Exhibit 99.1

ITEM 7.01 REGULATION FD DISCLOSURE

On September 27, 2012, Petrosonic Energy, Inc. (the “Company”) issued a press release announcing that it has signed a cooperation agreement with a leading private Emulsion Technology Company for the Upstream and Downstream Oil Industry that has an exclusive license in a heavy crude and asphaltene emulsification patented technology. According to the agreement the private company has committed to set up a 120 bbl/hour heavy crude and asphaltene emulsification plant in Petrosonic’s Heavy Oil Processing Plant located in Albania. This will create technology and marketing synergy for both groups and allow Petrosonic to convert the de-asphalted oil and asphaltenes into readily marketable emulsified fuel oil and high-end asphalt and capture further value for its products.

A copy of the press release is attached hereto as Exhibit 99.1.
