## Item 1.01: Entry into a Material Definitive Agreement.

On August 23, 2011, Multiband Corporation (the Company) released the attached press release announcing that on August 22, 2011 the Company entered into a new four-year contract with DIRECTV to provide operator support services to DIRECTV system operators across the country. Under the agreement, the Company acts as a master system operator for DIRECTV and receives payment for managing video subscribers through its network of system operators, who are billed by DIRECTV, and also directly bills voice, internet and video subscribers as a principal. The Company earns a fixed percentage based on cash received by DIRECTV for recurring monthly services, a variable amount depending on the number of activations in a given month, and a variable amount for coordinating improvements of systems used to deliver enhanced programming services. The Company's master system operator contract with DIRECTV also permits the Company to earn revenues through its control of other system operators who are unable to provide DIRECTV video programming services without the Company's involvement. Under the agreement the Company is required to ensure that its system operators meet minimum technical DIRECTV system standards so that the system operator subscribers may properly receive DIRECTV programming services. The initial term of the agreement is for four years and provides for additional one-year renewals unless either operator or DIRECTV gives written notice of non-renewal at least ninety (90) days in advance of expiration of the then-current term. The foregoing description of the Company's and DIRECTV's rights and obligations under the agreement does not purport to be complete and is qualified in its entirety by reference to the copy of the master system operator agreement which the Company expects to file shortly.
