FEMSA Closes 2011 with Double-Digit Revenue and

Operating Income Growth Across Operations

Monterrey, Mexico, February 27, 2012 — Fomento Económico Mexicano, S.A.B. de C.V. (“FEMSA”) announced today its operational and financial results for the fourth quarter and full year 2011.

Fourth Quarter 2011 Highlights:

FEMSA consolidated total revenues and income from operations grew 24.5% and 24.9%, respectively, compared to the fourth quarter of 2010.

Coca-Cola FEMSA income from operations increased 27.9% driven by double-digit operating income growth in the South America and Mexico & Central America divisions, including the integration of Grupo Tampico and CIMSA in Mexico.

FEMSA Comercio achieved total revenues growth of 16.9% and income from operations growth of 15.7% driven by new store openings and 8.0% growth in same-store sales.

2011 Full Year Highlights:

FEMSA consolidated total revenues and income from operations grew 19.6% and 19.4%, respectively, compared to 2010 driven by Coca-Cola FEMSA and FEMSA Comercio.

Coca-Cola FEMSA income from operations increased 18.0%. Strong growth in the South America division was the main driver, combined the integration of Grupo Tampico and CIMSA in Mexico.

FEMSA Comercio continued its pace of strong floor space growth by opening 1,135 net new stores in 2011. Income from operations increased 20.7%.

Ordinary dividend of Ps. 6.200 billion proposed by FEMSA's Board of Directors, to be paid in 2012 subject to approval at the annual shareholders meeting in March 2012, representing an increase of 34.8% over the prior year and 138.5% over the dividend paid in 2010.

February 27, 2012 Page 1

José Antonio Fernández Carbajal, Chairman and CEO of FEMSA, commented: “2011 was a strong year for our company. Despite a volatile economic environment, demand for our products remained healthy, and we stayed the course and managed to convert that demand into robust financial results by focusing our time, efforts and resources on the extraordinary opportunities for Coca-Cola FEMSA and OXXO.

For Coca-Cola FEMSA, this was a historic year. We leveraged our financial and operating flexibility to firmly advance on our strategy to grow through accretive mergers and acquisitions—from our incursion into the dairy category through our joint acquisition of Grupo Industrias Lacteas in Panama to our mergers with the beverage divisions of Grupo Tampico, Grupo CIMSA, and Grupo Fomento Queretano in Mexico. And at FEMSA Comercio, our robust top-line growth in 2011 was driven by our continuing store expansion and our comparable same-store sales growth of 9.2 percent, ahead of trend and reinforcing our position as an industry benchmark. Our progress in mapping and understanding consumers’ needs and adjusting our value proposition to better fulfill those needs significantly contributed to our same store sales growth. We also made great strides in our sustainability efforts, from launching joint watershed-conservation initiatives with the Inter-American Development Bank, the Global Environment Facility and the Nature Conservancy, to making significant progress in our renewable energy projects, particularly wind power, to ensuring that every one of our managers now incorporates sustainability objectives in their annual performance metrics.

And so we look at 2012 with optimism and renewed energy, ready to keep moving our company forward by pursuing and overcoming new challenges.”

FEMSA Consolidated

On April 30, 2010, FEMSA announced the closing of the strategic transaction pursuant to which FEMSA agreed to exchange 100% of its beer operations for a 20% economic interest in the Heineken Group (“the transaction”). For more information regarding this acquisition, please refer to the transaction filings available at www.femsa.com/investor. FEMSA’s consolidated results for the fourth quarter and for the full year of 2011 reflect the transaction effects.

Total revenues increased 24.5% compared to 4Q10 to Ps. 56.834 billion. Coca-Cola FEMSA accounted for the majority of the incremental consolidated revenues.

For the full year of 2011, consolidated total revenues increased 19.6% to Ps. 203.044 billion. This growth resulted mainly from double-digit growth at Coca-Cola FEMSA and FEMSA Comercio.

Gross profit increased 25.8% compared to 4Q10 to Ps. 24.478 billion in 4Q11. Gross margin increased 50 basis points compared to the same period in 2010 to 43.1% of total revenues.

For the full year of 2011, gross profit increased 19.8% to Ps. 85.035 billion. Gross margin increased 10 basis points compared to the same period in 2010 to 41.9% of total revenues.

Income from operations increased 24.9% to Ps. 8.884 billion in 4Q11 as compared to the same period in 2010. Consolidated operating margin remained at 15.6% of total revenues, compared to 4Q10.

For the full year of 2011, income from operations increased 19.4% to Ps. 26.904 billion. Our consolidated operating margin in 2011 remained at 13.3% as a percentage of total revenues compared to the same period of 2010.

Net income from continuing operations increased 9.3% to Ps. 7.111 billion in 4Q11 compared to 4Q10, including the fact that this line incorporates FEMSA's implied 20% participation in Heineken's fourth quarter 2011 net income. The figure reflects growth in income from operations and the variation in FEMSA's 20% participation in Heineken's net income which more than compensated the effect of non-recurring items. These include the tough comparison base caused by the income from the sale of our flexible packaging business in 4Q10, as well as write offs of certain non-productive assets at Coca-Cola FEMSA during 4Q11. The effective income tax rate on continuing operations was 25.6% in 4Q11.

For the full year of 2011, net income from continuing operations increased 15.2% to Ps. 20.684 billion compared to the same period of 2010, mainly due to the growth in income from operations which more than compensated for an increase in the other expenses line largely driven by the net effect of non-recurring items. These include the tough comparison base caused by income from the sale of our flexible packaging business and the sale of the *Mundet* brand to The Coca-Cola Company during 2010. The full-year effective income tax rate on continuing operations was 27.1%.

Net consolidated income increased 9.3% compared to 4Q10 to Ps. 7.111 billion in 4Q11, reflecting the increase in FEMSA's net income from continuing operations. **Net majority income** for 4Q11 resulted in Ps. 1.50 per FEMSA Unit¹. Net majority income per FEMSA ADS was US\$ 1.08 for the quarter. For the full year of 2011, net majority income per FEMSA Unit¹ was Ps. 4.23 (US\$ 3.03 per ADS).

Capital expenditures increased to Ps. 5.239 billion in 4Q11, driven by back-end loaded capacity-related investments at Coca-Cola FEMSA and incremental investments at FEMSA Comercio mainly related to store expansion. For the full year of 2011, capital expenditures increased to Ps. 12.515 billion, for the reasons described above.

Our **consolidated balance sheet** as of December 31, 2011, recorded a cash balance of Ps. 27.658 billion (US\$ 1.983 billion), an increase of Ps. 0.495 billion (US\$ 35.5 million) compared to the same period in 2010. Short-term debt was Ps. 5.573 billion (US\$ 399.5 million), while long-term debt was Ps. 23.194 billion (US\$ 1.663 billion). Our consolidated net debt balance was Ps. 1.109 billion (US\$ 79.5 million).

FEMSA Comercio

Total revenues increased 16.9% compared to 4Q10 to Ps. 19.619 billion in 4Q11 mainly driven by the opening of 413 net new stores in the quarter, reaching 1,135 total net new store openings for the year. As of December 31, 2011, FEMSA Comercio had a total of 9,561 convenience stores, above target relative to the objective for 2011. Same-store sales increased an average of 8.0% for the quarter over 4Q10, reflecting a 4.1% increase in store traffic and a 3.8% increase in average customer ticket.

For the full year of 2011, total revenues increased 19.0% to Ps. 74.112 billion. FEMSA Comercio's same-store sales increased an average of 9.2%, driven by a 4.6% increase in store traffic and a 4.3% increase in average customer ticket.

Gross profit increased by 19.2% in 4Q11 compared to 4Q10, resulting in a 70 basis point gross margin expansion to 37.4% of total revenues. This increase reflects (i) a positive mix shift due to the growth of higher margin categories, (ii) a more effective collaboration and execution with our key supplier partners combined with a more efficient use of promotion-related marketing resources. For the full year of 2011, gross margin expanded by 60 basis points to 34.4% of total revenues.

Income from operations increased 15.7% over 4Q10 to Ps. 2.289 billion in 4Q11. Operating expenses increased 20.8% to Ps. 5.049 billion, largely driven by the growing number of stores as well as by incremental expenses such as the strengthening of FEMSA Comercio's organizational structure, mainly IT-related and targeted marketing programs. Operating expense growth above gross profit growth resulted in a 10 basis point contraction of operating margins to 11.7% of total revenues in 4Q11.

For the full year of 2011, income from operations increased 20.7% to Ps. 6.276 billion, resulting in an operating margin of 8.5%, which represents a 10 basis point expansion from the prior year.

FEMSA Units consist of FEMSA BD Units and FEMSA B Units. Each FEMSA BD Unit is comprised of one Series B Share, two Series D-B Shares and two Series D-L Shares. Each FEMSA B Unit is comprised of five Series B Shares. The number of FEMSA Units outstanding as of December 31, 2011 was 3,578,226,270 equivalent to the total number of FEMSA Shares outstanding as of the same date, divided by 5.

Recent Developments

In accordance with Mexican regulations, FEMSA is adopting International Financial Reporting Standards (IFRS) beginning January 1, 2012. The Company will release its quarterly and full year results for 2011 under IFRS prior to the release of its 1st quarter 2012 results.

Financing has been secured from a consortium of banks to build the largest wind power farm in Latin America, to be located in the state of Oaxaca, which will provide FEMSA's operating subsidiaries as well as Heineken's operations in Mexico with almost 400 megawatts of clean, renewable energy for the next 20 years. FEMSA and Macquarie Capital participated during the development phase of the project as short-term investors in order to enable the project to move forward, and have now sold their ownership stakes to Mitsubishi Corporation, with ample experience in energy-generation projects, and PPGM, a Netherlands-based pension fund service provider. Macquarie Mexico Infrastructure Fund also participated during the development phase and remains as a long-term investor. Going forward FEMSA's role will be solely as energy off-taker. This news underscores FEMSA's long-term objective to derive as much as 85% of its electrical energy needs from clean, renewable sources, while representing an economically attractive solution.

Mexico City (February 27, 2012), Coca-Cola FEMSA, S.A.B. de C.V. (BMV: KOFL, NYSE: KOF) (“Coca-Cola FEMSA” or the “Company”), the largest public Coca-Cola bottler in the world, announces results for the fourth quarter of 2011.

“Despite a challenging commodity cost environment, our operators produced strong results for the quarter. Both of our divisions achieved double-digit top- and bottom-line growth. Thanks to our complementary cultures, operating

processes, and best practices, our talented team of professionals successfully worked with their new colleagues to integrate the beverage divisions of Grupo Tampico and Grupo CIMSA quickly and efficiently into our contiguous Mexican operations during the quarter. We also announced our merger agreement with the beverage division of Grupo Fomento Queretano--our third such agreement in less than six months. These mergers confirm that our company represents an attractive, transparent, and diversified investment vehicle with proven management capabilities for family owned enterprises within the beverage industry. As we enter the year 2012, together, we will leverage our mutual strengths to continue creating the flexibility to transform challenges into opportunities to deliver increased value for our shareholders now and into the future," said Carlos Salazar Lomelin, Chief Executive Officer of the Company.

CONSOLIDATED RESULTS

Our consolidated total revenues increased 29.3% to Ps. 36,187 million in the fourth quarter of 2011, compared to the fourth quarter of 2010 as a result of double-digit total revenue growth in each division and the integration of Grupo Tampico and Grupo CIMSA in our Mexican operations⁽¹⁾. Excluding the integration of Grupo Tampico and Grupo CIMSA in Mexico, total revenues grew approximately 24%. On a currency neutral basis and excluding the recently merged territories in Mexico, total revenues grew approximately 18%, driven by average price per unit case growth in every operation, in combination with volume growth mainly in Mexico, Argentina, Colombia and Brazil.

Total sales volume increased 11.0% to reach 732.3 million unit cases in the fourth quarter of 2011 as compared to the same period in 2010. Excluding the integration of Grupo Tampico and Grupo CIMSA in Mexico, volumes grew 3.6% to 683.4 million unit cases. Organically, the sparkling beverage category grew 4% mainly supported by strong volume growth of the *Coca-Cola* brand in Mexico, Argentina and Colombia, contributing almost 85% of incremental volumes. The still beverage category grew 11%, mainly driven by the Jugos del Valle line of business in Venezuela, Mexico and Brazil and the *Hi-C* orangeade and *Cepita* juice brand in Argentina, accounting for approximately 15% of incremental volumes. Our bottled water portfolio, including bulk water, grew 1%, representing the balance.

Our gross profit increased 27.1% to Ps. 16,491 million in the fourth quarter of 2011, compared to the fourth quarter of 2010. Cost of goods sold increased 31.2%, mainly as a result of higher PET and sweetener costs across our territories, in combination with the depreciation of the average exchange rate of the Mexican peso,⁽²⁾ the Argentine peso,⁽²⁾ the Brazilian real,⁽²⁾ and the Colombian peso⁽²⁾ as applied to our U.S. dollar-denominated raw material costs. Gross margin reached 45.6%, as compared to 46.4% in the fourth quarter of 2010.

Our consolidated operating income increased 27.9% to Ps. 6,497 million in the fourth quarter of 2011, driven by double-digit operating income growth in our South America and our Mexico & Central America division, including the integration of Grupo Tampico and Grupo CIMSA in Mexico. Operating expenses increased 26.6% in the fourth quarter of 2011 mainly as a result of (i) higher labor costs in Venezuela and higher labor and freight costs in Argentina, (ii) the integration of the newly merged territories in Mexico and (iii) increased marketing investment to reinforce our execution in the marketplace, widen our cooler coverage and broaden our returnable base availability. Our operating margin remained flat reaching 18.0% in the fourth quarter of 2011, as compared with 18.1% in the same period of 2010.

During the fourth quarter of 2011, we recorded Ps. 1,142 million in the other expenses, net line. These expenses mainly reflect the write-off of certain non-productive assets, the recording of employee profit sharing and the loss on

sale of fixed assets.

Our comprehensive financing result in the fourth quarter of 2011 recorded an expense of Ps. 235 million as compared to an expense of Ps. 147 million in the same period of 2010. This difference was mainly driven by a foreign exchange loss originated by the sequential devaluation of the Mexican peso as applied to a higher dollar denominated net debt position.

During the fourth quarter of 2011, income tax, as a percentage of income before taxes, was 34.9% compared to 29.7% in the same period of 2010. This difference was mainly driven by an increase in the tax on shareholder's equity in one of our subsidiaries in the South America division.

Our consolidated net controlling interest income grew 6.1% reaching Ps. 3,207 million in the fourth quarter of 2011 as compared to the fourth quarter of 2010. Earnings per share (EPS) in the fourth quarter of 2011 were Ps. 1.67 (Ps. 16.69 per ADS) computed on the basis of 1,921.2 million shares⁽³⁾ (each ADS represents 10 local shares).
