NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Organization, Use of Estimates and Basis of Presentation

Champions Oncology, Inc. (the “Company”), is a company that is engaged in the development of advanced technology solutions and services to personalize the development and use of oncology drugs. The Company’s Tumorgraft Technology Platform is a novel approach to personalizing cancer care based upon the implantation of human tumors in immune deficient mice. The Company uses this technology to derive revenue for two customer groups: Personalized Oncology Solutions (“POS”), and Translational Oncology Solutions (“TOS”). POS assist physicians in developing personalized treatment options for their cancer patients through access to panels of expert medical professionals and tumor specific data. The Company’s TOS offer a technology platform to pharmaceutical and biotechnology companies using proprietary Tumorgraft studies, which have been shown to be predictive of how drugs may perform in clinical settings.

The unaudited condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries. All material intercompany transactions have been eliminated in consolidation. The financial statements of the Company’s foreign subsidiaries, all of which have a functional currency other than the U.S. dollar, have been translated into the U.S. dollar for each period presented. Translation gains and losses are recognized as a component of accumulated other comprehensive loss. The Company is subject to foreign exchange rate fluctuations in connection with the Company’s international operations.

These unaudited condensed consolidated financial statements have been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”). All significant intercompany transactions and accounts have been eliminated. Certain information related to the Company’s organization, significant accounting policies and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) has been condensed or omitted. The accounting policies followed in the preparation of these unaudited condensed consolidated financial statements are consistent with those followed in the Company’s annual consolidated financial statements for the year ended April 30, 2011, as filed on Form 10-K. In the opinion of management, these unaudited condensed consolidated financial statements contain all material adjustments necessary to fairly state our financial position, results of operations and cash flows for the periods presented and the presentations and disclosures herein are adequate when read in conjunction with the Company’s Annual Report on Form 10-K for the year ended April 30, 2011. Certain reclassifications have been made to the prior period financial statement amounts to conform to current presentation.

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates include valuation assumptions used for share-based compensation and warrant liability, expenses related to POS and the carrying amounts of long-lived assets and deferred taxes.

Basic loss per share is calculated by dividing loss available to common shareholders by the weighted average number of common shares (including redeemable common stock) outstanding for the period. Diluted loss per share is calculated based on the weighted average number of common shares (including redeemable common stock) outstanding for the period, plus the dilutive effect of common stock purchase warrants, stock options and restricted stock units using the treasury stock method. Contingently issuable shares are included in the calculation of basic earnings per share when all contingencies surrounding the issuance of the shares are met and the shares are issued or issuable. Contingently issuable shares are included in the calculation of dilutive earnings per share as of the beginning

of the reporting period if, at the end of the reporting period, all contingencies surrounding the issuance of the shares are satisfied or would be satisfied if the end of the reporting period were the end of the contingency period. Due to the net losses for the three and six months ended October 31, 2011 and 2010, basic and diluted loss per share were the same, as the effect of potentially dilutive securities would have been anti-dilutive.

CHAMPIONS ONCOLOGY, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The following table reflects the total potential share-based instruments outstanding at October 31, 2011 and 2010 that could have an effect on the future computation of dilution per common share:

Note 2. Recently Issued Accounting Pronouncements

During June 2011, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-05, “Presentation of Comprehensive Income” (“ASU 2011-05”). ASU 2011-05 provides for the option to present the total of comprehensive income, the components of net income and the components of other comprehensive income (“OCI”) either in a single continuous statement of comprehensive income or in two separate but consecutive statements. Regardless of which format is chosen, the amendments establish a requirement for entities to present on the face of the financial statements reclassification adjustments for items that are reclassified from OCI to net income in the statement(s) where the components of net income and the components of OCI are presented. The amendments in ASU 2011-05 are effective, on a retrospective basis, for public entities for interim and annual periods beginning after December 15, 2011, and for nonpublic entities for fiscal years ending after December 15, 2012 and interim and annual periods thereafter. The Company has adopted this standard, which only impacts the disclosures required, but has no impact on the financial position or results of operations.

During May 2011, the FASB issued ASU No. 2011-04, “Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs” (“ASC 2011-04”). The amendments in ASC 2011-04 were issued in order to align the fair value measurement and disclosure requirements in GAAP and International Financial Reporting Standards. Consequently, the amendments change the wording used to describe many of the requirements in GAAP for measuring fair value and for disclosing information about fair value measurements. However, many of the amendments in ASC 2011-04 will not result in a change in the application of the requirements in ASC 820, Fair Value Measurement. The amendments in ASU 2011-04 are effective, on a prospective basis, for public entities for interim and annual periods beginning after December 15, 2011. The Company does not anticipate that the adoption of this guidance will have a material impact on its financial position and results of operations.

During December 2010, the FASB issued ASU No. 2010-28, Intangibles - Goodwill and Other (“ASU 2010-28”). ASU 2010-28 addresses questions about entities with reporting units with zero or negative carrying amounts because some entities concluded that Step 1 of the goodwill impairment test is passed in those circumstances because the fair value of their reporting unit will generally be greater than zero. The amendments in this update do not provide guidance on how to determine the carrying amount or measure the fair value of the reporting unit. The amendments in this update modify Step 1 of the goodwill impairment test for reporting units with zero or negative carrying amounts. This update is effective for fiscal years beginning after December 15, 2010. The Company does not anticipate that the adoption of this standard will have a material impact on the Company’s financial position and results of operations. The Company tests for goodwill impairment annually during its fourth quarter, or more frequently if circumstances indicate potential impairment.

Note 3. Property and Equipment

Property and equipment is recorded at cost and consists of laboratory equipment, furniture and fixtures, and computer hardware and software. Depreciation is calculated on a straight-line basis over the estimated useful lives of the various assets ranging from three to seven years. Property and equipment consisted of the following:

	October 31, 2011	April 30, 2011
(Dollars in Thousands)		
Furniture and fixtures	\$ 52	\$ 10
Computer equipment and software	217	119

Software in-progress	-	24
Total property and equipment	371	211
Less: Accumulated depreciation	(114)	(65)
Property and equipment, net	\$ 257	\$ 146

Depreciation expense was \$21,000 and \$10,000 for the three months ended October 31, 2011 and 2010, respectively, and \$49,000 and \$20,000 for the six months ended October 31, 2011 and 2010, respectively.

Note 4. Share-Based Payments

The Company has in place a 2010 Equity Incentive Plan, a 2008 Equity Incentive Plan and a Director Compensation Plan of 2010, all of which are described in more detail in the Company's Annual Report on Form 10-K for the year ended April 30, 2011. In general, these plans provide for stock-based compensation in the form (i) Non-statutory Stock Options; (ii) Restricted Stock Awards; and (iii) Stock Appreciation Rights to the Company's employees, directors and non-employees. The plans also provide for limits on the aggregate number of shares that may be granted, the term of grants and the strike price of option awards.

Stock-based compensation in the amount of \$855,000 and \$197,000 was recognized for the three months ended October 31, 2011 and 2010, respectively, and \$1.9 million and \$367,000 for the six months ended October 31, 2011 and 2010, respectively. Stock-based compensation expense was recognized as follows:

Volatility	90%-108 %	105 %	90%-108 %	104% - 105 %
Dividend yield	0 %	0 %	0 %	0 %

The weighted average fair value of stock options granted during the three months ended October 31, 2011 and 2010 was \$0.37 and \$0.73, respectively. The weighted average fair value of stock options granted during the six months ended October 31, 2011 and 2010 was \$0.63 and \$0.73, respectively. The Company's stock options activity for the six months ended October 31, 2011 is as follows:

Expired	-	-
Nonvested as of October 31, 2011	-	

The aggregate fair value of shares vested during the six months ended October 31, 2011 was \$75,000.

Stock Purchase Warrants

As of October 31, 2011, the Company has warrants outstanding for the purchase of 1,416,667 shares of its common stock, all of which are exercisable. Of these warrants, 1,266,667 were issued in connection with the April 2011 financing arrangement and are accounted for as liabilities as further discussed in Note 5. As of October 31, 2011, the weighted average exercise price of these warrants was \$0.91, the weighted average contractual life was 4.31 years. 480,352 and 495,352 warrants were exercised during the three and six months ended October 31, 2011, respectively.

Note 5. Redeemable Common Stock and Stock Purchase Warrant

On March 24, 2011, the Company entered into a Securities Purchase Agreement with several accredited investors for the sale to the investors of an aggregate 12,533,333 shares of the Company's Common Stock at a purchase price of \$0.75 per share, or an aggregate of \$9.4 million of which, \$500,000 was sold to officers and directors of the Company. As part of this transaction, the Company also issued warrants to purchase an aggregate 1,266,667 shares of Common Stock at an exercise price of \$0.90 per share. These warrants expire five years after the closing date, which occurred on April 4, 2011. The Securities Purchase Agreement contains certain anti-dilution protections for the investors and certain registration rights with respect to the shares of Common Stock issued to the investors. Furthermore, investors will have the right to require the Company to redeem the purchased common shares held by such investors (the "Put Option") for cash for \$0.75 per share upon a change of control or sale of substantially all of the company's assets. The Put Option will terminate upon the achievement of certain financial milestones by the Company, the sale of 25% of the common shares purchased by an investor, with respect only to the shares owned by such investor, or in certain other circumstances as outlined in the Securities Purchase Agreement.

The warrants issued in connection with the Securities Purchase Agreement contain certain exercise price reset provisions. Under these provisions, the exercise price of the warrants may be adjusted downward should the Company have future sales of its Common Stock for no consideration or for a consideration per share less than the Per Share

Price (as such term is defined in the Securities Purchase Agreement).

CHAMPIONS ONCOLOGY, INC.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

The Company has granted demand registration rights in connection with the investment in common shares and the common shares underlying the warrants. These rights include the requirement of the Company to file certain registration statements within a specified time period and to have these registration statements declared effective within a specified time period. If the Company is not able to comply with these registration requirements, the Company will be required to pay cash penalties equal to 1.0% of the aggregate Purchase Price paid by the investors for each 30-day period in which a Registration Default, as defined in the Securities Purchase Agreement, exists. The Company may become subject to these penalty provisions if it fails to have a registration statement for the common shares declared effective, or to maintain the effectiveness of such registration statement. The total amount of potential penalties under this registration payment arrangement is \$41,000 for each 30-day period in which a registration default exists; however, as of the date of this filing, the Company does not believe these penalties to be probable and accordingly, has not established an accrual for such registration payment arrangements.

The Company has accounted for the warrants issued in connection with the Securities Purchase Agreement as liabilities based on the exercise price reset provisions described above. This liability, which is recorded at fair value on the accompanying unaudited condensed consolidated balance sheets, totaled \$936,000 at the time of the close of the Securities Purchase Agreement. As of April 30, 2011, the fair value of these warrants increased \$36,000 to \$972,000. During the six months ended October 31, 2011, the fair value of these warrants decreased by \$288,000 to \$684,000. The change in fair value of these warrants has been, and will be, recognized as other income (expense) on the Company's unaudited condensed consolidated Statements of Operations. The fair value of these warrants was calculated by the Monte Carlo simulation valuation method. Assumptions used to calculate the fair value of these warrants were as follows:

	October 31, 2011		April 30, 2011	
Expected term in years	4.43		5.0	
Risk-free interest rates	0.821	%	2.0	%
Volatility	105	%	102	%
Dividend yield	0	%	0	%

The Company will continue to adjust the warrant liability for changes in fair value until the earlier of the exercise of the warrants, at which time the liability will be reclassified to stockholders' equity, or expiration of the warrants.

Due to the Put Option described above, the Company has accounted for Common Stock issued under the Securities Purchase Agreement as temporary equity, which is reflected under the caption "Redeemable common stock" on the accompanying Consolidated Balance Sheets. The total amount allocated to these common shares was \$8.2 million. This allocation is equal to the total proceeds of \$9.4 million, less the amount allocated to the warrants of \$936,000 and is also net of direct and incremental costs associated with the Securities Purchase Agreement of \$305,000.

Note 6. Related Party Transactions

Related party transactions include transactions between the Company and certain of its shareholders, management and affiliates. The following transactions were in the normal course of operations and were measured at the exchange amount, which is the amount of consideration established and agreed to by the parties.

Consulting Services

During the six months ended October 31, 2011 and 2010, the Company paid one of its directors and former Chief Executive Officer, \$18,000 and \$15,000, respectively, in consulting fees. During the six months ended October 31, 2011 and 2010, the Company paid certain members of its Board of Directors \$66,000 and \$30,000, respectively, for consulting services unrelated to their duties as board members.

Revenue

During the six months ended October 31, 2011, the Company recognized \$20,000 in revenues from companies whose board members were also members of the Company's Board of Directors. No such revenues were recognized for the six months ended October 31, 2010.

Note 7. Commitments and Contingencies

Operating Leases

As of October 31, 2011, the Company leases office and laboratory space under a non-cancelable operating lease in Baltimore, Maryland, which expires in April 2014, office space under a non-cancelable operating lease in Ra'anana, Israel, which expires in July 2012, and office space in Hackensack, New Jersey under a non-cancellable operating lease, which expires in 2014. Rent expense under all lease agreements was approximately \$39,000 and \$14,000 for the three months ended October 31, 2011 and 2010, respectively, and \$76,000 and \$27,000 for the six months ended October 31, 2011 and 2010, respectively.

Research and Development Materials Purchase Agreement

In February 2010, the Company entered into a research and development materials purchase agreement with a foreign hospital for the acquisition of Tumorgrafts. Under the agreement, the Company makes monthly payments to the foreign hospital of approximately \$37,000 for 18 months, commencing March 1, 2010. Payments outstanding under the agreement total \$147,000 at October 31, 2011.

Legal Matters

The Company is party to certain legal matters arising in the ordinary course of its business. The Company has evaluated its potential exposure to these legal matters, and has concluded that there were no reasonably possible or probable liabilities at October 31, 2011 and April 30, 2011. The Company is not aware of any other matters that would have a material impact on the Company's financial position or results of operations.

Registration Payment Arrangements

The Company has entered into registration rights agreements in connection with a private placement of its securities, which closed during April 2011 and is discussed more fully in Note 5. This registration rights agreement contains provisions that may call for the Company to pay penalties in certain circumstances. This registration payment arrangement primarily relates to the Company's ability to file a registration statement within a particular time period, have a registration statement declared effective within a particular time period and to maintain the effectiveness of the registration statement for a particular time period. The Company does not believe it is probable that penalty payments will be made for the registration rights agreement discussed above and, accordingly, has not accrued for such potential penalties as of October 31, 2011.

Note 8. Licensing Agreements

During fiscal 2011, the Company was a party to several different licensing agreements, all of which are described in more detail in the Company's Annual Report on Form 10-K for the year ended April 30, 2011. During April 2011, the Company terminated all of these licensing agreements with the exception of the Liposome Option Agreement, which is described further below. All rights related to all other licensing agreements that were terminated during April 2011 were returned to the underlying companies and no amounts were due under these other agreements as of April 30, 2011.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS – (Continued)

In February 2010, the Company entered into an exclusive option agreement with a Canadian company for which it paid and expensed \$40,000 during the Company's fiscal 2010 year. The option agreement granted the Company the exclusive right to review Irinophore C, a nanoparticle drug compound, for the treatment of various forms of cancer, including melanoma, prostate, breast and lung cancer through April 2011. During the option year, the Company performed various tumorgraft testing on the nanoparticle compound. In March 2011, the Company exercised its option to license Irinophore C, a liposomal formulation of Irinotecan. Under the terms of the agreement, the company's exercise of the option resulted in amounts due to the Canadian company of \$85,000 comprised of the option exercise price and reimbursement to the Canadian company for past patent costs. As of October 31, 2011, the Company has satisfied this obligation. Under the terms of the license agreement, the Company will be required to pay up to \$3 million in development milestones. Upon commercialization, the Company would also be required to make royalty payments and sales milestone based upon revenues. Commencing with the second anniversary of the agreement (March 2013), the Company will be obligated to pay a minimum annual royalty of \$10,000 (Canadian).

Note 9. Cephalon Agreement

On March 16, 2011, the Company entered into an agreement with Cephalon, Inc., ("Cephalon"), a wholly owned subsidiary of Teva Pharmaceutical Industries Ltd., pursuant to which the Company will conduct Tumorgraft studies on proprietary chemical compounds provided by Cephalon to determine the activity or response of a compound in potential clinical indications. In April 2011, Cephalon paid an initiation fee of \$1.4 million to the Company which is reflected within deferred revenue on the Consolidated Balance Sheet as of April 30, 2011. The Company anticipates that the studies will be completed within 12 months of the execution of the agreement. As models, along with required reports, are delivered, the deferred revenue will be recognized on a proportionate basis in accordance with the Company's revenue recognition policies. Based on the completion of models in the second quarter of fiscal year 2012, revenue of \$237,000 was recognized during the three and six months ended October 31, 2011. No milestones have been achieved to date or payments received from Cephalon. Additionally, no royalties have been received to date. Cephalon will, under certain conditions, also pay the Company various amounts upon achieving certain milestones. Potential milestone payments to be received under the Agreement total \$27 million. No milestones have been achieved to date. In addition, under certain conditions, Cephalon will pay the Company royalties on any commercialized products developed under the Agreement. No royalties have been achieved to date.

Note 10. Supplemental Cash Flow Information

There was no cash paid for interest or income taxes during the three and six months ended October 31 2011 and 2010.

Note 11. Grant Income

On October 29, 2010, the Company was notified that it was awarded total cash grants of approximately \$1.5 million under the Qualifying Therapeutic Discovery Project program administered under section 48D of the Internal Revenue Code, of which approximately \$1.0 million related to qualifying expenses the Company had previously incurred during fiscal 2010 and \$0.5 million related to qualifying expenses which the Company expected to incur during fiscal 2011. In November 2010, the Company received approximately \$1.0 million and expects to receive \$0.5 million related to the 2011 expenditures during the Company's 2012 fiscal year. To date, the \$0.5 million has not been received.

On August 8, 2011 the Company was notified that it was selected for a tax examination by the Internal Revenue Service (IRS) on the Application for Certification of Qualified Investments Eligible for Credits and Grants Under the

Qualifying Therapeutic Discovery Project program filed under the Patient Protection and Affordable Care Act of 2010 for the 2009 and 2010 tax years. The examination commenced on September 30, 2011 and as of the date of this filing was still ongoing. The IRS expanded its scope to include the fiscal year 2011 tax return, which will be filed January 15, 2012. Based on the examination to date, the Company does not believe that the results of this examination will have a material effect on its financial statements for any period under examination and that the Company has a sufficient Net Operating Loss carry forward that will offset any adjustment.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of our historical results of operations and our liquidity and capital resources should be read in conjunction with the consolidated financial statements and related notes that appear elsewhere in this report.

Forward-Looking Statements

This Quarterly Report on Form 10-Q, including Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations, contains certain "forward-looking statements," which include information relating to future events, future financial performance, strategies, expectations, competitive environment, regulation, and availability of resources. These forward-looking statements include, without limitation, statements regarding: proposed new programs; expectations that regulatory developments or other matters will not have a material adverse effect on our financial position, results of operations, or liquidity; statements concerning projections, predictions, expectations, estimates, or forecasts as to our business, financial and operational results, and future economic performance; and statements of management's goals and objectives and other similar expressions concerning matters that are not historical facts. Words such as "may," "should," "could," "would," "predicts," "potential," "continue," "expects," "anticipates," "intends," "plans," "believes," "estimates" and similar expressions, as well as statements in future tense, identify forward-looking statements.

Forward-looking statements should not be read as a guarantee of future performance or results, and will not necessarily be accurate indications of the times at, or by, which such performance or results will be achieved. Forward-looking statements are based on information available at the time those statements are made or management's good faith belief as of that time with respect to future events, and are subject to risks and uncertainties that could cause actual performance or results to differ materially from those expressed in or suggested by the forward-looking statements.

Forward-looking statements speak only as of the date the statements are made. Factors that could cause actual results to differ from those discussed in the forward-looking statements include, but are not limited to, those described in "Risk Factors" in Part I, Item 1A of our Annual Report on Form 10-K for the fiscal year ended April 30, 2011, as updated in our subsequent reports filed with the SEC, including any updates found in Part II, Item 1A of this or other reports on Form 10-Q. You should not put undue reliance on any forward-looking statements. We assume no obligation to update forward-looking statements to reflect actual results, changes in assumptions, or changes in other factors affecting forward-looking information, except to the extent required by applicable securities laws. If we do update one or more forward-looking statements, no inference should be drawn that we will make additional updates with respect to those or other forward-looking statements.

Overview and Recent Developments

Champions Oncology, Inc. (the "Company"), is a company that is engaged in the development of advanced technology solutions and services to personalize the development and use of oncology drugs. The Company's Tumorgraft Technology Platform is a novel approach to personalizing cancer care based upon the implantation of human tumors in immune deficient mice. The Company uses this technology to derive revenue for two customer groups: Personalized Oncology Solutions ("POS"), and Translational Oncology Solutions ("TOS"). POS assist physicians in developing personalized treatment options for their cancer patients through access to panels of expert medical professionals and tumor specific data. The Company's TOS offer a technology platform to pharmaceutical and biotechnology companies using proprietary Tumorgraft studies, which have been shown to be predictive of how drugs may perform in clinical settings.

As explained in Item 1, “Business” of our Form 10-K for the year ended April 30, 2011, our operations have recently been refocused to emphasize our POS and TOS lines of business. We also plan to continue our research and development efforts to expand our Tumorgraft Technology Platform in order to expand our TOS program.

Operating Revenues

Operating revenues were \$1.7 million and \$0.9 million for the three months ended October 31, 2011 and 2010, respectively, and \$3.4 million and \$2.5 million for the six months ended October 31, 2011 and 2010, respectively.

POS revenues were \$0.6 million and \$0.3 million for the three months ended October 31, 2011 and 2010, respectively, an increase of \$0.3 million, or 100%. POS revenues were \$1.2 million and \$1.4 million for the six months ended October 31, 2011 and 2010, respectively, a decrease of \$0.2 million, or 14%. The increase in revenues for the three month period was primarily due to increased revenue across all service lines. The year to date decrease can be attributed to the Company's strategic decision to reengineer its products to facilitate lower price points which are expected to result in higher volumes. The Company experienced significantly higher volumes compared to the prior year, but they were not sufficient to overcome the impact of price decreases.

TOS revenues were \$1.2 million and \$0.6 million for the three months ended October 31, 2011 and 2010, respectively, an increase of \$0.6 million or 100%. TOS revenues were \$2.2 million and \$1.1 million for the six months ended October 31, 2011 and 2010, respectively, an increase of \$1.1 million or 100%. These increases in TOS revenues were due primarily to increased sales efforts and investments in our Tumorbank.

Cost of POS

Cost of POS was \$0.5 million and \$0.2 million for the three months ended October 31, 2011 and 2010, respectively, an increase of \$0.3 million, or 150%. Cost of POS was \$0.9 million and \$0.5 million for the six months ended October 31, 2011 and 2010, respectively, an increase of \$0.4 million, or 80%. Gross margin for POS was 21.9 % and 43.1% for the three months ended October 31, 2011 and 2010, respectively, and 20.5% and 65.0% for the six months ended October 31, 2011 and 2010, respectively. The Company's strategic decision to lower price points across service lines in the current year contributed to these decreases.

Cost of TOS

Cost of TOS was \$0.6 and \$0.4 million for the three months ended October 31, 2011 and 2010, respectively, an increase of \$0.2 million, or 50%. Cost of TOS was \$1.1 million and \$0.7 million for the six months ended October 31, 2011 and 2010, respectively, an increase of \$0.4 million, or 57%. The increase in costs was due to the increased volume of TOS business. Gross margin for TOS was 46.1 % and 38.8% for the three months ended October 31, 2011 and 2010, respectively, and 49.5% and 37.4% for the six months ended October 31, 2011 and 2010, respectively. The increase in gross margin can be attributed to better cost management.

Research and Development

Research and development expense was \$1.0 million and \$0.7 million for the three months ended October 31, 2011 and 2010, respectively, an increase of \$0.3 million, or 43%. Research and development expense was \$1.6 million and \$1.5 million for the six months ended October 31, 2011 and 2010, respectively, an increase of \$0.1 million, or 7%. The increases from prior year periods were primarily related to our continued investment in growing our Tumorbank.

Sales and Marketing

Sales and marketing expense was \$0.7 million and \$0.1 million for the three months ended October 31, 2011 and 2010, respectively, an increase of \$0.6 million. Sales and marketing expense was \$1.3 million and \$0.1 million for the six months ended October 31, 2011 and 2010, respectively, an increase of \$1.2 million. The increases from prior year periods are primarily related to an increase in our sales force, commission costs, recruitment fees, website redesign, as well as the addition of marketing personnel.

General and Administrative

General and administrative expense was \$1.5 million and \$0.6 million for the three months ended October 31, 2011 and 2010, respectively, an increase of \$0.9 million. General and administrative expense was \$3.1 million and \$1.3 million for the six months ended October 31, 2011 and 2010, respectively, an increase of \$1.8 million. These increases are primarily related to an increase in stock-based compensation, additional personnel costs and costs associated with the Company's growth strategy.

Other Income (Expense)

Other income was \$120,000 and \$961,000 for the three months ended October 31, 2011 and 2010, respectively, a decrease of \$841,000. Other income was \$298,000 and \$965,000 for the six months ended October 31, 2011 and 2010, respectively, a decrease of \$676,000. During the three and six months ended October 31, 2011, the Company recognized income of \$110,000 and \$288,000, respectively, for the change in fair value of warrants that are accounted for as liabilities on the unaudited condensed consolidated balance sheets and are described further below and in Note 5 to the accompanying unaudited condensed consolidated financial statements. In the prior year, other income primarily consisted of cash grants awarded to the Company under the Qualifying Therapeutic Discovery Project program administered under section 48D of the Internal Revenue Code for which the Company received approximately \$960,000 in the second quarter of fiscal year 2011 for qualifying expenses that it incurred.

Liquidity and Capital Resources

Our liquidity needs have typically arisen from the funding of our research and development programs and the launch of new products, working capital requirements and other strategic initiatives. In the past, we have met these cash requirements through our cash and cash equivalents, working capital management and proceeds from certain private placements of our securities. As of October 31, 2011, we had working capital of \$5.4 million and cash and cash equivalents of \$7.1 million. We believe that our cash and cash equivalents on hand at October 31, 2011 are adequate to fund operations for at least the next twelve months.

On March 24, 2011, the Company entered into a Securities Purchase Agreement with several accredited investors for the sale to the investors of an aggregate 12,533,333 shares of the Company's common stock at a purchase price of \$0.75 per share, or an aggregate of \$9.4 million, of which, \$500,000 was sold to officers and directors of the Company. As part of this transaction, we issued warrants to purchase an aggregate 1,266,667 shares of common stock at an exercise price of \$0.90 per share. These warrants expire five years after the closing date, which occurred on April 4, 2011. The Securities Purchase Agreement contains certain anti-dilution protections for the investors and certain registration rights with respect to the shares of common stock issued to the investors. Furthermore, investors will have the right to require the Company to repurchase the purchased common shares held (the "Put Option") for cash for \$0.75 per share upon a change of control or sale of substantially all of the company's assets. The Put Option will terminate upon the achievement of certain financial milestones by the Company, the sale of 25% of the common shares purchased by an investor, with respect only to the shares owned by such investor, or in certain other circumstances as outlined in the Securities Purchase Agreement.

The warrants issued in connection with the Securities Purchase Agreement contain certain exercise price reset provisions. Under these provisions, the exercise price of the warrants may be adjusted downward should the Company have future sales of its common stock for no consideration or for a consideration per share less than the Per Share Price (as such term is defined in the Securities Purchase Agreement).

If we require additional cash, there can be no assurance that management will be successful in raising additional capital on terms acceptable to us, if at all. Our ability to successfully complete a raise of capital will depend on the conditions of the capital markets and our financial condition and prospects. Even if we are able to successfully raise additional capital, such capital could be in the form of debt and could be at high interest rates and/or require us to comply with restrictive covenants that limit financial and business activities. In addition, even if we are able to successfully raise equity capital, this could dilute the interest of existing shareholders and/or be issued with preferential liquidation, dividend or voting rights to those currently held by our common stockholders.

Cash Flows

The following discussion relates to the major components of our cash flows:

Cash Flows from Operating Activities

Net cash used in operating activities was \$3.3 million and \$1.2 million for the six months ended October 31, 2011 and 2010, respectively. The increase of \$2.1 million of cash used in operating activities was primarily due to higher working capital requirements.

Cash Flows from Investing Activities

Net cash used in investing activities was \$160,000 and \$25,000 for the six months ended October 31, 2011 and 2010, respectively. Cash used for the six months ended October 31, 2011 and 2010 relates to the purchase of property and

equipment for both the operations of the Company and the establishment of our new corporate headquarters in Hackensack, New Jersey.

Cash Flows from Financing Activities

Net cash provided by financing activities was \$98,000 for the six months ended October 31, 2011, which relates to the exercise of 495,352 warrants. Net cash used in financing activities was \$73,000 for the six months ended October 31, 2010, which relates to the purchase of treasury stock.

Critical Accounting Estimates and Policies

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to apply methodologies and make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Significant estimates of the Company include, among other things, accounts receivable realization, valuation allowances for deferred tax assets, valuation of goodwill, and stock compensation assumptions. Actual results could differ from those estimates. The Company's critical accounting policies are summarized in the Company's Annual Report on Form 10-K, filed with the SEC on July 15, 2011.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

It is management's responsibility to establish and maintain "disclosure controls and procedures" as such term is defined in Rule 13a-15 under the Securities Exchange Act of 1934 (the "Exchange Act"). Our management, with the participation of our Chief Executive Officer and our Chief Financial Officer, have reviewed and evaluated the effectiveness of our disclosure controls and procedures as of a date within ninety (90) days of the filing date of this Form 10-Q quarterly report. Based on that evaluation, our management, including our Chief Executive Officer and our Chief Financial Officer, have concluded that our disclosure controls and procedures were effective as of the end of the period covered by this Form 10-Q at the reasonable assurance level in ensuring that information required to be disclosed in the reports that we file or submit under the Securities Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and is accumulated and communicated to management, including our Chief Executive Officer and our Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There were no changes in our internal control over financial reporting in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this Quarterly Report on Form 10-Q that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

From time to time we are involved in litigation incidental to the conduct of our business. While the outcome of lawsuits and other proceedings against us cannot be predicted with certainty, in the opinion of management, individually or in the aggregate, no such lawsuits are expected to have a material effect on our financial position or results of operations. As of the date of this filing, we were not involved in any litigation.

Item 1A. Risk Factors

There have been no material changes in risk factors previously disclosed in our Form 10-K for the year ended April 30, 2011.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

On October 16, 2006, in an issuance exempt from registration pursuant to Section 4(2) of the Exchange Act, the Company issued 500,000 warrants to purchase common stock at an exercise price at \$0.15 per share and 500,000 warrants to purchase common stock at \$0.25 per share.

During the six months ended October 31, 2011, 259,585 of these warrants were exercised at \$0.15 per share and 235,767 warrants were exercised at \$0.25 per share, providing aggregate exercise proceeds of approximately \$98,000.
