ARROW RESOURCES DEVELOPMENT, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - NATURE OF BUSINESS / ORGANIZATION

Business Description

Arrow Resources Development, Inc. and Subsidiaries ("the Company"), was subject to a change of control transaction that was accounted for as a recapitalization of CNE Group, Inc. ("CNE") in November 2005. Arrow Resources Development, Ltd., ("Arrow Ltd.") the Company's wholly-owned subsidiary, was incorporated in Bermuda in May 2005. Arrow Ltd. provides marketing and distribution services for natural resource products and currently has an exclusive marketing and distribution agreement with Arrow Pacific Resources (s) Pte. Ltd. ("Arrow Pte.") to market lumber and related products from land leased by Arrow Pte.'s timber subsidiaries in Papua, New Guinea. Under the agreement Arrow Ltd. will receive a commission of 10% of gross sales derived from lumber and related products.

In April of 2006, Arrow Ltd. entered into an agency agreement with Arrow Pacific Resources Group Limited ("APR") that provides marketing and distribution services for timber resource products and currently has an exclusive marketing and sales agreement with APR to market lumber and related products from land leased by GMPLH which is operated by APR and it's subsidiaries, located in Indonesia. Under the agreement Arrow Ltd. will receive a commission of 10% of gross sales derived from lumber and related products. The consideration to be paid to APR will be in the form of a to-be-determined amount of the Company's common stock, subject to the approval of the Board of Directors.

As of December 31, 2005, the Company also had a wholly-owned subsidiary, Career Engine, Inc. ("Career Engine") for which operations were discontinued prior to the recapitalization transaction. The net assets of Career Engine had no value as of December 31, 2005.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of consolidation:

The accompanying consolidated financial statements include the accounts of the Company and its wholly-owned subsidiary, Arrow Ltd. All significant inter-company balances and transactions have been eliminated.

Income taxes:

The Company follows SFAS No. 109, "Accounting for Income Taxes." Under the asset and liability method of SFAS No. 109, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. A valuation allowance has been provided for the Company's net deferred tax asset, due to uncertainty of realization.

Fair value of financial instruments:

For financial statement purposes, financial instruments include cash, accounts and accrued expenses payable, and amounts due to Empire Advisory, LLC ("Empire") (as discussed in Notes 6 and 7) for which the carrying amounts approximated fair value because of their short maturity.

Use of estimates:

The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from those estimates.

ARROW RESOURCES DEVELOPMENT, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Loss per share:

The Company complies with the requirements of the Financial Accounting Standards Board issued Statement of Financial Accounting Standards No. 128, “Earning per share” (“SFAS No. 128”). SFAS No. 128 specifies the compilation, presentation and disclosure requirements for earning per share for entities with publicly held common stock or potentially common stock. Net loss per common share, basic and diluted, is determined by dividing the net loss by the weighted average number of common shares outstanding.

Net loss per diluted common share does not include potential common shares derived from stock options and warrants because they are anti-dilutive for the period from November 15, 2005 to December 31, 2006 and for the period ended September 30, 2007. As of September 30, 2007, there are no dilutive equity instruments outstanding.

Acquired intangibles:

Intangible assets are comprised of an exclusive sales and marketing agreement. In accordance with SFAS 142, “Goodwill and Other Intangible Assets” the Company assesses the impairment of identifiable intangibles whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors the Company considers to be important which could trigger an impairment review include the following:

1. Significant underperformance relative to expected historical or projected future operating results;

2. Significant changes in the manner of use of the acquired assets or the strategy for the overall business; and

3. Significant negative industry or economic trends.

When the Company determines that the carrying value of intangibles may not be recoverable based upon the existence of one or more of the above indicators of impairment and the carrying value of the asset cannot be recovered from projected undiscounted cash flows, the Company records an impairment charge. The Company measures any impairment based on a projected discounted cash flow method using a discount rate determined by management to be commensurate with the risk inherent in the current business model. Significant management judgment is required in determining whether an indicator of impairment exists and in projecting cash flows.

The sales and marketing agreement will be amortized over 99 years, utilizing the straight-line method. Amortization expense has not been recorded since the acquisition occurred as the company has not yet made any sales.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements:

In May 2005, the FASB issued SFAS 154, “Accounting Changes and Error Corrections,” that applies to all voluntary changes in accounting principle. This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, this Statement requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for that period rather than being reported in an income statement. When it is impracticable to determine the cumulative effect of applying a change in accounting principle to all prior periods, this Statement requires that the new accounting principle be applied as if it were adopted prospectively from the earliest date practicable. SFAS 154 will be effective for the Company for fiscal year ended December 31, 2007. The Company does not anticipate that the adoption of SFAS No. 154 will have an impact on the Company's overall results of operations or financial position.

In February 2006, the FASB issued SFAS 155, “Accounting for Certain Hybrid Financial Instruments—an amendment of FASB Statements No. 133 and 140,” that allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a re-measurement (new basis) event, on an instrument-by-instrument basis, in cases in which a derivative would otherwise have to be bifurcated. It also eliminates the exemption from applying Statement 133 to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instruments. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 155 will have an impact on the Company's overall results of operations or financial position.

In March 2006, the FASB issued SFAS 156, “Accounting for Servicing of Financial Assets—an amendment of FASB Statement No. 140,” that applies to the accounting for separately recognized servicing assets and servicing liabilities. This Statement requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable. An entity should adopt this Statement as of the beginning of its first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 156 will have an impact on the Company's overall results of operations or financial position.

ARROW RESOURCES DEVELOPMENT, INC. AND SUBSIDIARIES
(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (continued):

In July 2006, the FASB issued FASB Interpretation No. 48, Accounting for Uncertainty in Income Taxes. The Interpretation clarifies the way companies are to account for uncertainty in income tax reporting and filing and prescribes a consistent recognition threshold and measurement attribute for recognizing, derecognizing, and measuring the tax benefits of a tax position taken, or expected to be taken, on a tax return. The Interpretation is effective for fiscal years beginning after December 15, 2006, although early adoption is possible. The Company does not plan to adopt early and the Company is currently in the process of evaluating the impact, if any, the adoption of the Interpretation will have on the 2007 financial statements.

In September 2006, the FASB issued SFAS 157, “Fair Value Measurements,” which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. The adoption of SFAS No. 157 will not have an impact on the Company's overall results of operations or financial position.

In September 2006, the Financial Accounting Standards Board (“FASB”) the issued SFAS No. 158, “Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans, an Amendment of FASB Statements No. 87, 88, 106, and 132(R)” (“SFAS No. 158”). SFAS No. 158 requires companies to report the funded status of their defined benefit pension and other postretirement benefit plans on their balance sheets as a net liability or asset as of December 31, 2006. The new standard does not address the accounting treatment for pension and postretirement benefits in the income statement. This will have no impact on the Company’s results of operations or financial position.

In February 2007, the Financial Accounting Standards Board (“FASB”) issued SFAS No.159, “The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No.115”. SFAS No.159 permits entities to choose to measure eligible financial instruments and other items at fair value at specified election dates. A business entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. The fair value option may be applied instrument by instrument but only upon the entire instrument - not portions of the instrument. SFAS No.159 is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. The Company does not anticipate that the adoption of SFAS No. 159 will have an impact on the Company's overall results of operations or financial position.

NOTE 3 - AGREEMENT AND PLAN OF MERGER BETWEEN ARROW RESOURCES DEVELOPMENT, LTD. AND CNE GROUP, INC.

In August 2005, the Company entered into an Agreement and Plan of Merger (“the Agreement”) with CNE Group, Inc. (“CNE”) under which, CNE was required to issue 10 million shares of Series AAA convertible preferred stock (“the Preferred Stock”) to the Company, representing 96% of all outstanding equity of CNE on a fully diluted basis for the Marketing and Distribution Agreement provided to the Company, Empire, as agent. Under the Agreement, the Company changed its name to Arrow Resources Development, Inc. and divested all operations not related to Arrow Ltd. The Preferred Stock contained certain liquidation preferences and each share of the Preferred Stock was convertible to 62.4 shares of common stock.

The transaction was consummated upon the issuance of the Preferred Stock on November 14, 2005, which was used to settle the senior secured note payable for $125,000,000 and $1,161,000 of cash advances from Empire. The Preferred Stock was subsequently converted to common stock on December 2, 2005, for a total of approximately 649 million shares of common stock outstanding. This was recorded as a change of control transaction that was accounted for as a recapitalization of CNE.

The operations of the Company's wholly-owned subsidiary, Career Engine, Inc. were discontinued prior to the recapitalization transaction. The net assets of Career Engine had no value as of December 31, 2005.

During the period from November 15, 2005 to December 31, 2005, the Company incurred $249,252 of expenses incurred as part of recapitalization transaction.

(A DEVELOPMENT STAGE COMPANY)
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

NOTE 4 - INCOME TAXES

In August 2005, the Company entered into an Agreement and Plan of Merger (“the Agreement”) with CNE Group, Inc. (“CNE”). Under the Agreement, the Company changed its name to Arrow Resources Development, Inc. and divested all operations not related to Arrow Ltd. The transaction was consummated upon the issuance of the Preferred Stock on November 14, 2005. (See Note 3 for a detailed description of the transaction.)

Consequently, as of November 14, 2005 the predecessor CNE entity had a net operating loss carryforward available to reduce future taxable income for federal and state income tax purposes of the successor entity of approximately zero, because those losses arose from the predecessor CNE exiting previous business lines that had generated operating losses.

For tax purposes, all expenses incurred by the re-named entity now known as Arrow Resources Development, Inc. after November 14, 2005 have been capitalized as start up costs in accordance with Internal Revenue Code Section (“IRC”) No. 195. Pursuant to IRC 195, the Company will be able to deduct these costs by amortizing them over a period of 15 years for tax purposes once the Company commences operations. Accordingly for tax purposes, except for Delaware franchise taxes, none of the Company's post November 14, 2005 losses are as yet reportable in Company income tax returns to be filed for either the year ended December 31, 2005 or 2006.

The significant components of the Company’s deferred tax assets are as follows:

Net operating loss carryforward	$ 58,000
Differences resulting from use of cash basis for tax purposes	-
Total deferred tax assets	58,000
Less valuation allowance	(58,000)
Net deferred tax assets	$ —

The net operating losses expire as follows:	
December 31, 2026	$ 127,349
December 31, 2027	43,239
Net Operating Loss Carryover	$ 170,588

Reconciliation of net loss for income tax purposes to net loss per financial statement purposes

Costs capitalized under IRC Section 195 which will be amortizable over 15 years for tax purposes once the Company commences operations	$ 7,369,135
Delaware franchise taxes deductible on Company's tax return	170,588
Net loss for the period from inception (November 15, 2005) to September 30, 2007	$ 7,539,723

NOTE 5 - NOTES PAYABLE

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

The preparation of financial statements in accordance with U.S. generally accepted accounting principles requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial

statements and the reported amounts of net revenue and expenses during the reporting period. On an ongoing basis, we evaluate our estimates, including those related to our allowance for doubtful accounts, inventory reserves, and goodwill and purchased intangible asset valuations, and asset impairments. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances, the results of which form the basis for making judgments about the carrying values of assets and liabilities. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies, among others, affect the significant judgments and estimates we use in the preparation of our consolidated financial statements.

ALLOWANCE FOR DOUBTFUL ACCOUNTS, REVENUE RECOGNITION

We evaluate the collectibility of our accounts receivable based on a combination of factors. In circumstances where we are aware of a specific customer's inability to meet its financial obligations to us, we record a specific allowance to reduce the net receivable to the amount we reasonably believe will be collected. For all other customers, we record allowances for doubtful accounts based on the length of time the receivables are past due, the prevailing business environment and our historical experience. If the financial condition of our customers were to deteriorate or if economic conditions were to worsen, additional allowances may be required in the future.

We recognize product revenue when persuasive evidence of an arrangement exists, the sales price is fixed, the service is performed or products are shipped to customers, which is when title and risk of loss transfers to the customers, and collectibility is reasonably assured.

VALUATION OF GOODWILL, PURCHASED INTANGIBLE ASSETS AND LONG-LIVED ASSETS

We perform goodwill impairment tests on an annual basis and on an interim basis if an event or circumstance indicates that it is more likely than not that impairment has occurred. We assess the impairment of other amortizable intangible assets and long-lived assets whenever events or changes in circumstances indicate that the carrying value may not be recoverable. Factors we consider important that could trigger an impairment review include significant underperformance to historical or projected operating results, substantial changes in our business strategy and significant negative industry or economic trends. If such indicators are present, we evaluate the fair value of the goodwill. For other intangible assets and long-lived assets we determine whether the sum of the estimated undiscounted cash flows attributable to the assets in question is less than their caring value. If less, we recognize an impairment loss based on the excess of the carrying amount of the assets over their respective fair values. Fair value of goodwill is determined by using a valuation model based on market capitalization. Fair value of other intangible assets and long-lived assets is determined by future cash flows, appraisals or other methods. If the long-lived asset determined to be impaired is to be held and used, we recognize an impairment charge to the extent the anticipated net cash flows attributable to the asset are less than the asset's carrying value. The fair value of the long-lived asset then becomes the asset's new carrying value, which we depreciate over the remaining estimated useful life of the asset.

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2005, the FASB issued SFAS 154, "Accounting Changes and Error Corrections," that applies to all voluntary changes in accounting principle. This Statement requires retrospective application to prior periods' financial statements of changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. When it is impracticable to determine the period-specific effects of an accounting change on one or more individual prior periods presented, this Statement requires that the new accounting principle be applied to the balances of assets and liabilities as of the beginning of the earliest period for which retrospective application is practicable and that a corresponding adjustment be made to the opening balance of retained earnings (or other appropriate components of equity or net assets in the statement of financial position) for that period rather than being reported in an income statement. When it is impracticable to determine the cumulative effect of applying a change in accounting principle to all prior periods, this Statement requires that the new accounting principle be applied as if it were adopted prospectively from the earliest date practicable. SFAS 154 will be effective for the Company for fiscal year ended December 31, 2007. The Company does not anticipate that the adoption of SFAS No. 154 will have an impact on the Company's overall results of operations or financial position.

In February 2006, the FASB issued SFAS 155, "Accounting for Certain Hybrid Financial Instruments—an amendment of FASB Statements No. 133 and 140," that allows a preparer to elect fair value measurement at acquisition, at issuance, or when a previously recognized financial instrument is subject to a remeasurement (new basis) event, on an instrument-by-instrument basis, in cases in which a derivative would otherwise have to be bifurcated. It also

eliminates the exemption from applying Statement 133 to interests in securitized financial assets so that similar instruments are accounted for similarly regardless of the form of the instruments. This Statement is effective for all financial instruments acquired or issued after the beginning of an entity's first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 155 will have an impact on the Company's overall results of operations or financial position.

In March 2006, the FASB issued SFAS 156, "Accounting for Servicing of Financial Assets--an amendment of FASB Statement No. 140," that applies to the accounting for separately recognized servicing assets and servicing liabilities. This Statement requires that all separately recognized servicing assets and servicing liabilities be initially measured at fair value, if practicable. An entity should adopt this Statement as of the beginning of its first fiscal year that begins after September 15, 2006. The Company does not anticipate that the adoption of SFAS No. 156 will have an impact on the Company's overall results of operations or financial position.

15

In September 2006, the FASB issued SFAS 157, “Fair Value Measurements,” which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. The adoption of SFAS No. 157 will not have an impact on the Company's overall results of operations or financial position.

In September 2006, the Financial Accounting Standards Board (“FASB”) the issued SFAS No. 158, “Employers’ Accounting for Defined Benefit Pension and Other Postretirement Plans, an Amendment of FASB Statements No. 87, 88, 106, and 132(R)” (“SFAS No. 158”). SFAS No. 158 requires companies to report the funded status of their defined benefit pension and other postretirement benefit plans on their balance sheets as a net liability or asset as of December 31, 2006. The new standard does not address the accounting treatment for pension and postretirement benefits in the income statement. This will have no impact on the Company’s results of operations or financial position.

In February 2007, the Financial Accounting Standards Board (“FASB”) issued SFAS No.159, “The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No.115”. SFAS No.159 permits entities to choose to measure eligible financial instruments and other items at fair value at specified election dates. A business entity shall report unrealized gains and losses on items for which the fair value option has been elected in earnings at each subsequent reporting date. The fair value option may be applied instrument by instrument but only upon the entire instrument - not portions of the instrument. SFAS No.159 is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. The Company does not anticipate that the adoption of SFAS No. 159 will have an impact on the Company's overall results of operations or financial position.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

The Company is a party to a lawsuit where the plaintiff is alleging that he is entitled to $60,000 and 1,300,000 of common stock based upon CNE's failure to compensate him for services related to identifying financing for CNE, based upon an agreement that was entered into between CNE and the plaintiff in April 2005. The Company and its counsel strongly feel that the plaintiff's claims against the Company have no merit, the likelihood of an unfavorable outcome is very low, and is prepared to vigorously defend the matter.

In May 2006, the Company was advised that they were in default of a settlement agreement entered into in January of 2005 by CNE related to the release of unrestricted, freely-tradable, non-legend shares of stock. In August 2006, the plaintiffs alleging the default obtained a judgment in the 17th Judicial Circuit Court Broward County, Florida for approximately $1,000,000. On November 13, 2007, legal counsel engaged by Management brought a countersuit against the plaintiffs alleging that the judgment obtained in that court was fraudulent based on the plaintiffs' perjury. Accounts and accrued expenses payable at September 30, 2007, includes $25,000 for Company legal fees associated with this case. The Company and its counsel strongly feel that the plaintiffs' claims against the Company have no merit, the likelihood of an unfavorable outcome is very low, and is prepared to vigorously defend the matter.
