August 16, 2010

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

☒ QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2010

or

☐ TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number: 000-52672

ChinaNet Online Holdings, Inc.
(Exact name of registrant as specified in its charter)

Nevada
(State or other jurisdiction of
incorporation or organization)

20-4672080
(I.R.S. Employer
Identification No.)

No.3 Min Zhuang Road, Building 6
Yu Quan Hui Gu Tuspark, Haidian District, Beijing, PRC 100195

(Address of principal executive offices) (Zip Code)

+86-10-51600828
(Registrant's telephone number, including area code)

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days:

Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).*

Yes ☐ No ☐

Edgar Filing: ChinaNet Online Holdings, Inc. - Form 10-Q

*The registrant has not yet been phased into the Interactive Data requirements.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☐

Accelerated filer ☐

Non-accelerated filer (Do not check if a smaller reporting company) ☐

Smaller reporting company ☒

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes ☐ No ☒

As of August 13, 2010 the registrant had 16,931,320 shares of common stock outstanding.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Organization and principal activities

ChinaNet Online Holdings, Inc. (formerly known as Emazing Interactive, Inc.), (the “Company”), was incorporated in the State of Texas in April 2006 and re-domiciled to become a Nevada corporation in October 2006. From the date of the Company’s incorporation until June 26, 2009, when the Company consummated the Share Exchange, the Company’s activities were primarily concentrated in web server access and company branding in hosting web based e-games.

On June 26, 2009, the Company entered into a Share Exchange Agreement (the “Exchange Agreement”), with (i) China Net Online Media Group Limited, a company organized under the laws of British Virgin Islands (“China Net BVI”), (ii) China Net BVI’s shareholders, Allglad Limited, a British Virgin Islands company (“Allglad”), Growgain Limited, a British Virgin Islands company (“Growgain”), Rise King Investments Limited, a British Virgin Islands company (“Rise King BVI”), Star (China) Holdings Limited, a British Virgin Islands company (“Star”), Surplus Elegant Investment Limited, a British Virgin Islands company (“Surplus”), Clear Jolly Holdings Limited, a British Virgin Islands company (“Clear” and together with Allglad, Growgain, Rise King BVI, Star and Surplus, the “China Net BVI Shareholders”), who together owned shares constituting 100% of the issued and outstanding ordinary shares of China Net BVI (the “China Net BVI Shares”) and (iii) G. Edward Hancock, the principal stockholder of the Company at that time. Pursuant to the terms of the Exchange Agreement, the China Net BVI Shareholders transferred to the Company all of the China Net BVI Shares in exchange for the issuance of 13,790,800 shares (the “Exchange Shares”) of the Company’s common stock (the “Share Exchange”). As a result of the Share Exchange, China Net BVI became a wholly owned subsidiary of the Company and the Company is now a holding company, which through certain contractual arrangements with operating companies in the People’s Republic of China (the “PRC”), which engages in providing advertising, marketing and communication services to small and medium companies in China through www.28.com (the portal website of the Company’s PRC Variable Interest Entity), TV media and bank kiosks.

The Company’s wholly owned subsidiary, China Net BVI was incorporated in the British Virgin Islands on August 13, 2007. On April 11, 2008, China Net BVI became the parent holding company of a group of companies comprised of CNET Online Technology Limited, a Hong Kong company (“China Net HK”), which established and is the parent company of Rise King Century Technology Development (Beijing) Co., Ltd., a wholly foreign-owned enterprise (“WFOE”) established in the PRC (“Rise King WFOE”). The Company refers to the transactions that resulted in China Net BVI becoming an indirect parent company of Rise King WFOE as the “Offshore Restructuring.” Through a series of contractual agreements, the Company operates its business in China primarily through Business Opportunity Online (Beijing) Network Technology Co., Ltd. (“Business Opportunity Online”), Beijing CNET Online Advertising Co., Ltd. (“Beijing CNET Online”). Beijing CNET Online owns 51% of Shanghai Borongdingsi Computer Technology Co., Ltd. (“Shanghai Borongdingsi”). Business Opportunity Online, Beijing CNET Online and Shanghai Borongdingsi, were incorporated on December 8, 2004, January 27, 2003 and August 3, 2005, respectively. From time to time, we refer to them collectively as the “PRC Operating Entities.”

Shanghai Borongdingsi is 51% owned by Beijing CNET Online. Beijing CNET Online and Shanghai Borongdingsi entered into a cooperation agreement in June 2008, followed up with a supplementary agreement in December 2008, to conduct bank kiosk advertisement business. The business is based on a bank kiosk cooperation agreement between Shanghai Borongdingsi and Henan provincial branch of China Construction Bank which allows Shanghai Borongdingsi or its designated party to conduct in-door advertisement business within the business outlets throughout Henan Province. The bank kiosk cooperation agreement has a term of eight years starting August 2008. However, Shanghai Borongdingsi was not able to conduct the advertisement as a stand-alone business due to the lack of an advertisement business license and supporting financial resources. Pursuant to the aforementioned cooperation agreements, Beijing CNET Online committed to purchase equipment, and to provide working capital, technical and other related support to Shanghai Borongdingsi. Beijing CNET Online owns the equipment used in the kiosk business,

is entitled to sign contracts in its name on behalf of the business, and holds the right to collect the advertisement revenue generated from the bank kiosk business exclusively until the recovery of the cost of purchase of the equipment. Thereafter, Beijing CNET Online has agreed to distribute 49% of the succeeding net profit generated from the bank kiosk advertising business, if any, to the minority shareholders of Shanghai Borongdingsi.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

On June 24, 2010, one of the Company's subsidiaries, Business Opportunity Online (Beijing) Network Technology Co., Ltd. ("Business Opportunity Online"), together with other three individuals, who were not affiliated with the Company or any of its subsidiaries or Variable Interest Entities ("VIEs"), established a new company, Shenzhen City Mingshan Network Technology Co., Ltd. ("Shenzhen Mingshan"). Shenzhen Mingshan is 51% owned by Business Opportunity Online and 49% owned by the other three individuals. Shenzhen Mingshan is located in Shenzhen City, Guangdong province of PRC and primarily engaged in designing, developing and selling of internet based software, developing online games, designing and developing the related websites and providing the related internet and information technology services necessary to operate such games and websites. As of June 30, 2010, Business Opportunity Online has invested approximately RMB 4,000,000 (approximately US\$587,000) in Shenzhen Mingshan; Shenzhen Mingshan is currently in the start-up stage.

2. Summary of significant accounting policies

a) Change of reporting entity and basis of presentation

As a result of the Share Exchange on June 26, 2009, the former China Net BVI shareholders became owners of a majority of the common stock of the Company. The transaction was regarded as a reverse acquisition whereby China Net BVI was considered to be the accounting acquirer as its shareholders retained control of the Company after the Share Exchange, although the Company is the legal parent company. The share exchange was treated as a recapitalization of the Company. As such, China Net BVI (and its historical financial statements) is the continuing entity for financial reporting purposes. Pursuant to the terms of the Share Exchange, Emazing Interactive, Inc. was delivered with zero assets and zero liabilities at time of closing. Following the Share Exchange, the company changed its name from Emazing Interactive, Inc. to ChinaNet Online Holdings, Inc. The financial statements have been prepared as if China Net BVI had always been the reporting company and then on the share exchange date, had changed its name and reorganized its capital stock.

The accompanying unaudited interim consolidated financial statements include the accounts of the Company, and its subsidiaries and Variable Interest Entities ("VIEs"), China Net BVI, China Net HK, Rise King WFOE, Beijing CNET Online and Business Opportunity Online and Shenzhen Mingshan. According to the agreements between Beijing CNET Online and Shanghai Borongdingsi, although Beijing CNET Online legally owns 51% of Shanghai Borongdingsi's interests, Beijing CNET Online only controls the assets and liabilities related to the bank kiosks business, which has been all included in the financial statements of Beijing CNET Online, but not controls other assets of Shanghai Borongdingsi, thus, Shanghai Borongdingsi's financial statements were not consolidated by the Company.

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("US GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X, as promulgated by the Securities and Exchange Commission (the "SEC"). Accordingly, they do not include all of the information and notes required by US GAAP for annual financial statements. However, management believes that the disclosures are adequate to ensure the information presented is not misleading.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In the opinion of management, the accompanying unaudited consolidated financial statements reflect all adjustments, consisting only of normal recurring entries, which are necessary for a fair presentation of the results for the interim periods presented. These financial statements should be read in conjunction with the audited financial statements and notes thereto included in the Company's Form 10-K for the fiscal year ended December 31, 2009. The results of operations for the interim periods presented are not indicative of the operating results to be expected for the Company's fiscal year ending December 31, 2010.

b) Principles of Consolidation

The consolidated financial statements include the financial statements of all the subsidiaries and VIEs of the Company. All transactions and balances between the Company and its subsidiaries and VIEs have been eliminated upon consolidation.

c) Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the related disclosure of contingent assets and liabilities at the date of these consolidated financial statements, and the reported amounts of revenue and expenses during the reporting period. Management bases these estimates on historical experiences and the best information available at the time the estimates are made; however actual results could differ from those estimates. US GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, contingencies and results of operations. While management has based their assumptions and estimates on the facts and circumstances existing as of June 30, 2010, final amounts may differ from these estimates.

d) Foreign currency translation and transactions

The functional currency of the Company is United States dollars ("US\$"), and the functional currency of China Net HK is Hong Kong dollars ("HK\$"). The functional currency of the Company's PRC operating entities is Renminbi ("RMB"), and PRC is the primary economic environment in which the Company operates.

For financial reporting purposes, the financial statements of the Company's PRC operating entities, which are prepared using the RMB, are translated into the Company's reporting currency, the US\$. Assets and liabilities are translated using the exchange rate at each balance sheet date. Revenue and expenses are translated using average rates prevailing during each reporting period, and stockholders' equity is translated at historical exchange rates. Adjustments resulting from the translation are recorded as a separate component of accumulated other comprehensive income in stockholders' equity.

Transactions denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transactions. The resulting exchange differences are included in the determination of net income of the consolidated financial statements for the respective periods.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The exchange rates used to translate amounts in RMB into US\$ for the purposes of preparing the consolidated financial statements are as follows:

	June 30, 2010	December 31, 2009
Balance sheet items, except for equity accounts	6.8086	6.8372
	Six months ended June 30, 2010	Three months ended June 30, 2009
Items in the statements of income and comprehensive income, and the statements of cash flows	6.8347	6.8335
	6.8432	6.8399

No representation is made that the RMB amounts could have been, or could be converted into US\$ at the above rates.

e) Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and bank deposits, which are unrestricted as to withdrawal and use. The Company considers all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents.

f) Accounts receivable, net

Accounts receivable are recorded at net realizable value consisting of the carrying amount less an allowance for uncollectible accounts as needed. The allowance for doubtful accounts is the Company's best estimate of the amount of probable credit losses in the Company's existing accounts receivable. The Company determines the allowance based on aging data, historical collection experience, customer specific facts and economic conditions. Account balances are charged off against the allowance after all means of collection have been exhausted and the potential for recovery is considered remote. The Company did not have any off-balance-sheet credit exposure relating to its customers, suppliers or others.

g) Inventories

Inventories, consisting mainly of low value consumable articles are stated at the lower of cost or market value. Inventories are charged to expense when being withdrawn.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

h) Property and equipment, net

Property and equipment are recorded at cost less accumulated depreciation. Depreciation is calculated on the straight-line method after taking into account their respective estimated residual values over the following estimated useful lives:

Vehicles	5 years
Office equipment	3-10 years
Electronic devices	5 years

Depreciation expenses are included in selling expenses, general and administrative expenses and research and development expenses.

When property and equipment are retired or otherwise disposed of, resulting gain or loss is included in net income or loss in the year of disposition for the difference between the net book value and proceeds received thereon. Maintenance and repairs which do not improve or extend the expected useful lives of the assets are charged to expenses as incurred.

i) Impairment of long-lived assets

Long-lived assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. Recoverability of long-lived assets to be held and used is measured by a comparison of the carrying amount of the asset to the estimated undiscounted future cash flows expected to be generated by the asset. If the carrying amount of an asset exceeds its estimated future undiscounted cash flows, an impairment loss is recognized for the difference between the carrying amount of the asset and its fair value. There were no impairment losses incurred for the six and three months ended June 30, 2010 and 2009.

j) Fair Value

Accounting Standard Codification TM (“ASC”) Topic 820 (formerly Statement of Financial Accounting Standard (“SFAS”) No. 157, “Fair Value Measurement and Disclosures”), defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. This topic also establishes a fair value hierarchy which requires classification based on observable and unobservable inputs when measuring fair value. There are three levels of inputs that may be used to measure fair value:

Level 1 Quoted prices in active markets for identical assets or liabilities.

-

Level 2 Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

-

Level 3 Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

-

Determining which category an asset or liability falls within the hierarchy requires significant judgment. The Company evaluates its hierarchy disclosures each quarter.

The carrying values of cash and cash equivalents, trade and other receivables, prepayments, payables and other liabilities approximate fair values due to their short maturities.

11

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Assets and liabilities measured at fair value on a non-recurring basis are summarized as follows:

	Fair value measurement using inputs			Carrying amount as of December 31,
	Level 1 US\$(‘000)	Level 2 US\$(‘000)	Level 3 US\$(‘000)	2009 US\$(‘000)
Financial instruments				
Warrant liabilities	-	9,564	-	9,564

Due to lack of the liquidity of the Company’s underlying stock and other factors, the Company estimated the fair value of the warrant liabilities based upon observable inputs such as quoted prices for similar securities, quoted price in markets that are not active or other inputs that are observable to determine the fair value of the warrant liabilities.

Warrant liabilities measured at fair value as of December 31, 2009 was related to the investor and placement agent warrants that were issued as a result of the Company’s August 2009 Financing contained a “Down-round protection provision” whereby for a period of twelve (12) months following December 31, 2009 (the effective date of the Registration Statement) in the event the Company issued any additional shares of Common Stock or securities exercisable, convertible or exchangeable for Common Stock at a price per share less than the exercise price then in effect or without consideration. As described in Note 17 and according to ASC Topic 815 (formerly SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities”) subtopic 40, the “Down-round protection” provision is not considered to be an input to the fair value of a fixed-for-fixed option on equity shares which lead to the Warrants to fail to be qualified as indexed to the Company’s own stock and then fail to meet the scope exceptions of ASC Topic 815. Therefore, the Company accounted for the Warrants as derivative liabilities under ASC Topic 815. Pursuant to ASC Topic 815, derivative should be measured at fair value and re-measured at fair value with changes in fair value recorded in earnings at each reporting period.

On March 29, 2010, the Company and the holders of the Warrants entered into agreements to amend certain provisions of the Warrants. The amendment to the investor and placement agent warrants removes the “Down-round protection” rights that were applicable if the Company were to issue new shares of common stock or common stock equivalents at a price per share less than the exercise price of the Warrants. In addition, the amendment to the warrants added a provision to grant the holders of a majority of the warrants an approval right until December 31, 2010, over any new issuance of shares of common stock or common stock equivalents at a price per share less than the exercise price of the warrants.

As a result of this amendment, the Warrants issued in August 2009 financing was qualified as indexed to the Company’s own stock and then meet the scope exceptions of ASC Topic 815, and was eligible to be reclassified as equity. In accordance to ASC Topic 815, the classification of a contract should be reassessed at each balance sheet date. If the classification required under this ASC changes as a result of events during the period, the contract should be reclassified as of the date of the event that caused the reclassification. If a contract is reclassified from an asset or a liability to equity, gains or losses recorded to account for the contract at fair value during the period that the contract was classified as an asset or a liability should not be reversed. Therefore, the Company re-measured the fair value of the Warrants as of March 29, 2010, the date of the event that caused the classification, which was approximately US\$ 7,703,000 and reclassified the amount to equity as additional paid-in capital. The gain of the changes in fair value during the period that the Warrants were classified as a derivative liability, which was approximately US\$ 1,861,000 was recorded in earnings for the six month period ended June 30, 2010.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

There was no asset or liability measured at fair value on a non-recurring basis as of June 30, 2010.

k) Revenue recognition

The Company's revenue recognition policies are in compliance with ASC Topic 605 (Staff Accounting Bulletin No. 104, "Revenue Recognition"). In accordance with ASC Topic 605, revenues are recognized when the four of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the service has been rendered, (iii) the fees are fixed or determinable, and (iv) collectability is reasonably assured.

Sales

Sales include revenues from reselling of advertising time purchased from TV stations and internet advertising, reselling of internet advertising spaces and other advertisement related resources. No revenue from advertising-for-advertising barter transactions was recognized because the transactions did not meet the criteria for recognition in ASC Topic 605, subtopic 20 (formerly Emerging Issues Task Force ("EITF") abstract issue No. 99-17"). Advertising contracts establish the fixed price and advertising services to be provided. Pursuant to advertising contracts, the Company provides advertisement placements in different formats, including but not limited to banners, links, logos, buttons, rich media and content integration. Revenue is recognized ratably over the period the advertising is provided and, as such, the Company considers the services to have been delivered. The Company treats all elements of advertising contracts as a single unit of accounting for revenue recognition purposes. Based upon the Company's credit assessments of its customers prior to entering into contracts, the Company determines if collectability is reasonably assured. In situations where collectability is not deemed to be reasonably assured, the Company recognizes revenue upon receipt of cash from customers, only after services have been provided and all other criteria for revenue recognition have been met.

l) Cost of sales

Cost of sales primarily includes the cost of media advertising time, internet advertisement related resources and other technical services purchased from third parties, labor cost and benefits and PRC business tax.

m) Advertising costs

Advertising costs for the Company's own brand building are not includable in cost of sales, they are expensed when incurred and are included in "selling expenses" in the statement of income and comprehensive income. For the six month period ended June 30, 2010 and 2009, advertising expenses for the Company's own brand building were approximately US\$ 949,000 and US\$1,977,000, respectively.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

n) Research and development expenses

Research and development costs are charged to expense when incurred. Expenses for research and development for the six month period ended June 30, 2010 and 2009 were approximately US\$330,000 and US\$214,000, respectively.

o) Income taxes

The Company adopts ASC Topic 740 (formerly SFAS No. 109, "Accounting for income taxes") and uses liability method to accounts for income taxes. Under this method, deferred tax assets and liabilities are determined based on the difference between of the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the period in which the differences are expected to reverse. The Company records a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred taxes of a change in tax rates is recognized in income statement in the period that includes the enactment date. The Company had no deferred tax assets and liabilities recognized for the six month period ended June 30, 2010 and for the year ended December 31, 2009.

p) Uncertain tax positions

The Company adopts ASC Topic 740-10-25-5 through 740-10-25-7 and 740-10-25-13, (formerly FASB Interpretation No. 48 ("FIN 48") "Accounting for Uncertainty in Income Taxes"), which prescribes a more likely than not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods, and income tax disclosures. For the six month period ended June 30, 2010 and 2009, the Company did not have any interest and penalties associated with tax positions and did not have any significant unrecognized uncertain tax positions.

q) Share-based Compensation

The Company accounted for share-based compensation in accordance with ASC Topic 718, (formerly SFAS No. 123R "Share-based Payment") which requires that share-based payment transactions be measured based on the grant-date fair value of the equity instrument issued and recognized as compensation expense over the requisite service period, or vesting period.

r) Comprehensive income

The Company accounts for comprehensive income in accordance with ASC Topic 220, Comprehensive Income (formerly SFAS 130 "Reporting Comprehensive Income"), which establishes standards for reporting and displaying comprehensive income and its components in the consolidated financial statements. Comprehensive income is defined as the change in equity of a company during a period from transactions and other events and circumstances excluding transactions resulting from investments from owners and distributions to owners. Accumulated other comprehensive income, as presented on the accompanying consolidated balance sheets are the cumulative foreign currency translation adjustments.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

s) Noncontrolling interest

The Company accounts for noncontrolling interest in accordance with ASC Topic 810-10-65 (formerly SFAS 160, Noncontrolling Interests in Consolidated Financial Statements — an amendment of ARB No. 51), which requires the Company to present noncontrolling interests (previously referred to as minority interests) as a separate component of total shareholders' equity on the consolidated balance sheet and the consolidated net income attributable to the parent and the noncontrolling interest be clearly identified and presented on the face of the consolidated income and comprehensive income statement.

Noncontrolling interest on the consolidated balance sheet as of June 30, 2010 represents the noncontrolling interest shareholders' proportionate share of the equity of the Company's consolidated major-owned subsidiary Shenzhen Mingshan. Net loss attributable to noncontrolling interest on the consolidated income and comprehensive income statement represents the noncontrolling interest shareholders' proportionate share of the net loss incurred for the three and six months ended June 30, 2010 of Shenzhen Minshan.

t) Earnings per share

Earnings per share are calculated in accordance with ASC Topic 260, "Earnings Per Share" (formerly SFAS No. 128 "Earning Per Share"). Basic earnings per share is computed by dividing income attributable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. Common shares issuable upon the conversion of the convertible preferred shares are included in the computation of diluted earnings per share on an "if-converted" basis when the impact is dilutive. The dilutive effect of outstanding common stock warrants is reflected in the diluted earnings per share by application of the treasury stock method when the impact is dilutive.

u) Commitments and contingencies

The Company has adopted ASC 450 subtopic 20, Loss Contingencies (formerly SFAS 5 "Accounting for Contingencies") in determining its accruals and disclosures with respect to loss contingencies. Accordingly, estimated losses from loss contingencies are accrued by a charge to income when information available prior to issuance of the financial statements indicates that it is probable that a liability have been incurred and the amount of the loss can be reasonably estimated. Legal expenses associated with the contingency are expensed as incurred. If a loss contingency is not probable or reasonably estimable, disclosure of the loss contingency is made in the financial statements when it is at least reasonably possible that a material loss could be incurred.

v) Recent accounting pronouncements

In April 2010, the FASB issued ASU No. 2010-13 — Compensation — Stock Compensation (Topic 718), which addresses the classification of an employee share-based payment award with an exercise price denominated in the currency of a market in which the underlying equity security trades. This Update provides amendments to Topic 718 to clarify that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, an entity would not classify such an award as a liability if it otherwise qualifies as equity. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. The Company expects that the adoption of the amendments in this Update will not have any significant impact on its financial position and results of operations.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

In April 2010, the FASB issued ASU No. 2010-17 — Revenue Recognition — Milestone Method (Topic 605), which provides guidance on the criteria that should be met for determining whether the milestone method of revenue recognition is appropriate. A vendor can recognize consideration that is contingent upon achievement of a milestone in its entirety as revenue in the period in which the milestone is achieved only if the milestone meets all criteria to be considered substantive. A milestone should be considered substantive in its entirety. An individual milestone may not be bifurcated. The amendments in this Update are effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. The Company expects that the adoption of the amendments in this Update will not have any significant impact on its financial position and results of operations.

The Company expects that the adoption of the above Updates issued will not have any significant impact on its financial position and results of operations.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on the Company's Consolidated Financial Statements upon adoption.

3. Cash and cash equivalents

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Cash	92	616
Deposits with short-term maturities	17,756	13,301
	17,848	13,917

4. Accounts receivable

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Accounts receivable	4,822	3,244
Less: Allowance for doubtful debts	71	71
Accounts receivable, net	4,751	3,173

All of the accounts receivable are non-interest bearing. As of August 13, 2010, approximately US\$1,720,000 of Accounts receivable had been subsequently collected. Management believes that there will not be any collectability issue about these accounts receivable, therefore additional allowance for doubtful accounts is not required for the six and three months ended June 30, 2010.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

5. Other receivables

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Advance deposits for TV advertisement bidding	-	2,261
Short-term loan to third parties	2,042	-
Staff advances for normal business purpose	528	375
	2,570	2,636

Advance deposits for TV advertisement bidding were deposits made by the Company to participate in the biddings for TV advertisement time of 2010 in several TV stations, and had been all subsequently collected in the first quarter of fiscal year 2010. Short-term loan to third parties were temporary loans, unsecured, no interest bearing and approximately US\$1,910,000 had been collected in early July 2010. Management believes no allowance for doubtful accounts is required for these other receivables for the six and three month period ended June 30, 2010.

6. Prepayment and deposit to suppliers

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Contract execution guarantee to TV advertisement and internet resources providers	4,278	3,086
Prepayments to TV advertisement and internet resources providers	926	991
Prepayment for purchase of bank kiosk equipment	248	-
Other deposits and prepayments	25	34
	5,477	4,111

Contract execution guarantee to TV advertisement and internet resources providers are paid as a contractual deposit to the Company's service providers. These amounts will be used to offset the service fee needs to be paid to the service providers in the last month of each contract period.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

According to the contracts signed between the Company and its suppliers, the Company is normally required to pay the contract amount in advance. These prepayments will be transferred to cost of sales when the related services are provided.

Therefore, management believes that there will not be any collectability issue about these deposits and prepayments, and no allowance for doubtful accounts is required for the six and three months ended June 30, 2010.

7. Due from related parties

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Beijing Hongfujiali Information Technology Co., Ltd.	-	439
Beijing Saimeiwei Food Equipment Technology Co., Ltd.	25	53
Beijing Fengshangyinli Technology Co., Ltd	6	-
Beijing Telijie Century Environmental Technology Co., Ltd.	30	-
Soyilianmei Advertising Co., Ltd.	204	-
Due from executive officer	220	-
	485	492

These related parties are directly or indirectly owned by the Control Group (see note 11) or the management of the Company. Amount due from Beijing Hongfujiali Information Technology Co., Ltd. as of December 31, 2009, which amounting approximately US\$439,000 was advanced deposit for participating in year 2010 advertising resources bidding and had been collected in January 2010. Amount due from Soyilianmei Advertising Co., Ltd. as of June 30, 2010, which amounting approximately US\$204,000 was related to the internet advertising resources purchased by the Company on behalf this related party, the rest of the related party balances as of June 30, 2010 were outstanding payments for advertising services the Company provided to these related parties.

The Company participated and bid in a closed auction to purchase television advertising time from a northern provincial television station. In general, in order to participate in such types of auction, the Company must pay a bid bond in advance of the auction to confirm its intent to purchase such advertising airtime, in the event that it wins the auction. In order to accomplish this, the Company provides its executive officer of the TV production and advertising unit with the cash necessary to pay the bid bond. Due from executive officer represents amounts provided to such employee to pay the bid bond in the auction for television advertising time, but such amount has either not yet been used to pay for television advertising space or has not yet been returned to the Company due to the fact that results of the auction have not yet been disclosed. The amount disclosed as due from executive officer is expected to be returned by the end of 3rd quarter of 2010.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

8. Property and equipment

Property and equipment consist of the following:

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Vehicles	425	423
Office equipment	929	816
Electronic devices	440	438
Total property and equipment	1,794	1,677
Less: accumulated depreciation	487	322
Total property and equipment, net	1,307	1,355

Depreciation expenses in aggregate for the six months ended June 30, 2010 and 2009 were approximately US\$163,000 and \$85,000 respectively.

9. Accrued payroll and other accrues

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Accrued payroll and staff welfare	185	131
Accrued operating expenses	102	60
	287	191

10. Due to related parties

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Beijing Rongde Information Technology Co., Ltd.	-	-
Beijing Saimeiwei Food Equipments Technology Co., Ltd	-	14
Beijing Telijie Century Environmental Technology Co., Ltd.	-	10
	-	24

The related parties listed above are directly or indirectly owned by the Control Group (see note 11) and the Company provided advertising services to them. The advance payments listed above were received from these parties for advertising services that will be provided in the future.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

11. Due to Control Group

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Due to Control Group	1,143	1,142

Mr. Handong CHENG, Mr. Xuanfu, LIU and Ms. Li SUN, the owners of the Company's PRC VIEs, Business Opportunities Online, and Beijing CNET Online before the Offshore Restructuring, are collectively referred to as the "Control Group".

Due to Control Group were amounts paid by Control Group individuals on behalf of the Company which mainly included staff salary, performance bonus and cost of resources purchased.

12. Due to director

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Due to director	382	-

Due to director represents the operating expenses paid by director on behalf of the Company.

13. Taxation

1) Income tax

i). The Company is incorporated in the state of Nevada. Under the current law of Nevada, the Company is not subject to state corporation income tax. The Company became a holding company and does not conduct any substantial operations of its own after the Share Exchange. No provision for federal corporate income tax have been made in the financial statements as the Company has no taxable income for the six month period ended June 30, 2010.

ii). China Net BVI was incorporated in the British Virgin Islands ("BVI"). Under the current law of the BVI, the Company is not subject to tax on income or capital gains. Additionally, upon payments of dividends by China Net to its shareholders, no BVI withholding tax will be imposed.

iii). China Net HK was incorporated in Hong Kong and does not conduct any substantial operations of its own. No provision for Hong Kong income tax have been made in the financial statements as China Net HK has no taxable income for the six month period ended June 30, 2010. Additionally, upon payment of dividends by China Net HK to its shareholders, no Hong Kong withholding tax will be imposed.

CHINANET ONLINE HOLDINGS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

iv). The Company's PRC operating entities, being incorporated in the PRC, are governed by the income tax laws of the PRC and are subject to PRC enterprise income tax ("EIT"). Effective from January 1, 2008, the EIT rate of PRC was changed from 33% to 25%, and applies to both domestic and foreign invested enterprises.

- Rise King WFOE is a software company qualified by the related PRC governmental authorities and was entitled to a two-year EIT exemption from its first profitable year and a 50% reduction of its applicable EIT rate, which is 25% of its taxable income for the following three years. Rise King WFOE had a net loss for the year ended December 31, 2008 and its first profitable year is fiscal year 2009 which has been verified by the local tax bureau by accepting the application filed by the Company. Therefore, it was entitled to a two-year EIT exemption for fiscal year 2009 through fiscal year 2010 and a 50% reduction of its applicable EIT rate which is 25% to 12.5% for fiscal year 2011 through fiscal year 2013.
- Business Opportunity Online was qualified as a High and New Technology Enterprise in Beijing High-Tech Zone in 2005 and was entitled to a three-year EIT exemption for fiscal year 2005 through fiscal year 2007 and a 50% reduction of its applicable EIT rate for the exceeding three years for fiscal year 2008 through fiscal year 2010. However, in March 2007, a new enterprise income tax law (the "New EIT") in the PRC was enacted which was effective on January 1, 2008. Subsequently, on April 14, 2008, relevant governmental regulatory authorities released new qualification criteria, application procedures and assessment processes for "High and New Technology Enterprise" status under the New EIT which would entitle the re-qualified and approved entities to a favorable statutory tax rate of 15%. With an effective date of September 4, 2009, Business Opportunity Online obtained the approval of its reassessment of the qualification as a "High and New Technology Enterprise" under the New EIT law and was entitled to a favorable statutory tax rate of 15%. Under the previous EIT laws and regulations, High and New Technology Enterprises enjoyed a favorable tax rate of 15% and were exempted from income tax for three years beginning with their first year of operations, and were entitled to a 50% tax reduction to 7.5% for the subsequent three years and 15% thereafter. The current EIT Law provides grandfathering treatment for enterprises that were (1) qualified as High and New Technology Enterprises under the previous EIT laws, and (2) established before March 16, 2007, if they continue to meet the criteria for High and New Technology Enterprises under the current EIT Law. The grandfathering provision allows Business Opportunity Online to continue enjoying their unexpired tax holidays provided by the previous EIT laws and regulations. Therefore, its income tax was computed using a tax rate of 7.5% for the six and three month period ended June 30, 2010 and the year ended December 31, 2009 due to its unexpired tax holidays for the year 2009 through year 2010. For the six and three month period ended June 30, 2009, since Business Opportunity Online had not obtained the approval of its qualification as a "High and New Technology Enterprise" under the New EIT law, it estimated and calculated its income tax based on the income tax rate of 25%, the difference of the income tax expenses between the estimated and the actual income tax expenses for the six and three month periods ended June 30, 2009 was approximately US\$649,000 and US\$379,000 respectively.
- The applicable income tax rate for Beijing CNET Online was 25% for the six month periods ended June 30, 2010 and 2009.
- The New EIT also imposed a 10% withholding income tax for dividends distributed by a foreign invested enterprise to its immediate holding company outside China, which were exempted under the previous enterprise income tax law and rules. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Holding companies in Hong Kong, for example, will be subject to a 5% rate. Rise King WFOE is invested by immediate holding company in Hong Kong and will be entitled to the 5% preferential withholding tax rate upon distribution of the dividends to its immediate holding company.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

2) Business tax and relevant surcharges

Revenue of advertisement services is subject to a 5.5% business tax and 3% cultural industry development surcharge of the net service income after deducting amount paid to ending media promulgators. Revenue of internet technical support services is subjected to a 5% to 5.5% business tax. Business tax charged was included in cost of sales.

3) Value added tax

As a small-scale value added taxpayer, revenue from sales of self-developed software of Rise King WFOE is subject to a 3% value added tax.

As of June 30, 2010 and December 31, 2009, taxes payable consist of:

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Business tax payable	1,265	1,003
Culture industry development surcharge payable	-	27
Value added tax payable	7	8
Enterprise income tax payable	1,000	886
Individual income tax payable	54	54
	2,326	1,978

14. Dividend payable

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Dividend payable to Series A convertible preferred stockholders	510	373

Dividend to Series A convertible stockholders was accrued at the per annum rate of 10% and calculated based on US\$2.5 per share liquidation preference and the actual number of days of each share of the Series A convertible stock outstanding for each of the respectively reporting period.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

During the six months ended June 30, 2010, the Company paid approximately US\$285,000 dividends to its Series A convertible stockholders.

15. Long-term borrowing from director

	June 30, 2010 US\$('000) (Unaudited)	December 31, 2009 US\$('000)
Long-term borrowing from director	128	128

Long-term borrowing from director was a non-interest bearing loan from a director of the Company relating to the long-term investment in the Company's wholly-owned subsidiary Rise King WFOE.

16. Warrant liabilities

On August 21, 2009 (the "Closing Date"), the Company entered into a securities purchase agreement (the "Purchase Agreement"), with several investors, including institutional, accredited and non-US persons and entities (the "Investors"), pursuant to which the Company sold units, comprised of 10% Series A Convertible Preferred Stock, par value US\$0.001 per share (the "Series A preferred stock"), and two series of warrants, for a purchase price of US\$2.50 per unit (the "August 2009 Financing"). The Company sold 4,121,600 units in the aggregate, which included (i) 4,121,600 shares of Series A preferred stock, (ii) Series A-1 Warrant to purchase 2,060,800 shares of common stock at an exercise price of US\$3.00 per share with a three-year term, and (iii) Series A-2 Warrants to purchase 2,060,800 shares of common stock at an exercise price of US\$3.75 with a five-year term. Net proceeds were approximately US\$9,162,000, net of issuance costs of approximately US\$1,142,000. TriPoint Global Equities, LLC acted as placement agent and received (i) a placement fee in the amount equal to 8% of the gross proceeds and (ii) warrants to purchase up to 329,728 shares of common stock at an exercise price of US\$2.50, 164,864 shares at an exercise price of US\$3.00 and 164,864 shares at an exercise price of US\$3.75 respectively, with a five-year term ("Placement agent warrants" and together with the Series A-1 Warrant and Series A-2 Warrant, the "Warrants").

The Warrants have an initial exercise price which is subject to adjustments in certain circumstances for stock splits, combinations, dividends and distributions, reclassification, exchange or substitution, reorganization, merger, consolidation or sales of assets, issuance of additional shares of common stock or equivalents. The Warrants may not be exercised if it would result in the holder beneficially owning more than 9.99% of the Company's outstanding common shares. That limitation may be waived to the warrant holders by sending a written notice to the Company not less than 61 days prior to the date that they would like to have the limitation waived.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Accounting for warrants

As described in Note 2 j), the Company analyzed the Warrants in accordance to ASC Topic 815 “Derivatives and Hedging” (formerly SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities”) to determine whether the Warrants meet the definition of a derivative under ASC Topic 815 and if so, whether the Warrants meet the scope exception of ASC Topic 815, which is that contracts issued or held by the reporting entity that are both (1) indexed to its own stock and (2) classified in stockholders’ equity shall not be considered to be derivative instruments for purposes of ASC Topic 815. The Company adopted the provisions of ASC Topic 815 subtopic 40 (formerly Emerging Issues Task Force (“EITF”) Issue No. 07-5, “Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity’s Own Stock”), which applies to any freestanding financial instruments or embedded features that have the characteristics of a derivative, as defined by ASC Topic 815 and to any freestanding financial instruments that are potentially settled in an entity’s own common stock. As a result of adopting ASC Topic 815 subtopic 40, the Company concluded that the Warrants issued in the August 2009 financing should be treated as a derivative liability, because the Warrants are entitled to a price adjustment provision to allow the exercise price to be reduced, in the event the Company issues or sells any additional shares of common stock at a price per share less than the then-applicable exercise price or without consideration, which is typically referred to as a “Down-round protection” or “anti-dilution” provision. According to ASC Topic 815 subtopic 40, the “Down-round protection” provision is not considered to be an input to the fair value of a fixed-for-fixed option on equity shares which leads the Warrants fail to be qualified as indexed to the Company’s own stock and then to fail to meet the scope exceptions of ASC Topic 815. Therefore, the Company accounted for the Warrants as derivative liabilities under ASC Topic 815. Pursuant to ASC Topic 815, derivatives should be measured at fair value and re-measured at fair value with changes in fair value recorded in earnings at each reporting period.

On March 29, 2010, the Company and the holders of the Warrants entered into agreements to amend certain provisions of the Warrants. The amendment to the investor and placement agent warrants removes the “Down-round protection” rights that were applicable if the Company were to issue new shares of common stock or common stock equivalents at a price per share less than the exercise price of the Warrants. In addition, the amendment to the warrants added a provision to grant the holders of a majority of the warrants an approval right until December 31, 2010, over any new issuance of shares of common stock or common stock equivalents at a price per share less than the exercise price of the warrants.

As a result of this amendment, the Warrants issued in August 2009 financing was qualified as indexed to the Company’s own stock and then meet the scope exceptions of ASC Topic 815, and was eligible to be reclassified as equity. In accordance to ASC Topic 815, the classification of a contract should be reassessed at each balance sheet date. If the classification required under this ASC changes as a result of events during the period, the contract should be reclassified as of the date of the event that caused the reclassification. If a contract is reclassified from an asset or a liability to equity, gains or losses recorded to account for the contract at fair value during the period that the contract was classified as an asset or a liability should not be reversed. Therefore, the Company re-measured the fair value of the Warrants as of March 29, 2010, the date of the event that caused the classification, which was approximately US\$ 7,703,000 and reclassified the amount to equity as additional paid-in capital. The gain of the changes in fair value during the period that the Warrants were classified as a derivative liability, which was approximately US\$ 1,861,000 was recorded in earnings for the six month period ended June 30, 2010.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The following table summarized the above transactions:

	As of March 29, 2010 US\$'000	As of December 31, 2009 US\$'000	Changes in Fair Value (Gain)/Loss US\$'000
Fair value of the Warrants:			
Series A-1 warrant	3,606	4,513	(907)
Series A-2 warrant	3,256	4,019	(763)
Placement agent warrants	841	1,032	(191)
	7,703	9,564	(1,861)

Placement agent warrants

In accordance with ASC Topic 340 subtopic 10 section S99-1 (formerly Staff Accounting Bulletin Topic 5.A: “Miscellaneous Accounting-Expenses of Offering”), “specific incremental costs directly attributable to a proposed or actual offering of securities may properly be deferred and charged against the gross proceeds of the offering.” In accordance with the SEC accounting and reporting manual “cost of issuing equity securities are charged directly to equity as deduction of the fair value assigned to share issued.” Accordingly, the Company concluded that the warrants issued to the placement agents are directly attributable to the August 2009 financing. If the Company had not issued the warrants to the placement agent, the Company would have had to pay the same amount of cash as the fair value. Therefore, the Company deducted the total fair value of the Placement agent warrants as of the Commitment Date which was approximately US\$733,000 as a deduction of the fair value assigned to the Series A preferred stock.

The Placement Agent Warrants were also entitled to the benefits of the “Down-round protection” provision upon issuance and subsequently removed on March 29, 2010 as described above. Therefore, it was reclassified to equity on March 29, 2010. The changes of fair value of the placement agent warrants before the reclassification had been recorded in earnings for each respective reporting period.

17. Series A convertible preferred shares

Key terms of the Series A preferred stock sold by the Company in the August 2009 financing are summarized as follows:

Dividends

Dividends on the Series A preferred stock shall accrue and be cumulative from and after the issuance date. For each outstanding share of Series A preferred stock, dividends are payable at the per annum rate of 10% of the Liquidation Preference Amount of the Series A preferred stock. Dividends are payable quarterly within thirty (30) days following the last Business Day of each August, November, February and May of each year (each, a “Dividend Payment Date”), and continuing until such stock is fully converted. The Company shall have the right, at its sole and exclusive option, to pay all or any portion of each and every quarterly dividend that is payable on each Dividend Payment Date, either (i) in cash, or (ii) by issuing to the holder of Series A preferred stock such number of additional Conversion Shares which, when multiplied by US\$2.5 would equal the amount of such quarterly dividend not paid in cash.

Voting Rights

The Series A preferred stock holders are entitled to vote separately as a class on matters affecting the Series A Preferred Stock and with regard to certain corporate matters set forth in the Series A Certificate of Designation, so long as any shares of the Series A preferred stock remain outstanding. Holders of the Series A Preferred Stock are not, however, entitled to vote on general matters along with holders of common stock.

CHINANET ONLINE HOLDINGS, INC.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Liquidation Preference

In the event of the liquidation, dissolution or winding up of the affairs of the Company, whether voluntary or involuntary (each, a “Liquidation”), the holders of the Series A preferred stock then outstanding shall be entitled to receive, out of the assets of the Company available for distribution to its stockholders, an amount equal to US\$2.5 per share of the Series A preferred stock, plus any accrued but unpaid dividends thereon, whether or not declared, together with any other dividends declared but unpaid thereon, as of the date of Liquidation (collectively, the “Series A Liquidation Preference Amount”) before any payment shall be made or any assets distributed to the holders of the common stock or any other junior stock. If upon the occurrence of Liquidation, the assets thus distributed among the holders of the Series A shares shall be insufficient to permit the payment to such holders of the full Series A Preference Amount, then the entire assets of the Company legally available for distribution shall be distributed ratably among the holders of the Series A preferred stock.

Conversion Rights

Voluntary Conversion:

At any time on or after the date of the initial issuance of the Series A preferred stock, the holder of any such shares of Series A preferred stock may, at such holder’s option, subject to the limitations described below in “Conversion Restriction”, elect to convert all or portion of the shares of Series A preferred stock held by such person in a number of fully paid and non-assessable shares of common stock equal to the quotient of Liquidation preference amount of the Series A preferred stock divided by the initial conversion price of US\$2.5. The initial conversion price may be adjusted for stock splits and combinations, dividend and distributions, reclassification, exchange or substitution, reorganization, merger, consolidation or sales of assets, issuance of additional shares of common stock or equivalents with lower price or without considerations etc, as stimulated in the Certification of Designation.

Mandatory Conversion:

All outstanding shares of the Series A preferred stock shall automatically convert into shares of Common Stock, subject to the limitations described below in “Conversion Restriction”, at the earlier to occur of (i) twenty-four month anniversary of the Closing Date, and (ii) at such time that the Volume Weighted Average Price of the Company’s common stock is no less than US\$5.00 for a period of ten (10) consecutive trading days with the daily volume of the Common Stock of at least 50,000 shares per day.

Conversion Restriction

Holders of the Series A preferred stock may not convert the preferred stock to common shares if the conversion would result in the holder beneficially owning more than 9.99% of the Company’s outstanding common shares. That limitation may be waived by a holder of the Series A preferred stock by sending a written notice to the Company on not less than 61 days prior to the date that they would like to waive the limitation.

Registration Rights Agreement

In connection with the Financing, the Company entered into a registration rights agreement (the “RRA”) with the Investors in which the Company agreed to file a registration statement (the “Registration Statement”) with the Securities and Exchange Commission to register the shares of Common Stock underlying the Series A Preferred Stock (the “Conversion Shares”) and the Warrants (the “Warrant Shares”), thirty (30) days after the closing of the Financing. The Company has agreed to use its best efforts to have the Registration Statement declared effective within 150 calendar

days after filing, or 180 calendar days after filing in the event the Registration Statement is subject to a “full review” by the SEC.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The Company is required to keep the Registration Statement continuously effective under the Securities Act until such date as is the earlier of the date when all of the securities covered by that registration statement have been sold or the date on which such securities may be sold without any restriction pursuant to Rule 144 (the “Financing Effectiveness Period”). The Company will pay liquidated damages of 2% of each holder’s initial investment in the Units sold in the Financing per month, payable in cash, up to a maximum of 10%, if the Registration Statement is not filed or declared effective within the foregoing time periods or ceases to be effective prior to the expiration of the Financing Effectiveness Period. However, no liquidated damages shall be paid with respect to any securities being registered that the Company are not permitted to include in the Financing Registration Statement due to the SEC’s application of Rule 415.

The Company evaluated the contingent obligation related to the RRA liquidated damages in accordance to Financial Accounting Standards Board Staff Position No. EITF 00-19-2 “Accounting for Registration Payment Arrangements” (“ASC Topic 825 subtopic 20”), which required the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement be separately recognized and measured in accordance with FASB Statement No. 5, “Accounting for Contingencies” (“ASC Topic 450”). The shares of common stock underlying the Series A preferred stock (the “Conversion Shares”) and the Warrants (the “Warrant Shares”) have been successfully registered by the Company. Therefore, the Company concluded that such obligation was not probable to incur and no contingent obligation related to the RRA liquidated damages needs to be recognized.

Security Escrow Agreement

The Company entered into a securities escrow agreement with the Investors (the “Escrow Agreement”), pursuant to which Rise King Investment Limited, a British Virgin Islands company (the “Principal Stockholder”), initially placed 2,558,160 shares of Common Stock (the “Escrow Shares”) into an escrow account. Of the Escrow Shares, 1,279,080 shares (equivalent to 50% of the Escrow Shares) are being held as security for the achievement of audited net income equal to or greater than \$7.7 million for the fiscal year 2009 (the “2009 Performance Threshold”) and the remaining 1,279,080 of the Escrow Shares are being held as security for the achievement of audited net income equal to or greater than \$14 million for the fiscal year 2010 (the “2010 Performance Threshold”).

If the Company achieves at least 95% of the applicable Performance Threshold, all of the Escrow Shares for the corresponding fiscal year shall be returned to the Principal Stockholder. If the Company achieves less than 95% of the applicable Performance Threshold, the Investors shall receive in the aggregate, on a pro rata basis (based upon the number of shares of Series A preferred stock or conversion shares owned by each such Investor as of the date of distribution of the Escrow Shares), 63,954 shares of the Escrow Shares for each percentage by which the applicable Performance Threshold was not achieved up to the total number of Escrow Shares for the applicable fiscal year. Any Escrow Shares not delivered to any investor because such investor no longer holds shares of Series A preferred stock or conversion shares shall be returned to the Principal Stockholder.

For the purposes of the Escrow Agreement, net income is defined in accordance with US GAAP and reported by the Company in its audited financial statements for each of the fiscal years ended 2009 and 2010; provided, however, that net income for each of fiscal years ended 2009 and 2010 shall be increased by any non-cash charges incurred (i) as a result of the Financing, including without limitation, as a result of the issuance and/or conversion of the Series A Preferred Stock, and the issuance and/or exercise of the Warrants, (ii) as a result of the release of the Escrow Shares to the Principal Stockholder and/or the investors, as applicable, pursuant to the terms of the Escrow Agreement, (iii) as a result of the issuance of ordinary shares of the Principal Stockholder to Messrs. Handong Cheng and Xuanfu Liu and Ms. Li Sun (the “PRC Shareholders”), upon the exercise of options granted to the PRC Shareholders by the Principal Stockholder, (iv) as a result of the issuance of warrants to any placement agent and its designees in connection with

the Financing, (v) the exercise of any warrants to purchase common stock outstanding and (vi) the issuance under any performance based equity incentive plan that the Company adopts.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

Because the 2009 performance threshold has been met, 1,279,080 Shares (50% of the Escrow Shares) will be released to Rise King Investment Limited, the Company's principle shareholder. The Company is currently working with the Escrow Agent to facilitate the release of these shares.

In accordance to ASC Topic 718 and ASU No. 2010-05—Compensation—Stock Compensation: Escrowed Share Arrangements and the Presumption of Compensation. The Company evaluated the substance of this arrangement and whether the presumption of compensation has been overcome. According to the Security Escrow Agreement signed between the Company and its investors, the release of these escrow shares to the Principal Stockholder will not regard to continue employment, and this arrangement is in substance an inducement made to facilitate the financing transaction on behalf of the Company, rather than as compensatory. Therefore, the Company concluded that this arrangement should be recognized and measured according to its nature and reflects as a deduction of the proceeds allocated to the newly issued securities with no compensation expenses recorded in earnings.

Fair Value of the Series A preferred stock:

Fair value is generally based on independent sources such as quoted market prices or dealer price quotations. To the extent certain financial instruments trade infrequently or are non-marketable securities, they may not have readily determinable fair values. The Company estimated the fair value of the Warrants and Series A preferred stock using various pricing models and available information that management deems most relevant. Among the factors considered in determining the fair value of financial instruments are discounted anticipated cash flows, the cost, terms and liquidity of the instrument, the financial condition, operating results and credit ratings of the issuer or underlying company, the quoted market price of similar traded securities, and other factors generally pertinent to the valuation of financial instruments.

Accounting for the Series A preferred stock

The Series A preferred stock has been classified as permanent equity as there was no redemption provision at the option of the holders that not within the control the Company on or after an agreed upon date. The Company evaluated the embedded conversion feature in its Series A preferred stock to determine if there was an embedded derivative requiring bifurcation. The Company concluded that the embedded conversion feature of the Series A preferred stock does not required to be bifurcated because the conversion feature is clearly and closely related to the host instrument.

Allocation of the proceeds at commitment date and calculation of beneficial conversion feature

The following table summarized the allocation of proceeds to the Series A preferred stock and the Warrants:

	Gross proceeds Allocated US\$ ('000)	Number of Instruments	Allocated value per instrument US\$
Series A-1 Warrant	2,236	2,060,800	1.08
Series A-2 Warrant	2,170	2,060,800	1.05
Series A preferred stock	5,898	4,121,600	1.43
Total	10,304		

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

The Company then evaluated whether a beneficial conversion feature exists by comparing the operable conversion price of Series A preferred stock with the fair value of the common stock at the commitment date. The Company concluded that the fair value of common stock was greater than the operable conversion price of Series A preferred stock at the commitment date and the intrinsic value of the beneficial conversion feature is greater than the proceeds allocated to the Series A preferred stock. In accordance to ASC Topic 470 subtopic 20, if the intrinsic value of beneficial conversion feature is greater than the proceeds allocated to the Series A preferred stock, the amount of the discount assigned to the beneficial conversion feature is limited to the amount of the proceeds allocated to the Series A preferred stock. Accordingly, the total proceeds allocated to Series A preferred stock were allocated to the beneficial conversion feature with a credit to Additional paid-in capital upon the issuance of the Series A preferred stock. Since the Series A preferred stock may convert to the Company's common stock at any time on or after the initial issuing date, all discount was immediately recognized as a deemed dividend and a reduction to net income attributable to common shareholders.

According to Staff Accounting Bulletin Topic 5.A: "Miscellaneous Accounting-Expenses of offering" ("ASC Topic 340 subtopic 10 section S99-1"), "specific incremental costs directly attributable to a proposed or actual offering of securities may properly be deferred and charged against the gross proceeds of the offering". And in accordance with the SEC accounting and reporting manual "cost of issuing equity securities are charged directly to equity as deduction of the fair value assigned to share issued". Accordingly, the Company deducted the direct issuing cost paid in cash which were approximately US\$1,142,000 from the assigned fair value to the Series A preferred stock.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

19. Employee defined contribution plan

Full time employees of the Company in the PRC participate in a government mandated defined contribution plan, pursuant to which certain pension benefits, medical care, employee housing fund and other welfare benefits are provided to employees. Chinese labor regulations require that the PRC subsidiaries of the Company make contributions to the government for these benefits based on certain percentages of the employees' salaries. The Company has no legal obligation for the benefits beyond the contributions made. The total amounts for such employee benefits, which were expensed as incurred, were approximately US\$96,000 and US\$74,000 for the six months ended June 30, 2010 and 2009, respectively.

20. Concentration of risk

Credit risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist primarily of cash and cash equivalents, accounts receivable, and prepayments and other current assets. As of June 30, 2010 and December 31, 2009 substantially all of the Company's cash and cash equivalents which amounting approximately US\$17,848,000 and US\$13,917,000, respectively (equal to approximately 54% of the Company's total assets, respectively) were held by major financial institutions located in the PRC and Hong Kong, which management believes are of high credit quality.

Risk arising from operations in foreign countries

All of the Company's operations are conducted within the PRC. The Company's operations in the PRC are subject to various political, economic, and other risks and uncertainties inherent in the PRC. Among other risks, the Company's operations in the PRC are subject to the risks of restrictions on transfer of funds, changing taxation policies, foreign exchange restrictions; and political conditions and governmental regulations.

Currency convertibility risk

Significant part of the Company's businesses is transacted in RMB, which is not freely convertible into foreign currencies. All foreign exchange transactions take place either through the People's Bank of China or other banks authorized to buy and sell foreign currencies at the exchange rates quoted by the People's Bank of China. Approval of foreign currency payments by the People's Bank of China or other regulatory institutions requires submitting a payment application form together with suppliers' invoices and signed contracts. These exchange control measures imposed by the PRC government authorities may restrict the ability of the Company's PRC subsidiary to transfer its net assets, which to the Company through loans, advances or cash dividends.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

21. Commitments

The following table sets forth the Company's contractual obligations as of June 30, 2010:

	Rental payments US\$('000)	Server hosting and board-band lease payments US\$('000)	Internet resources and TV advertisement purchase payments US\$('000)	Total US\$('000)
Six months ended December 31, 2010	131	15	17,183	17,329
Year ended December 31, -2011	262	15	110	387
-Thereafter	-	-	-	-
Total	393	30	17,293	17,716

The contractual obligations of TV advertisement and internet resources purchase payments represent the contracts signed by the Company with TV stations for purchasing the TV advertisement time and with the internet resources providers for purchasing internet advertisement resources. The Company will update these contracts with the related counterparties based on its actual needs if necessary.

22. Segment reporting

Based on the criteria established by ASC Topic 280 "Segment report" (formerly SFAS No. 131, "Disclosures about Segments of an Enterprise and Related Information"), as of June 30, 2010, the Company mainly operated in five principal segments: internet advertising, TV advertising, bank kiosk advertising, internet advertising resources resell and internet information management. Internet information management is a new product and business segment of the Company, which was officially launched in August 2009. It is an intelligence software that is based on our proprietary search engine optimization technology which helps our clients gain an early warning in order to identify and respond to potential negative exposure on the internet. The following tables present summarized information by segments.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

All share and per share data have been retroactively adjusted to reflect the reverse acquisition on June 26, 2009 whereby the 13,790,800 shares of common stock issued by the Company (nominal acquirer) to the shareholders of China Net BVI (nominal acquiree) are deemed to be the number of shares outstanding for the period prior to the reverse acquisition. For the period after the reverse acquisition, the number of shares considered to be outstanding is the actual number of shares outstanding during that period.

24. Share-based compensation expenses

On June 17, 2009, the Company engaged J and M Group, LLC ("J&M") to provide investor relations services. The initial term of the agreement is for one year. As additional compensation, the Company agreed to issue J&M 120,000 shares of the Company's common stock that vest 10,000 shares every 30 days. The shares were issued in accordance with the exemption from the registration provisions of the Securities Act of 1933, as amended, provided by Section 4(2) of such Act for issuances not involving any public offering. The 120,000 shares issued on June 17, 2009 were valued at \$0.15 per share, the closing bid of the Company's common stock on the date of issue. Therefore, total aggregate number of shares granted to J&M vested for the six month period ended June 30, 2010 was 60,000 shares. Total aggregate value of the transaction that the Company recognized for the six month period ended June 30, 2010 was US\$9,000, which was recorded in general and administrative expenses as share-based compensation expenses.

On July 1, 2009, the Company engaged Hayden Communications International, Inc. ("HC") to provide investor relations services. The initial term of the agreement is for one year. As additional compensation, the Company agreed to issue HC 80,000 shares of the Company's common stock that vest on a straight line basis over the contract period. The shares were issued in accordance with the exemption from the registration provisions of the Securities Act of 1933, as amended, provided by Section 4(2) of such Act for issuances not involving any public offering. The 80,000 shares issued on July 1, 2009 were valued at \$1.75 per share, the closing bid of the Company's common stock on the date of issue. Therefore, total aggregated number of shares granted to HC vested for the six month period ended June 30, 2010 was 40,000 shares. Total aggregate value of the transaction that the Company recognized for the six month period ended June 30, 2010 was US\$70,000, which was recorded in general and administrative expenses as share-based compensation expenses.

CHINANET ONLINE HOLDINGS, INC.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

On November 30, 2009, the Company granted one 5-year options to each of its three independent directors, Mr. Douglas MacLellan, Mr. Mototaka Watanabe and Mr. Zhiqing Chen, to purchase in the aggregate 54,000 shares of the Company's common stock at an exercise price of US\$5.00 per share, in consideration of their services to the Company. These options vest quarterly at the end of each 3-month period, in equal installments over the 24-month period from the date of grant. However, upon a change of control, the option shall automatically become fully vested and exercisable as of the date of such changes of control. These options were valued at US\$2.64 per share which represents the grant date fair value of these options. The related compensation expenses will be recognized over its vesting period. Total aggregate value of the transaction that the Company recognized for these options for the six month period ended June 30, 2010 was US\$41,580, which was recorded in general and administrative expenses as share-based compensation expenses.

The Company estimates the fair value of these options using the Black-Scholes option pricing model based on the following assumptions:

Underlying stock price	\$ 3.43
Expected term	3
Risk-free interest rate	1.10%
Dividend yield	-
Expected Volatility	150%
Exercise price of the option	\$ 5

Underlying stock price is a discounted stock price based upon the regression on actual discount obtained from an appropriate index due to lack of liquidity of the Company's underlying stock and other factors. As the three individuals receiving options are non-employee executive directors, the Company believes that forfeitures and termination are highly unlikely. As such, the Company developed a weighted-average expected term at 3 years based on analysis of the vesting schedule and exercise assumptions. The risk-free interest rate is based on the 3 year U.S. treasury rate. The dividend yield is calculated based on management's estimate of dividends to be paid on the underlying stock. The expected volatility is calculated using historical data obtained from an appropriate index due to lack of liquidity of the Company's underlying stock. Exercise price of the option is the contractual exercise price of the option.

Options issued and outstanding at June 30, 2010 and their movements during the period are as follows:

	Option Outstanding			Option Exercisable		
	Number of underlying shares	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price	Number of underlying shares	Weighted Average Remaining Contractual Life (Years)	Weighted Average Exercise Price
Balance, January 1, 2010	54,000	4.92		-		
Granted/Vested	-		\$ 5.00	13,500		\$ 5.00
Forfeited	-			-		
Exercised	-			-		
Balance, June 30, 2010	54,000	4.42	\$ 5.00	13,500	4.42	\$ 5.00

25.

Subsequent events

Management has considered all events occurring through August 16, 2010, the date the financial statements have been issued, and has determined that there are no such events that are material to the financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

You should read the following discussion and analysis of our financial condition and results of operations in conjunction with our consolidated financial statements and the related notes included elsewhere in this interim report. Our consolidated financial statements have been prepared in accordance with U.S. GAAP. In addition, our consolidated financial statements and the financial data included in this interim report reflect our reorganization and have been prepared as if our current corporate structure had been in place throughout the relevant periods. The following discussion and analysis contains forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934, including, without limitation, statements regarding our expectations, beliefs, intentions or future strategies that are signified by the words “expect,” “anticipate,” “intend,” “believe,” or similar language. All forward-looking statements included in this document are based on information available to us on the date hereof, and we assume no obligation to update any such forward-looking statements. Our business and financial performance are subject to substantial risks and uncertainties. Actual results could differ materially from those projected in the forward-looking statements. In evaluating our business, you should carefully consider the information set forth under the heading “Risk Factors” in our Annual Report on Form 10-K for the fiscal year ended December 31, 2009. Readers are cautioned not to place undue reliance on these forward-looking statements.

Overview

ChinaNet Online Holdings, Inc., (formerly known as Emazing Interactive, Inc.) (“Our Company”) was incorporated in the State of Texas in April 2006 and re-domiciled to become a Nevada corporation in October 2006. From the date of our incorporation until June 26, 2009, when we consummated the Share Exchange (as defined below), our activities were primarily concentrated in web server access and company branding in hosting web based e-games.

On June 26, 2009, we entered into a Share Exchange Agreement (the “Exchange Agreement”), with (i) China Net Online Media Group Limited, a company organized under the laws of British Virgin Islands (“China Net BVI”), (ii) China Net BVI’s shareholders, Allglad Limited, a British Virgin Islands company (“Allglad”), Growgain Limited, a British Virgin Islands company (“Growgain”), Rise King Investments Limited, a British Virgin Islands company (“Rise King BVI”), Star (China) Holdings Limited, a British Virgin Islands company (“Star”), Surplus Elegant Investment Limited, a British Virgin Islands company (“Surplus”), Clear Jolly Holdings Limited, a British Virgin Islands company (“Clear” and together with Allglad, Growgain, Rise King BVI, Star and Surplus, the “China Net BVI Shareholders”), who together owned shares constituting 100% of the issued and outstanding ordinary shares of China Net BVI (the “China Net BVI Shares”) and (iii) G. Edward Hancock, our principal stockholder at such time. Pursuant to the terms of the Exchange Agreement, the China Net BVI Shareholders transferred to us all of the China Net BVI Shares in exchange for the issuance of 13,790,800 shares (the “Exchange Shares”) of our common stock (the “Share Exchange”). As a result of the Share Exchange, China Net BVI became our wholly owned subsidiary and we are now a holding company which, through certain contractual arrangements with operating companies in the People’s Republic of China (the “PRC”), is engaged in providing advertising, marketing and communication services to small and medium companies in China.

Our wholly owned subsidiary, China Net BVI, was incorporated in the British Virgin Islands on August 13, 2007. On April 11, 2008, China Net BVI became the parent holding company of a group of companies comprised of CNET Online Technology Limited, a Hong Kong company (“China Net HK”), which established and is the parent company of Rise King Century Technology Development (Beijing) Co., Ltd., a wholly foreign-owned enterprise (“WFOE”) established in the PRC (“Rise King WFOE”). We refer to the transactions that resulted in China Net BVI becoming an indirect parent company of Rise King WFOE as the “Offshore Restructuring.” Through a series of contractual agreements, we operate our business in China primarily through Business Opportunity Online (Beijing) Network

Technology Co., Ltd. (“Business Opportunity Online”), Beijing CNET Online Advertising Co., Ltd. (“Beijing CNET Online”). Beijing CNET Online owns 51% of Shanghai Borongdingsi Computer Technology Co., Ltd. (“Shanghai Borongdingsi”). Business Opportunity Online, Beijing CNET Online and Shanghai Borongdingsi, were incorporated on December 8, 2004, January 27, 2003 and August 3, 2005, respectively. From time to time, we refer to them collectively as the “PRC Operating Entities.”

Through our PRC Operating Entities, we are now one of China's leading full-service media development and advertising platform for the small and medium enterprise (the "SME") market. We are a service oriented business that leverages proprietary advertising technology to prepare and publish rich media enabled advertising campaigns for clients on the internet and on television. Our goal is to strengthen our position as the leading diversified media advertising provider in China. Our multi-platform advertising network consists of www.28.com, our internet advertising portal; our TV production and advertising unit, and our bank kiosk advertising unit, which is primarily used as an advertising platform for clients in the financial services industry. Using proprietary technology, we provide additional services as a lead generator. We are also a re-seller of internet and television advertising space that we purchase in large volumes from other well-known internet portals. We launched a new service in August 2009, which is known as "Internet Information Management" service. This product is an intelligence software that is based on our proprietary search engine optimization technology which helps our clients gain an early warning in order to identify and respond to potential negative exposure on the internet.

On June 24, 2010, one of our subsidiaries, Business Opportunity Online (Beijing) Network Technology Co., Ltd. ("Business Opportunity Online"), together with other three individuals, who were not affiliated with our company or any of our subsidiaries and Variable Interest Entities ("VIEs"), formed a new company, Shenzhen City Mingshan Network Technology Co., Ltd. ("Shenzhen Mingshan"). Shenzhen Mingshan is 51% owned by Business Opportunity Online and 49% owned collectively by the other three individuals. Shenzhen Mingshan is located in Shenzhen City, Guangdong province of PRC and primarily engaged in designing, developing and selling internet based software; developing online games, designing and developing of the related websites and providing the related internet and information technology services necessary to operate the games and related websites. As of June 30, 2010, Business Opportunity Online invested approximately RMB 4,000,000 (approximately US\$587,000) to Shenzhen Mingshan; Shenzhen Mingshan is currently in the start-up stage. Management established this company to attempt to participate in the online game website operation business segment in consideration of the prior experiences we had in the website operation in relation to business promotion.

Basis of presentation, critical accounting policies and management estimates

· Change of reporting entity and basis of presentation

As a result of the Share Exchange on June 26, 2009, the former China Net BVI shareholders own a majority of our common stock. The transaction was regarded as a reverse merger whereby China Net BVI was considered to be the accounting acquirer as its shareholders retained control of our company after the Share Exchange, although we are the legal parent company. The share exchange was treated as a recapitalization of our company. As such, China Net BVI (and its historical financial statements) is the continuing entity for financial reporting purposes. Pursuant to the terms of the Share Exchange, Emazing Interactive, Inc. was delivered with zero assets and zero liabilities at time of closing. Following the Share Exchange, we changed our name from Emazing Interactive, Inc. to ChinaNet Online Holdings, Inc. Our financial statements have been prepared as if China Net BVI had always been the reporting company and then on the share exchange date, had changed its name and reorganized its capital stock.

· Critical accounting policies and management estimates

The accompanying consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP") and include our accounts, and those of our subsidiaries and VIEs. We prepare our financial statements in conformity with U.S. GAAP, which requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities on the date of the financial statements and the reported amounts of revenues and expenses during the financial reporting period. We continually evaluate these estimates and assumptions based on the most recently available information, our own historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Since the use of estimates is an integral component of the financial reporting

process, actual results could differ from those estimates. Some of our accounting policies require higher degrees of judgment than others in their application. We consider the policies discussed below to be critical to an understanding of our financial statements.

Foreign currency translation

Our functional currency is United States dollars (“US\$”), and the functional currency of China Net HK is Hong Kong dollars (“HK\$”). The functional currency of our PRC operating entities is Renminbi (“RMB”), and PRC is the primary economic environment in which we operate.

For financial reporting purposes, the financial statements of our PRC operating entities, which are prepared using the RMB, are translated into our reporting currency, the United States Dollar (“U.S. dollar”). Assets and liabilities are translated using the exchange rate at each balance sheet date. Revenue and expenses are translated using average rates prevailing during each reporting period, and shareholders' equity is translated at historical exchange rates. Adjustments resulting from the translation are recorded as a separate component of accumulated other comprehensive income in shareholders' equity.

Transactions denominated in currencies other than the functional currency are translated into the functional currency at the exchange rates prevailing at the dates of the transactions. The resulting exchange differences are included in the determination of net income of the consolidated financial statements for the respective periods.

No representation is made that the RMB amounts could have been, or could be converted into US\$ at such rates.

Revenue recognition

Our revenue recognition policies are in compliance with ASC Topic 605 (Staff Accounting Bulletin No. 104, “Revenue Recognition”). In accordance with ASC Topic 605, revenues are recognized when the four of the following criteria are met: (i) persuasive evidence of an arrangement exists, (ii) the service has been rendered, (iii) the fees are fixed or determinable, and (iv) collectability is reasonably assured.

Sales

Sales include revenues from reselling of advertising time purchased from TV stations and internet advertising, reselling of internet advertising spaces and other advertisement related resources. No revenue from advertising-for-advertising barter transactions was recognized because the transactions did not meet the criteria for recognition in ASC Topic 605, subtopic 20 (formerly Emerging Issues Task Force (“EITF”) abstract issue No. 99-17”). Advertising contracts establish the fixed price and advertising services to be provided. Pursuant to advertising contracts, we provide advertisement placements in different formats, including but not limited to banners, links, logos, buttons, rich media and content integration. Revenue is recognized ratably over the period the advertising is provided and, as such, we consider the services to have been delivered. We treat all elements of advertising contracts as a single unit of accounting for revenue recognition purposes. Based upon our credit assessments of the customers prior to entering into contracts, we determine if collectability is reasonably assured. In situations where collectability is not deemed to be reasonably assured, we recognize revenue upon receipt of cash from customers, only after services have been provided and all other criteria for revenue recognition have been met.

Taxation

Income tax

We follow the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on the difference between the financial reporting and tax bases of assets and liabilities using enacted tax rates that will be in effect in the period in which the differences are expected to reverse. We record a valuation allowance to offset deferred tax assets if based on the weight of available evidence, it is more-likely-than-not that some portion, or all, of the deferred tax assets will not be realized. The effect on deferred

taxes of a change in tax rates is recognized in income statement in the period that includes the enactment date. We had no deferred tax assets and liabilities recognized for the six months ended June 30, 2010 and 2009, and for the year ended December 31, 2009.

We adopted ASC Topic 740 (Financial Accounting Standards Board Interpretation No. 48, “Accounting for Uncertainty in Income Taxes”). ASC Topic 740 prescribes a more likely than not threshold for financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on recognition of income tax assets and liabilities, classification of current and deferred income tax assets and liabilities, accounting for interest and penalties associated with tax positions, accounting for income taxes in interim periods, and income tax disclosures. For the six months ended June 30, 2010 and 2009, and for the year ended December 31, 2009, we did not have any interest or penalties associated with tax positions and did not have any significant unrecognized uncertain tax positions.

i). We are incorporated in the State of Nevada. Under the current law of Nevada we are not subject to state corporation income tax. We became a holding company and do not conduct any substantial operations of our own after the Share Exchange. No provision for federal income tax has been made in our financial statements as no taxable income for the six months ended June 30, 2010.

ii). China Net BVI was incorporated in the British Virgin Islands (“BVI”). Under the current law of the BVI, we are not subject to tax on income or capital gains. Additionally, upon payments of dividends by China Net BVI to us, no BVI withholding tax will be imposed.

iii). China Net HK was incorporated in Hong Kong and does not conduct any substantial operations of its own. No provision for Hong Kong income tax has been made in our financial statements as no taxable income was generated for the six months ended June 30, 2010. Additionally, upon payments of dividends by China Net HK to its sole shareholder, China Net BVI, no Hong Kong withholding tax will be imposed.

iv). Our PRC operating entities, being incorporated in the PRC, are governed by the income tax laws of the PRC and are subject to PRC enterprise income tax (“EIT”). Effective from January 1, 2008, the EIT rate of PRC was changed from 33% to 25%, and applies to both domestic and foreign invested enterprises.

- Rise King WFOE is a software company qualified by the related PRC governmental authorities and was entitled to a two-year EIT exemption from its first profitable year and a 50% reduction of its applicable EIT rate, which is 25% of its taxable income for the following three years. Rise King WFOE had a net loss for the year ended December 31, 2008 and its first profitable year was fiscal year 2009 which has been verified by the local tax bureau by accepting the application filed by us. Therefore, it was entitled to a two-year EIT exemption for fiscal year 2009 through fiscal year 2010 and a 50% reduction of its applicable EIT rate which is 25% to 12.5% for fiscal year 2011 through fiscal year 2013.
- Business Opportunity Online was qualified as a High and New Technology Enterprise in Beijing High-Tech Zone in 2005 and was entitled to a three-year EIT exemption for fiscal year 2005 through fiscal year 2007 and a 50% reduction of its applicable EIT rate for the subsequent three years for fiscal year 2008 through fiscal year 2010. However, in March 2007, a new enterprise income tax law (the “New EIT”) in the PRC was enacted which was effective on January 1, 2008. Subsequently, on April 14, 2008, relevant governmental regulatory authorities released new qualification criteria, application procedures and assessment processes for “High and New Technology Enterprise” status under the New EIT which would entitle the pre-qualified and approved entities to a favorable statutory tax rate of 15%. With an effective date of September 4, 2009, Business Opportunity Online obtained the approval of its reassessment of the qualification as a “High and New Technology Enterprise” under the New EIT law and was entitled to a favorable statutory tax rate of 15%. Under the previous EIT laws and regulations, High and New Technology Enterprises enjoyed a favorable tax rate of 15% and were exempted from income tax for three years beginning with their first year of operations, and were entitled to a 50% tax reduction to 7.5% for the subsequent three years and 15% thereafter. The current EIT Law provides grandfathering treatment for enterprises that were (1) qualified as High and New Technology Enterprises under the previous EIT laws, and (2) established before March 16, 2007, if they continue to meet the criteria for High and New Technology Enterprises under the

current EIT Law. The grandfathering provision allows Business Opportunity Online to continue enjoying their unexpired tax holidays provided by the previous EIT laws and regulations. Therefore, its income tax was computed using a tax rate of 7.5% for the six month period ended June 30, 2010 and the year ended December 31, 2009 due to its unexpired tax holidays for year 2009 through year 2010. For the six month period ended June 30, 2009, since Business Opportunity Online had not obtained the approval of its qualification as a “High and New Technology Enterprise” under the New EIT law, it estimated and calculated its income tax based on the income tax rate of 25%. The difference between the estimated and the actual income tax expense for the six and three month period ended June 30, 2009 was approximately US\$649,000 and US\$379,000, respectively.

- The applicable income tax rate for Beijing CNET Online was 25% for the six month period ended June 30, 2010 and 2009.
- The New EIT also imposed a 10% withholding income tax for dividends distributed by a foreign invested enterprise to its immediate holding company outside China, which were exempted under the previous enterprise income tax law and rules. A lower withholding tax rate will be applied if there is a tax treaty arrangement between mainland China and the jurisdiction of the foreign holding company. Holding companies in Hong Kong, for example, will be subject to a 5% rate. Rise King WFOE is invested by immediate holding company in Hong Kong and will be entitled to the 5% preferential withholding tax rate upon distribution of the dividends to its immediate holding company.

Business tax and relevant surcharges

Revenue of advertisement services is subject to a 5.5% business tax and 3% cultural industry development surcharge of the net service income after deducting amount paid to ending media promulgators. Revenue of internet technical support services is subjected to a 5% to 5.5% business tax. Business tax charged was included in cost of sales.

Value added tax

As a small-scale value added taxpayer, revenue from sales of self-developed software of Rise King WFOE is subject to a 3% value added tax.

Warrant liabilities and reclassification

On August 21, 2009 (the “Closing Date”), we entered into a securities purchase agreement (the “Purchase Agreement”), with several investors, including institutional, accredited and non-US persons and entities (the “Investors”), pursuant to which we sold units, comprised of 10% Series A Convertible Preferred Stock, par value US\$0.001 per share (the “Series A preferred stock”), and two series of warrants, for a purchase price of US\$2.50 per unit (the “August 2009 Financing”). We sold 4,121,600 units in the aggregate, which included (i) 4,121,600 shares of Series A preferred stock, (ii) Series A-1 Warrant to purchase 2,060,800 shares of common stock at an exercise price of US\$3.00 per share with a three-year term, and (iii) Series A-2 Warrants to purchase 2,060,800 shares of common stock at an exercise price of US\$3.75 with a five-year term. Net proceeds were approximately US\$9,162,000, net of issuance costs of approximately US\$1,142,000. TriPoint Global Equities, LLC acted as placement agent and received (i) a placement fee in the amount equal to 8% of the gross proceeds and (ii) warrants to purchase up to 329,728 shares of common stock at an exercise price of US\$2.50, 164,864 shares at an exercise price of US\$3.00 and 164,864 shares at an exercise price of US\$3.75 respectively, with a five-year term (“Placement agent warrants” and together with the Series A-1 Warrant and Series A-2 Warrant, the “Warrants”).

The Warrants have an initial exercise price which is subject to adjustments in certain circumstances for stock splits, combinations, dividends and distributions, reclassification, exchange or substitution, reorganization, merger, consolidation or sales of assets, issuance of additional shares of common stock or equivalents. The Warrants may not be exercised if it would result in the holder beneficially owning more than 9.99% of the Company’s outstanding common shares. That limitation may be waived to the warrant holders by sending a written notice to the Company not less than 61 days prior to the date that they would like to have the limitation waived.

Accounting for warrants

We analyzed the Warrants in accordance to ASC Topic 815 “Derivatives and Hedging” (formerly SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities”) to determine whether the Warrants meet the definition of a derivative under ASC Topic 815 and if so, whether the Warrants meet the scope exception of ASC Topic 815, which is that contracts issued or held by the reporting entity that are both (1) indexed to its own stock and (2) classified in stockholders’ equity shall not be considered to be derivative instruments for purposes of ASC Topic 815. We adopted the provisions of ASC Topic 815 subtopic 40 (formerly Emerging Issues Task Force (“EITF”) Issue No. 07-5, “Determining Whether an Instrument (or Embedded Feature) Is Indexed to an Entity’s Own Stock”), which applies to any freestanding financial instruments or embedded features that have the characteristics of a derivative, as defined by ASC Topic 815 and to any freestanding financial instruments that are potentially settled in an entity’s own common stock. As a result of adopting ASC Topic 815 subtopic 40, we concluded that the Warrants issued in the August 2009 financing should be treated as a derivative liability, because the Warrants are entitled to a price adjustment provision to allow the exercise price to be reduced, in the event we issues or sells any additional shares of common stock at a price per share less than the then-applicable exercise price or without consideration, which is typically referred to as a “Down-round protection” or “anti-dilution” provision. According to ASC Topic 815 subtopic 40, the “Down-round protection” provision is not considered to be an input to the fair value of a fixed-for-fixed option on equity shares which leads the Warrants fail to be qualified as indexed to our own stock and then to fail to meet the scope exceptions of ASC Topic 815. Therefore, we accounted for the Warrants as derivative liabilities under ASC Topic 815. Pursuant to ASC Topic 815, derivatives should be measured at fair value and re-measured at fair value with changes in fair value recorded in earnings at each reporting period.

On March 29, 2010, we and the holders of the Warrants entered into agreements to amend certain provisions of the Warrants. The amendment, which is retroactive from and including, August 21, 2009, to the investor and placement agent warrants removes the “Down-round protection” rights that were applicable if we were to issue new shares of common stock or common stock equivalents at a price per share less than the exercise price of the Warrants. In addition, the amendment to the warrants added a provision to grant the holders of a majority of the warrants an approval right until December 31, 2010, over any new issuance of shares of common stock or common stock equivalents at a price per share less than the exercise price of the warrants.

As a result of this amendment, the Warrants issued in August 2009 financing were qualified as indexed to our own stock and then meet the scope exceptions of ASC Topic 815, and were eligible to be reclassified as equity. In accordance to ASC Topic 815, the classification of a contract should be reassessed at each balance sheet date. If the classification required under this ASC changes as a result of events during the period, the contract should be reclassified as of the date of the event that caused the reclassification. If a contract is reclassified from an asset or a liability to equity, gains or losses recorded to account for the contract at fair value during the period that the contract was classified as an asset or a liability should not be reversed. Therefore, we re-measured the fair value of the Warrants as of March 29, 2010, the date of the event that caused the classification, which was approximately US\$ 7,703,000 and reclassified the amount to equity as additional paid-in capital. The gain of the changes in fair value during the period that the Warrants were classified as a derivative liability, which was approximately US\$ 1,861,000 was recorded in earnings for the six month period ended June 30, 2010.

Placement agent warrants

In accordance with ASC Topic 340 subtopic 10 section S99-1 (formerly Staff Accounting Bulletin Topic 5.A: “Miscellaneous Accounting-Expenses of Offering”), “specific incremental costs directly attributable to a proposed or actual offering of securities may properly be deferred and charged against the gross proceeds of the offering.” In accordance with the SEC accounting and reporting manual “cost of issuing equity securities are charged directly to equity as deduction of the fair value assigned to share issued.” Accordingly, we concluded that the warrants issued to the placement agents are directly attributable to the August 2009 financing. If we had not issued the warrants to the

placement agent, we would have had to pay the same amount of cash as the fair value. Therefore, we deducted the total fair value of the Placement agent warrants as of the Commitment Date, which was approximately US\$733,000, as a deduction of the fair value assigned to the Series A preferred stock.

The Placement Agent Warrants were also entitled to the benefits of the “Down-round protection” provision upon issuance and subsequently removed on March 29, 2010 as described above. Therefore, it was reclassified to equity on March 29, 2010. The changes of fair value of the placement agent warrants before the reclassification had been recorded in earnings for each respective reporting period.

Series A preferred stock

Key terms of the Series A preferred stock sold by us in the August 2009 financing are summarized as follows:

Dividends

Dividends on the Series A preferred stock shall accrue and be cumulative from and after the issuance date. For each outstanding share of Series A preferred stock, dividends are payable at the per annum rate of 10% of the Liquidation Preference Amount of the Series A preferred stock. Dividends are payable quarterly within thirty (30) days following the last Business Day of each August, November, February and May of each year (each, a “Dividend Payment Date”), and continuing until such stock is fully converted. We shall have the right, at its sole and exclusive option, to pay all or any portion of each and every quarterly dividend that is payable on each Dividend Payment Date, either (i) in cash, or (ii) by issuing to the holder of Series A preferred stock such number of additional Conversion Shares which, when multiplied by US\$2.5 would equal the amount of such quarterly dividend not paid in cash.

Voting Rights

The Series A preferred stock holders are entitled to vote separately as a class on matters affecting the Series A Preferred Stock and with regard to certain corporate matters set forth in the Series A Certificate of Designation, so long as any shares of the Series A preferred stock remain outstanding. Holders of the Series A Preferred Stock are not, however, entitled to vote on general matters along with holders of common stock.

Liquidation Preference

In the event of the liquidation, dissolution or winding up of the affairs of us, whether voluntary or involuntary (each, a “Liquidation”), the holders of the Series A preferred stock then outstanding shall be entitled to receive, out of the assets of us available for distribution to its stockholders, an amount equal to US\$2.5 per share of the Series A preferred stock, plus any accrued but unpaid dividends thereon, whether or not declared, together with any other dividends declared but unpaid thereon, as of the date of Liquidation (collectively, the “Series A Liquidation Preference Amount”) before any payment shall be made or any assets distributed to the holders of the common stock or any other junior stock. If upon the occurrence of Liquidation, the assets thus distributed among the holders of the Series A shares shall be insufficient to permit the payment to such holders of the full Series A Preference Amount, then the entire assets of us legally available for distribution shall be distributed ratably among the holders of the Series A preferred stock.

Conversion Rights

Voluntary Conversion:

At any time on or after the date of the initial issuance of the Series A preferred stock, the holder of any such shares of Series A preferred stock may, at such holder’s option, subject to the limitations described below in “Conversion Restriction”, elect to convert all or portion of the shares of Series A preferred stock held by such person into a number of fully paid and non-assessable shares of common stock equal to the quotient of Liquidation preference amount of the Series A preferred stock divided by the initial conversion price of US\$2.5. The initial conversion price may be adjusted for stock splits and combinations, dividend and distributions, reclassification, exchange or substitution, reorganization, merger, consolidation or sales of assets, issuance of additional shares of common stock or equivalents with lower price or without considerations etc, as stimulated in the Certification of Designation.

Mandatory Conversion:

All outstanding shares of the Series A preferred stock shall automatically convert into shares of Common Stock, subject to the limitations described below in “Conversion Restriction”, at the earlier to occur of (i) twenty-four month anniversary of the Closing Date, and (ii) at such time that the Volume Weighted Average Price of our common stock is no less than US\$5.00 for a period of ten (10) consecutive trading days with the daily volume of the common stock of at least 50,000 shares per day.

Conversion Restriction

Holders of the Series A preferred stock may not convert the preferred stock to shares of common stock if the conversion would result in the holder beneficially owning more than 9.99% of our outstanding shares of common stock. That limitation may be waived by a holder of the Series A preferred stock by sending a written notice to us on not less than 61 days prior to the date that they would like to waive the limitation.

Registration Rights Agreement

In connection with the Financing, we entered into a registration rights agreement (the “RRA”) with the Investors in which we agreed to file a registration statement (the “Registration Statement”) with the Securities and Exchange Commission (the “SEC”) to register the shares of common stock underlying the Series A preferred stock (the “Conversion Shares”) and the Warrants (the “Warrant Shares”), thirty (30) days after the closing of the Financing. We have agreed to use its best efforts to have the Registration Statement declared effective within 150 calendar days after filing, or 180 calendar days after filing in the event the Registration Statement is subject to a “full review” by the SEC.

We are required to keep the Registration Statement continuously effective under the Securities Act until such date as is the earlier of the date when all of the securities covered by that registration statement have been sold or the date on which such securities may be sold without any restriction pursuant to Rule 144 (the “Financing Effectiveness Period”). We will pay liquidated damages of 2% of each holder’s initial investment in the Units sold in the Financing per month, payable in cash, up to a maximum of 10%, if the Registration Statement is not filed or declared effective within the foregoing time periods or ceases to be effective prior to the expiration of the Financing Effectiveness Period. However, no liquidated damages shall be paid with respect to any securities being registered that we are not permitted to include in the Financing Registration Statement due to the SEC’s application of Rule 415.

We evaluated the contingent obligation related to the RRA liquidated damages in accordance to “ASC Topic 825 “Financial Instruments” subtopic 20” (formerly Financial Accounting Standards Board Staff Position No. EITF 00-19-2 “Accounting for Registration Payment Arrangements”), which required the contingent obligation to make future payments or otherwise transfer consideration under a registration payment arrangement, whether issued as a separate agreement or included as a provision of a financial instrument or other agreement be separately recognized and measured in accordance with “ASC Topic 450” “Contingencies” (formerly SFAS No. 5, “Accounting for Contingencies”). The shares of common stock underlying the Series A preferred stock (the “Conversion Shares”) and the Warrants (the “Warrant Shares”) have been successfully registered. Therefore, we concluded that such obligation was not probable to incur and no contingent obligation related to the RRA liquidated damages needs to be recognized.

Security Escrow Agreement

We entered into a securities escrow agreement with the Investors (the “Escrow Agreement”), pursuant to which Rise King Investment Limited, a British Virgin Islands company (the “Principal Stockholder”), initially placed 2,558,160 shares of our common stock (the “Escrow Shares”) into an escrow account. Of the Escrow Shares, 1,279,080 shares (equivalent to 50% of the Escrow Shares) are being held as security for the achievement of audited net income equal to or greater than \$7.7 million for the fiscal year 2009 (the “2009 Performance Threshold”) and the remaining 1,279,080

of the Escrow Shares are being held as security for the achievement of audited net income equal to or greater than \$14 million for the fiscal year 2010 (the “2010 Performance Threshold”).

If we achieve at least 95% of the applicable Performance Threshold, all of the Escrow Shares for the corresponding fiscal year shall be returned to the Principal Stockholder. If we achieve less than 95% of the applicable Performance Threshold, the Investors shall receive in the aggregate, on a pro rata basis (based upon the number of shares of Series A preferred stock or conversion shares owned by each such Investor as of the date of distribution of the Escrow Shares), 63,954 shares of the Escrow Shares for each percentage by which the applicable Performance Threshold was not achieved up to the total number of Escrow Shares for the applicable fiscal year. Any Escrow Shares not delivered to any investor because such investor no longer holds shares of Series A preferred stock or conversion shares shall be returned to the Principal Stockholder.

For purposes of the Escrow Agreement, net income is defined in accordance with US GAAP and reported by us in its audited financial statements for each of the fiscal years ended 2009 and 2010; provided, however, that net income for each of fiscal years ended 2009 and 2010 shall be increased by any non-cash charges incurred (i) as a result of the Financing, including without limitation, as a result of the issuance and/or conversion of the Series A preferred stock, and the issuance and/or exercise of the Warrants, (ii) as a result of the release of the Escrow Shares to the Principal Stockholder and/or the investors, as applicable, pursuant to the terms of the Escrow Agreement, (iii) as a result of the issuance of ordinary shares of the Principal Stockholder to Messrs. Handong Cheng and Xuanfu Liu and Ms. Li Sun (the “PRC Shareholders”), upon the exercise of options granted to the PRC Shareholders by the Principal Stockholder, (iv) as a result of the issuance of warrants to any placement agent and its designees in connection with the Financing, (v) the exercise of any warrants to purchase common stock outstanding and (vi) the issuance under any performance based equity incentive plan that we adopts.

Because the 2009 performance threshold has been met, 1,279,080 Shares (50% of the Escrow Shares) will be released to Rise King Investment Limited. The Company is currently working with the Escrow Agent to facilitate the release of these shares.

In accordance to ASC Topic 718 and ASU No. 2010-05—Compensation—Stock Compensation: Escrowed Share Arrangements and the Presumption of Compensation. We evaluated the substance of this arrangement and whether the presumption of compensation has been overcome. According to the Security Escrow Agreement signed with our investors, the release of these escrow shares to our Principal Stockholder will not regard to continue employment, and this arrangement is in substance an inducement made to facilitate the financing transaction, rather than as compensatory. Therefore, we concluded that this arrangement should be recognized and measured according to its nature and reflects as a deduction of the proceeds allocated to the newly issued securities with no compensation expenses recorded in earnings.

Fair Value of the Series A preferred stock:

Fair value is generally based on independent sources such as quoted market prices or dealer price quotations. To the extent certain financial instruments trade infrequently or are non-marketable securities, they may not have readily determinable fair values. We estimated the fair value of the Warrants and Series A preferred stock using various pricing models and available information that management deems most relevant. Among the factors considered in determining the fair value of financial instruments are discounted anticipated cash flows, the cost, terms and liquidity of the instrument, the financial condition, operating results and credit ratings of the issuer or underlying company, the quoted market price of similar traded securities, and other factors generally pertinent to the valuation of financial instruments.

Accounting for the Series A preferred stock

The Series A preferred stock has been classified as permanent equity as there was no redemption provision at the option of the holders that is not within the control of us on or after an agreed upon date. We evaluated the embedded conversion feature in its Series A preferred stock to determine if there was an embedded derivative requiring bifurcation. We concluded that the embedded conversion feature of the Series A preferred stock does not required to be bifurcated because the conversion feature is clearly and closely related to the host instrument.

Allocation of the proceeds at commitment date and calculation of beneficial conversion feature

The following table summarized the allocation of proceeds to the Series A preferred stock and the Warrants:

	Gross proceeds Allocated US\$(^000)	Number of instruments	Allocated value per instrument US\$
Series A-1 Warrant	2,236	2,060,800	1.08
Series A-2 Warrant	2,170	2,060,800	1.05
Series A preferred stock	5,898	4,121,600	1.43
Total	10,304		

We then evaluated whether a beneficial conversion feature exists by comparing the operable conversion price of Series A preferred stock with the fair value of the common stock at the commitment date. We concluded that the fair value of common stock was greater than the operable conversion price of Series A preferred stock at the commitment date and the intrinsic value of the beneficial conversion feature is greater than the proceeds allocated to the Series A preferred stock. In accordance to ASC Topic 470 subtopic 20, if the intrinsic value of beneficial conversion feature is greater than the proceeds allocated to the Series A preferred stock, the amount of the discount assigned to the beneficial conversion feature is limited to the amount of the proceeds allocated to the Series A preferred stock. Accordingly, the total proceeds allocated to Series A preferred stock were allocated to the beneficial conversion feature with a credit to Additional paid-in capital upon the issuance of the Series A preferred stock. Since the Series A preferred stock may convert to our common stock at any time on or after the initial issue date, all discount was immediately recognized as a deemed dividend and a reduction to net income attributable to common shareholders in the period the preferred stock was issued.

According to Staff Accounting Bulletin Topic 5.A: “Miscellaneous Accounting-Expenses of offering” (“ASC Topic 340 subtopic 10 section S99-1”), “specific incremental costs directly attributable to a proposed or actual offering of securities may properly be deferred and charged against the gross proceeds of the offering”. And in accordance with the SEC accounting and reporting manual “cost of issuing equity securities are charged directly to equity as deduction of the fair value assigned to share issued”. Accordingly, we deducted the direct issuing cost paid in cash which were approximately US\$1,142,000 from the assigned fair value to the Series A preferred stock.

Share-based Compensation

We accounted for share-based compensation in accordance with ASC Topic 718, (formerly SFAS No. 123R “Share-based Payment”) which requires that share-based payment transactions be measured based on the grant-date fair value of the equity instrument issued and recognized as compensation expense over the requisite service period, or vesting period.

Earnings per share

Earnings / (loss) per share are calculated in accordance with ASC Topic 260, “Earnings Per Share” (formerly SFAS No. 128 “Earning Per Share”). Basic earnings per share is computed by dividing income attributable to common stockholders by the weighted average number of shares of common stock outstanding during the period. Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. Common shares issuable upon the conversion of the convertible preferred shares are included in the computation of diluted earnings per share on an “if-converted” basis when the impact is dilutive. The dilutive effect of outstanding common stock warrants is reflected in the diluted earnings per share by application of the treasury stock method when the impact is dilutive.

All share and per share data have been retroactively adjusted to reflect the reverse acquisition on June 26, 2009 whereby the 13,790,800 shares of common stock issued by us (nominal acquirer) to the shareholders of China Net BVI (nominal acquiree) are deemed to be the number of shares outstanding for the period prior to the reverse acquisition. For the period after the reverse acquisition, the number of shares considered to be outstanding is the actual number of shares outstanding during that period.

Recent accounting pronouncements

In April 2010, the FASB issued ASU No. 2010-13 — Compensation — Stock Compensation (Topic 718), which addresses the classification of an employee share-based payment award with an exercise price denominated in the currency of a market in which the underlying equity security trades. This Update provides amendments to Topic 718 to clarify that an employee share-based payment award with an exercise price denominated in the currency of a market in which a substantial portion of the entity's equity securities trades should not be considered to contain a condition that is not a market, performance, or service condition. Therefore, an entity would not classify such an award as a liability if it otherwise qualifies as equity. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning on or after December 15, 2010. We expect that the adoption of the amendments in this Update will not have any significant impact on our financial position and results of operations.

In April 2010, the FASB issued ASU No. 2010-17 — Revenue Recognition — Milestone Method (Topic 605), which provides guidance on the criteria that should be met for determining whether the milestone method of revenue recognition is appropriate. A vendor can recognize consideration that is contingent upon achievement of a milestone in its entirety as revenue in the period in which the milestone is achieved only if the milestone meets all criteria to be considered substantive. A milestone should be considered substantive in its entirety. An individual milestone may not be bifurcated. The amendments in this Update are effective on a prospective basis for milestones achieved in fiscal years, and interim periods within those years, beginning on or after June 15, 2010. We expect that the adoption of the amendments in this Update will not have any significant impact on our financial position and results of operations.

We expect that the adoption of the above Updates issued will not have any significant impact on our financial position and results of operations.

Other accounting standards that have been issued or proposed by the FASB or other standards-setting bodies that do not require adoption until a future date are not expected to have a material impact on our Consolidated Financial Statements upon adoption.

A. RESULTS OF OPERATIONS FOR THE SIX AND THREE MONTHS ENDED JUNE 30, 2010 AND 2009

The following table sets forth a summary, for the periods indicated, of our consolidated results of operations. Our historical results presented below are not necessarily indicative of the results that may be expected for any future period. All amounts, except number of shares and per share data, in thousands of US dollars.

Non-GAAP Measures

To supplement the unaudited consolidated statement of income and comprehensive income presented in accordance with Accounting Principles Generally Accepted in the United States of America ("GAAP"), we also provided non-GAAP measures of income from operations, income before income tax expenses, net income for the six and three months ended June 30, 2010, which are adjusted from results based on GAAP to exclude the non-cash charges recorded, which related to the issuing of Series A preferred stock and warrants in August 2009 financing. The non-GAAP financial measures are provided to enhance the investors' overall understanding of our current performance in on-going core operations as well as prospects for the future. These measures should be considered in addition to results prepared and presented in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. We use both GAAP and non-GAAP information in evaluating and operating business internally and therefore deems it important to provide all of this information to investors.

The following table presented reconciliations of our non-GAAP financial measures to the unaudited consolidated statements of income and comprehensive income for the six and three months ended June 30, 2010: (All amounts in thousands of US dollars)

	Six months ended June 30, 2010 (US \$) (Unaudited) GAAP		Three months ended June 30, 2010 (US \$) (Unaudited) GAAP

Total Revenues: Our total revenues increased to US\$22.3 million for the six months ended June 30, 2010 from US\$19.2 million for the same period of 2009, representing a 16% increase. For the three months ended June 30, 2010, our total revenue increased to US\$12.0 million from US\$9.4 million for the same period of 2009, representing a 28% increase.

We derive the majority of our advertising service revenues from the sale of advertising space and provision of the related technical support on our portal website www.28.com; and from the sale of advertising time purchased from different TV programs to unrelated third parties and to some of our related parties. We report our advertising revenue between related and unrelated parties because historically about 5%-10% of our advertising service revenues came from clients related to some of the shareholders of our PRC operating entities. Our advertising services to related parties were provided in the ordinary course of business on the same terms as those provided to our unrelated advertising clients on an arm's-length basis. In fiscal year of 2010, we are continuing to execute our strategy of focusing on the internet advertising sales business, which has achieved gross margins of 74% in the first half of 2010, and other related value-added services, including brand management, search engine marketing, internet information management and others. We will concentrate resources and capitals on our key portal website www.28.com and its related services as previously mentioned in order to yield more predictable and recurring revenue. Our advertising service revenues are recorded net of any sales discounts. These discounts include volume discounts and other customary incentives offered to our advertising clients, including additional advertising time for their advertisements if we have unused places available in our website and represent the difference between our official list price and the amount we charge our advertising clients.

We typically sign advertising contracts with our advertising clients that require us to place the advertisements on our portal website for specified places and specified periods; and/or place the advertisements during our purchased advertisement time in specific TV programs for specified periods. We recognize revenues as the advertisement airs over the contractual term based on the schedule agreed upon with our clients.

- We achieved a 57% increase in internet advertising revenues to US\$12.4 million for the six months ended June 30, 2010 from US\$7.9 million for the same period in 2009. This is primarily a result of (1) the successful brand building effort for www.28.com we made in prior years both on TV and at other well-known portal websites in China, as well as participating in government programs with respect to stimulating employment rates through entrepreneurship and launching of services to branded clients in China in the fiscal year of 2010; (2) more mature client service technologies; and (3) a more experienced sales team. During the six months ended June 30, 2010, we have engaged about 100 branded clients and achieved about 30 branded clients who use our portal and website to promote their chain stores (or franchise outlets) and other business opportunities. We also have enhanced our search engine optimization function, which allows us to provide a more technologically advanced chargeable advertisement for lead generation, which was also one of the main reasons for the increases in internet advertisement revenue.

- We had a 10% decrease in TV advertising revenue to US\$9.4 million for the six months ended June 30, 2010 from US\$10.5 million for the same period in 2009. We generated this US\$9.4 million of TV advertising revenue by selling approximately 12,000 minutes of advertising time that we purchased from approximately seven provincial TV stations as compared with approximately 14,000 minutes of advertising time that we sold in the same period in 2009. The decrease in revenue we generated from the TV advertisement segment for the six months ended June 30, 2010 as compared to the same period of last year was mainly due to the following reasons (1) a decrease of approximately 2,000 minutes of advertising time sold; (2) increases in demand for TV advertising are relatively limited due to higher demand for internet advertising, which can be more cost effective; (3) in response to TV stations increasing their sales prices, we in turn increased the prices we charged to our customers which resulted in lower demand from our customers for this service; (4) Spring Festival was in the middle of the first quarter of fiscal 2010, which had a negative impact on the demand for our advertising services and as a result, we had to decrease our selling price which in turn led to a negative gross profit ratio in the first quarter of 2010. For the three months ended June 30, 2010, we increased our selling prices as compared to that in the first quarter of 2010, and our gross profit ratio improved to 7% for the second quarter of 2010 as compared with (2%) for the first quarter of 2010. We do not anticipate that this business segment will expand in the future. Rather, we expect that this business segment will be operated as part of multi-channel communication platform for www.28.com and its related services. Meanwhile, management will closely monitor this business segment for the second half of fiscal year 2010 in an effort to improve its performance.
- Our resale of internet advertising resources is our resale of a portion of the internet resources that we purchase from Baidu in bulk to our existing internet advertising clients, in order to promote their businesses through sponsored searches, search engine traffic generation techniques etc. We achieved US\$0.1 million in revenue for the six months ended June 30, 2010 as compared with US\$0.8 million for the same period in 2009. We do not consider this segment to be a core business or revenue source, because it does not promote the www.28.com brand and the revenue generated by this segment is subject to price fluctuations caused by the bidding system adopted by different search engines. In fiscal year 2010, as we intend to promote our direct advertising services of www.28.com, which has a much higher gross profit, we believe the revenue from this segment will decrease accordingly as compared to last year. We will continue monitor our clients' demands from this segment and adjust our strategy accordingly to maximize our earnings from this segment.
- As of June 30, 2010, we have deployed 200 kiosks in China Construction Bank Henan Branch, and achieved approximately US\$0.3 million of revenue from this segment. Since the bank kiosk advertising business is still in the initial development stage, it was not a significant contribution to revenue for the six months ended June 30, 2010. We plan to deploy an aggregate of 1,300 additional kiosks by the end of 2010 starting from Henan, Shanghai and plan to cover Beijing, Guangdong and Si Chuan based on the possible client sources we will target. During the three months ended June 30, 2010, we have placed orders to install additional 408 kiosks and have finished the installation of 100 kiosks in China Construction Bank Henan province. We will continue our efforts to develop this segment in the second half year of 2010. Management believes that the increase in the number of the kiosks that have been and will be installed will enhance the related advertising coverage though bank kiosks and will help us to yield more clients in the future.
- Internet information management is a new business segment that we launched in August 2009, which offers our clients an intelligent software product based on our proprietary search engine optimization technology. The main objective of the product is to help our clients gain an early warning of potential negative exposure on the internet so that when necessary they can formulate an appropriate response. We charge a monthly fee to clients who utilize this service. For the six months ended June 30, 2010, we generated US\$0.1 million revenue from this business segment. We plan to expand our efforts to offer this service to more of our existing clients as well as a part of sales package to our branded clients in the future.

Cost of revenues

Our cost of revenues consists of costs directly related to the offering of our advertising services. The following table sets forth our cost of revenues, divided into five segments, by amount and gross profit ratio for the periods indicated, with inter-segment transactions eliminated:

	Six months ended June 30,					
	2010			2009		
	(Unaudited)			(Unaudited)		
	(Amount expressed in thousands of US dollars, except percentages)

Others	-	48	N/A	-	1	N/A
Total	\$ 12,040	5,936	51%	\$ 9,381	5,611	40%

Cost of revenues: Our total cost of revenues increased to US\$12.7 million for the six months ended June 30, 2010 from US\$11.9 million for the same period of 2009. Our cost of revenues related to the offering of our advertising services mainly consists of internet resources purchased from other portal websites and technical services providers related to lead generation, sponsored search, TV advertisement time costs purchased from TV stations, and business taxes and surcharges.

- Internet resources cost is the largest component of our cost of revenue for internet advertisement revenue. We purchased these resources from other well-known portal websites in China, such as: Baidu, and Google to help our internet advertisement clients to get better exposure and to generate more visits from their advertisements placed on our portal website. We accomplish these objectives through sponsored search, advanced tracking, advanced traffic generation technologies, and search engine optimization technologies in connection with the well-known portal

websites as indicated above. Our internet resources cost for internet advertising revenue was US\$3.3 million and US\$2.1 million for the six months ended June 30, 2010 and 2009, respectively. Our average gross profit ratio for internet advertising services is about 70%-80%. For the six months ended June 30, 2010 and 2009, the gross profit ratio for this segment was 74% and 73% respectively, which was considered stable and reasonable for this business segment.

- TV advertisement time cost is the largest component of our cost of revenue for TV advertisement revenue. We purchase TV advertisement time from about seven different provincial TV stations and resell it to our TV advertisement clients through infomercials produced by us. Our TV advertisement time cost was US\$9.2 million and US\$9.0 million for the six months ended June 30, 2010 and 2009, respectively. Our gross profit ratio for this segment decreased to 2% for the six months ended June 30, 2010 as compared to 14% for the same period of 2009. This decrease was mainly due to the following reasons: (1) the increase of our selling price is relatively lower than the increase of the purchase cost per minute charged by the TV stations for fiscal year 2010 as compared to that in 2009 due to the limitation of TV advertisement demands in consideration of the better price performance ratio generated from internet advertisement; (2) due to the Spring Festival was in the middle of the first quarter of 2010, we decreased our selling price accordingly to attract the customers, which led a 2% negative gross profit ratio for this segment. Management believes that the second half year of 2010, the TV advertisement segment will continue to generate positive gross profit.
- Our resale of internet advertising resources that we purchase from Baidu in large volumes, allowing us to enjoy a more favorable discount on rates. We normally purchase these internet resources for providing value-added services to our internet advertising clients on our own portal website www.28.com. However, besides placing advertisements on www.28.com, some of our advertising clients also want to use other direct channels for their promotions, so they purchase internet resources from us because, through us, they have access to lower rates as compared to the current market price for such internet resources. The gross profit ratio for this business is not considered to be stable, because it is subject to price fluctuations caused by the bidding system adopted by different search engines. For the six months ended June 30, 2010, we limited the supply of this segment, because we intend to promote the direct advertisement services to our customers through our own portal website, www.28.com.

Gross Profit

As a result of the foregoing, our gross profit was US\$9.6 million for the six months ended June 30, 2010 compared to US\$7.3 million for the same period of 2009. According to our past experience, the comprehensive gross margin ratio of our business is about 35%-45%. We achieved a relatively higher comprehensive gross margin for the three months ended June 30, 2010, mainly due to the increase of the percentage of our internet advertisement segment over the total revenue we achieved for the three months ended June 30, 2010 which had an average gross profit ratio of 70%-75% to 65% as compared to 45% for the same period of 2009.

Operating Expenses and Net Income

Our operating expenses consist of selling expenses, general and administrative expenses, and research and development expenses. The following tables set forth our operating expenses, divided into their major categories by amount and as a percentage of our total revenues for the periods indicated.

	Six months ended June 30,			
	2010		2009	
	(Unaudited)		(Unaudited)	
	(Amount expressed in thousands of US dollar, except percentage)			
	Amount	% of total revenue	Amount	% of total revenue
Total Revenue	\$ 22,267	100%	\$ 19,178	100%
Gross Profit	9,604	43%	7,289	38%
Selling expenses	1,337	6%	2,629	14%
General and administrative expenses	1,595	7%	916	5%

Edgar Filing: ChinaNet Online Holdings, Inc. - Form 10-Q

Research and development expenses	330	2%	214	1%
Total operating expenses	\$ 3,262	15%	\$ 3,759	20%

54

	Three months ended June 30,			
	2010		2009	
	(Unaudited)		(Unaudited)	
	(Amount expressed in thousands of US dollars, except percentages)			
	Amount	% of total revenue	Amount	% of total revenue
Total Revenue	\$ 12,040	100%	\$ 9,381	100%
Gross Profit	6,104	51%	3,770	40%
Selling expenses	911	7%	1,166	12%
General and administrative expenses	801	7%	568	6%
Research and development expenses	196	2%	164	2%
Total operating expenses	\$ 1,908	16%	\$ 1,898	20%

Operating Expenses: Our operating expenses decreased slightly to US\$3.26 million for the six months ended June 30, 2010 from US\$3.76 million for the same period in 2009. For the three months ended June 30, 2010, our operating expenses increased slightly to US\$1.91 million as compared to US\$1.90 million for the same period of 2009.

- **Selling expenses:** Selling expenses decreased to US\$1.3 million for the six months ended June 30, 2010 from US\$2.6 million for the same period in 2009. For the three months ended June 30, 2010, selling expenses decreased to US\$0.9 million as compared to US\$1.2 million for the same period of 2009. Our selling expenses primarily consist of brand development advertising expenses that we pay to TV stations and other media outlets for the promotion of www.28.com, other advertising and promotional expenses, staff salaries, benefits and performance bonuses, website server hosting and broadband leasing expenses, and travel and communication expenses. The decrease in our selling expenses was mainly due to the decrease of our brand development advertising expenses on TV for the six months ended June 30, 2010 to approximately US\$0.9 million as compared to approximately US\$1.9 million for the same period of 2009. We do not expect that the decrease of brand building expenses on TV will have a significant adverse impact on our future revenue growth, because, through the investment we had made in brand building of www.28.com in the last two years, our website has been gradually recognized as one of the most popular portal that provides advertising services and other internet services for SMEs, particularly for small and medium sized franchises, in China. With the increase of the cost for brand development through TV advertisement, we have changed our strategy of brand building activities to participating more in related government support programs of raising employment rates to continue our brand building effects in the further. For the six months ended June 30, 2010, we recorded approximately US\$0.22 million brand building expenses in relation to the co-funding of "Entrepreneurship Fund for Chinese College Students" in China, which is recognized by the six major central ministries, including, China Federation of Industry and Commerce, Ministry of Education, Central Committee of the Communist Young League, United Front Work Department of CPC Central Committee, Ministry of Human Resources and Social Security, and Ministry of Civil Affairs. Management believes that these activities will help to yield additional branded clients who will utilize the portal to advertise their chain stores (so called franchise) products, services or business opportunities over the internet and other communication channels of the company.
- **General and administrative expenses:** General and administrative expenses increased to US\$1.6 million for the six months ended June 30, 2010 as compared to US\$0.9 million for the same period of 2009. For the three months ended June 30, 2010, our general and administrative expenses increased to US\$0.8 million as compared to US\$0.6 million for the same period of 2009. Our general and administrative expenses primarily consist of salaries and benefits for management, accounting and administrative personnel, office rentals, depreciation of office equipment, professional service fees, maintenance, utilities and other office expenses. The increase in our general and administrative expenses was mainly due to the following reasons: (1) the increase in professional services charges related to US public company, including but not limited to legal, accounting, internal control enhancement, etc, for

about US\$0.4 million; (2) the increase of the start-up expenditures of our newly established subsidiary, Shenzhen Mingshan for about US\$0.2million; and (3) the increase of staff salary, travelling expenses and other general office supplies for about US\$0.1 million in relation to the expansion of our business.

•Research and development expenses: Research and development expenses increased to US\$0.3 million for the six months ended June 30, 2010 from US\$0.2 million for the same period of 2009. For the three months ended June 30, 2010, research and development increased to US\$0.20 million as compared to US\$0.16 million for the same period of 2009. Our research and development expenses primarily consist of salaries and benefits for the research and development staff, equipment depreciation expenses, and office utilities and supplies allocated to our research and development department. We expect that our research and development expenses will increase in future periods as we will expand, optimize and enhance the stability of our portal website and upgrade our advertising management software. In general, we expect research and development expenses to remain relatively stable as a percentage of our total revenues.

Operating Profit: As a result of the foregoing, our operating profit increased to US\$6.3 million for the six months ended June 30, 2010 from US\$3.5 million for the same period of 2009. For the three months ended June 30, 2010, our operating profit increased to US\$4.2 million as compared to 1.9 million for the same period of 2009.

Changes in Fair Value of Warrants: We originally accounted for our warrants issued to investors and placement agent in August 2009 financing as derivative liabilities under ASC Topic 815 “Derivatives and Hedging” (formerly SFAS No. 133, “Accounting for Derivative Instruments and Hedging Activities”), because it contains a “Down-round” protection that were applicable if we were to issue new shares of common stock or common stock equivalents at a price per share less than the exercise price of the Warrants. the “Down-round protection” provision is not considered to be an input to the fair value of a fixed-for-fixed option on equity shares which lead to the Warrants to fail to be qualified as indexed to the Company’s own stock and then fail to meet the scope exceptions of ASC Topic 815. Therefore, we accounted for the Warrants as derivative liabilities under ASC Topic 815. Pursuant to ASC Topic 815, derivative should be measured at fair value and re-measured at fair value with changes in fair value recorded in earnings at each reporting period.

On March 29, 2010, we and the holders of the Warrants entered into agreements to amend certain provisions of the Warrants. The amendment to the investor and placement agent warrants removes the “Down-round protection” rights. In addition, the amendment to the warrants added a provision to grant the holders of a majority of the warrants an approval right until December 31, 2010, over any new issuance of shares of common stock or common stock equivalents at a price per share less than the exercise price of the warrants.

As a result of this amendment, the Warrants issued in August 2009 financing was qualified as indexed to our own stock and then meet the scope exceptions of ASC Topic 815, and was eligible to be reclassified as equity. In accordance to ASC Topic 815, the classification of a contract should be reassessed at each balance sheet date. If the classification required under this ASC changes as a result of events during the period, the contract should be reclassified as of the date of the event that caused the reclassification. If a contract is reclassified from an asset or a liability to equity, gains or losses recorded to account for the contract at fair value during the period that the contract was classified as an asset or a liability should not be reversed. Therefore, we re-measured the fair value of the Warrants as of March 29, 2010, the date of the event that caused the classification, which was approximately US\$ 7,703,000 and reclassified the amount to equity as additional paid-in capital. The gain of the changes in fair value during the period that the Warrants were classified as a derivative liability for the six months ended June 30, 2010, which was approximately US\$ 1,861,000 was recorded in earnings.

Income Tax: We recognized an income tax expense of US\$0.28 million for the six months ended June 30, 2010. For the six months ended June 30, 2009, we used an estimated income tax rate of 25% to calculate the income tax expense for Business Opportunity Online, one of our PRC operating entities who operates our internet advertising business through www.28.com, because at that time, Business Opportunity Online had not obtained the approval of its qualification as a “High and New Technology Enterprise” under the New EIT law. The actual income tax rate for Business Opportunity Online for the year ended December 31, 2009 was 7.5%. In January 2010, with an effective date of September 4, 2009, Business Opportunity Online obtained its qualification as a “High and New Technology

Enterprise” under the New EIT law and was approved by the local tax authority to continue enjoy the 50% reduction of the applicable income tax rates which are 15% to 7.5% for the years ended December 31, 2009 and 2010. The differences between the estimated income tax expenses and the actual income tax expenses for the six and three months ended June 30, 2009 was approximately US\$0.65 million and US\$0.38 million respectively.

Net Income: As a result of the foregoing, our net income amounted to US\$7.9 million for the six months ended June 30, 2010 as compared to US\$2.6 million for the same period of 2009. Excluding the non-cash gain recorded as changes in fair value of warrants for the six months ended June 30, 2010, which was approximately US\$1.9 million, we achieved net income amounted to US\$6.1 million and US\$2.6 million for the six months ended June 30, 2010 and 2009, respectively. For the three months ended June 30, 2010, we achieved approximately US\$4.1 million net income as compared to US\$1.3 million for the same period of 2009.

Loss attributable to noncontrolling interest: Since our newly established consolidated major-owned subsidiary Shenzhen Mingshan was still in the start-up period as of June 30, 2010, the net loss incurred for the six months ended June 30, 2010 was allocated between the shareholders of Shenzhen Mingshan based on the percentage of the ownership in the entity. Based on the percentage ownership of Shenzhen Mingshan, we allocated approximately US\$0.08 million of losses to the non-controlling interest shareholders of Shenzhen Mingshan for the six and three months ended June 30, 2010.

Net income attributable to ChinaNet Online Holdings, Inc. Total net income we achieved for the six and three months ended June 30, 2010 minus the net loss attributable to the noncontrolling interest shareholders was the net income attributable to ChinaNet Online Holdings, Inc.

Dividend for Series A convertible preferred stock: Dividend to Series A convertible stock holders was calculated at the per annum rate of 10% of the liquidation preference amount of the Series A preferred stock which was US\$2.5 per share and the actual number of days each share outstanding within the reporting period. The dividend accrued for Series A convertible preferred stock was approximately US\$0.4 million and US\$0.2 million for the six and three months ended June 30, 2010.

Net income attributable to ChinaNet's common shareholders: Net income attributable to ChinaNet's common shareholders represents the net income after the allocation to the noncontrolling interest shareholders minus the dividend accrued for Series A convertible preferred stock.

B. LIQUIDITY AND CAPITAL RESOURCES

Cash and cash equivalents represent cash on hand and deposits held at call with banks. We consider all highly liquid investments with original maturities of three months or less at the time of purchase to be cash equivalents. As of June 30, 2010, we had cash and cash equivalents of US\$17.8 million.

Our liquidity needs include; (i) net cash used in operating activities that consists of (a) cash required to fund the initial build-out and continued expansion of our network and (b) our working capital needs, which include advance payments for advertising time purchased from TV stations and for internet resources providers, payment of our operating expenses and financing of our accounts receivable; and (ii) net cash used in investing activities that consists of investments in computers and other office equipment. To date, we have financed our liquidity needs primarily through proceeds from our operating activities.

The following table provides detailed information about our net cash flow for the periods indicated

	Six months ended June 30,	
	2010	2009
	(Unaudited)	(Unaudited)
	Amount in thousands of US dollars	
Net cash provided by operating activities	6,183	2,711
Net cash used in investing activities	(114)	(101)
Net cash used in financing activities	(2,175)	(1,794)
Effect of foreign currency exchange rate changes on cash	37	7
Net increase in cash and cash equivalents	3,931	823

Net cash provided by operating activities:

Our net cash provided by operating activities increased to US\$6.2 million for the six months ended June 30, 2010 from US\$2.7 million for the same period of 2009. This increase is primarily attributable to the increase of our net income to US\$6.1 million (excluding the non-cash income related to changes in fair value of warrants) for the six months ended June 30, 2010 from US\$2.6 million for the same period in 2009 and our effective management of the collection of our outstanding receivables during the period. We achieved approximately US\$22.2 million net revenue with our outstanding receivable only increased by approximately US\$1.6 million for the six months ended June 30, 2010. We also collected approximately US\$2 million advance deposits incurred for TV advertisement bidding and paid approximately US\$1.3 million as advance payments to our resource suppliers during the period.

Net cash used in investing activities:

Our net cash used in investing activities was US\$0.11 million and US\$0.10 million for the six months ended June 30, 2010 and 2009, respectively. For the six months ended June 30, 2010, we replaced and updated our web servers and the related electronic devices to enhance the security of our portal website.

Net cash used in financing activities:

Our net cash used in financing activities was US\$2.2 million and US\$1.8 million for the six months ended June 30, 2010 and 2009, respectively. In late June 2010, we temporarily loaned an unaffiliated party approximately US\$2 million, which had been collected in early July. We also received approximately US\$0.14 million cash contributed by the noncontrolling interest shareholders of Shenzhen Mingshan in connection to the establishment of the company. We also paid approximately US\$0.29 million dividend to the holders of Series A convertible preferred stock during the period.

C. Off-Balance Sheet Arrangements

Our Company did not have any significant off-balance sheet arrangements as of June 30, 2010.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable to smaller reporting companies.

Item 4(T). Controls and Procedures

Evaluation of Disclosure Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of the effectiveness of our disclosure controls and procedures as of the end of the fiscal quarter ended June 30, 2010, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act. Based on this evaluation, our principal executive officer and principal financial officer have concluded that during the period covered by this report, the Company's disclosure controls and procedures were effective as of such date to ensure that information required to be disclosed by us in our Exchange Act reports is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our principal executive officer and principal financial officer or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There was no change in our internal control over financial reporting that occurred during the second fiscal quarter of 2010 covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II. Other Information

Item 1. Legal Proceedings

We are currently not a party to any legal or administrative proceedings and are not aware of any pending or threatened legal or administrative proceedings against us in all material aspects. We may from time to time become a party to various legal or administrative proceedings arising in the ordinary course of our business.

Item 1A. Risk Factors

This information has been omitted based on the Company's status as a smaller reporting company.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Removed and Reserved

Item 5. Other Information

None.

Item 6. Exhibits

Exhibit No.	Document Description
31.1	Certification of the Principal Executive Officer pursuant to Rule 13A-14(A)/15D-14(A) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
31.2	Certification of the Principal Accounting and Financial Officer pursuant to Rule 13A-14(A)/15D-14(A) of the Securities Exchange Act of 1934, as adopted pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
32.1	Certification of the Principal Executive Officer and of the Principal Accounting and Financial Officer pursuant to 18 U.S.C. 1350 (Section 906 of the Sarbanes-Oxley Act of 2002).

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
