Subject Company: North Pittsburgh Systems, Inc.
File No. of Related Registration Statement: 333-146131

To: All NPSI and Consolidated Communications

From: Bill Barthlow, COO, North Pittsburgh Systems, Inc.
Chris Young, CIO, Consolidated Communications
Subject: Integration Management Office

We're pleased to announce that Cynthia Coat has been named to coordinate integration efforts at North Pittsburgh Systems Inc. as a counterpart to Barb TenEyck, Consolidated Communications' integration manager. Cynthia brings organizational and project management skills, as well as knowledge of NPSI operations and people to this role. She will retain some of her current responsibilities as Senior Project Engineer and some responsibilities will be temporarily re-assigned until integration is complete.

Barb TenEyck, Director Business Development, played a key role in the integration of TXU Communications in 2004 and brings great experience to this project. Chris Young, Chief Information Officer, is the executive owner of the integration management office (IMO) and will oversee all integration efforts.

The integration managers will have day-to-day responsibility for integration of the two companies. This means developing a framework for overall integration including planning, project management, measurements, documentation and tools. They will facilitate the configuration of integration teams and leads and getting teams launched. In their role they will insure alignment and coordination of various integration activities and manage timely resolution of issues. They will also monitor progress against objectives and insure integration deadlines are met and provide regular updates to the executive team and the broader workforce.

While we are currently still operating as two companies, some integration projects are already underway due to the competitive environment and the timing of some supplier decisions. Three teams were launched during the end of September:

- IPTV deployment
- Financial-HR-Supply Chain Management system migration from JD Edwards to PeopleSoft
- Migration of NPSI carrier billing to CNSL's licensed application software

Additional planning will be done for the broader integration closer to the completion of the sale transaction. Forming the IMO and naming integration managers puts us in a great position to "hit the ground running" when we are one company.

If you have any questions regarding the IMO, please contact Chris Young (chris.young@consolidated.com or 217-234-5888) or Bill Barthlow (billb@nptc.com or 724-443-9556) directly.
