The "other" category in the table below includes the Company's wholesale and retail operations in Australia, South Africa, Asia Pacific and Europe, which do not meet the criteria for separate reportable segment classification. 8. Short-Term Borrowings

At March 31, 2013, the Company had a \$60 million unsecured revolving line of credit. At the end of the first quarter, the Company had \$38 million of bank borrowings outstanding at an interest rate of approximately 1.2%. The Company's borrowing facility includes one financial covenant that specifies a minimum level of net worth. The Company was in compliance with the covenant at March 31, 2013. The line of credit agreement expired on April 30, 2013 and was renewed for another term that expires April 30, 2014, at essentially the same terms as the prior agreement.

9. Contingent Consideration

Contingent consideration is comprised of two contingent payments that the Company is obligated to pay the former shareholders of Bogs, two and five years following the Bogs acquisition date (in 2013 and 2016). The contingent consideration is formula-driven and is based on Bogs achieving certain levels of gross margin dollars between January 1, 2011 and December 31, 2015. The first payment was paid to the former owners on March 28, 2013. In accordance with ASC 805, the Company remeasures its estimate of the fair value of the contingent payments at each reporting date. The change in fair value is recognized in earnings.

The Company's estimate of the fair value of the contingent payments as recorded in the Consolidated Condensed Balance Sheets (Unaudited) was as follows:

	March 31, 2013	December 31, 2012
	(Dollars in thousands)	
Current portion	\$ -	\$ 1,270
Long-term portion	5,003	4,991
Total contingent consideration	\$ 5,003	\$ 6,261

The fair value of the contingent payments was recorded at present value. Accordingly, the two components of the change in contingent consideration between December 31, 2012 and March 31, 2013 were the payment to the former owners of \$1,270,000 and interest expense of \$12,000.

The current portion of contingent consideration was recorded within accrued liabilities in the Consolidated Condensed Balance Sheets (Unaudited). The long-term portion was recorded within other long-term liabilities in the Consolidated Condensed Balance Sheets (Unaudited).

The fair value measurement of the contingent consideration is based on significant inputs not observed in the market and thus represents a level 3 valuation as defined by ASC 820.

10. Comprehensive Income

Comprehensive income for the three months ended March 31, 2013 and 2012 was as follows:

	Three Months Ended March 31,

North American Wholesale Segment

Net Sales

Net sales in the Company's North American wholesale segment for the three months ended March 31, 2013 and 2012 were as follows:

Licensing	594	725	-18	%
Total North American Wholesale Segment	\$ 55,243	\$ 56,627	-2	%

The increases in Stacy Adams and Florsheim first quarter net sales were driven by higher sales volumes with national shoe chains. Nunn Bush net sales decreased due to soft sales to department stores in the first quarter 2013. The Company took over the distribution of Bogs in Canada from a third party licensee effective June 1, 2012. As a result, Bogs net sales increased due to sales in Canada in the first quarter of 2013. This increase was partially offset by decreased sales of Bogs in the United States in the first quarter 2013. Management believes that Bogs net sales in the United States decreased because retailers continued to sell inventory carried over from the prior mild winter rather than buying new stock.

Licensing revenues consist of royalties earned on the sales of branded apparel, accessories and specialty footwear in the United States and on branded footwear in Mexico and certain overseas markets.

Earnings from Operations

Earnings from operations in the North American wholesale segment were \$3.7 million in the first quarter of 2013, compared to \$4.5 million in 2012. The majority of the decrease in earnings from operations resulted from the impact of the first quarter 2012 adjustment to reduce the estimated liability for future payments related to the 2011 Bogs acquisition. The adjustment reduced first quarter 2012 selling and administrative expenses by \$518,000. The first payment was made to the former owners of Bogs in the first quarter of 2013; no significant adjustment to the estimated liability was made in the first quarter of 2013.

Gross earnings were \$17.1 million, or 31.0% of net sales in the first quarter of 2013 compared with \$17.3 million, or 30.5% in last year's first quarter.

The Company's cost of sales does not include distribution costs (e.g., receiving, inspection or warehousing costs). Distribution costs for the three-month periods ended March 31, 2013 and 2012 were \$2.9 million and \$2.5 million, respectively. These costs were included in selling and administrative expenses. The Company's gross earnings may not be comparable to other companies, as some companies may include distribution costs in cost of sales.

North American wholesale segment selling and administrative expenses include, and are primarily related to, distribution costs, salaries and commissions, advertising costs, employee benefit costs and depreciation. As a percent of net sales, wholesale selling and administrative expenses were 24.5% in the first quarter of 2013 and 23% in the same period last year.

North American Retail Segment

Net Sales

Net sales in the Company's North American retail segment were up 2% in the first quarter of 2013, compared to the same period last year. There were six fewer domestic stores at March 31, 2013 than at March 31, 2012. Same store sales were up 10% for the quarter, with the majority of the increase in the Company's Internet business. The improvement in same store performance more than offset the sales volume losses from the closed locations.

Earnings from Operations

The North American retail segment had earnings from operations of \$442,000 in the first quarter of 2013, compared to a loss of (\$5,000) in the first quarter of 2012. This improvement was due to higher same store sales as well as the closing of underperforming stores since March 31, 2012. Gross earnings were 65% of net sales in both the first quarter of 2013 and 2012.

Selling and administrative expenses were 57% of net sales in the first quarter of 2013 compared with 65% of net sales in 2012. Selling and administrative expenses for the retail segment include, and are primarily related to, rent and occupancy costs, employee costs and depreciation. The decrease in selling and administrative expenses relative to net sales was mainly due to the closing of unprofitable stores since last year.

Other

The Company's other net sales decreased 3% for the quarter. The majority of the Company's other net sales are generated by Florsheim Australia. For the quarter ended March 31, 2013, Florsheim Australia's net sales decreased 2% compared to the same period last year. This was the result of an increase in Florsheim Australia's retail net sales of 9%, which was more than offset by a 13% decrease in Florsheim Australia's wholesale net sales. The increase in retail sales was due to opening a few new locations in Australia and Asia in 2013 compared to 2012, and an increase in same store sales of 8%. The decrease in wholesale sales was mainly due to lower wholesale sales in Australia and Asia.

Collectively, the operating earnings of the Company's other businesses decreased \$854,000 in the first quarter of 2013 compared to 2012. The decrease in operating earnings was mainly due to lower wholesale sales volumes and higher retail selling and administrative expenses. Retail selling and administrative expenses increased due to the additional retail locations in Australia and Asia.

Other income and expense and taxes

Interest income for the first quarter of 2013 was down approximately \$71,000 compared to the first quarter of 2012, primarily due to a lower average investment balance this year compared to last year. Interest expense was \$127,000 in the first quarter of 2013 compared to \$129,000 in 2012.

The Company's effective tax rate for the quarter ended March 31, 2013 was 36.0% as compared with 35.1% for the same period of 2012.

LIQUIDITY AND CAPITAL RESOURCES

The Company's primary source of liquidity is its cash, short-term marketable securities and its revolving line of credit. During the first three months of 2013, the Company generated \$3.7 million of cash from operating activities, had \$2.8 million in proceeds from maturities of its marketable securities, and had \$2.5 million in proceeds from stock option exercises.

The Company paid no cash dividends in 2013 and \$1.7 million during the three months ended March 31, 2012. The Company's first and second quarter 2013 dividends were accelerated into 2012, and were paid December 31, 2012. The Company plans to resume its regular quarterly dividend payment schedule in July 2013.

The Company continues to repurchase its common stock under its share repurchase program when the Company believes market conditions are favorable. During the first quarter of 2013, the Company repurchased 172,885 shares at a total cost of \$4.1 million. As of March 31, 2013, the Company had 650,640 shares available under its previously announced stock repurchase program. See Part II, Item 2, "Unregistered Sales of Equity Securities and Use of Proceeds" below for more information.

Capital expenditures were \$564,000 in the first three months of 2013. On May 1, 2013, the Company purchased a 50% interest in a building Montreal, Canada for \$3.4 million. The Company previously leased this facility, which is used as its Canadian office and distribution center. Management estimates that annual capital expenditures for 2013 are expected to be between \$5 million and \$6 million.

At March 31, 2013, the Company had a \$60 million unsecured revolving line of credit. The Company repaid \$7 million net on its line of credit during the first quarter 2013. At the end of the first quarter, the Company had \$38 million outstanding under the facility at an interest rate of approximately 1.2%. The Company's borrowing facility includes one financial covenant that specifies a minimum level of net worth. The Company was in compliance with the covenant at March 31, 2013. The line of credit agreement expired on April 30, 2013 and was renewed for another term that expires April 30, 2014 at essentially the same terms as the prior agreement.

In conjunction with the Bogs acquisition, the Company paid contingent consideration of \$1,270,000 in March 2013 and a second payment is due in March 2016. See Note 9.

The Company will continue to evaluate the best uses for its available liquidity, including, among other uses, continued stock repurchases and additional acquisitions.

The Company believes that available cash and marketable securities, cash provided by operations, and available borrowing facilities will provide adequate support for the cash needs of the business for at least one year, although there can be no assurances.
