CALCULATION OF REGISTRATION FEE

Title of Each Class Of Securities to be Registered	Amount to be Registered (1)	Proposed Maximum Aggregate Offering Price per share (2)	Proposed Maximum Aggregate Offering Price	Amount of Registration fee
Common Stock, \$0.00001 par value per share	24,208,000	\$ 0.01	\$ 242,080	\$ 28.11

- (1) This Registration Statement covers the resale by our selling shareholders of up to 24,208,000 shares of common stock previously issued to such selling shareholders.

The offering price has been estimated solely for the purpose of computing the amount of the registration fee in accordance with Rule 457(o). Our common stock is not traded on any national exchange and in accordance with Rule 457; the offering price was determined by the price of the shares that were sold to our shareholders in a private placement memorandum. The price of \$0.01 is a fixed price at which the selling security holders may sell (2) their shares until our common stock is quoted on the Over-the-Counter Bulletin Board (the "OTCBB"), at which time the shares may be sold at prevailing market prices or privately negotiated prices. There can be no assurance that a market maker will agree to file the necessary documents with the Financial Industry Regulatory Authority, which operates the OTCBB, nor can there be any assurance that such an application for quotation will be approved.

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OR UNTIL THE REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SUCH SECTION 8(a), MAY DETERMINE.

EXPLANATORY NOTE

On September 16, 2011, the U.S. Securities and Exchange Commission declared effective the registration statement on Form S-1 (the “Registration Statement”) filed by Mascot Properties, Inc. (the “Company”). The Company is filing this post-effective amendment to the Registration Statement for the purpose of updating its financial and other disclosures.

The information in this preliminary prospectus is not complete and may be changed. These securities may not be sold until the registration statement filed with the U.S. Securities and Exchange Commission (“SEC”) is effective. This preliminary prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

PRELIMINARY PROSPECTUS

Subject to completion, dated December 17, 2012

MASCOT PROPERTIES, INC.

24,208,000 SHARES OF COMMON STOCK

The selling security holders named in this prospectus are offering all of the shares of common stock offered through this prospectus. We will not receive any proceeds from the sale of the common stock covered by this prospectus.

Our common stock is presently not traded on any market or securities exchange. The selling security holders have not engaged any underwriter in connection with the sale of their shares of common stock. Common stock being registered in this registration statement may be sold by selling security holders at a fixed price of \$0.01 per share until our common stock is quoted on the OTCBB and thereafter at a prevailing market prices or privately negotiated prices or in transactions that are not in the public market. There can be no assurance that a market maker will agree to file the necessary documents with the Financial Industry Regulatory Authority (“FINRA”), nor can there be any assurance that such an application for quotation will be approved. We have agreed to bear the expenses relating to the registration of the shares of the selling security holders.

The Company has no present plans to be acquired or to merge with another company nor does the Company, nor any of its shareholders, have plans to enter into a change of control or similar transaction.

If our common stock becomes tradable in the secondary market, we will be subject to the penny stock rules adopted by the SEC that require brokers to provide extensive disclosure to their customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our shareholders to sell their securities.

Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The broker-dealer must also make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security that becomes subject to the penny stock rules. The additional burdens imposed upon broker-dealers by such requirements may discourage broker-dealers from effecting transactions in our securities, which could severely limit the market price and liquidity of our securities. These requirements may restrict the ability of broker-dealers to sell our common stock and may affect your ability to resell our common stock.

Investing in our common stock involves a high degree of risk. See "Risk Factors" beginning on page 8 to read about factors you should consider before purchasing any of the shares offered by this prospectus.

We may amend or supplement this prospectus from time to time by filing amendments or supplements as required. You should read the entire prospectus and any amendments or supplements carefully before you make your investment decision.

PROSPECTUS SUMMARY

This summary highlights selected information contained elsewhere in this prospectus. This summary does not contain all the information that you should consider before investing in the Company's securities. You should carefully read the entire prospectus, including "Risk Factors", "Management's Discussion and Analysis of Financial Condition and Results of Operations" and the Financial Statements, before making an investment decision. In this Prospectus, the terms "Mascot Properties," "Company," "we," "us" and "our" refer to Mascot Properties, Inc.

Overview

Mascot Properties, Inc. (the "Company") was incorporated in the State of Nevada on July 22, 2009. Our principal business is the management of real estate properties, primarily related to student housing and services which include general property management and maintenance and activities coordination for residents. We are seeking to manage properties that are near universities that suffer from a lack of on-campus housing and growing enrollment. Our operations will include managing income producing residential real estate properties near fast growing universities that are incapable of accommodating all of their current and future students as enrollment continues to grow. We do not currently manage any properties, but we are currently seeking properties to manage.

Our management is experienced in the real estate industry and has been involved in real estate development projects for over 10 years, including roles as developer and manager for multifamily developments, condos, and apartment buildings. Management will be charged with reviewing and recommending suitable projects for the Company consistent with its policies and objectives to maximize the return on properties it manages. We intend to manage properties and lease them to students at universities around the country. We will operate the properties as the property manager, which includes, but is not limited to, collecting rent, advertising, showing and leasing units in the buildings, coordinating with service professionals for maintenance and repairs, arranging promotional events for marketing, and creating activities for the residents. Management's goal is to work toward improving the properties' cash flow through proper marketing. We will find experienced property managers and make our properties "student friendly" with facility events, common areas for entertainment, activities and recreational facilities. The Company has not identified any specific properties to manage, but, we are currently targeting properties with occupancy rates in excess of 96%.

We seek opportunities to manage real estate properties where we believe we can achieve higher cash flows and capital appreciation for the owners as a result of our property management efforts and relations with universities' student residential housing offices. Our initial focus is on the southeastern and southwestern regions of the United States, particularly where we perceive there to be the potential to manage properties near fast growing universities whose enrollments exceed their capacity for on-campus housing. We believe we can enhance the value of these properties through the execution of our business strategy which entails establishing a relationship with the local college or university, hiring a strong local property manager, aggressive marketing of the property, and adding amenities and security to the facility to cater to student's needs. We intend to provide leases and services that cater to students and

will have professional on-site management and maintenance available. However, we will not limit our services to any particular individual geographic markets or submarkets. Moreover, we will not restrict our services to certain locations in markets or submarkets, as we may find value-adding opportunities in large metropolitan areas, suburban submarkets, smaller cities or rural locations, near both public and private universities.

We plan to engage our own employees and third-party management companies as agents for on-site management of our future properties, depending on the geographic location. Generally such agreements will provide for a management fee between 2% and 5% of the gross monthly receipts of each property and are for a term of one year, but can be terminated by either party upon thirty days written notice. We currently have not entered into any discussions or contracts with any potential employees or third parties for on-site management of our planned properties. These properties typically require a greater level of management and oversight than traditional multi-family projects, which involves a manager with a focus on student housing. Typically, students often keep different hours and lead a different lifestyle than the general population or family oriented properties. Thus, these properties require managers that are hands-on and sensitive to student needs and lifestyle.

We are a development stage company, and to date, our development efforts have been focused primarily on the development and marketing of our business model. We have limited operating history for investors to evaluate the potential of our business development. Due to the significant downturn in the real estate market and our lack of operating history we may be unable to secure properties for our management services. Additionally, because of the large downturn in the economy and an oversupply in the number of vacant properties we may be unable to manage properties with the possibility of positive earnings. If we are not effective in addressing these risks, we may not operate profitably and we may not have adequate working capital to meet our obligations as they become due. We anticipate that we will need an additional \$49,000 in funding over the next twelve months. The majority shareholder, David Dreslin, owns 77% of the Company and is the Company's president and primary employee. Mr. Dreslin has committed to cover any cash shortfalls of the Company with regards to the aforementioned expenses. However, to the extent the Company requires additional funds to carry out its business plan we may seek to raise additional capital. Please see "Liquidity and Capital Resources".

We currently have no revenues and have sustained net losses of \$110,817 for the period from inception through June 30, 2012. We cannot give any assurances that we will experience any positive revenues for the foreseeable future.

In their audit report dated September 7, 2012, our auditors have expressed an opinion that substantial doubt exists as to whether we can continue as an ongoing business. As of June 30, 2012, the Company had an accumulated deficit of \$110,817 and has not yet generated any operating revenues. Our inability to generate revenues could eventually inhibit our ability to continue in business or achieve our business objectives. Therefore any purchaser of our shares may be investing in a company that will not have the funds necessary to develop its business strategies. In addition, because of this "going concern" opinion it may be more difficult to attract investors.

If our common stock becomes tradable in the secondary market, we will be subject to the penny stock rules adopted by the SEC that require brokers to provide extensive disclosure to their customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our shareholders to sell their securities.

Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The broker-dealer must also make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security that becomes subject to the penny stock rules. The additional burdens imposed upon broker-dealers by such requirements may discourage broker-dealers from effecting transactions in our securities, which could severely limit the market price and liquidity of our securities. These requirements may restrict the ability of broker-dealers to sell

our common stock and may affect your ability to resell our common stock.

RISK FACTORS

The shares of our common stock being offered for resale by the selling security holders are highly speculative in nature, involve a high degree of risk and should be purchased only by persons who can afford to lose the entire amount invested in the common stock. Before purchasing any of the shares of common stock, you should carefully consider the following factors relating to our business and prospects. If any of the following risks actually occurs, our business, financial condition or operating results could be materially adversely affected. In such case, you may lose all or part of your investment. You should carefully consider the risks described below and the other information in this process before investing in our common stock.

Risks Related to Our Company

OUR AUDITOR HAS EXPRESSED SUBSTANTIAL DOUBT AS TO OUR ABILITY TO CONTINUE AS A GOING CONCERN.

Based on our financial history since inception, our auditor has expressed substantial doubt as to our ability to continue as a going concern. We are a development stage company that has never generated any revenue. If we cannot obtain sufficient funding, we may have to delay the implementation of our business strategy.

WE HAVE LIMITED OPERATING HISTORY AND FACE RISKS AND DIFFICULTIES FREQUENTLY ENCOUNTERED BY A DEVELOPMENT STAGE COMPANY.

We are a development stage company, and to date, our development efforts have been focused primarily on the development and marketing of our business model. We have limited operating history for investors to evaluate the potential of our business development. Due to the significant downturn in the real estate market and our lack of operating history we may be unable to secure properties for our management services. Additionally, because of the large downturn in the economy and an oversupply in the number of vacant properties we may be unable to manage properties with the possibility of positive earnings. If we are not effective in addressing these risks, we may not operate profitably and we may not have adequate working capital to meet our obligations as they become due.

WE NEED ADDITIONAL CAPITAL TO DEVELOP OUR BUSINESS.

The development of our services will require the commitment of substantial resources to implement our business plan. In addition, substantial expenditures will be required to enable us to manage properties in the future. Currently, we have no established bank-financing arrangements. Therefore, it is likely we would need to seek additional financing through subsequent future private offerings of our equity securities, or through strategic partnerships and other arrangements with corporate partners.

We cannot give you any assurance that any additional financing will be available to us, or if available, will be on terms favorable to us. The sale of additional equity securities will result in dilution to our stockholders. The occurrence of indebtedness would result in increased debt service obligations and could require us to agree to operating and financing covenants that would restrict our operations. If adequate additional financing is not available on acceptable terms, we may not be able to implement our business development plan or continue our business operations.

WE CURRENTLY HAVE NO REVENUES.

We currently have no revenues and have sustained net losses of \$110,817 for the period from inception through June 30, 2012. We cannot give you any assurance that we will experience any positive revenues for the foreseeable future.

OUR PROPERTY MANAGEMENT BUSINESS IS SUSCEPTIBLE TO FLUCTUATION IN THE REAL ESTATE MARKET AND MAY BE MORE COSTLY THAN ANTICIPATED.

Our business depends substantially on the conditions of the real estate market. Demand for real estate has grown rapidly in the past decade but such growth is often accompanied by volatility in market conditions and fluctuations in real estate prices. For example, following a period of rising real estate prices and transaction volumes in most major cities from 2003 to 2007, the industry experienced a downturn in 2008, with transaction volumes in many major cities declining significantly compared to 2007. Fluctuations in the real estate market may negatively impact the spreads and the ability to find quality assets that provide returns that we seek. Any properties we enter management agreements with may not generate immediate positive cash flow for us because of volatility in the real estate market. There can be no assurance that any properties we potentially manage will generate positive cash flow.

WE DO NOT CURRENTLY MANAGE ANY REAL ESTATE.

If we are unable to secure management contracts for any real estate properties we may not generate sufficient income to meet operating expenses, including debt service and capital expenditures, our cash flow will be adversely affected.

THE REAL ESTATE PROPERTY MANAGEMENT MARKET IS HIGHLY COMPETITIVE.

The real estate property management market is highly competitive and highly fragmented. Competing properties may be newer or have more desirable locations than our properties. If the market does not absorb foreclosed or newly constructed properties, market vacancies will increase and market rents may decline. As a result, we may have difficulty leasing units within our properties and may be forced to lower rents on leases to compete effectively, which lowers the fees we can generate.

We may compete for the management of properties with many entities, including, among others, national property management and real estate companies, as well as local property management and real estate companies and individuals. Many competitors may have substantially greater financial resources than we do. In addition, certain competitors may be willing to accept lower fees for their services. If competitors prevent us from managing properties that may be targeted for contracts our service fees and valuation may be impacted.

OUR FUTURE SUCCESS IS DEPENDENT, IN PART, ON THE PERFORMANCE AND CONTINUED SERVICE OF DAVID DRESLIN, PRESIDENT AND DIRECTOR. WITHOUT HIS CONTINUED SERVICE, WE MAY BE FORCED TO INTERRUPT OR EVENTUALLY CEASE OUR OPERATIONS.

We are presently dependent to a great extent upon the experience, abilities and continued services of David Dreslin, our Founder, President and Director. Our failure to retain Mr. Dreslin or to attract additional qualified personnel could have a material adverse effect on our business, financial condition or results of operation.

WE NEED TO ESTABLISH AND MAINTAIN REQUIRED DISCLOSURE CONTROLS AND PROCEDURES AND INTERNAL CONTROLS OVER FINANCIAL REPORTING AND TO MEET THE PUBLIC REPORTING AND THE FINANCIAL REQUIREMENTS FOR OUR BUSINESS, WHICH WILL BE TIME CONSUMING FOR OUR MANAGEMENT.

Our management has a legal and fiduciary duty to establish and maintain disclosure controls and control procedures in compliance with the securities laws, including the requirements mandated by the Sarbanes-Oxley Act of 2002. The standards that must be met for management to assess the internal control over financial reporting as effective are new and complex, and require significant documentation, testing and possible remediation to meet the detailed standards. Because we have limited resources, we may encounter problems or delays in completing activities necessary to make an assessment of our internal control over financial reporting, and other disclosure controls and procedures. In addition, the attestation process by our independent registered public accounting firm is new and we may encounter problems or delays in completing the implementation of any requested improvements and receiving an attestation of our assessment by our independent registered public accounting firm. If we cannot assess our internal control over financial reporting as effective or provide adequate disclosure controls or implement sufficient control procedures, or our independent registered public accounting firm is unable to provide an unqualified attestation report on such assessment, investor confidence and share value may be negatively impacted.

WE MAY INCUR SIGNIFICANT COSTS TO BE A PUBLIC COMPANY TO ENSURE COMPLIANCE WITH U.S. CORPORATE GOVERNANCE AND ACCOUNTING REQUIREMENTS AND WE MAY NOT BE ABLE TO ABSORB SUCH COSTS.

We may incur significant costs associated with our public company reporting requirements, costs associated with newly applicable corporate governance requirements, including requirements under the Sarbanes-Oxley Act of 2002 and other rules implemented by the SEC. We expect all of these applicable rules and regulations to significantly increase our legal and financial compliance costs and to make some activities more time consuming and costly. We also expect that these applicable rules and regulations may make it more difficult and more expensive for us to obtain director and officer liability insurance and we may be required to accept reduced policy limits and coverage or incur substantially higher costs to obtain the same or similar coverage. As a result, it may be more difficult for us to attract and retain qualified individuals to serve on our board of directors or as executive officers. We are currently evaluating and monitoring developments with respect to these newly applicable rules, and we cannot predict or estimate the amount of additional costs we may incur or the timing of such costs. In addition, we may not be able to absorb these costs of being a public company which will negatively affect our business operations.

Risks Related to Our Industry

THE SUCCESS OF OUR BUSINESS IS SIGNIFICANTLY RELATED TO GENERAL ECONOMIC CONDITIONS AND THE REAL ESTATE INDUSTRY AND, ACCORDINGLY, OUR BUSINESS HAS BEEN AND COULD CONTINUE TO BE HARMED BY THE ECONOMIC SLOWDOWN AND DOWNTURN IN REAL ESTATE LEASING ACTIVITIES.

Our business is closely tied to general economic conditions and the real estate industry. As a result, our economic performance, the value of any properties we manage and the ability to implement our business strategies may be affected by changes in national and local economic conditions. The condition of the real estate markets in which we plan operate tends to be cyclical and related to the condition of the economy in the U.S. Rising interest rates, declining demand for real estate or periods of general economic slowdown or recession have had a direct negative impact on the real estate market in the past and a recurrence of these conditions in the U.S. We are currently experiencing, and expect in the future to be negatively impacted by, periods of economic slowdown or recession, and corresponding declines in the demand for real estate and related services, within the markets in which we operate. The current recession and the downturn in the real estate market have resulted in and/or may continue to result in a general decline in rents due to defaulting tenants or less favorable terms for renewed or new leases and fewer purchases and sales of properties, resulting in a decrease in property management fees.

IF WE ARE UNABLE TO MAINTAIN OR DEVELOP NEW CLIENT RELATIONSHIPS, OUR PROPERTY MANAGEMENT BUSINESS AND FINANCIAL CONDITION COULD BE SUBSTANTIALLY IMPAIRED.

In our business depends on establishing long-term client relationships and on revenues received for services under various property management agreements with third-party owners and related parties. We anticipate that a considerable amount of our revenues will be derived from fees related to these agreements.

When and if do enter into management agreements, these contracts may not be renewed when their respective terms expire. If we fail to develop and maintain new client relationships we expect that we would experience a material adverse change in our business, financial condition and results of operations.

IF WE BEGIN TO MANAGE ANY PROPERTIES ANY DECREASES IN THE PERFORMANCE OF THE PROPERTIES WE MANAGE ARE LIKELY TO RESULT IN A DECLINE IN THE AMOUNT OF PROPERTY MANAGEMENT FEES AND LEASING COMMISSIONS WE GENERATE.

Our property management will generally be structured as a percentage of the revenues generated by the properties that we manage. Similarly, our leasing commissions will typically be based on the value of the lease commitments. As a result, our revenues can be adversely affected by decreases in the performance of the properties we would manage and declines in rental value. Property performance will depend upon, among other things, our ability to control operating expenses (some of which are beyond our control), and financial conditions generally and in the specific areas where properties are located and the condition of the real estate market generally. If the performance or rental values of the properties we manage decline, the management fees and leasing commissions we would derive from such properties could be materially adversely affected.

OUR LEASING ACTIVITIES ARE CONTINGENT UPON VARIOUS FACTORS INCLUDING TENANT OCCUPANCY AND RENTAL RATES, WHICH IF ADVERSELY AFFECTED, COULD CAUSE OUR OPERATING RESULTS TO SUFFER.

Our property management business involves facilitating the leasing of residential space. In certain areas of operation, there may be inadequate residential space to meet demand and there is a potential for a decline in the number of overall leasing transactions. In areas where the supply of residential space exceeds demand, we may not be able to renew leases or obtain new tenants for properties we manage as leases expire. Moreover, the terms of new leases and renewals may be on less favorable terms. Any revenues we generate may be adversely affected by the failure to promptly find tenants for substantial amounts of vacant space, if rental rates on new or renewal leases are significantly lower than expected. We cannot be sure that we will ever be able to lease properties for our clients and in a profitable manner.

- Our ability to lease properties will also depend on;

- the attractiveness of the properties to tenants;

- competition from other available space;

- our ability to provide for adequate maintenance and insurance and to pay increased operating expenses which may not be passed through to tenants;

- the availability of capital to periodically renovate, repair and maintain the properties, as well as for other operating expenses; and

- the existence of potential tenants desiring to lease the properties.

WE COULD INCUR SIGNIFICANT COSTS RELATED TO GOVERNMENT REGULATION AND LITIGATION OVER ENVIRONMENTAL MATTERS.

Under various federal, state and local laws and regulations relating to the environment, as a current or former operator of real property, we may be liable for costs and damages resulting from the presence or discharge of hazardous or toxic substances, waste or petroleum products at, on, in, under or migrating from such property, including costs to investigate, clean up such contamination and liability for harm to natural resources. Such laws often impose liability without regard to whether the operator knew of, or was responsible for, the presence of such contamination, and the liability may be joint and several. These liabilities could be substantial and the cost of any required remediation,

removal, fines or other costs could exceed the value of or our aggregate assets. In addition, the presence of contamination or the failure to remediate contamination at properties we manage may expose us to third-party liability for costs of remediation and/or personal or property damage or materially adversely affect our ability lease. In addition, environmental laws may create liens on contaminated sites in favor of the government for damages and costs it incurs to address such contamination. Moreover, if contamination is discovered on the properties we manage, environmental laws may impose restrictions on the manner in which property may be used or businesses may be operated, and these restrictions may require substantial expenditures.

Environmental laws also govern the presence, maintenance and removal of hazardous materials in building materials (e.g., asbestos and lead), and may impose fines and penalties for failure to comply with these requirements or expose us to third-party liability (e.g., liability for personal injury associated with exposure to asbestos). Such laws require that owners or operators of buildings containing hazardous materials (and employers in such buildings) to properly manage and maintain certain hazardous materials, adequately notify or train those who may come into contact with certain hazardous materials, and undertake special precautions, including removal or other abatement, if certain hazardous materials would be disturbed during renovation or demolition of a building.

Risk Related To Our Capital Stock

WE MAY NEVER PAY ANY DIVIDENDS TO SHAREHOLDERS.

We have never declared or paid any cash dividends or distributions on our capital stock. We currently intend to retain our future earnings, if any, to support operations and to finance expansion and therefore we do not anticipate paying any cash dividends on our common stock in the foreseeable future.

The declaration, payment and amount of any future dividends will be made at the discretion of the board of directors, and will depend upon, among other things, the results of our operations, cash flows and financial condition, operating and capital requirements, and other factors as the board of directors considers relevant. There is no assurance that future dividends will be paid, and, if dividends are paid, there is no assurance with respect to the amount of any such dividend. If the Company does not pay dividends, the Company's common stock may be less valuable because a return on an investor's investment will only occur if the Company's stock price appreciates.

OUR ARTICLES OF INCORPORATION PROVIDE FOR INDEMNIFICATION OF OFFICERS AND DIRECTORS AT OUR EXPENSE AND LIMIT THEIR LIABILITY WHICH MAY RESULT IN A MAJOR COST TO US AND HURT THE INTERESTS OF OUR SHAREHOLDERS BECAUSE CORPORATE RESOURCES MAY BE EXPENDED FOR THE BENEFIT OF OFFICERS AND/OR DIRECTORS.

Our articles of incorporation and applicable Nevada law provide for the indemnification of our directors, officers, employees, and agents, under certain circumstances, against attorney's fees and other expenses incurred by them in any litigation to which they become a party arising from their association with or activities on our behalf. We will also bear the expenses of such litigation for any of our directors, officers, employees, or agents, upon such person's written promise to repay us if it is ultimately determined that any such person shall not have been entitled to indemnification. This indemnification policy could result in substantial expenditures by us which we will be unable to recoup.

We have been advised that, in the opinion of the SEC, indemnification for liabilities arising under federal securities laws is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification for liabilities arising under federal securities laws, other than the payment by us of expenses incurred or paid by a director, officer or controlling person in the successful defense of any action, suit or proceeding, is asserted by a director, officer or controlling person in connection with the securities being registered, we will (unless in the opinion of our counsel, the matter has been settled by controlling precedent) submit to a court of appropriate jurisdiction, the question whether indemnification by us is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue. The legal process relating to this matter if it were to occur is likely to be very costly and may result in us receiving negative publicity, either of which factors is

likely to materially reduce the market and price for our shares, if such a market ever develops.

THE OFFERING PRICE OF THE COMMON STOCK WAS DETERMINED BASED ON THE PRICE OF OUR PRIVATE OFFERING, AND THEREFORE SHOULD NOT BE USED AS AN INDICATOR OF THE FUTURE MARKET PRICE OF THE SECURITIES. THEREFORE, THE OFFERING PRICE BEARS NO RELATIONSHIP TO OUR ACTUAL VALUE, AND MAY MAKE OUR SHARES DIFFICULT TO SELL.

Since our shares are not listed or quoted on any exchange or quotation system, the offering price of \$0.01 per share for the shares of common stock was determined based on the price of our private offering. The offering price bears no relationship to the book value, assets or earnings of our company or any other recognized criteria of value. The offering price should not be regarded as an indicator of the future market price of the securities.

YOU WILL EXPERIENCE DILUTION OF YOUR OWNERSHIP INTEREST BECAUSE OF THE FUTURE ISSUANCE OF ADDITIONAL SHARES OF OUR COMMON STOCK AND OUR PREFERRED STOCK.

In the future, we may issue our authorized but previously unissued equity securities, resulting in the dilution of the ownership interests of our present stockholders. We are currently authorized to issue an aggregate of 270,000,000 shares of capital stock consisting of 20,000,000 shares of preferred stock, par value \$0.00001 per share and 250,000,000 shares of common stock, par value \$0.00001 per share.

We may also issue additional shares of our common stock or other securities that are convertible into or exercisable for common stock in connection with hiring or retaining employees or consultants, future acquisitions, future sales of our securities for capital raising purposes, or for other business purposes. The future issuance of any such additional shares of our common stock or other securities may create downward pressure on the trading price of our common stock. There can be no assurance that we will not be required to issue additional shares, warrants or other convertible securities in the future in conjunction with hiring or retaining employees or consultants, future acquisitions, future sales of our securities for capital raising purposes or for other business purposes, including at a price (or exercise prices) below the price at which shares of our common stock are trading.

OUR COMMON STOCK IS CONSIDERED A PENNY STOCK, WHICH MAY BE SUBJECT TO RESTRICTIONS ON MARKETABILITY, SO YOU MAY NOT BE ABLE TO SELL YOUR SHARES.

If our common stock becomes tradable in the secondary market, we will be subject to the penny stock rules adopted by the SEC that require brokers to provide extensive disclosure to their customers prior to executing trades in penny stocks. These disclosure requirements may cause a reduction in the trading activity of our common stock, which in all likelihood would make it difficult for our shareholders to sell their securities.

Penny stocks generally are equity securities with a price of less than \$5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system). Penny stock rules require a broker-dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document that provides information about penny stocks and the risks in the penny stock market. The broker-dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker-dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The broker-dealer must also make a special written determination that the penny stock is a suitable investment for the purchaser and receive the purchaser's written agreement to the transaction. These requirements may have the effect of reducing the level of trading activity, if any, in the secondary market for a security that becomes subject to the penny stock rules. The additional burdens imposed upon broker-dealers by such requirements may discourage broker-dealers from effecting transactions in our securities, which could severely limit the market price and liquidity of our securities. These requirements may restrict the ability of broker-dealers to sell our common stock and may affect your ability to resell our common stock.

THERE IS NO ASSURANCE OF A PUBLIC MARKET OR THAT OUR COMMON STOCK WILL EVER TRADE ON A RECOGNIZED EXCHANGE. THEREFORE, YOU MAY BE UNABLE TO LIQUIDATE YOUR INVESTMENT IN OUR STOCK.

There is no established public trading market for our common stock. Our shares have not been listed or quoted on any exchange or quotation system. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, nor can there be any assurance that such an application for quotation will be approved or that a regular trading market will develop or that if developed, will be sustained. In the absence of a trading market, an investor may be unable to liquidate their investment.

ALTHOUGH WE EXPECT TO APPLY FOR QUOTATION ON THE OTC BULLETIN BOARD (OTCBB), WE MAY NOT BE APPROVED, AND EVEN IF APPROVED, WE MAY NOT BE APPROVED FOR TRADING ON THE OTCBB; THEREFORE SHAREHOLDERS MAY NOT HAVE A MARKET TO SELL THEIR SHARES, EITHER IN THE NEAR TERM OR IN THE LONG TERM, OR BOTH.

We are not registered on any market or public stock exchange. There is presently no demand for our common stock and no public market exists for the shares being offered in this prospectus. We plan to contact a market maker immediately following this Registration Statement on Form S-1 being declared effective and apply to have the shares quoted on the Over-the-Counter Bulletin Board ("OTCBB"). The OTCBB is a regulated quotation service that displays real-time quotes, last sale prices and volume information in over-the-counter securities. The OTCBB is not an issuer listing service, market or exchange. Although the OTCBB does not have any listing requirements per se, to be eligible for quotation on the OTCBB, issuers must remain current in their filings with the SEC or applicable regulatory authority. Market makers are not permitted to begin quotation of a security whose issuer does not meet this filing requirement. Securities already quoted on the OTCBB that become delinquent in their required filings will be removed following a 30 to 60 day grace period if they do not make their required filing during that time. We cannot guarantee that our application will be accepted or approved and our stock listed and quoted for sale. If our application is rejected, our stock may then be traded on the "Pink Sheets," and the market for resale of our shares would decrease dramatically, if not be eliminated. As of the date of this filing, there have been no discussions or understandings between Mascot Properties, Inc. and anyone acting on our behalf, with any market maker regarding participation in a future trading market for our securities. If no market is ever developed for our common stock, it will be difficult for you to sell any shares you purchase in this offering. In such a case, you may find that you are unable to achieve any benefit from your investment or liquidate your shares without considerable delay, if at all. In addition, if we fail to have our common stock quoted on a public trading market, your common stock will not have a quantifiable value and it may be difficult, if not impossible, to ever resell your shares, resulting in an inability to realize any value from your investment.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

Information included or incorporated by reference in this Prospectus may contain forward-looking statements. This information may involve known and unknown risks, uncertainties and other factors which may cause our actual results, performance or achievements to be materially different from the future results, performance or achievements expressed or implied by any forward-looking statements. Forward-looking statements, which involve assumptions and describe our future plans, strategies and expectations, are generally identifiable by use of the words “may,” “should,” “expect,” “anticipate,” “estimate,” “believe,” “intend” or “project” or the negative of these words or other variations on these words or comparable terminology.

The forward-looking statements contained in this report are based on current expectations and beliefs concerning future developments and the potential effects on the parties and the transaction. There can be no assurance that future developments actually affecting us will be those anticipated. These that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements, including the following forward-looking statements involve a number of risks, uncertainties (some of which are beyond the parties' control) or other assumptions.

USE OF PROCEEDS

The selling security holders are selling all of the shares of our common stock covered by this prospectus for their own account. Accordingly, we will not receive any proceeds from the resale of the common stock. All of the net proceeds from the sale of our common stock will go to the selling security holders as described below in the sections entitled "Selling Security Holders" and "Plan of Distribution". We have agreed to bear the expenses relating to the registration of the common stock for the selling security holders.

DETERMINATION OF OFFERING PRICE

Since our common stock is not listed or quoted on any exchange or quotation system, the offering price of the shares of common stock was determined by the price of the common stock that was sold to our security holders pursuant to an exemption under Section 4(2) of the Securities Act and Rule 506 of Regulation D promulgated under the Securities Act.

The offering price of the shares of our common stock does not necessarily bear any relationship to our book value, assets, past operating results, financial condition or any other established criteria of value.

Although our common stock is not listed on a public exchange, we will be filing to obtain a quotation on the OTCBB concurrently with the filing of this prospectus. In order to be quoted on the OTCBB, a market maker must file an application on our behalf in order to make a market for our common stock. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, nor can there be any assurance that such an application for quotation will be approved.

In addition, there is no assurance that our common stock will trade at market prices in excess of the initial offering price as prices for the common stock in any public market which may develop will be determined in the marketplace and may be influenced by many factors, including the depth and liquidity.

DILUTION

The common stock to be sold by the selling security holders, as more fully described below, is common stock that is currently issued. Accordingly, there will be no dilution to our existing shareholders.

SELLING SECURITY HOLDERS

The common shares being offered for resale by the selling security holders consist of the 24,208,000 shares of our common stock held by 39 shareholders, which is representative of the number of shares immediately following the Forward Stock-Split. Such shareholders include the holders of the 24,208,000 shares sold in our private offering pursuant to Regulation D Rule 506 completed on June 30, 2010, at an offering price of \$0.01.

The following table sets forth the name of the selling security holders, the number of shares of common stock beneficially owned by each of the selling security holder as of December 17, 2012, and the number of shares of common stock being offered by the selling security holders. The shares being offered hereby are being registered to permit public secondary trading, and the selling security holders may offer all or part of the shares for resale from time to time. However, the selling security holders are under no obligation to sell all or any portion of such shares nor are the selling security holders obligated to sell any shares immediately upon effectiveness of this prospectus. All information with respect to share ownership has been furnished by the selling security holders.

- (1) The number of shares beneficially owned prior to the offering is representative of the number of shares held by the selling securities holders immediately following the Forward Split.
- (2) The number assumes the selling security holder sells all of the common shares being offering pursuant to this prospectus
- (3) Robert C. Rogin is the beneficial owner of the shares held by Entrust of Tampa Bay FBO Robert C.Rogin #2726
- (4) Jean Shagena is the managing member of Visionary Concepts, LLC and the beneficial owner the shares held in its name.

Among the selling security holders Donna Dreslin and David Dreslin II, are wife and son respectively to our sole director and Chief Executive Officer. Except for those aforementioned, to our knowledge, none of the other selling security holders or their beneficial owners:

- has had a material relationship with us other than as a shareholder at any time within the past three years;

- has ever been one of our officers or directors or an officer or director of our predecessors or affiliates; or
- are broker-dealers or affiliated with broker-dealers.

PLAN OF DISTRIBUTION

The selling security holders may sell some or all of their shares at a fixed price of \$0.01 per share until our shares are quoted on the OTCBB and thereafter at prevailing market prices or privately negotiated prices. Prior to being quoted on the OTCBB, shareholders may sell their shares in private transactions to other individuals. Although our common stock is not listed on a public exchange, we will be filing to obtain a quotation on the OTCBB concurrently with the filing of this prospectus. In order to be quoted on the OTCBB, a market maker must file an application on our behalf in order to make a market for our common stock. There can be no assurance that a market maker will agree to file the necessary documents with FINRA, nor can there be any assurance that such an application for quotation will be approved. However, sales by selling security holders must be made at the fixed price of \$0.01 until a market develops for the stock.

Once a market has developed for our common stock, the shares may be sold or distributed from time to time by the selling stockholders, who may be deemed to be underwriters, directly to one or more purchasers or through brokers or dealers who act solely as agents, at market prices prevailing at the time of sale, at prices related to such prevailing market prices, at negotiated prices or at fixed prices, which may be changed. The distribution of the shares may be effected in one or more of the following methods:

- ordinary brokers transactions, which may include long or short sales;
- transactions involving cross or block trades on any securities or market where our common stock is trading, market where our common stock is trading;
- through direct sales to purchasers or sales effected through agents;
- through transactions in options, swaps or other derivatives (whether exchange listed or otherwise), or exchange listed or otherwise);

any combination of the foregoing; or

any other method permitted pursuant to applicable law.

In addition, the selling security holders may enter into hedging transactions with broker-dealers who may engage in short sales, if short sales were permitted, of shares in the course of hedging the positions they assume with the selling security holders. The selling security holders may also enter into option or other transactions with broker-dealers that require the delivery by such broker-dealers of the shares, which shares may be resold thereafter pursuant to this prospectus. To our best knowledge, none of the selling security holders are broker-dealers or affiliates of broker dealers.

We will advise the selling security holders that the anti-manipulation rules of Regulation M under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), may apply to sales of shares in the market and to the activities of the selling security holders and their affiliates. In addition, we will make copies of this prospectus (as it may be supplemented or amended from time to time) available to the selling security holders for the purpose of satisfying the prospectus delivery requirements of the Securities Act. The selling security holders may indemnify any broker-dealer that participates in transactions involving the sale of the shares against certain liabilities, including liabilities arising under the Securities Act.

Brokers, dealers, or agents participating in the distribution of the shares may receive compensation in the form of discounts, concessions or commissions from the selling stockholders and/or the purchasers of shares for whom such broker-dealers may act as agent or to whom they may sell as principal, or both (which compensation as to a particular broker-dealer may be in excess of customary commissions). Neither the selling security holders nor we can presently estimate the amount of such compensation. We know of no existing arrangements between the selling security holders and any other stockholder, broker, dealer or agent relating to the sale or distribution of the shares. We will not receive any proceeds from the sale of the shares of the selling security holders pursuant to this prospectus. We have agreed to bear all fees and expenses incident to the registration of the shares of our common stock. Otherwise, all discounts, commissions or fees incurred in connection with the sale of our common stock offered hereby will be paid by the Selling Security Holders.

Notwithstanding anything set forth herein, no FINRA member will charge commissions that exceed 8% of the total proceeds of the offering.

INTERESTS OF NAMED EXPERTS AND COUNSEL

No expert or counsel named in this prospectus as having prepared or certified any part of this prospectus or having given an opinion upon the validity of the securities being registered or upon other legal matters in connection with the registration or offering of the common stock was employed on a contingency basis, or had, or is to receive, in connection with the offering, a substantial interest, direct or indirect, in the registrant or any of its parents or subsidiaries. Nor was any such person connected with the registrant or any of its parents or subsidiaries as a promoter, managing or principal underwriter, voting trustee, director, officer, or employee.

The financial statements included in this prospectus and the registration statement have been audited by Seale and Beers, CPA, to the extent and for the periods set forth in their report appearing elsewhere herein and in the registration statement, and are included in reliance upon such report given upon the authority of said firm as experts in auditing and accounting.

DESCRIPTION OF BUSINESS

Overview

Mascot Properties, Inc. (the “Company”) was incorporated in the State of Nevada on July 22, 2009. Our principal business is the management of real estate properties, primarily related to student housing and services which include general property management and maintenance and activities coordination for residents. We are seeking to manage properties that are near universities that suffer from a lack of on-campus housing and growing enrollment.

Both large and small universities suffer from student housing overcrowding problems. For example, some of the largest universities in the country in terms of enrollment are located in Florida and can only guarantee on-campus accommodations for freshman while other students must enter a lottery or must seek off-campus housing. Other smaller universities in the State of Florida have experienced overcrowding problems and are forced to put incoming freshman in hotels. Our planned operations will include managing income producing residential real estate properties near fast growing universities that are incapable of accommodating all of their current and future students as enrollment continues to grow. We do not currently manage any properties, but we are currently seeking properties to manage. Our website which is currently live but remains under construction, is located at www.mascotuniversityhousing.com.

Our management is experienced in the real estate industry and has been involved in real estate development projects for over 7 years, including roles as developer and manager for multifamily developments, condominiums, and apartment buildings. Currently, we are reliant on the experience of our Founder, President and management, Mr. David Dreslin. Mr. Dreslin, is a CPA with twenty six years of business experience, the past seven years of which he has been actively involved in numerous real estate projects as both principal and advisor. Additionally, Mr. Dreslin has been a licensed real estate sales associate since June of 2006. Mr. Dreslin was the managing member of 4 limited liability companies engaged in the acquisition and development of approximately \$30,000,000 (as retail price) of single family homes, condominiums and multi-family housing. Mr. Dreslin was involved in all aspects of the acquisition and development of various properties, including floor plan design, implementing sales staff as well as providing expertise in cost analysis regarding development and selling price in order to maximize member value. The Company believes that Mr. Dreslin's experience will put the Company in a position to carry out its business plan while keeping its operating expenses low until such time as additional administrative staffing becomes necessary. The Company does intend to employ additional qualified employees or third-party vendors in the future, but only after it has secured contracts for the management of properties. Property management employees will be employed on a commission only basis and will typically be paid a management fee between 2% and 5% of the gross monthly receipts of the property depending on specific requirements of each property.

Management will be charged with reviewing and recommending suitable projects for the Company consistent with its policies and objectives to maximize the return on properties it manages. We intend to manage properties and lease them to students. We will operate the properties as the property manager, which includes, but is not limited to, collecting rent, advertising, showing and leasing units in the buildings, coordinating with service professionals for maintenance and repairs, arranging promotional events for marketing, and creating activities for the residents. Management's goal is to work toward improving the properties' cash flow through proper marketing. We will find experienced property managers and make our properties "student friendly" with facility events, common areas for entertainment, activities and recreational facilities. The Company has not identified any specific properties to manage but, we are targeting properties with occupancy rates in excess of 96%.

We draw on the experience of our management to provide research and economic and statistical data in connection with the Company's activities. According to statistical research on college enrollment by the *Chronicle of Higher Education*, 18.6 million students were enrolled in college in 2010, up from 18.4 million in 2009. This rate is expected to grow steadily to 19.2 million by 2013, and 20 million by 2017. Additionally, according to the *Chronicle of Higher Education*, research has shown that student housing tends to rent at a premium compared with conventional apartment communities. For example, consider a four-bedroom apartment with four students paying \$500 per month each. That \$2,000 monthly rent may be as much as 30% higher than the apartment norm for a particular geographic area. Parents typically guarantee rents and pay higher security deposits to ensure safe housing with amenities that students can enjoy. According to a study by *Community Development Studies Market Research* in 2009, 75% of incoming freshman live on-campus, the occupancy levels on-campus are 99%, but only 20% of the total student population lives on-campus.

Thus, the Company's management plans to search for opportunities to manage real estate properties near rapidly growing universities and colleges that suffer from a lack of on-campus housing, and obtain for the Company such services as may be required for property management. These fast growing universities face increasing enrollment at a rate faster than new dormitories are being built. We intend to capitalize on the inability of universities to meet expanding housing demands by looking for distressed real estate near such universities and working with the owners of these properties to convert their properties into student housing. Universities that we have targeted include local colleges in the vicinity of our Company's base of operations in Seminole Florida. There are approximately 50 colleges and universities within a three hour drive of our principal offices.

We will continue to seek out opportunities to manage real estate properties and intend to enhance our capabilities by adding personnel or entering joint ventures with similar firms. Once we identify suitable real estate projects for property management, we will work with the owners of the properties and the residential housing office of the nearby university to create favorable living environments for students. Such property owners may include banks, investment funds, developers and individual owners; our management intends to utilize its contacts among these entities to facilitate such relationships. The Company plans to attract residents through marketing and advertising on-campus, web and social media and local radio and newspaper. We have no property management contracts at this time nor have we entered into any discussions with any such potential owners or to affiliate with any universities.

Our Operating Strategy

We seek opportunities to manage real estate properties where we believe we can achieve higher cash flows and capital appreciation for the owners as a result of our property management efforts and relations with universities' student residential housing offices. The Company currently has no official university relationships but has had some preliminary discussions with universities as part of our due diligence. However, the Company has one college within two miles of its office, ten colleges or universities within a 25 mile radius including a major state university with more than 46,600 students, and approximately 50 colleges and universities within a three hour drive of its office and will look to establish relationships with many of these universities. Our strategy for achieving our goals consists of the following elements:

Focusing our efforts in markets with fast growing universities that we believe have favorable conditions to support growth in occupancy and rental rates for off-campus student housing, and

- Utilizing management's experience in property management and maintenance, as well as accounting and billing.

Our initial focus is on the southeastern and southwestern regions of the United States, particularly where we perceive there to be the potential to manage properties near fast growing universities whose enrollments exceed their capacity for on-campus housing. We believe we can enhance the value of these properties through the execution of our strategy which entails establishing a relationship with the local college or university, hiring a strong local property

manager, aggressive marketing of the property, and adding amenities and security to the facility to cater to student's needs. We intend to have leases and services that cater to students and will have professional on-site management and maintenance. However, we will not limit our services to any particular individual geographic markets or submarkets. Moreover, we will not restrict our services to certain locations in markets or submarkets, as we may find value-adding opportunities in large metropolitan areas, suburban submarkets, smaller cities or rural locations, near both public and private universities.

According to the 2010 National Multifamily Report by the national real estate valuation firm Marcus & Millichap, the cap rate (the metric for determining property value based on income and cash flow) for student housing increased 50 basis points in 2009, while the average price rose 5%. According to the report, both measures outperformed those for traditional apartments.

Our Real Estate Management Criteria

We expect to manage properties within a three-mile radius of universities. These are multifamily units that cater to students and can accommodate student housing offices' demand for more student housing near the university campus. We will attempt to identify those universities with enrollment growth opportunities and demand demographics that support potential long-term value appreciation for the owners of the properties. We seek to identify and manage properties with the following characteristics:

Significant potential for increases in the number of students enrolled seeking housing near campuses, which drives student leases and the potential for increased rental rates;

Locations in markets currently in transition or recovery with favorable long-term enrollment and supply/demand demographics, which may allow for increased occupancy or rental rates;

Historic mismanagement or under-management;

Under-valued compared with other properties within their market; and

Barriers to additional or replacement projects.

Management of Properties

We plan to engage our own employees and third-party management companies as agents for on-site management of our properties depending on the geographic location. Generally such agreements will provide for a management fee between 2% and 5% of the gross monthly receipts of each property and are for a term of one year, but can be terminated by either party upon thirty days written notice. We currently have not entered into any discussions or contracts with any potential employees or third parties for on-site management of our properties. These properties typically require a greater level of management and oversight than traditional multifamily projects, which involves a manager with a focus on student housing. Typically, students often keep different hours and lead a different lifestyle than the general population or family oriented properties. Thus, these properties require managers that are hands-on and sensitive to student needs and lifestyle.

Competition

We do not currently manage any properties and therefore the competition described below is a form of competition that may occur.

The real estate property management market is a highly competitive and highly fragmented industry. We will be competing with a number of, property managers, owners and operators of real estate, many of which will own or manage properties similar to ours in the same markets in which our properties will be located and some of which have greater financial resources than we do. Competing properties may be newer or have more desirable locations than our properties. If the market does not absorb foreclosed or newly constructed properties, market vacancies will increase and market rents may decline. In operating and managing properties, we will compete for tenants based on a number of factors, including location, rental rates, security, having amenities that meet prospective tenants' needs and the manner in which the property is operated, maintained and marketed. Potentially, as leases at properties we manage will expire, we may encounter significant competition to renew or re-let space in light of the large number of competing properties within the markets in which we operate. As a result, we may be required to provide rent concessions or abatements, incur charges for tenant improvements and other inducements, including early termination rights or below-market renewal options, or we may not be able to timely lease vacant space.

Current Operations

We have advanced our business plans through discussions with universities in the southeast and southwest United States to determine interest level in recommending off-campus housing to their expanding student population. The company's initial focus has been on identifying properties to manage near universities in the State of Florida, since this is within a close proximity to its principal office. The Florida multifamily residential property market has been hard hit by the recent economic downturn. According to the *Florida Real Estate Forecast* properties in this marketplace are selling at an average of 33% below 2007 property values. Foreclosed and bank repossessed real estate owned (REO) properties are at an even greater discount to the previous market highs. We are currently in discussions with banks and developers of distressed projects in this market proposing to manage the properties near universities to improve their cash flow. These negotiations are on-going and subject to the company securing management contracts under acceptable terms.

Employees

As of December 17, 2012, we have 1 full-time employee, and plan to employ additional qualified employees in the near future.

DESCRIPTION OF PROPERTY

Our principal executive office is located at 7985 113th Street, Suite 220, Seminole, FL 33772, and our telephone number is (727) 393-7439. Office space is provided by our Chief Executive Officer at no charge.

LEGAL PROCEEDINGS

From time to time, we may become involved in various lawsuits and legal proceedings, which arise, in the ordinary course of business. However, litigation is subject to inherent uncertainties, and an adverse result in these or other matters may arise from time to time that may harm our business. We are currently not aware of any such legal proceedings or claims that we believe will have a material adverse effect on our business, financial condition or operating results.

MARKET FOR COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

There is presently no public market for our shares of common stock. We anticipate engaging a market maker to apply for quotation of our common stock on the OTCBB upon the effectiveness of the registration statement of which this prospectus forms apart. However, we can provide no assurance that our shares of common stock will be quoted on the OTCBB or, if quoted, that a public market will materialize.

We have not granted registration rights to the selling shareholders or to any other persons.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULT OF OPERATIONS**

The following plan of operation provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto. This section includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our predictions.

Plan of Operation

We have commenced limited operations and we will require outside capital to implement our business model.

All business functions will be coordinated and managed by our founder, including marketing, finance and operations. We intend to contract with outside professionals to facilitate services for the on-site management of properties and real estate rehab and maintenance services that may be required. These services include total property management responsibilities for the care and upkeep of the property. We will use independent contractors as leasing agents, as well as for janitorial services, lawn services and general maintenance services as required on-site from time to time. The Company has no outside contracts, but we intend to contract with these professionals under normal industry terms, which may include lease fees in the 2% - 5% range depending on the nature of the services.

Milestones

We will focus on evaluating our performance based on the following milestones during the next twelve months of operations as the Company emerges from the development stage following the offering:

a. Number of new real estate projects – The Company is in preliminary discussions with property owners to contract properties for management. The Company hopes to have at least ten suitable properties under management over the next twelve months .

The Company will initially look for distressed and under-managed projects in Southwest Florida. The Southwest Florida multi-family residential property market has been hard hit by the recent economic downturn. Properties in this marketplace are selling at an average of 33% below 2007 property values. Foreclosed and bank repossessed real estate owned (REO) properties are at an even greater discount to the previous market highs. We are currently in discussions with banks and developers of distressed condominium projects in this market proposing to manage the properties to improve their cash flow. These negotiations are on-going and subject to the Company securing management contracts under acceptable terms.

The Company is in preliminary discussions with property owners to contract properties for management. The Company hopes to have at least ten suitable properties under management over the next twelve months The Company deems suitable properties as rental properties in good condition, which should be within three miles of a college campus and have at least 100 rental units.

The Company incurs nominal travel expenses associated with the search for properties since the Southwest Florida region is nearby its home office. The Company anticipates travel costs to be approximately \$24,000 during the next twelve months following the Offering. The Company also plans to incur \$15,000 in marketing expenses associated with the development of promotional materials and attendance at trade shows during the next twelve months. Our Founder and majority shareholder, David Dreslin, owns 77% of the Company and is the Company's president and primary employee. Mr. Dreslin has committed to cover any cash shortfalls of the Company with regards to the aforementioned expenses. However, to the extent the Company requires additional funds to carry out its business plan we may seek to raise additional capital. Please see "Capital Resources and Liquidity".

While we have had preliminary discussions with property owners, we have not yet entered into any contracts or agreements to manage any properties. There can be no assurance that we will be able to contract suitable properties for management or be able to negotiate property management contracts on favorable terms with the property owners.

b. Expense management – Maintain minimal operating expenses not to exceed \$49,000 over the next twelve months related to travel and marketing expenses.

i. The Company has a limited operating budget and has maintained tight expense controls.

Over the next twelve months the Company anticipates its minimum need for additional funding is \$49,000 to implement its business plans. We need to spend \$10,000 to complete this Offering over the next 90 days. In addition, we anticipate operating expenses to be \$24,000 prior to generating revenues. These expenses are estimated at \$2,000 per month primarily travel related cost associated with the search for properties to manage in Southwest Florida. The Company intends to contract at least ten suitable properties for management over the next twelve months. The Company will also incur \$15,000 in marketing expenses associated with the development of promotional materials and attendance at trade shows. The Company will incur additional operating expenses once the Company generates revenues, which are tied to commissions paid to leasing agents and operating expenses associated with the upkeep of the properties. The Company plans to hire on a commission-only basis at such time as the Company has signed property management contracts, so no additional expenses are created until revenues are generated. There can be no assurance that we will be able to align ourselves with professionals for services on a commission-only basis. Our Founder and majority shareholder, David Dreslin, owns 77% of the Company and is the Company's president and primary employee. Mr. Dreslin has committed to cover any cash shortfalls of the Company with regards to the aforementioned expenses. However, to the extent the Company requires additional capital to carry out its business plan we may seek to raise additional capital. Please see "Capital Resources and Liquidity".

c. Creating strategic alliance relationships – Establishing ten strategic alliance relationships over the next twelve months.

The Company defines a strategic alliance as a new relationship with outside professionals to facilitate services for the on-site management of properties and real estate rehab and maintenance services that may be required. These services include total property management responsibilities for the care and upkeep of the property. We will use independent contractors as leasing agents, as well as for janitorial services, lawn services and general maintenance services as required on-site from time to time. The cost of seeking out these relationships is factored into the total existing estimated travel expense and marketing expenses of \$39,000. In no case should specific costs for establishing these relationships exceed \$500 per month over the next twelve months following the Offering. Our Founder and majority shareholder, David Dreslin, owns 77% of the Company and is the Company's president and primary employee. Mr. Dreslin has committed to cover any cash shortfalls of the Company with regards to the aforementioned expenses. However, to the extent the Company requires additional capital to carry out its business plan we may seek to raise additional capital. Please see "Capital Resources and Liquidity".

The Company has no contracts with outside vendors, but we intend to contract with these professionals under ii. normal industry terms, which may include leasing fees in the 2% - 5% range depending on the nature of the services.

Our growth is driven by the number of new real estate projects that we evaluate and contract for management. There is no assurance we will be able to secure such management contracts for properties or be able to lease-out such properties on a profitable basis. Certain competitors may be willing to accept lower fees based on their overhead structure. As a result, we may have difficulty attracting new properties to manage and tenants to utilize the properties. There can also be no assurance that we will be able to align ourselves with professionals for services on a commission only basis.

d. Marketing campaign - Participation in four industry trade shows, launch website and create a social media marketing campaign.

Our plan of operation includes launching a targeted marketing campaign focusing on property management and university housing trade show participation by attending four industry related trade shows, approximately one per quarter over the next twelve months following the Offering. We also intend to launch our website and establish media and social media promotions and public relations during the twelve months following the Offering. This marketing is estimated to cost \$15,000, in addition to our estimated minimum travel and operating expenses of i. \$2,000 per month. Our Founder and majority shareholder, David Dreslin, owns 77% of the Company and is the Company's president and primary employee. Mr. Dreslin has committed to cover any cash shortfalls of the Company with regards to the aforementioned expenses. However, to the extent the Company requires additional funds to carry out its business plan we may seek to raise additional capital. Please see "Capital Resources and Liquidity".

We intend to support our marketing efforts through the development of high-quality marketing materials and an attractive and informative website, www.MascotUniversityHousing.com, which is currently live but remains under construction. There can be no assurance we will be successful in implementing our marketing campaign or that we will be able to provide our services at lower costs than other property managers. There can also be no assurance ii. that we will be able to align ourselves with professionals for services on a commission-only basis. The development of an on-going marketing campaign will require the commitment of substantial resources. If additional capital is not available on acceptable terms, we may not be able to implement our business development plans or continue our business operations.

Over the next twelve months following the Offering, we believe that we will have identified at least ten suitable properties to manage and lease-out in order to begin to generate revenues from our targeted marketing approach. This refers to the minimum amount of time that we estimate will be required to generate revenues based on meetings with universities, banks and developers in the Florida property market. Once a property is identified we will need to negotiate a management contract with the property owner. Only after a property is identified and contracted can we begin managing the property for a fee from the property owners to generate revenues, typically between 10% - 15% of gross monthly rents. We have not entered into any contracts or agreements to manage any properties. There can be no

assurance that we will be able to identify suitable properties for management or be able to negotiate property management contracts on favorable terms with the property owners.

Our future will depend on our ability to identify suitable properties to manage and our ability to bring our services to the market place, which requires careful planning of providing a service that meets our customer's standards without incurring unnecessary cost and expense. Our operational results can be affected by our ability to introduce our services or to adjust pricing to try to gain a competitive advantage. There can be no assurance we will be able to implement our property management services. If we are unable to satisfy our cash requirements we may be unable to proceed with the Offering and our plan of operations.

Limited Operating History

We have generated no independent financial history and have not previously demonstrated that we will be able to expand our business through increased investment in marketing activities. We cannot guarantee that the expansion efforts described in this Registration Statement will be successful. The business is subject to risks inherent in growing an enterprise, including limited capital resources and possible rejection of our business model and/or sales methods.

Future financing may not be available to us on acceptable terms. If debt financing is not available or not available on satisfactory terms, we may be unable to continue expanding our operations. Equity financing will result in a dilution to existing shareholders.

In June 2010, the board of directors approved a four for one forward split. The board of directors hopes the decision to restructure the Company's capital structure will potentially lead to greater liquidity of the Company's common stock in the future. In addition, the Board of Directors hopes the forward split will attract potential investors.

Results of Operations

Results of Operations

For the period from Inception (July 22, 2009) through September 30, 2012 we have not generated any revenue.

For the three months ended September 30, 2012, we paid professional fees of \$1,510 and general and administrative expenses of \$778. We also received a refund of general and administrative expenses of \$4,000, resulting in total operating expenses of \$(1,712) for the period.

For the three months ended September 30, 2011, we paid professional fees of \$7,725 and general and administrative expenses of \$4,435, resulting in total operating expenses of \$12,160 for the period.

For the period from Inception (July 22, 2009) through September 30, 2012, we have paid consulting fees to a related party of \$38,600, professional fees of \$56,545, and general and administrative expenses of \$17,960. We received a refund of general and administrative expenses of \$4,000. As a result, we had total operating expenses of \$109,105 for the period.

Liquidity and Capital Resources

For the period from Inception (July 22, 2009) through September 30, 2012 we did not pursue any investing activities.

For the three months ended September 30, 2012, we received proceeds from notes payable – related parties of \$4,300, resulting in net cash provided by financing activities of \$4,300 for the period.

For the three months ended September 30, 2011, we received proceeds from notes payable – related parties of \$12,225, resulting in net cash provided by financing activities of \$12,225 for the period.

For the period from Inception (July 22, 2009) through September 30, 2012 we received proceeds from notes payable of \$46,725 and \$60,720 from common stock issued for cash. As a result, we had net cash provided by financing activities of \$107,445 for the period.

At September 30, 2012, we had total assets and cash on hand of \$1,550. For comparison, at June 30, 2012, we had total assets and cash on hand of \$81. For the three months ended September 30, 2012, we had \$46,725 in notes payable to related parties and \$3,210 in accounts payable and accrued expenses. For comparison, for the year ended June 30, 2012, we had \$42,425 in notes payable to related parties and \$7,753 in accounts payable and accrued expenses. Based upon the above, we do not believe we have enough cash to support our daily operations while we are attempting to commence operations and produce revenues. We estimate the Company needs an additional \$39,000 to implement its business plans, which includes marketing and operational expenses for the next twelve months. Our founder and majority shareholder, Mr. David Dreslin, has committed to cover any cash shortfalls of the Company with regards to the aforementioned expenses. However, to the extent the Company requires additional funds to carry out its business plan we may seek to raise additional capital. However, future financing for real estate management operations may not be available to us on acceptable terms. To raise equity will require the sale of stock and the debt financing will require institutional or private lenders. We do not have any institutional or private lending sources identified. If debt financing is not available or not available on satisfactory terms, we may be unable to continue expanding our operations. Equity financing will result in a dilution to existing shareholders.

The foregoing represents our best estimate of our cash needs based on current planning and business conditions. In the event we are not successful in reaching our initial revenue targets, additional funds may be required, and we may not be able to proceed with our business plan for the development and marketing of our core services. Should this occur, we will suspend or cease operations.

We anticipate that depending on market conditions and our plan of operations, we may incur operating losses in the foreseeable future. Therefore, our auditors have raised substantial doubt about our ability to continue as a going concern.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING

AND FINANCIAL DISCLOSURE

Involvement in Certain Legal Proceedings

During the past ten years, none of the following occurred with respect to Mr. Dreslin, our Founder and sole director and executive officer of the Company: (1) any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two years prior to that time; (2) any conviction in a criminal proceeding or being subject to a pending criminal proceeding (excluding traffic violations and other minor offenses); (3) being subject to any order, judgment or decree, not subsequently reversed, suspended or vacated, of any court of any competent jurisdiction, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities or banking activities; and (4) being found by a court of competent jurisdiction (in a civil action), the SEC or the commodities futures trading commission to have violated a federal or state securities or commodities law, and the judgment has not been reversed, suspended or vacated.

DISCLOSURE OF COMMISSION POSITION ON INDEMNIFICATION

OF SECURITIES ACT LIABILITIES

Our directors and officers are indemnified as provided by the Nevada corporate law and our Bylaws. We have agreed to indemnify each of our directors and certain officers against certain liabilities, including liabilities under the Securities Act of 1933. Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to our directors, officers and controlling persons pursuant to the provisions described above, or otherwise, we have been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act of 1933 and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than our payment of expenses incurred or paid by our director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

We have been advised that in the opinion of the Securities and Exchange Commission indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to a court of appropriate jurisdiction. We will then be governed by the court's decision.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Stockholders of

Mascot Properties, Inc.

(A Development Stage Company)

We have audited the accompanying balance sheets of Mascot Properties, Inc. (A Development Stage Company) as of June 30, 2012 and 2011, and the related statements of operations, stockholders' equity (deficit) and cash flows for the years ended June 30, 2012 and 2011, and from inception on July 22, 2009 through June 30, 2012. Mascot Properties, Inc.'s management is responsible for these financial statements. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. Our audit included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control over financial reporting. Accordingly we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Mascot Properties, Inc. (A Development Stage Company) as of June 30, 2012 and 2011, and the related statements of operations, stockholders' equity (deficit) and cash flows for the years ended June 30, 2012 and 2011, and from inception on July 22, 2009 through June 30, 2012, in conformity with accounting principles generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 2 to the financial statements, the Company has no revenues, has negative working capital at June 30, 2012, has incurred recurring losses and recurring negative cash flow from operating activities, and has an accumulated deficit which raises substantial doubt about its ability to continue as a going concern. Management's plans concerning these matters are also described in Note 2. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

MASCOT PROPERTIES, INC.

(A Development Stage Company)

Notes to Financial Statements

From Inception Through June 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The financial statements presented are those of Mascot Properties, Inc. The Company was originally incorporated under the laws of the state of Nevada on July 22, 2009.

The Company has not commenced significant operations and, in accordance with ASC Topic 915, is considered a development stage company. Mascot Properties, Inc. operates in the management of real estate properties, primarily related to student housing and services near universities.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Dividends

The Company has not adopted any policy regarding payment of dividends. No dividends have been paid during any of the periods shown.

Revenue Recognition

Revenue is recognized in accordance with the criteria established in the accounting literature regarding recognition of revenues, specifically, FASB Accounting Standards Codification topic 605, "Revenue Recognition". Revenues and related expenses from rendering property management services are recognized when services are completed and billed. In some situations, we may receive advance payments from our customers. The Company will defer revenue associated with these advance payments until it has completed the contracted services.

Property

The Company does not own or rent any property. Office space is provided by the Company's president at no charge.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Advertising Costs

The Company's policy regarding advertising is to expense advertising when incurred. Advertising expense for the year ended June 30, 2012, and June 30, 2011 was \$-0- and \$ -0-.

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Company considers all highly liquid instruments purchased with a maturity of three months or less to be cash equivalents to the extent the funds are not being held for investment purposes. As at June 30, 2012, and June 30, 2011 the Company had no cash equivalents.

Basic (Loss) per Common Share

Basic (loss) per share is calculated by dividing the Company's net loss applicable to common shareholders by the weighted average number of common shares during the period. Diluted earnings per share is calculated by dividing the Company's net income available to common shareholders by the diluted weighted average number of shares outstanding during the year. The diluted weighted average number of shares outstanding is the basic weighted number of shares adjusted for any potentially dilutive debt or equity. There are no such common stock equivalents outstanding as of June 30, 2012 and 2011.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Income Taxes

The Company provides for income taxes under ASC 740 "Accounting for Income Taxes". ASC 740 requires the use of an asset and liability approach in accounting for income taxes. Deferred tax assets and liabilities are recorded based on the differences between the financial statement and tax bases of assets and liabilities and the tax rates in effect when these differences are expected to reverse.

ASC 740 requires the reduction of deferred tax assets by a valuation allowance if, based on the weight of available evidence, it is more likely than not that some or all of the deferred tax assets will not be realized.

The provision for income taxes differs from the amounts which would be provided by applying the statutory federal income tax rate of 39% to net loss before provision for income taxes for the following reasons:

	For the Year Ending June 30, 2012	For the Year Ending June 30, 2011
Net (Loss)	\$ (26,060)	\$ (21,254)
Income tax expense at statutory rate	(10,163)	(8,290)
Net deferred tax asset	10,163	8,290
Income tax expense per books	\$ -)	\$ -)

From Inception Through June 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Net deferred tax assets consist of the following components as of:

	For the Year Ending June 30, 2012	For the Year Ending June 30, 2011
NOL carryover	\$ 10,163)	\$ 8,290)
Valuation allowance	(10,163)	(8,290)
Net deferred tax asset	\$-	\$-

The Company's net operating losses are schedule to expire between 2029 and 2032.

Impairment of Long-Lived Assets

The Company continually monitors events and changes in circumstances that could indicate carrying amounts of long-lived assets may not be recoverable. When such events or changes in circumstances are present, the Company assesses the recoverability of long-lived assets by determining whether the carrying value of such assets will be recovered through undiscounted expected future cash flows. If the total of the future cash flows is less than the carrying amount of those assets, the Company recognizes an impairment loss based on the excess of the carrying amount over the fair value of the assets. Assets to be disposed of are reported at the lower of the carrying amount or the fair value less costs to sell.

Accounting Basis

The basis is accounting principles generally accepted in the United States of America. The Company has adopted a June 30th year end.

Stock-based compensation.

As of June 30, 2012, and June 30, 2011 the Company has not issued any share-based payments.

The Company records stock-based compensation in accordance with ASC 718 using the fair value method. All transactions in which goods or services are the consideration received for the issuance of equity instruments are accounted for

based on the fair value of the consideration received or the fair value of the equity instrument issued, whichever is more reliably measurable. Equity instruments issued to employees and the cost of the services received as consideration are measured and recognized based on the fair value of the equity instruments issued.

Recent Accounting Pronouncements

The company has evaluated all the recent accounting pronouncements and believes that none of them will have a material effect on the company's financial statements.

2. GOING CONCERN

These financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. During the year ended June 30, 2012, the Company recognized no sales revenue and incurred a net loss of \$26,060. As of June 30, 2012, the Company had an accumulated deficit of \$110,817. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability to raise equity or debt financing, and the attainment of profitable operations from the Company's future business. Additionally the Company is actively seeking merger partners and strategic alliances in order to accelerate its growth in the industry. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3 STOCKHOLDERS' EQUITY

The stockholders' equity section of the Company contains the following classes of Capital stock as of June 30, 2012, and June 30, 2011 respectively:

The notes have no definitive payment terms and bear no interest. The Company will pay the balance off when it has the available funds.

5 COMMITMENTS AND CONTINGENCIES

Commitments

On April 1, 2011, the Company and its majority shareholder and President entered into an employment agreement. The agreement calls for an annual salary of \$85,000 as well as benefits including vacation and health insurance. The agreement includes a revenue milestone of \$300,000 that must be reached before the payment or accrual of any salaries or benefits. The agreement is not expected to have a material adverse effect on the Company's financial condition.

6 SUBSEQUENT EVENTS

Management has evaluated all activity since June 30, 2012, through the date the financial statements were issued and has concluded that no subsequent events have occurred that would require recognition in the Financial Statements or disclosure in the Notes to the Financial Statements.

Notes to Unaudited Condensed Interim Financial Statements

From Inception Through September 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

The financial statements presented are those of Mascot Properties, Inc. The Company was originally incorporated under the laws of the state of Nevada on July 22, 2009. The Company has not commenced significant operations and, in accordance with ASC Topic 915, is considered a development stage company. Mascot Properties, Inc. operates in the management of real estate properties, primarily related to student housing and services near universities.

The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, the accompanying balance sheets and related statements of income, cash flows, and stockholders' equity include all adjustments, consisting only of normal recurring items, necessary for their fair presentation in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP"). Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue and expenses. Actual results and outcomes may differ from management's estimates and assumptions.

Interim results are not necessarily indicative of results for a full year. Our interim condensed financial statements should be read in conjunction with the financial statements from our June 30, 2012 audited financial statements.

Accounting Basis

The basis is accounting principles generally accepted in the United States of America. The Company has adopted a June 30th year end.

Recent Accounting Pronouncements

The company has evaluated all the recent accounting pronouncements and believes that none of them will have a material effect on the company's financial statements.

2. GOING CONCERN

These financial statements have been prepared on a going concern basis, which implies that the Company will continue to realize its assets and discharge its liabilities in the normal course of business. For the three months ending September 30, 2012, the Company recognized no sales revenue and reported net income of \$1,712 as a result of a refund of a prior period expense. As of September 30, 2012, the Company had an accumulated deficit of \$109,105. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders, the ability to raise equity or debt financing, and the attainment of profitable operations from the Company's future business. Additionally the Company is actively seeking merger partners and strategic alliances in order to accelerate its growth in the industry. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3 STOCKHOLDERS' EQUITY

The stockholders' equity section of the Company contains the following classes of Capital stock as of September 30, 2012, respectively:

- Preferred stock, \$0.00001 par value, 20,000,000 shares authorized 0 shares issued and outstanding.
- Common Stock, \$0.00001 par value, 250,000,000 shares authorized 104,208,000 shares issued and outstanding.

COMMON STOCK

On July 22, 2009, the Company entered into an agreement with its founder, Mr. David Dreslin, for the sale of 80,000,000 shares of common stock at a price of \$0.0000025 per share. The Company realized \$200 from this subscription.

On August 27, 2009, the Company entered into an agreement with two different investors for the sale of 24,000,000 shares of common stock at a price of \$0.0025 per share. The Company realized \$60,000 from these subscriptions.

On June 30, 2010, the Company entered into an agreement for the sale of 208,000 shares at a price of \$0.0025 per share to 38 different investors. The Company realized \$520 from these subscriptions.

The company's board of directors authorized a four-for-one stock split effective on June 30, 2010. Each shareholder of record on June 30, 2010 received three additional shares of common stock for each share held on that date. All share and related information presented in these financial statements and accompanying footnotes reflect the increased number of shares resulting from this action.

4 RELATED PARTY TRANSACTIONS

Consulting Services – Related Party

The Company's founder and majority shareholders provide various consulting services to the Company for which they are compensated. For the three months ending September 30, 2012, and the period from inception on July 22, 2009 through September 30, 2012 consultant fees paid were \$-0- and \$38,600.

F-19

Note Payable – Related Party

At September 30, 2012 and June 30, 2012, the Company owed \$46,725 and \$42,425, respectively, as loans from officers. The notes have no definitive payment terms and bear no interest. The Company will pay the balance off when it has the available funds.

5 COMMITMENTS AND CONTINGENCIES

Commitments

On April 1, 2011, the Company and its majority shareholder and President entered into an employment agreement. The agreement calls for an annual salary of \$85,000 as well as benefits including vacation and health insurance. The agreement includes a revenue milestone of \$300,000 that must be reached before the payment or accrual of any salaries or benefits. As this milestone has not been reached no payment or accrual has been made. The agreement is not expected to have a material adverse effect on the Company's financial condition.

6 REFUND OF GENERAL AND ADMINISTRATIVE EXPENSE

In August 2012, the Company received a refund of fees it had paid to its prior transfer agent for services to be performed in the prior calendar year. The Company switched its transfer agent services in March 2012 resulting in the refund of the fees.

7 SUBSEQUENT EVENTS

Management has evaluated all activity since September 30, 2012, through the date the financial statements were issued and has concluded that no subsequent events have occurred that would require recognition in the Financial Statements or disclosure in the Notes to the Financial Statements.

Indemnification of Directors and Officers.

Our directors and officers are indemnified as provided by the Nevada corporate law and our bylaws. We have agreed to indemnify each of our directors and certain officers against certain liabilities, including liabilities under the Securities Act. Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers and controlling persons pursuant to the provisions described above, or otherwise, we have been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than our payment of expenses incurred or paid by our director, officer or controlling person in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of our counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

We have been advised that in the opinion of the SEC indemnification for liabilities arising under the Securities Act is against public policy as expressed in the Securities Act, and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities is asserted by one of our directors, officers, or controlling persons in connection with the securities being registered, we will, unless in the opinion of our legal counsel the matter has been settled by controlling precedent, submit the question of whether such indemnification is against public policy to a court of appropriate jurisdiction. We will then be governed by the court’s decision.

Recent Sales of Unregistered Securities.

We were incorporated in the State of Nevada on July 22, 2009 and 20,000,000 shares of common stock were issued to Mr. David Dreslin for consideration of \$200. These shares were issued prior to the Forward Stock-Split in reliance on the exemption under Section 4(2) of the Securities Act of 1933, as amended (the “Act”) and were issued as founders shares. These shares of our common stock qualified for exemption under Section 4(2) of the Securities Act of 1933 since the issuance of shares by us did not involve a public offering. The offering was not a “public offering” as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of shares offered. We did not undertake an offering in which we sold a high number of shares to a high number of investors. In addition, Mr. Dreslin had the necessary investment intent as required by Section 4(2) since he agreed to and received share certificates bearing a legend stating that such shares are restricted pursuant to Rule 144 of the 1933 Securities Act. This restriction ensures that these shares would not be immediately redistributed into the market and therefore not be part of a “public offering.” Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act of 1933 for this transaction.

II-1

On June 30, 2010, we completed a Regulation D Rule 506 offering in which we sold 6,052,000 shares of the Company's common stock to 39 investors, of which 10 were accredited and 29 were non-accredited, at a price per share of \$0.01 for an aggregate offering price of \$60,520.

These securities were issued pursuant to the exemption provided under Section 4(2) of the Securities Act. These shares of our common stock qualified for exemption since the issuance of shares by us did not involve a public offering. The offering was not a "public offering" as defined in Section 4(2) due to the insubstantial number of persons involved in the deal, size of the offering, manner of the offering and number of shares offered. We did not undertake an offering in which we sold a high number of shares to a high number of investors. In addition, the shareholders had the necessary investment intent as required by Section 4(2) since they agreed to and received share certificates bearing a legend stating that such shares are restricted pursuant to Rule 144 of the Securities Act. This restriction ensures that these shares would not be immediately redistributed into the market and therefore not be part of a "public offering." Based on an analysis of the above factors, we have met the requirements to qualify for exemption under Section 4(2) of the Securities Act for this transaction.

- (1) At the time of the offering we were not: (1) subject to the reporting requirements of Section 13 or 15 (d) of the Exchange Act; or (2) an "investment company" within the meaning of the federal securities laws.
 - (2) Neither we, nor any of our predecessors, nor any of our directors, nor any beneficial owner of 10% or more of any class of our equity securities, nor any promoter currently connected with us in any capacity has been convicted within the past ten years of any felony in connection with the purchase or sale of any security.
- (3) The offers and sales of securities by us pursuant to the offerings were not attempts to evade any registration or resale requirements of the securities laws of the United States or any of its states.
- (4) Except for Donna Dreslin and David Dreslin II, none of the investors are affiliated with any of our directors, officers or promoters or any beneficial owner of 10% or more of our securities.

We have never utilized an underwriter for an offering of our securities. Other than the securities mentioned above, we have not issued or sold any securities.

Undertakings

(A) The undersigned Registrant hereby undertakes:

(1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:

i. To include any prospectus required by section 10(a)(3) of the Securities Act of 1933;

ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the registration statement. Notwithstanding the foregoing, any increase or decrease in volume of securities offered (if the total dollar value of securities offered would not exceed that which was registered) and any deviation from the low or high end of the estimated maximum offering range may be reflected in the form of prospectus filed with the Commission pursuant to Rule 424(b) if, in the aggregate, the changes in volume and price represent no more than 20% change in the maximum aggregate offering price set forth in the "Calculation of Registration Fee" table in the effective registration statement.

iii. To include any material information with respect to the plan of distribution not previously disclosed in the registration statement or any material change to such information in the registration statement;

(2) That, for the purpose of determining any liability under the Securities Act of 1933, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.

(4) Insofar as indemnification for liabilities arising under the Securities Act of 1933 may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against

such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Act and will be governed by the final adjudication of such issue.

(5) Each prospectus filed pursuant to Rule 424(b) as part of a registration statement relating to an offering, other than registration statements relying on Rule 430B or other than prospectuses filed in reliance on Rule 430A, shall be deemed to be part of and included in the registration statement as of the date it is first used after effectiveness. Provided, however, that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such first use, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such date of first use.

(6) That, for the purpose of determining liability of the registrant under the Securities Act of 1933 to any purchaser in the initial distribution of the securities: The undersigned registrant undertakes that in a primary offering of securities of the undersigned registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- i. Any preliminary prospectus or prospectus of the undersigned registrant relating to the offering required to be filed pursuant to Rule 424;
- ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned registrant or used or referred to by the undersigned registrant;
- iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned registrant or its securities provided by or on behalf of the undersigned registrant; and
- iv. Any other communication that is an offer in the offering made by the undersigned registrant to the purchaser.
