our future operating results or financial performance, or that our profitability will be sustained. You should consider our future prospects in light of the risks and uncertainties experienced by early stage companies in evolving industries such as the internet industry in the PRC.

Business Partnership Developments

IC Star has begun the theatrical screening of the film BIG MOVIE (<http://ent.sina.com.cn/f/m/bigmovie/index.shtml>) in 400 theaters throughout the PRC beginning on December 29th, and running through January 20th, 2007. The newly launched movie investment, distributions and value-added services business by IC Star's PRC operations, is committed to bringing a variety of unique titles to Chinese markets. Our first release, BIG MOVIE, a joint venture with Hua Xia Films Distributions Limited Beijing, is a template for the future distribution of film in the PRC by TCOM. IC Star is also partnering with Sina.com (Nasdaq: SINA) for movie promotion and marketing services.

Mystaru.com (<http://www.mystaru.com>) (“Mystaru”)

Mystaru is a website dedicated to performing arts education. Mystaru's content launch includes ten hours of multimedia performing education courses developed by Stareastnet (<http://www.stareastnet.com>). The content draws on the popularity of Stareastnet's unique 30-minute presentation concept. Stareastnet has been producing artist profiles since 1999, and delivers several live seminars each year. Another ten hours of Stareastnet content will be added in the near future and Mystaru.com is producing ten additional hours later this month, which are expected to be available online later this year.

9

The system is a prototype for state-of-the-art delivery of streaming video performing education courses in the music and movie industries in greater PRC. The new courseware was developed using the GTCT's EDU v5.0 Education Management System and is delivered to viewers via the Mystaru platform. The multimedia content is produced using Adobe Flash(r) video synchronized presentations and demonstrative video clips. Users can view multimedia performing training presentations that include downloadable video files of course materials and are then able to upload their own video files to teachers for analysis, which affords users the opportunity to have questions answered by course teachers. Mystaru intends to use this new capability to reach hundreds of thousands of young people who are interested in entering the performing arts, music and movie industries. Mystaru's goal is to deliver education content online without meaningful limitations or restrictions. Mystaru.com will begin to charge users a monthly fee of \$20 for each end-user starting on January 1, 2007. We believe this new service offering will add one more substantial revenue stream for us, forecasted to be 60,000 users in 2007. We are also working with a main talent management firm and production companies in Hong Kong /the PRC to adapt their platforms specifically to suit the unique needs of the artists' talent market.

GTCT has finished the integration of all business units of Alpha and 3G Dynasty into cooperation with Baidu.com (Nasdaq: BIDU), Shanghai Linktone Information Limited (Nasdaq: LTON), the wireless business division of Beijing eLong Information Technology Limited, a subsidiary of eLong Inc. (Nasdaq: LONG), 3721 Inter China Network Software Co. Ltd (www.3721.com), a Yahoo!, Inc. Company (Nasdaq: YHOO), Tencent Company Limited (www.qq.com), Kongzhong Corporation (Nasdaq: KONG), Guangdong Mobile Communication Co., Limited , a China Mobile Communications Corporation and China Mobile (Hong Kong) Ltd. (NYSE: CHL) to develop entertainment SMS, MMS, WAP portal and other wireless contents such as artist profiles, gaming and an SEO4Mobile SMS search engine.

We have continually worked to establish a system that can quickly and accurately respond to the market, as well as raise shareholder value by strengthening the development and competitiveness of each business. As part of this strategy, we have been implementing the integration of development, production and sales of each business within the Company. We have determined that a positive impact will be realized from integrating the functions of the various contracted operations lines of business and that, as a result, IC Star will become more competitive and synergies will be realized between its marketing, product development and sales organizations. It is also projected that as the resources of the Company are increased and the strategic alliance is structured, the overall efficiency of group management will improve, providing even greater shareholder value.

In a country with significant mobile phone usage, the growth opportunities remain tremendous. The PRC has more than 1.3 billion people, and mobile services will remain a strong area of growth. Entertainment content for these mobile devices is in high demand and IC Star MMS hopes to become the dominant player within this space.

Impact of Inflation

We believe that inflation has had a negligible effect on operations during the period. We believe that we can offset inflationary increases in the cost of sales by increasing sales and improving operating efficiencies.

Trends, Events, and Uncertainties

The present demand for our products will be dependent on, among other things, market acceptance of the Company's concept, the quality of its products and general economic conditions, which are cyclical in nature. The Company's business operations may be adversely affected by increased competition and prolonged recessionary periods in the PRC.

We expect the demand for our products described above to increase next year due to the following factors:

1. Multiple Distribution Channels into Chinese Films Market

IC Star has been successful bringing many movies into the Chinese market, via several different distribution channels, including the internet, mobile phone, TV, VCD/DVD and the theatrical screenings in cinemas across the PRC. We will continue investment to establish our distribution network and acquire more content copyrights.

In past 3 years, the Chinese film market recorded an average of 30% annual growth rate. We feel this market will continue significant growth, based on the results of our research.

2. Our New Product Line, SkyeStar.com IPTV operated by GTCT.

We expect SkyeStar.com, the flagship entertainment property of TCOM, will be a fast-growing, revenue streaming entity. In the coming months, we will launch a SkyeStar.com (“SkyeStar”) on IPTV, with new features that let users access their SkyeStar accounts from IPTV. SkyeStar is a free, members-only web site that offers community, e-mail, exclusive music and video downloads, instant messaging, blogs, photos and more. We will generate revenue by advertising, entertainment downloads, pay per view, video-on-demand and VIP membership fees.

IPTV, is the format representing the convergence of internet, television and telecommunication networks, and is expected to be adopted in the PRC next year. Providers of trial IPTV services in Shanghai have uncertainty about the IPTV services because of questions relating to the sector of IPTV.

The PRC is one of the largest IPTV markets in the world. The PRC is among the first in the world to put IPTV services in commercial trial operation. Statistics show that there are 360 million TV viewers and 75 million broadband users in the PRC, creating a huge potential market for development of IPTV services.

One of our business partners, ZesTV, Inc. (“ZesTV”) is a leading Chinese media and entertainment companies in the development, production, and marketing of entertainment, news and information to a global audience. ZesTV owns and operates a valuable portfolio of news and entertainment networks, a premier motion picture company, significant television production operations, a leading internet entertainment website group, and plans the development of studio-branded theme parks. TCOM has the first right to buy ZesTV music, films and TV programming copyrights of online content each year and flood openings with SkyeStar members.

TCOM will continue discussions with filmmakers for acquisition or strategy investments into motion-picture production companies.

3. Many internet users in the PRC seek entertainment

A look at the top internet searches in the PRC for the year suggests that many of the country's 123 million internet users are looking for entertainment. In 2006, the search data suggested that people crave information about popular things and want it before newspapers, magazines and TV can provide it. The search data also shows people are attracted to a growing amount of content that is only available online such as games, novels and Mp3's. The PRC published a guideline on news websites in September to better regulate the sector and prevent false or distorted information from spreading online. Meanwhile, the PRC also urged websites to register for tightened regulation.

By the end of November 2006, a total of 36.82 million blog websites have been established. Another 16 million have written blogs, meaning every blogger has 2.3 blog websites on average, according to Baidu.com. Some blog service providers and multimedia online magazine publishers have received funding — about \$10 million each — from venture capital firms.

4. A New Online Performing Education College: Mystaru.com (<http://www.mystaru.com>) in the PRC.

(See details under “Business Partnership Developments” above.)

ITEM 2. DESCRIPTION OF PROPERTY.

The Company has four lease commitments. The first lease commitment is for TCOM's office at Suite 2412-13, Shell Tower, Times Square, 1 Matheson Street, Causeway Bay, Hong Kong, with a gross area of approximately 1,514 square feet, for a term of 36 months from May 1, 2005 in the amount of \$83,261.

The second lease commitment is for IC Star to rent its office at No.74 Shan Road Shiqiao Panyu Guangzhou, PRC for a term of 24 months from July 1, 2006 amounting to \$212,790.

The third lease commitment is for Guangzhou Panyu Metals and Minerals Imports and Exports Co.'s office at No.178 2/F Huanchengdong Road, Shiqiao Panyu, Guangzhou for a term of 24 months from January 1, 2006 in the amount of \$7,031.

The fourth lease commitment is for the commitment of TCOM Beijing to rent the office at 9/F, Beijing Business World, 56 Dongxinglong Avenue, CW District, Beijing for a term of 24 months from April 1, 2006 in the amount of \$270,000.

ITEM 3. LEGAL PROCEEDINGS.

None.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

None.

PART II

ITEM 5. MARKET FOR COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND SMALL BUSINESS ISSUER PURCHASES OF EQUITY SECURITIES.

Market Information

Our common stock is currently traded on a limited basis on the Over-the-Counter Bulletin Board (the "OTCBB") under the symbol "TCOM". The quotation of our common stock on the OTCBB does not assure that a meaningful, consistent and liquid trading market currently exists. We cannot predict whether a more active market for our common stock will develop in the future. In the absence of an active trading market:

- Investors may have difficulty buying and selling or obtaining market quotations;

- Market visibility for our common stock may be limited; and

- A lack of visibility of our common stock may have a depressive effect on the market price for our common stock.

The reported high and low sale prices for the common stock are shown below for the periods indicated. The prices reflect inter-dealer prices, without retail mark-up, markdown or commissions, and may not always represent actual transactions. As of September 30, 2006, we had approximately 208 stockholders of record

Period	High		Low	
Quarter ended December 31, 2004	\$	0.88	\$	0.14
Quarter ended March 31, 2005	\$	0.73	\$	0.30
Quarter ended June 30, 2005	\$	0.39	\$	0.22
Quarter ended September 30, 2005	\$	0.76	\$	0.03
Quarter ended December 31, 2005	\$	0.72	\$	0.41
Quarter ended March, 2006	\$	0.80	\$	0.46
Quarter ended June 30, 2006	\$	0.72	\$	0.46
Quarter ended September 30, 2006	\$	0.54	\$	0.15

On December 1, 2006, TCOM was quoted at \$0.31 per share.

Dividends

There are no present material restrictions that limit the ability of the Company to pay dividends on common stock or that are likely to do so in the future. The Company has not paid any dividends with respect to its common stock, and does not intend to pay dividends in the foreseeable future.

Securities Authorized for Issuance Under Equity Compensation Plans

Under 2005 Stock Award Plan:

On August 19, 2005, TCOM issued 1,000,000 shares of its common stock to a consultant of TCOM as part of his compensation, at the then market price of \$.51, for a total of \$510,000.

On May 1, 2005, TCOM issued 4,000,000 shares of its common stock to two consultants of TCOM as a consultancy fee, at the then market price of \$.29, amounting to \$1,160,000.

On January 1, 2006, TCOM issued 3,000,000 shares of its common stock to three consultants of TCOM as part of their compensation, at the then market price of \$.50, for a total of \$1,500,000.

On April 20, 2006, TCOM issued 4,000,000 shares of its common stock to five consultants as part of their compensation, at the then market price of \$.52, for a total of \$2,080,000.

On July 31, 2006, TCOM issued 3,300,000 shares of its common stock to nineteen employees as a one-time bonus, at the then market price of \$0.44, for a total of \$1,452,000.

The Application of the "Penny Stock Regulation" Could Harm The Market Price Of Our Common Stock.

Our common stock continues to trade below \$5.00 per share, our common stock is considered a "penny stock" and is subject to Securities and Exchange Commission's (the "SEC") rules and regulations, which impose limitations upon the manner in which our shares can be publicly traded.

These regulations require the delivery, prior to any transaction involving a penny stock, of a disclosure schedule explaining the penny stock market and the associated risks. Under these regulations, certain brokers who recommend such securities to persons other than established customers or certain accredited investors must make a special written suitability determination regarding such a purchaser and receive such purchaser's written agreement to a transaction prior to sale. These regulations have the effect of limiting the trading activity of our common stock and reducing the liquidity of an investment in our common stock.

Stockholders should be aware that, according to the SEC Release No. 34- 29093, the market for penny stocks has suffered in recent years from patterns of fraud and abuse. These patterns include:

- Control of the market for the security by one or a few broker-dealers that are often related to the promoter or issuer;
- Manipulation of prices through prearranged matching of purchases and sales and false and misleading press releases;
- "Boiler room" practices involving high pressure sales tactics and unrealistic price projections by inexperienced sales persons;
- Excessive and undisclosed bid-ask differentials and markups by selling broker-dealers; and
- The wholesale dumping of the same securities by promoters and broker-dealers after prices have been manipulated to a desired level, along with the inevitable collapse of those prices with consequent investor losses.

Furthermore, the "penny stock" designation may adversely affect the development of any public market for the Company's shares of common stock or, if such a market develops, its continuation. Broker-dealers are required to personally determine whether an investment in "penny stock" is suitable for customers.

Penny stocks are securities (i) with a price of less than five dollars per share; (ii) that are not traded on a "recognized" national exchange; (iii) whose prices are not quoted on the NASDAQ automated quotation system (NASDAQ-listed stocks must still meet requirement (i) above); or (iv) of an issuer with net tangible assets less than \$2,000,000 (if the issuer has been in continuous operation for at least three years) or \$5,000,000 (if in continuous operation for less than three years), or with average annual revenues of less than \$6,000,000 for the last three years.

Section 15(g) and Rule 15g-2 of the Securities Exchange Act of 1934 (the "Exchange Act") require broker-dealers dealing in penny stocks to provide potential investors with a document disclosing the risks of penny stocks and to obtain a manually signed and dated written receipt of the document before effecting any transaction in a penny stock for the investor's account. Potential investors in the Company's common stock are urged to obtain and read such disclosure carefully before purchasing any shares that are deemed to be "penny stock."

Rule 15g-9 requires broker-dealers in penny stocks to approve the account of any investor for transactions in such stocks before selling any penny stock to that investor. This procedure requires the broker-dealer to (i) obtain from the investor information concerning his or her financial situation, investment experience and investment objectives; (ii) reasonably determine, based on that information, that transactions in penny stocks are suitable for the investor and that the investor has sufficient knowledge and experience as to be reasonably capable of evaluating the risks of penny stock transactions; (iii) provide the investor with a written statement setting forth the basis on which the broker-dealer made the determination in (ii) above; and (iv) receive a signed and dated copy of such statement from the investor, confirming that it accurately reflects the investor's financial situation, investment experience and investment objectives. Compliance with these requirements may make it more difficult for the Company's stockholders to resell their shares to third parties or to otherwise dispose of them.

Future Sales of Large Amounts of Common Stock Could Adversely Affect the Market Price of Our Common Stock and Our Ability to Raise Capital.

Future sales of our common stock by existing stockholders pursuant to Rule 144 under the Securities Act of 1933, as amended (the "Securities Act"), or following the exercise of future option grants, could adversely affect the market price of our common stock. Our directors and executive officers and their family members are not under lockup letters or other forms of restriction on the sale of their common stock. The issuance of any or all of these additional shares upon exercise of options will dilute the voting power of our current stockholders on corporate matters and, as a result, may cause the market price of our common stock to decrease. Further, sales of a large number of shares of common stock in the public market could adversely affect the market price of the common stock and could materially impair our future ability to generate funds through sales of common stock or other equity securities.

Recent Sales of Unregistered Securities

On August 12, 2006, the Company sold an aggregate of 4,600,000 shares to two investors, at a price of \$0.31 per share, resulting in cash proceeds to the Company of \$1,426,000. All such shares are "restricted securities" within the meaning under the Securities Act of 1933, as amended.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATION.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This periodic report contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995 with respect to the financial condition, results of operations, business strategies, operating efficiencies or synergies, competitive positions, growth opportunities for existing products, plans and objectives of management. Statements in this periodic report that are not historical facts are hereby identified as "forward-looking statements" for the purpose of the safe harbor provided by Section 21E of the Exchange Act and

Section 27A of the Securities Act. Prospective shareholders should understand that several factors govern whether any forward-looking statement contained herein will be or can be achieved. Any one of those factors could cause actual results to differ materially from those projected herein. These forward-looking statements include plans and objectives of management for future operations, including plans and objectives relating to the products and the future economic performance of the Company. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions, future business decisions, and the time and money required to successfully complete development projects, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although we believe that the assumptions underlying the forward-looking statements contained herein are reasonable, any of those assumptions could prove inaccurate and, therefore, there can be no assurance that the results contemplated in any of the forward-looking statements contained herein will be realized. Based on actual experience and business development, the Company may alter its marketing, capital expenditure plans or other budgets, which may in turn affect the results of operations. In light of the significant uncertainties inherent in the forward-looking statements included herein, the inclusion of any such statement should not be regarded as a representation by the Company or any other person that the objectives or plans of the Company will be achieved.

Results of Operations*Income Statement Items*

The following table summarizes the results of our operations during the twelve months ended September 30, 2006 and 2005 and provides information regarding the dollar and percentage increase or (decrease) from the current fiscal year to the prior fiscal year:

Years Ended September 30, 2006 and 2005

	9/30/2006	9/30/2005	Increase (Decrease)	Percentage Increase (Decrease)
Revenues	\$ 15,546,181	\$ 9,071,997	\$ 6,474,184	71%
Cost of sales	6,621,878	5,064,723	1,557,155	31%
Gross profit	8,924,303	4,007,274	4,917,029	122%
Operating expenses	8,002,716	2,010,622	5,992,094	298%
Other income (expenses)	19,563	1,641	17,922	1092%
Income from continuing operations	\$ 941,150	\$ 1,998,293	\$ (1,057,143)	(53)%
Minority interest in income of subsidiary	74,821	20,000	54,821	274%
Net income from discontinued operations	55,757	30,159	25,598	85%
Net income	1,071,728	2,048,452	(976,724)	(48)%
Other comprehensive income	1	113	(112)	
Comprehensive income	1,071,729	2,048,565	(976,836)	(48)%
Earnings per common share				
- Basic	\$ 0.01	\$ 0.03		
- Fully diluted	\$ 0.01	\$ 0.02		
Weighted average common share Outstanding				
- Basic	85,630,740	72,978,411		
- Fully diluted	85,630,740	82,978,411		

Revenues increased by \$6,474,184 due primarily to:

Revenues were \$15,546,181 for the year ended September 30, 2006 compared to \$9,071,997 for the year ended September 30, 2005. The increase of \$6,474,184 is due primarily to the increase in revenue from the integrated communications network solutions provided by TCOM and export trading business from Panyu M&M.

On April 1, 2006, TCOM acquired a 53.92% interests in Panyu M&M indirectly through the acquisition of a subsidiary, HRDQ. As a result, revenue of \$2,868,074 was generated from this new acquired subsidiary.

During the year ended September 30, 2006, our revenues of \$4,239,377 were mainly generated from fixed monthly income by providing clients our products, namely Total Solution System and SEO4Mobile. Also, revenues of \$8,438,730 were generated from the sales of the right to use IBSv4.1 Enterprise Suite.

During the year ended September 30, 2006, sales of the Total Solution System to Taikang Capital Managements Corporation, an affiliate of the Company amounting to \$1,440,000 were classified as Related Party Transactions and the amount due from this stockholder as of September 30, 2006 was \$840,000, which was classified under the Accounts receivable - related company.

Costs of Sales increased by \$1,557,155 due primarily to:

Costs of sales were \$6,621,878 for the year ended September 30, 2006 compared to \$5,064,723 for the year ended September 30, 2005. Costs of Sales included cost of goods sold in trading, depreciation and other cost of sales. Cost of trading mainly included all the costs that Panyu M&M incurred in their import and export trading activities in the amount of \$2,804,564. Depreciation represented the depreciation of software which related to the revenue of the Company amounted to \$1,844,445. Other costs of sales were the purchase of various contents and other later stage production from raw contents and costs associated with the performance of our communication services totaling \$1,972,870.

Operating expenses increased by \$5,992,094 due primarily to:

For the year ended September 30, 2006, we incurred operating expenses of \$8,002,716 as compared to \$2,010,622 for the year ended September 30, 2005. Operating expenses included allowance of bad debts \$357,380, salary of \$564,292, impairment loss of copyrights of \$1,530,000, general and administration expenses of \$1,037,289 and stock-based compensation expense of \$4,516,034.

Stock-based compensation expense had an increase of \$3,848,681 for the year ended September 30, 2006 due to further issue stock to consultants and employees as compensation during the years.

Stock-Based Compensation Expense

In March 2005, the SEC staff expressed their views with respect to SFAS No. 123R in Staff Accounting Bulletin No. 107, "Share-Based Payment," (SAB 107). SAB 107 provides guidance on valuing options. The Company measures the cost of employee services received in exchange for an award of equity instruments based on the grant date fair value of the award. Also, that cost is recognized over the period during which the employee is required to provide services in exchange for the award. Stock-Based Compensation Expense had a net increase of \$3,848,681 for the year ended September 30, 2006 due to compensation to the chief executive officer, four vice presidents, new consultants and a one-off bonus to employees.

Other income increased by \$19,563 due primarily to:

Other income was \$19,563 for year ended September 30, 2006 compared to \$1,641 for the year ended September 30, 2005. Other income is increased by \$16,786. Commission income was \$12,723 and interest income was \$2,777 for the year ended September 30, 2006.

Corporate tax

Enterprise income tax in PRC is generally charged at 33% of a company's assessable profit, in which 30% is a national tax and 3% is a local tax. The Company's subsidiaries incorporated in the PRC are subject to PRC enterprise income tax at the applicable tax rates on the taxable income as reported in their Chinese statutory accounts in accordance with the relevant enterprise income tax laws applicable to foreign enterprises. Pursuant to the same enterprise income tax laws, the Company's subsidiaries are fully exempted from PRC enterprise income tax for two years starting from the first profit-making year, followed by a 50% tax exemption for the next three years.

No provision for enterprise income tax in the PRC had been made for the years ended September 30, 2006 and 2005 due to the fact that it is exempt from PRC tax, based on the statutory provisions granting a tax holiday for a two year period, as stated above, or for the Company's operations, for the Company's years ended September 30, 2006 and 2005. The Company's first profit taking year was the year ended September 30, 2005, therefore tax will be due to the PRC, if the Company generates PRC taxable income, for the fiscal year ended September 30, 2007.

Based on the above statutory PRC tax provision, the Company believes that its current tax position is correct in that it is remote that any PRC tax liability will be due for the fiscal years ended September 30, 2006 and 2005.

The Company uses the liability method, where deferred tax assets and liabilities are determined based on the expected future tax consequences of temporary differences between the carrying amounts of assets and liabilities for financial and income tax reporting purposes. There are no material timing differences and therefore no deferred tax asset or liability at September 30, 2006.

If all of the above tax holidays and concessions had not been available, we would have paid \$1,540,000 more in taxes for the year ended September 30, 2006 (2005: \$940,000) and the basic and diluted net income per share would have been lower by \$0.01 and \$0.01 respectively for the year ended September 30, 2006 and 2005.

Discontinued Operations

The Company sold its operations in Island Media on April 1, 2006. Under the provisions of SFAS No. 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the financial results of these operations were classified as discontinued operations in the accompanying consolidated statements of operations, net of tax, in 2006. The net from discontinued operations was \$55,757.

Liquidity and Capital Resources

We believe that our currently-available working capital, after receiving the aggregate proceeds of our capital raising activities in the fourth quarter of fiscal year 2006 and collection of our accounts receivable, should be adequate to sustain our operations at least through the end of fiscal year 2007.

As of September 30, 2006, we had a cash balance of \$1,211,542 held in the PRC and Hong Kong. We currently have no cash positions in the United States. We have been funding our operations from the receipts from customers and sales of our stock.

Management has invested substantial time evaluating and considering numerous proposals for possible investments, acquisitions or business combinations, either sought out by management or presented to management by investment professionals, the Company's advisers and others. We continue to consider acquisitions, business combinations, or start up proposals, which could be advantageous to our shareholders. No assurance can be given that any such project, acquisition or combination will be concluded, or that all these actions will be approved by our Board of Directors.

Net cash used in operations for the year ended September 30, 2006 was \$2,583,810. In the future, we may use cash in our operations due to the continuing implementation of our business model and increased expenses from costs associated with being a public company.

We currently have a commitment to purchase copyrights from Zestv Features Limited ("Zestv") under an agreement dated as of December 29, 2005 for the purchase of Zestv's future rights to its music, films and TV programming copyrights of online content. The total obligation to Zestv is \$2,500,000. As of September 30, 2006, the Company paid 50% amount \$1,250,000 by accounts receivable and recorded it as a prepaid expense.

Additionally, an agreement with Zestv was signed on June 13, 2006 to purchase the copyrights and the internet copyrights to two films: "First, Open" and "Big Movie: Subaye." The cost of the films' copyrights was \$840,000 and \$900,000 respectively. The cost for the movie internet copyrights was \$1,060,000 and \$1,000,000 respectively. As of September 30, 2006, the Company paid \$1,230,000 by accounts receivable during the year and \$2,770,000 remained as an accounts payable.

Net cash used in investing activities for the year ended September 30, 2006 was \$165,615 of which \$179,986 was the cash inflow from the acquisition of the subsidiary of Panyu M&M since the consideration of \$500,000 are settled by our accounts receivable with the net assets acquired amounting to \$320,014. Furthermore, \$34,211 of cash was used in the acquisition of the property, plant and equipment. The Company also acquired the e-government, e-service and e-education software of IBS 5.0 series of \$3,600,000 by settlement of accounts receivable and HRDQ issued its shares to acquire the website - Subaye.com amounting 5,576,344.

Net cash provided by financing activities for the year ended September 30, 2006 was \$1,628,889. It represented the issuance of 4,600,000 shares of the Company's common stock, par value \$.001 per share, for an aggregate purchase price of \$1,426,000 which was used for the prepayment for the advertisement relating to the promotion of the website www.subaye.com of HRDQ. It also represented repayment of a finance lease of \$10,199 and repayment of loan payable in the amount of \$226,410.

Our future growth is dependent on our ability to raise capital for expansion, and to seek additional revenue sources. If we decide to pursue any acquisition opportunities or other expansion opportunities, we may need to raise additional capital, although there can be no assurance such capital-raising activities would be successful.

Critical Accounting Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires our management to make assumptions, estimates and judgments that affect the amounts reported in the financial statements, including the notes thereto, and related disclosures of commitments and contingencies, if any. We consider our critical accounting policies to be those that require the more significant judgments and estimates in the preparation of financial statements, including the following:

Revenue recognition

We recognize revenue in accordance with SEC Staff Accounting Bulletin No. 104. Product revenue is recognized when title and risk of ownership have been transferred, provided that persuasive evidence of an arrangement exists, the price is fixed and determinable, remaining obligations are insignificant and collectibility is reasonably assured. Transfer of title and risk of ownership occur when the product is shipped to the customer. Revenue is recorded at the invoiced amount net of discounts.

Accounting on property, plant and equipment

Property, plant and equipment- Property and equipment are located in the PRC and are recorded at cost. Depreciation and amortization are calculated using the straight-line method over the expected useful life of the asset, after the asset is placed in service. The Company generally uses the following depreciable lives for its major classifications of property and equipment:

Description	Useful Lives
Computer hardware	3 years
Computer software	3 years
Website	3 years
Motor Vehicles	3 years
Furniture and fixtures	5 years
Leasehold improvements	5 years

Accounting for allowance for doubtful accounts

Trade accounts receivable- Trade accounts receivable are recorded at the invoiced amount and do not bear interest. The allowance for doubtful accounts represents the Company's best estimate of the amount of probable credit losses in the existing accounts receivable balance. The Company determines the allowance for doubtful accounts based upon historical write-off experience and current economic conditions. The Company reviews the adequacy of its allowance for doubtful accounts on a regular basis. Receivable balances past due over 120 days, which exceed a specified dollar amount, are reviewed individually for collectibles. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company does have off-balance sheet credit exposure related to its customers, due to a concentration of customers accounting for more than 83% of the company's accounts receivable.

Allowances for doubtful accounts receivable balances are recorded when circumstances indicate that collection is doubtful for particular accounts receivable or as a general reserve for all accounts receivable. Management estimates

such allowances based on historical evidence such as amounts that are subject to risk. Accounts receivable are written off if reasonable collection efforts are not successful.

Allowance for doubtful accounts was \$357,380 and \$525,840 as of September 30, 2006 and September 30, 2005, respectively.

Income taxes

Income taxes are provided on an asset and liability approach for financial accounting and reporting of income taxes. Any tax paid by subsidiaries during the year is recorded. Current tax is based on the profit or loss from ordinary activities adjusted for items that are non-assessable or disallowable for income tax purposes and is calculated using tax rates that have been enacted or substantively enacted as of the date of the balance sheet. Deferred income tax liabilities or assets are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and the financial reporting amounts as of each year end. A valuation allowance is recognized if it is more likely than not that some portion, or all, of a deferred tax asset will not be realized.

Risk Factors That May Affect Future Operating Results

You should carefully consider the risks described below before making an investment decision. The risks and uncertainties described below are the material risks that apply to our business, operations, financial condition and prospects.

Operating Risk

Currently, the Company's revenues are derived from two main revenue streams: (i) from the re-selling of software to enterprises, large corporations, and the academic sector, as well as telecom-related services to customers in the PRC and (ii) from the import and export trading in PRC from Panyu M&M. The Company hopes to expand its operations to countries outside the PRC, however, such expansion has not been commenced and there are no assurances that the Company will be able to achieve such an expansion successfully. Therefore, a downturn or stagnation in the economic environment of the PRC could have a material adverse effect on the Company's financial condition.

Products Risk

Our revenue-producing operations are limited and the information available about our business makes an evaluation of our business difficult. We have conducted limited operations and we have little operating history that permits you to evaluate our business and our prospects based on prior performance. You must consider your investment in light of the risks, uncertainties, expenses and difficulties that are usually encountered by companies in their early stages of development, particularly those engaged in international commerce. In addition to competing with other telecommunication and web companies, the Company could have to compete with larger U.S. companies who have greater funds available for expansion, marketing, research and development and the ability to attract more qualified personnel if access is allowed into the PRC market. If U.S. companies do gain access to the PRC markets in general, they may be able to offer products at a lower price. There can be no assurance that the Company will remain competitive should this occur.

Exchange Risk

The Company generates revenue and incurs expenses and liabilities in Chinese renminbi, Hong Kong dollars and U.S. dollars. As a result, the Company is subject to the effects of exchange rate fluctuations with respect to any of these currencies. Since 1994, the official exchange rate for the conversion of renminbi to U.S. dollars has generally been stable, with the renminbi appreciating slightly against the U.S. dollar. Although the economic situation remains favorable with sound performance of the financial industry, high priority should be given to monitoring the risks brought about by the excessively rapid growth of the PRC national economy, which could result in structural imbalances in domestic as well as foreign trade and global economic imbalances. As a result, the Company's operations and financial conditions may be affected by changes in the value of renminbi and other currencies in which its earnings and obligations are denominated. The Company has not entered into agreements or purchased instruments to hedge its exchange rate risks, although the Company may do so in the future.

Our future performance is dependent on our ability to retain key personnel.

Our future success depends on the continued services of executive management in the PRC. The loss of any of their services would be detrimental to us and could have an adverse effect on our business development. We do not currently maintain key-man insurance for any of our executives. Our future success is also dependent on our ability to identify, hire, train and retain other qualified managerial and other employees. Competition for these individuals is intense and increasing.

Our business depends significantly upon the performance of our subsidiaries, which is uncertain.

Currently, a majority of our revenues are derived from the operations of our subsidiaries. Economic, governmental, political, industry and internal company factors outside our control affect each of our subsidiaries. If our subsidiaries do not succeed, the value of our assets and the price of our common stock could decline. Some of the material risks relating to our partner companies include:

- our subsidiaries are located in the PRC and have specific risks associated with that;
- intensifying competition for our products and services, and those of our subsidiaries, which could lead to the failure of some of our subsidiaries.

A visible trading market for our common stock may not develop.

Our common stock is currently traded on the OTCBB under the symbol "TCOM." The quotation of our common stock on the OTCBB does not assure that a meaningful, consistent and liquid trading market currently exists. We cannot predict whether a more active market for our common stock will develop in the future. In the absence of an active trading market:

- investors may have difficulty buying and selling or obtaining market quotations;
- market visibility for our common stock may be limited; and
- a lack of visibility for our common stock may have a depressive effect on the market price for our common stock.
- Our stock is a penny stock and there are significant risks related to buying and owning penny stocks.

Rule 15c-9 under the Securities Exchange Act of 1934 imposes additional sales practice requirements on broker-dealers that sell non-NASDAQ listed securities except in transactions exempted by the rule, including transactions meeting the requirements of Rule 506 of Regulation D under the Securities Act and transactions in which the purchaser is an institutional accredited investor (as defined) or an established customer (as defined) of the broker or dealer. For transactions covered by this rule, a broker-dealer must make a special suitability determination for the purchaser and have received the purchaser's written consent to the transaction prior to sale. Consequently, this rule may adversely affect the ability of broker-dealers to sell our securities and may adversely affect your ability to sell any of the securities you own.

Our largest target market is in the PRC and there are several significant risks relating to conducting operations in the PRC. The capitalization of our business, the financial condition and results of operations are, to a significant degree, subject to economic, political and social events in the PRC.

Governmental policies in the PRC could impact our business.

Since 1978, the PRC's government has been and is expected to continue reforming its economic and political systems. These reforms have resulted in and are expected to continue to result in significant economic and social development in the PRC. Many of the reforms are unprecedented or experimental and may be subject to change or readjustment due to a number of political, economic and social factors. We believe that the basic principles underlying the political and economic reforms will continue to be implemented and provide the framework for the PRC's political and economic system. New reforms or the readjustment of previously implemented reforms could have a significant negative effect on our operations. Changes in the PRC's political, economic and social conditions and governmental policies which could have a substantial impact on our business include:

- new laws and regulations or new interpretations of those laws and regulations;
- the introduction of measures to control inflation or stimulate growth;
- changes in the rate or method of taxation;
- the imposition of additional restrictions on currency conversion and remittances abroad; and
- any actions which limit our ability to conduct lottery operations in the PRC.

Economic policies in the PRC could negatively impact our business.

The economy of the PRC differs from the economies of most countries belonging to the Organization for Economic Cooperation and Development in various respects, such as structure, government involvement, level of development, growth rate, capital reinvestment, allocation of resources, self-sufficiency, rate of inflation and balance of payments position. In the past, the economy of the PRC has been primarily a planned economy subject to one- year and five-year state plans adopted by central government authorities and largely implemented by provincial and local authorities. These plans set production and development targets.

Since 1978, increasing emphasis had been placed on decentralization and the utilization of market forces in the development of the PRC's economy. Economic reform measures adopted by the PRC government may be inconsistent or ineffectual, and we may not be able to capitalize on any reforms in all cases. Further, these measures may be adjusted or modified in ways that could result in economic liberalization measures that are inconsistent from time to time, from industry to industry or across different regions of the country. The PRC's economy has experienced significant growth in the past decade. This growth, however, has been accompanied by imbalances in the PRC's economy and has resulted in significant fluctuations in general price levels, including periods of inflation. The PRC's government has implemented policies from time to time to increase or restrain the rate of economic growth, control periods of inflation or otherwise regulate economic expansion. While we may be able to benefit from the effects of some of these policies, these policies and other measures taken by the PRC's government to regulate the economy could also have a significant negative impact on economic conditions in the PRC, with a resulting negative impact on our business.

The PRC's entry into the World Trade Organization ("WTO") creates uncertainty.

The PRC formally became the 143rd member of the WTO, the multilateral trade body, on December 11, 2001. Entry into the WTO will require the PRC to further reduce tariffs and eliminate other trade restrictions. While the PRC's entry into the WTO and the related relaxation of trade restrictions may lead to increased foreign investment, it may also lead to increased competition in the PRC's markets from international companies. The impact of the PRC's entry into the WTO on the PRC's economy and our business is uncertain.

Uncertainty relating to the PRC's legal system could negatively affect us.

The PRC has a civil law legal system. Decided court cases do not have binding legal effect on future decisions. Since 1979, many new laws and regulations covering general economic matters have been promulgated in the PRC. Despite this activity to develop the legal system, the PRC's system of laws is not yet complete. Even where adequate law exists in the PRC, enforcement of contracts based on existing law may be uncertain and sporadic and it may be difficult to obtain swift and equitable enforcement, or to obtain enforcement of a judgment by a court of another jurisdiction. The relative inexperience of the PRC's judiciary in many cases creates additional uncertainty as to the outcome of any litigation. Further, interpretation of statutes and regulations may be subject to government policies reflecting domestic political changes.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that will have a current effect on our financial condition and changes in financial condition in 2006.

Commitments

As of the balance sheet date, the Company had a total commitment amount of \$573,082, which is comprised of four lease agreements. The first lease commitment is the commitment of TCOM to rent the office at Suite 2412-13, Shell

Tower, Times Square, 1 Matheson Street, Causeway Bay, Hong Kong with a gross area of approximately 1,514 square feet, for a term of 36 months from May 3, 2005 to May 2, 2008. An amount of \$52,408 and \$30,853 will be expensed in 2007 and 2008, respectively.

The second lease commitment is the commitment of IC Star to rent its office at No.74 Shanan Road Shiqiao Panyu Guangzhou, PRC for a term of 24 months from July 1, 2006 to June 30, 2008. An amount of \$121,594 and \$91,195 will be expensed in 2007 and 2008 respectively.

The third lease commitment is the commitment of Panyu M& M's office at No.178 2/F Huanchengdong Road, Shiqiao Panyu, Guangzhou for a term of 24 months from January 1, 2006 to December 31, 2007. The lease payment of \$7,031 will be paid in 2007.

The fourth lease commitment is the commitment of TCOM Beijing to rent the office at 9/F, Beijing Business World, 56 Dongxinglong Avenue, CW District, Beijing for a term of 24 months from April 3, 2006 to April 2, 2008. \$90,000 was expensed in the year and \$270,000 is remaining for the next two years.

ITEM 7. FINANCIAL STATEMENTS.

See "Index to Consolidated Financial Statements" for the financial statements included in this Form 10-KSB.

ITEM 8. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 8A. CONTROLS AND PROCEDURES..

Our Chief Executive Officer and Chief Financial Officer (collectively, the "Certifying Officers") are responsible for establishing and maintaining disclosure controls and procedures for us. Based upon such officers' evaluation of these controls and procedures as of a date within 90 days of the filing of this Annual Report, we had concluded that a material weakness existed in Telecom's internal control over financial reporting in the past year. The material weakness in internal control over financial reporting related to the fact that Telecom lacked a sufficient complement of personnel with a level of financial reporting expertise commensurate with its financial reporting requirements to resolve non-routine or complex accounting matters. We have remedied these weaknesses by hiring additional personnel with financial expertise to our staff. The Certifying Officers have now concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in this Annual Report is accumulated and communicated to management, including our principal executive officers as appropriate, to allow timely decisions regarding required disclosure.

The Certifying Officers have also indicated that there were no significant changes in our internal controls or other factors that could materially affect such controls subsequent to the date of their evaluation, and there were no corrective actions with regard to significant deficiencies and material weaknesses.

Our management, including each of the Certifying Officers, does not expect that our disclosure controls or our internal controls will prevent all error and fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. In addition, the design of a control system must reflect the fact that there are resource constraints, and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people or by management override of the control. The design of any systems of controls also is based in part upon certain assumptions about the likelihood of future events, and their can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, the control system may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of these inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

ITEM 8B. OTHER INFORMATION

None.

22

PART III.**ITEM DIRECTORS, EXECUTIVE OFFICERS, PROMOTORS AND CONTROL PERSONS;
9. COMPLIANCE WITH SECTION 16(a) OF THE EXCHANGE ACT.****DIRECTORS AND EXECUTIVE OFFICERS**

The following table includes the names, positions held and ages of our executive officers and directors as of September 30, 2006.

NAME	AGE	POSITION
Tim T. Chen	41	CEO, President and Director
Yan Liu	30	Vice President, COO and Director
Victor Z. Li	33	CFO, Controller, Secretary, Treasurer and Director
Yaofu Su	27	Vice President, Director
Hongtao Zhang	30	Director

Tim T. Chen, Chief Executive Officer, President and Director

Mr. Chen joined the Company in April, 2005. He has more than 15 years of senior-level China business development, sales, marketing, operations and general management experience. Prior to joining the Company, Mr. Chen was the President of the technology investment company Great Wall Investments Co. and CEO of logistic networking company Jidata Logistic ("Jidata") for 5 years. Prior to Jidata, he was the Vice President of Vision Applications, a laser equipment applications company for the period 1991-2000.

Yan Liu, Vice President, Chief Operating Officer and Director

Ms. Liu joined the Company as Vice President and Director of the Company on March 20, 2006. From June 2004 through March 2006, Ms. Liu was the Chief Operating Officer of sinosuper.com ("Sino"). Sino is an internet company that is a wholly-owned subsidiary of Wukuang IE Limited. From May 2003 to April 2004, Ms. Liu was the Company's General Manager of the Marketing and Sales Department. From July 2002 to April 2003, Ms. Liu was the assistant to the Chief Executive Officer of South China Motor Group in Guangzhou, China. From June 1999 to July 2002, she was the director of the Plan Department at Dali Motorcycle Limited in Xinhui City, China.

Victor Z. Li, Chief Financial Officer, Controller, Secretary, Treasurer and Director

Mr. Li joined the Company in August 2005 and has over 6 years of extensive experience in treasury management. From October 2003 through August 2005, Mr. Li was the manager of the Enterprise Finance division at Taikang Capital Managements Corp. ("Taikang"). Taikang currently holds 20 million shares of the Company's common stock. Mr. Li started his professional career at Pacific Insurance Corp. in Yinchuan city in July, 1999 as a client manager of corporate finance, a position he held until June 2003.

Yaofu Su, Vice President, Director

Mr. Su joined the Company in 2004, and his present position is vice president of the Company and the Chief Executive Officer of HRDQ Group, Inc. ("HRDQ"). HRDQ is a holding company that owns and operates an e-commerce website and trading company that is a majority-owned subsidiary of the Company since June 2006. From January 2005 through present, Mr. Su is the Multimedia Technology Director of 3G Dynasty Inc. ("3G"). 3G is an internet and wireless communications content services company that is a wholly-owned subsidiary of the Company. From March 2004 to December 2004, Mr. Su was the multimedia content production manager of IC Star MMS

Limited, a wholly-owned subsidiary of the Company. From September 2001 to February 2004, he studied computer system application at Guangdong Industrial University.

Hongtao Zhang, Director

Mr. Zhang joined the Company in 2003, and his present position is Chief Executive Officer of Guangzhou TCOM Computer Technology Limited a PRC limited liability company that is a wholly-owned subsidiary of the Company. From June 2004 to May 2006, Mr. Zhang was the IT Director of Alpha Century Holdings Limited ("Alpha"). Alpha is an IT and communications solution services company that is a wholly owned subsidiary of the Company. From May 2003 to May 2004, Mr. Zhang was the webmaster of IC Star MMS Limited, a wholly-owned subsidiary of the Company. From July 2001 to April 2003, Zhang was the computer programmer of New Tech Developments Group in Guangzhou.

Audit Committee

We do not have an audit committee. The entire Board of Directors serves as the audit committee. Because of the small size of the Company and the risk attendant to a small public company, we are currently unable to attract an audit committee financial expert to our Board of Directors. There are no other committees of the Board of Directors.

Compliance With Section 16(a) of the Exchange Act

Section 16(a) of the Securities Exchange Act of 1934 requires that the Company's directors and executive officers and persons who beneficially own more than ten percent (10%) of a registered class of its equity securities, file with the SEC reports of ownership and changes in ownership of its common stock and other equity securities. Executive officers, directors, and greater than ten percent (10%) beneficial owners are required by SEC regulation to furnish the Company with copies of all Section 16(a) reports that they file. Based solely upon a review of the copies of such reports furnished to us or written representations that no other reports were required, the Company believes that, during that past fiscal year, all filing requirements applicable to its executive officers, directors, and greater than ten percent (10%) beneficial owners were met.

Code of Ethics

We have adopted a Code of Ethics for our Senior Financial Officers and for all of our employees. We shall, without charge, provide to any person, upon request, a copy of our Code of Ethics for our Senior Financial Officers. All such requests should be mailed to: Telecom Communications, Inc., 9/F., Beijing Business World, 56 Dongxinglong Avenue, Beijing China, 100062, attention: Victor Z. Li, Secretary, Treasurer and CFO.

As required by SEC rules, we will report within five business days the nature of any change or waiver of our Code of Ethics for our Senior Financial Officers.

ITEM 10. EXECUTIVE COMPENSATION.

Summary Compensation Table

The following table sets forth information relating to all compensation awarded to, earned by or paid by us during the past three fiscal years to (a) our Chief Executive Officer and (b) each of our executive officers who earned more than \$100,000 during the last three fiscal periods ended September 30, 2006, 2005 and 2004:

Name and Principal Position	Year	Annual Compensation		Long-Term Compensation Securities Underlying Options
		Salary(\$)	Bonus(\$)	

Edgar Filing: MyStarU.com, Inc. - Form 10KSB/A

Tim T. Chen Chief Executive Officer, President and Director	2006	\$	780,000	-0-	—
	2005		-0-	-0-	—
	2004		-0-	-0-	—
Victor, Z. Li Chief Financial Officer, Controller, Secretary, Treasurer and Director	2006	\$	490,000	-0-	—

	2004		-0-	-0-	—

Option Grants In Last Fiscal Year

None.

Aggregated Option/SAR Exercises In Last Fiscal Year And Fiscal Year-End Option/SAR Values

None.

Term Of Office

The term of office of the current directors shall continue until new directors are elected or appointed.

Employment Agreements

The Company has entered into employment agreements with its officers. The terms of the employment have been disclosed above. There are no employment contracts established with our employees in the PRC as it is not common to have employment contracts in the PRC for non-management employees.

Termination of Employment and Change of Control Arrangement

There are no compensatory plans or arrangements, including payments to be received from the Company, with respect to any person named in the Summary Compensation Table set forth above which would in any way result in payments to any such person because of his or her resignation, retirement or other termination of such person's employment with the Company or its subsidiaries, or any change in control of the Company, or a change in the person's responsibilities following a change in control of the Company.

Indemnification of Officers And Directors

We indemnify to the fullest extent permitted by, and in the manner permissible under the laws of the State of Delaware, any person made, or threatened to be made, a party to an action or proceeding, whether criminal, civil, administrative or investigative, by reason of the fact that he/she is or was a director or officer of our Company, or served any other enterprise as director, officer or employee at our request. Our board of directors, in its discretion, shall have the power on behalf of the Company to indemnify any person, other than a director or officer, made a party to any action, suit or proceeding by reason of the fact that he/she is or was our employee.

ITEM 11. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS.

(a) Security Ownership of Certain Beneficial Owners

The following table sets forth, as of September 30, 2006, information known to us relating to the beneficial ownership of shares of common stock by: each person who is the beneficial owner of more than 5 percent of the outstanding shares of common stock; each director; each executive officer; and all executive officers and directors as a group.

We believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them except as stated therein.

Under the securities laws, a person is considered to be the beneficial owner of securities that can be acquired by him or her within 60 days from the date of this filing upon the exercise of options, warrants or convertible securities. We determine beneficial owner's percentage ownership by assuming that options, warrants or convertible securities that are held by him or her, but not those held by any other person and which are exercisable within 60 days of the date of this filing, have been exercised or converted. As of September 30, 2006, there were 97,088,000 shares of our common stock issued and outstanding.

Name and address of beneficial owner*	Number of Shares Beneficially Owned	Percentage of Shares Beneficially Owned	Position
Taikang Capital Managements Corporation 906, 9TH/F, YUXING BUILDING, XIHUAN RD PANYU, GUANGZHOU F4 GD511490	20,000,000	20.6%	
Auto Treasure Holdings Limited 1906, 19TH/F, YUXING BUILDING, XIHUAN RD PANYU, GUANGZHOU F4 GD511490	9,889,000	10.2%	
Tim T. Chen	1,500,000	%	Chief Executive Officer, President and Director
Victor Z. Li	1,000,000	1%	Chief Financial Officer, Controller, Secretary, Treasurer and Director
Yan Liu	700,000	0.7%	Vice President, Chief Operating Officer and Director
Yaofu Su	600,000	0.6%	Vice President, Director
Hongtao Zhang	600,000	0.6%	Director
Directors and Executive officers as a group	4,400,000	4.4%	

* Except where otherwise indicated, the address of the beneficial owner is deemed to be the same address of the Company.

(b) Changes in Control

We know of no contractual arrangements which may at a subsequent date result in a change of control in the Company.

ITEM 12. CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS.

As of September 30, 2006 and 2005, the Company owed one stockholder and his company \$57,857 and \$113,200, respectively. The advances are non-interest bearing and are payable on demand.

26

On October 1, 2005, an amount of \$3,846 was paid to Grace Motion, Inc. for the consulting services provided by Grace Motion, Inc. to TCOM during the year.

During the year ended September 30, 2006, we sold our products to TaiKang Capital Management Corporation for \$1,440,000. As of September 30, 2006, the outstanding balance due from TaiKang Capital Management Corporation was \$840,000.

A loan for \$64,102 was granted to Angelina Wong, a former officer of TCOM during the year. The loan is non-interest bearing loan and is payable on demand.

ITEM 13. EXHIBITS.

(a) Exhibits

Exhibit Number

- 31.1 Rule 13a-14(a)/15d-14(a) Certification (CEO)*
- 31.2 Rule 13a-14(a)/15d-14(a) Certification (CFO)*
- 32.1 Section 1350 Certification (CEO)*
- 32.2 Section 1350 Certification (CFO)*

*Filed herewith.

ITEM 14. PRINCIPAL ACCOUNTANT FEES AND SERVICES.

AUDIT FEES

The aggregate fees billed by the Company's auditors for professional services rendered in connection with the audit of the Company's annual consolidated financial statements for fiscal 2006 and 2005 and reviews of the consolidated financial statements included in the Company's Forms 10-KSB for fiscal 2006 and 2005 were approximately \$34,000 and \$45,000, respectively.

AUDIT-RELATED FEES

The Company's auditors did not bill any additional fees for assurance and related services that are reasonably related to the performance of the audit or review of the Company's financial statements.

TAX FEES

The aggregate fees billed by the Company's auditors for professional services for tax compliance, tax advice, and tax planning were \$0 for fiscal 2006 and 2005.

ALL OTHER FEES

The aggregate fees billed by the Company's auditors for all other non-audit services rendered to the Company, such as attending meetings and other miscellaneous financial consulting in fiscal 2006 and 2005 were \$0.

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant has caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors of
MyStarU.com, inc. (f.k.a. Telecom Communications, Inc.)
Times Square, Hong Kong

We have audited the accompanying consolidated balance sheet of MyStarU.com, inc. (f.k.a Telecom Communications, Inc.) (the Company) as of September 30, 2006, and the related consolidated statements of operations, stockholders' equity, and cash flows for the years ended September 30, 2006 and 2005. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these

financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audits included consideration of internal control over financial reporting, as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of MyStarU.com, inc. (f.k.a Telecom Communications, Inc.) as of September 30, 2006, and the results of its consolidated operations, stockholders' equity, and its cash flows for the years ended September 30, 2006 and 2005, in conformity with accounting principles generally accepted in the United States of America.

Since our previous report dated January 12, 2007 as described in note 19, certain amounts related to the valuation of goodwill and minority interest have been reevaluated by the Company. However, the Company has restated the consolidated financial statements to reflect these amounts.

/s/ Child, Van Wagoner & Bradshaw, PLLC
