Such forward-looking statements involve risks and uncertainties, including, among other things, statements regarding our business strategy, future revenues and anticipated costs and expenses. Such forward-looking statements include, among others, those statements including the words “expects,” “anticipates,” “intends,” “believes” and similar language. Our actual results may differ significantly from those projected in the forward-looking statements. You should carefully review the risks described in this Annual Report and in other documents we file from time to time with the Securities and Exchange Commission. We undertake no obligation to publicly release any revisions to the forward-looking statements or reflect events or circumstances after the date of this document.

Although we believe that the expectations reflected in these forward-looking statements are based on reasonable assumptions, there are a number of risks and uncertainties that could cause actual results to differ materially from such forward-looking statements.

Factors that might cause or contribute to such differences include, but are not limited to, those discussed in the sections “Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.”

PART I

ITEM 1. BUSINESS

General

We were incorporated on April 2, 2003, to offer a comprehensive supply of, market and distribute commercial upholstery, drapery, bedspread, panel, and wall covering fabrics to the interior designer industry and individual retail customers on our proprietary Internet website.

We subsequently determined that we could not continue with our intended business operations because of a lack of financial results and resources. Although we may return to our intended business operations at a later date, we have redirected our focus towards identifying and pursuing options regarding the development of a new business plan and direction. We intend to explore various business opportunities that have the potential to generate positive revenue, profits and cash flow in order to financially accommodate the costs of being a publicly held company. However, we cannot assure you that there will be any other business opportunities available, or of the nature of any business opportunity that we may find, or of the financial resources required of any possible business opportunity.

We have minimal operating costs and expenses at the present time due to our limited business activities. We have no employees other than our two executive officers. We may need to raise additional capital over the next twelve months to meet our current administrative expenses, and we may do so in connection with or in anticipation of possible acquisition transactions. This financing may take the form of sales of our equity securities or loans from our directors. There is no assurance that additional financing will be available, if required, or on terms favorable to us.

We are not currently engaging in any product research and development and have no plans to do so in the foreseeable future. We have no present plans to purchase or sell any plant or significant equipment. We also have no present plans to add employees although we may do so in the future if we engage in any merger or acquisition transactions

May 2009 Loan

On May 8, 2009 we received an \$80,000 loan from one person and in connection therewith issued an 8.25% \$80,000 convertible promissory note dated May 8, 2009. Subject to prior conversion, interest and principal are due on the note on November 8, 2010. The terms of conversion have not been determined but will be mutually determined by us and the holder.

Reports to Security Holders

We file annual, quarterly, and current reports and other information with the Securities and Exchange Commission. You may read and copy any reports, statements or other information that we file with the Commission at the Commission's public reference room at 100 F Street, N.E., Washington, D.C. 20549. Please call the Commission at (202) 551-8090 for further information on the public reference room. #### Purchases of Equity Securities by the Issuer and Affiliated Purchasers

#### Equity Compensation Plan Information

#### ITEM 6. SELECTED FINANCIAL DATA

Not applicable.

#### ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our audited consolidated financial statements and the accompanying notes included elsewhere in this Annual Report on Form 10-K.

The following discussion contains forward-looking statements that involve risks and uncertainties. Our actual results could differ materially from those anticipated in the forward-looking statements as a result of various factors, including those discussed elsewhere in this annual report.

#### Results of Operations

For the period from inception (April 2, 2003) to March 31, 2009, we had no revenues and incurred net operating losses of \$633,533. For the year ended March 31, 2009, we incurred a net operating loss of \$64,507, which consisted of professional fees and general and administrative expenses primarily incurred in connection with the preparation and filing of our ongoing SEC filing requirements.

#### Liquidity and Capital Resources

Our cash at March 31, 2009, was \$12. In order to satisfy our cash requirements for the next twelve months we will have to raise additional funds. There can be no assurance that we will be able to do so.

Net cash used in operating activities during the year ended March 31, 2009, was \$22,360. Net cash used in operating activities from inception through March 31, 2009 was \$232,488. Net cash provided by financing activities from inception through March 31, 2009 was \$232,500. We had no financing activity during the year ended March 31, 2009. Our independent registered public accounting firm has expressed the opinion that in our current condition, there is substantial doubt about our ability to continue as a going concern. Please refer to Note 2, Summary of Significant Accounting Policies, of the financial statements included in this report.

#### Critical Accounting Policies and Estimates

##### Cash and Cash Equivalents

For purposes of the statement of cash flows, the Company considers all short-term debt with original maturities of three months or less to be cash equivalents.

##### Fair Value of Financial Instruments

The Company's financial instruments as defined by Statement of Financial Accounting Standards No. 107, "Disclosures about Fair Value of Financial Instruments," may include cash, and accounts payable. All such instruments are accounted for on a historical cost basis, which, due to the short maturity of these financial instruments, approximates fair value at March 31, 2009 and March 31, 2008.

##### Use of Estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues, and expenses. Such estimates primarily relate to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

##### Provision for Taxes

Income taxes are provided based upon the liability method of accounting pursuant to Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes" (hereinafter "SFAS No. 109"). Under this approach, deferred income taxes are recorded to reflect the tax consequences in future years of differences between the tax basis of assets and liabilities and their financial reporting amounts at each year-end. A valuation allowance is recorded against the deferred tax asset if management does not believe the Company has met the "more likely than not" standard imposed by SFAS No. 109 to allow recognition of such an asset.

##### Basic and Diluted Earnings (Loss) Per Share

The Company utilizes Statement of Financial Accounting Standards No. 128, "Earnings Per Share". Basic earnings per share is calculated on the weighted effect of all common shares issued and outstanding, and is calculated by dividing net income available to common stockholders by the weighted average shares outstanding during the period. Diluted earnings per share, which is calculated by dividing net income available to common stockholders by the weighted average number of common shares used in the basic earnings per share calculation, plus the number of common shares that would be issued assuming conversion of all potentially dilutive securities outstanding, is not presented separately as it is anti-dilutive.

##### Off Balance Sheet Arrangements

None.

##### Contractual Obligations

Not applicable.

ITEM 7A QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Not applicable

ITEM 8. FINANCIAL STATEMENTS AND SUPPLEMENTARY DATA

Our consolidated financial statements are included beginning immediately following the signature page to this report. See Item 15 for a list of the financial statements included herein.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

Not applicable.

ITEM 9A.[T] CONTROLS AND PROCEDURES

Evaluation of Our Disclosure Controls

We maintain disclosure controls and procedures that are designed to ensure that material information required to be disclosed in our periodic reports filed under the Securities Exchange Act of 1934, as amended, or 1934 Act, is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and to ensure that such information is accumulated and communicated to our management, including Peter Reichard, our chief executive and financial officer, to allow timely decisions regarding required disclosure. As of the end of the period covered by this Annual Report, we carried out an evaluation, under the supervision and with the participation of our management, including our principal executive and financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rule 13(a)-15(e) under the 1934 Act. Based on this evaluation, management concluded that, as of March 31, 2009, our disclosure controls and procedures were effective.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting. Our internal control over financial reporting is designed to provide reasonable assurances regarding the reliability of financial reporting and the preparation of our financial statements in accordance with U.S. generally accepted accounting principles, or GAAP. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree or compliance with the policies or procedures may deteriorate.

With the participation of Peter Reichard, our Chief Executive and Financial Officer, our management conducted an evaluation of the effectiveness of our internal control over financial reporting as of March 31, 2009 based on the framework in Internal Control—Integrated Framework issued by the Committee of Sponsoring Organizations of the Treadway Commission ("COSO"). Based upon our assessment and the COSO criteria, management concluded that our internal control over financial reporting was not effective as of March 31, 2009 due to a material weakness. A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. More specifically, the material weakness relates to a lack of sufficient personnel with appropriate knowledge, experience and training in U.S. GAAP resulting in a lack of sufficient analysis and documentation of the application of U.S. GAAP to transactions. Due to our small size and limited financial resources, our part-time outside accountant has been the only individual involved in our accounting and financial

reporting. As a result, there has been no segregation of duties within the accounting function. This lack of segregation of duties represents a material weakness. In efforts to address this material weakness, we are planning to add additional personnel to the internal accounting operation.

This annual report does not include an attestation report of our registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by our registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit us to provide only management's report in this Annual Report on Form 10-K.

#### Limitations on Effectiveness of Controls and Procedures

Our management, including Peter Reichard, our Chief Executive and Financial Officer, does not expect that our disclosure controls and procedures or our internal controls will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include, but are not limited to, the realities that judgments in decision-making can be faulty and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions. Over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control system, misstatements due to error or fraud may occur and not be detected.

#### Changes in Internal Controls

During the fiscal quarter ended March 31, 2009, there have been no changes in our internal control over financial reporting that have materially affected or are reasonably likely to materially affect our internal controls over financial reporting.

#### ITEM 9B. OTHER INFORMATION

Not applicable.

## Employment Agreements

We do not have employment agreements with our executive officers or any other person. We do not contemplate entering into any employment agreements until such time as we commence material operations. Our executive officers are not presently compensated for serving as such.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of Design Source, Inc. (A Development Stage Company):

We have audited the accompanying balance sheets of Design Source, Inc. (A Development Stage Company) and as of March 31, 2009 and 2008, and the related statements of operations, stockholders' equity (deficit), and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal controls over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Design Source, Inc. (A Development Stage Company) at March 31, 2009 and March 31, 2008, and the results of operations and cash flows for the year ended March 31, 2009 and March 31, 2008, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has incurred significant losses from operations. These issues raise substantial doubt about its ability to continue as a going concern. Management's plans in regard to these matters are also described in Note 2. These financial statements do not include any adjustments that might result from the outcome of this uncertainty.
