Item 1.01. Entry Into a Material Definitive Agreement.

Between October 14, 2011 and November 2, 2011, Patient Safety Technologies, Inc., a Delaware corporation (the “Company”), entered into warrant exchange agreements and amended warrants with three holders of outstanding warrants to purchase the Company’s common stock, one of whom included Brian E. Stewart, the Company’s President and Chief Executive Officer. The exchanges, which were approved by the Company’s Board of Directors with Mr. Stewart abstaining, were effected pursuant to the exemption from registration provided by Section 4(2) of the Securities Act of 1933, as amended, and involved exchanging warrants for 511,767 shares in the aggregate that contained certain anti-dilution features which created derivative liability accounting treatment. As the sole consideration for eliminating these anti-dilution features from these warrants, the warrant holders received, in exchange for their old warrants, new warrants for an additional 51,177 shares in the aggregate (i.e., the total shares subject to the warrants became 562,944 as of the date of the exchanges). The new warrants have an exercise price of \$0.75, and all other terms of the original warrants remained unchanged. The warrant exchange was completed on November 2, 2011.

Copies of the Warrant Exchange Agreement and new Common Stock Purchase Warrant agreement are included as Exhibits 10.1 10.2 hereto, and the foregoing description of the Warrant Exchange Agreement and Common Stock Purchase Warrant agreement are qualified in their entirety by reference to the full text of such documents, which are hereby incorporated by reference herein.
